Mayor's Office

Honorable City Council:

As we gather today for the presentation of my 2004-2005 budget our voices are rising in city halls and council chambers across America.

Our nation is at war. The economy is sluggish. State funding cuts are cutting into the quality of health care and pensions is staggering.

These facts are universal. Every city is feeling the pain.

Here in the great City of Detroit this is our reality. But today I present a budget for 2004-2005 that — while making cuts and calling for sacrifice — provides for accountability and reengineering that can start us back toward solid financial health.

At the very beginning of this process, as we began to crunch the numbers,

2 percent of our revenue comes from property taxes — far and away the

sharing funds, both extremely vulnerable to fluctuations in the economy.
venues rank third, followed by our newest source of income, casinos.

y small percentage of revenue we receive from property taxes is the result

suburbs. Beyond that, we simply do not have as much property to tax as

mises from the state, and budget shortfalls and deficits are nothing new.

ness in the City of Detroit we will pay the price.

As I said at the beginning of this address, the projected shortfall for 2005 is \$264 million when we started the budget process.

Beyond the forces I have already described, the single biggest cause of the budget shortfall is the exploding cost of funding healthcare benefits and pensions for our employees.

In fiscal year 2004-2005, the cost of paying for our employee healthcare is increasing by \$114 million. That is an increase of 22 percent. Despite the increase, we have once again eliminated the shortfall.

The budget I present to you today is balanced. It also calls for changes in our financial future no longer hangs in the balance.

To eliminate the shortfall of \$264 million, we have not hit every department with a arbitrary cut. Rather we have continued a management process of examining operations, identifying inefficiencies or duplication of services, and eliminating them.

We have had to make some hard choices in the process. But we have a clear goal of making government more efficient and more effective. We have saved money through cuts in those areas where we know — that with smart management — we can do more with less.

The legendary Jack Welch, the former Chief Executive Officer of General Electric, said, "It's in the worst of times that things get fixed." Cutting budgets does not mean cutting services. It can mean finding smarter ways to get the job done. This administration has been working to do since we took office.

Examples of our success include the restructuring of solid waste and bus operations. For decades the system had been haphazard and, increasingly, costing more through the roof. In the past year we have reorganized the system to serve customers more efficiently, and with fewer employees. The number of stops on each route has been reduced and we are realizing major savings by not having trucks crisscross the City.

We also deployed 1,100 litter containers throughout Detroit and cleaned up streets on two shifts, 7 days per week in the Central Business District. As a result, the streets are cleaner, trash collection is more efficient, and we are saving money.

Even as we managed with reduced resources, we have been able to bring about a positive change in the way we do business.

Last year I told you we would cut the grass in our city parks on a 10-day cycle. It is a thing that had never been done. We did it.

This winter, for the second year in a row, we had a successful snow removal season. That too had never been done before.

Last year we resurfaced 160 miles of streets, the most miles every corner of the City in a year.

Last year we also moved responsibility for maintenance of trees and greenways, greenways, and beltways from the Recreation Department to a new Department of Parks and Recreation. This has significantly improved our ability to take care of some 200,000 trees. We are taking down dozens of dangerous or diseased trees every week — with the goal of planting new trees in their place.

One of the cornerstones in our process of reengineering is the Program Management Office that was created last year.

Under the direction of Chief Financial Officer Sean Werdlow, the Office has made automatic progress in modernizing departmental practices that in some cases go back to the beginning of the last century.

As you may remember, many of the problems with the DRMS system were due to the fact that the City was trying to adapt computer software to fit woefully outdated business practices. With Sean's guidance we have flipped the script. Instead of customizing state-of-the-art software to a department's ancient billing system, we are customizing the billing system and bringing it into the 21st century.

Just by updating our own systems instead of customizing the DRMS software, we can save \$3 million in the coming fiscal year.

The PMO is also upgrading our property assessment system to better serve our customers. The Office is replacing a computer system that's been around since I was in high school grade — with a system that will allow property owners to get tax bills at the neighborhood city hall.

Additionally, the City is developing a centralized accounting system for our DPW to better track cash flow, do monthly budget-goal reports, and closely track expenses. I name just a few examples.

At DPW, we are working to create a centralized, computerized fueling

into a handheld device and download it directly into the billing system. This and money.

In my State of the City message I said we must Dare Mighty Things together for Detroit. Dealing with the crushing economic forces that are squeezing Detroit across this nation is a Mighty Thing.

Making tough management decisions, reengineering government, changing the culture, and paving the way to a solid financial future. These are Mighty Things.

They do not happen overnight, and they require hard work to get done. Management guru Jack Welch always held to the belief that you "face reality decisively." That's what this budget does. That's what my administration is doing.

But Jack Welch also said "by reaching for what appears to be impossible, you can actually do the impossible." The challenges before us are daunting — and some seem impossible — but we can overcome by reaching together.

This budget is the next step in the process to turn the tide, effect real change in government, and start us back toward solid financial ground.

THE DETROIT CITY COUNCIL
2004-2005 FINANCIAL AND BUDGETARY PRIORITIES
PUBLIC POLICY, PLANNING AND ACTION RESOLUTION

Member McPhail:

The Detroit City Council has held extensive hearings and deliberations on the budget as proposed by His Honor, the Mayor; and

On Monday, May 24, 2004, the Detroit City Council adopted a budget that sound budgetary principles for municipalities, well reasoned financial based on past performances, stated goals and projections for city departments and agencies, and in consideration of the profound fiscal uncertainties in the economy and the anticipated revenue reductions from federal and state sources, and

The Detroit City Council, has adopted a budget that incorporates the City Council's financial and public policy priorities to provide for improved and expanded government services and service delivery to all communities, residents, citizens, institutions and businesses in this great city; and

The Detroit City Council, in adopting its 2004-2005 Budget, has reinforced a core set of policies, objectives and programs that are intended to result in more efficient, effective and accountable governmental operations, and to significantly reduce the City's reliance on out-side contractors performing city services while seeking to maximize employment of City workers; and

The Detroit City Council adopted its 2004-2005 Budget including reprogramming and restructuring of \$_____ in governmental operations to be consistent with the budget and priorities of the City Council, including increased funding for the Women's and HIV/AIDS Commission and the purchase of Video/Media equipment upgrades necessary for Cable transmission all of which are under the jurisdiction of City Council; as well as funding for the Mayor's Management Center which has as one of its central missions the implementation of the targeted Business Development Ordinance to greatly improve the creation and growth of locally-owned, minority-owned, disadvantaged-owned and women-owned businesses and enterprises; and

The Detroit City Council recognizes that a major funding source within the current budget is the sale of \$1.2 billion dollars worth of Pension Obligation Bonds. It is contemplated to reduce pressure on the general fund by funding the accrued liabilities of both the General Retirement Pension as well as the Police Pension. City Council expresses grave concerns relative to the magnitude of the City's indebtedness, and by submitting this budget, Council does not adopt a plan to sell pension obligation bonds or certificates and does not by this resolution authorize the sale of such bonds or certificates; and

There are one million and five hundred thousand dollars (\$1,500,000) in the Drug Forfeiture Fund, City Council requests that a total of six hundred thousand dollars (\$650,000) shall be placed in the police department's

- Full restoration of funding for Department of Transportation to all (112) slated for layoffs,
- Funding of Department of Planning and Development staff derived from Fund and not from HUD Block Grant funds,
- Funding of ten (10) FTEs demolition staff in the Department of Building Engineering out of funds from the General Fund and not from HUD Funds,
- Restoration of partial funding to the Auditor General for three (3) Auditor General positions slated for layoffs,
- Restoration of funding for the Department of Public Works to retain (73) FTE's slated for layoffs,
- Partial restoration of funds to Health Department to retain the two (2) officers and three (3) food inspectors slated for layoff,
- Funding for a Drug Free Partnership program within the Health Department,
- Funding for two (2) living wage ordinance analysts in Human Rights Department,
- Funding for two (2) City Clerk positions assigned to archival storage;

WHEREAS, The Detroit City Council has completed its review process of the 2005 Community Development Block Grant (CDBG) program, including recommendations by the Mayor, the City Planning Commission and the City Council Committee; and

WHEREAS, The City Council was presented last year with the U.S. Department of Housing and Urban Development's (HUD) "City of Detroit Management Review Report" which raised issues related to how the City expends HUD funding, and, moreover, whether the funds are allocated in a manner that increases the quality of life for all residents, and to that end, stressed the need to fund fewer groups at larger amounts so that groups have adequate funding to achieve greater impact; and

WHEREAS, The HUD report also stressed the need for the Five-Year Strategic Plan to be used as the basis for setting priorities for funding, with the highest priority placed on housing stabilization, new housing construction for low-income families, homeless services and prevention, services to special and/or underserved populations (especially the homeless, elderly, disabled, domestic abuse survivors, HIV/AIDS, and persons with alcohol/other drug addictions), lead-based paint abatement, anti-poverty measures, and economic development; and

NOW THEREFORE BE IT RESOLVED, THAT THE 2004-2005 BUDGET FOR THE CITY OF DETROIT INCLUDES THE FOLLOWING BUDGETARY PRIORITIES, KEEPING WITH THE CITY COUNCIL MISSION TO PROMOTE PROCESS EFFICIENCY THROUGH THE USE OF BEST PRACTICES FOR THE BETTERMENT OF THE RESIDENTS AND ENTITIES LOCATED IN THE CITY OF DETROIT:

36th District Court — Council calls for restoration of funding for the 36th District Court to the previous year's level. The drug court has achieved a multitude of accomplishments and its efforts should continued to be a high priority. Families and businesses value a community that is both safe and sober. Drug prevention and rehabilitation programs play a critical role in the resurgence of our City. The Court is a vital and important part of this work. Council is committed to working with the District Court and the Police Department to ensure the continued success of the drug court.

Administrative Hearings — Considerable time and energy has been expended in the development of the mechanics and infrastructure of this newly created Department. The promised efficiencies in the enforcement and collection of fines from various ordinances relative to the dumping of environment waste and other matters will be welcomed. The six-month start up for the department will delay submission of the budget for six (6) of the new fiscal year.

Council requests that it be provided monthly analysis and reports on the results of the Administrative Hearings held, the demographics of those who have appeared before the Administrative Hearings (e.g. resident or commercial), the average amount of fines levied, the disposition of the collection of fines (fines paid or assets seized), and the number of cases waived, dismissed, appealed.

Auditor General — The Auditor General has advised Council of the need to control the cost of City government due to falling revenue projections and increasing expenditures. To that end, Council reemphasizes the Auditor General's call for the development of risk management strategies to substantially reduce the City's liability in high-risk areas such as liability claims. A central focus of the Auditor General's report is to perform independent audits of City departments and agencies to

dition projects with the associated costs for each parcel, and a bi-annual development activities or non-development activities for parcels owned by owners who own multiple properties where there has been a track record of fires, fires, report on citizens who have applied for nuisance abatement ... citations, how long in the city system, and what procedures stalled the citizen receiving title/deed relative to nuisance abatement. Collections from ticket violations have been projected as a component of operations, Council requests that money be placed in the budget for department agents.

Airport — The City Airport is an enterprise agency that receives a 2.57 million plus 1.5 million dollars in fire support. Council is aware of the importance as an economic catalyst to the business and corporate community in surrounding areas. However, it is essential in the present austere times that seek emancipation from the General Fund by expanding services and fees so that the airport can become self-sufficient.

The City Airport is a great asset to the City of Detroit. The airport is currently a regional carrier to provide more service to our community and as a step in good financial footing. Other similarly sized airports have proven that they can be a regional carrier. It is important that the airport remain operational as it seeks to be a regional carrier and takes other steps to become economically self-sufficient. Council urges the airport to identify a major carrier to resume commercial passenger travel at the Detroit City Airport during the 2004-2005 budget year, and a status report of such efforts be provided to Council on or about February, 2004.

Archives — Council has requested that funding be restored for the archival system.

Equipment — The City Council has provided funds for the purchase of eight (8) pieces of equipment upgrades. The equipment currently being used is antiquated, as of the early 1980's, and is often in need of extensive repairs, and produces poor audio transmission quality. The purchase of new equipment will cost \$100,000. Funds have been provided for this purchase in Council's budget.

Senior Outreach — Council requests that the department work to facilitate special outreach efforts to connect Senior Home Repair Program with grassroots trades people who have the capacity to address senior's needs, but who have been denied access to the traditional trades organization as a result of long-term systemic inequities.

Monitoring — Council recognizes the need to ensure monitoring and compliance with the City's Living Wage Ordinance. Council will explore methods such as contracting with organizations like the Living Wage Project at the Maurice and Jane Sugar Law Center to ensure monitoring and compliance with the Ordinance.

Affairs — Council requests that the department prioritize the protection of the city's historic sites and enforcement of existing ordinances such as the ordinances governing signs adjacent to the downtown stadiums.

Cultural Affairs & Tourism — Rejecting the Mayor's budgetary proposal to fund three positions in the department of Cultural Affairs and Tourism, the City Council has approved the move of the Cultural Affairs Department as it presently operates under its 2003-2004 budget. Council expects that the administration will follow the dictates of the 1997 ordinance through the appointment of the required Council of the Arts for that department. Council requests that the City Council fund the move of Eastern Market to Cultural Affairs; the Hart Plaza back to Civic Center, and Chene Park back to Recreation Department.

Arts — Council recognizes that the per capita tax on spending for the Arts in Detroit is a fraction of what other major U.S. cities are spending. Some efforts should be made to increase grant funding to the arts and the development of a comprehensive plan for local artists of all kinds and performance venues within the city. Council requests that the city use venues that are owned and operated by the city.

Arts & Tourism — Council requests that the department conduct an analysis of the tourist population and its impact on the city's hospitality industry. Quarterly updates on the efforts to develop and protect the city's natural resources in the arts and how to positively impact the city's economy by maximizing Detroit's art treasures and the arts community. Bi-annual reports on the economic growth and development of the city building on the City's demographic diversity.

Transportation — Council directs its divisions, the Research and Analysis Division and the Department of Transportation to work with Budget, Finance, Downtown Development Authority and the Transportation Authority to explore options available for funding operations of the

junction with the Administration to look carefully at this department with the opening true structural reform. Structural reform geared towards streamlining to provide services at a real value should be the ultimate goal. Such reform as a permanent cure to an ailing system that, thus far, has been subject to temporary fixes.

The City Council is concerned about the numbers of management in departments, and especially in this department. This is a concern that the Council will monitor throughout the coming budget year. To address that concern, the Council has stated that it will implement a new supervisory to employee ratio on teams in areas such as bus maintenance. Combative labor-management relations have persisted far too long and warrant immediate and comprehensive redress.

The Council has expressed serious concerns over the proposed layoffs within the Department of Public Works and has restored all (110) of the FTE positions to the department's budget.

The City Council has restored funding for the continuation of free bus service for senior, handicapped and disabled riders. The City's effort to comply with the Americans with Disabilities Act (ADA) by providing wheelchair lifts, written bus schedules and other services will be monitored by City Council through the coming fiscal year.

The Council will continue to monitor actions at the department and request that reports be submitted to the legislative body on bus repairs needed, parts received, available vehicle for transport, overtime, etc.

Debt Service — Council requests that it be provided with a bi-annual analysis reflecting the long-term impact of the debt service on the projected fiscal year for the city. The analysis and report should include comparative reports of debt service ratios in place in the nation's 10 largest cities.

Detroit Building Authority — City Council will closely monitor contract authority to ensure that it operates within the appropriate boundaries, especially the contracts set forth in Sec. 8 of Public Act 31 of 1948, the enabling legislation which provides some ability to contract for services.

Detroit Cable Communications Commission — The Cable Commission should endeavor to provide equal time for its government programming among the executive and legislative branches; and should utilize all available on-air hours with priority rather than postings.

Detroit Housing Commission — As a completely separate entity, this commission should be a city department and should be completely eliminated from any and all budgetary subsidy or in-kind service. The DHC should also receive an accounts payable from the City of Detroit for sums owed.

Detroit Public Library — Council requests that proceeds from the sale of properties and goods through the Friends of the Detroit Public Library be paid to the library. Council further requests that the library pursue an increased program of African-American Culture utilizing the natural resources and the rich demographic culture of Detroit and a report be provided to Council on progress in this area annually.

Election Commission — Council urges the city's lobbyists to advocate with the Governor and State Legislature for a change of Michigan law to permit expedient absentee voting.

Environmental Affairs — The City Council will expect to receive the annual city-wide strategy to address city-owned properties as it relates to the code enforcement bureau. This strategy is a critical element missing in the strategy, planning and regulations for a proposed Administrative Hearings Department.

Finance — The City Council has reinstated two (2) positions to monitor the implementation and enforcement of the living wage ordinance. This will reveal the problems that need to be made in the ordinance, and provide the documentation for the ordinance.

Grants Acquisition Office — The City Council hereby requests and expects to receive quarterly reports on the status of all grant sought, applications submitted, awards received requests denied, reports filed, renewals sought and obtained.

Health Department — The department is requested to develop language for an ordinance that would restrict the number of fast food franchises in the city. The ordinance should require that health, nutritional fare be fully represented in all food outlets in the city to maintain or access approval. Council recommends that premiums be added to the rates for employees who commit to exercise, no smoking, no alcohol (compensatory time). Partial restoration of funds to Health Department retain the two (2) animal care officers and three (3) food inspectors slated for layoff.

Historical Department — Council requests that the historical and cultural

Parking — The City Council has resolved that there should be a mecha-

Capital Improvements — Council requests that the demolition of Ford

Payables, Due Tos and Due Froms, that the General Fund was owed \$62 million. This is the reason, Council requests quarterly monitoring of the Due Tos and Due Froms by the Auditor General along with corresponding reports to the City Council.

The City Council calls for the establishment of a Blue Ribbon Commission to review the overall fiscal structure of the City. In this regard, it is anticipated that the Commission would provide advice and counsel to the executive and legislative branches of the City government in order to deal with fundamental structural financial weaknesses that have plagued this City for many years.

Police — City Council expresses concern regarding the ability of the Department to achieve compliance with the requirements of the consent judgments between the City and the U.S. Department of Justice. The consent judgments have set explicit timelines for compliance yet many issues do not appear to have been resolved and the funding necessary to meet the federal monitor's requirements has not been established.

Concurrently, the source of funds to achieve compliance has not been identified. Council has also been unable to have its questions answered regarding the amount of funds expended to date to achieve compliance. Council will monitor the Department's progress throughout the coming year and will seek answers to its questions. Council plans to achieve compliance, funding necessary to achieve compliance has not been expended to date.

Compliance with the requirements of the consent judgments is a complex task that requires comprehensive risk management strategies ensuring that measures are implemented which will result in reduced exposure to litigation and subsequent costs that which drain the City's resources.

It has been proposed that the department will expend \$2.45 million in budget to bring precinct holding cells into temporary compliance with the federal recommendations regarding holding facilities. This money is proposed to be used for items such as a fire suppression system, upgraded HVAC systems, fire detection and exhaust system and In-Cell video cameras. Issues remain as to whether the department address renovations bringing facilities into compliance with the National Fire Protection Code. Council believes that the proposed measures are a temporary fix to a long-term problem. A permanent solution to the holding cell deficiencies must be found. Temporary term fixes, while necessary, should not act to delay the development and implementation of a viable long-term solution to this ongoing problem.

It has been proposed that the existing facilities at 36th District Court could be used as a permanent solution to the central processing and holding cell facilities located in the department. The proposed renovations would allow the City to provide the constitutionally mandated conditions of confinement for prisoners and suspects in a cost-effective financial impact on the City of Detroit. Council therefore has expressed interest in proceeding before the issuance of bonds for precinct renovations, that the department provide detailed information regarding its long term plans for compliance, respond to previously submitted questions from Council and a formal response to the Detroit Center Limited Partnership Courthouse Renovation Proposal.

There has always been great emphasis on the KIDS and COPs components of the City's promotion and the need to develop positive leadership training skills for our most precious resource: the City's youth. Council requests that youth outreach programs be expanded and adequately funded and has therefore, taken money from the amount recovered through the Drug Forfeiture Fund and allocated it to the Explorer Program at every precinct. Council also urges that money obtained through the Drug Forfeiture Fund should be budgeted as special revenue.

Council requests that sensitivity training should also be implemented at all levels of the department.

City Council continues to call for meaningful civilian oversight and input into the department and the transition of the staffing of the department to civilian positions through an increase in civilian positions and transition from officer positions to civilian staff where practicable.

Given the prominence and importance of the City of Detroit as a major economic and entry gateway to the nation, the Council believes that greater resources should be allocated from the federal government in order to accomplish the Department's Homeland Security initiatives of the nation.

Council also requests that the department take steps to ensure that all mobile units be equipped with functioning video and communications equipment.

The Detroit City Charter requires that the Police Commission review and

and outsourcing and privatization within the department.

Cuts — The City Council undertook to restore 73 FTE positions that the City had eliminated for layoffs. These positions were restored to provide assurance that refuse pick-up services would be maintained.

Efforts have been made to settle lawsuits in the past five years. In an effort to reduce lawsuits, Council requests that money be placed in the budget to add two additional employees and a centralized hotline to report and address sidewalk defects.

Systems — City Council expresses its concern and will monitor developments regarding the issuance of pension obligation bonds/certificates to finance the accrued liabilities to the retirement systems. While recognizing the need to meet the City's obligations to these systems, questions have been raised regarding whether debt instruments can be properly issued under existing law, how the instruments should be structured, whether the certificates constitute new debt for the City, and the amount of the proposed borrowing. Council does not approve the issuance of such bonds/certificates at this time but rather reserves its decision in this regard until such time as the specific plan and resolution for issuance of such bonds/certificates is brought before Council.

Council urges the Administration to maintain Camp Brighton and takes steps to prevent the facility from closure. Camp Brighton provides a unique environment for both youth and seniors from urban Detroit that cannot be duplicated elsewhere. Council also believes that it is not desirable to expand fees for services provided at the City's various parks and recreation facilities. Resources should continue to be devoted to maintaining and upgrading the City's recreation facilities.

Risk Management — Chapter 7 of Article 9 of the 1997 Detroit City Charter provides for the establishment of the Risk Management Council and charges the body with the responsibility of investigating and reporting on risk management in the City. As the Auditor General stated in his report dated May 4, 2004, "the amount of lawsuit settlement payments increased substantially in fiscal year 2003-2004, following a three-year high in 1999-2000 level." Given the critical nature of the FY 2004-2005 budget and the fiscal outlook for the next several years, it will be essential that the Risk Management Council expand its role to monitoring risk management activities in the City. The Council should include avoiding more costly lawsuits by the establishment of risk management protocols and benchmarks at the departmental level along with integration of risk management on a city-wide basis. Simply stated, the old axiom that "prevention is the best cure" is more than applicable to the City in this case. In this regard, the City Council should be examining the role of the Risk Management Council and will work collaboratively with the Auditor General in order to come up with meaningful solutions through quarterly discussion with the Risk Management Council and the staff of the Auditor General.

Council requests for the City to make develop and implement meaningful risk management programs. The Risk Management Council must be empowered to meet, develop, and implement a meaningful risk management program across all departments. Through such efforts, the City's risk exposure can be brought under control and thereby reduced thereby contributing to the safety and health of City employees and thereby contributing to responsible financial management of the City's resources.

Workforce — Labor Management issues persists many of which are raised because of increased prioritization of city services by outside contractors at the expense of city workers is of concern to City Council, particularly where work contractually performed by existing city workers. The recently passed Privatization Ordinance and the City Charter of 1997 mandates use of city workers before contracting with outside contractors. The City Council will monitor the contracts to assure compliance with the Privatization Ordinance.

Council requests that the department reinforce customer services by responding to customer concerns, whether generated internally or externally, in a timely and professional manner. A policy of periodic follow-up with written reports should be implemented and followed to ensure that the customer concerns have been addressed and resolved.

Council requests that the department must be monitored to ensure that contract terms are met and that contract representatives and employees are delivering services to customers in a professional and courteous manner as City employees; and

RESOLVED, That the Detroit City Council's CDBG budget funds 235 positions (of which 210 are for community groups) and clearly reflects priorities in the budget, including the repair to community groups (\$3.7 million), citywide senior emergency

budget) and demolition (\$1 million reduction in Mayor's budget) so that funds are available to support community-based organizations meeting criteria for low to moderate income residents, and the City Council intends to continue the allocations in CDBG for City staff and demolition in each future year;

BE IT FURTHER RESOLVED, That in the following months, the City Council will work with the Administration on a comprehensive, coordinated planning process that includes equal participation by both branches of government, that reflects the input of both the City Council and the Mayor and that will be the basis for the City's 2005-2010 Five-Year Consolidated Plan, as well as the basis for allocating funds beginning in the 2005-2006 fiscal year; and

BE IT FINALLY RESOLVED, That the City Council continues to be alarmed that the City does not have a comprehensive housing strategy given current trends in the housing market and the growing need for quality, affordable housing, and urges the Administration to work collaboratively to prepare and adopt such a strategy, and, at the same time, to make a commitment to prepare its own housing policy framework reflecting its own priorities.

STATEMENT BY S. COCKREL IN OPPOSITION TO THE RESOLUTION AUTHORIZING THE FINANCIAL AND BUDGETARY PRIORITIES, PUBLIC PLANNING AND ACTION

On Monday, May 24, 2004, I voted in opposition to this resolution on the 2004-2005 budget. I am appalled at the sloppy and inaccurate information in the resolution and I disagree with major portions of it on public policy issues. For example, I offer the following factual problems:

- The City Council has not taken a position on the Pension Obligation Certificate. The language suggests that the City Council has agreed that there are greater obligations. This is not a correct statement. Council has not acted on this issue.
- The City of Detroit has allocated \$6,150,000 for capital improvements for the Department of Justice consent decree compliance, not \$2.45 million as stated in the resolution. The \$6,150,000 figure is shown in the capital budget for FY 2004 as well as in a report from the Budget Department dated May 7, 2004.
- The language regarding the Housing Commission appears to suggest that the Housing Commission is still in the budget when it is not.
- The Council established a Women's Commission in the Fiscal Year 2004 budget. I fail to see how this commission will help the Human Rights Department with EO 4 and EO 22 compliance.
- The Council did not restore \$167,000 necessary for the Ombudsman's office to continue the student internship program.
- It is my understanding that based on a report from the Budget Department dated May 20, 2004, the amount of money available for use is \$1.5 million, not \$7.5 million as stated in the resolution.

Secondly, I disagree with the following public policy issues:

- I am not convinced that the Council can legally request that the Building Department Engineering Department earmark revenues for "department ticketing and enforcement."
- I do not agree that the central issue in the Department of Transportation is "the actions of its members of management."
- I am unclear as to what is meant by "debt service" in the context of the resolution. Debt service is generally defined as the payment that is made pursuant to a bond sale. It is equally unclear why we would be comparing debt service to other cities' ten largest cities. It would make more sense to compare bond issues to other cities that are the most similar to the City of Detroit.
- The City Council has not agreed on a parking rate strategy for visitors to the City. To my knowledge, we have been advised by the Municipal Parking Department that we cannot lower rates without a funding source because it would affect the City's ability to pay its bills.
- I have no recollection of the Council agreeing to develop an ordinance that would limit the number of fast food franchises in the City of Detroit. Nor do I recall the Council agreeing to recommend that "perks" be provided to City employees for their health and safety, not smoking and not drinking alcohol. I question the authority of the Council to do so.

STATEMENT BY COUNCIL MEMBER S. COCKREL IN OPPOSITION TO THE COMMUNITY DEVELOPMENT BLOCK GRANT BUDGET

On May 24, 2004, I voted in opposition to the Community Development Block Grant budget. For the FY 2004-05 budget, the hallmark of the CDBG process is the overall lack of procedure, structure, strategy or direction. Instead, the CDBG budget is riddled with favoritism amounting to a loose collection of personal agendas that can only be characterized as a political pork barrel.

The City Council had agreed to *de facto* guidelines to bring some semblance of order to the CDBG process. Given the dire financial situation of the City this year, the Council made to develop strategies to even-handedly allocate CDBG funding. The Department of Housing and Urban Development (HUD) had issued a model of HUD programs in the City of Detroit. In its review, HUD had indicated that the goal for the City to eliminate unwieldy bureaucracy and to focus funding on projects with an eye towards creating a complete and visible turnaround.

These guidelines were not followed. Strategies were cast aside. The message of HUD was ignored. As a result, we are left with a CDBG budget that shamefully ignores all principles of fairness and order. We are left with a CDBG budget that is not an integrated, comprehensive plan designed to focus funding in order to create visible and lasting change.

During the hearings on the CDBG funding, there were many groups that were qualified to receive funding. For inexplicable reasons, certain other groups that had received funding for years, yet offered no visible results, are receiving funding. In order to build up the vitality of this City, this Body needs to follow its own principles of public policy and commit itself to making the hard choices that did not happen for the FY 2004-05 CDBG budget and for all these years.

STATEMENT BY COUNCIL MEMBER S. COCKREL REGARDING NO VOTE ON THE FISCAL YEAR 2004-2005 CITY COUNCIL BUDGET

After much consideration and thought, I am voting no on the Fiscal Year 2004-2005 budget adopted by the City Council. I believe in many of the priorities that have been set by the Mayor and the City Council. However, I do not believe that the City Council provided the level of deliberation and debate on the public policy assumptions at the time of this budget. Furthermore, I am not convinced that to arrive at the conclusion to allocate 5.5% to the General Fund, 5.5% to Operating Supplies, 1.5% Operating Supplies to Contractual Services was a reasonable action.

I believe that across the board cuts are a good policy approach. I believe that it is important that Council members be at the table during Executive Sessions. This year's session can only be characterized as unnecessarily confusing. I believe that the decisions that were made were done without the level of scrutiny that budget decisions require.

I know how difficult it is for those City employees who face layoffs. There are many who will suffer. There may be individuals who will find it extremely difficult to find employment. It is a serious blow to one's self-esteem to be "let go." Our highest unemployment rate in the state and we must never forget those who have given up looking for work and continue to live in despair. Yet even with that acknowledgement, we cannot avoid the reality that layoffs are a part of the budget that were in last year's budget.

I believe that it is long overdue for this Council to face the fundamental structural problems that our City government must grapple with. We cannot ignore the problems as the Council continues to vote with their feet. 34,000 Detroiters have left the City in the past years according to SEMCOG data. There is a 16% delinquency rate in tax payments. We must look at all aspects of City services and set priorities for the provision of services for a City with a population that is slightly over 900,000.

BUDGET ADDRESS
Maryann Mahaffey, President
May 24, 2004**

INTRODUCTION

By any measure, this budget year was challenging. While City Council over our continuing fiscal woes have seemed like a broken record in the years, in reality it signals a broken fiscal structure.

Detroit's 2004-2005 fiscal year budget has a fundamental problem: expenses increasing faster than revenues. Like many, if not most cities, Detroit faces a shortfall. The reasons for this deficit are complex.

In his budget message, Mayor Kilpatrick examined the soaring increases in benefits and pensions costs. He also clearly pointed out that declines in our income tax revenues and state revenue sharing funds have a devastating effect on our ability to generate funds for services.

A study commissioned by the Michigan Municipal League shows that in Michigan in 1994, the difference between taxable and state equalized value has become significant. In Detroit, we've lost more than one-third of our state equalized value to our out-of-state residents. The report goes on to state that two constitutional amendments, the Headlee Amendment and Proposal A, have had adverse effects on property tax revenue collected by local governments. It states:

"Property taxes and state shared revenue are the major revenue sources for the General Fund of local governments. While local governments supplement their resources with fees and charges for services, there are limitations and restrictions on the amount of fees and charges that local governments can enact...the municipal revenue model is broken. Absent changes, local governments are on a financial collision course."

Our deficit is caused by other budget decisions made at the state and federal levels as well.

In addition to cuts in revenue sharing funds, we are also hurt financially by policies enacted at the state level. The Center on Budget and Policy Priorities reported in 2000 that if the State implemented multi-year tax reductions, Michigan's revenue stabilization fund would be quickly exhausted and a budget deficit approaching \$1 billion would occur. Unfortunately, their prediction proved somewhat optimistic.

According to the Michigan League of Human Services, virtually the entire deficit projected for FY 2005 is attributable to revenue losses directly related to the year tax reductions. We need to stop the rate reductions if we want to preserve the long-term fiscal health of the state and consequently, our city.

On top of our national loss of more than 700 soldiers killed and more than 3,000 wounded in action, and the thousands of Iraqi civilians who have been killed and injured, the Bush Administration has spent more than \$150 billion for war in Iraq. If we approve the \$25 billion request, Michigan taxpayers' share will total \$775.4 million, according to the National Priorities Project.

To compensate for this increased military spending and tax cuts totaling \$1.5 trillion dollars to the richest one percent of Americans, President Bush is proposing social spending cuts in his budget. Under Bush's proposal, state and local governments will suffer a \$6 billion shortfall, according to Cities For Peace and other watchdog groups.

The amount of aid that Detroit receives from the federal government has

by we face the dire financial situation that we do now. What is important is to achieve fiscal stability.

PICTURE" BUDGET ISSUES

thus began its work under difficult circumstances with a challenging many the budget that we approved reflects the priorities and preferences that a democratic process of review, debate and compromise.

A vision and strategic plan:

ize the city must balance its budget annually, but agree with the Auditor the continuing reliance on short term fixes, "gap closing" by any means is fundamentally flawed. Borrowing money through deficit bond funding does not solve and overall financial capacity. When resources are limited, it's even more important that our most important, highest priority needs are identified and met through strategic planning. We must grow our way out of budget crises that will recur again unless we approach them with policies that are fair, forward looking long term strategies as well as short term remedies.

joins with the Auditor General and others in calling upon the Mayor to prepare a plan for allocating our resources. Setting goals and priorities should drive the process, not follow it. City Council, labor and community participation in shaping a strategic plan is critical.

an important part of any strategic plan is a viable risk management policy. Risk management liabilities are continuing to grow. As our Auditor General points out, the city has not adequately identified and addressed the causes of damage, liability and work-related claims against the city. We must analyze and address these problems in order to gain financial balance.

Wage Ordinance:

More than 80% of Detroiters voted to pass a Living Wage Ordinance. The ordinance was enacted into law by the City Council. Since the passage of this ordinance, the city has funded positions for Living Wage monitors within the Finance Department. For the past two years, City Council has taken actions to restore these positions. The Mayor proposed to eliminate them. We have questioned the Administration about why the positions have never been filled.

It is obvious that the Administration is not serious about implementing the ordinance which is expressly intended to "improve the lives of working people and families by requiring employers that contract with the City...to pay their employees a wage sufficient to meet basic subsistence needs."

Not to fund these positions and enforce the ordinance puts the city at risk. A prudent action would be to minimize our exposure to lawsuits, commit to fair treatment of workers and families in Detroit, and enforce the ordinance. Toward these ends, the City Council has once again provided funding for two Living Wage monitor positions. We will be watching.

Affairs Department:

Over the years the Consumer Affairs Department has been the first line of defense for consumers. According to the City Charter, this department is charged with developing and enforcing consumer protection, enforcing laws and ordinances, prohibiting fraudulent business practices.

The Mayor proposed to eliminate the Consumer Affairs Department. His proposal was unanimously rejected by City Council. In 2003, the Mayor once again proposed the elimination of the Department and Council once again rejected his proposal.

As a result of the Council's actions, the Mayor has in effect decimated the Consumer Affairs Department by separating the licensing and permits, weights and measures and regulatory functions and spreading them into three other departments. Other programs within the Department have been completely eliminated.

Consumer Affairs plays a pivotal role in the protection of our citizens. This department is essential in order to carry out its duties effectively. We have taken the matter to court and are awaiting final judicial action. In the meantime, we are fully restoring funding to the Consumer Affairs Department. We urge the Mayor to abide by the City Charter.

Housing Commission Is Separate:

In 2003, the Michigan Supreme Court issued a final decision, in essence that the Detroit Housing Commission (DHC) is a completely independent and separate entity. Reluctantly, the City Council has accepted this final ruling of the Michigan Supreme Court.

employees with health and pension benefits. This plan, or Memorandum has yet to be presented.

In the meantime, City Council moved to save many housing employees layoffs during the 2003 holiday season, by subsidizing the DHC in the city passed a total of three resolutions, extending the time to allow documents in order not to disrupt the functioning of the DHC. In spite of Council's effort with the Administration and Housing Commission, the Director of the DHC Commission refused to appear at a scheduled budget hearing before the Council.

The Detroit Housing Commission has acknowledged indebtedness in excess of \$18 million relative to services and benefits previously provided by the City.

We are concerned that without a Memorandum of Agreement, the DHC will continue to perpetuate the situation where the city is forced to subsidize this alleged entity.

Accordingly, albeit painfully, the Detroit City Council has announced it will pass no more resolutions to continue benefits and services and maintain the status quo. We are also directing the Law Department to implement a plan for re-payment of the \$18 million debt by July 1, 2004.

READY, SET...ACTION!

During its budget deliberations, City Council never lost sight of the day to day of life issues that are so important to every Detroit.

We adopted a budget that starts with these guiding principles:

- The budget would not be balanced on the backs of people with disabilities who depend on buses for transportation to get to and from their jobs and doctor appointments and other necessary appointments;
- Restore layoffs of city employees who work for relatively low wages, and pay taxes. Retaining our work force prevents privatization of work that can be done more effectively and efficiently in-house. Indianapolis was the flagship of privatization of municipal services. In the last few years, they have taken the work back in-house for greater accountability, more control over the hiring process and cost savings.
- Restore critical services and programs without setting unrealistic revenue targets and finding sources of funding through cost cutting actions.

"NO!" To Bus Fare Increase For People With Disabilities:

For starters, we resoundingly said "NO!" to a DDOT bus fare increase for people with disabilities. We listened to citizens who told us that if the fares were increased, people with disabilities who ride the buses would be forced to reduce their budgets by over \$60.00 per month to survive. Many of them receive only SSDI or Social Security Benefits. They would have to decide between food, recreation, and being trapped in their homes because they would have no other access to safe transportation.

To add insult to injury, to require people to pay for services they don't even receive is grossly unjust. Half of our city buses do not have operable wheelchair lifts.

Therefore, City Council is rejecting this DDOT fare increase until the minimum standards in that department identified by the Mayor is corrected. We say "no!" until the service is reliable, safe and meets Americans with Disabilities Act requirements. People with disabilities will not be utilized as revenue generating consumables.

Last year, City Council raised regular bus fares. Maintaining those fare rates hinged upon whether DDOT would comply with specific conditions outlined in the 2003-2004 closing budget resolution. The department has not fully met the conditions. They have made some headway by complying with eight out of thirteen of the conditions. Given the poor fiscal shape of the city and the department's efforts to comply, we have left these fare increases in effect.

Saving Jobs:

Another high priority for City Council was to restore as many of the 377 jobs eliminated from the Mayor's budget as possible.

We are recommending shifting less than five percent of the allocations from professional contractual services, operating supplies and services appropriations to restore 204 jobs.

Employees in the Department of Transportation came under fire in the Mayor's budget. Accusations of a lack of productivity and efficiency were aimed at the mechanics. Citizens who ride city buses know all too well they are in need of repair and maintenance. Reducing the number of employees who fix these vehicles sacrifices safety, reliability and cleanliness for the sake of... what?

business and every neighborhood in Detroit. Employees in DPW work a safe and clean environment for our citizens.

The Grants Acquisition e Office of Targeted Business have been moved into the Strategic Center. We anticipate seeing progress in obtaining greater financial health hese divisions' activities.

Program with Direct Benefits For Our Neighborhoods:

hoods is great, and must be met. There is also a need to lay out a concrete *servicing* houses and *preventing* demolition as well. City Council funded the program for \$7.5 million, a slightly lesser amount than the Mayor proposed.

Consistent with our stated priorities of housing and home repair, City Council CDBG funds to nearly forty groups for home repair and new construction. A need is emergency home repair for senior citizens; we provided more than \$1 million dollars for this effective program. We provided money for many excellent services providers, lead prevention and remediation, transportation, and youth programs.

To meet a major HUD concern about the impact of CDBG funding on public facilities, City Council provided groups who requested funds for public facility rehabilitation with the money to enable them to complete their projects.

We created a line item for domestic violence shelters to ensure adequate future funding. Two hundred twenty five thousand dollars was appropriated for the House and \$200,000 was allocated for Women's Justice Center.

We are indebted to the thousands of people who relentlessly endeavor to make our neighborhoods beautiful, our streets safe, our youth educated and protected, and our lives richer. That's what the Neighborhood Opportunity Fund and Block Grants are designed to do, and we are pleased to further these efforts with \$52 million in annual CDBG funds.

WE COULD NOT HAVE DONE THIS WITHOUT THE HELP OF SO MANY

Every year during this demanding period, dedicated city staff and community members devote long hours and contribute valuable insights.

All of us on City Council are indebted to the hundreds of concerned citizens who spoke to us about their budget priorities at our public hearings, in letters and emails.

We are grateful to our city employees and the unions that represent them for their expertise in how to deliver city services efficiently and effectively.

We are thankful for our City Clerk, Jackie Currie, and all of the skilled and dedicated committee clerks.

We greatly appreciate the cooperation, input and efforts of Mr. Roger S. Werdlow, Mr. Eddie McDonald, Ms. Shannon Holmes, Ms. Ashante LaDille and their respective staffs.

The Ombudsman, Mr. John Eddings, and Auditor General, Joe Harris, nominated and enlighten all of us about important budget policies and implications for your work and or the work of your staffs, as well.

Our division staff have, as usual, knocked themselves out. We simply could not have completed our budget deliberations without the incredibly hard working and dedicated staff in the City Planning Commission, Fiscal Analysis, and Research and Analysis. Thank you for your commitment and perservance.

And last but not least, we would like to recognize and give thanks to the individual Council Members.

***ON WAIVERS OF RECONSIDERATION**

Re: Neighborhood Enterprise Zone (NEZ) Certificate Application for 1463 Fischer in the East Village NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office an application from the Qual-Prop LLC for a Neighborhood Enterprise Zone (NEZ) certificate to rehabilitate an existing house at the above address.

City Planning Commission staff's research indicates that the above property is within the boundaries of the East Village NEZ, which was approved by City Council in February, 2001.

It is expected that about \$39,000 will be spent to rehab the house. The petitioner indicates the current taxable value of the home is \$13,872, which is below the maximum \$80,000 allowed.

Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate within the boundaries of the East Village area. Please contact us should you have any questions.

Honorable City Council:

Re: Petition No. 2288 — Rite On Inc., requesting for conversion of alley to easement south of Michigan between Larkins and Apple Streets.

Petition No. 2288 of "Rite On Inc.", request conversion of the Westerly portion of the East-West public alley, 20 feet wide, in the block bounded by Michigan Avenue, 100 feet wide, St. John Avenue, 50 feet wide, Larkins Street, 50 feet wide, and Apple Street, 50 feet wide into a private easement for utilities.

With the support of most of the adjacent property owners the petitioner originally requested the closure of all of the East-West public alley and the North-South public alley 18 feet wide. However, due to the objection of a property owner at 4312 Apple Street, the City Engineering Division — DPW is presenting this resolution for your Honorable Body to consider closing only that part of the public alley lying between the petitioners property and the property of the Knights of Columbus parking lot.

You should be aware that the property owner at 4312 Apple Street also objected to the closing of that part of the public alley recommended in the attached resolution. However, from our investigation that property owner will have continued access to the rear of his property from the north and the south. Also the property owners adjacent to that part of public alley requested to be closed in this resolution has the legal right to be allowed this closing.

The request was approved by the Planning and Development Department, Solid Waste Division — DPW, and Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

If the petitioner at any time plans to discontinue use of the paved alley entrance (into Larkins Street) the petitioner shall

of-way into a private easement for utilities. Provisions protecting the petitioners rights are part of this resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

The resolution revises the determination of the fiscal 2003 deficit to include those incurred in the Transportation Fund

While this revision recognizes the deficit to satisfy a technicality, it does not reflect any change in the City's borrowing plan, so the City still intends on issuing a bond for the Fiscal Stabilization Fund.

By Council Member S. Cockrel
AN ORDINANCE to amend Article II of the 1984 Code by adding Section to establish the Distel Building and to define the elements for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II of the 1984 Detroit City Code be amended by adding Section 25-2-150 to read as follows:

Sec. 25-2-150. Distel Building Historic District.

(A) A historic district to be known as the Distel Building Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district is hereby certified as being of exceptional interest to the Detroit Master Plan.

(C) The boundaries of the Distel Building Historic District are as shown on the map on file in the office of the City Clerk, and shall be as follows: beginning at the north line of West Fort Street, north, the centerline of the east lot line of Lot 1, north of and adjoining Lots 1, 2, and 3 of the Subdivision of Lots 1, 2, and 3 of Wesson's Sub of Shipyard Tract (L 11, P. 96); thence south along the line drawn parallel to and following the centerline of the east lot line of Lot 1, north of and adjoining Lots 1, 2, and 3 of Wesson's Sub of Shipyard Tract (L 11, P. 96); thence west along the centerline of West Fort Street to the west, the east line of Lot 1, north of and adjoining Lots 1, 2, and 3 of Wesson's Sub of Shipyard Tract (L 11, P. 96). (Section 25-2-150, Detroit City Code, 1984 Edition: Lot 3, and West 4 Street, Detroit, Michigan, Distel's Subdivision L11, P. 96)

(D) The defined elements of the Distel Building Historic District provided for in section 25-2-150 shall be as follows:

(1) Height. The Distel Building shall be one and one-half stories tall, not more than two stories and an attic without a dormer. A single-story addition is allowed on the rear of the building.

(2) Proportion of Building.

equally spaced, shallow gables twice as tall as wide on the first and six shallow arched windows on the second story. The openings on the second story are window openings, on the first story, door openings, on the first story. The window openings are boarded, the window openings contained double-hung, light sash windows, the gables are slightly arched to correspond to the main building. The westernmost single window opening is the same width as the other window openings; the easternmost window opening is wider to complement a single door. Both window openings had transom windows above the doors. Openings amount to approximately thirty-five (35) percent of the front facade. The side elevations have similar type openings, including a single entrance door. Basement windows in the side elevations are squat, wider than the main building. The one-story rear addition has elevations with two arched windows and a rear elevation with a single entrance door, a window to its side and an opening in its gable.

Relationship of Solids to Voids in The Facade. The facade is composed of elements containing one opening creating a regular rhythm of

Relationship of Spacing of Buildings on the Block. Not applicable due to single lot.

Relationship of Entrance and/or Porch to the Building. Entrances occupy the bays between the outer bay at each end of the building, or the second and fifth bays, spanning the front of the building. The simple Tuscan columns on the porch, was the last porch on the building. Now only evidence of its existence has shown that originally was a bracketed Italianate porch with masonry steps projecting into the entrance bays and connected to the public sidewalk.

Relationship of Materials. The building is brick with limestone sills. The foundation is fieldstone. The dormer is wood. The roof is clad in shingles.

Relationship of Textures. The building has a relationship is that of flush brick juxtaposed with the surrounding window openings beneath the cornice. The building is seen from the side elevation. In general, the building has a few textural relationships.

Relationship of Dormer to Building. The dormer is painted pink.

(10) Relationship of Architectural Details. Architectural detail is applied sparingly, and is either in raised brick, as in the decorative inscribed keystones. A frieze of several courses of very slightly raised brick extends to the dentilled cornice. The gabled dormer, likely an early-twentieth century addition, is Colonial Revival in style, with two windows now boarded and a pedimental roof with a fan light in its gable. Its triangular pediment is framed by a cornice with dentils.

(11) Relationship of Roof Shapes. The present roof is a steep hip bearing a large gabled dormer. Chimneys project from the sides and rear elevations. Evidence exists that the original roof was a low-sloped hip roof typical for an Italianate building of about 1870. The one-story rear addition had a gabled roof, now collapsed.

(12) Walls of Continuity. Not applicable due to single building district.

(13) Relationship of Significant Landscape Features and Surface Treatments. A lawn of grass turf extends along the length of the building to the sidewalk on the north side of West Fort Street.

(14) Relationship of Open Space to Structures. The open space in the vicinity of the Distel Building is the result of building demolition. A vacant lot exists to its east and the multi-laned expanse of West Fort Street exists to its south.

(15) Scale of Facades and Facade Elements. Details are generally small in scale and are repetitive, sometimes forming rows of columns of a larger scale. The roof dormer is large in scale when compared to other elements of the building.

(16) Directional Expression of Front Elevation. Although wider than tall, the height of the roof balances the composition.

(17) Rhythm of Building Setbacks. The building is set back from the front lot line, creating a shallow grassy open space in front.

(18) Relationship of Lot Coverages. The one building occupies approximately thirty per cent (30%) of its parcel.

(19) Degree of Complexity Within the Facade. The front facade of the Distel Building is straightforward in its arrangements of openings, elements and details.

(20) Orientation, Vistas, Overviews. The Distel Building is oriented toward West Fort Street, a heavily trafficked state roadway. A few blocks to its east are two overpasses carrying railroad and freeway

ially historic resources, are located on the south side of West Fort Street.

(21) Symmetric or Asymmetric Appearance. The Distel Building is asymmetrical in appearance due to the different widths of the two entrance openings in the front facade.

(22) General Environmental Character. The Distel Building Historic District is located in Southwest Detroit on a well-traveled state trunk road, Fort Street. It is one of only a few remnants from a time before the advent of the automobile, and the ensuing industrial development and physical expansion of the City of Detroit. Small scale light industrial and commercial facilities generally characterize the area today.

Section 2. All ordinances or parts of ordinances in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

Social Services of Michigan to show a PD (Planned Development District) zoning classification where an R1 (Single-Family Residential District) zoning classification is shown for the property on the north side of the lot between the alley first block and Frankfort (Recommendation).

Social Services of Michigan is requesting to rezone the subject from R1 (Single Family Residential District) to PD (Planned Development District). The subject property is commonly known as 4950 Gateshead Avenue and are shown on the accompanying map.

DEVELOPMENT

The developer is requesting the rezoning for the development of a 45-unit senior residential facility to be located on the Department of Housing and Community Development and to include common amenity spaces for residents of the community space will also include space for special neighborhood events. The subject property to be rezoned is approximately 1.5 acres. The proposed development requires the demolition of two existing former church/senior center and family residence.

The proposed building would be two stories high. At its highest point, the building is 30 feet tall. (Conceptual site plan elevations are enclosed for reference.) Each floor is 20,000 square feet. Combined total square footage of the building is 40,000 square feet. Each bedroom apartment is 540 square feet. The remaining square footage is comprised of community space including a community room, a kitchen, a beauty shop, exercise room, laundry, and sitting areas.

Design and Materials

The design of the building would be a combination of various color schemes including brick, colored block and vinyl siding. The architect indicates that some of the amenities will be used to add character to the various levels and bracket elements of the building. These varying details, including set-backs of the foundation, break up the facade and cre-

ating elements are tied together by the use of the same single dimensional asphalt shingle and color.

Parking

The parking area would provide approximately 34 surface parking spaces (.75 spaces per residential unit). This is fewer than required under the current Zoning Ordinance (1.25 spaces per residential unit), but is consistent with the standards for senior housing proposed in the comprehensive revision of the Ordinance currently under City Council consideration.

The site would have two vehicular access points from Gateshead: one to the parking lot at the east end of the building, and one to the one-way circular drop-off located in the center of the building's front. Entrances will be located at both points.

Fencing

In response to some issues raised by residents abutting the rear of the property, a six-foot high wood fence will be installed on LSSM's rear property line. Other, decorative fencing to be used around the parking lot and structure is not depicted in the site plans. However, fence details will be determined and reviewed at a later date.

Green Space Features

Two features of the proposed development are a small neighborhood park at the west end of the building, and a walking path along the rear of the building connecting the park to the parking lot. The site plans show a fence/gate to prevent walking path access from the park at night. Characteristics of the neighborhood park include: benches, patio areas, berms, some decorative gates, and landscaping. Not shown on the site plan is a paved path leading from Frankfort into the park, which the developer has suggested.

Future Details

A more detailed landscaping plan is still being developed and would have to be approved by CPC staff before building permits could be issued. Signage, lighting, and fencing details will be determined and reviewed by staff at a later date as well.

EXISTING LAND USE

The three lots closest to Mack are developed as a former church/senior center. Moving from Mack, the next three lots are developed as parking for the former church/senior center structure. The next eight lots are not developed but used as a soccer field. The two lots closest to Frankfort are developed as a single-family residential structure. The single-

subject property.

Calvary English Evangelical Lutheran Church formerly occupied the structure at 4950 Gateshead. When the congregation dissolved in 1976, an agreement was reached with LSSM to utilize the site as a senior center with considerations given to other uses such as a nursing home or other type of senior housing. Calvary Senior Center operated at this location until it was forced to close last year due to severe reductions in government funding and the inability of St. John's Hospital to continue as a partner. LSSM intends to restore some level of service to the surrounding community at the new development provided they are able to secure funding.

SURROUNDING LAND USE AND ZONING

Land to the north, south, and west is zoned R1 (Single-Family Residential), and land to the east along Mack is zoned B4 (General Commercial District). The subject property abuts single-family residential structures to the north, west, and south. The property to the east is developed as a gas station and a car wash is located on Mack just south of Gateshead.

MASTER PLAN INTERPRETATION

The subject area is located within the Finney Subsector of the Northeast Sector of the Detroit Master Plan of Policies. Both the existing and recommended land use Master Plan maps designate this area as low density residential as does the Cluster 3 Community Reinvestment Strategy document. The generalized rezoning concept also shows this area as R1 (Single-Family Residential District). In a report dated February 10, 2004, the Planning and Development Department interpretation of the Master Plan concludes that no amendment is necessary to proceed with the proposed development or rezoning.

COMMUNITY OUTREACH

Prior to the first public hearing, LSSM hosted three meetings in the community in an effort to explain the proposed development and solicit comments from community residents. The first was held at the Calvary Senior Center on September 11, 2003, the second was held at the Calvary Senior Center on November 18, 2003, and the third was held at Salem Memorial Lutheran Church on January 12, 2004.

At those meetings, members of the community raised general concerns about the potential negative impacts of integrating an apartment building into a neighborhood that is exclusively comprised of single-family dwellings. This concern was

other residents, particularly in properties adjacent remained concerned about development will affect their

First Public Hearing

On January 22, 2004, the Commission held a public hearing on the petitioner's initial request for the subject property from R1 to B4 Density Residential District. During the hearing, seven residents of the community expressed opposition to the project: four expressed opposition and one expressed support. The concerns expressed at the hearing included:

- Whether a new fence constructed along the rear property line would be one resident expressing a concern about a wall;
- Other possible uses at the site if this project didn't move forward;
- The age diversity in the neighborhood created by the project;
- Excessive traffic on Gateshead from cars ignoring the stop sign at Mack and Gateshead;
- How the facility's residents would be monitored;
- The height of the building compared to the height of two-story buildings across the street;
- A desire for fewer units;
- Alleged construction delays due to a sewer line;
- The flow of people into the building;
- How traffic generated by the building would affect car wash traffic;
- A desire for Gateshead to be rezoned at Mack.

In addition, the City Manager of Grosse Pointe Farms invited the petitioner for consideration of rezoning the subject property as a Planned Development.

In order to address some of the community members' concerns, the Planning Commission suggested that the developer agreed to modify the project, instead, rezone the subject property to PD.

Second Public Hearing

On February 19, 2004, the Planning Commission held a public hearing on the petitioner's modification to rezone the subject property from R1 to PD. At that hearing, the petitioner expressed support for the project and asked some clarifying questions about park maintenance, specific zoning classification, and parking arrangements during construction. In addition, one resident expressed

requests by CPC staff including the fol-

- Reducing the number of units from 60 to 45, bringing the density down from 24.7 to 18.5 units per acre;
- Agreeing to construct a wood fence along the rear property line;
- Switching the location of the park and parking lot so that traffic does not intrude into the rest of the block/street and so that residents have easier access to retail along Mack;
- Varying the setbacks of the facade to make the structure more compatible with the single-family residential structures located cross the street;
- Using design elements to create the visual effect of individual "town houses".

RECOMMENDATION

The City Planning Commission voted to recommend that the request to rezone the properties located on the north side of Gateshead between the alley first west of Mack and Frankfort from an R1 (Single-family Residential District) to PD (Planned Development District) zoning classification be approved subject to the following conditions:

- That detailed landscaping, lighting, fencing, and signage plans be developed and submitted for CPC staff review and approval prior to the issuance of building permits;
- That when DPW Traffic Engineering

Re: Neighborhood Enterprise Zone Certificate applications for ten (10) residential units to be rehabilitated in the University Lofts building located at 627 Alexandrine within the Midtown NEZ (Recommend Approval).

The City Planning Commission (CPC) staff has reviewed 10 applications for the Neighborhood Enterprise Zone (NEZ) certificates forwarded from the City Clerk's Office on April 15, 2004. These applications correspond to the properties located at 627 Alexandrine Unit 1, 627 Alexandrine Unit 2, 627 Alexandrine Unit 3, 627 Alexandrine Unit 4, 627

The subject property is located on W. Alexandrine between Second and Third. The University Lofts L.L.C. intends to renovate the existing building into 10 owner occupied residential units on approximately .23 acres of land in the Midtown NEZ area. The NEZ certificate applications appear to have been submitted prior to the issuance of any applicable permits.

CPC staff has reviewed the applications and recommends approval because the subject property is within the Midtown NEZ area, which is generally bounded by the Lodge Freeway, Cass Avenue, Tuscola, Selden, Calumet and Hancock. The property in question has been confirmed as being within the boundaries of the Midtown NEZ and should be eligible for NEZ Certificates in accordance with State Act 147 of 1992. Re: Departmental Recommendation
Denial of Residential Alley (portion)
Vacation Petition No. 2980 of Jayne
Floyd.

The above-referenced petition requesting residential alley vacation has been reviewed and revisited by the Planning and Development Department (P&DD). Petition No. 2980 was initially presented to your Honorable Body at the Public Hearing of March 5, 2004.

The petitioner, Ms. Jane Floyd, desires to vacate the alley and use the additional land for parking vehicles. She lives in a two-family residential unit located at 2308 Blaine. At the public hearing, Mr. and Mrs. Steven Stallworth, residents also abutting the subject alley, objected to the proposed alley vacation because it creates an inconvenience in accessing their property. The City Council wanted us to work with the residents and report back. In an effort to reach acceptable compromise solution on this matter, the P&DD hosted a site meeting whereby we presented two possible layouts of the proposed alley vacation to all parties abutting the residential alley. This is detailed in our departmental report to your Honorable Body. The outcome was that these layouts were unacceptable to the abutting property owners.

Therefore, in accordance with the Detroit City Code, Article VI, Section 50-6-3 and based upon the attached report to your Honorable Body dated April 19, 2004, the Planning and Development Department recommends denial of Petition No. 2980, which will leave the South portion of this North/South alley

On July 23, 2003, (Legal Description, 2003, pg. 6), your Honorable Body authorized the sale of the above property to Fashi Fabhredine for the purpose of constructing additional surface parking to accommodate an auto parts facility.

CITY COUNCIL

(ADJOURNED SESSION)

Detroit, Monday, June 7, 2004

Pursuant to adjournment, the City Council met at 11:30 A.M., and was called to order by the President Maryann Mahaffey.

Present — Council Members Bates, K. Cockrel, Jr., S. Cockrel, C. McPhail, Tinsley-Talabi, Watson, and President Mahaffey — 9.

There being a quorum present, the City Council was declared to be in session.

Mayor's Office

Honorable City Council:

On behalf of the citizens of the City of Detroit thank you for your diligent review and analysis of the proposed 2004-2005 budget. It was a challenging process given the sluggish economy, cuts in state funding, and the impact of healthcare and pensions hurting Detroit and cities across the country.

As you are well aware, the challenges we face are compounded by the fact that the property tax base has dramatically eroded over the past 40 years — and our revenue comes from income taxes and state revenue sharing funds, both extremely vulnerable to fluctuations in the economy. This reality, combined with the fact that in the 1990s the City of Detroit failed to invest in infrastructure and allow it to soar, has created a financial situation that is woefully precarious.

For 2001-2002 the Kilpatrick Administration inherited — and closed — a \$191 million deficit. And we balanced the budget as the potential shortfall swelled to \$191 million in 2002-2003 and \$191 in 2003-2004.

Our challenge with this budget was unprecedented as the total budget shortfall was \$264 million — a combination of a \$69 million deficit from last year and a \$264 million increase for next year. Beyond crippling economic forces, our potential shortfall was compounded by a staggering 22% (\$114 million) increase in the costs of employee healthcare.

Clearly, the gap that exists between our revenues and expenses is growing each year. And as we prepared the budget for 2004-2005 we knew we had to close the gap if we do business in the City of Detroit or we would pay the price.

The balanced budget I presented on April 12, 2004 combined strategic management with new accountability and reengineering to ensure our financial future hangs in the balance — and we can Grow Detroit as we start back toward solid ground.

The proposed budget for 2004-2005 is rooted in the fact that tough choices require tough budget and management decisions. It requires reorganizing, restructuring, and doing more with less.

Unfortunately, based on Council's proposed changes to the budget, there are some members are unwilling to face.

At a time when we must make the hard choices to lay the foundation for the future, Council has sought the easy way out with proposed changes that have no economic management practices, will drastically reduce vital City services, and will make the financial hole deeper. Therefore, I must partially veto Council's proposed changes outlined in the four attached schedules.

Schedule A: Technically Impossible Cuts

As part of an arbitrary, across-the-board cut of 5.2% to Professional Services and Operating Services & Supplies, Council mistakenly slashed \$3.5 million in areas the City has legal obligations to make payments, is required by the state, or that require offsetting revenue to make an adjustment.

Examples of technically impossible cuts recommended by Council include: a 5.2% cut of the refuse disposal tipping fee the City must pay to the Greater Detroit Recovery Authority as part of the bond obligation; \$386,000 for street paving that is reimbursed by the State of Michigan as part of the Street Fund program; the City is legally obligated to provide 36th District Court to pay jurors and defenders for people who cannot afford lawyers; and a \$709,000 cut to the

positions in many departments. I respect Council's recommendation on a few of these positions (see below). It is irresponsible to restore positions in the Department of Public Works reengineering already underway. It is also irresponsible to increase the DDOT subsidy to restore positions given current overstaffing and inefficiencies (see Schedule B below).

I have no choice but to veto on Schedule A all of the technically impossible restoration of 17 FTE positions in the Department of Public Works, and a portion of the action related to the DDOT subsidy increase and FTE positions.

Cutting City Services

Streamlining operations, reengineering departments, and increasing accountability is committed to improving City services and doing more with less. Our driving philosophy as we did an intensive department-by-department strategic cuts in preparing the budget for 2004-2005.

In the proposed budget, Contractual Services were cut to the bare minimum in tandem with streamlining plans to ensure service to citizens would not be hindered and would actually be improved. This unprecedented process allowed us to cut Contractual Services by 13% from the 2003-2004 budget and Operating Services by 5%.

Despite these already deep cuts, with no regard to the impact on services and citizens, Council made the irresponsible decision to arbitrarily cut Services and Supplies by 10% across the board. In addition to the 17 technically impossible cuts, Council will cut \$6.8 million from 125 areas that directly impact services.

If these cuts were adopted, citizens could expect:

- 100 vacant lots
- No inventory of full medical and surgical supplies
- No inventory of prescription drugs from the Department of Health & Wellness Promotion
- 1000 cars in disrepair
- 1000 day care centers open one less week
- 1000 hours of counseling in the Domestic Violence Program in 36th District Court
- 1000 hours of services provided by Department of Elections during an important election year.

If the proposed cuts would leave:

- The Detroit Police Department, and the Detroit Zoo unable to pay their bills
- The Recreation Department unable to make repairs to recreation centers
- The Energy Department unable to purchase sufficient fuel oil to power generators at the River Rouge Plant.

When the City of Detroit is making tremendous progress, just the few proposed cuts described would prevent departments from achieving their missions, and cause a back in time as services are severely hindered.

The amount recommended by Council is \$500,000 for the upgrade of its television system. I do not agree that an upgrade is needed, but I disagree with the method of funding. Instead of using General Fund dollars, I have instructed the Detroit Cable & Television Commission to ensure your equipment upgrade is covered in the new franchise agreement, the negotiations of which Council has extended until 2004.

With respect to the restoration of FTE positions, Council's recommendation to restore 17 FTE positions in the Department of Public Works is unacceptable. The elimination of these positions is based on a strategic financial plan and reengineering already underway.

Council's recommendation to increase the General Fund subsidy to DDOT by \$5.8 million and the restoration of 108 FTE positions in the DDOT Vehicle Maintenance Division is also unacceptable. Council also seeks to restore 2 FTE positions in the DDOT Maintenance Division. By any measure, DDOT lags far behind other urban areas in the efficiency of its operations. We spend more per mile and vastly more on buses despite the fact that we have a ratio of one mechanic for every two buses while the industry standard is one mechanic for every 6 or 7 buses.

Instead of moving away from adequately serving citizens, but the answer to improving the service is preserving the bloated staffing levels of the past and throwing good money after bad with a higher subsidy. DDOT will only improve with reengineering and true

In the interest of fiscal responsibility and sound management practices I have no choice but to veto all of the cuts to Services and Supplies, the restoration of 53 FTE positions in the Department of Public Works, and the balance (from Schedule A) of the

functions; Weights and Measures became the responsibility of the Police and the Business Licensing function moved to Buildings & Safety Engineering. This will provide a substantially higher level of service of citizens.

In Council's attempt to dismantle this change it did not correctly adjust appropriations and revenues in the budget and as such left the 'restored' Affairs underfunded and the budget out of balance. While this error is real, I firmly believe in this realignment and I have no choice but to restore it with changes on Schedule C.

Schedule D: Senior Security & Block Grant/NOF Funds

Because my administration is absolutely committed to improving the quality of life for our senior citizens, providing security for public housing was a top priority in the budget for 2004-2005. Our commitment is so strong we funded security for the Detroit Housing Commission becoming an independent entity in 2004-2005. Some members of Council did not share this commitment and recommended that we allocated for senior security, be cut from the budget. This is completely unacceptable.

Continuing its efforts to restore FTE positions despite financial constraints and reengineering plans, Council recommended positions for the Department of Health & Wellness Promotion and the Auditor General. I recommended that two new FTE positions be added in the Department of Health. This too is unacceptable.

At the same time, Council sought to find additional funds by increasing positions from both the Police and Fire Departments by \$1.5 million. This is not actively filling the ranks of Detroit's finest and bravest with the brightest and best at a time when safety and security are a paramount concern, these proposed turnover savings are irresponsible.

Also very troubling is the shell game Council is trying to play with federal and NOF dollars, and money from the General Fund. In an attempt to channel funds to community organizations, Council recommended \$2.3 million in Development Block Grant staffing costs be covered instead by the General Fund. At the same time, \$1.4 million in Block Grant for demolition of vacant buildings was moved to Buildings & Safety Engineering and directed to organizations. Council recommended General Fund dollars being substituted to pay for demolition.

This is unprecedented, audacious, and irresponsible — especially given the scrutiny of Block Grant dollars by the Department of Housing and Urban Development and its demand that funds be focused on broader brick-and-mortar organizations and projects in the community that effectively Grow Detroit.

In the interest of providing security for our senior citizens, ensuring the quality of life for our citizens, and maintaining the integrity of our Block Grant and NOF programs, I have no choice but to veto all of these actions on Schedule D recommended by Council.

'No action' Recommendations

While I have no choice but to veto many of Council's recommendations, I will accept some changes — many with reservation or objection.

One I find completely objectionable in these tough economic times is the \$2.8 million total to the City Council budget. I find it troubling that at a time when a department is taking operational cuts, Council has given itself yet another \$2.8 million.

Another major Council recommendation I will not veto is the elimination of DDOT fare for disabled riders. While my administration was always committed to ensuring senior citizens (including disabled seniors) rode DDOT for free, charging a fare to disabled riders is an industry standard and is done locally by the DDOT system. To ensure fairness in the system and prevent abuse of the free DDOT will soon require all disabled riders to visit a DDOT office to obtain a pass.

Additionally, Council has sought to increase the number of food sanitation education workers in the Department of Health & Wellness Promotion; increase Police drug forfeiture funds to support the Explorer Program, Youth program, and Court. I accept these recommendations.

Conclusion

Although Detroit is growing and the national economy is showing glimmers of recovery, our financial situation has been deteriorating for decades and we have a long way to go to get on solid financial ground. Our progress on this path depends largely on our ability to make the tough choices, reengineer government, demand accountability, and improve services by doing more with less.

I am hopeful we can work together and make the budget for 2004-2005

Honorable City Council:

Re: Four of Five Resolutions to override the Mayor's Vetoes of the
Changes to the Mayor's Recommended 2004-2005 Budget.

Attached are four of the five schedules from the Administration outlining
veto of City Council's action on the 2004-2005 Mayor's Recomme
Schedules A, B, C and D address vetoes to the General Fund, Enterp
General Obligation Bond Fund program/appropriation portion of the budg
addresses the Consolidated Plan Budget for the Block Grant. This resolutio
you separately from the City Planning Commission.

Also for Council's information, attached is the list of items that Council o
budget process that the Mayor chose not to veto totaling \$6.46 million (se
l"). Council's appropriation changes to the Mayor's recommended budget
the block grant fund, were \$13.1 million. The Mayor's veto includes \$6.68
proposed changes or 51% of what Council wanted changed.

Schedule A reflects the Mayor's veto of what he has termed "Technica
Cuts". Nothing that Council proposed is technically impossible to execute.

Council agreed in theory that they wanted to restore as many proposed
sible and that cost totaled \$20.9 million. Council Members felt that not all
been cut so severely that there wasn't money available to be reallocated
reference, Council Members believed that between contractual services,
plies and operating services accounts which total \$380 million in the Gene
there was \$20.9 million with which to restore funding for layoffs.

At the Council Table during Executive Budget Deliberations, the Budget D
Short, provided Council with documents that outlined what was purchase
accounts, including the fixed costs for insurance premiums, debt service p
ties and contracts already in place. Based on these documents and discus
Budget Director and the Fiscal Analysis staff and among the Council Me
agreed that Council would propose restoring half of the proposed layoffs, c
would be shifted.

It was agreed by a straw vote of Council Members that the departments
would be DDOT, DPW and Health, in that order. \$10.4 million could not in
layoffs at Health and so the 5 in Rodent Control and the Animal Control p
chosen.

It was also agreed by a straw vote of Council Members that the funding
be used for this restoration of layoffs was to hit every General Fund approp
ing Contractual Services by 5%, Operating Supplies by 5.5% and Operatin
1.5%. Based on these percentage cuts of certain line items, some approp
cut as little as a few dollars and some were reduced more than a million d

While the methodology for shifting the funds had a "line-item" rationale, in
Council did was reduce each program, or appropriation. City Council can
Administration reduce a specific line item in an appropriation. The redu
Council made in a specific appropriation may or may not result in a speci
program being improperly funded.

In appropriations where the Administration determines there are insuff
fulfill a specific program, what needs to be initiated by the Administration i
ation transfer letter requesting Council authorization to transfer appropria
appropriation with available funds to the appropriation that is deficiating dur
ing year.

Schedule B reflects the Mayor's veto of the majority of the proposed c
from each General Fund appropriation and also the veto of the majority of
layoff restorations. It also includes the veto of \$500,000 for the camera eq
ed by the Legislative Media staff.

Schedule C reflects the Mayor's veto of City Council's action to restor
staffing for the Consumer Affairs Department. All of the actions that Council

City Council:

find attached technical adjustments to the Mayors 2004-2005 Veto Schedule E for Block Grant. These adjustments were necessary to adequately reflect alternative, public services cap, as well as, complying with HUD's Monitoring Report recommendations for public facility rehabilitation and to balance the block grant. Also, there were some groups that were not vetoed and were omitted from Schedule E as submitted. Those individual groups are also listed on the attached for your information.

avorable acceptance of this adjustment will be appreciated. I will be available to respond to any further questions.

Respectfully submitted,
ROGER SHORT
Budget Director

OF THE FISCAL YEAR 2004-05 AS LISTED IN SCHEDULE E
June 7, 2004, I voted with great reluctance to sustain the Mayor's veto of
y Development Block Grant (CDBG) allocation. This is because the bud-
by Council (my vote was no) would have amounted to a political pork bar-
n a complete lack of structure, rules or guidance. My full view on the CDBG
ntained in my May 24, 2004 statement in opposition to the CDBG budget.
al that we effectuate to the best of our ability, the CDBG budget that we are
o look now to the future. In this regard, both the Administration and the City
d be cognizant of several goals geared towards bringing some sense of
e CDBG process.

ly stated, the City Council had over time, agreed to *de facto* guidelines to
g funding. It is time for the Council to work with the Administration to devel-
es, by resolution or otherwise, in order to craft a method of even-handedly
rious groups requesting CDBG funding.

he rules should be an embodiment of an overall goal of affirmatively linking
Consolidated Plan. In a monitoring review of Detroit housing programs, the
Department of Housing and Urban Development (HUD) indicated that it is
the City to focus funding in order to create a visible and self-sustaining
e with that principle, we must develop rules geared towards that end in
funding with our long-term goals.

City Council and Administration must work together to eliminate unwieldy
ary bureaucracy. By way of example, it will be fruitful to closely examine
ess in administering CDBG funding by scrutinizing umbrella contracts and
minimize management costs.

can recall, this is the first time that the Mayor has vetoed the CDBG/NOF
uch a substantial manner. It is likely that there will be worthy organizations
ualties of this chaotic process. It is imperative that the process and pro-
DBG allocation for the FY 2005-6 budget be fundamentally restructured this
all.

STATEMENT BY COUNCIL MEMBER KAY EVERETT'S
E TO SUSTAIN THE MAYOR'S VETO OF THE 2004-05 BUDGET
ustain Mayor Kwame Kilpatrick's Veto of many of this Honorable Body's
ons as it relates to the Mayor's proposed 2004-05 budget.
f Detroit as well as this nation is experiencing tough economic times.
downsizing and learning how to do more with less. Trying to balance a
ollar deficit must be strategically and well thought out. The main objective
pality is to provide service to its citizens. In order to attract new residents
es to our city we must have quality service. We can not afford to let the tax-
city experience a loss of service.

ector is learning how to do more with less, we as a city should also learn
e city services with fewer resources. The proposed 2004-05 budget exem-
plan of how we can continue to provide services to our citizens with less

ion that the method used to locate funding to save positions was not well
d heavily forced upon this Honorable Body without compromise.

the Department of Transportation needs to have a systemic change of
s in order to provide better service. It is unconscionable for the number of
s used and our buses are still not on the street to service the citizens, when
ses to mechanics is the highest in the country.

ted to the proposal of taking funding earmarked for staff in Planning and
away from the Community Development Block Grant and putting those
e General Fund. If we were in good economic times this would be a laud-
to change at this time is irresponsible.

the most arduous budget in all my years of the Detroit City Council. I had to

voted to sustain the Mayor's veto of the 2004-05 Budget.

STATEMENT BY COUNCIL PRESIDENT MARYANN MAHAFFEY
ON 2004-2005 BUDGET VOTE
members of the Detroit City Council, Sheila Cockrel, Kay Everett, Alberta
and Alonzo Bates, voted to sustain the Mayor's veto on City Council's

The effect of these four members' votes to sustain the Mayor's veto sign to privatize work that is currently done by employees at or above living wage services to homeless families. By eliminating mechanics in the Department of Transportation, the City will likely outsource those jobs. Given its poor record in enforcing the Living Wage ordinance, this will have the overall effect of driving down the standard of living for families who live, work and pay taxes in Detroit.

To abrogate its legislative budgetary authority to the Mayor is an irresponsibility on the part of the four Council Members who voted to sustain the Mayor's veto. The Council needs to pay attention to the five Council Members who voted to protect neighborhood interests, in contrast to the four who voted in favor of more privatization, more joblessness, and less accountability for taxpayer dollars.

The Council then adjourned to reconvene at the Call of the Chair.

Pursuant to recess, the Council met at 3:10 p.m., and was called to order by President Mahaffey.

Present — Council Members Bates, K. Cockrel, Jr., S. Cockrel, Everett, McPhail, Tinsley-Talabi, Watson, and President Mahaffey — 9.

There being a quorum present, the City Council was declared to be in session.

***ON WAIVERS OF RECONSIDERATION**

Council Member Everett moved to waive the right to reconsider the vote on the resolution designated for "Waiver of Reconsideration" and numbered 1 to 10. The motion was adopted.

Council Member McPhail moved to suspend Rule 23 for the purpose of postponing the motion to waive reconsideration, which motion prevailed.

Council Member Tinsley-Talabi then moved that the motion to waive reconsideration be indefinitely postponed, which motion prevailed.

The regular order was resumed.

And the Council then adjourned.

Honorable City Council:

Re: Kimberly Davis vs. City of Detroit.

Case No.: 03-328326 NO. File No.:
A19000.002694 (NJL).

On May 18, 2004, a case evaluation panel evaluated the above-captioned lawsuit and awarded Ninety Thousand Dollars (\$90,000.00) in favor of Plaintiff. The parties have until June 15, 2004, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Ninety Thousand Dollars (\$90,000.00) payable to Alexander M. Kelin, P.C., attorney, and Kimberly Davis, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 03-328326 NO, approved by the Law Department.

At its May 19, 2004 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On June 2, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

A total of 60 2-bedroom units and 60 3-bedroom units are planned. These apartments will be available at \$575 per month and \$754 per month, respectively. May 25, 2004

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 13, 2004 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of May 7, 2004.

The proposed use of the property is owner occupancy.

Therefore, it is recommended that the demolition order be deferred for a period of six (6) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained or that substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we will proceed with demolition without further hearings. Pursuant to the Property Maintenance Code our Municipal Civil Infractions (MCI) Unit will issue the appropriate violations/tickets.

Honorable City Council:
Re: Public Hearing on the Establishment of the Pittman Homes Enterprise Zone as Requested by the Phoenix Group Consultants Inc., and Pittman Memorial Non-Profit Housing Corporation forming Pittman Homes LDHA LP in accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the Pittman Homes Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local

hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct 34 town homes with detached garages with 3 and 4 bedroom configurations consisting of up to 1250 square feet at a cost of \$6 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,
HENRY B. HAGOOD

STATEMENT BY COUNCIL MEMBER KENNETH V. COCKREL, JR., ON CREATION OF HEALTH CARE AUTHORITY

Today a majority of the Detroit City Council voted to support the creation of the Detroit Wayne County Health Authority. I voted with the majority in support of this important initiative.

While the issue of whether or not to create such an authority has been the subject of much discussion and controversy for some time, I believe an authority is necessary. Creation of this authority

One particular concern is the need for a strategy for creating a generally qualified health care workforce in Detroit and Wayne County. Through negotiation, the Mayor, the Executive, and the Governor, I hope the language that calls for such a strategy and the creation of such health care similar health care "access."

Also under consideration was a proposal to create a task force to monitor the actions of the Authority. Though this proposal did not receive a "no". I believe a task force is needed because the Council President is not to serve as our appointee to the Authority. We can do a sufficient job of keeping the public informed of the authority's actions.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN SUPPORT OF

THE INTERLOCAL AGREEMENT BETWEEN THE CITY OF DETROIT AND AMONG THE CITY OF DETROIT, THE CHARTER COUNTY OF WAYNE AND THE DEPARTMENT OF COMMUNITY DEVELOPMENT AND HEALTH CREATING THE DETROIT-WAYNE COUNTY HEALTH AUTHORITY

On Wednesday, June 9, 1993, I voted in support of the creation of the Detroit Wayne County Health Authority (Authority). The Authority is the result of many long months of negotiation with dedicated volunteers and officials alike. I anticipate that the Authority will prove to be the first of its kind in securing better health care services for residents of the City of Detroit and the County of Wayne who need it the most.

Without doubt and on the basis of the most common indicators of health care, residents of Detroit are significantly worse off than for the State of Michigan. The average male life expectancy in Detroit is nearly ten (10) years less compared to the State average. There is a severe shortage of primary and preventive health care services. Many residents are uninsured, underinsured or underserved in the City of Detroit.

For these reasons, the Healthcare Stabilization Workgroup recommended the creation of the Authority. The Administrations for the City of Detroit, the County and the State negotiated an agreement to create the Authority. The Detroit City Council and the Wayne County Commission held public hearings, jointly and individually, to address our concerns on the Authority. Through this process, the Administration was very cooperative and working with the Council to address the issues that we

of our residents. Simply put, I am charged with the goal of providing access to health care for those who need it the most — the underinsured and the uninsured. Concurrently, there are provisions in the agreement that provide that the responsibilities, powers or authority can be transferred to the City Council without City Council approval. The City Council can ensure an asset that may be transferred will only be used for the benefit of the City.

As a member of this Council, it is my duty to ensure the Council be able to monitor the operations of the Authority. It is also my duty to ensure residents also have a say in the way the Authority does. To these ends, I have had an appointee on the Board of Directors who will be involved in the decision-making process at that level. I would also be responsible for reporting back to Council on the progress of the Agreement. Additionally, the Agreement states that the Board will appoint a Community Advisory Committee and a Boarder Advisory Committee to monitor and comment.

In addition to City Council monitoring the operations of the Authority, the City Council was presented with a handout from Council Member Watson. Even though this was titled a resolution, it was merely a sheet listing duties and responsibilities without foundation or guidance. I agreed with the basic sentiment expressed by the handout, I could not support it for several reasons. The language of the handout was not in proper resolution form and did not make it clear that the Council was legally bound to do so. Second, there was lack of clarity on how this task force would be managed by the Council or the Authority. The language of the handout was not clear as it seemed to provide that the Council would have some sort of control over the Authority, which the Agreement makes it clear that the Board is responsible for the operations of the Authority.

I do not believe that an action taken by the Council in only two (2) ways — by resolution and by ordinance. It is my duty as a Council member to vote on bullet points presented in a handout and have it put in proper resolution form after the vote has already been taken. I do not believe that an action taken by the Council when it is not in proper resolution form.

creation of an Authority will be the first step in securing better health care for Detroit. I have done my due diligence to ensure that the interests of the City are properly protected. I am convinced that the mechanisms contained in the agreement adequately protect those interests.

For all of the reasons stated above, I voted yes.

STATEMENT BY COUNCIL MEMBER
ALBERTA TINSLEY-TALABI ON THE
DETROIT WAYNE COUNTY HEALTH
AUTHORITY INTERLOCAL
AGREEMENT

I made the decision to vote for the Detroit Wayne County Health Authority (DWCHA) Interlocal agreement because it is most imperative that medical services be available for those citizens who either have no insurance or are underinsured/underserved. While national health care is in crisis; the City of Detroit also faces a health care crisis; the health status of residents of Detroit ranks among the worse in the nation ... When the nation bleeds, Detroit hemorrhages.

It has been a long road to the approval of the Detroit Wayne County Health Authority Interlocal Agreement. The Detroit City Council held numerous sessions and reviewed volumes of documents during the last year to analyze issues regarding the Interlocal Agreement. This time was required to assure that the Agreement would provide the best possible medical services for the citizens of Detroit and Wayne County and to guarantee opportunities for all service providers in Detroit.

The current safety net services are not adequate to meet the needs of Detroit's citizens, the Detroit Wayne County Health Authority will manage and improve the viability and effectiveness of the health care safety net and citizens access to care. The Interlocal Agreement allows several things to occur, including;

- The integration of a safety net delivery system with a medical home for uninsured residents
- Allowance of funding opportunities to be maximized through Medicaid matching strategies
- Allow the collaboration of the State, County and City to share resources to provide a comprehensive health care delivery system for uninsured, underinsured and underserved resident.
- An increase in the number of Federally Qualified Health Centers in Detroit.

Additionally, at my request, language

point for me in the consideration of the Authority. It is imperative that the system not be one that is exclusive to hospitals and that ALL providers are included the Detroit Wayne County Health Authority.

Residents deserve health services that are timely, efficient and equitable in a patient centered care system, a system that will minimally include preventative health, disease management, and primary care services. I am confident that as we move forward residents will receive long awaited services through the Detroit and Wayne County Health Authority.

STATEMENT BY COUNCIL MEMBER
SHARON MCPHAIL ON THE DETROIT
WAYNE COUNTY INTERLOCAL
AGREEMENT FOR A PUBLIC HEALTH
AUTHORITY

While I respect the views of members who voted for the Mayor's plan for a Public Health Authority, I was not persuaded that his plan is anything more than another contract mill for his administration: As our President, Maryann Mahaffey noted, the Mayor's plan does not protect the uninsured and underinsured as it should.

Quite often, Council is forced to consider proposals that some of us view as without any public benefit. The Mayor blames the Council for the problems, proposes a "solution" that does not solve the problems and then insists that we approve his plan or, once again, excoriates the Council for not agreeing with him.

When the citizens do not receive the medical care they need, it will be blamed on this Council for approving this plan. Although the plan comes from the Mayor, he will take (as usual) no responsibility for his own failures. I voted against this plan because it creates yet another false hope and is an attempt to misled the public into a belief that something helpful will occur.

Detroit is the only City in the State that willingly gives up its right to Home Rule over-and-over again by creating authorities and commissions over which the City has no control. The Council should not continue this ill-advised practice.

Honorable City Council:

Re: Resolution Authorizing the issuance and sale of not to exceed \$120,000,000 General Obligation Bonds (Unlimited Tax) and General Obligation Refunding Bonds (Unlimited Tax), Series 2004.

The attached Resolution authorizes the issuance and sale of the subject Bonds for the purpose of providing approximately \$45 million in new money to pay the costs associated with certain public capital improvement projects, as delineated in the 2004-05 budgets. Additionally because of a continued decline in interest rates, up to \$75 million of previously issued Bonds may be refinanced, thereby producing interest savings. The actual amount of Bonds will likely be reduced, depending on which Bonds may be economically refunded at the time of the actual sale.

It is anticipated that the sale will occur early July. The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

On June 7, 2004, a case evaluation panel evaluated the above-captioned lawsuit and awarded One Hundred Fifty Thousand Dollars (\$150,000.00) in favor of Plaintiffs. The parties have until July 6, 2004, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of One Hundred Fifty Thousand Dollars (\$150,000.00) payable to Law Offices of Samuel I. Honorable City Council:

Re: Neighborhood Enterprise Zone (NEZ) Certificates for thirteen (13) units at 4221 Cass in the Midtown NEZ area (Recommend Approval).

The City Planning Commission (CPC) staff has received thirteen (13) applications for Neighborhood Enterprise Zone (NEZ) certificates in the Midtown NEZ. The NEZ designation for the area generally bounded by Hancock, Cass, Selden and the Lodge Freeway was approved by City Council on March 10, 1999. The City Planning Commission staff has reviewed the applications and recommends approval.

Certificates are being requested for the following addresses: 4221 Cass Avenue, Unit 1; 4221 Cass Avenue, Unit 2; 4221 Cass Avenue, Unit 3; 4221 Cass Avenue, Unit 4; 4221 Cass Avenue, Unit 5; 4221 Cass Avenue, Unit 6; 4221 Cass Avenue, Unit 7; 4221 Cass Avenue, Unit 8; 4221 Cass Avenue, Unit 9; 4221 Cass Avenue, Unit 10; 4221 Cass Avenue, Unit 11; 4221 Cass Avenue, Unit 12; 4221 Cass Avenue, Unit 13. The properties are within the NEZ boundaries described above and should be eligible for NEZ certificates as stipulated under State Public Act 147

than the maximum stipulated by the State Act.

Stuberstone Building L.L.C. has applied for the certificates at this time, although buyers of the units have not been identified. The State Tax Commission, however, will not issue a certificate until each owner is identified. Once an owner is identified, he or she can apply for the certificated. At that time, it would not be necessary for the City Council to pass another resolution.

The CPC staff recommends that the thirteen (13) NEZ certificates for the properties indicated above are approved as submitted.

is also my opinion that this ordinance offers from several critical areas. I have three areas of concern. The amendment was drafted.

The amendment does not state with certainty whether this ordinance will be effective.

The amendment does not provide an opportunity for individuals with personal connections with the City.

The amendment does not clearly identify a contractor who is in breach of contract and can cure the breach.

Due to these specific concerns, I am concerned that as a whole ordinance may be invalid on its face and overbroad. As a result of the legal limitations, I am confident this ordinance may not withstand a legal challenge, should one be brought.

For the reasons stated above I have certain reservations on this ordinance 23, 2004.

KAY ROSE-COLLINS AND
MARYANN MAHAFFEY
REGARDING AN ORDINANCE
1984 CITY CODE CALLED
"SLAVERY ERA RECORDS
AND INSURANCE DISCLOSURE"
ORDINANCE

The "Slavery Era Records and Insurance Disclosure" ordinance would amend the 1984 Detroit City Code by requiring vendors to disclose via contract any slavery era profits prior to entering a contract with the City of Detroit.

Inappropriately labeled this ordinance as a reparations ordinance by requiring vendors to disclose any ties or connections to the slavery era would be inappropriate.

The ordinance only requires vendors to disclose to the best of their ability any connections from slavery. The City of Detroit does not have the authority to make reparations to any citizen. I believe the matter of reparations is of national importance and should be studied by Congress. We were promised and America

those who are critical of the ordinance are sighted that there is no one among those whom committed the crime who benefited from slavery to whom reparations may now be required to pay. Those critics that if they suppressman Conyers House

Accountants are hired to trace directly to those whom have profited directly from slavery.

Forensic Accounting is the integration of accounting, auditing and investigation that allows for the accurate tracing of assets and property. This method of accounting has been instrumental in aiding the quest for reparations by Holocaust survivors and their families.

It has been quite a long time since African Americans were promised 40 acres and a mule, this ordinance only provides for the beginning of that process by requiring full disclosure. It is my hope that every city in America adopts similar ordinances. I am reminded of an old Chinese proverb that says, "A journey of thousand miles begins with the first step". I hope, my colleagues that we may begin together.

STATEMENT
BY COUNCIL MEMBER KAY EVERETT
REGARDING THE SLAVERY ERA
RECORDS AND INSURANCE
DISCLOSURE ORDINANCE

I voted for the ordinance to mandate businesses to declare any connections with the slave trade because it is the right thing to do. After long thought and deliberation, I think that these companies should be identified. This ordinance does not prohibit the companies from doing business with the City of Detroit. Over 95% of the companies that engage in business with the City of Detroit will not have any connection to the slave trade. Plus, this ordinance will not slow down the procurement process.

The Slave Trade in the United States of America was one of the worst travesties in history. The effects of slavery still linger today. A lot of information about slavery has been depressed, and I believe that all the factual information should be exposed.

Re: Applications for eight (8) Neighborhood Enterprise Zone (NEZ) Certificates in the East Grand Boulevard area (Recommend Approval).

The City Planning Commission (CPC) staff has received eight (8) applications for Neighborhood Enterprise Zone (NEZ) certificates in the East Grand Boulevard NEZ area. The NEZ designation for the area generally bounded by Woodward, the Chrysler Freeway, East Baltimore, Milwaukee and Horton was approved by the City Council on April 30, 2003. The City Planning Commission staff has reviewed the applications and recommends approval.

NEZ Certificates are being requested for the following addresses: 443 E. Milwaukee, 445 E. Milwaukee, 447 E. Milwaukee, 449 E. Milwaukee, 451 E. Milwaukee, 453 E. Milwaukee, 457 E. Milwaukee, and 459 E. Milwaukee. The properties are within the NEZ boundaries described above and should be eligible for NEZ certificates as stipulated under State Public Act 147 of 1992 as currently written. Landsberg Holdings, L.L.C., plans

\$5,535 to \$6,985, well below the maximum true cash value established by the State Act.

Landsberg Holdings, Inc., applied for the certificates although buyers of the units have not been identified. The Commission, however, will issue a certificate until each owner is identified. Once an owner is identified, the owner will apply for the certificate. A separate hearing would not be necessary. It is recommended that the City Council to pass another resolution.

The CPC staff, therefore, recommends that the eight (8) certificates indicated above be approved and issued.

Honorable City Council:

Re: Neighborhood Enterprise Zone

The office of the City Planning Commission (CPC) has received three applications for Neighborhood Enterprise Zone Certificates from the office of the City Clerk. Having reviewed these applications, CPC staff recommends approval of the NEZ certificates.

The properties located at 429-431 E. Ferry (units #8 and #9) and 430 E. Ferry have been confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. The year 2002 tax record for 429-431 E. Ferry shows a true cash value of \$2,400 for the entire property, which translates into \$1,200 per unit. This is well below the maximum eligible true cash value of \$80,000 per unit.

The owner and applicant, East Ferry L.L.C., intends to conduct the necessary repairs and improvements in order to repair the two existing units and convert them to condominiums. The estimated investment by the owner is \$150,000 per unit, which exceeds the minimum amount required for eligibility for an NEZ certificate. The estimated investment in new construction is \$300,000 at the 430 E. Ferry address. The NEZ certificate applications appear to have been submitted prior to the issuance or application for building permits to do the work presently proposed by the developer.

Please contact us should you have any questions.

Honorable City Council:

Re: Establishment of the Six Oaks
Neighborhood Enterprise Zone as
Requested by Urban Entity Group,
LLC (UEG).

Attached for your consideration please
find a resolution and legal description
which will establish the above referenced
Neighborhood Enterprise Zone (NEZ) in
accordance with Public Act 147 of 1992
("the Act").

Your Honorable Body conducted a pub-
lic hearing on this matter on May 4, 2004,
as required by the Act. No impediments to
the establishment of the NEZ were pre-
sented at the public hearing.

As you may recall the Urban Entity
Group, LLC (UEG) proposes to invest
\$5,500,000 to construct 72 new single-
family homes. The homes will consist of 3
and 4 bedroom configurations ranging
from 1400 to 1600 square feet.

The Act requires that at least 60 days
must pass from the date of the notice of
the public hearing to the date of your for-
mal approval of a resolution establishing
the NEZ. The date of the notice of the
public hearing is April 13, 2004 and we
therefore recommend that you approve
the resolution at your regular formal ses-
sion of Wednesday, June 16, 2004.

Respectfully submitted,

found the establishment of the Six Oaks
NEZ to be consistent with the Detroit
Master Plan of Policies and the neighbor-

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Six Oaks NEZ was conducted before the Detroit City Council on May 4, 2004, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

No. 03 312288 NO, on the following terms
and conditions:

A. 1. The parties shall submit to arbi-
tration all matters in controversy raised in
the above-named lawsuit.

shall be interpreted to be in the amount of \$15,000.00.

4. There shall be no costs, fees, attorney fees or interest taxable with respect to the award rendered by the arbitrators.

5. The award of the arbitrators shall represent a full and final settlement of any amounts due and owing to Plaintiff for any and all claims arising out of the incident which occurred on or about or near; however, limited judicial review may be obtained in a Michigan Federal District Court or Michigan Circuit Court of competent jurisdiction (a) in accordance with the standards for review of arbitration awards as established by law; or (b) on the ground that the arbitrators committed an error of law.

B. Promptly after the arbitrators announce their decision, the Law Department shall inform City Council in writing of that decision.

C. Upon the certification by the Law Department that the arbitrators have announced a decision requiring the City to pay part or all of the \$15,000.00 to the Plaintiff, the Finance Director is authorized to issue a draft drawn upon the proper account in favor of Cynthia Johnson-Brown, and her attorneys, Frank K. Rhodes & Associates in the amount of the arbitrators' award but said draft may not be less than Zero Dollars (\$0.00) and shall not exceed Fifteen Thousand Dollars (\$15,000.00). The payment will be in full satisfaction of any and all claims which Cynthia Johnson-Brown may have against the City of Detroit and its employees by reasons of alleged injuries sustained on or about February 6, 2003, when Cynthia Johnson-Brown was allegedly arrested without justification.

Re: Walter Walton vs. City of Detroit.
Case No.: 03-330042 NO. File No.:
A36000.000705 (JAS).

On June 8, 2004, a case evaluation panel evaluated the above-captioned lawsuit and awarded Fifteen Thousand Dollars (\$15,000.00) in favor of Plaintiff. The parties have until July 5, 2004, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to deem such acceptance as a settlement and to direct the Finance Director to issue a draft in the amount of Fifteen Thousand Dollars (\$15,000.00) payable to Carl L. Re: Diane Johnston v City of Detroit Finance Department. File #13361 (CM).

On September 28, 2001, your Honorable Body approved a settlement in the amount of Twenty-Nine Thousand Five Hundred Dollars (\$29,500.00), payable to Diane Johnston, the claimant. However, because of a change in circumstances the amount has been increased to Forty Thousand Dollars (\$40,000.00), payable to Diane Johnston and her attorney Myron B. Charfoos. These circumstances are set forth in a confidential attorney-client privileged memorandum that is being separately hand delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Forty Thousand Dollars (\$40,000.00), is in the best interests of the City of Detroit.

We, therefore, request that you rescind the original resolution, and change the amount of the settlement to Forty Thousand Dollars (\$40,000.00), and adopt the amended resolution submitted herewith. Waiver of Reconsideration is Requested.

City of Detroit
Brownfield Redevelopment Authority
June 25, 2004

Honorable City Council:
Re: 1001 Woodward Brownfield Plan.

The enclosed Brownfield Plan for 1001
Woodward (the "Plan") (Exhibit A), sub-
mitted by the Detroit Brownfield
Redevelopment Authority Board (the
"Authority") to the Community Advisory
Committee (the "Committee"), has been
considered and reviewed by the
Committee and a public hearing was held
by the Authority on June 10, 2004 to solici-
t public comments. At its June 2, 2004
meeting, the Committee considered and
approved a resolution recommending
approval of the Plan by the Authority and
City Council in the form presented by the
Authority.

On June 25, 2004, the Authority adopt-
ed a resolution (Exhibit B) approving the
Plan and authorizing the submission of a
certified copy of its resolution and the
Plan to the City Clerk, together with a
request that the Detroit City Council call a
public hearing concerning the Plan and to
take all other actions to approve the Plan
in accordance with Act 381.

The Plan is now presented to the City
Council for approval. The Detroit City
Council will, after publication of the
notices required by law, hold a public
hearing on the Plan. After the public hear-
ing, the City Council shall determine
whether the Plan constitutes a public pur-
pose and, if so, may approve or reject the
Plan or approve it with modifications.

Project Introduction

The DBRA is working with Triangle
Land, LLC on the redevelopment of 5
parcels bordered by Michigan Avenue to
the south, Woodward Avenue to the east
and State Street to the north and a public
alley to the west, and located directly
across Woodward Avenue from the

with a multi-level parking garage development with first floor retail space and the redevelopment of the adjacent office building. The parking structure will contain approximately 550-650 parking spaces and 16,000-18,000 square feet of retail space fronting Woodward Avenue. Remediation and renovation of office building space may include conversion of office suites into residential condominium units.

Purpose of the Proposed Plan

The proposed Plan is intended to accomplish two purposes. First, upon approval of this Plan by City Council, Triangle Land, L.L.C. will be entitled under state law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project. Second, the Detroit Brownfield Redevelopment Authority will be authorized to capture tax increment revenues produced from the development of properties subject to this Plan to offset the cost to Triangle Land, L.L.C. for environmental, infrastructure and site preparation work performed on the property subject to the Plan.

Basis of Eligibility

The property is considered to be "eligible property" as defined by Act 381, Section 2 because the parcels are (a) currently used for commercial purposes, (b) located in a qualified local government unit, and (c) are functionally obsolete and/or blighted or are adjacent or contiguous to parcels that are functionally obsolete and/or blighted.

Projected Costs

The proposed plan anticipates that approximately \$34,900,000 will be invested at the site. The Developer has submitted a Brownfield Plan that requests TIF reimbursement of eligible environmental and site prep costs totaling \$5,669,500. DBRA Administrative Costs of \$1,376,125 and \$5,801,632 for its revolving loan fund. The current estimates are that taxes will be captured through tax levies through 2026, not including five years of tax capture for the Local Site Remediation Revolving Fund. The Property is within the Downtown Development Authority ("DDA") district and the Developer plans to seek approval of an Obsolete Property Rehabilitation Act ("OPRA") district, which would encompass the entire 1001 Woodward building and also a Neighborhood Enterprise Zone ("NEZ") designation for the residential (upper) floors of the building. On June 25, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the Authority to provide a certified copy of its resolution to the City Clerk, to request that the Detroit City Council hold a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The City Council will, after public notice and notices required by law, hold a public hearing on the Plan. After the hearing, the City Council shall determine whether the Plan constitutes a public hearing, and if so, may approve the Plan or approve it with modifications.

Introduction

The DBRA approved a Brownfield Plan for Mack Alter South (the "Original Plan") which was subsequently approved by the City Council on February 26, 2004. The Original Plan contemplated development of the eligible property for commercial and retail use by E. Mack Alter, Inc. and Mack Alter, Inc. ("Developer"). Pursuant to Act 381, and in order to amend the Original Plan to include additional elements of the Original Plan, the Authority is amending the Original Plan to include additional eligible property and additional eligible activities. The Authority is also amending the Original Plan to provide for the use of tax increment revenues for certain eligible activities on the eligible property and to provide for the use of tax increment revenues for certain eligible activities on the eligible property and to provide for the use of tax increment revenues.

This First Amended and Restated Brownfield Plan for the South Mack and Alter Redevelopment Authority (the "Amendment") restates the provisions of the Original Plan as to the eligible property to conform with the requirements of Act 381, and to repeal or abrogate any provisions of the Original Plan not specifically included herein (The Original Plan as amended herein is hereafter referred to as the "Plan").

Amended Provisions

The property comprising the eligible property consists of 60 parcels (including the parcels included in the Original Plan and parcels added by the Amendment) that are blighted or adjacent and contiguous to a blighted parcel that is blighted. The eligible property is tangible personal property

Honorable City Council:

Re: Lombardo Heritage Amended and Restated Brownfield Plan.

The enclosed Brownfield Plan for the Amended and Restated Lombardo Heritage (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on June 10, 2004 to solicit public comments. At its June 2, 2004 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On June 25, 2004, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

On October 23, 2001, the DBRA approved a Brownfield Plan for Lombardo Heritage (the "Plan"). The Plan was subsequently approved by the Detroit City Council on November 30, 2001. Under the Plan, Lombardo Heritage, L.L.C. (the "Developer") is developing 126 market rate condominium townhouses (the "Project"), on a 10.6 acre parcel located in an area bounded by the Riverbend I and II retail centers on East Jefferson to the North, Freud Street to the South, Drexel Avenue to the West and Newport Street to the East.

Amended Provisions

The Project was intended to be developed in two phases. During the State approval process, it was determined that the SBT tax credit cannot be issued in phases, and that the Developer had to wait until the completion of both phases of the Project. Consequently the Developer, with concurrence from the State, is submitting the First Amended and Restated Brownfield Plan for Lombardo Heritage, L.L.C., which in fact divides the existing

Project Introduction

The E&B Brewery project will entail a complete renovation of the 1891 E&B Brewery building that manufactured beer until the 1960's. E&B Brewery Lofts, Inc. ("Developer"), a Michigan corporation, is the project developer. The site, built over multiple phases starting in 1891, was originally the home of the E&B Brewery which manufactured beer until the 1960s. Shortly after the building closed in the 1960s, a former E&B Brewery employee purchased the building from the company and illegally converted the first four floors into very large loft apartments with no investment in life safety systems, proper means of egress or other residential requirements.

The current owner, since purchasing the building, has attempted to bring the building up to code. The project has been reviewed and approved with conditions by the Buildings Safety and Engineering Department's loft review committee and the Developer has diligently worked to bring the building into compliance. Unfortunately unanticipated costs, particularly with a new fire suppression system, have halted major construction as the Developer searches for additional resources.

The project will convert this nine story former brewery into approximately 36 residential units and approximately 2,000 square feet of commercial space with a total eligible investment of \$4,200,000. A second phase is planned in which a new construction addition will be created on the roof of the 6th floor for an additional 4 units. The condominiums will be market-rate. The Developer has applied for a Neighborhood Enterprise Zone district to include the property.

Purpose of the Proposed Plan

The proposed Plan is intended to accomplish the following purpose. Upon approval of this Plan by City Council, E&B Brewery Lofts, Inc. will be entitled under State law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project.

Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for commercial purposes; (b) it is located within the City, a qualified local governmental unit; and (c) the Property is determined to be "functionally obsolete" as defined by Act 381.

Prior to approval of the Plan, the City Council is to hold a public hearing in consideration of the Plan pursuant to Act 381.

Therefore, Be It Resolved That:

The Council hereby acknowledges the Brownfield Plan from

A public hearing is hereby called on the 26th day of July, 2004, at 7:00 p.m. (prevailing Eastern Time, in local time), at the Detroit City Council Chambers, 13th Floor of the Young Municipal Center in Detroit, Michigan, for consideration and possible adoption by the City Council of a resolution approving the Plan.

Any resolutions and parts of resolutions that conflict with the provisions of this resolution are rescinded.

The City Clerk is requested to submit certified copies of this resolution to the DBRA, 500 Griswold Street, Detroit, MI 48226.

City Council:

Resolution No. 2004-0012, titled "Resolution Approving the Project Brownfield Plan. The City Council has approved the Project Brownfield Plan for the City of Detroit (the "Plan") (Exhibit A), submitted to the Detroit Brownfield Development Authority Board (the "Authority Board") (the Community Advisory Board (the "Committee"), has been reviewed and reviewed by the City Council and a public hearing was held on June 10, 2004 to solicit comments. At its June 2, 2004 meeting, the Committee considered and approved a resolution recommending the Plan by the Authority and the form presented by the

City Council, on June 2, 2004, the Authority adopted Resolution No. 2004-0012 (Exhibit B) approving the Plan and authorizing the submission of a copy of its resolution and the City Clerk, together with a copy of the Plan to the Detroit City Council for its consideration and possible approval of the Plan and to take any actions to approve the Plan pursuant to Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council is requested to approve the Plan after publication of the

City of Detroit Assessor's Office and is attached to the Brownfield Plan.

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include underground storage tank removal, demolition and lead and asbestos abatement.

The proposed project has been presented to the City of Detroit's Planning and Development Department ("P&DD"). A letter of support for the project from P&DD is included in this packet. The project has received a verbal approval of an NOI from MEDC.

Public Comments Received

The Committee's communication to the City Council and the Authority, dated June 2, 2004 (Exhibit C), recommending approval of the Plan including the minutes of the Public Hearing held by the Authority on June 10, 2004, are enclosed for the City Council's consideration.

Re: Public Hearing on the Establishment of the Woodward/Michigan Neighborhood Enterprise Zone As Requested by the Milestone Realty Services, Inc. in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the Woodward/Michigan Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to convert vacant office space on 13th thru 21st floor of a downtown high-rise commercial building into 40 residential dwellings with parking and retail in the proposed NEZ at a costs of \$38 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration, please

Re: Reprogramming Community Development Block Grant (CDBG).

The Planning and Development Department hereby respectfully requests that your Honorable Body approve the attached resolution reprogramming CDBG funds in the amounts of \$3,300,000 from the MCA RIMCO

rehabilitation of residential units for low-income persons. units will be rehabilitated to the Program's Contractors Standards and all local ordinances, which exceed Section Quality Standards. The CDBG this project will supplement program funds used for substantial building. The HUD allocation of HOME program funds by investors, Community Development Organization Using CDBG funds to supplement program funds will improve of housing unit production improve timeliness of CDBG helping us to meet HUD CDBG timeliness requirements.

The CDBG funds allocated to the RIMCO Properties Project was used because it was determined use of CDBG funds for this project involved significant ownership and timeliness problems. In Detroit Neighborhood Corporation (DNDC) the RIMCO properties has indicated sole current scope of work to liquidate all remaining properties of CDBG funds to manage and maintain properties prior to title is limited. Thus delays caused by court involvement and title made the use of CDBG project unfeasible.

The CDBG funds allocated to the Disaster Recovery project was used. Funds for this project were provided by a special HUD Disaster Grant. All eligible properties in the project area were provided. January 30, 2004

Honorable City Council:

Re: Acquisition of Property for the Detroit Police Department 17825 Sherwood, a/k/a Donald A. Stroh United States Army Reserve Center.

On March 17, 2003, the Detroit Police Department requested that the Planning and Development Department (P&DD) acquire property located at 17825 Sherwood. The property consists of a 36,768 square feet two-story red brick structure which is institutional in appearance. In addition, there is a three-bay brick garage on the site and the remaining area consists of paved surface parking. The entire area is fenced, gated and contains approximately 3.48 acres.

The Detroit Police Department will use this property for law enforcement purposes. It will aid in training cadets, sworn officers, and civilian police department personnel. The facility will be used primarily as its previous function and no major renovation or construction will occur. It will also provide administrative office space for the Detroit Police Department.

The Planning and Development Department will acquire this property as a gift conveyance with certain restrictions from the United States Bureau of Justice Assistance (BJA) Federal Surplus Real Property Transfer Program. The program requires the City of Detroit to submit an application to the BJA. If granted, the BJA will convey the property to the City as a gift to be used for law enforcement purposes only. Once the property is received into the City's inventory, the P&DD will transfer jurisdictional control over to the Detroit Police Department.

As required by section 2-1-13 of the 1984 Detroit City Code, a Phase I environmental inquiry has been conducted on this property to determine if there is any evidence of environmental contamination. The results of the environmental inquiry reveal that while asbestos and lead paint are likely present within the structure, these substances can be addressed during the building renovation to be performed by the Detroit Police Department. Further, the environmental inquiry did not reveal the presence of any significant environmental conditions which would warrant further investigation and/or remediation under Part 201 of the Natural Resources and Environmental Protection Act.

Section 2-1-15 of the 1984 Detroit City Code provides that your Honorable Body may waive the requirement that the seller/

Accordingly, your Honorable Body approval of the attached resolution requiring the requirement that the seller bear the cost of the environmental assessment is hereby respectfully requested.

We, further, request your Honorable Body approve a resolution authorizing the Planning and Development Department to accept the conveyance of 17825 Sherwood from the United States Bureau of Justice Assistance.

We, further, request your Honorable Body authorize the Planning and Development Department to accept jurisdiction of 17825 Sherwood from the United States Bureau of Justice Assistance expended with this donation through the Detroit Police Department.

Respectfully submitted,

HENRY B. M...

Law Department

July 1, 2004

Honorable City Council:

Re: Substitute Ordinance Consolidating Definitions and Modifying Landing and Field Parking Fees at Detroit City Airport.

A Public Hearing was held this morning at 11:00 a.m. on a proposed ordinance

justify rates pertaining to Landing Fees, Field Parking Fees at Detroit City Airport. At that Hearing, it was pointed out that the proposed ordinance failed to incorporate the new name of the Airport, enacted by your Honorable Body in 2003. Attached is a substitute ordinance which implements the change in the name of the *Detroit City Airport to the Coleman Alexander Young Municipal Airport* pursuant to Ordinance 04-03. This section is a technical change and does not require an additional Public Hearing. The proposed ordinance will enable the Airport to impose fees which are competitive with those of surrounding airports of similar scale. For that reason, the Law Department requests that this proposed ordinance amendment be placed on the normal Agenda for enactment at the next Council Session on Friday, July 2, 2004.

If you may be of further assistance on this matter, please do not hesitate to contact me.

Respectfully submitted,

Re: Petition No. 836 — Northend Village LDHA/LP, for alley closure in area between Cameron and Hague.

Petition No. 836 of "Northend Village LDHA/LP", in C/O H & H Studio Inc., 1111 Broadway, Detroit, Michigan 48226-2211, request the outright vacation of the north-south public alley, 18 feet wide, first westerly of Cameron Avenue (previously vacated and converted to sewer easement July 21, 1931 to allow construction of Moore School) within the block bounded by Oakland Avenue, 66 feet wide, Harper Avenue, 66 feet wide, and Hague Avenue, 60 feet wide, and Alger Avenue, 70 feet wide.

The request was approved by Planning and Development Department, the Street and Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation report. This is our report.

The previously vacated alley was converted to a sewer easement exclusively for the Detroit Water and Sewerage Department (DWSD) on July 21, 1931 to allow construction of Moore School. DWSD reports a 10-inch sewer serving the site. However, the DWSD has no objection to the outright vacation provided the petitioner owns the land adjacent to said easement.

All other city departments and private owned utility companies have no objections to the outright vacation.

An appropriate resolution is attached recommending approval by your Honorable Body.
