I understand that the residents of 90 Edison Street have petitioned the Commission to allow the improper fence sounding the front yard to remain. This violate the Court ordered settlement (case 09-014686-No). The residents of 90 Edison have plant trees that obscure the line of site creating a safety issue seeing beyond this hedge. I do not believe that the hedge adds to the safety of current or future resident of 90 Edison and does jeopardize the safety of the rest of the neighborhood.
