Re: The Byrne Memorial Formula "Blitz & Broom" Grant. Grant Term October 1, 2004 through September 20, 2005.

Through efforts of Law Department staff, the City of Detroit was selected by the Wayne County Prosecuting Attorney's office to receive funds from a Byrne Memorial Formula Grant for a program titled "Blitz & Broom."

Honorable City Council:

Re: Address: 18872 Anglin. Name: Trott & Trott. Date ordered removed: June 15, 2005 (J.C.C. p. 1900).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on September 23, 2005 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 20, 2005.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Re: Revised CDBG/NOF Criteria for 2006-2007.

The Working Group of City Council staff and City Planning Commission staff has met again to review the Community Development Block Grant/Neighborhood Opportunity Fund (CDBG/NOF) criteria.

Attached is a list of revised criteria which staff believe addresses several concerns of City Council. Changes include:

- A reduction in the number of criteria by eliminating those non-absolute criteria that could be addressed simply via particular questions in the application;
- Increased flexibility regarding the amount of dollars public service organizations can request;
- Changes to various Council-imposed criteria: i.e. MUST submit three letters of support that SHOULD be dated and signed and deleting required workshop attendance; and finally
- Regrouping and reordering criteria to reduce the duplicity across the various activities.

Also attached for your consideration is a resolution to adopt the revised criteria.

Respectfully submitted,

**City Council

October 12, 2005

Honorable City Council:

Re: Status of Auditor General Applications.

As directed by your Honorable Body, the Research & Analysis Division placed advertisements for the positions of Auditor General in all four local newspapers i.e., the Detroit Free Press, the Detroit News, the Michigan Chronicle and the Michigan Citizen. These ads ran with a deadline of 4:00 P.M., October 12, 2005. On Monday of this week your Honorable Body was informed that only one resume had been received in response to the ads. RAD was then directed to make contact with several additional organizations in an effort to reach a wider audience. Accordingly, information regarding the Auditor General position was transmitted, by e-mail, to the officers of those organizations.

As of this morning, Wednesday, October 12, 2005 we received a total of one application from all sources. In an effort to conduct a more complete search for qualified candidates RAD recommends that additional ads be placed with the following groups:

- Association of Government Accountants
- Government Finance Officers Association (will feed ads to the Michigan Municipal Finance Officers Association)
- National Association of Black Accountants, Inc.
- Association of Latino Professionals in Finance and Accounting
- American Woman's Society of Certified Public Accountants
- Michigan Municipal League

The rate for posting an online ad varies with each of the organizations and ranges from ten cents per character (Michigan Municipal League rate for full members) to \$500 (Government Finance Officers Association).

It is also RAD's recommendation that the ads run for a longer period, at least 30 days. An online posting coupled with an extended response period creates an opportunity to significantly increase the audience reached yet still afford enough time for RAD to provide your Honorable Body with copies of all applications prior to your recess. Copies can also be provided to the Council Members-Elect in order to facilitate the process of initiating candidate interviews upon your return in January.

One final consideration is whether your Honorable Body wishes to continue running the current ads (with the necessary changes) in addition to online placements with the various trade organizations.

RAD awaits your direction. A revised resolution is attached for your consideration.

Respectfully submitted,

By Council Member McPhail:

Resolved, That the Detroit City Council continues the search for an Auditor General by placement of the attached advertisement in the Detroit Legal News, the Michigan Chronicle, the Front Page and the Michigan Citizen; and be it also

Resolved, That applications for the position of Auditor General will be accepted by postal mail or electronic mail until **4:00 P.M. on Thursday, November 17, 2005**; and be it finally

September 26, 2005

Honorable City Council:

Re: Public Hearing on the Establishment of the Bellevue Village Neighborhood Enterprise Zone as Requested by the Church of the Messiah Housing Corporation in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the Bellevue Village Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct 10 single-family homes at a gross estimated cost \$1.7 million.

We request that a Public Hearing be scheduled on the issue of establishing this NEZ, as required by the NEZ Act. Attached for your consideration please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,

WALTER C. WATKINS, JR.

Chief Development Officer

By Council Member Bates:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The Church of the Messiah Housing Corporation has requested establishment of the "Bellevue Village" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter.

Now Therefore Be It

Resolved, That on the 20th day of October, 2005 at 10:45 a.m. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) and illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all the taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier than sixty (60) days prior to the public hearing.

**Mayor's Office
of Targeted Business Development**

September 26, 2005

Honorable City Council:

Re: Support Resolution for OTBD MBOC Grant.

This letter accompanies a proposed resolution and is submitted to provide information for the same. The Office of Targeted Business Development is seeking a Federal grant and must have a "governing body" resolution as part of our proposal package.

The City of Detroit Office of Targeted Business Development (OTBD) is the City's premier business development office whose charge is to increase business opportunities for Detroit-based and disadvantaged businesses. While the focus of the OTBD is assisting Detroit businesses, we also understand that minorities and women, most of whom are African-American in our City, are disadvantaged with respect to competing in the business arena.

For this reason, the OTBD has chosen to apply for a Federal grant totaling \$300,000 over a two-year period through the United States Department of Commerce's Minority Business Outreach Centers Program (MBOC)¹. Becoming an MBOC office will allow us to make a measurable difference for those marginalized entrepreneurs who often complain to us about the barriers they encounter in obtaining contracting opportunities. We will also have access to a nation-wide tracking system that will allow us to provide extensive reporting on the progress of minority and women-owned businesses in Detroit.

The MBOC program has very specific goals for the City of Detroit. In order to comply with the objectives of this program, the OTBD must meet the following four criteria²:

- A minimum of \$31,000,000 new contract dollars awarded to minority businesses in the City during the grant period (1/06-1/08). These contract dollars may be Detroit City contracts or from other sources.
- The dollar value of financial transactions secured must be at least \$12,000,000.
- At least nine (9) clients must receive contracts or new financing.
- A minimum of five (5) new jobs must be created as a result of this two-year program.

In addition to the ability to outreach to minorities and women, this grant will provide support dollars for the OTBD, namely to provide salaries for an Executive Director (ED) and partial support for one (1) Business Analyst position. The ED **must** be a separate Director from the OTBD Director, and must also be well-qualified with respect to education and experience in business development. This requirement will help to insure that we have the mandated business development competency within the OTBD in compliance with the MBOC program guidelines. The MBOC Executive Director must be dedicated 100% to managing and implementing the program. We propose that the Mayor appoint the MBOC Director³.

The MBOC program also requires an Advisory Board and an MBOC Chairperson⁴. These persons would presumably be the members of OTBD's Advisory Board, with its Chairperson also serving as Chairperson of the MBOC.

The MBOC program cannot be a stand-alone program. The Department of Commerce requires that it work in tandem with an existing business development program, such as the OTBD. In the Request for Proposals (RFP) we are required to show how our existing program will anchor the MBOC program with office staff, equipment, computers, and other in-kind support. Therefore, it is important to note that this grant can only supplement the current funding level of the OTBD. We will seek to find other funding sources in the future that may help the OTBD to achieve self-sufficiency.

The benefits of adding the Minority Business Development Opportunity Office to the Office of Targeted Business Development are immeasurable. Therefore, we request that you promptly pass a Council resolution supporting the OTBD's application to receive this Federal grant.

Respectfully submitted,

SEAN WERDLOW

Finance Director

**Resolution Supporting Creation of a
Minority Business Opportunity Center
Office (MBOC), through the City of
Detroit Office of Targeted Business
Development**

Whereas, The City of Detroit Office of Targeted Business Development (OTBD) is the City's premier business development office whose charge is to increase business opportunities for Detroit-based businesses; and

Whereas, The City of Detroit is a large urban center consisting of minorities, most of whom are African-American and disadvantaged with respect to competing in the business arena; and

Whereas, The OTBD is charged with monitoring the progress of disadvantaged businesses and the amount of new con-

Whereas, The OTBD seeks to become a Minority Business Outreach Development Center (MBOC) for the purpose of accessing Federal support dollars to help it achieve the goals set forth by both the Department of Commerce and the Detroit City Council;

Therefore Be It Resolved the Detroit City Council affirms that the City of Detroit Office of Targeted Business Development has the capacity and authority to gather and track information relevant to business development, and to provide timely reports related to Minority Business Enterprises as authorized and required for the purpose of fulfilling the requirements of the United States Department of Commerce, Minority Business Development Agency, Minority Business Opportunity Center Program grant for the calendar years beginning January 1, 2006 through January 1, 2008; Further, the Office of Targeted Business Development is authorized to seek funding to implement this program.

Re: East Village Homes — Payment in Lieu of Taxes (PILOT).

East Village Homes Limited Dividend Housing Association Limited Partnership is developing a housing project consisting of 50 newly constructed three and four bedroom single-family units. The project area is bounded by Fischer to the east; Van Dyke to the west; Mack to the south and Warren to the north.

Financing for the development will be through Charter One Bank with a loan of \$1,470,000 for 15 years at 7% interest and Low Income Housing Tax Credit of six million two hundred and eighty thousand dollars (\$6,280,000) for a total development cost of \$9,990,320.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996 (P.A. 346, as amended, MCLA 125.1415A).

Thirty percent (30%) or fifteen (15) of the units will be occupied by households with incomes no greater than 30% of the area median income adjusted for family size. Sixteen percent (16%) or eight (8) of the units will be occupied by households

with incomes no greater than thirty-five (35%) of the area median income adjusted for family size. Thirty-six percent (36%) or eighteen (18) of the units will be occupied by households with incomes no greater than 40% of the area median income adjusted for family size. The remaining eighteen percent (18%) or nine (9) of the units will be occupied by households with incomes no greater than (60%) of the area median income adjusted for family size.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a 4% service charge for this housing project.

Honorable City Council:

Re: Address: 9800 Belleterre. Name: Richard McClain. Date ordered removed: October 9, 2002 (J.C.C. pg. 3057).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 3, 2005 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 28, 2005.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

4. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Historic Designation Advisory Board

October 12, 2005

Honorable City Council:

Re: Historic Designation Advisory Board submitting its final report (and ordinance) on the proposed Vinton Building Historic District.

At the direction of the Historic Designation Advisory Board at its meeting of July 14, 2005, I am pleased to submit to your Honorable Body the board's final report on the proposed Vinton Building Historic District. The recommendation of the Advisory Board is for designation and, therefore, a draft ordinance of designation is attached. The ordinance has been approved as to form by the Law Department.

This designation was requested by the developers intending to rehabilitate the structure. *Ad hoc* members of the Advisory Board for this study were Henry Hagood, Director of Development Activities for the City of Detroit, or his representative, to represent the ownership interest in the property; and R. Scott Martin, representing the development partnership. Both *ad hoc* members were in favor of designation.

Also attached is a copy of the minutes of the public hearing held by the Advisory Board on this matter. The Historic District Commission report and comment and its Master Plan Review as it relates to the proposed historic district is also attached, as is correspondence received relative to the designation.

If you should have any questions, I may be reached at 224-3487.

Respectfully submitted,

By Council Member Bates:

AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-157 to establish the Vinton Building Historic District and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II of the 1984 Detroit City Code be amended by adding Section 25-2-157 to read as follows:

SEC. 25-2-157. Vinton Building Historic District.

(A) A historic district to be known as the Vinton Building Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district designation is hereby certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Vinton Building Historic District are as shown on the map on file in the office of the City Clerk, and shall be as follows: On the north, a line drawn 40 feet north of and parallel to the south lot line of Lot 57 of Part of Section 1 Governor & Judges Plan, recorded in Liber 34, Page 550 of Deeds, also recorded in Liber 9, Page 424 of City Records, extended east and west; on the east, the centerline of the north-south alley located between Woodward Avenue and Bates Street; on the south, the centerline of E. Congress Street; and on the west, the centerline of Woodward Avenue. (Legal Description: The south forty (40) feet of Lot 57 of Part of Section 1 Governor & Judges Plan, recorded in Liber 34, Page 550 of Deeds, also recorded in Liber 9, Page 424 of City Records).

(D) The defined elements of design, as provided for in section 25-2-2 of this code, shall be as follows:

(1) *Height.* The Vinton Building is twelve stories tall.

(2) *Proportion of Building's Front Facade.* The front facade of the Vinton Building, composed of five (5) bays, is predominantly taller than wide. Its secondary, or south, facade, composed of fourteen (14) bays, is also taller than wide.

(3) *Proportion of Openings Within the Facade.* The Vinton Building is composed of approximately forty (40) percent openings in its front and south facades. Rectangular window openings containing double-hung sash windows above the first story are two (2) times taller than wide. Upper sashes of window openings on the twelfth story are round-headed. Presently covered with boards, the storefront configuration on the front facade consists of two entrances, originally recessed, with trelliswork transoms above the openings, flanked by display windows beneath a row of vertically oriented transom windows. The storefront opening at the southwest corner of the building occupies both the front (west) and secondary (south) facades, originally separated by a pier at the corner of the building. Alterations to the original ground floor of the south facade resulted in the removal of the original recessed storefront arrangements. Refaced in granite, the south facade was

reconfigured as three (3) groupings of display windows and, at the east end, a single width door opening now covered with a roll-down security door. Each display window is divided into three (3) segments by horizontal metal dividers and covered with wooden boards now painted black.

(4) *Rhythm of Solids to Voids in The Front Facade.* A regular rhythm of solids to voids exists above the first story of the front and south facades with the placement of one window unit per vertical bay. The rhythm of display windows and entrances on the first floor is irregular due to the irregular placement of the entrances on the front facade. The placement of openings in the rear, or east, elevation is less predictable due to its utilitarian nature.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable due to single building district.

(6) *Rhythm of Entrance and/or Porch Projections.* Storefronts and display windows, now boarded flush with the face of the building, originally had recessed entrances, creating a rhythm at ground level.

(7) *Relationship of Materials.* The front (west) and south facades are brick with terra cotta ornament. Apron walls below display windows are marble. Window sashes and frames are wood, including the decorative framing of the display windows of the ground floor of the front facade. The wall surface of the first story of the south facade was remodeled with granite, and its display windows, now covered with wood boards, are framed in aluminum. Copper coping runs along the top of the shallow gable of the front facade. The east elevation is of common brick, and metal fire escapes extend from the top floors to the second floor.

(8) *Relationship of Textures.* Brick laid in regular courses contrasts with the smoother texture of terra cotta. Repetitive terra cotta detail, such as arcading, twisted moldings, and decoration in spandrels, create textural patterns. Where windows are subdivided, such as the trelliswork transoms, textural interest also exists. The polished granite facing of the south facade appears to have been dulled, removing the smooth and shiny effect.

(9) *Relationship of Colors.* Light grey brick is juxtaposed with white terra cotta features. Window frames and sash are painted grey. The copper coping at the top of the building has weathered green.

(10) *Relationship of Architectural Details.* The Vinton Building is classically arranged with a base consisting of ground floor storefronts and display windows. The wooden framing of the display windows on the ground floor of the front facade feature a bundled reed molding with metal cross-ties located at regular intervals. Generally, the decorative treatment of the

ground floor of the front facade extends around to the first display window of the south facade, although, according to old photographs, it originally continued throughout the south elevation. The second story is expressed on the exterior by its horizontal separation from the floors below and above, and has slightly taller windows. The main rise of the building, or the "shaft", is expressed by vertical rows of deeply inset windows between piers terminating in the arch-topped windows of the top story. Decorative spandrels are inset beneath each window. A string course at the level of the spring of the arches and the ornament of the arches themselves divide the "shaft" from the "capital" which is designed as a masonry parapet decorated with evenly-spaced roundels and capped by a cornice of small-scale Lombard arcading. On the front facade, the arcading follows the line of the shallow gable, terminating the tall narrow facade and providing space for a panel, now missing, containing the name "VINTON." The corners of the building are emphasized by inset terra cotta in a barley-twist pattern. On the southwest corner, this molding is missing from above the third floor to the eleventh floor. Parts of a cornice beneath the second story windows is also missing, as are bricks that have fallen from above the first floor transoms on the front facade. Brick is also missing from the south facade at the southwest corner of the second story.

(11) *Relationship of Roof Shapes.* The roof is not visible from the street.

(12) *Walls of Continuity.* Not applicable due to single building district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* No original historic landscape features are present. A broad concrete public sidewalk runs at the foot of the Woodward Avenue and Congress facades. The district boundaries extend to the middle of the planted island separating the north and south traffic lanes of Woodward Avenue. A historic Woodward Avenue lighting standard with tall, fluted columns and double pendants is placed in front of the building on Woodward Avenue near its corner with Congress; a modern steel lighting fixture is located near the alley on Congress. Historical photographs show light standards with multiple globes on the sidewalk around the building.

(14) *Relationship of Open Space to Structures.* No open spaces outside of the public right-of-way are associated with this district. There is a narrow black-topped service alley to the rear, or east, of the building. Historical photographs show a clock extending above the sidewalk at second story level on the southwest corner of the Woodward facade. A green plastic, rounded awning rests over the easternmost display window of the south

facade; originally shed-like awnings extended above all ground floor stores below the original transoms.

(15) *Scale of Facade and Facade Elements.* The front facade is narrow; facade elements and details are modest in scale.

(16) *Directional Expression of Front Elevation.* The front elevation of the Vinton Building is vertical in directional expression, although street-level openings once provided a horizontal, pedestrian-related orientation.

(17) *Rhythm of Building Setbacks.* Not applicable due to single building district.

(18) *Relationship of Lot Coverages.* The footprint of the building occupies the entire parcel.

(19) *Degree of Complexity Within the Facade.* The two major facades are straightforward in their arrangements and therefore have a low degree of complexity.

(20) *Orientation, Vistas, Overviews.* The Vinton Building Historic District is oriented toward Woodward Avenue with a secondary orientation toward Congress. The building anchors the southwest corner of the block it occupies. The wrap-around configuration of the twenty-four (24) story First National Building acts as a backdrop to the Vinton Building and the smaller-scaled buildings in the middle of its Woodward Avenue block. The greater set-back of the One Detroit Building across Congress to its south brings greater visibility to the south facade of the Vinton Building than may have existed at an earlier time.

(21) *Symmetric or Asymmetric Appearance.* The appearance of the Vinton Building is symmetrical from the second floor up. The arrangement of storefront display windows and entrances on the ground floor is not symmetrical.

(22) *General Environmental Character.* The Vinton Building Historic District is an architecturally notable commercial building located on a prominent corner of downtown Detroit's grand thoroughfare, Woodward Avenue, made more visible by its height at the end of a row of lower, older buildings. Much of the surrounding area is occupied by newer and taller commercial and public buildings and public spaces.

Section 2. All ordinances or parts of ordinances in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit

City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

City Planning Commission

October 11, 2005

Honorable City Council:

Re: Request of Speedway Super America to erect business signage at 711 E. Jefferson in a PCA (Restricted Central Business District) zoning district (Recommend Approval).

Speedway Super America has submitted a sign permit application to erect business signage at the service station at 711 E. Jefferson. This property is located in a PCA (Restricted Central Business District) zoning district. PCA zoning districts are located in close proximity to the Public Center District and the controls of the PCA district are designed to prevent uses and structures from having a deleterious effect on the public center of the city. Section 61-11-96 of the Zoning Ordinance requires City Council approval of the location and design of any sign proposed in a PCA district after receiving a report and recommendation from the City Planning Commission (CPC).

The proposed signage would include two replacement signs on the service island canopies. The proposed signs would each be 3 feet high and 15 feet 6 inches wide. These signs would consist of

red plastic channel letters reading "Speedway". The third proposed sign would be a non-electronic message board installed on the front side of the building facing the I-375 Service Drive. This board would be internally illuminated and 5 feet high by 8 feet wide and have changeable copy. Two existing wall signs would be removed from the building.

CPC staff is concerned about the use of the message board because its changeable copy could be used for off-premise advertisements or to advertise items only incidentally sold on the premises. According to Section 61-6-7 of the Zoning Ordinance, a business sign is a sign having at least 75% of its area devoted to directing attention to the principal business on which the sign is located. If more than 25% of the message displayed on the proposed message board pertains to off-premises advertising of specific products sold at the service station, it would be considered an advertising sign. Section 61-11-96 of the Zoning Ordinance expressly prohibits the placement of advertising signs within the PCA district.

City Planning Commission staff has reviewed the proposed signs and message board and finds that, if operated in accordance with current regulations, they would be appropriate for the PCA district. The signs are relatively small and not out of scale for the site. We further find that the location and design of the proposed signs would be consistent with the spirit, purpose and intent of the PCA district. We therefore recommend approval of the location and design of the signs and submit the attached resolution for your consideration.

Respectfully submitted,
MARCUS D. LOPER
Deputy Director

By Council Member Bates:

Whereas, Speedway Super America has requested to erect two business signs on service island canopies and a message board wall sign with changeable copy on the service station building at 711 E. Jefferson; and

Whereas, The property at 711 E. Jefferson is located in a PCA (Restricted Central Business District) zoning district classification, and, therefore, requires City Council approval of the location and design of any proposed sign in accordance with the provisions of Section 61-11-96 of the Zoning Ordinance; and

Whereas, The City Planning Commission staff has reviewed the location and design of the proposed signs and finds that they are consistent with the spirit, purpose and intent of the district as indicated in the foregoing communication; and

Whereas, Advertising signs are prohibited on this site by Section 61-11-96 of the

Zoning Ordinance and the provisions of Ordinance 22-98;

Now, Therefore Be It Resolved, That the Detroit City Council hereby approves the location and design of the proposed signs for display of messages in accordance with applicable regulations and as described in the foregoing communication from the City Planning Commission staff and presented in the Speedway Graphics Control Drawing No. 5235-E4U-SP prepared by Marathon Ashland Petroleum LLC.

Honorable City Council:

Re: Establishment of the South University Village Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the South University Village Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on September 22, 2005, as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

As you may recall, the Hubbell Group,

LLC proposes to invest \$75 million to construct 360 residential units. The average units sell price will be upward of \$170,000.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. The date of the notice of the public hearing was July 26, 2005 and we therefore recommend that you approve the resolution at your next regular formal session.

Respectfully submitted,
DOUGLASS J. DIGGS

Director of Development Activities
By Council Member Bates:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the South University Village NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the South University Village NEZ was conducted before the Detroit City Council on September 22, 2004, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the South University Village NEZ are known:

Now Therefore Be It

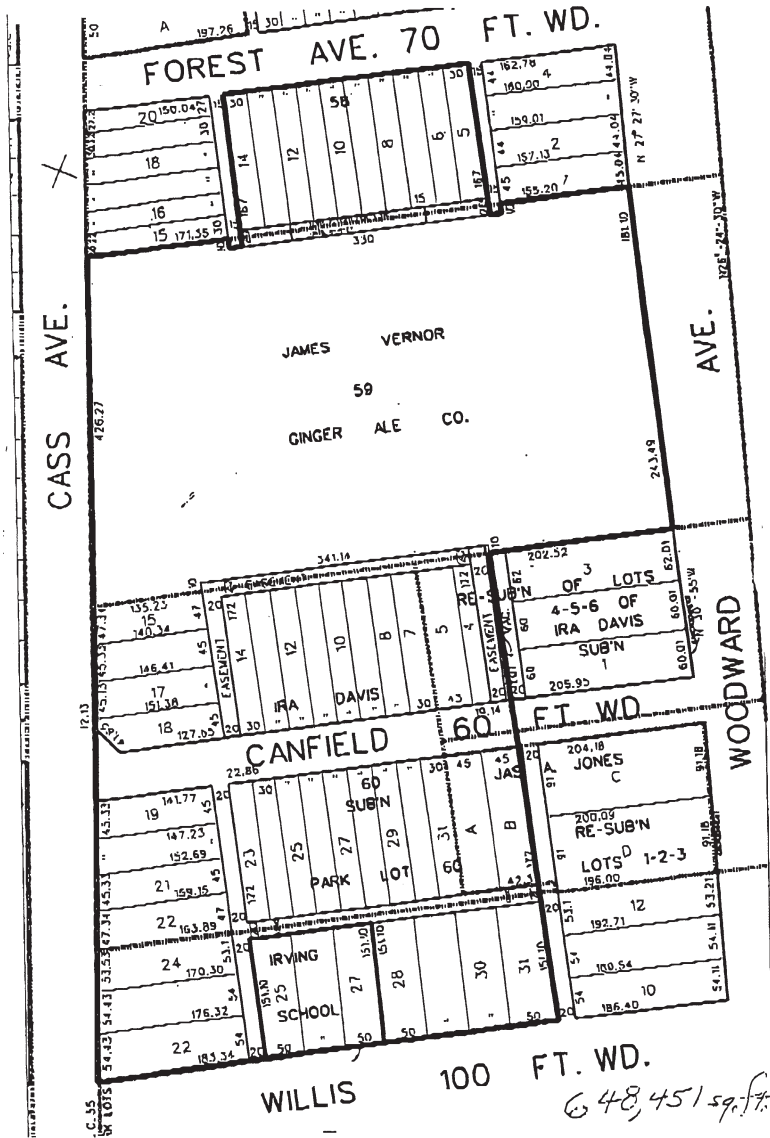

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the South University Village NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Honorable City Council:

Re: Establishment of the 1001 Covington Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the "1001 Covington"

Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on September 22, 2005 as required by the Act. No impediments to the establishment of the NEZ were presented at the public hearing.

As you may recall the 1001 Covington, LLC proposes to invest \$500,000 to convert 16 luxury apartment into "for sale" condominiums. The typical sell price will be \$175,000 with initial association fee of

648,451 sq. ft.

\$600/month for maintenance and utilities including heat.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. The date of the notice of the public hearing was July 22, 2005 and we therefore recommend that you approve the resolution at your next regular formal session.

Respectfully submitted,
DOUGLASS J. DIGGS

Director of Development Activities
By Council Member Bates:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the 1001 Covington NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code

of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the 1001 Covington NEZ was conducted before the Detroit City Council on September 22, 2005, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the 1001 Covington NEZ are known:

Now Therefore Be It

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the 1001 Covington NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

**NEIGHBORHOOD ENTERPRISE ZONE

Re: Request for Public Hearing. Residential Alley Vacation and Conversion to Easement for Petitions No. 307, 1316, 1744, 1776, 1899, 2465, 2553, 2785, 2915, 3027, 3143, 3155 and 3225.

The Planning and Development Department (P&DD), in accordance with the Detroit Code, Article VI, Section 50-6-1, has reviewed requests for residential alley conversion to easement for the above-referenced petitions which were previously filed with the Office of the City Clerk. An attached listing provides specific information for each petition. Our investigation of the subject petitions discloses the following:

1. The submitted petitions for residential alley vacation received no objections from impacted utility companies or city departments.
2. The alley does not serve as the sole means of ingress/egress to abutting properties.
3. The alley is not required for municipal services (trash collection).
4. The public utilities located in the alley can be properly serviced if this alley is converted to an easement. The conversion to easement will have covenants and agreements, uses and regulations to be observed by the abutting property owners.

The P&DD finds that these requests for residential alley vacation would be beneficial to both the City and abutting property owners. It is requested that your Honorable Body hold the required public hearing for each petition as provided in the Detroit Code. The above referenced thirteen (13) petitions are simple residential alley vacations for which we do not anticipate extensive public discussion.

Therefore, we estimate the duration of time required for this public hearing to take one hour (1 hour).

Re: 2005-2006 Budget Correction.

The Mayor's Recommended Budget for 2005-2006 included the consolidation of the General Services Department, which was comprised of Facility and Grounds Maintenance and Fleet and Equipment Management. In that process, DPW Vehicle Management and Stores and Supplies were under funded while Health and Recreation Departments were over funded.

Consequently, we are requesting authorization from your Honorable Body to make the necessary correction to amend the 2005-2006 Budget to transfer funds totaling \$1.9 million from Recreation 1.2 million and \$649,540 from Health Department to DPW Vehicle Management and Stores and Supplies. Vehicle management repairs vehicles and Stores and Supplies purchase fuel.

I will be available to address any further questions and/or concerns.

RESOLVED, That, pursuant to Ordinance 719-G, Section 2-2-34 of the Detroit City Code, the City Council hereby appoints David D. Whitaker to the position of Director of the Division of Research and Analysis.

Yeas — Council Members Bates, Collins, McPhail, Tinsley-Talabi, Watson, and President Pro Tem. K. Cockrel, Jr. — 6.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO APPOINTMENT OF THE DIRECTOR OF THE RESEARCH AND ANALYSIS DIVISION

I am, regrettably, unable to support the appointment of Mr. David Whitaker, Esq. as the permanent Director of the Research and Analysis Division (RAD) of the Detroit City Council because I believe that this entire process has been tainted from the beginning and because I do not believe that Mr. Whitaker is the best candidate for the job in terms of ability or experience.

Initially, Mr. Whitaker was "appointed" to this position in an interim capacity only after the unfair and wholly inappropriate termination of Ms. Kathie Dones-Carson from the position. In September of 2003, Ms. Dones-Carson was summarily discharged without any meaningful discourse, and under trumped up charges of insubordination.

Secondly, to date, Mr. Whitaker's management of RAD has led the Division with an approach to public policy that is rooted in litigious advocacy for the views of certain members of this Council, as opposed to sound legal and research advice that carefully measures all aspects of a particular issue. In other words, it is not RAD's job to tell the Council how or why to do something a few of its members want. Rather, it is RAD's responsibility as advisors and counselors to inform the Council of what it can do and what the particular ramifications of a particular course of action might be, and to let the Council decide as a Body, what course of action to choose.

Thirdly, there have been several instances in which the Council has received conflicting legal advice from RAD and from the Law Department. Based on my review, and in my opinion, in those instances, RAD has typically provided wrong or inadequate legal advice which suggests a certain level of inexperience on the part of its leadership.

Lastly, Mr. Whitaker displayed an appalling lack of professionalism at the Council table on Monday, October 17, 2005 when, while threatening to resign, he repeatedly struck the table and raised his voice. This was in response to my observation and suggestion that maybe this process should be renewed because other candidates had indicated to me that they were withdrawing from consideration for the position because they had felt the Council had already made a decision to appoint Mr. Whitaker.

In sum, the entire process was tainted from the beginning and other candidates were not treated even-handedly. Even if that were not the case, for the reasons stated above, Mr. Whitaker is not the most qualified candidate for the position and I voted no.

(1) In computing his or her taxable income, an individual taxpayer is allowed a deduction of a minimum of ~~seven hundred fifty dollars (\$750.00)~~ Six Hundred Dollars (\$600.00), which deduction shall be effective on ~~January 1, 1998~~ January 1, 2005, for each personal and dependency exemptions under the rules for determining exemptions and dependents as provided for in the *Internal Revenue Code*. The taxpayer may claim his or her spouse and dependents as exemptions, but where the taxpayer and the spouse are both subject to the tax imposed by this Article, the number of exemptions claimed by each of them when added together shall not exceed the total number of exemptions allowed under this Article.

(2) For tax years beginning after 1986, an additional exemption is allowed under subsection (a)(1) of this Section for a taxpayer who is sixty-five (65) years of age or older, or who is blind as defined in the *City Income Tax Act*, being MCL 206.504; ~~MSA 7.557(1504)~~, or, if the taxpayer is both sixty-five (65) years of age or older and blind, two (2) additional exemptions are allowed under Subsection (a)(1) of this Section. Hundred Dollars (\$600.00). ~~Effective January 1, 1998, such amount shall be seven hundred and fifty dollars (\$750.00).~~

(b) *Gifts, insurance proceeds, pension, unemployment benefits, charitable contributions, etc.*

The following payments and benefits received by any person are not subject to the tax:

- (4) Amounts received by charitable, religious, educational and other similar nonprofit organizations which are exempt from taxation under the *Internal Revenue Code*;
- (5) Amounts received by supplemental unemployment benefit trusts or pension, profit sharing and stock bonus trusts qualified and exempt under the Internal Revenue Code;

(6) Interest from obligations of the United States, the state or subordinate units of government of the state, and gains or losses on the sales of obligations of the United States;

(7) Net profits of financial institutions and insurance companies;

(8) Amounts paid to an employee as reimbursement for expenses necessarily and actually incurred by the employee, in the actual performance of the employee's services and deductible as such by the employer; and

(9) Compensation received for service in the armed forces of the United States.

City Planning Commission

October 17, 2005

Honorable City Council:

Re: Installation of signs on the Two Detroit Center parking structure located at the northwest corner of Randolph and Larned Streets (Recommend Approval).

On October 10, 2005 the staff of the City Planning Commission (CPC) received a sign permit application for three new signs to direct cars to entrances of the Two Detroit Center parking structure located at the northwest corner of Randolph and Larned Streets. The proposed signs are to be mounted on the building at the northwest, northeast, and southeast corners. The PCA (Public Center Adjacent District) zoning classifi-

cation in which the parking structure is located calls for City Council approval of the location and design of proposed signs following the review and recommendation of CPC (Section 61-11-96 of the Zoning Ordinance). CPC staff has reviewed the application and submits this report and recommendation.

PROPOSED SIGNS

The proposed signs are designed to help people better find the entrances to the parking structure. The sign company representative states that sometimes a "flagger" is necessary to help people find their way in (see attached graphic). A single-faced sign, 23 square feet in size, is proposed at the northwest corner of the structure (on E. Congress near Bates Street). Double-faced signs, 36 square feet in size on each face, are proposed at the northeast (E. Congress and Randolph Streets) and at the southeast (E. Larned and Randolph Streets) corners of the structure. Each sign would be internally illuminated and contain a small logo of the parking lot operator and arrows pointing to the entrance. The double-faced signs are proposed to have large letters saying "PARK", with the single-faced sign having a "P".

The proposed double-faced signs are 15 feet in height and 2 feet 7 inches wide. The proposed single-faced sign would be

10 feet in height and 2 feet 7 inches wide. The signs would be blue with white letters and red arrows.

REVIEW

In accordance with PCA provisions of the Zoning Ordinance (Section 61-11-96) reviews of proposed signs should be conducted in light of the following criterion, "signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner." The proposed signs meet this criterion and would help clearly delineate the entrances to the parking structure.

RECOMMENDATION

CPC staff has completed its review of the proposed signs, as has the Planning and Development Department staff. We find that the signs would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed signs. Please find attached the appropriate resolution to effectuate your approval.

MARSHA S. BRUHN
Director
GREGORY F. MOOTS
Staff

By Council Member Collins:

Whereas, The Parkway Corporation desires to install three new signs on the Two Detroit Center parking structure located on the west side of Randolph Street between Congress and Larned Streets; and

Whereas, The building is subject to provisions of Section 61-11-96, the PCA (Public Center Adjacent District) zoning classification of the Official Zoning Ordinance of the City of Detroit; and

Whereas, The PCA zoning district classification requires that the location and design of proposed signs within a PCA district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, Both the Planning and Development Department and the staff of the City Planning Commission have reviewed the proposal in order to ensure that the proposed sign is in keeping with the spirit, purpose and intent of the PCA zoning district classification;

Now, Therefore Be It

Resolved, That the Detroit City Council approves the location and design of the proposed business signs for the parking garage located on the west side of Randolph between Larned and Congress Streets described in the foregoing communication from the City Planning Commission staff and as depicted in the drawing prepared by Parkway Corporation and dated September 14, 2005.

City of Detroit
Brownfield Redevelopment Authority
 October 20, 2005

Honorable City Council:
 Re: Central Brush Park Brownfield Plan.
 The Brownfield Plan for Central Brush Park (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "Authority") to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was held by the Authority on October 12, 2005 to solicit public comments. At its October 5, 2005 meeting, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On October 19, 2005, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

Central Brush Park LLC is the developer of the central parcels. Residential use will dominate the central portion of the development with higher density buildings of 4 to 6 stories to be constructed along John R. and Brush to reflect the types of housing that originally lined the corridor. Lower density, 2 to 3 story clustered row houses will fill the interior streets, built to resemble the surrounding housing. Two community parks will be preserved for recreation. Currently, 147 residential units are planned for the site.

3100 Woodward LLC is the developer for the block bounded by Watson, Erskine, Woodward, and John R. Development within the western contingent of the project will include both residential and commercial components. The primary structure at 3100 Woodward will include commercial/retail space, a small office and condominium units on the 2nd floor. More commercial development is planned for

the lot to the north, and the opposite southeastern corner of the block at Watson and John R. Numerous residential units are planned for the entire block, totaling over 200 units. Commercial space is intended for various locations throughout the project, bringing the total space dedicated to commercial purposes to 27,986 sq. ft. Total eligible investment for this project is estimated at \$78,300,000.00 for the construction of over 300 housing units and 27,986 square feet of commercial/retail space.

Purpose of the Proposed Plan

The proposed plan is intended to accomplish the following purposes: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project. Secondly, this Plan anticipates the capture of tax increment revenues to reimburse the Developer for the costs of eligible activities under this plan in accordance with the reimbursement agreement.

Property Subject to the Proposed Plan

The parcels comprising the eligible property included in this Brownfield Plan are situated throughout three central and one westerly block of Brush Park. The central parcels are framed by the alleys of Watson to the north and Edmund in the south, and John R on the west and Brush on the east. The parcels comprising the other major component the Brownfield Plan constitute the block between Woodward and John R, and between Erskine and Watson. This project also includes adjacent parcels just west of John R along Edmund. The existing structures are historically significant to the City of Detroit and much of the surrounding property is comprised of vacant or under-utilized buildings and land.

Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 in the following ways: A great deal of the Property is tax reverted property owned by the City of Detroit, a qualified local governmental unit. Many others can be considered "blighted" due to the permanent removal or shutting off of utilities on existing buildings. Some of the parcels are contaminated beyond Michigan's Department of Environmental Quality (DEQ) Generic Residential Cleanup Criteria (GRCC), and therefore are categorized as "facilities" pursuant to Part 201 of the Michigan Natural Resources and Environmental Protection Act of 1994, as amended. Most of the existing structures have been deemed "functionally obsolete" by the City Assessor in accordance with Act 381.

Eligible Activities

The "eligible activities" planned for the Property are identified by Act 381, and include an Environmental Site Assessment, Due Care and Additional Response Activities, Site Preparation, Public Infrastructure Improvements, Asbestos Abatement, and Demolition. The eligible activities and budgeted costs are intended as part of the development of the property. The DBRA is not responsible for any cost of eligible activities and will incur no debt. It is currently anticipated that eligible activities will begin in winter of 2006 with construction and rehabilitation immediately following.

Other Development Incentives

The property included in this Plan will receive additional project support through the Neighborhood Enterprise Zone (NEZ) and Obsolete Property Rehabilitation (OPRA).

Tax Increment Financing (TIF) Capture

This Plan anticipates the capture of tax increment revenues to reimburse the Developer for costs of eligible activities under this Plan in accordance with the Reimbursement Agreement. The eligible costs are to be financed solely by the Developer. The Authority will reimburse the Developer for the cost of approved eligible activities, but only from tax increment revenues generated from the Property. A table of estimated tax increment revenues to be captured is attached to this Plan as attachment D. Tax increments projected to be captured are: \$16,532,571 for reimbursement of eligible expenses, \$998,786 in administrative fees and \$13,846,216 captured taxes for the DBRA revolving loan fund.

Public Comments Received

The Committee's communication to the City Council and the Authority, dated October 5, 2005 (Exhibit C), recommending approval of the Plan including the minutes of the October 12, 2005 public hearing are enclosed for the City Council's consideration.

The proposed plan is intended to accomplish the following purposes: Upon approval of this Plan by City Council, the Developer will be entitled under State Law to seek the approval of the Michigan Economic Growth Authority or the State Treasurer for a single business tax credit for up to 10% of their eligible capital investment in their project.

Property Subject to the Proposed Plan

The property comprising the eligible property consists of 1 parcel of property

located at 12499 Evergreen Road that is over 21 acres and includes four existing buildings totaling approximately 295,000 sq. ft. The property is located on the west side of Detroit, bounded by Evergreen Road, railroad tracks and I-96 to the north, Burt Road to the west and Capitol Ave. generally to the south.

Basis of Eligibility

The property is considered "eligible property" as defined by Act 381, Section 2 because (a) the property was previously utilized for a commercial and/or residential purpose; (b) it is located within the City of Detroit, a qualified local government unit; and (c) the building has been determined to be a "functionally obsolete." This property is currently vacant and is characterized by significant obsolescence and requires the following rehabilitation: The current configurations do not meet market demand for the original industrial purpose of the building, mechanical and electrical systems must be replaced or substantially modified, life safety systems (fire sprinklers) must be installed, a new security system must be installed, the windows must be rehabilitated or replaced and the roof must be replaced or substantially repaired.

Eligible Activities

The eligible activities planned for the Property are identified by Act 381 and include general renovations, repairs/replacement of various components of the HVAC, plumbing and electrical systems, asbestos abatement, mold abatement and disposal of hazardous substances.

Tax Increment Financing (TIF) Capture

This Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. The eligible activities are to be financed solely by the Developer. The Authority is not responsible for any cost of eligible activities and will incur no debt.

Historic Designation Advisory Board

October 26, 2005

Honorable City Council:

Re: Petition #4113, Painia Development Corporation requesting historic designation of 2710-40 West Chicago, 3410 West Chicago, and 2725 Boston Boulevard.

This staff has reviewed research of the history and significance of the above-captioned structures provided by Painia Development. We are grateful to Mr. Dubose and Painia for their cooperation in providing further and highly interesting and useful information on these buildings.

Staff has met to discuss the findings of the research presented, and we are happy to recommend to Your Honorable Body that an official process be carried out to study 2710-40 West Chicago and 3410 West Chicago as a single non-contiguous historic district. The research provided by Painia demonstrates a high level of social significance which, in staff's opinion, rises to a level which justifies considering an exception to the "fifty year rule." (That federal rule, which the city must "take into consideration" by virtue of state statute, holds that the significance of properties must have been achieved more than fifty years ago in order to consider historic designation; exceptions are permitted in cases of "exceptional significance"). Thus, we feel that the "reasonable grounds" required to conduct a study are present for these two properties.

We are sorry to report that we have not been able to come to the same conclusion concerning 2725 Boston Boulevard. While there is certainly considerable significance attached to persons and circumstances relating to that structure, it is staff's opinion that it is difficult to regard the significance as "historic," especially as the major figure of significance associated with the property in the research is still living. This in no way reflects a lack of respect for the people involved and the efforts they have made; it is simply that those issues do not seem to have yet become "historic".

I am attaching a draft resolution for your consideration directing the Historic

Designation Advisory Board to study 2710-40 West Chicago and 3410 West Chicago as a single non-contiguous historic district.

I am always available if there are questions.

Respectfully submitted,
WILLIAM M. WORDEN
Director

By Council Member Watson:

Whereas, The City Council has received a request to designate the "Nelson Court and West Chicago Boulevard Apartments Non-contiguous Historic District located at 2710-40 West Chicago and 3410 West Chicago as an historic district, and

Whereas, The City Council finds that there are reasonable grounds for such a request,

Now, Therefore, Be It Resolved, That the City Council hereby directs the Historic Designation Advisory Board, a study committee, to conduct studies to determine whether the above-mentioned property meets the criteria for historic designation and to issue appropriate reports in accordance with the Michigan Local Historic Districts Act and Chapter 25-2 of the Detroit City Code.

**Planning & Development Department
October 14, 2005**

Honorable City Council:

Re: Virginia Park Rehabilitation Project Development: Parcels 108 and 109; 128 and 160; and 170.

The Planning and Development Department is in receipt of an offer from Henry Ford Health System, a Michigan Non-Profit Corporation, to purchase the above-captioned property for the amount of \$23,000, and to develop such property. The property is located within the Virginia Park Rehabilitation Project Area and contains approximately 60,943 square feet or 1.39 acres.

During 1980-81, an agreement was reached between Henry Road Health System (HFHS) and the City of Detroit providing for the sale of this property by the City to HFHS. HFHS proposed to develop the property into surface parking to accommodate the expansion of its existing hospital complex.

The Planning & Development Department has re-evaluated the original proposal from HFHS and now wishes to move forward with the conveyance of the subject property to HFHS.

The proposed development was presented to the Virginia Park Citizen's District Council and supported by that body on February 6, 1981. It is also consistent with the Modified Development Plan for the Virginia Park Rehabilitation Project Area, adopted by the Detroit City Council on August 5, 1981, effective August 21, 1981. Although HFHS did develop the above-captioned property into surface parking facilities as part of the Henry Ford Hospital main campus, the sale of the City-owned land was never consummated due to an oversight on the part of the City and HFHS.

The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing the advertising of and the holding of a public hearing concerning this offer on the 16TH DAY OF NOVEMBER, 2005, at 11:15 A.M.

Respectfully submitted,
DOUGLASS J. DIGGS

Director of Development Activities
By Council Member McPhail:

Resolved, That in accordance with the foregoing communication that this offer by Henry Ford Health System, A Michigan Non-Profit Corporation, to purchase and develop Parcels 108 and 109; 128 and 160; and 170, in the Virginia Park Rehabilitation Project Area, is in satisfactory form; and

That the disposal of this land by negotiation is an appropriate method for making the land available for redevelopment; and

That the developer possesses the qualifications and financial resources necessary to acquire and develop the land in accordance with the Development Plan; and

That the offered aggregate price of \$23,000 is equal to the fair market value of the land for use in connection with the Development Plan, and to hold a public hearing concerning this offer on the 16TH DAY OF NOVEMBER, 2005, at 11:15 A.M.

Re: Public Hearing on the Establishment of the 3100 Woodward Neighborhood Enterprise Zone as Requested by the 3100 Woodward, LLC in Accordance with Public Act 147 of 1992.

The Planning & Development Department and the Finance Department have reviewed the Master Plan and the neighborhood preservation and development goals of the City, and find that establishment of the 3100 Woodward Neighborhood Enterprise Zone would be consistent with the neighborhood preservation and development goals and with the Master Plan.

Public Act 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone (NEZ) Act, in Section 3(1) states "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones". Prior to acting upon the resolution establishing an NEZ, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an *ad valorem* tax within the proposed NEZ, said notice to be made not less than 60 days prior to your Honorable Body's passage of a resolution designating an NEZ.

The boundaries of the proposed NEZ are described in Exhibit A (legal description) and illustrated in the map also attached. The developer proposes to construct/rehabilitate 217 residential units at an estimated cost of \$50 million.

We request that a Public Hearing be scheduled on the issue of establishing

this NEZ, as required by the NEZ Act. Attached for your consideration, please find a resolution establishing a date and time for the public hearing, together with the aforesaid map and legal description of the proposed NEZ.

Respectfully submitted,
DOUGLASS J. DIGGS

Director of Development Activities

By Council Member Watson:

Whereas, Pursuant to Public Act No. 147 of the Public Acts of 1992 ("the Act") this City Council has the authority to establish "Neighborhood Enterprise Zones (NEZs)" within the boundaries of the City of Detroit; and

Whereas, The 3100 Woodward, LLC has requested establishment of the "3100 Woodward" NEZ whose boundaries are particularly described in Exhibit A (legal description) and illustrated in the map attached hereto; and

Whereas, The Act requires that, prior to establishing an NEZ, the City Council shall provide an opportunity for a Public

Hearing on such establishment, at which Public Hearing representatives of any taxing authority levying *ad valorem* taxes within the City, or any other resident or taxpayer of the City of Detroit may appear and be heard on the matter.

Now Therefore Be It

Resolved, That on THURSDAY, NOVEMBER 17, 2005 at 10:15 A.M. in the City Council Committee Room, 13th floor, Coleman A. Young Municipal Center, a Public Hearing be held on the above described application for establishment of an NEZ within the boundaries described in Exhibit A (legal description) as illustrated in the map attached hereto; and be it finally

Resolved, That the City Clerk shall give notice of the Public Hearing to the general public and shall give written notice of the Public Hearing by certified mail to all the taxing authorities levying an *ad valorem* tax within the City of Detroit, such notices to be provided no earlier sixty (60) days prior to the public hearing.

Proposed Neighborhood Enterprise Zone

**Neighborhood Enterprise Zone (NEZ)

Honorable City Council:
 Re: Petition No. 3438 — “Callewaert Marketing Services”, requesting for the outright vacation of the commercial alley in the area of Gratiot Avenue, Peter Hunt Avenue, and Bessemore Avenue.

Petition No. 3438 of “Callewaert Marketing Services”, at 21711 West Ten Mile Road, Suite 200, Southfield, Michigan 48075, for Alexander and Homung Food Products, request for the

outright vacation of the Southerly portion of the North-South public alley, 16 feet wide, in the block bounded by Gratiot Avenue, 120 feet wide, Vinton Avenue, 60 feet wide, Bessemore Avenue, 50 feet wide, and Peter Hunt Avenue, 50 feet wide, for the construction of a new addition to their existing building founded in the year 1945.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reported there is an existing sewer in said alley that must remain in service unless the petitioner owns all of the property served by the

sewer. Otherwise DWSD can agree to the requested outright vacation only if DWSD is granted an easement for their facilities.

DTE Energy Gas and Electric reported there is an existing 4-inch Cast Iron gas main in the said alley, and can prepare a cost for the removal and/or rerouting of gas services; Also DTE reported a cost of \$30,500.00 for the removal and/or rerouting of electric services.

All other city departments and private utility companies have reported no objections to the requested outright vacation.

I am recommending adoption of the attached resolution.

City Planning Commission

October 17, 2005

Honorable City Council:

Re: Request of the Alpha Restaurant Group to receive PD (Planned Development District) site plan approval in order to construct a restaurant on the southwest corner of West Seven Mile Road and Monte Vista Avenue (Revised Resolution Recommending Approval with Conditions).

The City Planning Commission submitted a report dated September 6, 2005 to your Honorable Body recommending "approval with conditions" of the Alpha

Restaurant Group's proposal to build a Captain D's Seafood restaurant on the south side of West Seven Mile Road between Meyers Road and Monte Vista Avenue. The report appeared as a line item on Council's September 14, 2005 daily calendar. At that time, Council Member JoAnn Watson asked for written confirmation from the Monte Vista Block Club regarding its position on the proposed project.

On September 22, 2005, the Monte Vista Block Club Board met to discuss the project and submitted a letter dated September 28, 2005 to Council Member Watson (the letter is attached for reference). This letter states in part that the majority of the board is not in support of the Captain D's restaurant with reasons listed in the letter. The letter also states that if Council considers approving the project that the developer agree in writing

to 5 conditions listed in the Block Club's letter. Lastly, the letter asks for Council to introduce an ordinance that would control the number of similar like business within a given area throughout the City.

On October 5, 2005 Council Member Watson submitted the Block Club letter and requested that the Research and Analysis Division (RAD) prepare and submit an ordinance and submit as soon as possible.

In response, Paul Hubbard, President of the Alpha Restaurant Group, submitted a letter to Council dated October 12, 2005 responding to the Block Club's letter and asking approval of the project (the letter is attached for reference).

Analysis

Drive-through

The Monte Vista Block Club questions if the proposed drive-through window provides enough stacking spaces? The Detroit Zoning ordinance requires a minimum of 6 spaces for drive-through order boxes and 4 spaces from the order box to the pick-up window. Based upon further review of the plans, 4 spaces are provided from the pickup window, but only 5 spaces are provided from the order box. It appears that developer may be able to slightly redesign the drive-through aisle in order to provide 10 spaces.

The Parking/staging of Commercial Vehicles and Buses

The Monte Vista Block Club is concerned about tour buses and trucks staging in the parking lot which has been a problem at the adjacent Home Depot. CPC staff recommends that tour buses and commercial vehicles not patronizing the restaurant be prohibited from staging or parking in the restaurant parking lot and that signs be posted for this requirement.

Daily Ground Maintenance

The Monte Vista Block Club requests daily ground maintenance and cleaning of the outside area of the restaurant parking lot. Mr. Hubbard indicates that Captain D's Franchise Agreement requires the outside common areas be cleaned twice daily (after each work shift). CPC staff recommends that daily ground maintenance be included as a condition.

Dumpster

Upon further review of the proposed site plan, it appears that a portion of the dumpster pad encroaches into one of the parking lot aiseways. CPC staff recommends that the type, design, screening, and location of the dumpster be subject to review and approval by CPC staff.

The Monte Vista Block Club requests that the developer specify in writing the time the dumpster will be changed. Mr. Hubbard responds that the dumpster will be emptied or changed only during the hours of 8:00 AM to 4:00 PM. CPC staff recommends that dumpster exchange/emptying times be stipulated.

The Monte Vista Block Club requests that odors and rodents around the dumpster be controlled. The Detroit City Code has various requirements for the storage and handling of solid waste by commercial establishments, including "All such containers shall be kept clean and in good repair and should easily be accessible for collection during all seasons." (Section 22-2-39) and "structures erected in the city after January 1, 1956, designed, arranged, or intended to be used for purposes which cause, result in, produce or develop food wastes . . . shall provide approved wastes disposal equipment for such purposes within the premises." (Section 22-4-2) Mr. Hubbard indicates the restaurant Franchise Agreement requires the exterior around the dumpster be cleaned daily, an exterminator will periodically spray for rodents, and he will follow all City ordinances and health code regulations. CPC staff recommends the maintenance of the dumpster be reflected in the conditions.

Traffic

The Monte Vista Block Club is concerned that the proposed use will greatly impair the residents' ability to enter and exit Seven Mile without a traffic signal. In 1997 when Council rezoned the land to a Planned Development District zoning classification, the City required installation of the conduit that would be necessary for signalization of both the W. Seven Mile Road driveway and the southern Meyers customer driveway to serve roadway demand, should signalization be required in the future. If the proposed restaurant is built, the Department of Public Works should undertake a study after the restaurant is opened to determine whether an additional traffic signal is needed in the area.

Over concentration of Eateries

The Monte Vista Block Club is concerned about the over concentration of fast food eateries in the area: they found 17 restaurants located on West Seven Mile Road between Mark Twain and Wyoming Avenues.

Currently, the City's Zoning Ordinance regulates the over concentration of certain uses (such as adult establishments and motels) which could contribute to blighting of surrounding neighborhoods and certain leisure uses (such as party stores) which could produce a deleterious effect on surrounding neighborhoods. At this time, CPC staff thinks it would be difficult to prove that the overconcentration of restaurants would contribute to blight or have a deleterious effect on surrounding neighborhoods, but this issue has been referred to RAD for review. Various City agencies have been working to attract a variety of retail uses to Detroit neighborhoods. CPC staff can contact the landlord of the Home Depot center and suggest marketing the

other vacant outlet adjacent to Home Depot for other than a restaurant use.

Mr. Hubbard maintains that Captain D's is not a fast food restaurant, but has a decorative dining room with tables managed by a dining host and service by waiters and waitresses.

Conclusion and Recommendation

The Monte Vista Block Club has also requested that security be provided to enforce the delivery time restrictions. At this time, CPC staff thinks the petitioner should be allowed to address the conditions by the means he deems appropriate and the City should not require that security be provided.

In August 2005, the City Planning Commission recommended approval of the proposed plans with the four conditions listed below (note: the language below has been slightly changed to replace the word petitioner with operator in case in the future the ownership of the restaurant or use changes):

- 1) That deliveries for the restaurant by larger (semi) trucks be restricted to between the hours of 8: AM and 4:00 PM.
- 2) Delivery trucks shall be directed to not use adjacent residential streets when entering and leaving the site.
- 3) The operator shall employ the best available treatment, maintenance, and control that are currently available to maintain the lowest possible emission of odorous gases.
- 4) Final landscaping and signage plans shall be submitted for review and approval to CPC staff.

Based upon our research presented in this report, the City Planning Commission staff recommends that the following 6 conditions be added.

- 1) That at least 6 stacking spaces be provided from the drive-through order box.
- 2) The operator shall prohibit any buses or commercial vehicles (not patronizing the store) from parking or staging in the store's parking lot, which shall include the posting of appropriate signage.
- 3) The operator shall clean the outside common areas (landscaping, walkways, and parking lot) at least twice daily (after each work shift).
- 4) The type, design, screening, and location of the dumpster be subject to review and approval by CPC staff.
- 5) That the dumpster be emptied or exchanged only during the hours of 8:00 AM to 4:00 PM.
- 6) The exterior around the dumpster shall be cleaned daily, and the disposal of waste shall comply with all City regulations.

Attached is the appropriate resolution with all 10 conditions for your consideration.

RESOLUTION REGARDING USE OF HAVA — COMPLIANT SEQUOIA VOTING SYSTEM

By COUNCIL MEMBER WATSON:

WHEREAS, In 2002, the United States Congress enacted the "Help America Vote Act" (HAVA), which establishes a "program to provide funds to States to replace punch card voting systems" and "to establish minimum election administration standards for States and units of local government with responsibility for the administration of Federal elections, and for other purposes," and

WHEREAS, HAVA requires that each state and the jurisdiction therein obtain new voting system equipment that meets the standards as set forth in Section 301 of the Act, and that such equipment be fully implemented by January 6, 2006, and

WHEREAS, The State of Michigan has recommended that each county in Michigan select an election system vendor from a list of three (3) approved vendors to provide new voting system equipment for use in various elections held in jurisdictions within the respective counties, and

WHEREAS, Pursuant to the State of Michigan's recommendation, the Wayne County Clerk has selected Election Systems and Software (ES&S) as the vendor to provide the "M100 Optical Scan Precinct Counter" (ES&S M100) as the upgraded HAVA-compliant voting system equipment for elections held in the County of Wayne, and

WHEREAS, The Detroit City Clerk, in conjunction with the Detroit Department of Elections, has conducted research and interviews of the three state approved election system vendors, as well as performed extensive testing on each of the vendors' respective equipment, and has determined that the ES&S M100 equipment chosen by the Wayne County Clerk

may be replete with operational and physical deficiencies, and

WHEREAS, The Detroit City Clerk has identified the most compelling problems with the ES&S M100 as: 1) Tabulator Accuracy — positive scanning of indeterminate marks on ballots and/or failing to recognize legitimate marks on ballots which would require human review; 2) Voter Education — possible voter confusion due to the use of new ballot scan sheets requiring the voter to fill in a circle instead of connecting an arrow line for candidate or issue selection; and 3) Transportation and Storage — both the size and weight of the ES&S M100 machines pose significant problems in transporting them to the polling places in a timely manner, as well as storing them efficiently, and

WHEREAS, The noted deficiencies of the ES&S M100 equipment have raised a number of concerns surrounding the overall quality and functionality of the equipment which may impact the integrity of the elections conducted with its use, and

WHEREAS, In light of the aforementioned problems with the ES&S M100 equipment, the Detroit Department of Elections has identified the Sequoia Voting Systems equipment, a HAVA-compliant voting system, as a suitable alternative to the ES&S M100 equipment. Testing of the Sequoia Voting System's use of OPTECH/INSIGHT technology and its user-friendly software has yielded reliable results and will provide voters with a seamless transition to the latest voting technology while maintaining a consistent level of voter confidence, and

WHEREAS, The Detroit City Clerk has applied to the Secretary of State Bureau of Elections for an exemption from use of the ES&S M100 equipment selected by the Wayne County Clerk, and such exemption has been denied, and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges the Secretary of State Bureau of Elections to grant the exemption request made by the Detroit Department of Elections, and allow the use of the HAVA-compliant Sequoia Voting System for elections conducted within the City of Detroit.

Honorable City Council:

Re: Address: 17638 Pierson. Name: Darryl Walker. Date ordered removed: July 20, 2005 (J.C.C. p. 2258).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on August 31, 2005 revealed the building is secured and appears to be sound and repairable.

The owner has paid the current taxes due as of September 9, 2005.

The proposed use of the property is rehabilitation and sale.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined in #1 above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

Honorable City Council:

Re: Resolution to Authorize Application for, and Acceptance of, HAVA Grant-Funded Optical Scan Voting System and Software.

As you know, the City has the opportunity to receive a new optical scan voting system and related election software to be funded by a Help America Vote Act (HAVA) grant administered by the Michigan Secretary of State. It is estimated that this equipment and software has a value of approximately \$4 million. If the

City does not accept the new system which is being offered at this time, we will have to bear the cost of updating our current system to meet HAVA requirements, and the City will have to pay the entire cost of replacing this system within the next few years when it becomes outdated.

You are also aware that Section 18-4-2 of the 1984 Detroit City Code requires that your Honorable Body approve most grant applications. Because of this requirement, and to provide assurance to the Secretary of State of our intentions, we recommend that you adopt the enclosed Resolution at today's adjourned formal session.

Please let us know if you have any questions or if we may be of any further assistance. Thank you for your attention to this matter.

Respectfully submitted,

BRENDA E. BRACEFUL

(ES&S) optical scan voting system, which has been selected by the Wayne County Clerk for all jurisdictions within Wayne County and has been approved by the Secretary of State; and

Whereas, This City Council has urged the Secretary of State to grant an exemption to allow the City to obtain an alternative optical scan voting system to be provided with HAVA funding; and

TESTIMONIAL RESOLUTION FOR

GILBERT A. CARGILL

By COUNCIL MEMBER BATES:

WHEREAS, Gilbert Allen Cargill's fascination with airplanes began when he was hardly more than five years of age. One day, a Barn-Stormer plane was forced to land in a nearby farmer's field. Word of this unusual event spread quickly and Gil and his young playmates rushed to see the plane. For Gil, it was love at first sight. Gil began flight training as soon as he could afford it.

WHEREAS, Mr. Cargill attended Oberlin University, where he majored in Math and Physics. He graduated Cum Laude in 1936. After college, he enrolled in a government funded, civil aviation program, to fulfill the requirements to serve in the war effort. He completed the program as an instructor of primary training. His first assignment turned out to be a humorous mistake. The commanding officer of Maxwell Air Corps Base was shocked when a black man, with his credentials in perfect order, reported for duty. There was no way Gil would be allowed to train white pilots. He was immediately hustled off to Tuskegee's Moton Field.

WHEREAS, At Tuskegee, Gil was a primary instructor of flight training and was also assigned to instruct Haitian pilots because of his ability to speak French fluently. He set the standards high for his students because he knew that they would have to be better than good. The pilots he trained came to be known as the Tuskegee Airmen.

WHEREAS, One of the most memorable moments in his life occurred when Gil flew home to Oberlin to visit his par-

ents. When it was time for him to return to Tuskegee, his family went with him to the airport. An indignant, airport employee could not believe that a "colored boy" could fly a plane. Gil's mother beamed with pride and proudly exclaimed "that boy is my son — he is a pilot."

WHEREAS, After the war was over, Gil taught Math and Physics at Cleveland Public Schools, Detroit Public Schools and Telshe Yeshiva College. Whenever one of his students asked a question that was beyond his ability to answer, he would call MIT, Case Western Reserve University and other institutions for the answer. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council salutes the memory of this remarkable individual, who lived his dream against all odds. Let it be further resolved that we will remember the example he set for us and use it as a reservoir of strength to draw upon in times of need. May the memory of his exemplary life continue to radiate in the lives of those who knew and loved him.

By COUNCIL PRESIDENT PRO TEM. K. COCKREL, JR.:

WHEREAS, Police Officer Geoffrey Townsend had a difficult and unrelenting journey in life, which included struggling through school academically and upon graduation from high school, not being able to read beyond 3rd grade level. There was a point in his life where he was without shelter, food, or anyone to lean on. Officer Geoffrey Townsend was appointed to the Detroit Police Department on June 26, 2000 and was assigned to the Eighth Precinct. He found that most of them only came into contact with the police during times of crisis, such as some form of violence or death, or when involved with violations of the law; and

WHEREAS, In October 2000, Officer Geoffrey Townsend founded Reality Check Detroit and made his vision become a reality. The nonprofit program is based upon correcting negative behavior and/or causes of criminal activities such as theft, illegal narcotics activity, failing grades in school, truancy, aggressiveness, defiant behavior, disrespectful or negative attitudes in today's youths ages 6 to 14. The children are greatly encouraged to strive for the best and to accomplish every goal that is attainable; and

WHEREAS, Officer Townsend has a sincere desire to see young people avoid the criminal justice system. He spends the majority of his off-duty time traveling and speaking at different schools and churches in the Detroit area. He does home visits when necessary to implement a child into the program. There is a weekly Saturday boot camp where he organizes different activities and programs that are geared at emphasizing the importance of education, good behavior, and self-discipline. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council congratulates Police Officer Geoffrey Townsend for being a recipient of the 7th Annual Blue Cross Blue Shield of Michigan and Blue Care Network Caring for Children Angel Award. The owner has paid the current taxes due as of September 13, 2005.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Inspection, required for all residential rental properties

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without

**City Council
Division of Research & Analysis**

November 2, 2005

Honorable City Council:

Re: Proposed revisions to the Special Events Ordinance governing signage during Super Bowl XL.

Pursuant to this Honorable Body's request, the Research and Analysis Division (RAD) reviewed the proposal presented by J & J and Associates, LLC (Petition #4378) regarding revision of the special events ordinance governing sig-

nage during Super Bowl XL. RAD staff also met with the interdepartmental working group¹ on Friday, October 28, 2005, discussed the proposal, and incorporated a number of changes into the working draft that the Law Department will submit to this Honorable Body for review.

RAD concurs with the City Planning Commission's recommendation that the issues presented by J & J Associates should be bifurcated with the extended duration signage proposal (which requires public notice and public hearings) being addressed on a separate track (See CPC's report dated October 31, 2005 — on file in the City Clerk's Office). The changes that would be incorporated into Chapter 30-5 for the Super Bowl are outlined below.

The allowable signage relative to the NFL National Sporting Event would be increased from ten percent (10%) to forty percent (40%) of the area of any building's façade that abuts any public street with certain restrictions. The temporary signs must not exceed forty percent (40%) of the area of the facade on which the sign is placed. Permits would only be issued for buildings whose City taxes are current. Signs would not be permitted on abandoned, vacant or dangerous buildings, and applicants would be required to provide a monetary security sufficient to cover the cost of removal in the event the sign is not removed in accordance with the ordinance.

The working group also reviewed J & J's proposed one thousand five hundred (1,500) square foot minimum and determined that the limit would unfairly favor owners of large buildings and prohibit small business owner from obtaining permits for temporary signs. For the sake of parity, the forty percent (40%) temporary signage limit would apply, without exception, to all buildings within the clean zone, the entertainment, and the overlay zone.

Although the allowable signage would be significantly increased, Chapter 30-5 presently contains an advertising restriction that would remain in place. In accordance with Section 30.5-3-2 (4) d, at least ninety percent (90%) of any sign permitted under this Chapter must be devoted to the NFL National Sporting Event. The remaining ten percent (10%) may contain other information including, but not limited to, advertising or sponsorship of the event. With those restrictions in place, the increased size does not appear to violate the Host City Bid Specifications signed by Mayor Archer². It also does not appear to adversely impact the Host Committee's agreement with the NFL that it would "use its best efforts to minimize ambush marketing"³. Per the Law Department, the City is not a party to that agreement.

¹The interdepartmental working group

consists of City Council Research and Analysis Division and City Planning Commission staff, and representatives of the Consumers Affairs Department, the Buildings and Safety and Engineering Department, the Police Department and the Law Department.

²The Host City Bid Specifications contain the following government guarantees: "Ambush Marketing: Obtain and attach as Exhibit II.F.1, resolutions from each state and municipality or county whose services may be required in connection with the Super Bowl Game confirming their cooperation and promising not to engage in unauthorized promotional activities during the Super Bowl Period relating to the city or otherwise which detract from, or interfere with, the Super Bowl Game ('Ambush Marketing')."

³RAD's **unsigned copy** of the Host Committee Agreement between National Football League, National Football League Properties, Inc., and the Detroit Metro Host Committee states that the "Host Committee agree to use its best efforts to: (a) minimize the 'ambush marketing' of Commercial Affiliates in and around the Community during the Designated Super Bowl in accordance with the Bid Specifications; (b) prevent Commercial Exploitation rights to be identified with the Community from being granted by any governmental agency to a company that is not a Commercial Affiliate during the period commencing two (2) weeks prior to, through the Tuesday following, the Designated Super Bowl; and (c) prevent other major sporting, civic or cultural events from being scheduled in the Community during the week prior to, through the week following, the Designated Super Bowl, unless such other major sporting, civic or cultural events are approved in writing by the NFL." City Planning Commission

November 3, 2005

Honorable City Council:

Re: Second general amendment to the new Zoning Ordinance, Chapter 61 — Request to schedule Council discussion (Recommend Approval and that Discussion be Scheduled).

At its meeting of November 3, 2005, the City Planning Commission held a public hearing concerning the second general amendment to the new Zoning Ordinance, Chapter 61.

After discussion and public testimony, the Planning Commission made six (6) revisions to the proposed ordinance and voted to recommend approval of a revised 190-page amendment. A summary of the provisions in the ordinance is attached for Council's information.

Because the soon-to-be-published, recodified Detroit City Code will only include those provisions already adopted, the City Planning Commission and Law Department are very concerned that as much of the complete Zoning Ordinance be published in the original print run rather than in lengthy slip sheet supplements.

We respectfully request that your Honorable Body schedule the usual discussion on the ordinance at the earliest opportunity so that interdepartmental staff can brief Council on the proposed ordinance's provisions prior to the public hearing. As soon as the amendment is approved as to form by the Law Department it will be conveyed to Council for introduction and scheduling of the public hearing, hopefully, prior to the November 18th recess.

Respectfully submitted,

MARCUS D. LOPER

Deputy Director

**SUMMARY OF PROVISIONS
PROPOSED SECOND GENERAL
AMENDMENT TO CHAPTER 61, THE
ZONING ORDINANCE**

Non-substantive "housekeeping" changes

About a third of the revisions in the proposed one hundred ninety (190) page ordinance are purely non-substantive "housekeeping" type changes. Corrections are made in spelling, punctuation, the use of conjunctions and prepositions, the use of singulars and plurals, the use of upper case and lower case letters, the formatting of data in tables, cross-references of section numbers, labels within illustrations, and the numbering of sub-sections. Also, errors are corrected to show the accurate name of an overlay area and to reflect the change in the name of the Michigan Family Independence Agency to Department of Human Services. The term, federal, is added where it should accompany the terms, state and county. Also, certain catch lines are expanded to accurately reflect the content of the text for which they provide the title. Lastly, fifteen (15) Zoning Maps are corrected to reflect previously omitted historic designations or to restore map information inadvertently deleted in earlier printing.

Procedure and jurisdiction

Clarification is provided that the Department of Environmental Affairs, and not the Buildings and Safety Engineering Department issue floodplain permits and that the Solid Waste Facility Review Committee, and not the Industrial Review Committee, is the appropriate advisory committee for junkyards. The phrase, first body of jurisdiction, is explained and the petition review procedures for the Board of Zoning Appeals with regard to Controlled Uses is written to reflect the same procedures as apply to Regulated Uses. The timing of site plan review is changed from before a hardship relief petition before the Board of Zoning Appeals is scheduled until after it is scheduled.

Signage

Clarification is provided that institutional bulletin signs are included in the category of on-premises business signs. Directional signs are not limited to placement on the ground and nearby off-premises directional signs are newly permitted. Construction site signage is newly identified and regulated. The height and area table for advertising signs is corrected to address rights-of-way of exactly eighty (80) feet in width. The method of calculation of the maximum permissible sign area of temporary signs is clarified and temporary signs at convention and exhibit buildings are exempt from the area limitations applicable to other uses. The provision that allowed on-premises business signs to abide by the zoning district height limitations is restored.

Specific land uses

Regulations regarding various land uses are revised as follows:

Residential uses and public, civic, or institutional uses, such as libraries and child care centers, that move into existing buildings are exempt from the otherwise applicable setback, lot area, and lot width requirements.

Bars, cabarets, and hotels within the Central Business District on land zoned SD4 are permitted by-right; those outside the Central Business District remain as Regulated Uses and are permitted only on a conditional basis.

The provision for **bars** within apartment buildings, hotels, and motels having at least fifty (50) units on land R5 and R6 is restored.

Child care centers, generally prohibited on land zoned R1 and R2, are newly permitted in existing buildings occupied by public, civic, or institutional uses that are also permitted in R1 and R2.

The maneuvering room provisions for **motor vehicle filling stations** are expanded and the permissibility of additional principal uses at gas stations is clarified.

Photo studios and video studios are newly permitted in the same districts and on the same basis as are recording studios without assembly halls.

Clarification is made that **carry-out and fast-food restaurants** on land zoned SD4 are permitted by right where integrated in a mixed-use, multi-tenant development and without drive-up or drive-through facilities; otherwise, they are prohibited.

Also within the SD4 district, "**physical therapy clinics or massage therapy clinics**" are listed as a permitted use, the same as medical or dental clinics, for consistency with the use regulations for such clinics in all other zoning districts.

The permissibility of **secondhand stores** on land zoned M3 is clarified as conditional, not by-right.

The requirements for the dismantling or salvage of vehicles in conjunction with **used auto parts sales** are clarified regarding indoor and outdoor operation.

The floor area ratio (FAR) of 2.25 is applied to certain **public utility buildings** on land zoned SD2 where FAR and height limits had earlier been omitted.

Off-street parking

The small building exemption from off-street parking requirements is extended to all public, civic, and institutional uses other than religious institutions. Also, the side setback requirement for parking lots that abut land zoned residential at the rear lot line are removed while the front setback requirement for parking lots that abut land zoned residential along the side lot line are retained. Lastly, vehicle lift sys-

Definitions

Clarification is made that **family day care homes** must be licensed by the State Department of Human Services. Facilities, such as for car stereo and car alarm installation and for auto detailing, are included as part of **minor motor vehicle services**. The definition of **animated sign** from Article VI is repeated in Article XVI. **Secondhand stores** are redefined to exclude materials such as used books, magazines, records, CDs, videos, and DVDs. The definition of **Specially designated merchant's (SDM) established and Specially designated distributor's (SDD) establishment** is corrected to reflect 15,000 square feet of gross floor area as the accurate threshold for distinction from a general retail store.

Appendix

The appendix is newly subdivided and expanded to include the use category cross-references for check cashing store, convenience store, credit union, group home, party store, photo studio or video studio, and retail store.

Number of Off-Street Parking Spaces	Amount of Landscaped Area Required Per Parking Space
25-100 spaces	18 square feet
101 spaces or more	22 square feet

Note: Area of off-street parking area excludes a paved area that is designed to be used exclusively for vehicle access between the street and the off-street parking area. It shall include the area of all aisles and driveways within the limits of the off-street parking area;

City Planning Commission

November 7, 2005

Honorable City Council:

Re: Request of Detroit Entertainment, LLC (d/b/a MotorCity Casino) to rezone the northern portion of the block bounded by Grand River, Elm, Brooklyn and Temple, where a PD (Planned Development District), zoning classification is presently shown to SD5 (Special Development District for Casinos) to allow for an expansion of the proposed permanent casino complex (Recommend Approval).

NATURE OF REQUEST

The City Planning Commission has received the request of Detroit Entertainment, L.L.C. (d/b/a MotorCity Casino) to amend District Map No. 3 of the Detroit Official Zoning Ordinance to show an SD5 (Special Development District for Casinos) zoning classification where a PD (Planned Development District) zoning classification is presently shown on property generally described as northern portion of the block bounded by Grand River, Elm, Brooklyn and Temple comprising approximately .25 acre. The subject property is currently used for surface parking and is held under a purchase agreement by the casino.

Pursuant to the Development Agreements between the City and each casino developer, the developers are responsible for the costs of satisfying the conditions of approval of site plans, buildings elevations, and development plans for the permanent casinos. In order to provide a mechanism for the expenditure of funds received for this purpose, an ordinance enacting this rezoning request would include language proposed by the Law Department referencing a budget appropriation that would be used to pay infrastructure costs related to the casino.

PROJECT PROPOSAL

The proposed rezoning is being requested in order to incorporate abutting land into the Casino Complex allowing the construction of an addition to the proposed permanent casino. Gaming activities in the temporary casino are currently staged across the four levels of the Wagner Building (former Wonder Bread Bakery). Under the recently approved SD5 zoning for the proposed permanent casino, gaming was to be redistributed across the lower three levels. The requested rezoning would permit a second floor gaming area expansion that would facilitate the programming of all casino gaming on the first and second levels of the building. At the ground level, beneath the new second floor gaming area, a VIP valet entrance would be introduced including ingress and egress points as well as provision for vertical circulation.

The addition would utilize a variety of building materials consistent with what

was previously approved for the complex. The first floor would be enclosed with a glass and metal storefront treatment including a stone base, to match the enclosure to be applied to the existing building. The second floor would be clad with a metal panel system, again, to match the cladding intended for the existing building. Glass and metal decorative fins that would be reminiscent of the Art Deco era and convey an auto industry feel would accent the façade (see attached drawings).

SURROUNDING LAND USE AND ZONING

To the North — office, parking — R2, B4 (General Business District), M2 (Restricted Industrial District)

To the South — casino complex — SD5

To the East — office, service, restaurant, parking — B4, M3 (General Industrial District)

To the West — casino complex — SD5

MASTER PLAN

The City's Master Plan of Policies shows SC (Special Commercial Residential) as the future land use for the subject parcel. The Master Plan was amended to allow for the temporary facility in 1999. Therefore, the proposed rezoning appears to be in compliance with the current Master Plan of Policies. The Planning and Development Department (P&DD) has conducted a thorough review, and concurs with the City Planning Commission's (CPC) findings.

REVIEW

Additional Details

The subject property occupies the northern portion of the triangular-shaped block whereupon the casino proper is situated. An alleyway, partially open and partially vacanted, separates the two properties. The open portion of the alley is the subject of a vacation request currently being processed by the City's City Engineering Division. The site is one of the properties previously identified by the casino for the potential purchase and expansion of the casino complex when the temporary facility was originally established in 1999. This site was then the home of two local bars, which were subsequently purchased and demolished for the construction of the existing surface parking lot. The casino entered into a purchase agreement with the owner of the property in recent months, and hopes to close on it in the very near future.

The proposed rezoning will allow the casino to develop a Grand River façade for the full length of the block. It would display a more appropriate and complete face to this Gateway Radial Thoroughfare, while screening some of the less pleasant aspects of the complex and providing additional floor area and improved functionality. The addition will fully enclose and, thereby, better secure the existing

service bay along Grand River and the proposed VIP valet. The additional land will also accommodate the emergency egress stairs that were to be added along the Brooklyn side of the building. This means that there will be no need to vacate a lane of Brooklyn for that purpose, leaving the street open in its present configuration.

The VIP valet would be accessed from the Brooklyn side of the building. Upon arrival, patrons would enter and navigate the circular drive to the valet. The deposited vehicle would then exit at the point of entry and cross Brooklyn to the valet parking facilities. Upon drop-off, patrons would enter an elevator, which would open directly onto VIP dining, gaming and other amenities. Departing patrons would return to the valet area for vehicle pick-up. Vehicles would then be returned from valet parking via the entry point along Brooklyn. Upon retrieving their vehicles, casino patrons would then exit the VIP valet through the Grand River portal. The Grand River portal is designed to be an exit only. No entry to the valet area is envisioned from Grand River.

The subject property would provide 22,000 square feet of additional casino floor. This addition would require 132 parking spaces. The 4,000 or so spaces provided under the original SD5 approvals are more than enough to cover the additional required spaces.

Exterior Refinements

Since the casino was last before the Council this summer, a few refinements, as anticipated, have been proposed for the exterior of the complex and are reflected in the submitted plans. As previously indicated, a high quality metal panel will be used as the primary cladding for the casino, the hotel and the food service and events building. Precast concrete, stone, glass and other materials will be deployed throughout to complement and articulate the façades. The hotel tower has been enhanced by wrapping the glass curtain wall around the building corners to partially enclose the east and west façades. The storefront treatment will include a stone ledge and will define the ground floor façade for much of the complex excluding the parking decks.

The casino building is to be clad with the metal panel and decorative fins along with the ground floor storefront treatment described above. The tallest portion of the building (the third and fourth stories of the Wagner Building), along Grand River at Temple includes a mechanical screen atop the roof, inspired by the top floor of the hotel tower. The screen sets off this end of the building and begins to denote the vehicular entrance to the complex. Beneath this feature, within the decorative treatment at the south end of the building, would be a band of super graphic images

similar to the previous vision, but less imposing as part of this, now longer, façade. The metal panel portions of the façade include small random rectangular recesses of varied size to imply window openings. The casino is still exploring other refinements and variations to the façade but the images provided communicate the basic concept.

The northernmost portion of the ground floor enclosure of the valet contains the stairwells providing emergency egress from the second floor casino expansion above that creates a rounded corner for the building at Grand River and Elm. While this is not a point of entry, it does present an opportunity for distinct embellishment of the façade and of the ground plane with landscaping, while maintaining a safe haven for patrons in the event of emergency egress. At the opposite end of the façade at Temple there is a similar, but greater, opportunity to define a gateway to the casino. This could be achieved with material variations, signage, light, projecting structures and other embellishments working in concert with the face of the food service and events building to the south.

This enhanced look is a departure from the vision presented almost three years ago, and is now more reflective of the new ownership. The super graphics depicting images of lifestyle, entertainment and casino specific activities, which were previously intended to make the aesthetic expression for the complex, have been greatly diminished. It is intended that the architecture of the buildings will make the aesthetic statement. The video screen, while not part of this proposal, is still of interest to the developer and is being pursued as a future modification that would be installed below the super graphics on the Grand River façade.

Public Hearing Results

The Commission held a public hearing on this matter October 20, 2005. One area resident spoke and was in favor of the request. A married couple owning property across Grand River also spoke. They too were in support.

CONCLUSIONS AND RECOMMENDATION

The requested rezoning and resulting expansion would complete the original vision for the casino at this locale. The Grand River frontage would bear a full façade for the entire block running from Temple to Elm. The additional point of vehicular access from Brooklyn will improve traffic flow and provide the casino with an alternative access point if ever needed. The expansion will provide for a larger expanse of gaming on the second level, and make more space available for administrative and support activities on the upper floors. The requested rezoning complements the previously approved plans and eliminates the less desirable

need to narrow Brooklyn.

The City Planning Commission has considered the requested rezoning by Detroit Entertainment, LLC's (d/b/a MotorCity Casino) for the expansion of its Casino Complex, and recommends approval with the following conditions:

1. that the developer continue to work with City Planning Commission staff, the Planning and Development Department and other agencies as appropriate toward the refinement and finalization of the design of the casino complex;

2. that on-site lighting features be designed and oriented in such a way as to eliminate intrusive spillover of light onto adjacent properties;

3. that signage and graphics will be subject to subsequent staff level review and approval; and

4. that final site plans and elevations, landscaping, lighting and signage plans be submitted to the City Planning Commission staff and Planning and Development Department for review approval prior to the issuance of applicable required permits.

The developer has agreed to pay the City for all reasonable and documented hard and soft costs related to the design and construction of City infrastructure improvements necessary or required for the proposed use or to mitigate or reduce the impact of the proposed use on existing City infrastructure improvements in the area surrounding the proposed use ("City Infrastructure Costs") before the City incurs any cost therefore. The developer

shall pay and be responsible for any costs incurred by the City in making the sidewalk and roadway improvements, traffic signalization and intersection improvements, changes to sidewalks and curbs, and the street lighting improvements required by the City in approving the developer's site plans for the proposed use.

The MotorCity (Detroit Entertainment, LLC) Casino Complex Site Support and City Infrastructure Improvement Appropriation (Non-Departmental Agency Account No. 11461) shall be used to pay all City Infrastructure Costs specifically related to the proposed use. All payments made by Developer to the City to satisfy its obligation to pay for City Infrastructure Costs are set forth in this ordinance, being public funds, are appropriated to the MotorCity (Detroit Entertainment, LLC) Casino Complex Site Support and City Infrastructure Improvement Appropriation.

Re: Cancellation of City-wide Land Contracts.

Your Honorable Body authorized the sale or reacquisition of the attached list of properties ("Exhibit A") on a land contract basis.

Subsequently, the land contract vendees failed to make the monthly payments; therefore the Planning & Development Department initiated summary court action, which resulted in judgments that returned all interest in all captioned properties to the City of Detroit.

Your Honorable Body is requested to rescind the authority to sell each of the properties and authorize the Planning and Development Department to cancel the sale of each of the land contracts as described in attached Exhibit "A".

Prior to acting upon the resolution, a public hearing must be held, and the City Clerk must provide written notice of the public hearing to the assessor and to the governing body of each taxing unit that levies an ad valorem tax within the eligible district, and said notice to be made not less than 60 days prior to your Honorable Body's adoption of said resolution.

We request that a Public Hearing be scheduled on the issue of approving the application for the Obsolete Property Rehabilitation Certificate. Attached for your consideration, please find a resolution establishing a date and time for the public hearing.

Respectfully submitted,
DOUGLASS J. DIGGS

Director of Development Activities
By Council Member Tinsley-Talabi:

Detroit Water and Sewerage Department

October 25, 2005

Honorable City Council:
Re: Petition No. 4231. Sewer Relocation at 478 and 490 Kitchner

Attached, is Petition No. 4231 from NRC Contractors, LLC-Creekside Community Development Council, requesting permission to relocate an existing city sewer for the proposed Creekside homes.

Re: Diane Johnston vs. City of Detroit, Finance Department. File No.: 13361 (CM).

On June 30, 2004, your Honorable Body approved a settlement in the amount of Forty Thousand Dollars (\$40,000.00), payable to Diane Johnston, the claimant. City Planning Commission

November 9, 2005

Honorable City Council:

Re: Request of Grand Van Dyke LLC to rezone property generally bounded by Whipple, Van Dyke, Gratiot, and the alley east of Baldwin from R2 (Two Family Residential District) and B4 (General Business District) to B3 (General Shopping District) to allow for the development of a neighborhood shopping area (Recommend Approval).

Grand Van Dyke, LLC, is requesting to amend District Map No. 27 of the Detroit Official Zoning Ordinance to show a B3 (General Shopping District) zoning district classification where R2 (Two Family Residential) and B4 (General Business District) zoning district classifications are presently shown on property generally bounded by Whipple to the north, Van Dyke to the east, Gratiot to the south, and the alley east of Baldwin to the west (please see attachment A). The proposed rezoning is being requested to allow for the development of a neighborhood commercial district.

Currently located on the subject property is a privately owned, 23,000 square foot Foodtown grocery store. The developer plans to demolish the existing structure and rebuild a larger 26,000 square foot replacement grocery store to be situated on Whipple and the alley east of Baldwin, facing Gratiot. The new grocery store will also anchor 24,000 square feet of additional new retail space, to be situated as adjacent wings, along with parking for 225 vehicles. The developer plans for the retail along Whipple to be family oriented such as clothing and shoe stores, and the retail on the wing bordering the alley to be service and restaurant oriented.

The subject area is approximately 4.03 acres in size. Properties along Whipple and Kirby are predominantly vacant parcels. A Murray's Auto Store is also located along Gratiot Avenue immediately to the west of the Foodtown grocery store, but is not included as part of the subject properties to be rezoned. There are six residential structures located along Baldwin between Gratiot and Whipple and one residence located at the corner of Whipple and Baldwin. There is currently an SBC industrial building and parking lot immediately to the north of Whipple, and the former M.M. Rose Middle School is located on Van Dyke and Ferry Ave.

PUBLIC HEARING RESULTS

The City Planning Commission held a public hearing on this request on July 21, 2005. At the public hearing two neighboring residents made comments regarding the buffer wall that the developer proposed to construct along the alley east of Baldwin. The residents were concerned that the wall could attract negative elements such as graffiti, litter, and vagrants. One resident spoke specifically to the negative impact that the wall may have on his backyard view. The other resident inquired about the type of retail stores that would be located in the new shopping center. As a result of residents' concerns, the City Planning Commission suggested that the CPC staff organize a community meeting to receive feedback on the proposed development.

FOLLOW-UP COMMUNITY MEETING

The community meeting was held on Monday, August 22, 2005 at the Foodtown grocery store. The meeting was attended by seven residents. Residents commented on various issues such as the proposed buffer wall, dumping, traffic, retail quality and property maintenance. The developers assured residents that the proposed development would be a properly maintained, family-oriented shopping center that would continue to deliver quality products and customer service to the community. The developers also considered residents' comments and suggestions about landscaping the buffer wall. Planning and Development Department (P&DD) staff encouraged the developer to consider reconfiguring the layout of the shopping center so that it sits closer to Gratiot or Van Dyke. P&DD staff, developers, and residents discussed the pros and cons of the current proposed configuration of the store such as safety and parking. These are all issues that will be addressed in greater detail during the required site plan review process with the Planning and Development Department.

Some residents raised concerns about job creation, the type of retail that would come to the center and whether or not it would be geared towards those with fixed-incomes in the community. Council Member Tinsley-Talabi encouraged the store owner to hire community members and also encouraged residents to provide input for the types of retail that they would like to see at the shopping center.

ANALYSIS

The majority of the properties within the subject area are vacant. The proposed rezoning from B4 (General Business District) and R2 (Two Family Residential District) to B3 (Shopping District) would allow the retail development to expand as well as bring additional much needed retail into the area. The rezoning would not result in any non-conforming uses. Grocery stores, as well as many other retail uses, would be by-right uses in the B3 district.

The subject area is at the intersection of two major thoroughfares, Van Dyke and Gratiot, that would justify the development of the area into a neighborhood commercial center. The residential uses on the property are now gone and the restrictions contained in the new Zoning Ordinance, including the site plan review process, should help ensure that the uses in a new B3 district would not negatively impact the surrounding residential areas.

Overall, the comments of the residents have been in support of a well-maintained, quality, aesthetically pleasing shopping center for their community. In addition, the rezoning will create additional retail and employment opportunities for the community.

MASTER PLAN

The subject site is located within the Kettering subsector of the East Sector of the Detroit Master Plan of Policies. Both the "Existing Land Use" map and the "Proposed Land Use" map for the subject area in the Master Plan show "GC" (General Commercial) uses along the Gratiot frontage and "RL" (Low Density Residential) land uses on the remainder of the site. The proposed zoning to B3 (Shopping District) is inconsistent with the Master Plan of Policies' proposed land use for the area.

The Planning and Development Department has determined that an amendment to the Master Plan of Policies is needed. The department proposes to amend the Generalized Land Use Map in the Master Plan of Policies to show a change in the subject area from "RL" (Low Density Residential) to "GC" (General Commercial).

The Planning and Development submitted a resolution to amend the Detroit Master Plan of Policies on August 12, 2005. The City and County comment

period will end on November 15, 2005, after which time CPC staff will submit the Master Plan amendment request to the City Planning Commission for review and recommendation.

RECOMMENDATION

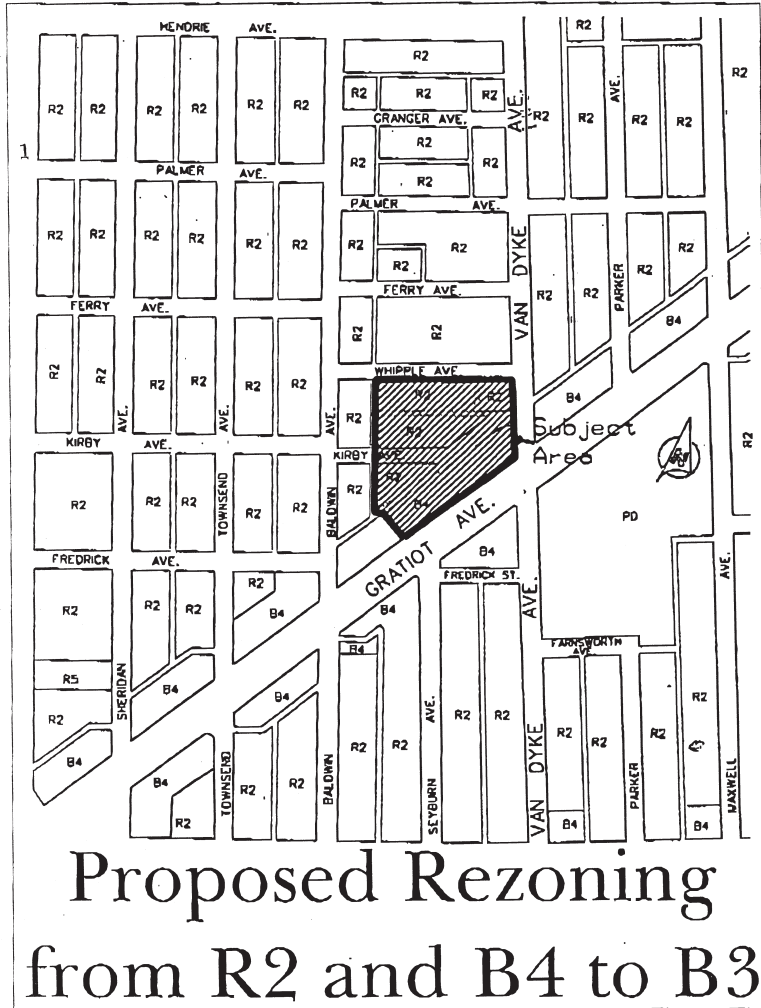

On September 8, 2005, the City Planning Commission (CPC) took action to recommend approval of the rezoning proposal from R2 and B4 to a B3 zoning designation, with the understanding that the Detroit Master Plan of Policies will be amended so that the generalized proposed land use designation for the subject area in the Master Plan will be consistent with the proposed development. Attached is an ordinance approved as to form by the Law Department, for introduction prior to the required public hearing.

Re: Neighborhood Enterprise Zone (NEZ) Certificate Applications for five properties in the Woodbridge Estates NEZ (Recommend Approval).

The City Clerk's Office forwarded to this office applications from Scripps Park Associates, LLC for five (5) Neighborhood Enterprise Zone (NEZ) certificates within the Woodbridge Estates NEZ. Your Honorable Body approved the Woodbridge Estates NEZ designation on September 19, 2001. City Planning Commission staff has reviewed the applications and recommends approval.

Certificates are being requested for 4130, 4142, 4241 and 4305 Aretha Avenue and 4119 Miracles, which are confirmed to be within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Scripps Park Associates, LLC has applied for the certificates, prior to the issuance of building permits, on behalf of the future owners who will occupy the properties. It is appropriate for them to apply for certificates at this time, even if buyers have not yet been identified. The State Tax Commission, however, will not issue a certificate until an owner is identified. When an owner is identified, he or she can then apply for the certificate. At that time, it would not be necessary for City Council to pass another resolution.

The petitioner proposes to build single-family homes. The sites have been cleared and construction is anticipated to begin soon. The developer will need to submit to the State Tax Commission the parcels that are to receive the certificates with a map showing the parcels.

Please let us know if you have any questions.

Honorable City Council:

Re: 8 Mile Boulevard Association Framework for Unifying Elements Plan and the designation of Eight Mile Road as a Michigan Heritage Route (RECOMMEND APPROVAL)

INTRODUCTION

The 8 Mile Boulevard Association (8MBA) is an organization with the following governmental members: Macomb County, Oakland County, Wayne County, Detroit, Eastpointe, Farmington, Farmington Hills, Ferndale, Harper Woods, Hazel Park, Oak Park, Redford Township, Royal Oak Township, Southfield, and Warren. In addition, many private companies are members. 8MBA was established in April 1993 to link those private and governmental organizations in order to revitalize 8 Mile Road.

The purpose of the Framework for Unifying Elements Plan is to set the context and criteria for the design of the district and/or community plans developed by the various communities and entities that have jurisdiction on the right-of-way along the corridor so it appears seamless and unified. The goal of the Plan is not to enforce one design for the whole corridor, but rather to supplement existing and future plans with elements that unify the corridor; districts or "places" can have identifiable characteristics. In addition to the members of the 8MBA, the Michigan Department of Transportation, (MDOT), the Detroit Department of Transportation (DDOT), and the Suburban Mobility Authority for Regional Transit (SMART) gave input and will be involved in the implementation of the Plan.

Another advantage of the Plan, once it is adopted by resolution by all of the communities that border the corridor, is that MDOT (who has ultimate control of the right-of-way) will consider the Plan in its designs and reviews of proposed improvements and give a high degree of consideration to individual communities that coordinate with the Plan. Therefore, funding can be more effectively sought for public space and corridor-wide improvements.

The benefits of the Michigan Heritage Route designation are described in the attached information from the Michigan Department of Transportation. The designation of 8 Mile Road as such a route would further the coordination of activities along the road and increase potential funding opportunities.

ELEMENTS OF THE PLAN

The Plan is composed of three main components: the physical elements, the design guidelines, and the facade enhancement program.

The physical elements include

streetscape recommendations, aesthetic enhancements, and public art for the "gateways" located where 8 Mile intersects Woodward and Van Dyke. Specifically, district sign markers, screen walls along the sidewalk edge, increased color along the corridor (especially on structures such as bridges, electric towers, etc.), special pavers or colored concrete in special areas, wayfinding signage to denote special public attractions, street trees, and consistent street lights are all advocated. Many sample images are included to illustrate the concepts.

The Design Guidelines include-urban design criteria, development models, signage organization and the incorporation of nonmotorized pathways. Specifically, mixed-use buildings, construction buildings to the property line and orienting them to the street, and placing parking behind buildings are encouraged (all "new urbanist" principles). The use of walls to screen open parking lots and the increase in the scale of buildings is advocated. In the future, these guidelines would likely form the basis for an overlay zoning district encompassing the 8 Mile Road corridor. This overlay district is already provided for in Detroit's Zoning Ordinance.

The Facade Enhancement Program outlines the requirements for qualifying for the future facade improvement fund or grant assistance program and also provides quality standards for signage, lighting, canopies, architectural details, and color. These improvements would have to follow the design guidelines spelled out in the Plan.

ANALYSIS

The elements of the Plan appear to be consistent with good urban design principles. Specific City actions may not, of course, exactly match those called for in the Plan. The goal of unifying the appearance of both the public and private spaces along Eight Mile Road is certainly laudable, and one that can certainly do nothing but benefit all of the communities that border that road. The following of the guidelines in this Plan would enhance both the design of the right-of-way and private property along Eight Mile Road.

The designation of Eight Mile Road as a Michigan Heritage Route could have some real benefits with no costs to the City. Therefore, the City Planning Commission supports the designation.

Attached are two resolutions, one supporting the 8 Mile Framework for Unifying Elements, and the other supporting the nomination of Eight Mile Road as a Michigan Heritage Route.

RECOMMENDATION

On October 6, 2005, the City Planning Commission (CPC) recommended approval of the Plan and the Michigan Heritage Route designation. To facilitate

your Honorable Body's review of the Plan, You may wish to schedule either a discussion or a presentation on the matter.

A RESOLUTION

Of the Detroit City Council Supporting the Designation of Eight Mile Road as a Michigan Heritage Route

By Council Member McPhail:

Whereas, Eight Mile Road, known as M-102 or Baseline, was the first east-west line drawn in the state of Michigan. Following the method set forth in the Federal Land Ordinance Act of 1785, it served as the model for modern surveying in the United States, upon which property boundaries in the State of Michigan are based; and

Whereas, Eight Mile Road/Baseline serves as the State of Michigan's east-west surveying line forming the boundaries between southern Michigan counties and Illinois and Wisconsin; and

Whereas, The first state fair in the United States of America, the Michigan State Fair, is located along Eight Mile Road; and

Whereas, Eight Mile Road derived this name by being located at a point directly eight miles north of the Detroit River and today serves as an east-west thoroughfare for communities in the southeastern Michigan region, and a connector for intra-state travel; and

Whereas, Eight Mile Road serves as the connecting corridor for the City of Detroit (the first city established in the Midwest) and its suburbs; and

Whereas, Detroit's growth and well-being are directly related to its presence along this important highway; and

Now, Therefore, Be It

Resolved, That the Detroit City Council supports the nomination of Eight Mile Road as a "Michigan Heritage Route" and requests that the Michigan Department of Transportation recognize Eight Mile Road as an important corridor to the State of Michigan and its growth.

Honorable City Council:

Re: Request of Oakland Investment Company to rezone property generally bounded by Pftent, vacated Anvil,

Alvar, and Lappin and property generally bounded by Anvil, Pftent, the alley first north of Pftent, and a line approximately 200 feet west of Anvil from R1 (Single Family Residential District) to B4 (General Business District) (Recommend Approval of Rezoning Parcel South of Pftent to B2 and Parcel North of Pftent to P1).

REZONING REQUEST

The petitioner, Oakland Investment Company, originally requested to rezone property in the area generally bounded by Pftent, vacated Anvil, Alvar, and Lappin and the area generally bounded by Anvil, Pftent, the alley north of Pftent and a line approximately 200 feet west of Anvil from R1 (Single Family Residential District) to B4 (General Business District). The site presently contains a Department of Human Services District Office and its parking lot on the portion of the subject property south of Pftent and additional parking for the office on the portion north of Pftent. This use was allowed in the residentially zoned area by virtue of a Board of Zoning Appeals (BZA) grant. The petitioner now wishes to rezone the property to a zoning district that is consistent with the current use and surrounding commercial uses. No change to the existing use is anticipated at this time.

SURROUNDING LAND USE AND ZONING

To the north: R1 (Single Family Residential District) — single family homes

To the east: B4 (General Commercial District) and R1 — shopping center and single family homes

To the south: PD (Planned Development District) — shopping center

To the west: R1 — single family homes

MASTER PLAN

The subject site is in the Mt. Olivet sub-sector for the Northeast Sector of the Master Plan. The Master Plan shows RL (Low Density Residential) as the Future Land Use for the subject site. The Generalized Rezoning Concept for the area is R1 (Single Family Residential District). The proposed rezoning is inconsistent with the Master Plan. It should be noted that consistency with the Master Plan is not required for a rezoning. Also, the Planning and Development Department states in its letter to the City Planning Commission (CPC) on this matter that the proposed revision of the Master Plan should be updated for the subject site immediately to the south and east to reflect the existing commercial uses.

PUBLIC HEARING RESULTS

At the September 8, 2005 City Planning Commission public hearing on this matter, 6 persons spoke. Two were in favor, one was opposed and three had questions but expressed no opinion. One of those with no opinion wished to have her property

purchased by the petitioner. Several speakers mentioned that the roads in the area have deteriorated since, and possibly as a result of, the construction on the subject site and adjacent properties. Commissioners expressed support for the petitioner fixing the roads around its property. Several speakers had questions about the implications of the rezoning on their property.

A community group, Detroit Community Initiative, submitted a letter to the Commission supporting a rezoning to B2 for the southern parcel and P1 (Open Parking District) for the northern one. The petitioner agreed to this suggestion.

ANALYSIS

The areas to the south and east are developed commercially, and it seems reasonable for the portion of the subject property south of Pfent to be considered for rezoning to allow the existing use and other commercial uses. The petitioner's request for rezoning to B4 would allow a wide range of commercial uses, including those that customarily attract a large amount of vehicular traffic. The Commission agrees with the Detroit Community Initiative that the B2 district would be a more appropriate district for this area. The B2 zoning classification does not allow the current governmental services center use, but it is allowed to continue in perpetuity under the BZA grant. The B2 district allows a variety of retail and office uses, while making those uses that are more intense, such as carry-out restaurants, conditional and not permitting uses such as gas stations.

The portion of the subject property north of Pfent is the site of a parking lot surrounded on three sides by residential development. Because of this, the City Planning Commission (CPC) recommends the more limiting P1 zoning district for this area rather than the requested B4. P1 would allow this property to be used for parking, but not for any commercial uses that could further impact the nearby residents.

Given the subject parcels' proximity to residential uses, especially the parcel north of Pfent, it seems appropriate to recommend the less intense zoning classifications. As previously reported, the petitioner has agreed to the recommended districts.

RECOMMENDATION

The Commission recommended at its September 22, 2005 meeting that the property generally bounded by Pfent, vacated Anvil, Alwar, and Lappin be rezoned from R1 (Single Family Residential District) to B2 (Local Business and Residential District) and that the property generally bounded by Anvil, Pfent, the alley first north of Pfent and a line approximately 200 feet west of Anvil from R1 to P1 (Open Parking District).

The appropriate amendatory ordinance, approved as to form by the Law Department, is attached for your consideration.

Honorable City Council:

Re: Proposed façade improvements to 620 and 630 Woodward Ave. located in a PCA (Restricted Central Business District) zoning classification (Recommend Approval).

The City Planning Commission (CPC) staff has received a building permit request for facade improvements at 620 and 630 Woodward Ave. being done in conjunction with a retail readiness pro-

gram. These addresses are located on the east side of Woodward between Congress and Cadillac Square. In that this is a PCA (Restricted Central Business District) zoning classification, any exterior alteration to the premises requires the approval of your Honorable Body.

PURPOSE

The proposed façade improvements consist mostly of repairs and replacements of the existing Woodward façade. There are, however, a number of new or altered items that warrant City Council action. Repairs are to be made to doors and windows and the wood, brick and metal components of the façade. In addition to the repairs, the upper three floors of both buildings will include the replacement of all screens and louvers with glazing. Wall vents at 630 Woodward will be replaced with pintable vents and the entire façade of both buildings will be painted in a light tan color to unify the two edifices.

The first floor portion of the façade will receive a facelift and a complete makeover. The signage and lighting are to be removed from the ground floor storefront at 630 Woodward, and the frieze panels are to be repaired or replaced and painted in a forest green color. New signage will be added to frieze panels above the doors and windows. The cast iron columns would be restored and painted in a high gloss black to make them more prominent. At 620 Woodward, the ground floor would be completely redone with a storefront treatment to match the improved conditions at 630 Woodward.

A more detailed breakdown of the demolition and planned improvements may be found in the attached drawings. There is also a rendering depicting a computer generated image of the finished facade.

CONCLUSIONS AND RECOMMENDATION

The staff of City Planning Commission has completed its review of the proposed façade improvements at 620 and 630 Woodward Ave. We find these improvements to be harmonious with the surrounding structures and consistent with the spirit and intent of the PCA zoning district. Therefore, the Commission staff recommends approval. Please find attached a resolution effectuating the recommended approval, should you concur with the CPC staff findings.

Honorable City Council:
Re: Research Park — Payment in Lieu of Taxes.

Research Park is an existing 245 unit MSHDA housing complex, which is currently paying a PILOT Service Charge. Keystone Management Group will be assuming the first mortgage, which has a balance of approximately \$4,900,000; they will also be paying off an existing repair loan, which has a balance of approximately \$2,400,000 in addition to other financial agreements contingent to the sale. The sale and transfer of the development is subject to the receipt HOME loan funds in the amount of

\$2,500,000 from the Authority and an award of Low Income Tax Credits.

The Purchaser will preserve the existing Section 236 and Rental Assistance Contracts for their remaining terms ending in 2018. In addition, the Purchaser will agree to restrict occupancy and rents consistent with its Low Income Housing Tax Credit Application (LIHTC). These restrictions shall remain in effect for the longer of the period the Authority Mortgage Loans remain outstanding or for the period required by the LIHTC regulatory agreement.

The development, according to an action report by MSHDA is in need of significant repairs and renovation. Among the items cited was replacement of rooftop heating and cooling equipment, roof repair, hallway redecoration and upgrades of cabinetry and appliances in the kitchens. Funds for the HOME loan and syndication proceeds shall be used, in part, to rehabilitate the development consistent with the developments Capital Needs Assessment.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125).

Honorable City Council:

Re: Purchase Order 2693907 — Wayfinding Project per M-DOT Contract #05-5367 — The City of Detroit Downtown Development Authority — Contract Not to Exceed \$400,000.00.

The Department of Public Works (DPW) submits the following response to the memorandum received from the office of Council Member Sheila M. Cockrel regarding the above referenced matter.

The subject of Wayfinding within Downtown Detroit has been studied and approached by several organizations including the City of Detroit — Traffic Engineering Division (TED), Downtown Development Authority — City of Detroit (DDA) and the Downtown Detroit Partnership (DDP) formerly known as the Greater Downtown Partnership (GDP). TED included as part of their Transportation Master Plan study, the need for improved wayfinding. The DDP serving on the Superbowl XL (SBXL) Planning Committee incorporated wayfinding as one of their focus items in preparation for the upcoming Superbowl. The DDA accepted the implementation for this project and has coordinated the involvement of MDOT, DDP, TED, City of Detroit — City Engineering Division, City of Detroit — Planning and Development, and City of Detroit — City Planning Commission and Detroit 300, Inc.

Traffic Engineering (TED) Master Traffic Plan produced by Parsons-Brinkerhoff Michigan, provided a conceptual plan.

Detroit 300, Inc. had a small provision for wayfinding design in its architectural services contract with Rundell Ernstberger Associates (REA). This contract included the design work for Campus Martius Park and was assigned to the DDA for construction implementation.

DDP contracted with Rossetti (Architects) for conceptual design services via private funding. The aforementioned city departments due to the difficulty to install and the ongoing maintenance cost rejected the conceptual design presented by Rossetti.

DDA utilizing the existing contract with REA to customize a wayfinding system similar to the one currently in place in San

Francisco, CA. This system was accepted by the city departments mentioned above and proved to be less costly and easier to maintain.

In early October, the DDA advertised a Request for Proposal for the fabrication and installation of the wayfinding system. Environmental Testing and Controls (ETC), Inc., a Detroit headquartered firm, was the only responsive bidder. ETC has listed Forms and Surfaces, a manufacturer of outdoor signs and furnishings, Pittsburgh, PA. The DDA staff was authorized by its Board of Directors to enter into contract with ETC contingent upon the City of Detroit's acceptance of the MDOT funding agreement.

The City of Detroit, DPW already executed an agreement with M-DOT that will provide \$400,000.00 to the city for this project.

There is no subcontractor for this project and no money has been paid or expected to be paid to any subcontractor for this project.

Should you have any questions or require additional information, please contact my office at 313.224-3930.

Respectfully submitted,

Honorable City Council:

Re: Budget Amendment for Police and Fire.

During Council deliberations on the FY 2005-06 Budget, your Honorable Body cut \$70.3 million from Police and \$21.5 million from Fire. Part of this cut was for a 10% pay reduction for Uniform employees. Since the City will not achieve this savings the Administration submitted a budget amendment letter in July, to restore funding to Police [\$16.5 million] and Fire [\$6.4 million]. This amendment was approved in late July. This still left a funding shortfall of \$53.7 million for Police and \$15.1 million for Fire.

Police and Fire have worked diligently to reorganize their agencies to fit the available budget. This very comprehensive and detailed task was completed at the end of August. Despite their best efforts they could not reduce their budgets by the amount Council approved and provide their required services — public safety. The Police reorganization plan col-

lapsed precincts into six districts, re-organized staff to provide more Police Officers on the patrol than they currently have, reduces redundant tasks and included the lay offs of 150 Officers. This plan will save \$23 million annually and \$15.4 million for this fiscal year. Fire also restructured their organization by reducing 65 Firefighters and 10 Battalion Chiefs and collapsing battalions from 8 to 5. These efforts will save \$8.1 million annually and \$5.8 million this fiscal year.

With these reductions Police will need an additional \$38.3 million and Fire \$9.2 million for a total \$47.5 million to maintain operations for the balance of the year. To address this shortfall other departments are being reduced and new revenue will be generated. Departments were asked to look at their operations and to provide bare bones required services. These reductions will result in 71 Full Time and 332 Seasonal layoffs. The layoffs outlined below, plus other non salary reductions, will result in savings of \$27.5 million.

Department	Impact
Historical	Reduced days of operations to 4 days a week, the sale Moross House, elimination of Deputy Director position, and reduced maintenance and security.
Senior Citizens	Reduced funding to DAAA, reduced staff, and elimination of Deputy Director position.
ITS	Eliminate 40 positions. Support to departments will be limited.
DAH	Reduced funding for ticket processing vendor.
Civic Center	Elimination of 8 positions, reduction in shuttle service, reduced insurance premium costs, as a result, reduction in maintenance and security funding.
PDD	Elimination of 3 positions.
Homeland Security	Elimination of 2 positions. Resulting in reduced clerical support and increased time in producing homeland security and emergency management reports.
Cable Commission	Elimination of 1 position and contractor services, as a result, reduced media production services.
Public Lighting	Reduction in fuel accounts to reflect greater efficiencies in operations.
DHWP	Elimination of 1 position, transfer some Communicable Disease functions to grants, reduce equipment purchases and staff at Health Centers. Sale of surplus property (2).
Human Resources	Elimination of 7 positions resulting in delayed responses for employee services and labor relations. Internship funding eliminated.
Recreation	No Recreation Centers to close. Recreation Operation — reduced operating hours under a “3-day, 5-day, 6-day program” for recreation centers, continue modified leisure education programs, in addition to, Pee Wee Basketball, Soccer, open Basketball, Aquatics and modified Halloween/Angels Night programs. Ground Maintenance — reorganized into three districts by implementing a targeted approach for grass cutting and trash pick up with the use of a “roving team” strategy. No Full Time positions eliminated and seasonal positions cut earlier than scheduled.
DOT	No impact.
Budget	Elimination of 1 position.
Mayor’s Office	Elimination of 7 positions.

Department	Impact
Finance	Reduced support in Assessors and Accounting.
Law	Elimination of 3 positions in risk management.
Auditor General	
BZA	
City Council	Impact unknown for legislative agencies.
Ombudsman	
City Clerk	

Departments reviewed their available funding and have limited the service impacts as much as possible. In addition to the saving reductions from the above listed layoffs plus other non salary reductions, that result in savings of \$27.5 million, we will receive \$20 million by securitizing future revenue streams from the Detroit Windsor Tunnel. This agreement will be coming shortly for your approval. The budget amendments presented total \$47.5 million to maintain operations for the balance of the year.

Honorable City Council:

Re: Twenty-three (23) Neighborhood Enterprise Zone (NEZ) Certificate Applications for the West Town I area (Recommend Approval).

The City Planning Commission staff has received 23 applications for the Neighborhood Enterprise Zone (NEZ) certificates in the West Town I NEZ. The NEZ designation for the area generally bounded by the C&O Railroad to the north, Rutherford Avenue to the east, the first alley south of Tireman to the south and Asbury Park to the west was approved by City Council on May 19, 2004. The City Planning Commission staff has reviewed the application and recommends approval.

The certificates are being requested for 8464 Asbury Park, 8242 Mansfield, 8248 Mansfield, 8054 St. Marys, 8068 St. Marys, 8445 St. Marys, 8421 Mettetal, 8435 Mettetal, 8448 Mettetal, 8460 Mettetal, 8466 Mettetal, 8478 Mettetal, 8491 Mettetal, 8511 Mettetal, 15681 Tireman, 15703 Tireman, 15733 Tireman, 15803 Tireman, 15823 Tireman, 16000 Tireman, 16042 Tireman, 16128 Tireman, and 16138 Tireman. These properties lie within the boundaries of the West Town I NEZ area and should be eligible for NEZ certificate under Michigan Public Act 147 of 1992 as currently written.

West Town Homes 1, LLC plans to construct twenty-three (23), 1,500 square-foot single-family homes on the properties. The houses will be priced at about \$130,000, but there would be a subsidy of \$70,000 for a qualified buyer.

West Town Homes 1, LLC has applied for the certificates prior to the issuance of building permits on behalf of the future owners who would eventually occupy the properties. The State Tax Commission, however, will not issue certificates until owners are identified. Once each owner is identified, he or she can apply for a certificate. At that time, it would not be necessary for the City Council to pass another resolution.

The CPC staff, after a review of the above NEZ certificate application, recommends that the NEZ certificate applications for the properties indicated above be approved as submitted.

Re: Request for six (6) Neighborhood Enterprise Zone (NEZ) Certificates in the Midtown NEZ area (Recommend Approval).

The City Planning Commission (CPC) staff has received six (6) applications for the NEZ certificates in the Midtown NEZ area. The NEZ designation for the Midtown area generally bounded by Hancock, Cass, Selden and the Lodge Freeway was approved by the City Council on March 10, 1999. The CPC staff has reviewed the applications and recommends approval.

Certificates are being sought for 3745 Third, 3741 Third, 3737 Third, 3733 Third, 3723 Third and 3701 Third. The developer, Lantech Development LLC, is planning to construct six new condominium units on these properties.

The properties at stipulated above are confirmed as being within the boundaries of the NEZ and should be eligible for NEZ certificates under State Act 147 of 1992 as currently written. Lantech Development LLC has applied for the certificates at this time, although the buyers of the property are not known. The State Tax Commission will not issue certificates until the owners are identified. Once the owners are identified, they would apply for the certificates. At that juncture, the Council would have to take no further action on this matter.

Whereas, The City of Detroit Historical Department submitted and requested approval of the Historic Fort Wayne Master Plan (the Master Plan) to the City Council in a letter dated October 28, 2004; and

Whereas, The Historic Fort Wayne Master Plan is a 25-year vision for Fort Wayne, which is designed to work in concert with adjacent emerging neighborhoods and other park-like uses to increase use and annual visitation; and

Whereas, The Master Plan aims at the establishment of the site as a regional destination for visitors with the Historic Star Fort and Military Village as core attractions; and

Whereas, The Master Plan delineates

five (5) phases of development for the Fort, and enunciates several concepts for future development including: Fort Wayne Village, Historic Star Fort, the Arsenal of Democracy Museum, a Research/Hospitality Zone, and Expanded Parade Grounds; and

Whereas, The Master Plan examines five (5) models of governance and selected three (3) models for consideration: Not-for-profit corporate Trust, an Authority, and a partnership with the National Park Service; and

Whereas, The City Planning Commission has made recommendations regarding the Master Plan as contained in its report to City Council dated September 20, 2005, including that the Historical Department consider the "Authority" model as the most feasible model of governance, and that additional sources of funding for Fort Wayne be explored, especially funding programs of the National Park Service; Now, Therefore, Be It

Resolved, That the Detroit City Council approves the Historic Fort Wayne Master Plan and concurs with the recommendations of the City Planning Commission; And Be It Further

Honorable City Council:

Re: Establishment of the 3100 Woodward Enterprise Zone as Requested by the 3100 Woodward, LLC.

Attached for your consideration please find a resolution and legal description which will establish the above referenced Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act").

Your Honorable Body conducted a public hearing on this matter on November 17, 2005, as required by the Act. No impediments to the establishment of the

NEZ were presented at the public hearing.

As you may recall the 3100 Woodward, LLC proposes to invest \$48 million to construct 183 new single-family homes and rehabilitate 35 additional units. The homes will be sold at an anticipated market price of \$120,000 to \$350,000.

The Act requires that at least 45 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. The date of the notice of the public hearing is October 27, 2005 and we therefore recommend that you approve the resolution at your regular formal session.

Respectfully submitted,
DOUGLASS D. DIGGS

Director of Development Activities
By Council Member Collins:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zones Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the 3100 Woodward NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the 3100 Woodward NEZ was conducted before the Detroit City Council on November 17, 2005, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the 3100 Woodward NEZ were cited;

Now Therefore Be It

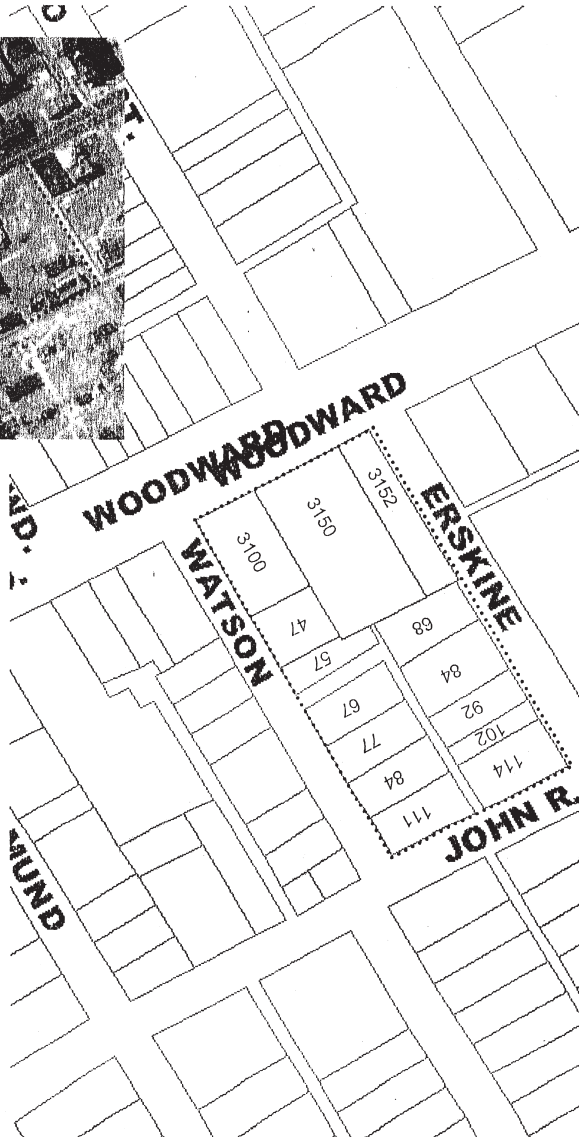

Resolved, That the land area described in the attached legal description, and shown on the attached map, is hereby established as the 3100 Woodward NEZ pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Honorable City Council:

Re: Installation of pedestrian wayfinding kiosks in various PC (Public Center District) and PCA (Restricted Central Business District) zoned areas around downtown Detroit (Recommend Approval).

In early October of this year your Honorable Body approved the receipt of funds from the Michigan Department of Transportation (MDOT) for the express purpose of fabricating and installing a wayfinding system in downtown Detroit. For years the Department of Public Works has desired to develop a wayfinding system for the downtown and explored the development of such a system with its consultant Parsons Brinkerhoff in the preparation of a downtown traffic Master Plan in 2004. The funding that affords the City this opportunity to pursue downtown wayfinding was secured via the efforts of

the Super Bowl Host Committee. This project is one of a series of projects managed by the Detroit Economic Growth Corporation (DEGC) that provides for improvements within and along downtown streets. The DEGC desires to complete this project in time for the Super Bowl.

PROJECT

The project calls for the placement of 28 kiosks around downtown (see attached map). The majority of these sites are within the public right-of-way along sidewalks or in medians where they will not hinder the flow of pedestrian traffic. In some instances the kiosk will be located outside of the public right-of-way on zoned land. Some of these instances occur on land carrying a PC (Public Center District) or a PCA (Restricted Central Business District) zoning classification. The specific instances where this is anticipated to be the case are in and around the Civic Center at locations 7, 8, 10, 11, 12, 14, 15, 16 and 25, as depicted on the attached map. It is possible that the final placement of one or more of these particular kiosks may place it within the right-of-way. The PC and PCA zoning districts require the approval of the City Council in cases such as this, where an alteration is sought to the premises in question.

The project also includes upgrades to the map displays currently in place within the Detroit People Mover stations. This is being done in order to ensure continuity between wayfinding features.

REVIEW

A wayfinding system can be defined as a coordinated system of signs, art, symbols, pavement and building markings and the like that serve to direct and orient people within a given network of roads, pathways, corridors or open space such as a park, mall, office building or a downtown area. These components may include directional arrows, street names, venues, landmarks and maps. The City has elected to go with stand-alone kiosks.

The selected kiosk is a component of the Arcus System. The Arcus System is a line of products from the Forms and Surfaces Corporation, which provides uniquely designed fixtures and furnishings for interior and exterior applications. The Arcus system is employed in such places as San Francisco, Chicago, and Pittsburgh.

The kiosks would stand approximately ten feet tall and display, at eye-level, a map of downtown with corresponding legend. Above the map would be a series of interchangeable plates bearing the names of key downtown locations. The kiosks would be clad in a green (similar to color of street signs) metal panel with gold accents. The project designer, Rundell Ernstberger Associates, which designed Campus Martius Park, has customized

the kiosks with the addition of an artistic element to crown the structure (please see attached elevation of kiosk). Once fabricated, each kiosk will require a small concrete footing or pad. Tubes would then be affixed to the footing with anchor bolts and the kiosk mounted on the tubes.

The content of the map and corresponding legend have yet to be finalized, but will be consistent with the visual provided. City Planning Commission (CPC) staff believes that some staff level review of the final graphic is warranted. We also recognize that upgrades and revisions to that graphic will be done from time to time, and they too should be reviewed for consistency with this vision and other applicable regulations.

CONCLUSIONS AND RECOMMENDATION

The staff of City Planning Commission has completed its review of the proposed wayfinding kiosks, and, in particular, those that fall within a PC or PCA zoning district. We believe that the kiosks will be a welcomed addition to the downtown streetscape. They will be of benefit to citizens and visitors alike, as well as various downtown venues. We find these improvements to be harmonious with the surrounding streetscape and to be consistent with the spirit and intent of the PC and PCA zoning district classifications. Therefore, the Commission staff recommends approval conditioned upon CPC review of the final graphic display and subsequent revision to or replacement of that display. Please find attached a resolution effectuating and recommended approval should you concur with CPC staff findings and desire to move this project forward.

Respectfully submitted,

MARSHA S. BRUHN,

Director

MARCELL R. TODD, JR.

CPC Staff

By Council Member Collins:

Whereas, The Michigan Department of Transportation has provided the City with funding to develop and install wayfinding devices in downtown Detroit; and

Whereas, The City has selected a kiosk design containing a map and interchangeable directional signage as the primary wayfinding device; and

Whereas, Of the 28 locations whereon the kiosks are proposed to be located, nine (9) will likely fall within PC (Public Center District) or PCA (Restricted Central Business District) zoning classifications, those locations being sites 7, 8, 10, 11, 12, 14, 15, 16 and 25 as depicted on the accompanying map; and

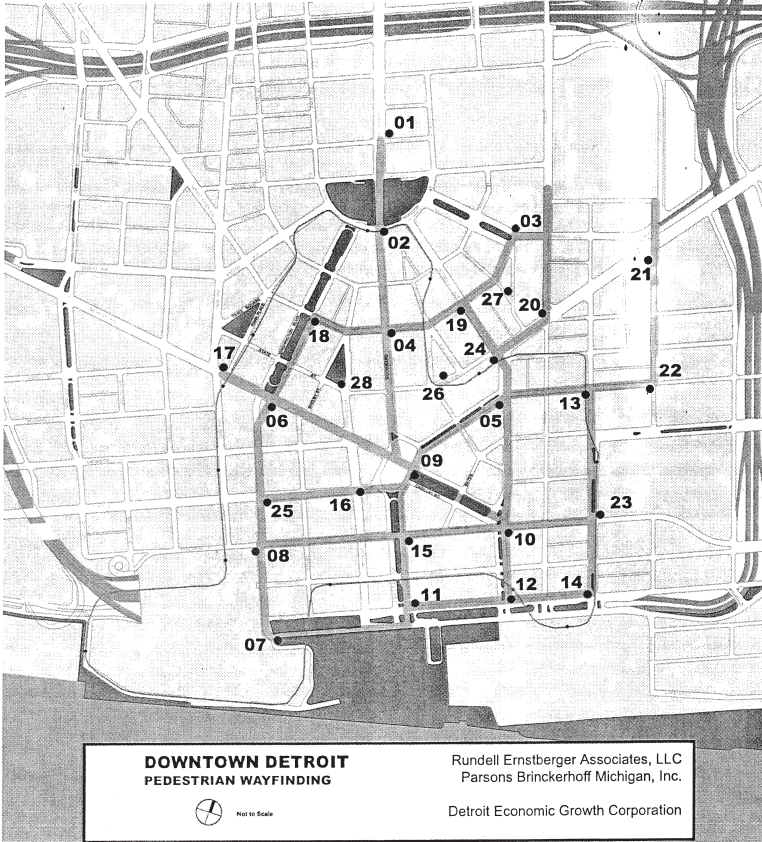

Whereas, The map and graphic display for the kiosks have not been finalized and will be revised or upgraded from time to time; and

Whereas, The design and function of these kiosks will be of benefit to the vari-

ous users of downtown and the civic center proper; and

Whereas, The proposed project has been reviewed by the City Planning Commission staff and the Planning and Development Department and found to be consistent with the generally held vision for these areas and the spirit and intent of both the Public Center and Restricted Central Business zoning districts.

Now, Therefore Be It Resolved, That the Detroit City Council approves the design, appearance and location of the wayfinding kiosks sited for PC and PCA zoned land as described and reviewed in the foregoing communication from the City Planning Commission staff and depicted in the attached drawings conditioned upon CPC staff review of the final graphic display and subsequent revisions to or replacement of same.

Re: Correction of Sales Resolution. Development: Parcel 306; located on the East side of Holcomb between St. Paul & Agnes.

On June 2, 2004, (Detroit Legal News, June 10, 2004, Page 26), your Honorable Body authorized the sale of the above-

captioned property to Boyer Estates Development, LLC, a Michigan Limited Liability Company, for the purpose of constructing affordable multi-family town-house units with off-street parking.

This developer possesses the qualifications and has indicated potential financial resources necessary to acquire and develop the land in accordance with the Development Plan.

We, therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect a name change in the purchaser from Boyer Estates Development, LLC, a Michigan Limited Liability Company to Agnes Street Housing Limited Dividend Housing Association Limited Partnership, a Michigan Limited Dividend Housing Association Limited Partnership.

Section 108 Loan Guarantee application on behalf of the Cadillac Development Company, LLC, and its managing member JTMK-Cadillac Ltd. of the Ferchill Group.

November 3, 2005

Honorable City Council:

Re: Surplus Property Sale — 1529 W. Boston Blvd.

The City of Detroit acquired as tax reverted property from the State of Michigan, 1529 W. Boston, located on the South side of W. Boston Blvd., between John C. Lodge and Woodrow Wilson. The property was subsequently sold on a land contract basis. The land contract vendees failed to make the monthly payments; therefore the Planning and Development Department initiated summary court action, which resulted in a judgment that returned all interest in the property to the City of Detroit.

The property was offered for sale to the general public on the Planning Development Department's October 2005 — Public Bid Sale. The highest bid received for the captioned property was from Gary E. Lentz, for the amount of \$200,001.00. The property consists of a single family residential structure and is located on an area of land zoned R1-H (Single-Family Residential Historic District). Mr. Lentz proposes to rehabilitate the property and use is as his primary residence.

The property is a four (4) bedroom brick colonial with a three-car garage and is located in the Boston-Edison Historic District. The property is currently in "move-in" condition. Presently, all mechanicals are operable and timely completion of sale and move-in would

prevent further damage that may occur with the upcoming winter season. The sale has been presented to the Detroit Historical Commission for review and they will give their recommendations following their November 9, 2005 commission meeting.

We request your Honorable Body's approval to accept the Highest bid from Gary E. Lentz, for the sales price of \$200,001.00 on a cash basis plus an \$18.00 deed recording fee.

Respectfully submitted,
O'NEAL EDWARDS

By Council Member Collins:

Resolved, That in accordance with the foregoing communication the Planning and Development Department is hereby authorized to accept this Offer to Purchase for property described on the tax roll as:

Rec'd L. 29, P. 23 Plats, W.C.R. and be it further

Resolved, That the Planning and Development Department Director of Development Activities or his authorized designee is hereby authorized to issue a Quit Claim Deed to the purchaser, Gary E. Honorable City Council:

Re: Petition No. 3442 — Redico Management, Inc. ("REDICO") — New Office Building on the Kennedy Square Block site facing Campus Martius — Requesting easements, variances or encroachments within city rights-of-way area bounded by Griswold, Woodward, Fort and Michigan.

Petition No. 3442 of Redico Management, Inc. ("REDICO") requests easements for building street projections; also permission to install and maintain variances or public street encroachments within the rights-of-way of Griswold Street, Woodward Avenue, Fort Street and Michigan Avenue. REDICO is constructing a multi-story office building on the Kennedy Square Block site. The \$60

million building will add about 240,000 square feet of office space in downtown Detroit. The building is under construction above the renovated Kennedy Square Block underground parking garage. The new office building stands facing Campus Martius Park.

The REDICO project is consistent with City Policy 301-12G, City of Detroit Master Plan of Policies, to redevelop the Kennedy Square Block as an office-retail site, set forth in the Revised Master Plan change adopted by City Council on May 4, 2000 — J.C.C. pages 996-1002. The REDICO project allows the City to carry out its obligations under existing Kern Woodward Associates Development Agreement(s). The resolution adopted by your Honorable Body on August 2, 2000 (J.C.C. pages 1945-49) contains a summary of many City Council considerations related to redevelopment of the Kennedy Square Block.

Petition No. 3442 was referred to City Engineering Division—DPW for investiga-

tion and report. In this encroachment petition we consulted with Traffic Engineering Division—DPW. This is our report:

To construct and maintain the REDICO Office Building it is necessary to grant "easements" for parts of the building that will extend into the public street rights-of-way. The easement areas are identified as "A, B, C, D, D-1, D-2, E, E-1, E-2 and F" in the attached resolution.

The table on page two lists a total of 17 construction activities at the REDICO site into public street rights-of-way; some require city department permits and inspection. For example, certain utility relocations, public sidewalks and curbs are to be rebuilt by REDICO at no expense to the city. The utility relocations will become a part of the city-owned systems after satisfactory completion. Certain REDICO site construction activities are variances or public street encroachments into rights-of-way, and must be authorized by City Council resolution.

Table of Variances of Encroachments:

"REDICO Office Building" construction within ROW, including Variances or Encroachments (Kennedy Square Block at Campus Martius)

ROW denotes public street right-of-way

16	Front Entry Plaza Public Sidewalk Sculpture Wall above grade & LED Lights at surface grade system	Michigan Avenue between Griswold and Woodward
17	Front Entry Plaza Right Public Sidewalk Granite Planter Structure above grade walls & irrigation system	Michigan Avenue between Griswold and Woodward

In accord with Detroit Code Section 50-2-4 "REDICO" must maintain a surety bond for the flag pole encroachment into the marginal area of Woodward Avenue.

"REDICO" must apply to the Buildings and Safety Engineering Department for a special awning-canopy building permit.

"REDICO" must obtain permits from the Recreation Department for tree plantings within public rights-of-way in accord with Detroit Code Section 57, Article 2.

Provisions protecting city departments and utilities are contained in the resolution.

I am recommending adoption of the attached resolution.

*WAIVER OF RECONSIDERATION (No. 3) per motions before adjournment.

RESOLUTION

By ALL COUNCIL MEMBERS:

WHEREAS, Located in northwest Detroit (just west of Telegraph Road and north of West Seven Mile) is a residential neighborhood characterized by well maintained homes on tree-line streets with many long-time homeowners; and

WHEREAS, In January, 2003, the Detroit City Council first learned of Eye on Detroit's plans to purchase 80 houses on 25 acres of land on the eastern edge of this neighborhood bordering busy Telegraph Road to create a retail shopping complex with two large anchors and several smaller stores; and

WHEREAS, Although very hesitant to lose stable housing, the City was encouraged by the project because: the persons to be relocated were supportive; the developer was offering to relocate as many houses as possible to an area further south in need of infill housing; the project would apparently not harm the overall quality of life of the remaining residential neighborhood; the project would provide hundreds of jobs; and the project would provide a retail complex within Detroit so Detroiters would not be forced

to leave the City to find basic retail goods; and

WHEREAS, After the Detroit City Council and its staff worked many hours, particularly with the adjacent remaining residents to assure a quality development, the Detroit City Council voted in January, 2005 to rezone the area and amend the City's Master Plan to accommodate the commercial complex which was promoted as including a Home Depot, Starbucks, bank, and a yet to be named big box store; and

WHEREAS, In September, 2005, the City Council voted to rezone an additional 5 acres and to again, amend the City's Master Plan to create a larger complex that would offer even better retail options; and

WHEREAS, The 80 homeowners have been waiting almost four (4) years for the project to move forward with Eye on Detroit setting a November 14, 2005 deadline to exercise the options to purchase; and

WHEREAS, The Detroit City Council was shocked and angered by the November 11, 2005 newspaper article stating that The Home Depot decided to break its commitment to build at the proposed shopping center because "it no longer fits into its development plans"; and

WHEREAS, Eye on Detroit asserts that for the past three (3) years it has been negotiating with The Home Depot to be an anchor tenant at the new shopping center; and

WHEREAS, The Home Depot's decision not only brings the entire commercial project to a stand-still and jeopardizes the future of the project; but is an extreme burden on the 80 homeowners who have been in limbo the past four (4) years waiting for the project to move forward; and

WHEREAS, The City has worked in good faith, including working with The Home Depot representatives throughout October, 2005 and as late as October 25, 2005 reviewing and approving plans to allow this store to be built; and

WHEREAS, The proposed location is a well established stable community in need of shopping options, with over 120,000 vehicles traveling daily on this section of Telegraph, and within a five-mile radius of the site there are 369,213 persons, 136,746 households, 196,289 employed persons, and households with an average income of \$57,891; and

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby strongly urges Robert L. Nardelli, President & CEO of The Home Depot, Inc. and The Home Depot's Real Estate Executive Committee to reconsider its decision and follow through with its four (4) year commitment to build a Home Depot store in northwest Detroit to provide needed goods, jobs, and redevelopment to that part of the Detroit region.

November 15, 2005

Honorable City Council:

Re: A Resolution Authorizing the Issuance and Sale of Water Supply System Revenue and Revenue Refunding Bonds of the City of Detroit of Equal Standing with the City's Senior Lien and Junior Lien Water Supply System Revenue Bonds and Water Supply System Revenue Refunding Bonds Now Outstanding and Which May Remain Outstanding, for the Collective Purposes of Defraying Part of the Cost of Acquiring and Constructing Replacements, Repairs, Extensions and Improvements to the City's Water Supply System and Refunding Certain Water Supply System Revenue Bonds, Providing for the Form of the Bonds Herein Authorized; Providing for the Rights of the Owners of such Securities and Enforcement Thereof; Providing for Financial Facilities and Interest Rate Exchange Agreements; and Determining Other Matters Relating to such Securities and the System.

In addition, because of a continued decline in interest rates, an additional \$860 million of previously issued Bonds may be refinanced, thereby producing interest savings. The actual amount of Bonds will likely be reduced, depending on which Bonds may be economically refunded at the time of the actual sale.

The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

(4) The balance of the proceeds from the sale of the Series 2006 Senior Lien Refunding Bonds shall be used to acquire Government Obligations, which together with any remaining balance of such proceeds in the form of cash, shall constitute

(4) The balance of the proceeds from the sale of the Series 2006 Second Lien Project Bonds shall be deposited in the Construction Fund Series 2006.

(d) Series 2006 Second Lien Refunding Bonds.

(3) From the proceeds of the Series 2006 Second Lien Refunding Bonds there shall next be deposited in the Construction Fund Series 2006 an amount sufficient to pay the Issuance Costs of the Series 2006 Second Lien Refunding Bonds after taking into consideration other moneys deposited therein for such purpose. Such amount shall be held in a separate account and not as part of the Construction Fund Series 2006, but shall be disbursed to pay Issuance Costs of the Series 2006 Second Lien Refunding Bonds in the same manner as amounts are disbursed to pay Issuance Costs from the Construction Fund Series 2006.

(4) The balance of the proceeds from the sale of the Series 2006 Second Lien Refunding Bonds shall be used to acquire Government Obligations, which together with any remaining balance of such proceeds in the form of cash, shall constitute all or part of the Escrow Deposit to be held in the Escrow Fund.

(e) Construction Fund.

A subaccount of the Construction Fund established by the Ordinance shall be designated the "Construction Fund Series 2006," and shall be established and maintained as a separate depository account with a depository qualified to be a depository of moneys under Michigan law as designated by the Finance Director.

(1) Moneys in the Construction Fund Series 2006 shall be applied solely in payment of:

(i) the Issuance Costs of the Series 2006 Project Securities and

(ii) the costs of the Project, including engineering, legal and other expenses incident thereto and to the financing thereof.

(2) Payments for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Commissioners a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and such work has not been previously paid for.

(3) Payment of the costs of engineering, legal, financial, printing, escrow verification, bond insurance premium, credit enhancement, etc., as provided in this Section shall be made upon submission of appropriate documentation to the Finance Director.

(4) Any unexpended balance remaining in the Construction Fund Series 2006 after completion of the Project may in the discretion of the Commissioners be used for meeting the Reserve Requirement of the Senior Lien Bond Reserve Account and, to the extent such monies are not needed to meet the Reserve Requirement of the Second Lien Bond Reserve Account, for meeting the Reserve Requirement of the Second Lien Bond Reserve Account or for further improvements, replacements, enlargements and extensions to the System if, at the time of such expenditure, such use is approved by the Michigan Department of Treasury, Municipal Finance Division, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on Series 2006 Securities from gross income for federal income tax purposes.

(5) Any remaining balance after all expenditures made pursuant to paragraph (4), if any, have been made shall be paid into the Senior Lien Bond and Interest Redemption Fund or the Second Lien Bond Interest and Redemption Fund, as the Commissioners shall determine, for the purpose of redemption or purchase at not more than the fair market value, plus accrued interest, of outstanding Series 2006 Securities. Series 2006 Securities acquired by purchase shall be canceled.

(f) **Escrow Fund.**

(1) The Escrow Deposit shall be held in or credited to an account designated as the "City of Detroit Water Supply System Revenue Bonds Series 2006 Senior Lien Refunding Bonds Escrow Fund" or the "City of Detroit Water Supply System Revenue Bonds Series 2006 Second Lien Refunding Bonds Escrow Fund" pursuant to one or more escrow agreements (the *Escrow Agreement*).

(2) The Finance Director is authorized to enter into the Escrow Agreement on behalf of the City with U.S. Bank National Association as "Escrow Trustee."

(3) The Escrow Agreement:

(i) shall be in the form and substance customary for refunding escrow agreements;

(ii) may permit any balance after paying the principal (and premium, if any) and interest on the Bonds to be Refunded to be applied to any lawful purpose of the System if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the Series 2006 Refunding Securities from gross income for federal income tax purposes; and

(iii) shall otherwise be in the best interests of the City.

(4) In the event all Bonds to be Refunded will be paid or redeemed within 90 days of the date of issuance of the Series 2006 Refunding Securities, then in lieu of the establishment of an Escrow Fund and the execution of an Escrow Agreement as described above, the Finance Director is authorized to transfer the Escrow Deposit (or cash sufficient to acquire the securities making up all or a portion of the Escrow Deposit) to the paying agent for the Bonds to be Refunded together with irrevocable instructions to (i) call the Bonds to be Refunded on the applicable call date and (ii) use the Escrow Deposit to pay principal of and interest and redemption premiums, if any, on the Bonds to be Refunded to and including the scheduled call date. The procedures described in this subsection shall be employed only if, in the opinion of Bond Counsel, after use of such procedures the Bonds to be Refunded will no longer be Outstanding under the Ordinance.

Section 12. Tax Covenant.

The City hereby covenants and represents to the registered owners of the Series 2006 Securities that so long as any of the Series 2006 Securities remain outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain and will refrain from taking any action which would impair the exclusion of the interest on the Series 2006 Securities from gross income for federal income tax purposes under the Internal Revenue Code of 1986, as currently amended, including, but not limited to, actions relating to any required rebate or arbitrage earnings and the expenditure and investment of Series 2006 Bond proceeds and moneys deemed to be Series 2006 Bond proceeds, and to prevent the Series 2006 Securities from being or becoming "private activity bonds" as that term is used in Section 141 of the Internal Revenue Code of 1986, as currently amended.

Section 13. Preliminary and Final Official Statements.

(a) The Finance Director shall cause

the preparation of a preliminary official statement and other offering materials in a form satisfactory to him to be used in conjunction with the offering of the Series 2006 Securities and is authorized to deem the preliminary official statement "final" for purposes of the Rule.

(b) The preliminary official statement with such changes and additions as the Finance Director shall approve shall constitute the final Official Statement, and the Finance Director is authorized to execute the final Official Statement on behalf of the City approved by him with such changes as the Finance Director may authorize.

(c) Such final preliminary official statement and final Official Statement and other offering materials satisfactory to the Finance Director are authorized to be distributed by the Underwriters in conjunction with the offering and sale of the Series 2006 Securities.

Section 14. Continuing Disclosure.

Unless otherwise set forth in the Sale Order because of an exemption from the Rule, the Series 2006 Securities are hereby made subject to the Continuing Disclosure Agreement, and if so subject the City hereby agrees to abide by the provisions thereof so long as any Series 2006 Securities are outstanding.

Section 15. Sale of Series 2006 Securities.

(a) The Series 2006 Securities shall be sold by negotiated sale to the Underwriters pursuant to a Purchase Agreement in customary form with such changes thereto as the Finance Director shall determine are in the best interests of the City, within the parameters established hereby. Such determination shall be conclusively established by the Finance Director's execution and delivery of the Purchase Agreement to the Representative. The reasons for choosing a negotiated sale instead of a competitive sale include the belief of the Council, based upon the recommendation of the Finance Director and the City's Financial Advisor, that a negotiated sale will allow the Series 2006 Securities to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs to the City.

(b) The Finance Director is authorized to accept, on behalf of the City, an offer from the Representative to purchase the Series 2006 Securities wherein the aggregate compensation to be paid to the Underwriters in such capacity shall not be more than 1% of the original principal amount of the Series 2006 Securities.

(c) The Finance Director is authorized to determine whether the Purchase Agreement shall provide for liquidated

damages and if so, the amount thereof, and whether the Representative shall be required to provide a good faith check in the amount of the liquidated damages.

Section 16. Cash Defeasance of Outstanding Securities.

(a) The Finance Director is hereby authorized to defease outstanding Securities pursuant to the Ordinance from funds of the System available thereof other than from proceeds of Series 2006 Securities.

(b) The series, maturities (or portions thereof) and principal amounts of the Securities to be defeased shall be determined by the Finance Director and set forth in the Sale Order.

(c) An Escrow Deposit for the Securities to be defeased shall be (i) held in or credited to an account designated as the "City of Detroit Water Supply System Revenue Bonds [Designation appropriate to the cash defeased Securities] Escrow Fund" pursuant to an escrow agreement entered into pursuant to and complying with *Section 11(f)(2)* and *(3)* and shall be transferred to the paying agent for the Securities to be defeased subject to the same conditions and requirements set forth in *Section 11(f)(4)*.

(d) Such defeasance shall occur on or prior to the issuance of the Series 2006 Refunding Securities.

Section 17. Delegation of Authority to, and Authorization of Actions of, Finance Director.

(a) The Finance Director shall make all determinations herein provided to be made in the Sale Order and shall make all such determinations in accordance with the best interests of the City and within the parameters of this Resolution.

(b) In addition to determinations authorized elsewhere in this Resolution, the Finance Director shall determine the aggregate principal amount of Series 2006 Securities to be issued, but not in excess of the aggregate principal amount authorized by this Resolution, on the basis of his evaluation of the maximum amount of Series 2006 Securities which can be sold, given anticipated interest rates and the revenue coverage requirements with respect to the Series 2006 Securities and for any other reasons the Finance Director deems appropriate.

(1) Such determination shall also include the type or types of Series 2006 Securities to be issued and if in one or more series and whether to issue Series 2006 Securities as Senior Lien Bonds or Second Lien Bonds or a combination thereof and the redemption provisions for Series 2006 Securities.

(2) The Finance Director shall also determine and establish, in accordance with this Resolution, the maturities of Series 2006 Securities, whether such maturities shall be serial or term maturi-

ties and the Mandatory Redemption Requirements for any term maturities.

(3) The Finance Director shall also determine whether to issue the Series 2006 Refunding Securities and, if so, the Bonds to be Refunded.

(c) For the purpose of more effectively managing debt service requirements of outstanding Securities and the Series 2006 Securities the Finance Director is hereby authorized in his discretion to enter into one or more Interest Rate Agreements with such counterparties and containing such provisions as shall meet the requirements of Act 34, the Swap Management Plan, and the Debt Management Plan. Any such Interest Rate Agreement may be obtained on a forward starting or delayed delivery basis if determined by the Finance Director to be in the best interests of the City. To the extent, if any, provided in the Sale Order, any related Transaction pursuant to the ISDA Master Agreement dated as of May 22, 2003 (Water System Transactions), as amended and supplemented, between the City and Morgan Stanley Capital Services Inc. may be related to the Series 2006 Securities.

(1) The Council acknowledges the potential risks associated with the Interest Rate Agreements including, counterparty risk, termination risk, rollover risk, basis risk, tax event risk, and amortization risk, as set forth in the Swap Management Plan.

(2) The Finance Director is authorized to negotiate the terms of the Interest Rate Agreements, provided, that such terms are consistent with Act 34, the Swap Management Plan, the Debt Management Plan, the Ordinance and this Resolution and are not materially adverse to the City.

(3) The Finance Director is further authorized to enter into such ancillary agreements, including, without limitation, agreements to obtain insurance on some or all of the payments due under Interest Rate Agreements, in connection with the Interest Rate Agreements, as may be necessary or appropriate and are consistent with Act 34 and the terms of the Swap Management Plan, the Debt Management Plan, the Ordinance and this Resolution.

(4) The determinations made by the Finance Director in connection with the Interest Rate Agreements shall be confirmed in the Sale Order.

(d) The Finance Director is authorized to enter into such Financial Facility Agreements as provided in *Section 8* on behalf of the City as the Finance Director determines to be cost effective, make such ancillary agreements and do such other things and take such other actions in connection therewith as may be necessary or appropriate and not otherwise inconsistent with the Ordinance or the parameters hereof.

(e) The Mayor or, if permitted by law, the Finance Director, is authorized to file applications and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for one or more Orders of Approval to issue all or a portion of the Series 2006 Securities, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the Series 2006 Securities as authorized herein, and as required by the Michigan Department of Treasury or Act 34.

(f) The Finance Director is hereby authorized and directed to do and perform any and all other acts and things with respect to the Series 2006 Securities which are necessary or appropriate to carry into effect, consistent with the Ordinance and this Resolution, the authorizations therein and herein contained including without limitation the securing of ratings by bond rating agencies, and the incurring of reasonable fees costs and expenses incidental to the foregoing, for and on behalf of the City.

(g) All determinations and decisions of the Finance Director with respect to the issuance and sale of the Series 2006 Securities as permitted or required by this Resolution shall be confirmed and approved by the Finance Director in the Sale Order.

(h) During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties and make all the determinations herein required or permitted by the Finance Director.

Section 18. Advancement of Costs of the Project.

At the direction of the Finance Director, the City may advance certain costs of the Project from the City's funds prior to the issuance of the Bonds. The City intends to reimburse itself for any costs of the Projects paid or incurred by the City prior to the issuance of the Series 2006 Project Securities with proceeds of the Series 2006 Project Securities. (g) Expenditures of the Project to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Resolution do not include (i) costs for the issuance of the debt, (ii) an amount not in excess of the lesser of \$100,000 or five percent of the proceeds of the borrowing, or (iii) preliminary expenditures not exceeding 20% of the issue price of the borrowing within the meaning of Treas. Reg. §1.150-2(f) (such preliminary expenditures include architectural, engineering, surveying, soil testing and similar costs incurred prior to construction of the Project, but do not include land acquisition, site preparation, and

similar costs incident to commencement of construction).

The fees and expenses of Lewis & Munday, A Professional Corporation shall be payable as an Issuance Cost from the proceeds of the Series 2006 Securities or other available funds in accordance with the letters of such firms on file with the Finance Director.

(b) The Finance Director is authorized to engage other consultants, including, without limitation, a verification agent to verify the mathematical sufficiency of the Escrow Deposit, financial advisors, or other parties as he deems necessary or appropriate in connection with the sale,

Honorable City Council:

Re: A Resolution Authorizing the Issuance and Sale of Water Supply System Revenue and Revenue Refunding Bonds of the City of Detroit of Equal Standing with the City's Senior Lien and Junior Lien Water Supply System Revenue Bonds and Water Supply System Revenue Refunding Bonds Now Outstanding and Which May Remain Outstanding, for the Collective Purposes of Defraying Part of the Cost of Acquiring and Constructing Replacements, Repairs, Extensions and Improvements to the City's Water

Supply System and Refunding Certain Water Supply System Revenue Bonds, Providing for the Form of the Bonds Herein Authorized; Providing for the Rights of the Owners of such Securities and Enforcement Thereof; Providing for Financial Facilities and Interest Rate Exchange Agreements; and Determining Other Matters Relating to such Securities and the System.

The attached Resolution authorizes publication of a Notice of Intent to issue Water Supply System Revenue Bonds in an amount not to exceed \$800 million; the issuance and sale of the subject bonds, including application to the Michigan Department of Treasury, for purpose of providing approximately \$500 million in financing for the ongoing Water Supply System Capital Program.

In addition, because of a continued decline in interest rates, an additional \$860 million of previously issued Bonds may be refinanced, thereby producing interest savings. The actual amount of Bonds will likely be reduced, depending on which Bonds may be economically refunded at the time of the actual sale.

The attached Resolution has been prepared by Bond Counsel and I recommend its adoption by your Honorable Body, with waiver of reconsideration, at your next formal session.

Respectfully submitted,
MATTHEW A. GRADY III
Interim Finance Director

CITY OF DETROIT RESOLUTION AUTHORIZING PUBLICATION OF NOTICE OF INTENT TO ISSUE WATER SUPPLY SYSTEM REVENUE BONDS

By Council Member Collins:

Whereas, The City Council of the City of Detroit intends to issue and sell Water Supply System Revenue Bonds pursuant to Act 94, Public Acts of Michigan, 1933, as amended, in a principal amount not to exceed \$800,000,000 (the *Water Supply System Revenue Bonds*), in one or more series, for the purpose of paying all or part of the cost of acquiring and constructing replacements, extensions, improvements and repairs to the City's Water Supply System (the *System*); and

Whereas, A Notice of Intent to Issue Bonds must be published at least 45 days before the issuance of the Water Supply System Revenue Bonds in order to comply with the requirements of Section 33 of Act 94, Public Acts of Michigan, 1933, as amended (*Act 94*); and

Whereas, The City has an amount remaining from prior publication of a Notice of Intent to Issue Bonds which is insufficient for the intended issue of the Water Supply System Revenue Bonds;

Now, Therefore, be it resolved that:

- 1. Capitalized terms not defined herein

and defined in the preambles hereto are used herein as therein defined.

2. The Finance Director is hereby authorized and directed to publish a Notice of Intent to Issue Bonds in an aggregate principal amount not to exceed \$800,000,000 or such lesser amount as shall be determined by the Finance Director, with respect to the Water Supply System Revenue Bonds in the *Detroit Legal News* and the *Michigan Chronicle*, which together constitute a newspaper of general circulation in the City of Detroit or in either or both the *Detroit News* and the *Detroit Free Press*, each of which constitute a newspaper of general circulation in the City of Detroit.

3. Such Notice of Intent shall be published as a one-quarter (1/4) page display advertisement in substantially the following form with such necessary or desirable changes as may be approved by the Finance Director, his approval to be conclusively evidenced by the publication of such Notice of Intent:

NOTICE TO THE ELECTORS, TAXPAYERS AND OTHER INTERESTED PERSONS OF THE CITY OF DETROIT AND TO USERS OF THE CITY'S WATER SUPPLY SYSTEM OF THE INTENT OF THE CITY OF DETROIT TO ISSUE WATER SUPPLY SYSTEM REVENUE BONDS PAYABLE SOLELY FROM THE REVENUE OF SUCH SYSTEM AND THE RIGHT OF REFERENDUM RELATING THERETO.

Please Take Notice that the City of Detroit, Wayne County, Michigan, intends to issue and sell Water Supply System Revenue Bonds, pursuant to Act No. 94, Public Acts of Michigan, 1933, as amended, in a principal amount not to exceed \$800,000,000 (the *Revenue Bonds*), for the purpose of paying all or part of the cost of acquiring and constructing replacements, extensions, improvements, and repairs to the Water Supply System of the City (the *Water Supply System*).

SOURCE OF PAYMENT OF REVENUE BONDS

The principal of and interest on the Revenue Bonds shall be payable solely from the revenues received by the City from the operation of the Water Supply System after paying costs of operation and maintenance of the Water Supply System. Such revenues will consist principally of income derived from the rates charged to the users of the Water Supply System, a schedule of which is on file in the office of the City Clerk. Such rates may from time to time be revised in accordance with law. Information concerning such rates and the adjustment in rates is available for inspection at the offices of the Water and Sewerage Department of the City.

BOND DETAILS

The Revenue Bonds will be issuable in

one or more series and from time to time. Each series will be payable in the principal installments as determined by the Finance Director of the the City, with the final installment due not more than 40 years after the original date of the Revenue Bonds. The Revenue Bonds will bear interest at the rate or rates to be determined upon the sale thereof, but in no event to exceed 18% per annum or such higher maximum rates permitted by law.

RIGHT OF REFERENDUM

THE REGISTERED ELECTORS OF THE CITY HAVE THE RIGHT TO FILE A PETITION FOR REFERENDUM WITH RESPECT TO THE REVENUE BONDS DESCRIBED IN THE FIRST PARAGRAPH OF THIS NOTICE. THE REVENUE BONDS WILL BE ISSUED WITHOUT A VOTE OF THE ELECTORS UNLESS A PETITION REQUESTING SUCH VOTE SIGNED BY NOT FEWER THAN 15,000 REGISTERED ELECTORS OF THE CITY IS FILED WITH THE CITY CLERK WITHIN 45 DAYS AFTER PUBLICATION OF THIS NOTICE. If such a petition is filed, the Revenue Bonds cannot be issued without an approving vote by a majority of qualified electors of the City voting on the question.

Additional Information with respect to the above described Revenue Bonds, the Water Supply System of the City, the rates to be charged, the projects to be acquired and constructed, repairs to be made and the costs related thereto, the financing thereof, and any other matters relating to the foregoing may be obtained from the office of the City Clerk or from the Finance Director or the Water and Sewerage Department of the City of Detroit.

This Notice is given pursuant to the requirements of Section 33 of Act No. 94, Public Acts of Michigan, 1933, as amended.

MATHEW GRADY

Deputy Finance Director
City of Detroit, Michigan

4. The City Council does hereby determine that the foregoing form of Notice of Intent to Issue Bonds and the manner of publication directed is adequate notice to the electors and taxpayers of the City and users of the System and is well calculated to inform them of the intention of the City to issue the Water Supply System Revenue Bonds, the purpose of the Water Supply System Revenue Bonds, the source of payment for the Water Supply System Revenue Bonds, and the rights of referendum of the electors with respect thereto, and that the provision of 45 days within which to file a referendum petition is adequate to insure that the City's electors may exercise their legal rights of referendum.

5. All resolutions and parts of resolu-

tios insofar as they conflict with the provisions of this resolution be and the same hereby are rescinded.

Department of Health and Wellness Promotion

November 14, 2005

Honorable City Council:

Re: Resolution Authorizing Participation by the City of Detroit in a Disproportionate Share Transaction and Agreement with the Detroit Medical Center and the State of Michigan (Second Application).

The Disproportionate Share Hospital Program (DSH) is a federal initiative providing resources to local hospitals for the delivery and purchase of health related services for the medically under-served. Through a partnership agreement with the Detroit Medical Center (DMC) and the State of Michigan, the Department of Health and Wellness Promotion (DHWP) seeks to provide and improve services to individuals (infants, children, youth and adults) needing health care and prevention services in Detroit.

Through its primary care/specialty clinics, dental clinics and supportive services, DHWP provides a comprehensive array of services to well over 100,000 individuals each year. Although some of these services are covered by third-party resources (eg. Medicaid); there are a range of services such as transportation, social work, nutritional counseling, adult dental, health screening and health education that are not covered.

A major challenge in managing care for the clients we serve at DHWP, is our antiquated patient and client management systems. The department's primary data system is nearly 30 years old, and has limited accessibility to the front-line users. As a result, the ability to manage and support clients care over time is limited. In addition, the technology and medical equipment in all of our facilities are outdated and in need of upgrading for improved efficiency and efficacy.

DHWP respectfully requests City Council to approve the attached resolution, which will enable the department to provide a range of "safety net" and public health services not covered by the Medicaid program. Additionally, these resources will enable DHWP to implement much needed developments in the clinical and client support programs. We

will use Appropriation 00068 Administration to fund the original transfer for the Disproportionate Share Transaction of \$2.1 million. When we receive the original transfer and the match [\$2.1 million plus \$2.8 million], the \$2.1 million will go back to repay Appropriation 00068 and the 2.8 will be disbursed between the primary care appropriations — Appropriation Nos. 10889 Grace Ross Center, 10890 Northeast Center, 10892 Herman Keifer Family Center, and 00074 Primary Family Care.

Whereas, The transactions are typically done through wire transfer resulting in an almost immediate return of the local funds along with the federal match; and

Whereas, Discussions among the Detroit Department of Health and Wellness Promotion ("DHWP"), the

Detroit Medical Center ("DMC") and the State of Michigan Medicaid Program Office ("State") have resulted in an agreement that:

1) Will permit DHWP to use 2.1 million of its current budget allotment to submit the initial dollar match for this program;

2) This amount would be wire transferred to the State's Medicaid Program to draw down a federal match of 2.8 million;

3) The State will issue the Disproportionate Share Hospital payment totaling 5.0 million to the DMC via a lump sum payment;

4) The DMC has in turn agreed to purchase services from the DHWP;

5) This will allow for the return of the initial 2.1 million from the budget, and add an additional 2.8 million to off-set current expenses and upgrade services provided to uninsured and low-income families that are residents of the City of Detroit; and

6) This benefit will enable DHWP to provide a range of public health services not covered by the Medicaid Program.

Now, Therefore, Be It Resolved That:

1. It is hereby found to be necessary and desirable for the City to participate in a Disproportionate Share Agreement as outlined above and for that purpose the Director of the Department of Health and Wellness Promotion is authorized to expend \$2.1 million of funds budgeted for the use of DWHP for the purpose of providing the necessary local funds in order to secure the federal match; and

2. The Finance Director is authorized to accept and appropriate \$2.8 million of the federal match; and

3. The Director of the Department of Health and Wellness Promotion is authorized to execute an agreement with DMC, in form substantially similar to that attached to this Resolution as Exhibit A, pursuant to which DMC will purchase medical services for uninsured patients from DWHP and pay for these services with funds received from the State pursuant to the Disproportionate Share Program; and

4. The Mayor, the City Clerk, the Finance Director, and other authorized agents of the City as may necessary, are each hereby authorized to execute and deliver such documents, instruments and certificates as are necessary or desirable to consummate the described transactions.

The above-referenced eleven (11) petitions were presented by the Planning and Development Department (P&DD) for consideration at a public hearing before your Honorable Body on November 16, 2005. Thirteen (13) petitions were presented at this public hearing. Following public comments, two (2) petitions were put on hold, Petition No. 3027 and Petition No. 3225 respectively, the first for a sewer back-up problem in the alley area adjacent to 16261 Ohio Avenue and the second is for a follow-up report on an issue of property access for an abutting property owner. Recommendation for Petitions No. 3027 and No. 3225 will be forwarded to the City Council under a separate cover. The balance of eleven (11) petitions are those referenced above for which the City Council supports the recommendation of the Planning and Development Department. Attached herewith, is the resolution that will enable the City Council to take formal action causing the vacation of the eleven referenced petitions.

The above-referenced petitions have been processed in compliance with the Detroit Code, Article VI, Section 50-6-1. Our investigation of each of these petitions discloses the following:

1. The public utilities located in the alley can be properly served if this alley is vacated and converted into an easement.
2. These alleys are not used for municipal trash collection.
3. No objections to this alley vacation have been received from outside Utility Companies or City Departments involved.

Therefore, it is the recommendation of the Planning and Development Department that the attached resolution be approved.

Honorable City Council:

Re: Petition No. 4204 — Morgan Group LLC, requesting closure of alleys, streets, and service drives (with limited access) at 8140 Michigan between St. Lawrence and Elmer Avenue.

Petition No. 4204 of "Morgan Group LLC", at 18361 Weaver, Detroit, Michigan 48228, request the conversion of the North-South public alley, 20 feet wide, the East-West public alleys, 18 feet and 20 feet wide, and the Edsel Ford Service Drive (limited access), variable width, into private easements for utilities; also temporary close portions of St. Lawrence Avenue, 50 feet wide, and Elmer Avenue, 50 feet wide for a five year period all in the block bounded by Edsel Ford Freeway, Michigan Avenue, 100 feet wide, St. Lawrence Avenue, 50 feet wide, and Elmer Avenue, 50 feet wide. The request will provide better security and the expansion of a new surface parking lot for the Morgan Group and the adjacent property owners.

The request was approved by the Traffic Engineering Division—DPW and the Planning and Development Department. This petition was referred to the City Engineering Division—DPW for investigation and report. This is our report.

If the petitioner at any time plans to discontinue use of the paved alley entrances (into Elmer Avenue, St. Lawrence Avenue and Edsel Ford Service Drive (limited access)), the petitioner shall pay all incidental removal cost.

All other city departments and privately owned utility companies have reported no objections to the proposal, provided that have the right to ingress and egress at all times to their facilities.

An appropriate resolution, containing the necessary conditions, is attached for consideration by your Honorable Body.

Respectfully submitted,

Adopted as follows:
 Yeas — Council Members S. Cockrel, Collins, McPhail, Tinsley-Talabi, and President Pro Tem. K. Cockrel, Jr. — 5.

By Council Member Collins:
AN ORDINANCE to amend Chapter 47, Article II, of the 1984 Detroit City Code, 1973 Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System, by amending Section 47-2-2, Cessation of Membership; Re-employment by the Employer, to limit the restoration of non-vested forfeiture of credited service to persons not on the active payroll prior to October 1, 2005, to provide for the restoration of non-vested credited service where re-employment occurs within six (6)

years, and to restore non-vested forfeited credited service to persons on the active payroll on or after October 1, 2005, regardless of the date of employment.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 47, Article II, of the 1984 Detroit City Code be amended by amending Section 47-2-2, to read as follows:

Sec. 47-2-2. Cessation of membership; Re-employment by the employer.

(a) Any member who retires under Section 47-2-4(a), (b), or (c),¹ or dies, shall have a non-forfeitable right to a benefit.

(b) With respect to persons not on the active payroll prior to October 1, 2005, the

following provisions of this subsection shall apply:

(1) Except as otherwise provided for in this *Article II*, if any non-vested member leaves City employment for any reason other than retirement or death, such person shall thereupon cease to be a member and his or her credited service at that time shall be forfeited. In the event of re-employment by the City, such person shall again become a member of the Retirement System. If re-employment occurs within a period of six (6) years² from and after the date City employment last terminated, credited service last forfeited shall be restored to his or her credit for purposes of accruing a benefit after re-employment.

(2) With respect to persons on the active payroll on or after October 1, 2005, re-employment shall restore any previously forfeited service credit notwithstanding the time of re-employment.

*(c) Vested former employees rehired prior to receiving pension benefits.*³

(1) Former employees who are vested but have not yet begun to receive pension benefits who are rehired prior to being separated for six (6) years shall have their pension calculated in accordance with the rules in effect at the time of their last termination of active service or retirement.

(2) Former employees who are vested but have not begun to receive pension benefits and are rehired after July 1, 1992 after being separated for more than six (6) years who accumulate enough service credit to be eligible for a second pension shall be entitled to two (2) separate and distinct pensions, each to be calculated in accordance with the rules in effect at the time of each separation from service.

(3) An employee who becomes eligible to collect his or her previously vested pension while still working, shall not be eligible to receive his or her vested pension but will be entitled to have the pension improvement factor added to the vested amount of the original pension for payment when the employee eventually retires. The basic pension amount of Twelve Dollars (\$12.00) per year for up to ten (10) years will only be included on the employee's original pension.

(4) Members who have separated from City service with vested rights under *Article II* and return to work after a separation of more than six (6) years, prior to the receipt of a vested pension benefit, may elect to be a member of either the *Article II* or *Article III* Fund during their new period of service. Such election must be made within ninety (90) days of re-employment with the City. If the member elects the *Article III* Fund for the new period of service and becomes eligible to collect their previously vested pension while still working, they may begin to collect their vested pension on their eligibility date.

*(d) Retirement benefits for retirees who return to active full time employment.*⁴

(1) Retirees who return to work will have their *Defined Benefit Plan* pension benefit amount suspended upon re-employment. However, retirees who have not withdrawn their defined contribution amounts shall be entitled to continue to receive the monthly annuity from the 1973 *Defined Contribution Plan*. The pension improvement factor shall continue to be added to the vested amount of the original pension but not be paid on the defined benefit amount until the employee again separates from service.

(2) Retirees who return to work will be entitled to receive a second pension benefit in accordance with the rules in effect at the time of their final separation with respect to service credit earned after the retiree returns to active employment. Previous service credit will be used to determine what retirement factors will be credited to service time earned after return to active employment and used to calculate the new pension amount.⁵

(3) Average final compensation will be based upon the amounts earned after the retiree returns to work.⁶

(4) Employees who retire under this Section 47-2-2(d) for a second time will not be allowed to change the original option selection with respect to the original pension benefit. However, employees may make a separate option selection on their second pension benefit amount.

(5) The basic pension amount of Twelve Dollars (\$12.00) per year for up to ten (10) years will be included only on the employee's original pension.

(6) The coordination of benefits (equated Social Security) option will not be available on a second pension amount.

(7) If a retiree who returns to work and dies while working, had an accumulated combined total service time of at least twenty (20) years, the employee's spouse will be eligible for automatic *Option Two* benefits,⁷ notwithstanding the option form of retirement originally elected.

(8) If a retiree who returns to work and dies while working had an accumulated combined total service time of at least fifteen (15) years but less than twenty (20) years, the employee's spouse will be eligible for automatic *Option Three* benefits, notwithstanding the option form of retirement originally elected.

(9) If the employee returns to work and dies prior to accumulating a combined total of fifteen (15) years of service credit, the original pension and benefit option chosen shall resume unless the employee had chosen the *Straight Life Option* which would result in no survivor pension benefits.

(10) The Board of Trustees will determine all entitlements for re-employed individuals on a case by case basis consistent with this section and will resolve all issues based upon special circumstances or unique situations.

Section 2. Where any section, paragraph, provision, or word of this ordinance is invalidated by any court of competent jurisdiction, the remaining sections, paragraphs, provisions, or words shall not be affected and shall continue in full force and effect.

Section 3. All ordinances, or parts of ordinances, in conflict herewith be and the same are hereby repealed.

Section 4. In the event that this ordinance is approved by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter. Where this ordinance is passed by less than two-thirds (2/3) majority of the City Council Members serving it shall become effective no later than thirty (30) days after enactment in accordance with Section 4-115 of the 1997 Detroit City Charter.

RESOLUTION SETTING HEARING

By Council Member Collins:

Resolved, That a public hearing will be held by this body on the 13th Floor of the Coleman A. Young Municipal Center, on WEDNESDAY, DECEMBER 14, 2005 AT 10:00 A.M., for the purpose of considering the advisability of adopting the foregoing proposed ordinance to amend Chapter 47, Article II, of the 1984 Detroit City Code titled 1973 Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System, by amending Section 47-2-2, Cessation of Membership; re-employment by the Employer, to limit the restoration of non-vested forfeiture of credited service to persons not on the active payroll prior to October 1, 2005, to provide for the restoration of non-vested forfeited credited service to persons on the active payroll on or after October 1, 2005, regardless of the date of employment.

All interested persons are invited to be present to be heard as to their views.

¹These provisions outline the age and service requirements for normal service retirement, that is, after thirty (30) years, at sixty-five with eight (8) years, at sixty with ten (10) years or twenty-five (25) years of service.

²The "six-year rule" was upheld in *Weeks v. Board of Trustees*, 160 Mich App 81; 408 NW2d 109 (1987).

³Policy Resolution of the Board of Trustees, Meeting No 2952, October 6, 1993

⁴*Ibid.*

⁵*Ibid.* For example, if the rehired employee had more than twenty-five years of service for his/her initial retirement, his/her factor for all new service would be two point two percent (2.2%).

⁶*Ibid.* For example, if the retiree works three years, the divisor would be three, with the highest three consecutive years out of the last ten years used whenever possible.

***Commentary:**

Domestic partner: the inclusion of "domestic partner" relationships in the scope of coverage of this article is based on the reality that there are certain close personal, often intimate relationships involving non-married public servants which are tantamount or equivalent to the personal relationships which exist between legally married spouses. The potential for public servants to be influenced by or on behalf of partners involved with them in such "domestic partner" relationships or arrangements is just as real as the potential for public servants to be influenced by or on behalf of spouses in legal marriages or family members. This article does not adopt any position regarding the propriety of such non-marital relationships among domestic partners. However, for purposes of implementing standards for the conduct of public servants in the performance of their job duties for the city of Detroit, the article does attempt to include within its reach all public servants.

The definition of domestic partner included in this section is modeled on the definition of domestic partner contained in division 2.5 of the family code, article 9 of chapter 1, part 5 of division 5 of title 2 of the government code, and section 1261 of the health and safety code of the state of California, relating to domestic partners.

Private gain: section 2-106 of the 1997 Detroit city charter expressly prohibits the use of public office for private gain. Accordingly, a major provision in this article is the prohibition against a public servant's acceptance or receipt of private gain as compensation for 1) the taking of an official action in a specific manner by the public servant (for example, a particular decision or vote in a specific manner), or refraining from the taking of an official

action, as the result of an improper influence by another party; or 2) incentive or inducement for the public servant to act in favor of an interest other than the public interest. In the interest of maintaining honesty, integrity and impartiality in government, the goal of this provision is to ensure that public servants conduct government business in a manner that enhances public confidence and respect for city government, and places paramount importance on the public interest, rather than a public servant's own personal interest or the private interest of a third-party.

Improper influence upon a public servant's official actions refers to 1) any action that would constitute a violation of federal or state laws regulating the conduct of public officials, such as state law prohibiting the acceptance by any executive, legislative or judicial officer of a bribe (section 118 of the Michigan penal code, being MCL 750.118; msa 28.1287(8)); or 2) facts, events or circumstances which give rise to an appearance of impropriety in the taking of an official action by a public servant, when such facts, events or circumstances are considered objectively according to a reasonable person standard.

What constitutes private gain to a public servant may take many shapes and forms and may vary depending upon the facts and circumstances of a situation. Therefore, the above definition of private gain does not attempt to enumerate all forms or types of tangible economic gain, or circumstances or situations from which a public servant may derive tangible economic gain for himself or herself. Rather than attempt to list what is private gain that may not be accepted in all circumstances, the article attempts to illustrate for public servants the circumstances or types of remuneration, emoluments, gratuities or other items that a public servant may accept without violation of this article. The listing set forth in this section is based on the most typical situations which confront city public servants. However, this is not an exhaustive list, and there may be other types of economic benefit to a public servant that are permissible under this article.

Questions about what is permissible under this article should be directed to the Board of Ethics created by Section 2-106 of the 1997 Detroit City Charter, in accordance with the procedures set forth in Section 2-6-101 of this article regarding advisory opinions.

**Division 3. Standards of Conduct
Sec. 2-6-66. Representation of private entity person, business or organization prohibited; exceptions.***

(a) A public servant shall not act, ~~for compensation by any person other than the City,~~ as an agent, attorney, or representative for another person, business or organization in any matter that is pending before a City agency, except that:

(b)(1) A public servant may represent another person, business, or organization before a City agency where such representation is a required part of the public servant's official duties; or

(2) A public servant who is an uncompensated member of a City board, commission, or other voting body may act as an agent, attorney, or representative for another person, business or organization in a manner that is pending before a City agency, other than the board, commission, or other voting body on which he or she is a member; or

(3) A public servant who is compensated by the City may act as an agent, attorney or representative for another person, business, or organization in a matter that is pending before a City board, commission or other voting body, other than the board, commission or other voting body on which he or she serves as an appointee or as an employee, or under a personal services contract, as long as he or she does so:

(b) On his or her leave time; and

(e) For union employees, in accordance with his or her respective union contract and the City's Civil Service Rules; or

(f) For individuals who provide services to the City of Detroit pursuant to a personal services contract, in accordance with the applicable provisions of the contract.

***Commentary**

In general, there is an inherently high risk for the presence of a conflict of interest 1) where a public servant receives compensation from both the City and a person who, or an organization which, the public servant represents before a City agency, or 2) where an uncompensated member of a City board, commission, or other body wishes to represent a person or organization before the same board, commission or voting body on which he or she serves. At the same time, it is important to recognize that a public servant should be allowed to voluntarily commit his or her time to serving the public good, and that, as a volunteer, an uncompensated member of a City board, commission, or other body needs to earn a living.

There is a recognized interest in permitting a public servant who receives compensation from the City to voluntarily serve the community without compensation by appearing before a City agency on behalf of another. Such a policy serves, in part, to protect the public servant's rights to freedom of speech and freedom of association. For these reasons, this section is intended to eliminate the potential for creating such conflict. Accordingly, this section expressly permits a public servant to engage in uncompensated volunteer service to the community within the applicable legal and regulatory guidelines.

There is a parallel interest in permitting an uncompensated member of a City board, commission or other body to represent a person or organization before a different City agency. This section also permits an uncompensated member of a board, commission, or other voting body to represent non-City interests for compensation so long as it is not before the same board, commission or voting body on which he or she serves. This policy encourages the most highly qualified individuals to serve the City in uncompensated positions while allowing these individuals to earn their livelihood.

For purposes of clarification, any action taken under this section must conform to any other applicable provision of this article. In addition, any action taken under this section must conform to other applicable laws, rules, and regulations.

Sec. 2-6-69. Solicitation or acceptance of promissory note, written loan agreement, or monetary payment, from an individual or an entity that is providing service to, or receiving tax abatements, credits or exemptions from the City prohibited; exceptions.*

(a) A public servant who, in the course of his or her duties, exercises significant authority, as defined in Section 2-6-3 of this Code, over the solicitation, negotiation, approval, amendment, performance

or renewal of a City contract shall not solicit or accept a promissory note, written loan agreement, or monetary payment:

(1) From a contractor, as defined by Section 2-6-3 of this Code, that is providing services to the City, or from a subcontractor of a contractor that is providing services to the City; or

(2) From an individual who is an agent of a contractor, as defined by Section 2-6-3 of this Code, or of a subcontractor of a contractor, as defined by Section 2-6-3 of this Code, that is providing services to the City; or

(3) From an immediate family member, as defined in Section 2-6-3 of this Code, of a contractor, as defined by Section 2-6-3 of this Code, or of a subcontractor of a contractor, as defined by Section 2-6-3 of this Code, that is providing services to the City.

(b) A public servant who, in the course of his or her duties, exercises significant authority, as defined in Section 2-6-3 of this Code, over the solicitation, negotiation, approval, amendment, performance or renewal of a City contract shall not solicit or accept a promissory note, written loan agreement, or monetary payment:

(1) From a bidder that was not selected to perform services for the City under a contract, or from a subcontractor of a bidder that was not selected to perform services for the City under a contract; or

(2) From an individual who is an agent of a bidder that was not selected to perform services for the City under a contract, or from a subcontractor of a bidder that was not selected to perform services for the City under a contract; or

(3) From an immediate family member, as defined in Section 2-6-3 of this Code, of a bidder that was not selected to perform services for the City under a contract, or from a subcontractor of a bidder that was not selected to perform services for the City under a contract.

(c) A public servant who, in the course of his or her duties, exercises significant authority, as defined in Section 2-6-3 of this Code, over the purchase, lease, zoning, improvement, special designation tax assessment or abatement, or development agreement with respect to any real property, shall not solicit or accept a promissory note, written loan agreement, or monetary payment:

(1) From a developer, as defined in Section 2-6-3 of this Code, that is seeking, or sought, tax incentives from the City or that has been provided tax abatements, credits, or exemptions from the City; or

(2) From an individual who is an agent of a developer, as defined in Section 2-6-3 of this Code, that is seeking, or sought, tax incentives from the City or has been provided tax abatements, credits, or exemptions from the City; or

(3) From an immediate family member, as defined in Section 2-6-3 of this Code, of a developer, as defined in Section 2-6-3 of this Code, that is seeking, or sought, tax incentives from the City or has been provided tax abatements, credits, or exemptions from the City.

(d) A public servant who, in the course of his or her duties, exercises significant authority, as defined in Section 2-6-3 of this Code, over the purchase, sale, lease, zoning, improvement, special designation tax assessment or abatement, or development agreement with respect to any real property, shall not solicit or accept a promissory note, written loan agreement, or monetary payment:

(1) From a bidder or a solicitor of a proposal for the development of real property that was not selected by the City; or

(2) From an individual who is an agent of a bidder or solicitor of a proposal for the development of real property that was not selected by the City; or

(3) From an immediate family member, as defined in Section 2-6-3 of this Code, of a bidder or a solicitor for a development agreement that was not selected by the City.

(e) The prohibitions in Subsections (a), (b), (c), and (d) of this section shall not apply when a public servant enters into a promissory note, or written loan agreement, at a rate or a term, which is available to the general public:

(1) With a financial institution or its affiliates, or a consumer credit finance institution or its affiliates, that are providing services, through a contract, to the City; or

(2) With a financial institution that is a depositor, through a contract, of any City funds.

***Commentary:**

In general, there is perception by the public and a potential for conflict of interest where 1) a public servant solicits or accepts a loan or a promissory note with a City contractor that is not in business of providing consumer credit or loans to the general public, and is not a chartered financial or lending institution under the laws of the State of Michigan, and 2) a public servant solicits or accepts a loan or a promissory note with a developer which is not in business of providing consumer credit or loans to the general public that is received or is seeking an official action from the City such land sales, leases, tax abatements, tax credits, and/or exemptions from taxes. Therefore, this section expressly prohibits public servants from soliciting or accepting a loan or a promissory note from a contractor, an agent of a contractor, or an immediate family member of a contractor with the City of Detroit.

It is a conflict of interest for a public servant having significant contract authority

in the areas of solicitation, negotiation, approval, amendment, performance or renewal of a City contract to solicit or accept a loan or a promissory note with a City contractor. Likewise, it is a conflict of interest for a public servant having significant authority over purchase, sale, lease, zoning, improvement, special designation tax assessment or abatement or development agreement with respect to any real property to solicit or accept a loan or a promissory note with a City contractor or developer.

In addition, this section prohibits such conduct by the subcontractor of a contractor, by the agent of a subcontractor of a contractor, or by the immediate family member of a subcontractor of a contractor. Further, this section prohibits public servants from soliciting or accepting a loan or a promissory note from a developer seeking an official City action from the City in form of incentives and/or real property, or an agent of a developer seeking an official City action from the City in form of incentives and/or real property, or an immediate family member of a developer seeking an official City action from the City in form of incentives and/or real property.

Under Section 2-6-69(e), a public servant is not in violation of this section where he or she enters into a loan or a promissory note at a rate or term available to the general public with financial institution or its affiliates, or consumer credit finance institution or its affiliates, which have contracts with the City or having City funds on deposit through a contract with the City. For the purposes of public servant's understanding of this section, proper and customary forms of consumer loans are considered to be, but are not limited to, home mortgages, home equity loans, car loans, credit card cash advances, business loans, student loans, home rehabilitation loans, and government loans processed through a financial institution having a contract with the City where the public servant has qualified under the conditions of the government loan program.

Sec. 2-6-70. Mayor, City Council Members, and City Clerk prohibited from influencing decisions to fill any civil service position with immediate family members or relatives.

The Mayor, City Council Members, and the City Clerk shall not influence any decisions to fill any civil service position with 1) the Mayor, a City Council Member, or the City Clerk's immediate family member, as defined in Section 2-6-3 of this Code, or 2) the Mayor, a City Council Member, or the City Clerk's relative, as defined in Section 2-6-3 of this Code.

(4) Solicit votes, or raise monetary or in-kind contributions, for a candidate for the office of Mayor, City Council or City Clerk.

***Commentary**

Members of the Board of Ethics are appointed by the Mayor, the City Council, or the Mayor and the City Council jointly, and they may only be removed for cause by their respective appointing authority under Section 2-106(2)(b) of the 1997 City Charter. However, they should not be placed in a position where they appear to be beholden to the authority who appointed them. Therefore, this section ensures that members of the Board of Ethics are able to operate without any suggestion of obligation or pressure to take sides during election cycles for the offices of Mayor, City Council, and the City Clerk.

The members of the Board of Ethics hold unique positions in City government as they are the only positions in City government that have jurisdiction over all public servants in both the Executive and Legislative Branches, including the Mayor, City Council Members, and the City Clerk. This section will help to ensure the independence of the Board of Ethics that is mandated by Section 2-106(2) of the 1997 Detroit City Charter.

Subdivision B. Advisory Opinions.

Secs. 2-6-101. Opinion request; requirements for filing.*

(a) A public servant, a former public servant, or an applicant or candidate to be a public servant may request an advisory opinion from the Board of Ethics regarding the following:

~~(2) Where a public servant, a former public servant, or an applicant or candidate to be a public servant believes that he or she, or another public servant, former public servant, or applicant or candidate to be a public servant may have violated or may violate this article, whether an actual violation occurred or a potential violation may occur.~~

(b) A request for an advisory opinion shall be addressed to the Board of Ethics, shall be submitted in writing, shall set forth the facts and circumstances upon which the opinion is sought, and shall be signed by the ~~person~~ public servant who is making the request.

***Commentary**

Section 2-106 of the 1997 Detroit City Charter requires that the Board of Ethics issue advisory opinions regarding the meaning and application of the charter, City ordinances or other laws or regulations establishing standards of conduct for public servants. Aside from this charter mandate, Section 2-6-101(a) of the article arises out of the recognition that public servants can best conform their official conduct to the ethical standards set forth in this article if they understand these standards and how they apply in the everyday conduct of governmental business. Accordingly, it is the policy of this article to promote the submission by public servants of questions and issues they may have concerning the content and application of this article to the Board of Ethics for advisory opinions where necessary.

~~Sec. 2-6-103. Retaliation and harassment prohibited.²~~

~~(a) It shall be a violation of this article for any public servant, former public servant, or applicant or a candidate to be a public servant to retaliate in any manner against another public servant, former public servant, or applicant or candidate to be a public servant who requests an advisory opinion from the Board of Ethics.~~

~~(b) It shall be a violation of this article for a public servant, former public servant, or an applicant or a candidate to be a public servant to use this article to harass a public servant, former public servant, or an applicant or a candidate to be a public servant by asserting a false allegation in an advisory opinion request that another public servant has violated this article with knowledge of its falsity or with reckless disregard for its truth or falsity.~~ REPEALED.

²Commentary:

~~Section 2-106 of the 1997 Detroit City Charter requires that the Board of Ethics issue advisory opinions regarding the meaning and application of the Charter, city ordinances or other laws or regulations establishing standards of conduct for public servants. Aside from this Charter mandate, Section 2-6-103(A) of the article arises out of the recognition that public servants can best conform their official conduct to the ethical standards set forth in this article if they understand these standards and how they apply in the everyday conduct of governmental business. Accordingly, it is the policy of this article to promote the submission by public servants of questions and issues they may have concerning the content and application of this article to the Board of Ethics for advisory opinions where necessary. In furtherance of this policy, and the fundamental goal of integrity in government, public servants must be immune from fear of retaliation for seeking legitimate advisory information from the Board of Ethics about the application of the article. Accordingly, the article prohibits retaliation against a public servant who requests an advisory opinion from the Board of Ethics.~~

~~Section 2-6-103(b) arises out of the parallel recognition that, despite the salutary objectives of this article, some individuals may nevertheless attempt to misuse and abuse its advisory opinion provisions for improper or bad faith motivations that have as their goal the infliction of harm or damage upon other public servants and their reputations. Accordingly, the article prohibits use of this article for the purpose of harassment of another public servant. For purposes of this article, harassment is defined as the ascertainment by a public servant in a request for an advisory opinion of a false or frivolous allegation of violation of this article by~~

another public servant, where the public servant who seeks the advisory opinion knows of the falsity of the assertion or makes the false assertion with a reckless disregard for its truth or falsity, that is, has no reasonable basis for believing in the truthfulness of the assertion.

An aggrieved public servant, former public servant, or applicant or candidate to be a public servant may file a complaint with the Board of Ethics against another public servant who has made a false allegation or assertion against him or her in an advisory opinion request for the purpose of harassment, which itself would be a violation of this section of the article. REPEALED.

Sec. 2-6-103. Board precluded from taking action where request made in good faith, concerns past or current conduct, and public servant has conformed his or her conduct to advisory opinion.

Where a public servant's request for an advisory opinion regarding his or her prospective conduct 1) is made in good faith and 2) includes past or current conduct, and 3) the public servant conforms his or her conduct to the advisory opinion that was issued by the Board of Ethics to the public servant, the Board is precluded from taking any action regarding any complaint that is filed under Subdivision C of this division, or is precluded from conducting any investigation that may take place under Subdivision D of this division.

Sec. 2-6-104. Disposition of opinion requests.

(a) The Board of Ethics shall dispose of an opinion request within ninety-one (91) days after its receipt of such request. However, under extraordinary circumstances, as defined in section 2-6-3 of this Code, the board may extend its time to respond to a specific request by not more than thirty-five (35) additional days. In the event the Board extends its time to respond to a request, the board shall notify, in writing, the requester of the extension and of the specific reasons therefor.

(b) The Board of Ethics shall dispose of a request for an advisory opinion in one (1) of the following ways:

(1) Deny the request where the request does not relate to this article; or

(2) Decline to issue an advisory opinion where the Board determines that the request does not merit review by the Board; or

(3) Decline to issue an advisory opinion where the Board determines that the request concerns past or current conduct, which is more appropriately addressed by the filing of a complaint or by the conducting of an investigation; or

(4) Issue an advisory opinion in response to the request.

***Commentary:**

Section 2-6-104(b) recognizes the dis-

cretion the Board of Ethics has in addressing advisory opinion requests in the manner that it deems appropriate. In particular, the Board has discretion to decline to issue an advisory opinion where the request does not actually relate to the subject matter of the article; or where the Board determines that the request does not otherwise merit review by the board, such as where the Board determines that the request is frivolous in nature, or where the Board determines that the request was not made in good faith, or where the request does not present sufficient facts or information to enable the Board to formulate appropriate advice.

Subdivision C. Complaints.

Sec. 2-6-111. Complaint; contents thereof; limitation of action.

(a) Except for members of the Board of Ethics, any person may file a complaint with the Board of Ethics where the person believes that a public servant may have violated this article.

(b) A complaint shall be made in writing on a form that is prepared created by the Law Department and prescribed by the Board of Ethics, shall specify the provision(s) of this article alleged to have been violated and the facts alleged to constitute the violation, and shall be signed by the person who is making the complaint and sworn to in the presence of a notary public.

(c) Such a complaint shall be filed within ~~six (6) months~~ one hundred eighty-two (182) days from the date that the complainant(s) knew or should have known of the action that is alleged to be a violation of this article, and in no event shall the Board of Ethics consider a complaint which has been filed more than two (2) years after a violation of this article is alleged to have occurred.

Sec. 2-6-113. Communications with the Board regarding a complaint in the absence of the complainant, respondent, or his or her respective counsel prohibited; exception; reporting substance of prohibited communication.

(a) After a complaint has been filed and during its pendency before the Board of Ethics, no member of the Board may communicate regarding the complaint directly or indirectly with any complainant, respondent, or his or her respective counsel, in the absence of the opposing party, except that:

(1) the members of the Board may discuss the complaint with their staff, and may obtain legal advice from the Law Department or from outside counsel ~~appointed by the Law Department;~~

(2) The members of the Board may discuss the complaint at a lawfully conducted meeting; and

(3) The Board's staff members may

engage in communications necessary to investigate a complaint.

(b) Where any complainant or respondent, or his or her respective counsel, attempts to communicate with a member of the Board of Ethics regarding a pending complaint in the absence of the opposing party, the Board member shall report the substance of the communication to the Board on the public record at the next regular meeting of the Board.

Sec. 2-6-114. Running of limitations of action; processing adjudicating complaints.

(a) No action may be taken by the Board of Ethics on any complaint which is filed later than ~~six (6) months~~ one hundred eighty-two (182) days from the date that the complainant(s) knew or should have known of the action that is alleged to be a violation of this article, and in no event shall the Board consider a complaint which has been filed more than two (2) years after a violation of this article is alleged to have occurred.

(b) In accordance with administrative rules that are promulgated pursuant to Section 2-6-91 of this Code:

(1) The staff of the Board shall acknowledge its receipt to the complainant(s), and forward the complaint simultaneously to each member of the Board, the public servant who is complained against, and the City attorney from the Law Department who represents the Board;

~~(c) In accordance with administrative rules that are promulgated pursuant to Section 2-6-91 of this Code,~~

(2) The City attorney from the Law Department, or outside counsel, who represents the Board shall provide the Board with a preliminary written legal analysis of the complaint;

~~(d) In accordance with administrative rules that are promulgated pursuant to Section 2-6-91 of this Code,~~

(3) The public servant who is complained against shall have the opportunity to submit a written response to the complaint prior to the Board deciding whether to hold a hearing;

~~(e) In accordance with administrative rules that are promulgated pursuant to Section 2-6-91 of this Code, following~~

(4) After receipt of the City attorney's analysis, the Board shall review and consider the complaint and the City attorney's analysis, and, if a hearing is to be held, shall set a date certain for the hearing to take place.

Subdivision D. Investigations and Notices of Charges.

Sec. 2-6-121. Authority; contents thereof; procedure; notice to public servant.

(a) The Board of Ethics is authorized to conduct investigations, on its own initiative, regarding a Board Member's per-

ceived violation of the disclosure requirements that are found in Division II of this article, or the standards of conduct that are found in Division III of this article.

(b) An investigation may be initiated by a member of the Board who raises the matter at a Board meeting, but, in order for the investigation to proceed, the Board must approve the investigation at the same or subsequent Board meeting, by a three-fourths (3/4th) vote of Board members serving.

(c) Where the Board initiates an investigation, the public servant who is the subject of the investigation shall be sent, via first class and certified mail, a written notice 1) that an investigation has been authorized and is taking place, and 2) which contains a summary of the basis for the possible violation(s).

Sec. 2-6-122. Running of limitations of action.

(a) No action may be taken by the Board of Ethics on any investigation, which is initiated by a member of the Board, where one hundred eighty-two (182) days have passed from the date that the member of the Board of Ethics raises an alleged violation of this article at a Board meeting.

(b) In no event shall the Board of Ethics conduct an investigation more than two (2) years after a violation of this article is alleged to have occurred.

Sec. 2-6-123. Harassment prohibited; removal from Board.*

(a) It shall be a violation of this article for a member of the Board of Ethics to harass, through the initiation of an investigation, against any public servant by conducting an investigation with knowledge of its falsity or with reckless disregard for its truth or falsity.

(b) In the event that a member of the Board of Ethics violates Subsection (a) of this section, the member is subject to removal, in accordance with Section 2-107(3) of the 1997 Detroit City Charter, by the authority who appointed the member, whether the Mayor, the City Council, or the Mayor and City Council jointly.

***Commentary:**

Section 2-6-123(a) arises out of the recognition that the entire public, as well as all public servants, must be vigilant in promoting and safeguarding ethical practices in the conduct of government business. As a mechanism for the enforcement of the article's provisions, Section 2-6-121 allows a member of the Board of Ethics to initiate an investigation where the member raises the issue that a public servant has violated this article. Not only will the availability of the investigation process serve as a vehicle for enforcement of the article's code of conduct, but it is also intended to serve as a substantial deterrent to conduct or practices which violate the article. In furtherance of

this policy, and the fundamental goal of integrity in government, public servants must be immune from fear of harassment under this article. Accordingly, Section 2-6-123(a) arises out of the recognition that, despite the salutary objectives of the article, the Board of Ethics may nevertheless attempt to misuse and abuse its enforcement provisions for improper or bad faith motivations that have as their goal the infliction of harm or damage upon other public servants and their reputations. Accordingly, Section 2-6-123(a) prohibits use of the article's investigation process for the purpose of harassment of public servants. For purposes of this article, harassment is defined as the assertion by a member of the Board of Ethics of a false or frivolous allegation of violation of this article where the member of the Board making the allegation knows of the falsity of the assertion or makes the false assertion with a reckless disregard for its truth or falsity, that is, has no reasonable basis for believing in the truthfulness of the allegation.

Section 2-6-123(b) applies 1) where a member of the Board of Ethics uses his or her position to harass a public servant by raising an allegation of an ethics violation, under this article, at a meeting of the Board of Ethics, with knowledge of its falsity or with reckless disregard for its truth or falsity, or 2) where members of the Board of Ethics use their positions to harass a public servant by voting to proceed with an ethics investigation, under this article, at a meeting of the Board of Ethics, with knowledge of its falsity or with reckless disregard for its truth or falsity, by a three-fourths (3/4th) vote of Board members serving.

Sec. 2-6-124. Communications with the Board regarding an investigation prohibited; exceptions; reporting substance of prohibited communication.

(a) After an investigation has been initiated and during its pendency before the Board of Ethics, no member of the Board may communicate regarding the investigation directly or indirectly with the public servant who is the subject of the investigation, or his or her respective counsel, except that:

(1) The members of the Board may discuss the investigation with their staff, and may obtain legal advice from the Law Department or from outside counsel;

(2) The members of the Board may discuss the investigation at a lawfully conducted meeting; and

(3) The Board's staff members may engage in communications necessary to conduct the investigation.

(b) Where any public servant, or his or her respective counsel, attempts to communicate with a member of the Board of Ethics regarding a pending investigation,

the Board member shall report the substance of the communication to the Board, on the public record, at the next regular meeting of the Board.

Section 2-6-125. Conducting investigations; preliminary written legal analysis; notice of charges; scheduling hearing.

(a) The Board of Ethics shall dispose of an investigation and, if any, notice of charges, within ninety-one (91) calendar days after its initiation. However, under extraordinary circumstances, as defined in Section 2-6-3 of this Code, the Board may extend its time to conduct an investigation and issue notice of charges by not more than ninety-one (91) additional days. In the event that the Board extends its time to conduct an investigation, the Board shall notify, in writing, the public servant who is the subject of the investigation initiated by the Board of the extension and the specific reasons therefor.

(b) In accordance with administrative rules that are promulgated pursuant to Section 2-6-91 of this Code:

(1) Within fourteen (14) calendar days of the initiation of an investigation by the Board, the City attorney from the Law Department, or outside counsel, who represents the Board shall provide the Board with a preliminary written legal analysis for the Board's review;

(2) Where the Board determines that the issuance of a notice of charges is unwarranted, the investigation shall be closed and the public servant who is the subject of an investigation that is initiated by the Board shall be notified, in writing, via first class and certified mail, that the investigation has been closed;

(3) Where the Board determines that issuance of a notice of charges is warranted, the public servant who is the subject of an investigation initiated by the Board shall be sent, via certified and first class mail, a notice of charges and be given the opportunity to submit a written response to the notice charges prior to the Board deciding whether to hold a hearing;

(4) The public servant who is the subject of an investigation initiated by the Board of Ethics shall have the opportunity to submit to the Board a written response within fourteen (14) calendar days of receipt of notice of charges. Where the public servant does not submit a written response within (14) days, the public servant shall not be precluded either from submitting a written response later during the investigation, or from participating in any hearing which may be conducted regarding the notice of charges; and

(5) After receipt of the City attorney, or outside counsel's, legal analysis, and the response, if any, from the public servant who is the subject of an investigation initiated by the Board, the Board shall review

and consider the legal analysis and the response, if any, from the public servant who is the subject of the investigation, and dispose of the investigation in accordance with Section 2-6-126 of this Code.

Sec. 26-6-126. Dispose of notices of charges.*

After giving due consideration to an investigation in accordance with the time lines delineated in Section 2-6-125 of this Code, the Board of Ethics shall take any action or combination of actions, upon majority vote, which the body deems appropriate in order to dispose of the notice of charges including, but not limited to, one or more of the following:

(1) Close the investigation based on any of the following grounds:

(a) The Board has no jurisdiction over the matter; or

(b) The investigation did not compile facts sufficient to constitute a violation of this article; or

(2) Determine that no violation of this article has occurred; or

(3) Determine that a violation of state or federal law may have occurred, and refer the matter to the appropriate governmental authorities for review; or

(4) Determine that the investigation has compiled facts sufficient to constitute a possible violation of this article and schedule a hearing, with proper notice, to determine whether a violation of this article has occurred; or

(5) Determine, on its own motion or upon request of the public servant who has had the investigation made against him or her, whether the investigation was initiated by a member of the Board with knowledge of its falsity or with reckless disregard for its truth or falsity, and, if so, schedule a hearing in accordance with Section 2-6-129 of this Code to determine the reimbursement of reasonable attorney fees.

***Commentary:**

Where the Board of Ethics has determined, after disposition of an investigation pursuant to Section 2-6-126, that the article has not been violated by the conduct investigated, the public servant against whom the investigation was made may be entitled to reasonable attorney fees incurred in the defense against the investigation, as provided for in Section 2-6-129, where the Board has also found that the public servant against whom the investigation was made acted in the good faith performance of his or her duties. In addition, where the Board determines that the Board member who initiated the investigation did so to harass the public servant, the Board may refer the matter to the City Council for removal of the Board member in accordance with Section 2-107(3) of the 1997 Detroit City Charter.

To constitute harassment in violation of Section 2-6-123 of this article, the Board

member must have initiated the investigation with knowledge of its falsity or with reckless disregard of its truth of falsity. Beyond the determination of whether the conduct investigated constitutes a violation of the article, the Board may make, upon its own determination or in response to a request by the public servant against whom the investigation was made, the separate determination as to whether the investigation was initiated with knowledge of its falsity or with reckless disregard for its truth or falsity.

Sec. 2-6-127. Hearing procedure; decision.

All hearings shall be conducted in accordance with the procedures delineated in the administrative rules that are promulgated in accordance with Section 2-6-91 of this Code, including written findings of fact and conclusions of law as to whether a violation of this article has occurred. In its decision, the Board may recommend the appropriate determinations that are delineated in Section 2-6-128 of this Code.

Sec. 2-6-128. Violations of article; Board permitted to make public admonition and to refer findings; cumulative effect.*

(a) In the event the Board of Ethics determines that a violation of this article has occurred, the Board may adopt a resolution of public admonition against the Mayor, a City Council Member, the City Clerk, or an appointee regarding the violation. In addition, where, based upon an investigation, the Board of Ethics determines that there may be grounds for further investigation for possible forfeiture of office or removal under Section 2-107(2) or Section 2-107(3) of the 1997 Detroit City Charter and applicable law, the matter may be referred by the Board to the City Council for consideration of forfeiture or removal proceedings in accordance with Section 2-107(2) or Section 2-107(3) of the 1997 Detroit City Charter.

(b) In the event the Board of Ethics determines that a violation of this article has occurred, the Board may adopt a resolution of public admonition against a public servant other than the Mayor, a City Council Member, the City Clerk or an appointee regarding the violation. In addition, where the Board of Ethics determines that a violation of this article by such public servant may present grounds for disciplinary action, the matter may be referred by the Board to such public servant's supervisor with a recommendation that the public servant's conduct be reviewed for disciplinary action. Any such disciplinary action must be carried out in accordance with the provisions of the 1997 Detroit City Charter and other laws, policies and procedures that are applicable to the position of the public servant and with the gravity of the offense.

(c) Where the Board of Ethics finds that a decision of the Mayor, the City Council, the City Clerk, an appointee, or other public servant was made in violation of this article, the Board may recommend to the Mayor, the City Council, the City Clerk, an appointee, or other public servant that such decision be reviewed in accordance with the applicable provisions of the 1997 Detroit City Charter and this Code. Upon such recommendation, the decision may be reviewed by the Mayor, the City Council, the City Clerk, an appointee, or other public servant in accordance with the applicable provisions of the 1997 Detroit City Charter, this Code, and any other applicable laws.

(d) Where the Board of Ethics determines that an existing City contract has been entered into in violation of the provisions of this article, after such determination and recommendation from the Board, the City may void or seek termination of the contract where legal permissible, or may file a civil action, where approved by the Mayor, to recover lost monies.

(e) The invocation of one subsection of this section does not preclude the application of any other subsection of this section or of any other applicable laws or policies.

Section 2-106 of the 1997 Detroit City Charter directs that the code of governmental conduct enacted by the City Council in ordinance form shall contain appropriate penalties for violations of its provisions. Section 2-6-128 sets forth these potential penalties.

Section 2-6-128(a) establishes public admonition as a punishment for violation of the article by an elected official or appointee. In addition, information discovered by the Board in the course of investigation of a complaint against an elected official or appointee may reveal circumstances which may constitute the basis for forfeiture of or removal from office under Section 2-107(2) of the 1997 Detroit City Charter. Inasmuch as this charter section confers upon the City Council rather than the Board of Ethics the authority to decide whether the circumstances for forfeiture or removal from office exist, Section 2-6-128 provides that the Board may refer a matter to the City Council for investigation and consideration where a Board investigation reveals a possible basis for forfeiture under the charter or applicable law.

Likewise, Section 2-6-128(b) makes public admonition available to the Board of Ethics as a penalty for violation of the article by a public servant other than an elected official or appointee, such as a City employee. It is also recognized that a violation of the article by such a public servant may constitute grounds for disciplinary action against the public servant. Although the Board of Ethics is not

empowered by the charter to impose discipline upon a public servant, the Board may refer a proven violation by the public servant to the appropriate City official and/or supervisor who has the authority to consider and impose discipline. Any disciplinary action based on a violation of this article must be consistent with the provisions of the charter and any other laws, policies or procedures that may apply to the public servant, such as the City's civil service rules or collective bargaining agreements.

Section 2-6-128(c) recognizes that a decision which was made in violation of this article may warrant review by the appropriate public officials. Whether or not such decision may be subject to reconsideration or reversal will depend upon the facts and circumstances of the situation and the application of relevant law.

Sec. 2-6-129. Reimbursement of reasonable attorney fees to a public servant.*

(a) In accordance with Michigan common law and within the strictures of Subsections (b), (c) and (d) of this section, the Board of Ethics shall reimburse a public servant from the City's general funds for reasonable attorney fees which are incurred in the defense of an investigation conducted against him or her under Section 2-6-121 of this Code where the Board determines that, based upon all factual findings from the hearing, the public servant 1) acted in good faith performance of his or her duties, and 2) did not violate this article.

(b) The maximum reimbursement for such attorney fees shall not be greater than one hundred fifty percent (150%) of the hourly rate that is established, pursuant to 18 U.S.C. §3006a(d), for the payment of appointed counsel for matters arising in the United States District Court for the Eastern District of Michigan.

(c) When determining the hourly rate of attorney fees to be reimbursed to a public servant under Subsection (a) of this section, the Board shall consider the following factors: 1) the professional standing and experience of the attorney; 2) the skill, time, and labor involved in defending the ethics notice of charges; and 3) the complexity of the notice of charges.

(d) Where the Board of Ethics determines that a public servant is entitled to reimbursement of attorney fees under Subsection (a) of this section, the administrative rules that are promulgated pursuant to Section 2-6-91 of this Code shall control the procedure for submission and review of relevant documentation.

***Commentary:**

In spite of the salutary objectives of the article, a Board member may attempt to misuse it by making unjustified, false or frivolous charges of violation of the article

by public servants. A public servant may expend substantial time and monetary resources in defending against a notice of charges, including attorney fees. This expenditure of resources may be compounded where a public servant is the unwitting target of, and must defend against, more than one baseless investigation. In recognition of this potential, this provision requires that the Board of Ethics grant an application for reimbursement of reasonable attorney fees incurred for the defense of a notice of charges where the Board determines that the public servant acted in good faith in the performance of his or her duties and did not violate the article.

The authorization for the use of the City's general funds for this purpose is rooted in Michigan common law which recognizes the discretionary power of a municipality to appropriate funds for the necessary expenses incurred by a public servant in defending against notices of charges arising out of the good faith performance of official duties. *Messmore v Kracht*, 172 Mich 120; 137 NW 549 (1912). See also, *City of Warren v Dannis*, 136 Mich App 651; 357 NW 2d 731 (1984); 1976 OAG, No 4947, pp 349-350 (March 24, 1976) (concluding in favor of city reimbursing a public official for attorney fees incurred in defending against misconduct charges where official acted in good faith in discharging official duties); *accord*, *Ellison v Reid*, 397 So 2d 352 (Fla App Div 1 1981) (affirming use of public funds to pay legal expenses of municipal official defending against claim of ethical misconduct).

The formula for attorney fee awards is adapted from the national rate which is used by the federal district courts to pay appointed counsel in such courts. The discretion of the Board in determining the amount of attorney fees to be reimbursed must be exercised reasonably, according to the criteria set forth in Subsection (c) of this section.

Sec. 2-6-130. Reserved.

Section 2. All ordinances, or parts of ordinances, which conflict with this ordinance are repealed.

Section 3. If any clause, paragraph, phrase, section, sentence, or word of this ordinance is declared invalid or unconstitutional by a court of competent jurisdiction, such invalidity or unconstitutionality shall not affect any of the remaining clauses, paragraphs, phrases, sections, sentences, or words of this ordinance.

Section 4. This ordinance is declared necessary to preserve the public peace, health, safety, and welfare of the People of the City of Detroit.

Section 5. In the event that this ordinance is passed by a two-thirds (2/3) majority of city council members serving,

it shall be given immediate effect and become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter. Where this ordinance is passed by less than a two-thirds (2/3) majority city council members serving, it shall become effective no later than thirty (30) days after enactment in accordance with Section 4-115 of the 1997 Detroit City Charter.

RESOLUTION

By COUNCIL MEMBER WATSON:

WHEREAS, \$146 billion in trade moves through Southeast Michigan across the Ambassador Bridge annually, making it the busiest commercial border crossing in North America; and

WHEREAS, The need for improvement and expansion of border crossing capacity and infrastructure has been evidenced by traffic congestion on both sides of the border and through various public and private studies; and

WHEREAS, The need for border crossing enhancement has been recognized by Transport Canada, the Ontario Ministry of Transportation, the US Department of Transportation, Federal Highway Administration and the Michigan Department of Transportation resulting in the formation of the Bi-National Study, which verified the need, and now the Detroit River International Crossing Study, which is exploring possible locations and alternatives for expansion and improvement; and

WHEREAS, The Detroit River International Crossing Study identified 15 potential crossing locations and plazas along the U.S. Border and 37 corresponding alternatives for connecting these sites with corresponding Canadian sites and freeways; and

WHEREAS, The scoping process began at a meeting on August 31, 2005 at which time the various participants were requested to submit written scoping comments to the Michigan Department of Transportation by September 30, 2005; and

WHEREAS, On October 4, 2005, Governor Jennifer M. Granholm issued a press release announcing that the eastern most site at Belle Isle and all of the Downriver sites south of U.S. Steel in Ecorse had been eliminated from consideration; an announcement that would appear to predestine the next border crossing for the more industrialized, less affluent, lower income, minority communities of River Rouge and southwest Detroit raising concerns of environmental justice and race and class inequities; and

WHEREAS, On November 14, 2005, the governments of Canada, the United States, Ontario and Michigan announced that the two-lane truckway proposed by the Detroit River Tunnel Partnership, the remaining U.S. Steel site in River Rouge, and the twinning of the existing Ambassador Bridge have been eliminated from further consideration, an announcement that leaves for consideration the area of Southwest Detroit extending upriver from Zug Island and just south of the Ambassador Bridge and over to I-75; and

WHEREAS, Southwest Detroit is already home to the Ambassador Bridge, the Detroit Windsor Rail Tunnel and the

proposed location of the Michigan Department of Transportation's Detroit Intermodal Freight Terminal, as well as two privately pursued border crossing projects — the Detroit River Tunnel Project and the twin span proposed by the Detroit International Bridge Company; and

WHEREAS, The various communities of Southwest Detroit are already inundated with truck traffic, and have on numerous occasions expressed their concerns for the environment, air quality, health and quality of life of their residents; and

WHEREAS, On the evenings of Tuesday, September 20, 2005 and Wednesday, November 9, 2005, the Detroit City Council hosted public meetings wherein the residents of Southwest Detroit expressed their concerns and opposition to various aspects of alternatives being explored; and

WHEREAS, That the City Council has requested both the administration of the City of Detroit and the Michigan Department of Transportation to conduct a study of cumulative impacts on transportation infrastructure, truck traffic, land use, environment, air quality, community health, and social cohesion in relation to all existing and proposed transportation projects in southwest Detroit; and

WHEREAS, This City Council is compelled by the sum total of these and other related concerns to take a stand and make a statement for the best interest of this City and its citizens;

NOW, THEREFORE BE IT RESOLVED, That the Detroit City Council opposes the continued decimation and destruction of the communities of southwest Detroit through the speculative effects of various public and private studies and initiatives as well as the poor enforcement and regulation of truck traffic through these communities, and the seemingly unchecked encroachment and deleterious activities upon these neighborhoods; and

BE IT FURTHER RESOLVED, That the Detroit City Council will not support the establishment of any new border crossing or expansion of any existing border crossing from the Fort/Schaefer Hwy area to downtown, especially without a state or federally funded cumulative study that analyzes the cumulative impacts of enhanced border crossing activity on transportation infrastructure, truck traffic, land use, the environment, air quality, community health, and social cohesion, and in relation to other existing and proposed transportation related projects in southwest Detroit; and

BE IT FURTHER RESOLVED, That the Detroit City Council recognized that a new border crossing or expansion could be pursued without the support of the Detroit City Council, and if it is, the Detroit City Council demands the Border Crossing Partnership of the governments of

Canada, the United States, Ontario and Michigan to be responsive and accountable to the preferences and requirements of the communities of Southwest Detroit in terms of the environmental impact process, ownership, and community benefits;

BE IT FURTHER RESOLVED, That if a new border crossing or expansion is proposed in Southwest Detroit without the Detroit City Council's support, then the Detroit City Council urges the Border Crossing Partnership of the governments of Canada, the United States, Ontario and Michigan to pursue public ownership of any proposed future border crossings in Southwest Detroit;

BE IT FINALLY RESOLVED, That if a new border crossing or expansion is proposed in Southwest Detroit without the Detroit City Council's support, the Detroit City Council requires the Michigan Department of Transportation to show how any proposed future border crossing in Southwest Detroit would provide direct and tangible benefits to the community and to the City of Detroit by incorporating such things as community infrastructure improvements, direct local and community economic benefits, and the establishment of a public oversight and monitoring process that includes permanent and formalized community participation.

Honorable City Council:

Re: Recess Procedures for Authorizing Contracts.

The City Council has requested the Research and Analysis Division to prepare a resolution to authorize the continued purchase of goods and services during the recess period, from November 21, 2005 through January 3, 2006.

The Detroit City Code Sec. 18-5-5 requires the approval of the City Council for the purchase of goods and services over the value of \$25,000, and for all contracts for personal services, and renewals and extensions of contracts. The City Council has adopted, in the past, a resolution to provide a procedure that enables the Purchasing Division to continue to obtain necessary goods and services for City departments during the scheduled recess of City Council from November 21, 2005 through January 3, 2006.

Following, are the procedures for the purchase of goods and service, that require approval of the City Council, during the period from November 21, 2005 through January 3, 2006.

1. Weekly lists of awards, which are distributed by the Office of the City Clerk to members of the City Council each Thursday, will be held until Thursday of the following week. In the event any Council Member objects to the contract or purchase order, the contract or purchase order will be held either until formal action by the City Council or withdrawal of the objection by the objecting Council Member.

2. Contracts or purchase orders shall not be submitted by the Purchasing Director until all clearances have been obtained, if a protest has been filed, if the contract or purchase order provides any services that are currently or recently provided by City employees and may be considered a privatization of city services.

Please contact this office if there are questions or concerns regarding the procedures outlined in this report.

Economic Development Corporation of the City of Detroit

November 17, 2005

Honorable City Council:

Re: Community Input and Modifications to Proposed Springwells Project Plan.

On November 9th your Honorable Body held a special session at the Rademacher Recreation Center in southwest Detroit. This meeting included a presentation from the Economic Development Corporation of the City of Detroit (the "EDC") regarding the EDC's proposed Springwells Industrial Park Project.

During and after the meeting, several members of the community requested copies of the Project Plan document for the Springwells Project. EDC staff has since provided copies of the Project Plan to these individuals, a list of whom is provided on the attached sheet.

In order to address concerns raised during the meeting by citizens concerned with the character of development and its impact on the neighboring residential areas, we understand that City Planning Commission staff has proposed inserting the following text into the Project Plan document under Section K (page 16);

"The EDC's future development agreements for the remainder of the properties at the Springwells Industrial Park will require the prospective businesses to interact in good faith with representatives of the community and attempt to address their concerns, particularly as they relate to traffic and air quality.

When negotiating a development agreement with a private entity for an unsold lot, the EDC will require said entity to hold at least one public meeting in order to inform the community of the development contemplated for the lot. This public meeting shall afford the community the opportunity to provide input to the private

entity and EDC regarding the anticipated impact of the development on the nearby residential areas, specifically as it relates to matters such as air quality and truck traffic, and will provide a record of comments for information of City agencies."

If this modification satisfactorily addresses the concerns of both your Honorable Body and the community, we would urge your Honorable Body to approve the proposed Springwells Industrial Park Project Plan. Thank you for your continued diligence in this matter.

Honorable City Council:

Re: Northwest Unity Homes — Payment in Lieu of Taxes (PILOT) — Amended.

Northwest Unity Homes Limited Dividend Housing Association Limited Partnership is developing a housing project consisting of 45 newly constructed three and four bedroom scattered site single-family units. The project area is bounded by Livernois to the east; Wyoming to the west; Lyndon to the south and Fenkell to the north.

Financing for the development will be through Charter One Bank with a loan of \$1,335,000 for 15 years at 7-1/4% interest and Low Income Tax Housing Tax Credits

of seven million three hundred and eighty thousand dollars (\$7,380,000) for a total development cost of \$8,715,000.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA125.1415A).

Twenty percent (20%) or nine (9) of the units will be occupied by households with incomes no greater than 30% of the area median income adjusted for family size. Twenty percent (20%) or nine (9) of the units will be occupied by households with incomes no greater than thirty-five (35%) of the area median income adjusted for family size. Forty percent (40%) or eighteen (18) of the units will be occupied by households with incomes no greater than forty percent of the area median income adjusted for family size. The remaining twenty percent (20%) or nine (9) of the units will be occupied by households with incomes no greater than sixty (60%) of the area median income adjusted for family size.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a 4% service charge for this housing project.

Respectfully submitted,
FREDERICK W. MORGAN

Assessor

Honorable City Council:
Re: Joyce Rogers vs. City of Detroit.
Case No. 04-407874 CL.

This matter was mediated before a Wayne County Mediation Panel for Seventy-Five Thousand Dollars (\$75,000.00) as to the claims of the plaintiff against Defendant City of Detroit. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial; however, the party rejecting evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned civil lawsuit, the facts and particulars of which are set forth in the memorandum submitted under separate cover. From this review, it is our considered opinion that acceptance of the mediation evaluation in the amount of Seventy-Five Thousand (\$75,000.00) Dollars is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial. However, an eventual settlement of this matter in this amount is prudent.

We, therefore, request your Honorable Body to authorize the acceptance of the mediation evaluation and direct the Finance Director to issue a draft in the amount of Seventy-Five Thousand (\$75,000.00) Dollars payable to Joyce Rogers and Carl S. McGehee, her attorney, to be delivered upon receipt of the notice of mediation settlement and Order of Dismissal.
