2. Submitting report regarding Petition of New Foundation Christian Center (#754), requesting tax exemption status of 8201 Fenkell, which was purchased with several other properties on February 17, 2003. **(Based upon the observations of our field review staff and consideration of certain documents, the Board of Assessors placed the parcel on exempt status beginning in 2009.)**

**FINANCE DEPARTMENT - TREASURY DIVISION/WAYNE COUNTY TREASURER**

2. Submitting report regarding inquiry of Dolores McKinney, RE: Property located at 3705 and 3713 Sheridan. **(There are no delinquent property taxes for 3705 Sheridan. The 2006 and 2008 property taxes were paid delinquent to the Wayne County Treasurer's Office and the 2009 property taxes were paid current to the City of Detroit on December 14, 2009 per the City of Detroit's website. As for the property at 3713 Sheridan, the 2006 delinquent property taxes were paid in full on July 31, 2007 and a partial payment was made on the 2007 delinquent property taxes on September 22, 2009. The balance of the 2007 delinquent property taxes as well as the 2008 and 2009 are still due to the Wayne County**

**Treasurer's office. This property is not in foreclosure. The substantial financial hardship was filed by Teikana L. McKinney on March 23, 2010 and approved on April 6, 2010. Ms. McKinney was made aware of the fact that the approval of the substantial financial hardship withheld the property from foreclosure but did not waive payment of the property taxes; it only extended the time allowed for payment. On April 6, 2010, a suggested payment schedule was mailed to Ms. McKinney along with the Wayne County Treasurer's approval letter stating the 2007 property taxes need to be paid in full by December 31, 2010. There has been no payment on this property since.)**

**AUDITOR GENERAL**

4. Submitting report regarding Audit to the Information Technology Services Department July 2007 - June 2009. **(This report contains the audit purpose, scope objectives, methodology, and conclusions; status of prior audit findings; background; audit findings and recommendations; and the responses from the Information Technology Services Department.)**

**BUDGET DEPARTMENT**

5. Submitting report regarding Quarterly Financial Report for the period ending September 30, 2010. **(Based upon our early review of financial data for the first quarter of fiscal year 2010-2011 and although we have some areas of potential concern, we are cautiously optimistic that the City will be able to complete the current fiscal year with a balanced budget. However, there remains the potential of running a year-end deficit.)**

**CITY CLERK'S OFFICE/CITY PLANNING COMMISSION**

6. Submitting reso. autho. one (1) application for Neighborhood Enterprise Zone Certificates for Morningside Community Area.

7. Submitting reso. autho. five (5) applications for Neighborhood Enterprise Zone Certificates for U-SNAP-BAC Area.

**CITY COUNCIL FISCAL ANALYSIS DIVISION**

8. Submitting report regarding Cash Flow review. **(The quarterly cash flow statement ending June 30, 2011 is based on actual cash balances through November 5, 2010. The last quarter ending June 30, 2011 ends up with a \$12.8 million balance. This balance is \$3.2 million lower than the June 30th balance. Finance continues to feel it would be unnecessary to issue a short-term instrument such as a revenue anticipation note or a tax anticipate note during fiscal 2010-11 to help meet cash flow purposes. If there are major declines in revenue collec-**

tions, and cost cutting measures to streamline expenditures are significantly delayed, the City would be forced to cut expenditures to meet collections in order to avoid a short-term borrowing by the last quarter of this fiscal year ending June 30th. DTE Energy needs to submit an application to the Michigan Public Service Commission for the early release of at least \$20 million from the DTE Energy escrow associated with the GDDRA. The quarterly cash flow statement reflects the receipt of the \$20 million escrow funds in the second quarter ending December 31, 2010. The Fiscal Analysis Division would like for the Finance Department to address some questions within this report by January 12, 2011.)

9. Submitting report regarding Gaming Tax Revenue through November 2010. (The attached schedules present the gaming tax revenue activity through November 2010 and prior fiscal years. The City collected \$18.29 million in gaming tax revenue for the fifth month of the fiscal year, which was 30.7% greater than the prior month of October. The November 2010 collection was 4.6% greater than November 2009 and 4.2% greater than November 2008. Adjusted gross casino gaming receipts came in at \$111.42 million for the month of November 2010. This represented a 1.96% decrease over the prior month and a 4.83% increase over November of 2009. MGM and Motor City casinos began paying the City 1% less because of the permanent casinos opening on October 3, and November 29, 2007. Public Act 306 increased the wagering tax by 6% of which 2% went to the City of Detroit. The amended development agreement of August 2002 between the city and the casinos, which is separate from the state law, has all casinos, beginning in January 2006, paying an additional 1% over the state law, plus another 1% when the casino reaches \$400 million in gross receipts in a calendar year. MGM was projected to reach \$400 million in September and did, and did transfer to the City the initial \$4.0 million of the additional 1% close to the 10 days as stipulated in the development agreement. Last fiscal year, MGM remitted \$4 million to the City much closer to the timetable in the development agreement than in prior years. Comparing the first five months' receipts with last fiscal year at this time, MGM is up by 8.12%, Motor City is up by 2.76% and Greektown is down by 2.42%. Looking at the first ten months of the calendar year, in comparison with 2009, MGM is up by 6.48%, Motor City is down by -0.86% and Greektown is up by 2.21%. The 2010-2011 budget for gaming fee

revenues is \$173.36 million, a 1.8% decrease over the 2009-2010 budget of \$176.6 million.)

#### CITY COUNCIL RESEARCH AND ANALYSIS DIVISION

10. Submitting report regarding Options to Rescind the Resolution Authorizing the Issuance of Bonds for new Public Safety Headquarters at the Old MGM Site. (Based on Research and Analysis Division review, City Council may have the ability to rescind or amend the resolution if the Administration has not taken actions in furtherance of the resolution that cannot be undone.)

11. Submitting report regarding City Council Amendments to the Purchasing Ordinance. (Major purchases and contracts are to be done through a competitive bid process of which the Charter specifically provides that the "lowest responsible bidder" may be defined in terms of the "lowest overall cost to the city". Section 18-5-2(2) grants the purchasing director the ability to limit bidding on non-major purchases to Detroit-based businesses. Instead of the current ordinance provisions guiding purchases and contracts, the City could — in keeping with the Charter provision outlined in Section 6-306 — provide for the most competitive and overall lowest price to the City for "major" purchases and address some of the social concerns through the purchasing department limiting certain non-major purchases only to Detroit-based entities. One component of the City's current procurement process is the awarding of equalization credits based on factors such as Detroit based, Detroit headquartered, etc.)

12. Submitting report regarding Summary of Cumulative Weekly Reports for all Contracts Valued at \$5,000.00 - \$25,000.00; Awarded during the Period of October 25, 2010 through November 7, 2010. (This lists include a total of sixteen (16) contracts with a grand total of \$192,564.04 approved for the listed weeks; Fire Department—\$16,416.00 from 10/25/10-11/07/10; General Services Department—\$23,500.00 from 10/25/10-11/07/20; Law Department—\$5,067.00 from 10/25/10-11/07/10; Public Lighting Department—\$13,739.64 from 10/25/10-11/07/10; Workforce Development Department—\$27,565.00 from 10/25/10-11/07/10; Public Works Department—\$28,740.00 from 10/25/10-11/07/10; Water and Sewerage Department—\$45,519.00 from 10/25/10-11/07/10; Transportation Department—\$19,096.85 from 10/25/10-11/07/10.)

#### HEALTH AND HUMAN SERVICES DEPARTMENT

13. Submitting report regarding Audit for the Health and Human Services

Department covering period July 1, 2008 through June 30, 2009. **(The City has satisfactorily responded to the recommendations regarding (1) Activities Allowed/Allowable Costs, (2) Maintenance of Effort, (3) Procurement, Suspension, and Debarment, and (4) Subrecipient Monitoring. The aforementioned recommendations assigned to HRSA for resolution are considered closed. The remaining findings and recommendation cited in the November 12th letter from the Manager, National External Audit Review Center, Office of Inspector General, HHS, will be resolved by the Division of Systems Policy, Payment Integrity, and Audit Resolution, the Division of Payment Management, and the Administration for Children and Families.)**

#### **MISCELLANEOUS**

14. Submitting report from State of Michigan, Department of Treasury regarding Certificate pursuant to MCL 141.921(2). **(The State of Michigan has evaluated the financial plan of the City of Detroit, County of Wayne, for the correction of the deficit condition as of Fiscal Year Ending June 30, 2009 in the General Fund. 49. Submitting report regarding Disability Access to Rosa Parks Transit Center. (After numerous concerns were expressed to the Honorable Body regarding conditions at the Rosa Parks Transit Center, the Research and Analysis Division staff visited the facility for the specific purpose of assessing disability access concerns. General facility cleanliness appeared to be good. Honorable City Council:

Re: Address: 8741 W. Eight Mile. Name: Lester Moss. Date ordered removed: February 9, 2005 (J.C.C. 492).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on November 10, 2010 revealed the building is secured and appears to be sound and repairable.

The owner has paid current taxes due as of November 8, 2010.

The proposed use of the property is owner's use and occupancy. This is the 1st deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to

arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

December 16, 2010  
 Honorable City Council:  
 Re: Laderick Barlow vs. Antonio Carlisi.  
 Case No.: 09-CV-11465. File No.: A37000.006589 (SH).  
 On October 12, 2010, your Honorable Body approved settlement of the above civil matter in the sum of \$170,000.00 as recommended by the Law Department. The \$170,000.00 was in error; the correct sum was to have been \$175,000.00. Corrective action could not be taken before your Honorable Body adjourned for winter break.  
 On December 16, 2010, the court entered an order directing payment of approved \$170,000.00 sum no later than close of business on December 17, 2010. The City complied. In the same order, the court directed that  
 “the Detroit City Council shall take up the matter of the additional balance of \$5,000.00 at its first meeting in January of 2011. In the event that this matter is not addressed at the Detroit City Council’s first meeting in January, 2011, or the additional balance of \$5,000.00 is not approved at this meeting, in January of 2011, or the additional balance of \$5,000.00 is not approved at this meeting, the Court will issue an order directing the City Council President to appear before the Court and address the City Council’s failure to timely act upon the settlement reached by the parties back on September 29, 2010.”  
 A copy of the court’s order is provided herewith.

Accordingly, we have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a final settlement in the amount of Five Thousand Dollars and No Cents (\$5,000.00) is in the best interest of the City of Detroit.  
 We, therefore, request authorization to make final settlement of this matter in the amount of Five Thousand Dollars and No Cents (\$5,000.00) and that your Honorable Body direct the Finance Director to issue a draft in that amount payable to Ravid and Associates, P.C., his attorneys, and Laderick Barlow, to be delivered upon receipt of properly execut-

**City Planning Commission**

December 13, 2010

Honorable City Council:  
 Re: Request of DRSN Real Estate LLC to modify the use/approved plans for the existing PD (Planned Development District) zoning classification on District Map No. 29 of the Detroit Zoning Ordinance (Chapter 61, Article XVII of the 1984 Detroit City Code) at 7733 East Jefferson Avenue, generally located on the north side of East Jefferson Avenue between Field and Van Dyke Avenues. (Recommend Approval with Conditions).

**REQUEST**

The DRSN Real Estate LLC is petitioning the City to modify the approved plans for the existing PD zoning classification on District Map No. 29, Article XVII, of the Detroit Zoning Ordinance (Chapter 61 of the 1984 Detroit City Code) at 7733 East

Jefferson Avenue, generally located on the north side of East Jefferson Avenue between Field and Van Dyke Avenues. The PD plan modification is being requested to allow for the renovation of the former hospital building primarily as a skilled nursing facility (a nursing home).

The former Riverview Hospital site is currently owned by St. John Providence Health System. St. John Providence Hospital Health System is in the process of selling the site to DRSN Associates, LLC subject, in part, to zoning approval being granted by the City.

St. John Providence Health System currently owns a nursing home in Detroit on East Warren and Canyon Avenues near Mack Avenue. The petitioner is in the process of also purchasing this building (18300 E. Warren) with the intention of transferring 180 beds from this site to the proposed Riverview Wellness Campus.

#### **PROPOSED DEVELOPMENT**

DRSN, LLC is proposing to redevelop the site as the Riverview Wellness Campus. The primary proposed use of the site would be to redevelop floors 3 through 7 into a skilled nursing facility (a nursing home) containing approximately 199 patient rooms with 334 beds. The sixth floor would have fewer beds, because it would house patients in need of a ventilator or those with Alzheimer/dementia. The second floor of the building is currently utilized as a training facility by the Oakland University School of Nursing. The proposed project would allow this use to remain on the second floor. The first floor currently houses a St. John Urgent Care clinic at the east side of the building, which is proposed to remain at the site. Minor alterations are proposed for the first floor to include offices and physical/occupational therapy space to support the skilled nursing facility. A cafe would be added to serve students and visitors. The remaining existing office space would remain to lease out to future medical tenants serving the surrounding community. The basement area would be slightly modified to include a laundry space and storage area for the skilled nursing facility. The exterior of the site would remain the same, except for the addition of a 3,677 square foot outdoor activity area at the southwest side of the 7-story building.

The total investment to purchase and renovate the site is \$16 million dollars. When completed, the nursing home would employ 350 persons. The skilled nursing facility would be licensed by the State Department of Community Health. The Advantage Management Group would operate the nursing home. Some of the employees at the to-be-closed facility at 18300 E. Warren will follow the to-be-moved nursing home residents to 7733 E. Jefferson.

The subject campus also includes two separate medical office buildings on the

site. The petitioner indicates that Medical Pavilion II (at the northwest corner of the building) would continue to be owned by a separate entity and continue as medical offices. For the Medical Pavilion I (the Jennings Building) facing East Jefferson Avenue, the petitioner might seek future approval to convert this building into 50 units of affordable, senior independent housing.

#### **HISTORY OF THE SITE**

In 1971, the City Council rezoned a large portion of the subject property and approved plans for off-street parking (Ordinance No. 603-G) — there were no conditions as part of this Ordinance.

In 1984, the City Council approved plans to allow for the construction of a 315-bed general hospital and trauma center, the continued use of the existing Jennings building, and surface parking (Ordinance No. 588-H) — this Ordinance referenced seventeen conditions.

In 1987, a request was approved to rezone property generally located at the southeast corner of East Lafayette and Sheridan Avenues from R5 (Medium Density Residential District) to PD to allow for the area to be developed with additional parking for the new hospital (Ordinance No. 28-87) — there were no conditions as part of this Ordinance.

In 1999, the City Council approved a request to modify the PD zoning classification to allow for the expansion of the hospital's emergency department and construction of a 14-foot wall to the HVAC system. The wall was part of negotiations between the hospital and the West Village Association and was constructed in a manner that reduced the noise levels experienced by neighboring residents (Ordinance No. 20-99) — there were no conditions as part of this Ordinance.

In 2005, City Council approved a request to modify the PD zoning classification and to show a PD zoning classification on land generally located at East Jefferson Avenue, vacated Sheridan Avenue, East Lafayette Avenue, and Seyburn Avenue. The proposed modification allowed for the construction of a new three-story, 68,427 square foot medical office building at the northwest section of the hospital. The rezoning included 603 through 725 Sheridan in order to expand the existing parking area for the hospital campus to provide for 385 new parking spaces to replace the 93 spaces displaced by the proposed medical office building as well as to accommodate the new medical office (Ordinance No. 12-05) — this Ordinance included six conditions.

As part of its recommendation, the City Planning Commission (CPC) has screened the aforementioned twenty-three conditions to determine which ones should remain and which ones were no longer applicable.

### **PUBLIC HEARING RESULTS**

On November 4, 2010, the City Planning Commission held a public hearing on the subject PD modification. At the hearing, the Commissioners asked questions about proposed security for the project. The petitioner responded that a security desk would be provided at the main entrance and on each floor.

In general, residents were in support of the new adaptive reuse, but did raise some concerns. One resident of nearby Indian Village and member of the Indian Village Men's Garden Club raised concerns about broken promises by St. John's Hospital; he also raised concerns about the vast unsightly parking on the west side of the site "that is never used" and asked that Sheridan Avenue be reopened. Other residents supported the proposed use, but raised questions about the proposed transfer of beds from the aforementioned nursing home at East Warren and Canyon Avenues and questions about improving the greenspace. There did not appear to be consensus amongst residents to reopen Sheridan Avenue. In response, the petitioner expressed reluctance to reopen Sheridan Avenue or removing parking spaces to add green space — the petitioner said any parking removed would need to be banked if needed in the future.

It was noted an additional meeting between the petitioner and area residents was scheduled for November 9, 2010.

### **PUBLIC HEARING FOLLOW-UP**

On November 9, 2010, the petitioner met with area residents regarding the project. In general, residents expressed support for the redevelopment of the site. The residents raised various concerns about Sheridan Avenue, landscaping, and pedestrian access. Some area residents preferred the site being opened up for better pedestrian access; however, some adjacent residents supported past efforts which limited pedestrian access, which in turn helped reduce crime. The residents and petitioner agreed to work together moving forward on various issues, including:

- It was requested that the wall from a garage owned by St. John's on the east end of the site be repaired;
- It was requested that any dead landscaping be replaced and that additional landscaping be included particularly along the north, west, and south (the East Jefferson frontage) borders of the site;
- It was requested that the petitioner inform the neighborhood of hiring for the project; and
- To continue to explore ways to improve agreeable community access.

### **ANALYSIS**

#### **Master Plan**

The subject property is located within the Butzel area of Neighborhood Cluster 3 of the Detroit Master Plan of Policies.

The Future Land Use map designates the majority of the existing hospital campus as Institutional; the north edge of the property along East Lafayette Avenue and the west edge of the property west of vacated Sheridan Avenue is designated Low-Medium Density Residential. The Planning and Development Department (P&DD) submitted a report dated November 29, 2010 concluding, in part, that the proposed use will not impact the general character of the area if the petitioner ensures adequate buffering is provided to protect the adjacent residential area by adding more landscaping to the parking lot. If such additional landscaping is provided by the petitioner, P&DD has determined that a Master Plan amendment will not be necessary.

#### **Parking**

The proposed site plan shows 1,096 parking spaces for the entire campus. For nursing homes, the Zoning Ordinance requires 1 space per 4 beds. With 334 beds, 84 spaces would be required for the nursing home. For the school of nursing on the second floor, the Zoning Ordinance requires one space per each employee plus one for each five students. This program has no more than 100 students on site at one time, with ten employees. As a result, this school would require 30 parking spaces. Besides the nursing home function, the first floor and basement would have approximately 59,102 square feet of rentable space. Medical clinics require one space for 200 square feet; therefore, the remainder of the building could require up to 296 spaces. The Medical Pavilion II building has approximately 62,000 square feet of rentable space; which would require 310 parking spaces. Lastly, if the Jennings Building were developed with 50 units of senior housing, it would require 38 parking spaces. In summary, it appears the potential parking required for the campus is approximately 758 parking spaces, which leaves an excess of 338 spaces.

#### **Landscaping**

Community feedback indicates that some of the existing landscaping, particularly along the north and west perimeters has died or is in poor condition. The CPC recommends that the landscaping along the north, west, and south perimeters be augmented. Also, the CPC recommends additional landscaping at the front entrance along East Jefferson Avenue. Also, in order to break-up the sea of parking on the site, the CPC recommends that existing parking lot islands have additional and refurbished landscaping.

#### **Bicycle Parking**

In order to address concerns about improving pedestrian connectivity to the site, the CPC recommends that the site plan be revised to show a location and fixtures for bicycle parking.

### **Analysis of Previous Conditions**

As stated earlier in this report, the subject site has twenty-three previous PD conditions: seventeen from Ordinance No. 588-H and six from Ordinance No. 12-05. As part of the proposed recommendation, the CPC screened the subject twenty-three conditions and deleted those which appear to be no longer applicable.

### **RECOMMENDATION**

On November 18, 2010, the City Planning Commission took action to recommend **APPROVAL** of the request of the DRSN Real Estate LLC to modify the approved plans for the existing PD zoning classification on District Map No. 29, Article XVII, of the Detroit Zoning Ordinance at 7733 East Jefferson Avenue, generally located on the north side of East Jefferson Avenue between Field and Van Dyke Avenues with the following conditions:

**City Planning Commission**

January 5, 2011

Honorable City Council:

Re: Installation of a Temporary Ice Slide in Campus Martius for 2011 Winter Blast (Recommend Approval).

The staff of the City Planning Commission (CPC) received a permit application from the Detroit 300 Conservancy for the temporary installation of an ice slide on the eastern edge of Campus Martius, addressed as 800 Woodward Avenue. The PC (Public Center District) zoning classification in which the park is located calls for City Council approval of the location and design of any exterior changes following the review and recommendation of CPC and the Planning and Development Department (P&DD) (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance). CPC and P&DD staff have reviewed the application and submit this report and recommendation.

**PROPOSED INSTALLATION**

The requested temporary ice slide permit would be valid from January 27 through March 6, 2011 for the Winter Blast. The ice slide would be eighteen feet tall and 160 feet long, and transported on a semi-truck trailer. It would be built along the eastern edge of Campus Martius, adjacent to the fountain and ice rink.

**REVIEW**

In accordance with the Special District Review provisions of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PC provisions of Section 61-11-96, reviews of proposed temporary installations should be conducted in light of the following criteria:

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development;

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties.

As this is a temporary structure, staff feels that it meets the requirements of the Zoning Ordinance.

**RECOMMENDATION**

CPC staff has completed its review of the proposed temporary installation, as has the Planning and Development Department staff. We find that the installation would be in keeping with the spirit and intent of the PC zoning district in this circumstance. Therefore, staff recommends approval of the location and design of the proposed temporary ice slide. Please find attached the appropriate resolution to effectuate your approval.

STATEMENT OF MY VOTE  
 AGAINST THE SALE OF  
 GENERAL OBLIGATION BONDS  
 BY COUNCIL MEMBER KENYATTA  
 January 14, 2011

Today, City Council voted 6-3 against the sale of approximately \$100 million in General Obligation Bonds, \$64 million was purportedly earmarked for a proposed City of Detroit Public Safety Headquarters. The purpose of the other approximately \$36 million was not clearly outlined by the Mayor's Office.

My vote today was consistent with my previous vote in opposition of the purchase of the former MGM Grand Casino building for future use as a Public Safety headquarters. I have always believed that it is a bad investment to spend \$6.32 million as we combat a deep deficit to purchase a facility in which we were receiving over \$1 million a year in taxes.

Furthermore, I have never believed that the location of the former MGM Casino building is conducive to providing efficient public safety services to Detroit's populace. Lastly, it is not sound fiscal oversight to allow for an "extra" \$36 million in bonds to be sold without any documented explanation that lays out a sufficient need for the City to assume more debt to be paid by its taxpaying residents.

Thus my vote today was consistent with my previous vote. The mayor has chosen to characterize council members who voted in opposition today as putting politics before public safety. In my case, nothing could be further from the truth. I support our police and fire department. However, I do not believe that "public safety" comes primarily from a facility. Public safety, first and foremost, takes place in the streets and in the community upholding the law and arresting those who break the law.

I think that there are a number of things that have to be done to improve our public safety weaknesses and eliminate the consent decree that we are now under. I do not think that the greatest priority is the purchase and development of a new police and fire headquarters. I believe that we need to put emphasis on improving response time for both police and fire and EMS. We also need to be putting resources into repairing EMS vehicles or purchasing new vehicles that are needed to respond to the public health and safety needs of Detroit residents.

I have demonstrated my support for public safety by making sure that I voted to ensure that the budget for police, fire and EMS was reflective of their needs and expenses.

I do believe that the mayor has engaged in negative politics over the last few weeks in his disrespect of the duly elected legislative body. And I think it is time for that type of action to cease and desist on both sides so that both the mayor and city council can sit down and develop a more positive and cohesive course moving forward.

Thank you.

**RESOLUTION STRONGLY OPPOSING ANY CHANGE IN GOVERNANCE OF THE DETROIT WATER & SEWERAGE DEPARTMENT (DWSD)**

By ALL COUNCIL MEMBERS:

WHEREAS, The City of Detroit has proudly owned and operated the Detroit Water & Sewerage Department (DWSD) since 1836, providing quality wholesale service to 126 neighboring communities comprising roughly 4.3 million residents — or nearly half the population of the State of Michigan while currently maintaining the eighth lowest combined monthly water and sewerage rates among the 20 most populated cities in the United States; and

WHEREAS, Recent events and allegations contained in federal indictments have renewed calls by some suburban leaders for the creation of a regional authority to oversee DWSD; and

WHEREAS, At least one member of the 96th Michigan legislature is heeding said calls and has announced his intention to draft a bill to establish such an authority; and

WHEREAS, Similar legislative attempts to supplant Detroit’s autonomy over DWSD were defeated within the last decade due to legal and political deficiencies; and

WHEREAS, Any attempt to change the governance structure of DWSD is contrary to and prohibited by law. The Michigan State Constitution, Art. VII, §24, clearly states “Any city . . . may sell and deliver water and provide sewage disposal services outside of its corporate limits in such amount as may be determined by the legislative body of the city of village . . .” Art. VII, §34, further states that constitutional provisions and law concerning cities “shall be liberally construed in their favor” and

WHEREAS, Contracts between DWSD and numerous communities in South-eastern Michigan for the provision of water and/or sewerage services would be jeopardized by any attempt to change the governance structure of DWSD in clear violation of the Michigan State Constitution, Art. I, §10, which provides that “No . . . law impairing the obligation of contract shall be enacted”; and

WHEREAS, Such legislation would also disregard the federal consent decree that has bound DWSD for more than 30 years. This consent decree has been continuously overseen and monitored by the federal court, with the assistance of court-appointed Special Masters, Special Administrators, and other personnel at the discretion of the court; and

WHEREAS, In the course of this long-running litigation, the federal court has properly and emphatically interpreted state constitutional provisions to clearly grant Detroit exclusive control over the operation of DWSD, and legally prohibit any change in governance structure, operation, control, management or other rights from the City of Detroit over DWSD; and

WHEREAS, In addition to consistently maintaining the autonomy of the City of Detroit over DWSD, the federal court has continually encouraged greater regional cooperation without any change in the governance or control of DWSD; and

WHEREAS, To accomplish cooperative goals and increase regional collaboration, DWSD, working in conjunction with the court, has established regional bodies such as the Business Leadership Group (BLG), the Technical Advisory Committee (TAC), the Southeast Michigan consortium for Water Quality, and the Director’s Council to improve communication, increase collaboration and resolve disputes; and

WHEREAS, Any attempt to modify the current governance of DWSD also ignores the regional composition of the current Detroit Board of Water Commissioners — a seven-member panel that, among other things, sets rates for water and sewerage services, and includes three suburban representatives, one each from Wayne, Oakland and Macomb counties; and

WHEREAS, The Detroit City Council is committed to expanding transparency and continuous improvement in this regional collaboration. The time is ripe to expand this dialogue and build on the foundation of combined strength to accomplish our region’s shared goals; and

WHEREAS, Legislation to modify the governance of DWSD may be politically advantageous for some, but, ultimately, only serves to stoke animosity between

the City of Detroit and its neighbors at a time when, in the words of our new Governor Rick Snyder, "We need to move from negative to positive . . . stop being divisive and become inclusive"; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council resolutely opposes any change in the governance structure, operation, control or management of DWSD whether it be by legislative or any other means; and BE IT FURTHER

RESOLVED, That the Detroit City Council strongly urges the members of the State Legislature to respect the City of Detroit's property rights and oppose any and all legislation that would modify the governance structure of DWSD, end the City's autonomy or weaken the city's ownership of its asset; and BE IT FURTHER

RESOLVED, That the Detroit City Council strongly urges local leaders and stakeholders to engage in meaningful dialogue on this important topic without counter-productive rhetoric; and BE IT FURTHER

RESOLVED, That the Detroit City Council strongly urges the Mayor of the City of Detroit and the Detroit delegation of Michigan state lawmakers to stand in solidarity with the city's legislative branch in publicly opposing any and all attempts to change the governance structure of DWSD, end the city's autonomy or weaken the city's ownership of its asset; and BE IT FINALLY

RESOLVED, That the Detroit City Clerk is hereby instructed to send a copy of this resolution to the Honorable Dave Bing, Mayor of the City of Detroit; Governor Rick Snyder; individual members of the Michigan Legislature; the executives of Wayne, Oakland and Macomb counties; City of Detroit Lansing Lobbyist, Governmental Consultant Services, Inc., and the Honorable Sean F. Cox.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

Nays — None.

And the Council then adjourned.

CHARLES PUGH  
President

JANICE M. WINFREY,

**PUBLIC COMMENT**

**MR. BARNETT**, expressed concerns relative to treatment his mother received at Harper Hutzel Hospital. He had reported it to the Wayne County Prosecutor's Office which had closed the case on September 14th. He contacted the Mayor's Office who informed him that they were not allowed to speak with him. He then contacted John Conyer's office and is waiting for an appointment with him. He stated that if we are trying to improve the hospitals in the City of Detroit, we need to make sure that the people inside of the hospitals are well kept and he is coming to Council first because the poor citizens in Detroit don't have the advantages that suburbs have to be able to hire private investigators. He requested assistance from Council in finding out what DMC did to his mother when she came in for chest pains. Receive Comments.

**PASTOR OVELLA**, expressed thanks to City Council and Council Member Joann Watson for their support for the United Communities of America. She explained that organized in May and are a community based organization focused on the reduction of crime

through the promotion of peace and healing. She came to Council in November and asked them to vote for a city-wide day of peace and healing on the 22nd day of every month and they voted on a testimonial resolution for that and they are thankful. She announced that the upcoming Saturday is the city-wide day of peace and healing and they are sponsoring a prayer brunch to spread awareness to the Community to know that there is a day for everyone to focus on ways to create peace within themselves, their family, their neighborhood, and their co-workers. They are also asking 3,500 churches to have peace services every 22nd day for the purpose of family and relationship reconciliation. The prayer brunch is at Local 147 in Romulus from 10 a.m. to 12 noon and she had tickets for Council. [Receive Comments.](#)

**MR. BILL McMASTER**, expressed concerns relative to a Detroit Free Press article entitled 'Detroit Tax Error Confuses Homeowners'. There is no excuse for year after year for this city and Wayne County to continue to be delinquent in sending out confusing property tax bills this time of year and then if people can't pay their property taxes, even though they may not have been billed correctly, they lose their homes through this draconian process called tax reverted property. He also called attention to the 13,000 people who have been listed as Detroiters who are going to lose their homes because they can't pay their property taxes plus the add-on penalties that cause the unpaid property taxes over 2 years to increase by 18% more. He hopes that Council pays attention to the desperate situation of people losing their homes through no fault of their own and to excuse them for not being able to respond when they don't receive a bill or verification of what to do. **COUNCIL PRESIDENT PUGH** stated that it was addressed last week with the City Treasurer. [Receive Comments.](#)

**ELAINE FLOWERS, Rosa Parks Legacy Committee**, stated that this committee is a committee of the Metropolitan Christian Council of Detroit and Windsor and in honor of Rosa Parks they will be hosting an event on March 22 at New Prospect Missionary Baptist Church. They will be having the author of the book entitled, 'At the Dark End of the Street/Black Women, Rape and Resistance: a New History of the Civil Rights Movement from Rosa Parks to the Rise of Black Power'. The book was written by a Wayne State University professor of African American History, and she will be at the event on the 22nd

from 7-9 p.m. to do a book signing and to share information about this history and the book. She distributed their mission statement and flyers regarding the event. [Receive Comments.](#)

**MRS. ROSA WINN, 93 years old**, spoke in support of the Rosa Parks Legacy Committee. [Receive Comments.](#)

**MS. OLIVIA GATES**, requesting assistance for her sister, Katherine Barnett who is in bad health, in repairing and keeping her home which is deteriorating. **COUNCIL PRESIDENT PUGH** referred her to Rory Bolger from CPC and Jannie Warren in P&DD for assistance.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for six housing units within the Morningside Community or U-SNAP-BAC Neighborhood Enterprise Zones (Recommend Approval).

The City Clerk's Office forwarded to our office applications from Habitat for Humanity for Neighborhood Enterprise Zone (NEZ) certificates for six (6) housing units within the U-SNAP-BAC NEZ area approved by the Detroit City Council in July, 1997 or the Morningside Community NEZ, approved by the Detroit City Council in March, 2008.

The address at 3721 Lakepointe Avenue is located within the Morningside Community NEZ. This certificate is for an extensive rehab project totaling \$80,000. It appears the current true cash value of the structure is under \$30,000 which is less than the \$80,000 per unit maximum required under the NEZ Act; accordingly, 3721 Lakepointe is eligible.

The following addresses are located within the U-SNAP-BAC NEZ: 4370 Lakepointe, 4386 Lakepointe, 4400 Lakepointe, 4410 Lakepointe, and 4411 Lakepointe. Habitat for Humanity is proposing to construct five new single-family homes that would each cost \$90,000 to build.

The properties involved are confirmed as being within the boundaries of the aforementioned NEZs. Based on the above analysis, City Planning Commission staff recommends approval of the subject NEZ certificates. Please let us know if you have any questions.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for six housing units within the Morningside Community or U-SNAP-BAC Neighborhood Enterprise Zones (Recommend Approval).

The City Clerk's Office forwarded to our office applications from Habitat for Humanity for Neighborhood Enterprise Zone (NEZ) certificates for six (6) housing units within the U-SNAP-BAC NEZ area approved by the Detroit City Council in July, 1997 or the Morningside Community NEZ, approved by the Detroit City Council in March, 2008.

The address at 3721 Lakepointe Avenue is located within the Morningside Community NEZ. This certificate is for an extensive rehab project totaling \$80,000. It appears the current true cash value of the structure is under \$30,000 which is less than the \$80,000 per unit maximum required under the NEZ Act; accordingly, 3721 Lakepointe is eligible.

The following addresses are located within the U-SNAP-BAC NEZ: 4370 Lakepointe, 4386 Lakepointe, 4400 Lakepointe, 4410 Lakepointe, and 4411 Lakepointe. Habitat for Humanity is proposing to construct five new single-family homes that would each cost \$90,000 to build.

The properties involved are confirmed as being within the boundaries of the aforementioned NEZs. Based on the above analysis, City Planning Commission staff recommends approval of the subject NEZ certificates. Please let us know if you have any questions.

**AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-180 to establish the Sidney D. Miller School Historic District, commonly known as 2322 Dubois Street, and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 25, Article II, of the 1984 Detroit City Code is amended by adding Section 25-2-180 to read as follows:

**Sec. 25-2-180. The Sidney D. Miller School Historic District.**

(A) A historic district to be known as the Sidney D. Miller School Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Sidney D. Miller School Historic District (commonly known as 2322 Dubois Street) are as shown on the map on file in the office of the City Clerk, and are as follows:

On the north, the north line of the vacated Waterloo Street; on the east, the centerline of Chene Street; on the south, the centerline of Antietam Avenue; and on the west, the west line of the vacated Dubois Street. (Legal Description: Lots 1 through 15, Block 29, on the "Dubois Subdivision of the West Half of P.C. No. 91 between Clinton Ave and German St." as recorded in Liber 1, Page 163 of Plats, Wayne County Records; also, Lots 1 through 24, Block 20, of "Subdivision of Part of James Campau Farm, E 1/2 P.C. 91," as recorded in Liber 2, Page 17 of Plats, Wayne County Records; also, All of vacated Dubois, vacated Jay, vacated Waterloo & vacated alleys adjacent except Chene St. as WD 9; also, Lot 6 of "Elmwood Park Urban Renewal Plat No. 1 of Part of P.C. 14, 90 and 91, City of

Detroit, Wayne County, Michigan," as recorded in Liber 89, Page 47 of Plats, Wayne County Records).

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* The Sidney D. Miller School building is primarily two stories tall on a high, fenestrated basement. The gabled bay at the northwest corner of the front (west) façade rises above the flat roofline of the rest of the façade. The addition of a single-story section at the northeast corner of the building encloses a courtyard containing a boiler room with a tall, projecting smokestack visible above the roofline.

(2) *Proportion of Building's Front Façades.* The front (west) and secondary (south) façades are substantially wider than tall. The front façade is composed of eight bays, beginning with a projecting, gabled transverse section as its northernmost bay; the primary entrance in its fifth bay; and a two and one-half story, three-sided projecting section as its sixth bay. Its secondary façade, originally five bays wide, was later extended eastward by an additional seven bays. Its first, or westernmost, bay consists of a blank wall, its second bay contains an entrance, and its eighth bay features a prominent entrance pavilion. Overall, the façades display a regularity occasionally dispersed with projecting or receding masses.

(3) *Proportion of Openings Within the Façades.* The building's front (west) and secondary (south) façades are composed of approximately thirty percent (30%) to thirty-five percent (35%) openings. The window units, recent anodized aluminum replacements, are currently covered with protective panels and, therefore, not visible from the exterior. On the front façade, two stories of regularly spaced bays with groupings of four windows each are located above rows of four individual basement windows (there are only two windows per floor in the third bay from the north). At the north end of the front façade is a first floor bay window topped with a large Gothic-arched window opening. The fifth bay from the north contains the Gothic-arched, main entrance opening. The northern façade of the building features groupings of three openings, its tall first floor consists of mullioned, slightly segmental arched openings, and its doorway is recessed within a Gothic-arched opening. The five bays of the original westernmost section of the southern façade feature groupings of three windows flanked by a single window; the later addition towards the east features groupings of four windows. Groupings of windows are generally wider than tall, although individual window units are taller than wide. Entrances within Gothic arches are taller than wide. Windows in the more pro-

nounced bays, although some are currently covered, feature subdivided window lights.

(4) *Rhythm of Solids to Voids in The Front Façades.* The majority of the front (west) and south façades exhibit a regular rhythm of solids to voids created by the grid-like arrangement of window openings, which are placed in rows, one over the other by floor. The rhythm is interrupted in the entry/stair pavilions, where floor heights begin at lower levels, and at the transverse-gabled section at the northwest corner.

(5) *Rhythm of Spacing of Buildings on Streets.* No rhythm of spacing of buildings exists due to single-building district.

(6) *Rhythm of Entrance and/or Porch Projections.* The original L-shaped plan of Miller School enabled single entrance bays on its west, north, and south façades that, although they do not create a particular rhythm, share common stylistic elements. The entrance of the original front, or west, façade is located in the fifth bay from the northernmost bay. It is two steps above grade, recessed within a one and one-half story high Gothic arched, but-tressed, stone surround. The westernmost bay of the north elevation of the building's original section features a projecting single-story entrance pavilion three steps above grade. The entrance in the frontispiece of the original section of the south-facing façade, located in the second bay from the west, is also recessed into a Gothic arched opening but is three steps above grade; its later addition to the east features another entrance bay in the sixth bay to the west, but its positioning does not create a regular rhythm on this south-facing elevation.

(7) *Relationship of Materials.* The building is faced in brick with limestone trim. Steps leading up to its entrances are masonry; walkways are concrete. The visible gable roof at the northwest corner of the building was originally clad in slate, and the slate that remains is in a deteriorated condition.

(8) *Relationship of Textures.* Brick laid in courses of common bond set in mortar contrasts with the smoother texture of the limestone entrance portals and masonry trim. Design details in stone, such as quoins, tabs, ornamental crests, and patterned brickwork, add greatly to the textural interest of the building. The slate of the gable roof, now in deteriorated condition, once contributed to textural interest.

(9) *Relationship of Colors.* Multi-colored brick in a variety of natural brown and red tones contrasts with gray mortar and beige limestone detail, ornament and trim. Replacement window frames are anodized aluminum, now covered with gray steel protective panels. Visible window surrounds are white.

(10) *Relationship of Architectural*

*Details.* Sidney D. Miller School is Late (Collegiate) Gothic in style, with most of the stylistic detail in stone focused on the entrance bays and other prominent bays, where buttressed entrances are surrounded in compound, Gothic arches; window surrounds are often tabbed, and the parapet walls are sometimes ornamented. Continuous stone sill courses and a molded string cornice running beneath parapet walls organize the façades horizontally, while prominent slightly projecting bays emphasize verticality. The name "SIDNEY D. MILLER JUNIOR HIGH SCHOOL" is displayed above the earliest entrance on the west façade in raised bronze, serif capital lettering. The date "AD 1919" in relief in Gothic script lies beneath. Centered at its parapet level is a stone panel depicting a shield decoration, and in the parapet of the three-sided projecting bay immediately south of the entrance bay is a balustrade-like element rising into a shallow pediment carrying a flagpole. A second gymnasium extends eastward along the south elevation, and its rear, or east, elevation is punctured by a Gothic compound-arched entrance opening and, on the second story level, an oriel window containing a set of three subdivided windows. Generally, all of the elevations are well developed architecturally, with the exception of the single-story, north wing addition at the Chene Street (east) end of the building, which is less elaborate in architectural detail than the earlier sections but has brickwork and stone trim matching the appearance of the other sections. In general, the building is rich in architectural detail that is appropriate to its style.

(11) *Relationship of Roof Shapes.* The building's main roof is flat and not visible from the street. A transverse gable runs along the north elevation, forming a highly fenestrated gable end facing west and a lesser one facing east. A rectangular brick smokestack rises from the boiler room in the now enclosed courtyard, which is embellished near its apex with subtle setbacks and four stone belt courses.

(12) *Walls of Continuity.* Not applicable due to single building district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Sidney D. Miller School is located on the northwest corner of its flat site of approximately six acres that includes the school yard to its south and a parking lot to its east. Concrete sidewalks extending from the entrance bays cut through the grass lawns, leading to concrete pathways placed parallel to the façades on the west and south; these merge with standard-width sidewalks skirting the property. A row of mature trees runs along the south elevation walkway parallel to the south façade of the school building; a row of

mature trees line the walkways extending from the southwest corner of the school block southward to Antietam Avenue. Occasional bushes are situated at the perimeter of the school building; mature and young trees are planted elsewhere on the lawn area nearby. Two grass turf medians, one on Chene Street (east) and the other on Antietam Avenue (south). The vacated Waterloo Street (north) is paved in red brick, while the vacated Dubois Street (west) is paved with blacktop over the earlier layer of red brick. A blacktop driveway extends from the Chene entrance and runs parallel to the south façade of the building. Brownstone curbs exist along vacated Dubois Street and vacated Waterloo Street.

(14) *Relationship of Open Space to Structures.* The Miller School building is situated at the northwest quadrant of a city block. Open, grass covered spaces to the south and west, once occupied by housing, are now part of Elroy Dues Field, a city recreation area. The fenced school yard and tennis courts are south of the building, and paved parking is to the east. Chain link fencing around the building site varies in height. Tall, modern steel poles with double lights on concrete bases light the perimeter of the school property; a modern sign at southeast quarter of the playfield identifies Sidney D. Miller School.

(15) *Scale of Façades and Façade Elements.* The Sidney D. Miller School is a large-scale institutional building in the Late (Collegiate) Gothic style. Decorative details are complementary and moderate in scale, outlining the entrance and the bays of the façades, running in bands, and crowning the tops of walls. The scale of the architectural elements and details are appropriate for the style and purpose of the building.

(16) *Directional Expression of Front Elevations.* The Sidney D. Miller School is emphatically horizontal in directional expression, due to the long expanses of wall surfaces on its north, west, and south elevations. Its chimney and individual frontispieces defined with tabbing or quoins interrupt the long expanses with intermittent vertical thrust emphases, adding balance to the composition.

(17) *Rhythm of Building Setbacks.* Not applicable due to single building district.

(18) *Relationship of Lot Coverages.* The footprint of the building occupies approximately forty percent (40%) of its original block, situated at its northwest quadrant, and approximately twenty percent (20%) of the entire designated property, which includes the block with the playfield to the south of the building.

(19) *Degree of Complexity within the Façades.* The front (west), north, and south façades each have a moderate degree of complexity in massing, fenestration, and arrangements of architectural

elements due to the consistency in their Late Gothic style.

(20) Orientation, Vistas, Overviews. Sidney D. Miller School was originally oriented westward towards Dubois Street, which has since been vacated. Its major visible elevation is from Antietam Avenue, set back across a deep, broad grassy play yard. To the north, east, and south of the school are blocks of newer townhouses that are part of the Elmwood Park urban renewal district. While the wide boulevards give its siting prominence, Miller School originally rested snugly amongst neighborhood houses, as evidenced by the vacated streets surrounding it on three sides.

(21) Symmetric or Asymmetric Appearance. Miller School is asymmetrical in appearance.

(22) General Environmental Character. The Sidney D. Miller School is located in what was formerly a residential area south of East Vernor Avenue in an area of Detroit historically known as Black Bottom. Its surroundings were dramatically altered in the 1950s through urban renewal. Streets were vacated, superblocks were created, and the older residential context was replaced with new townhouses in a garden-like setting. Its site at the northwest corner of Chene Street and Antietam Avenue gives it a visual prominence as one of three historic school buildings left in the Elmwood Park urban renewal area.

**Section 2.** All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

All interested persons are invited to be present to be heard as to their views. Persons making oral presentations are encouraged to submit written copies to the City Clerk's Office for the record.

#### City Planning Commission

December 16, 2010

Honorable City Council:

Re: PC (Public Center District) review of proposed 25,000 square foot expansion of Cobo Hall's Oakland Hall (RECOMMEND APPROVAL).

On December 2, 2010, the staff of the City Planning Commission (CPC) received a letter requesting the review of a proposed 25,000 square foot expansion of Cobo Hall's Oakland Hall. The PC (Public Center District) zoning classification, in which the proposed addition is located, calls for City Council approval of the location and design of exterior modifications following the review and recommendation of CPC (Section 61-11-76 of the Zoning Ordinance). Planning and Development Department and CPC staffs have reviewed the application and submit this report and recommendation.

The petitioner, SDG, is striving to begin construction as soon as possible to complete the project by the target October 2011 target date, and presently must get construction materials out to bid. To achieve this target, they are requesting City Council approval of the required resolution as soon as possible. Staff anticipates the petitioner contacting the Planning and Economic Development Committee with their request for expedited review.

#### PROPOSED CONSTRUCTION

The proposed expansion will take place in the southwest corner of Cobo Hall. A portion of the existing truck dock will be covered by the expansion. The first floor will contain truck dock doors and extra-height truck doors in the western wall. Above the truck dock level is the expansion of Oakland Hall. The total height is approximately 55 feet in height. A rendering depicting the appearance and location is attached. The construction materials of the expansion are identical to the existing Cobo Hall, with the two new walls being brick on the lower portion and metal panel above.

#### REVIEW

In accordance with the PC provisions of

the Zoning Ordinance (Section 61-11-77), reviews of proposed buildings should be conducted in light of the following relevant criteria.

(1) The proposed development should reflect applicable policies stated in the Detroit Master Plan;

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development;

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties;

(4) Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands; disruption of traffic flow in surrounding areas should be minimized; truck traffic should be carefully planned and controlled;

(5) Adequate vehicular off-street parking and loading should be provided, where appropriate;

The proposed building generally meets these criteria. The proposed expansion is approximately 2.5% of the overall footprint of Cobo Hall. The proposed expansion will also be hidden by the anticipated future larger-scale expansion of modifications to Cobo Hall.

**CONCLUSIONS**

CPC AND Planning and Development Department (P&DD) staff have reviewed the proposed plans and find them to be in keeping with the spirit and intent of the PC zoning district. The final review of the building plans and elevations will be conducted by P&DD and CPC staff prior to the issuance of building permits.

**RECOMMENDATION**

CPC staff has completed its review of the proposed addition, as has the P&DD staff. We find that the proposed expansion would be in keeping with the spirit and intent of the PC zoning district. Therefore, CPC staff recommends approval of the location and design of the proposed expansion. Please find attached the appropriate resolution to effectuate this recommendation.

Re: Assignment, Assumption & Consent Agreement. Extension of Development Agreement. Development: 14436 East Jefferson; bounded by Chalmers and Marlborough.

On October 20, 2009, (Detroit Legal News, November 23, 2009, Page 6), your Honorable Body authorized the amendment to the Development Agreement for Shelborne Development Company, LLC, a Michigan Limited Liability Company, for the purpose of rehabilitating a three-story apartment building.

Shelborne Development, LLC has informed the Planning and Development Department (P&DD) that due to unavoidable circumstances, they were not able to complete the development within the time allotted in the present Development Agreement. Shelborne Development, LLC now wishes to assign all their rights, title and interest on the above-captioned property to Chalmers Square Limited Dividend Housing Association Limited Partnership, a Michigan Limited Partnership.

Consequently, Chalmers Square Limited Dividend Housing Association Limited Partnership, a Michigan Limited Partnership, is requesting that the completion of development on 14436 East Jefferson be extended to December 31, 2011.

Chalmers Square Limited Dividend Housing Association Limited Partnership, a Michigan Limited Partnership possesses the qualifications and has indicated potential financial resources necessary to develop the above-captioned property.

The disposal of this land by negotiation is an appropriate method for making the land available for redevelopment and the proposed Assignment, Assumption and Consent Agreement is in satisfactory form.

We, therefore, request that your Honorable Body adopt the attached resolution, authorizing and approving an Assignment, Assumption and Consent Agreement between Shelborne Development Company, LLC, a Michigan Limited Liability Company, Chalmers Square Limited Dividend Housing Association Limited Partnership, a Michigan Limited Partnership and the City of Detroit, a Michigan Public Body Corporate.

We, also, request that your Honorable Body adopt the attached resolution authorizing an extension of the completion period of the development to December 31, 2011.

Re: Request Discussion regarding the CORRECTION of Resolution for the Tranor Industries, LLC location as a Tool and Die Recovery Zone, in accordance with Michigan Renaissance Zone Act P.A. Act 376 of 1996 (MCL 125.2688).

Representatives of the Planning & Development and Finance Departments have reviewed the petition of the following company, which requests City authorization by resolution to be a Tool and Die Recovery Zone.

The original resolution was submitted and approved during the November 4, 2010 session, that resolution included an additional parcel by mistake. The attached resolution has been corrected and is being resubmitted excluding the improper parcel numbered 15012233.

COMPANY: Tranor Industries, LLC  
ADDRESS 19365 Sherwood,  
Detroit, Michigan  
LOCATED IN: Industrial Development  
District (Established  
1996)

TYPE OF BUSINESS: A tool and die company, likely the largest Tool and Die shop left in Detroit, and one of only five shops in the country that has the ability to provide large panel automotive die design and manufacturing service to automotive customers.

EMPLOYMENT: Existing 10  
New hires 95  
Total 105

We request that a discussion be held for the purpose of considering the authorization by resolution of a Tool and Die Recovery Zone.

Respectfully submitted,  
WARREN P. PALMER  
Director

By Council Member Jenkins:

Whereas, The City of Detroit desires to promote economic activity and maintenance/increases in the number of jobs available to residents of the area, and

Whereas, Certain industries in the state are facing difficult times and the tool and die industry, in particular, has sus-

tained losses due to foreign competition and increased productivity;

Whereas, The designation of a Renaissance Recovery Zone will temporarily reduce the tax burden paid by the business enabling it to reposition itself to compete globally, and

Whereas, The Tranor Industries, LLC has entered into a collaborative agreement with other business entities having the appropriate North American industrial classification, and

Whereas, The qualified tool and die business property is property leased or owned by a tool and die business and used primarily for tool and die operations;

Whereas, Should the area be designated a Renaissance Recovery Zone, property within that zone will be exempt from taxes levied by the city, county, and other units of government as provided under this Act, and

Whereas, We estimate that the tax revenue lost, which is estimated on the attached schedule, would be a small fraction of the benefits the designation of a Renaissance Recovery Zone will bring the community.

Whereas, The business has entered into an agreement with the Detroit Work Force program and the Focus Hope Training facility to establish an apprentice/training program, and

Whereas, The business will adhere to the Executive Order 2007-01 by creating no less than twenty one (21) jobs to be filled by Detroit residents only, and

Therefore Be It Resolved, That the City of Detroit requests that the State of Michigan designate Tranor Industries, LLC, 19365 Sherwood Street, Property ID #s: 15012185-232, 15012007-19, 2300096.711, 15990755.00, 15990756.01 and 15990756.02, identified by the resolution a Renaissance Recovery Zone under Public Act 376 of 1996 for a duration of up to twelve (12) years, expiring December 31, 2023.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Spivey, Tate, Watson, and President Pugh — 8.

**MEMBER REPORTS:**

**Council President Charles Pugh** reported that he had a good conversation with the Administration about the **Detroit Works Project** and the fact that it is moving along quite well; and Member Jenkins has been representing this body and so has each members' designation to the citizen's participation committee. He was pleased to note that there are literally dozens of meetings that have been scheduled in the community and they will be talking about those meetings during Council ses-

sions so that the public can be informed of when and where they are and that they are listed on the city's website as well for people who are interested in participating in the discussions because they have moved out of phase I and into phase II.

**President Pugh** reported that he represented this esteemed body on stage with **Kid Rock** this past weekend to present him with a **Spirit of Detroit Award** on his 40th birthday.

**President Pugh** reported that he and President Pro Tem Brown went on a mission of peace, but strength, to Lansing yesterday on behalf of this body to take **council's resolution opposing any state or regional takeover of City of Detroit's water system.** They met with several members of the Detroit delegation, Representatives Durhal, Stapleton, Talib, Jackson, Santana, Alumba House, Tinsley-Talabi, Stallworth and Senator Smith; those are the members of the Detroit delegation they met with. They also met with the house legislative democratic caucus leader, Rep. Richard Hamell, to talk about getting every member of the democratic caucus to vote "no" on any legislation that would come through. He says that although it would be a tall task, he's going to do the best he can. They also met with the republican chair of the committee through which this bill is likely to come and he was unaware that the bill was headed his way, but said that he would be fair in scheduling any hearings and notify members of the Detroit delegation to keep them informed and that he would have conversations with the Governor about what the Governor's position would be on this piece of legislation, which by the way, was not introduced yesterday.

He stated further that they are going back today where they plan to have conversations with the house speaker as well as the senate majority leader and any member of the Governor's office including the Governor himself if indeed we get the opportunity. They'll be talking with the Michigan Municipal League as well to get their take on this issue. Ken Cole who is Council's Lansing lobbyist, was extremely helpful in this whole process and was very informative on the issue. Representative Chanel Jackson and Senator Burt Johnson would like to return to this body next week to give us any update on what may have transpired between now and then, and he's invited them to speak during formal session on Tuesday. He emphasized that it's certainly Council's mission to have a better relationship with Lansing anyway, so he will be scheduling quarterly updates from Ken Cole and the

leadership of the Detroit delegation as well to come before this body to give updates but certainly on this pressing issue he'll be on the phone as often as needed with Ken Cole and with members of the Detroit delegation just to keep Council informed on how this bill moves through the house an/or senate.

**Council Member Saunteel Jenkins** reported that the **Second Annual Invitational Wheelchair Basketball Tournament** presented by the Rehabilitation Institute of Michigan and Athletes Unlimited will be this coming Saturday, January 22nd from 11 am to 6 pm and Sunday, January 23rd from 9 am to 4 pm at Berkeley High School. This competition is free and is for athletes who are in wheelchairs and many of the athletes who participate in this are from Pioneers for Peace.

**Council Member Jenkins** also reported that she and Councilman James Tate will hold their next **Youth Violence Prevention Task Force meeting** on January 26th at 5:30 p.m. at Southwest solutions located at 1700 Waterman in Detroit.

**Council Member Jenkins** passed out 2 memos; the first one regarding the **General Bond Obligation Sale** and stated that it's been reported multiple times back and forth that the reason that this body voted down the Police Headquarters was because of the dispute regarding the Cable Commission and she reiterated that her reason for voting no was because she needs specific details about how the additional \$35 million would be spent before voting yes on \$100 million. She asked Mr. Corley, what would be the issue with the Administration resubmitting their request so that they only approve the \$60 million now and come back after they've decided how the additional dollars will be spent. Mr. Corley responded that that would be appropriate. Her second memo requested that all Council Members submit any questions regarding **Proposed Capital Agenda** to respective agencies through the Planning & Economic Development Standing Committee prior to Thursday, January 27, 2011.

**Council Member Watson** invited everyone to a special meeting of the **Quality of Life Task Force for Friday January 21st at 3:00 P.M.** in which they'll be hosting representatives from Housing & Urban Development and will be talking about local jobs. She reported on the City having the ability to create local jobs and local contracts from the HUD money already in the hands of the city and that President Obama has appointed a national representative to implement Section III all over the country, his

name is Mr. Youngblood. He's been in LA this week, on his way to Pittsburgh and coming to Detroit on Friday to help all of those departments that received HUD dollars, (\$134 million over the last 12 months), make sure that we have employment and contracts for Detroit residents at the front of the line for that money. She also thanked President Pugh and his staff for stepping up and organizing other meetings, (one scheduled for January 28th at 1:00 pm on Section III), and helping to make sure that the City Council and the Executive Branch staff can work together to establish a plan to help Detroit become a model city for implementing local jobs and local contracts with these HUD dollars.

**Council Member Watson** reported that she attended the school board meeting last night, and was very proud to report that the **Board of the Detroit Public Schools** stood up and is going to maintain their academic control over the district as they work on a settlement process with Mr. Bobb and will be planning a meeting either friday or Monday in the days coming up.

**Council Member Watson** reported that she received a communication from AFSCME asking for some details relative to the St. John's sale of the Riverview parcel to an entity that wants to turn it into a nursing home. **I'm routing those questions to the Clerk so that they can be referred to Dr. Patricia Maryland and others related to the St. John development deal.**

**Council Member Jones** announced the **Skilled Trades Task Force Meeting** to be held January 25th and DMC will be there to talk about the jobs that they are promoting inside the City of Detroit and give an update on what's happening with those jobs.

**Council Member Jones** requested that the Administration respond to Detroit 300's report on **street lights out from 7 Mile to Gratiot on Van Dyke and Outer Drive as it turns into Conners.** All of those lights are out and that's the eastside neighborhood that the rapist is in and we need to get the lights on in that neighborhood.

**Council Member Jones** stated that it was brought to her attention that there is some extensive **development being done on the Riverfront between Cobo and Atwater.** There's a meeting that's suppose to take place on Thursday with the energy companies in regards to the development. Mr. Marable responded that he was not aware of that development.

**Council Member Cockrel, Jr.** submitted a memo on the **Status of GDRRA** and stated that he continues to be con-

cerned about the momentum behind ongoing discussions, negotiations, approvals of contracts, etc., related to GDRRA that this Council is being left out of the loop of. That seems to be an ongoing pattern with this Administration in terms of how a lot of things are being dealt with. It is his understanding that most recently, there's a financial contract that has now been approved that obligates the City of Detroit to operations of the system for a period of 11 years. That was not ratified by this Council and does not come before this Council and he thinks that is a huge problem. Some of the key questions he highlighted are 1) "Why were these contracts obligating city funds for the next 11 years not discussed with the City Council?" 2) "Why was an 11 year contract pursued and ultimately approved by the Administration as opposed to a shorter term, i.e. a 4 year contract?" 3) One of the other things addressed in this memo is if you take a look at the recent audited financial reports of GDRRA which were made available to Council, there is a conclusion in those audited financial reports that GDRRA overcharged the City of Detroit on tipping fees to the tune of about over 40 million dollars so "What's being done to get us our money back? He renewed his request to have a closed session on the status of GDRRA and stated his concern about what seems to be a fast-track and this Council is not even on the train and that's deliberate on the part of some folks. He also distributed a communication from Zero Waste Coalition that addresses a lot of the same issues.  
**Refer memo to GDRRA and RAD.**

**Council Member Tate** announced the **First Annual School Shopper Fair** sponsored by the Detroit Parent Network to be held January 29, 2011, from 5:30 - 8:00 p.m. at Fellowship Chapel located at 7707 W. Outer Drive.

**ADOPTION WITHOUT COMMITTEE REFERENCE:**

**TESTIMONIAL RESOLUTIONS AND SPECIAL PRIVILEGE**

**TESTIMONIAL RESOLUTION FOR**

**2011 CHEVROLET VOLT Extended-Range Electric Vehicle**

By COUNCIL MEMBER COCKREL, JR.:

WHEREAS, The 2011 Chevrolet Volt is the brainchild of former Vice-Chairman of Global Product Development Robert "Bob" Lutz. The Volt was introduced as a 2007 concept to showcase General Motors electric/hybrid technology and to create a mass produced electric vehicle that would travel farther than any electric vehicle in history.

WHEREAS, General Motors created the Chevrolet Volt, powered by the Voltex System, a power-split or series and parallel hybrid plug-in electric motor/gas engine from the Volt Concept combined with regenerative braking. This system extends the full electric range of 25 to 50 miles to more than 350 extra miles after loss of battery power. Using its plug-in feature, the Chevrolet Volt can be recharged in 10-12 hours (120v outlet) or 4 hours (240v outlet) meaning for a commute of 50 mile or less, the Volt will never use gas.

WHEREAS, The Volt's unique Voltex System has changed the way fuel economy is measured. The EPA's recalculated numbers are an unbelievable 93 miles in electric mode (gas equivalent) and 37 miles in gas mode with a combined rating of 60 miles per gallon making the Volt the most fuel efficient vehicle in America. Despite using some of the most advanced technology ever used in a car, the Volt drives like an ordinary car. Automotive editors from many magazines have called the Chevrolet Volt a "car of the future that you can drive today . . . and everyday," "the world's first intelligent hybrid," "The Volt packages the game changing technology in a manner that is nothing short of revolutionary" and "This is the most sophisticated, most important vehicle on the road today."

WHEREAS, The Chevrolet Volt has received numerous awards including, Popular Science 2010 "Best of What's New," Popular Mechanics 2010 "Break-through Award," 2011 Ward's Auto World 10 Best Engines, (Voltec System), 2011 Car and Driver's "Ten Best," 2011 Green Car of the Year, Automobile Magazine's 2011 Automobile of the Year, North American International Auto Show's 2011 Car of the Year and Motor Trend's 2011

Car of the Year. And true to the word of General Motors, the production and assembly of the major components will be completed in the Metropolitan Detroit Area with final production of the volt located in the Detroit/Hamtramck Assembly Plant. NOW, THEREFORE BE IT

RESOLVED, That Councilmember Kenneth V. Cockrel, Jr. and the Detroit City Council, hereby acknowledge the universal acclaim and international success of the 2011 Chevrolet Volt. Just as Chevrolet's founder, William Durant's reorganization of General Motors Company to the General Motors Corporation changed the landscape of the automotive industry 100 year ago; the Chevrolet Volt has become THE game changer for the New General Motors and the world.

**HUMAN RESOURCES DEPARTMENT/ EMPLOYMENT SERVICES**

9. Submitting reso. autho. Request to Amend the Official Compensation Schedule. (In February 2010, sub-classifications were created for City-wide titles of positions that were dedicated to the Head Start program run through the Human Services Department. Those sub-classifications were to facilitate payment of the Federally granted 3.06% base pay Cost of Living Adjustment (COLA) to staff of Head Start programs in the Human Services Department as mandated in January 2010 by the Wayne County Circuit Court. The 1.84% COLA grant award that was issued under the American Recovery and Reinvestment Act should also be rolled into base pay.)

**HUMAN RESOURCES DEPARTMENT/ LABOR RELATIONS DIVISION**

10. Submitting report regarding Pre-Employment Military Service Pension Credit. (It is the position of the Labor Relations Division that there are two significant concerns with respect to the unilateral expansion of pension service credit in this manner. Firstly, amending the ordinance to include the Iraq and Afghanistan wars would cost the City's general fund approximately \$500,000.00 per annum. Secondly, it is the position of this office that benefit matters, which are determined and governed by collective bargaining agreement provisions, should be referred to and addressed in the collective bargaining process. Conferring or expanding benefits unilaterally and outside of collective bargaining would create an undesirable precedent for circumventing collective bargaining which, it is believed, would be extremely

**PUBLIC COMMENTS**

**PHYLLIS McMILLAN (AFSCME Local No. 542):** Their local represents the mechanics. There's an injunction with the trucks, vans and the Emergency Medical Service being sent to private contractors.

Vacancies need to be filled with mechanics. It's cheaper for the City of Detroit to pay them vs. paying a private contractor.

**CHARLES PUGH:** I request this matter be referred to the Fire Department/ Emergency Medical Division to see if this matter can be resolved. Council needs to know what can be resolved.

**JOANN WATSON:** How many mechanics are laid off who should be working?

**McMILLAN:** The local has lost 2/3 of their workers. They're down to seven mechanics.

**KENAN BRAXTON (Inner City Neighborhood Project):** The Project revitalizes neighborhoods. Their organization wants to work with Council on service projects.

At one time non-profits paid a \$5.00 fee for their individuals to receive educational training. That program no longer exists. Now it costs \$10.00 to receive training which exceeds their budget. They're requesting reinstatement of the \$5.00.

**CHARLES PUGH:** How many members do you have?

**BRAXTON:** Approximately 12 members need educational training; it would be beneficial for them.

**ANDRE SPIVEY:** Council Member Spivey stated if their organization absolutely needs money, his office can provide \$60.00.

**DeANGELO MALCOLM:** Mr. Malcolm has concerns regarding repair to the Emergency Medical Service vehicles. Since 2/3 of their employees are down it slows down vehicles getting repaired. It costs less to get vehicles repaired in-house.

He also has concerns regarding stump removal, which is AFSCME

work. His local wants the General Services Department to adhere to the Privatization Ordinance.

**BRENDA JONES:** Council Member Jones invited Mr. Malcolm to attend the January 26, 2011 Budget, Finance and Audit Standing Committee where the matter will be discussed.

**RUDELL HOLMES:** Ms. Holmes offered prayers for the City of Detroit.

Honorable City Council:

Re: Address: 14823 Tacoma. Name: Tionna Turner. Date ordered removed: June 29, 2010 (J.C.C. p. \_\_\_\_).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on December 22, 2010 revealed the building is secured and appears to be sound and repairable.

The owner has entered into an approved Tax Payment Plan as of December 17, 2010.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,  
MICHAEL TAYLOR  
Deputy Director

On July 20, 2010, City Council approved a resolution to sell \$100 million in unlimited tax-general obligation bonds for various capital improvement purposes. The bonds were sold on December 16, 2010 and the funds were deposited into a related city bank account. This budget amendment requests approval to receive the bond proceeds, to record the related issuance costs, and to authorize the appropriations for these capital expenditures in the Non-Departmental Agency.

Bond Project — Public Safety Headquarters — Non-Departmental:

Increase Appropriation No. 13320,  
351210 Detroit Public Safety

The attached resolution authorizes an increase to revenues from the sale of General Obligation Bonds and appropriates in the Non-Departmental Agency \$65,745,689 of the \$100 million to the Public Safety Headquarters capital improvement project, and to bond sales expenses. The remaining balance \$34,254,311 of the bond proceeds will be submitted at a later date to this Honorable Body upon finalization of the funding for the individual capital projects.

**Human Resources Department**

October 21, 2010

Honorable City Council:  
 Re: Request to Amend the Official Compensation Schedule.

In February 2010, sub-classifications were created for City-wide titles of positions that were dedicated to the Head Start program run through the Human Services Department. Those sub-classifications were to facilitate payment of the federally granted 3.06% base pay Cost of Living Adjustment (COLA) to staff of Head Start programs in the Human Services Department as mandated in January 2010 by the Wayne County Circuit Court. The 1.84% COLA grant award that was issued under the American Recovery and Reinvestment Act should also be rolled into base pay.

In joint discussions, Human Services, Human Resources and Labor Relations agreed that distinct classifications exclu-

sive to Head Start, as opposed to sub-classifications, would be the preferred approach to address the pay issues associated with the implementation of COLA increases that are not accorded to other City workers. As such, Human Resources recently adopted the classifications outlined in the attached resolution. This action requests that your Honorable Body approve the associated pay ranges which capture the 1.84% increases.

**Mayor's Office**

January 24, 2011

Honorable City Council:

Re: Acquisition of 421 Madison Center (36th District Court).

In September, 1984, the U.S. Department of Housing and Urban Development ("HUD") made available to the City of Detroit (the "City") \$3,250,000.00 Urban Development Action Grant ("UDAG") funds to be loaned to the Detroit Madison Center Limited Partnership ("DMCLP") for the acquisition and conversion of the Hudson's Warehouse on Madison Street into a courthouse to house the 36th District Court, now commonly known as the Madison Center. Subsequent to the execution of the UDAG Grant Agreement between the City and HUD, the City and the City of Detroit Downtown Development Authority (the "DDA") entered into an Agreement, pursuant to which the DDA assumed the City's obligations to administer the UDAG funds.

Additional financing for the Madison Center Project was provided by the Economic Development Corporation of the City of Detroit (the "EDC") through the issuance of EDC bonds. Ownership of the Madison Center was subsequently conveyed to the Detroit Building Authority (the "DBA") in 1996 in connection with the DBA's issuance of DBA revenue bonds to refinance the bonds that were issued by the EDC. Debt service on the DBA bonds is being paid from rental payments made by the City to the Bond Trustee for the City's use of the Madison Center as a Michigan District Court.

Section 11.5 of the Lease Purchase and Security Agreement between the City and DMCLP, dated September 1, 1996, provides that upon expiration of the term of that Agreement and following full payment of the DBA bonds, the DMCLP agrees to purchase and the DBA agrees to sell the Madison Center to DMCLP for \$1,000.00. Under Exhibit B, Section III to the UDAG Grant Agreement between the

City and HUD and under Article VII of the Development and Loan Agreement between the DDA and DMCLP, the DDA, in turn, has an option to purchase the Madison Center from DMCLP at a cost of \$2,500,000.00, plus the assumption by the DDA of the outstanding balance due from DMCLP on the UDAG loan.

The DDA has given notice to DMCLP that it intends to exercise its option to purchase the Madison Center and has identified available funds in the amount of \$2,261,200.02 to consummate the sale, which must be closed by February 1, 2011. There is, therefore, a shortfall of \$238,799.98 necessary to purchase the Madison Center.

The City Finance Department has identified the additional funds, as set forth in its Resolution, which can only be used by the DDA for the purchase of the Madison Center with the approval of the Detroit City Council.

Once the DDA acquires the ownership interest of DMCLP in the Madison Center, it will quitclaim its interest in the Madison Center to the DBA, which currently holds title to the property.

Upon purchase of the Madison Center by the DDA from DMCLP and the quitclaim of the DDA's interest in the property to the DBA, the DBA will convey, as required by the lease between DBA and the City, the Madison Center to the City. At its meeting on Friday, January 21, 2011, the DBA Board of Commissioners authorized the DBA to convey the Madison Center to the City.

It is, therefore, requested that the Detroit City Council authorize the payment of \$238,799.98 to the DDA to be used to finance, in part, the purchase of the Madison Center from DMCLP. The DDA will then convey its acquired interest to the DBA and, the DBA will convey title to Madison Center to the City.

Respectfully submitted,

SAUL A. GREEN

Deputy Mayor

By Council Member Cockrel, Jr.:

Resolved, That the Finance Director is authorized to make a payment of the sum of \$238,799.98 to the City of Detroit Downtown Development Authority ("DDA") to be used to finance, in part, the purchase of 421 Madison ("Madison Center") from the Detroit Madison Center Limited Partnership by the DDA which

shall then convey its interest in Madison Center to the Detroit Building Authority. Waiver of reconsideration requested.

**Budget Department  
Administration**

January 24, 2011

Honorable City Council:

Re: Reprogramming of Capital Funds for the Purchase of Madison Center.

The Budget Department is requesting authorization to re-program existing general obligation bond funds for the acquisition of the Madison Center. The Madison Center's long-term lease arrangement is scheduled to expire on February 1, 2011. The Downtown Development Authority — DDA, in conjunction with the city, is exercising its option to purchase the Madison Center for \$2.5 million plus assumption of the outstanding debt, as was previously agreed upon in the original transaction.

It was determined, after consultation with Housing & Urban Development — HUD, that only \$2,262,200.02 of the original purchase price was eligible for this purpose. The DDA has no other funds available for this purchase, and as the city

is the eventual owner of this property, the city is committed to providing the remaining funds due for this transaction. The title to said property is currently held by the Detroit Building Authority and will be transferred to the city upon completion of the transaction.

The Budget Department is requesting authorization to reprogram existing bond funds by transferring funds from the Department of Public Works — DPW to the Non-departmental Agency for the Madison Center. The DPW bonds were authorized in 2000 by the voters under the Municipal Facilities Proposal and thus eligible for re-programming for this purpose.

Decrease Appropriation No.

**CONSENT AGENDA**

None.

**MEMBER REPORTS:**

**Council Member Tate** stated it is National mentor Month, which is very important.

**Council President Pro Tem Brown** stated a request was submitted to the Public Service Commission that DTE should change the four hour response time rule when lines were down. He felt one hour was adequate time to respond.

What is the Administration going to do regarding this matter?

Council President Pro Tem Brown wanted the matter referred to City Council Research and Analysis Division for the legal options on this matter. Does an ordinance need to be passed? Do state legislators need to be pressed? What needs to be done to get a one hour commitment relative to wires down in the City of Detroit so the police and fire fighters can do what they're supposed to be doing.

Joann Watson referred this matter to the Law Department to establish the legislation.

Gary Brown wanted to pursue the best measures to ensure security in the City of Detroit. There are ways in regard to environmental design to make Police Stations safer. The public should be

able to use the precincts as community centers. Best practices around the country relative to environmental design should be perused.

Precincts should be safe, police officers should be safe and citizens who come to the precincts should be safe. They should be safe centers.

**Council President Pugh** invited everyone to attend City Council's Evening Community Meeting at Hartford Memorial Baptist Church, which will have new security measures due to the recent incidents at the 6th Precinct.

Senator Burt Johnson will be joining Council at 2:30 P.M. in the Erma Henderson Auditorium.

**Council Member Jenkins** invited everyone to attend the Youth Violence Task Force tomorrow at 1700 Waterman. The DPS bonds have been initiated.

The Rules Committee Meeting will be rescheduled for Friday, February 25, 2011 at 10:00 A.M.

Council Member Jenkins stated she read a City of Detroit communication dated 2003 which listed water rates paid by every community that purchases water from the City of Detroit. The article listed what the City charges; what their community charges and the percentage of increase charged. The ad was taken out in the Detroit News, Detroit Free Press, the Oakland Press and Macomb County papers. Allegedly it had been an attempted take over of the Water and Sewerage Department.

Council Member Jenkins requested City Council Research and Development and Fiscal Analysis Divisions to draft a document regarding the water rates relative to what the City of Detroit charges the suburbs and in turn what they charge their customers.

**Council Member Jones** stated there will be an update given on the Winter Blast Project.

Council Member Jones requested City Council Research and Analysis Division to scroll the information relative to event.

Council Member Jones visited the 6th Precinct, who is making sure everyone at the precinct is safe.

**Council Member Spivey** requested everyone to attend the evening community meeting.

**Council Member Cockrel, Jr.** will present Spirit of Detroit awards to those who passed out turkeys on Thanksgiving.

Security procedures will have to be engaged in from the standpoint of possible changes in security procedures regarding police officers in the

precincts. Perhaps additional expenditures should be perused to address the issues. Equipment could be purchased and security equipment could be purchased.

Council Member Watson gun control could be helpful.

#### MEMBER REPORTS

**COUNCIL MEMBER JOANN WATSON:** I would ask that the memorandum that I routed to Research and Analysis Division during the Neighborhood and Community Service last Thursday be responded to by Thursday because we need the answer to help with the tax meeting on Friday morning.

**COUNCIL MEMBER JAMES TATE:** I had the opportunity to go to the First Annual Parent School Shopper's Fair sponsored by Excellent Schools Detroit this Saturday at Fellowship Chapel; it was very enlightening. I'm going to continue to support this effort. It was a pleasure to have school board President Anthony Adams at the last Youth Violence Task Force Meeting. We talked about violence and he mentioned something that many people in the community have talked about; potentially opening up the schools for the weekend and utilizing them as recreational centers. I think this is the first time that has been mentioned but he did not say that will occur. We definitely have to provide our children with better options outside of the ones that we currently have. The next School Shopper's Fair will take place at Wow Church and Life Center, February 5, 2011, 14111 E. 7 Mile Rd. If you have any questions, please contact my office at (313) 224-1027.

**COUNCIL MEMBER ANDRE SPIVEY:** The final shooting for Detroit 187 begins today and it concludes next Tuesday; this is an economic boom for Detroit and I hope they can stay on next season.

Mr. Marable, you sent an e-mail about the new Planning and Development Director, Mr. Robert Anderson; I hope he can come to the table.

February 1st, I want us to remember

this date in history. Everyone should know that Turner was born in 1834. Langston Hughes passed in 1957. In 1978, the U.S. Postal Service honored Harriet Tubman by releasing the 1st collectible postage stamp. The most important part of it all is the ratification of the 13th amendment abolishing slavery in 1865. We have (365) days of history, but more so in February.

Lastly, to all my colleagues, we've seen and heard about the challenges at Detroit Public Libraries. The Enterprise Agency, there are some challenges about lay offs and library branches may be closed, so keep your eyes and ears open for that as we go forward.

#### COUNCIL MEMBER BRENDA JONES:

We've all heard about the snow that's coming to our city and I just wanted to say to all the citizens that if you don't have to go out, don't go out. In the event there is a snow emergency, please do not park on the major streets; they will plow the streets as quickly as possible. In the event that snow accumulates to six inches or better, the department will engage contractors to plow the residential streets but they will not plow from curb to curb. In the event there is that much snow, I'd like the department to put information on channel 10 so that the citizens are aware of their responsibilities relative to parking and cars being towed.

#### COUNCIL MEMBER KENNETH

**COCKREL, JR.:** I have two items for the clerk. One is a notice of an upcoming discussion that I'd like to have added to my agenda for the Budget, Finance and Audit Standing Committee. Next week, I'd like the clerk to make note of the fact that I will be bringing the recording artist Drae Town, featuring Lawson, to the table to be recognized with the Spirit of Detroit Award.

#### COUNCIL MEMBER GARY BROWN:

Allegedly, over the recess, there was a closing with regards to the Cobo Hall Regional Conventional Authority. Allegedly, the City of Detroit received our \$20 million dollars that they owed us for the parking. I'm reasonably assured that they tried to get that to us because they wanted revenue from the Auto Show with regards to parking but I NEED THE ADMINISTRATION TO GIVE US A FULL REPORT OF THE STATUS OF THAT \$20 MILLION DOLLARS. IF WE DID RECEIVE IT, WHERE DID IT GO? MR. CORLEY, CAN YOU SHED SOME LIGHT ON THIS?

Charles Pugh: Mr. Corley, did you notice a receipt of \$20 million dollars?

Irvin Corley: According to the 2010 CAFR, in the footnotes it is indicated that the \$20 million is residing in the

Detroit Building Authority to pay off the parking bonds, but that should be confirmed by the Administration.

Charles Pugh: Don't we need a budget amendment for receiving the dollars?

Irvin Corley: No. That was part of the agreement; that should be confirmed.

Charles Pugh: MR. MARABLE, WE NEED CONFIRMATION OF THAT.

J. Watson: We should note that there was always the notion that somehow we were receiving an infusion of cash. Apparently this weekend the city always received \$20 million in receipts from the Cobo parking. This business that the city was carrying Cobo for \$15 to \$20 million dollars a year was incorrect. WHERE'S THE \$20 MILLION DOLLARS ANNUALLY FROM MUNICIPAL PARKING AT COBO?

G. Brown: Last week I was over at the 6th precinct to say thank you to the men and women in blue that did a tremendous job and I recognized that we have prisoner detention officers working in the cell blocks, which are civilian personnel. It is kind of important because when we close the 8th and 9th floor, we negotiated a contract that would allow civilians not to lose their jobs but to go out to the precincts and replace police officers so they wouldn't be in the cell blocks. It was indicated that they have five civilians at the 6th precinct, so they are at every precinct. Because of mandatory furlough days, they are required to take off which requires the Police Department to pay police officers overtime in order to replace the civilians. The civilian workers get paid half of what a police officer make, so we're paying police officers time and a half to replace a civilian who wants to be at work, but contractually they cannot work. I WOULD LIKE THE ADMINISTRATION OR LABOR RELATIONS TO GIVE US AN OPINION ON WHETHER OR NOT THAT COULD BE RELAXED FOR THAT GROUP SO THAT THOSE PRECINCT COMMANDERS COULD BETTER CONTROL THEIR BUDGET. We have to fix that and they should be held responsible for their budget.

Charles Pugh: That's an unintended expense.

G. Brown: I did have a meeting with St. John and it occurred in our Public Health and Safety meeting with regards to EMS. Emergency Medical Service is sort of the feeder system into the emergency rooms. At Henry Ford, St. John and DMC, there are advantages for us to deliver patients to them on a schedule as opposed to going through the emergency room. There are great cost savings for both sides. It's great savings for the City of Detroit because we're going to eliminate some of those calls

in the EMS queue. We're going to be working with Health and Human Services to identify sixty percent of the calls which are not emergencies, and a great portion of those folks do have insurance and if we can give them a ride through a system that we already have in place with DDOT to an urgent clinic, that would have a huge impact on the response time.

Whereas technology is concerned, relative to what we talked about earlier with regards to change of lights, well you might shave a few seconds off a run, but we can shave literally ten or fifteen minutes. We're working with that, and I just wanted to let the public know that we're looking at every angle we can to improve the response time for EMS. The Administration is not denying that these problems exist and they're working with us in order to try to find a better way to deliver that service.

S. Jenkins: I would recommend to Pro Tem. Brown that one of the places you all start with is shelters and treatment centers.

G. Brown: We will note that; that's an excellent example.

#### COUNCIL PRESIDENT CHARLES

**PUGH:** I'd like to make a request of Research & Analysis Division to look into the feasibility or any legal restraints that we would have of being able to advertise on Channel 10 or 22 for the purpose of generating revenue for the City.

D. Whitaker: We'd be happy to put it in writing, but I believe the FCC rules inhibit any advertising of any kind. We've done reports in the past where Council has brought in folks for presentations for restaurants, etc., and it sort of given an advertisement for that restaurant during the presentation and we were warned against that and was provided some documentation. We will be happy to circulate that.

C. Pugh: Given the financial situation of the city, there has to be a way around any law, maybe working with the FCC for special consideration or something of that nature.

D. Whitaker: We'll look into it.

C. Pugh: Mr. Marable, we're still waiting on an Administration response on our status of Tier One Designation and what's going on with that. We have a copy of the memorandum we've sent and if you would like it again, we'll submit it to you.

#### COUNCIL MEMBER SAUNTEEL

**JENKINS:** I'd like to co sign what my colleague James Tate said and just to say thank you to Anthony Adams for being at our Task Force Meeting and being actively involved. He has committed to work with this body on anything

that we have in the works will improve the lives of our children in the Detroit Public Schools.

As you know, I was in Memphis on Thursday and Friday with the Deputy Mayor, Dr. Anthony from the Health Department and Dr. Dudley from Youth Connection. We met with the city mayor and the county mayor. We've met their police director, which is their chief of police, folks from their corporate communities, and one city council member. They have a really interesting concept and that's a crime commission and they are decisions makers. They all come to the table, there were non profits as well as business at the table and they came up with this fifteen point plan to fight crime. In the last five years in Memphis, there has been a significant decrease in crime in every area. It was a very interesting concept to have all the stakeholders at the table deciding the best way to fight crime and I think the Deputy Mayor saw the value in it as well and hopefully, we can move towards something similar.

Lastly, Blue Cross Blue Shield has summer internships for college students. I want all the college students in our city to be aware and apply now. For undergrads students, the jobs will be paying between \$11.50 and \$14.50 per hour. For graduate students, the jobs will be paying between \$18.50 and \$22.50 per hour. You can go [www.bcbsm.com](http://www.bcbsm.com) and click on careers to find out or you can call my office.

I'd like to present a Spirit of Detroit Award to Mike's Fresh Market for 2010 Grocer of the Year.

Dear Heavenly Father:

I thank You for Your grace and mercy, and I thank You for loving us the way that You do.

Today, Father, we lift these men and women up before You as they prepare to make decisions for the City of Detroit.

Father, please give them wisdom, knowledge and understanding, so that they will make the decisions that You want them to make.

Give them a clear vision of the city, and help them to see the times in which we live. Help them to realize that because You are the Creator, You have all the answers to all the questions, and the solutions to all the problems, and as they yield themselves to You and become conduits, You can flow through them.

Take over and bless them today, and we will give You the praise, in Jesus's name.

**Terrence D. Knott, Sr.** inquired about home improvement grants. He said that he contacted Councilperson Joann Watson, who referred him to the Planning and Development Department, but the grant information he received was for areas other than those in or near his own community. He asked for help getting information about home improvement block grant money targeted for his specific community. Councilwoman Watson suggested that Council request the City Planning Commission and the Mayor's Office to assist Mr. Knott in identifying specific home improvement grants available to help with his home repairs.

**(Referred to the Mayor's Office and City Planning Commission.)**

**Therlon Hall** complained that DTE is forcing many Detroit residents, including seniors to pay as much as \$1,500 on one monthly gas bill, or risk having their gas and electric service shut off. Hall said DTE is showing no compassion or mercy for seniors and others who already don't have enough food to eat. He also complained that DTE representatives are mean and disrespectful when speaking to customers who are struggling to make ends meet, and it was time that somebody stood up and objected.

**(Referred to Council Member Watson's Office to assist in scheduling a hearing with DTE.)**

**George Colley**, student of Tech Town, said that he had been before Council five previous times and that he had also spoken with Marcell Todd and Tony Jeffrey of the City Planning Commission on prior occasions about funding for Tech Town. He said that following his last visit to Council six months ago, Council Member Cockrel was supposed to be handling his concerns, but that he hadn't heard anything from Member Cockrel or his office. Mr. Colley claims to have received an email from someone (working for him) stating that City Council would not or could not do anything to address his issue. Council Member Cockrel responded that the issue raised by Mr. Colley was extremely complicated and that it related to an allegation of patent theft. He offered to have Mr. Ford of his office meet with Mr. Colley again to see whether something could be done. Council President Pugh asked whether the issue had been submitted in writing. Mr. Colley responded that he had submitted a written copy of his complaint. The Council President told Mr. Colley that he was on the Tech Town Board, and would have someone from his office look into the matter as well.

**(Coit Ford from Council Member Cockrel's Office will assist Mr. Colley.)**

**Edna Goree** addressed City Council on behalf of her husband, who had been convicted of the State's felony firearm statute. She said that for the past several years, she had been helping her neighbor by giving him five or ten dollars to pay for gas to drive his children to school, etc. But when her husband offered the man a job application, he turned it down, saying that he was trying to get social security disability. When Ms. Goree stopped giving the man money, he started destroying her property and cursing at her; he broke her car windows, cut down her flowers and dug up her grass. She said her husband, who is nearly 60 years old has had a CCW license for ten years, but never has had to use his gun. Then, last August, the man came up on her porch to attack her. When her husband came out, the man said I have something for you and went behind his back. Feeling that he was being threatened, her husband shot the man in the arm. When they went to court, they learned that the man had been high on drugs. Ms. Goree believes that the whole mess started because she had stopped lending the man money. Her husband was jailed, charged and convicted of a felony firearm offense. Up to that time, he never had a criminal record in his life. He lost his job of 23 years at an army base due to his incarceration. Ms. Goree requested a petition to object to the unfairness of people who own CCW licenses being charged for felony firearm offenses. Council President Pugh

responded that he did not know whether City Council could help because the crime in question is governed by state law. He added that there are strict laws about when a firearm can and cannot be used, and those laws must be followed by anyone who has a CCW. He did not know whether they could change those laws and restrictions by way of a City ordinance. He offered to have someone from his office take down her information, but said he doubted that the City could do anything to help. Ms. Goree asked to be referred to those who could, and Council President Pugh responded that that could be done.

Honorable City Council:  
Re: PDD's 2009 Jobs and Investment Monitoring Report Industrial Development District Tax Abatement (Public Act 198) Council Resolution for Reduction or Revocation Public Hearings.

In our November 18, 2009 report on the Planning and Development Department's (PDD) 2009 report, relative to its 2009 Public Act 198 Jobs and Investment Monitoring reports. We reported our findings to the Planning and Economic Development Committee.

Based on our final review, it is our recommendation that your Honorable Body begin the process of holding public hearings to revoke the 3 abatements listed as non compliant by PDD, due to a lack of submitting their contractually required Annual Status Reports (surveys). Based on a closer review of the aforementioned 3 abatements, we determined that the abatement facilities listed below are abatements on the books at facilities that are now closed:

<u>Certificate Number</u>	<u>Company (Facility)</u>	<u>PDD Report Comments</u>	<u>Abatements for Revocation</u>		<u>Fiscal Comment and Final Recommendation</u>

**Conclusion**

Attached, please find our resolution and the list of the 3 remaining non-expired tax abatements, associated with the companies that have not reported to PDD, in accordance to Section 3 of the Industrial Facilities Exemption Certificate Agreement (between the city and each individual tax abatement recipient). Section 3 requires that each abatement recipient provide an Annual Status Report to the Planning and Development Department (PDD) "...each year...throughout the term

of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant."

Accordingly, Section 5 of the Certificate Agreement has the following two provisions, "The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or...required to be provided to the City." And "Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement." The language of the two provisions above, are the basis for the required public hearings.

Please contact us if we can be of any further assistance.

### City Planning Commission

January 24, 2011

Honorable City Council:

Re: Request of Nolan Real Estate Interests, LLC to rezone 18145 and 18147 Mack Ave. from a B4 (General Business District) and P1 (Open Parking District) to a PD (Planned Development District) zoning classification for the construction of a drive-through self-storage facility (Recommend Approval).

#### PROPOSAL

The petitioner, Nolan Estates Interests, LLC, is requesting to rezone 18145 Mack Avenue (zoned B4, General Business District) and 18147 Mack Avenue (zoned P1, Open Parking district) to a PD (Planned Development) District zoning classification for the construction of a 4-story, 97,000 square foot, drive-through self-storage facility with office and residential unit for on-site staff. The property is generally bounded by Mack Avenue to the south, Radnor Avenue to the west, the north-south alley east of Radnor to the east and the east-west alley north of Mack to the north.

The facility would contain self-storage units of varying sizes with an office space/residential unit sized at 900 square feet. The site would also contain landscaping and nine parking spaces along the Mack Avenue frontage with additional parking inside the building. The loading and trash receptacle areas would be located inside the facility.

#### BACKGROUND

##### May 20th Public Hearing Results

Five individuals spoke during the City Planning Commission (CPC) public hearing held on Thursday, May 20, 2010, and expressed their support, opposition, and/or concerns regarding the project.

Those in support of the development felt it would be a positive development for the area to help revitalize the currently vacant commercial property.

Several business owners and repre-

sentatives from the cities of Grosse Pointe and Grosse Pointe Farms attended the public hearing and expressed their concerns and suggestions regarding the proposal. Their concerns included the scale, height, and the contemporary/industrial architecture of the facility being proposed in an area, which is a traditional main street area with more traditional architecture and one- to two-story buildings. Other concerns included traffic flow and the use of a public alley as the main egress point for the development. Commissioners directed CPC staff member, Angeline Lawrence, to meet with interested parties to further explore the issues of concern.

##### June 1st Stakeholder Meeting

On June 1, 2010, Ms. Lawrence met with various stakeholders and the petitioner and with representatives of the neighboring municipalities of Grosse Pointe and Grosse Pointe Farms to review the various concerns and to explore means of mitigating the concerns. (The CPC staff reports to the Commission dated May 14, June 14, and June 25, 2010 articulate in detail the concerns and responses relative to the proposed plans and elevations.)

As a result of the meeting, the developer submitted modified site plans and elevations for the proposed development. The elevations on the south and west side of the site were changed to reflect the existing architectural features in the area. The height of the south elevation was modified to reflect a reduction in the height of the atrium from over 46 feet to 25 feet. Additional landscaping was also added along the west elevation next to the proposed office/residential unit area. The north elevation was changed to show an unsheltered overhang area in the rear exit driveway to allow visibility of the alley for vehicles exiting the facility.

The CPC revisited the proposed rezoning at its meeting of June 17, 2010, received a report from Ms. Lawrence indicating the status of review and discussions, and then requested her to present a recommendation at the subsequent CPC meeting.

##### July 1st CPC Vote

City Planning Commission (CPC) staff submitted a report and recommendation regarding the proposed rezoning on June 25, 2010. CPC staff's recommendation at that time was for **denial** of the proposed plans and elevations related to the proposed planned development. The Commission voted at its July 1, 2010 meeting to table the proposal rather than to deny it, pending resolution, in particular, of the outstanding issue relative to use of the adjacent alley as the proposed facility's only egress to Mack Avenue.

##### October 12th Meeting with DPW

On November 4, 2010, the Commission

voted to un-table the issue, having received confirmation that the applicant and the Department of Public Works/Traffic Engineering Division had agreed to the terms of a **maintenance agreement** relative to the alley in question as a result of their meeting on October 12, 2010.

#### **REVISIONS OF PLANS AND ELEVATIONS**

The alley issue was one of several points of concern highlighted at the Commission's May 20, 2010 public hearing and subsequently at the CPC meetings of June 17, 2010 and July 1, 2010. The bulk and massing of the proposed storage building, its height and scale, were noted as out of character with the nearby commercial development along Mack Avenue. Aesthetically, there was concern over the appearance of the expansive eastern and western façades of the proposed building and relative to the landscaping and screening that would be appropriate for the site.

Additional revisions to the plans and elevations show a hip roof, rather than a flat roof, on the lower portion of the **south elevation** over the office/apartment within the structure. The arched doorways were changed to display a rectangular shaped area comprised of squares with vertical rectangular shaped windows. The columns are accented with additional rectangle accents and rectangle shaped halogen light fixtures with arms.

The **west elevation**, which faces the existing church and residential area along Radnor Avenue on the City of Detroit side of the property, now shows architectural features (spandrel windows) similar to the revisions made on the east elevation facing the cities of Grosse Pointe and Grosse Pointe Farms.

The **east elevation** (Option A) shows two levels of five spandrel windows; the lower level of windows is shown with black awnings. Light fixtures are depicted on the columns that separate the windows. Both awnings and light fixtures would have to be placed in such a way as to be consistent with DPW's specifications for the alley and not project into the alley. The distance between the eastern edge of the building and the alley is only twelve inches. The eastern elevation will have the same rectangular accents as on the south elevation, with a decorative cornice and flat roof over the second decorative entry way.

The **northern elevation** shows three supportive columns along the northern edge of the building where there is a 35' x 75' open area underneath the 3rd and 4th floor overhang in which vehicles can maneuver. Plans call out a stop sign and light signal to alert alley traffic of outgoing vehicles; staff's recommendation includes a condition that a mirror be added to enhance vehicle visibility at the alley.

#### **Site Plans**

The petitioner did not substantially revise the landscape or site plan drawings for the site. Thus, the previously reviewed information would remain the same including a 30- by 7-foot-wide area of landscaping along the west elevation of the proposed office/loft area. There were no other changes made to the landscaping plan within the boundaries of the proposed PD District; however, the plans indicate a landscape buffer along the eastern edge of the alley. The property abutting the alley's eastern edge is owned by the same party that is selling land to the applicant for the proposed storage building on the western edge of the alley.

#### **MASTER PLAN**

The subject site is located in Neighborhood Cluster Three of the Finney Neighborhood Area of the Master Plan of Policies. The existing land use designation for this area is Commercial, while the future land use designation is Special Commercial. The use appears to be consistent with the Master Plan of Policies. The Planning and Development Department has submitted a report that determined the proposed development is in compliance with the Master Plan of Policies.

#### **ANALYSIS**

CPC staff's original recommendation for denial of the proposed development rested on the small size of the site (0.86 acres), the near total coverage of the site by building, the use of the public alley as the sole means of egress from the facility, and the incongruity of the building's bulk, shape, and appearance with other commercial buildings fronting along Mack Avenue.

While the acreage has not increased, the revised plans and elevations are more sensitive to aesthetics and the traffic safety concerns. Staff feels the appearance of the building is noticeably improved with the addition of windows and accents. Landscaping within the limited space available responds well to other Mack Avenue storefronts adjacent to residential areas. Very importantly, the developer has shown a willingness to accommodate appropriate treatments for the edges of the property abutting neighbors. The common ownership of the land on either side of the alley and the current owner's willingness to provide off-site improvements to enhance the redevelopment of 18145-18147 Mack present an unusual opportunity to make ample and tasteful use of a constricted site.

Early in CPC staff review of the project, DPW recommended that the alley be vacated. The petitioner had issues with the timing and processing of this requirement. Without being able to address egress from the site, staff could not recommend approval. Much back and forth amongst all parties finally resulted in an acceptable solution.

With DPW/Traffic Engineering's readiness to enter into a maintenance agreement for the alley with the developer, the use, upkeep, and maintenance of the alley as the sole means of egress for the storage building are responsibly addressed.

The Planning Commission recognizes the proposed redevelopment of 18145-18147 Mack is not without drawbacks. We note, however, that no opposition to it was raised by those Detroiters who would be most directly affected by the proposal. We see the proposed commercial use as having little disruption on the adjacent properties while offering passing traffic and the broader community a storage service not readily available on the east side of the City.

In light of the rezoning approval criteria in Sec. 61-3-80, staff finds the proposed development:

- Is consistent with the Master Plan;
- Responds to the public health, safety and general welfare;
- Would not impede the City and other service providers from providing adequate public services and facilities;
- Would not have significant adverse effects upon the environment or other property;
- Will not create an illegal spot zone.

With regard to the PD approval criteria in Sec. 61-3-96, staff finds:

- That, notwithstanding the small size of the property, appropriate steps have been taken to facilitate responsible development of the property and the safe passage of vehicular traffic on and off site;
- That, given the mixed-use character of the development — having storage, office, and residential activities — no zoning district other than PD is better suited to accommodate the proposed development;
- That the proposed use will provide a benefit to the general community while converting idle property to an active use;
- That the proposed PD is consistent with the intent of the Michigan Zoning Enabling Act in creating planned unit developments;
- That the proposed development is otherwise consistent with provisions of the Zoning Ordinance.

#### RECOMMENDATION

At its meeting of December 2, 2010, the City Planning Commission voted to recommend approval of the rezoning request for the property located at 18145 and 18147 Mack Avenue from a B4 (General Business District) and a P1 (Open Parking District) to a PD (Planned Development District) zoning district classification with the following conditions and notations to the plans and elevations prepared by NF Engineers, dated November 8, 2010, and by AZD Associates, Inc., dated November 8, 2010 (Option A):

1. That the developer provide an executed maintenance agreement with the City of Detroit Department of Public Works (DPW), Traffic Engineering Division with respect to the 20-foot wide north/south alley at the eastern edge of the subject property.

2. That any lighting fixtures on the building's eastern façade conform to applicable provisions of the alley maintenance agreement with DPW.

3. That the developer communicate and coordinate with the owners and occupants of the abutting properties to mitigate any potential negative impacts of construction.

4. That the Mack Avenue curb cut be properly dimensioned to the satisfaction of the Department of Public Works.

5. That the developer take such steps as may be necessary with the property owner at the eastern edge of the north/south alley to provide a landscaped buffer along the eastern edge of alley.

6. That landscaping and screening abutting the western façade of the building be consistent with Sheet L2, except where the developer, in consultation with the owners of abutting properties, proposes alternate treatment preferred by the abutters and satisfactory to City Planning Commission staff.

7. That an appropriately positioned mirror be placed at the northeast corner of the building to enhance the visibility for vehicular traffic moving north along the alley and for vehicles exiting the building.

8. That final site plans, elevations, lighting, landscape, and signage plans be submitted to the City Planning Commission for review and approval prior to making application for applicable permits.

Based on the analysis of the subject property, departmental review results, review of existing community plans, discussions with stakeholders, and the PD and Zoning Ordinance Map Amendment approval criteria, the City Planning Commission respectfully recommends to your Honorable Body:

- **Approval** of the plans and elevations prepared by NF Engineers, dated November 8, 2010, and by AZD Associates, Inc., dated November 8, 2010 (Option A) for 18145-18147 Mack Avenue subject to the eight (8) conditions recited in the ordinance; and

- **Approval** of the attached ordinance, approved as to form by the Law Department, to amend District Map No. 39 of Article XVII, Chapter 61 of the 1984 Detroit City Code, the Detroit Zoning Ordinance, to show a PD (Planned Development) District zoning classification at 18145 Mack Avenue (currently zoned B4, General Business District) and 18147 Mack Avenue (currently zoned P1, Open Parking district) to allow for the construction of a 4-story, 97,000 square foot,

drive-through self-storage facility with office and residential unit for on-site staff.

The petitioner looks forward to your Honorable Body introducing the attached ordinance at your earliest convenience and to direct the Clerk to schedule the Charter-mandated public hearing before the Planning and Economic Development standing committee. Per the direction of the City Planning Commission, CPC staff will continue to monitor this development and work with the adjacent community and the developer upon adoption of the ordinance.

As you may recall the Community First — Paradise Valley, LLC proposes to invest \$1.2 million to create 100 new single family homes.

The Act requires that at least 60 days must pass from the date of the notice of the public hearing to the date of your formal approval of a resolution establishing the NEZ. We request that you approve the resolution at your formal on February 8, 2011 or later.

Respectfully submitted,

MARJA M. WINTERS

Deputy Director

By Council Member Jenkins:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zone Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master

Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the Community First Paradise Valley NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Community First Paradise Valley Neighborhood Enterprise Zone was conducted before the Detroit City Council on January 20, 2011, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No Impediments to the establishment of the Community First Paradise Valley Neighborhood Enterprise Zone were cited;

Now Therefore Be It

Resolved, That the land described in the attached legal description, and shown on the attached map, is hereby established as the Community First Paradise Valley Neighborhood Enterprise Zone pursuant to Public Act 147 of 1992, the Neighborhood Enterprise Zone Act.

Honorable City Council:

Re: Property For Sale By Development. Development: 108 Winder.

The Planning & Development Department is in receipt of an offer from Woodward East Congregation of Jehovah's Witnesses, a Michigan Ecclesiastical Corporation, to purchase the above-captioned property for the amount of \$24,500 and to develop such property. This property contains approximately 8,146 square feet and is zoned PD-H (Planned Development District-Historic).

The Offeror proposes to construct a paved surface parking lot for the storage of licensed operable vehicles with appropriate fencing and landscaping to accommodate visitors and members of their adjacent worship facility. This use is permitted as a matter of right in a PD-H zone. This use was presented to the Brush Park Citizen's District Council and approved by that Body on June 15, 2009.

The Planning & Development Department has evaluated the proposal from Woodward East Congregation of Jehovah's Witnesses, a Michigan Ecclesiastical Corporation, and now wishes to move forward with the conveyance of the subject property.

The disposal of this land by negotiation is an appropriate method for making the land available for development.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing the advertising of, and the holding of a public hearing concerning this offer on the 3rd Day of March, 2011 at 10:45 a.m.

Respectfully submitted,

WARREN P. PALMER

Director

By Council Member Jenkins:

Resolved, That this offer by Woodward East Congregation of Jehovah's Witnesses, a Michigan Ecclesiastical Corporation, to purchase and develop 108 Winder in the Brush Park Rehabilitation Project is in satisfactory form; and

That the disposal of this land by negotiation is an appropriate method for making the land available for redevelopment; and

That the developer possesses the qualifications and financial resources necessary to acquire and develop the property in accordance with the Development Plan; and

That the offered aggregate price of \$24,500 is equal to the fair market value of the land for use in connection with the Development Plan, and to hold a public hearing concerning this offer on the 3rd Day of March, 2011 at 10:45 a.m.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

Honorable City Council:

Re: Transfer of Jurisdiction of Real Property and Designation of Same as Surplus Property: 5020 Cadioux (a/k/a George H. Cannon Playfield & Recreation Center); 6965 McGraw (a/k/a Dingeman Playfield); 10147 W. Chicago (a/k/a Owen F. P. Hammerberg Memorial Playfield).

We request that your Honorable Body transfer jurisdiction of the above stated properties from the Recreation Department to the Planning and Development Department (P&DD) and designate the same as surplus real property for the reasons stated below.

The Detroit Public School District (DPS) offered to purchase three (3) City of Detroit owned Recreation properties. The properties are adjacent to DPS-owned sites. DPS is particularly interested in these City-owned properties because DPS plans to build three (3) new high schools incorporating these properties. The new schools are Finney, Chadsey/Munger, and Mackenzie. The City-owned properties DPS offered to purchase are Cannon Recreation Center and Playfield, Dingeman Playfield, and Owen F. P. Hammerberg Playfield.

Instead, the Director of the Recreation Department offered to exchange the City-owned properties for DPS-owned properties and cash in an effort to acquire recreation space consistent with the Recreation Department Strategic Master Plan (Master Plan). The Master Plan indicates areas in which the City is lacking in

recreational space It also indicates that the above identified City-owned recreation properties are under used, in poor condition, and in areas serviced by other nearby parks and recreation centers. Thus, the Director identified three (3) DPS-owned elementary schools that would satisfy the Master Plan through construction of new parks in neighborhoods that do not otherwise have parks in the nearby vicinity. The DPS-owned properties are Stewart Elementary School, Brewer Elementary School, and Clinton Elementary School.

In furtherance of this, The Recreation Department and P&DD will request approval from your Honorable Body at a later time to exchange above mentioned city-owned recreation properties for the DPS-owned properties by execution of a "Real Estate Exchange Agreement" between the Detroit Public School District and the City of Detroit.

At this time, however, the Director of the Recreation Department has indicated to P&DD that the above-captioned properties are surplus to their needs and requests that P&DD assume jurisdictional control over these parcels: 5020 Cadieux (George H. Cannon Playfield & Recreation Center); 6965 McGraw (a/k/a Dingeman Playfield); 10147 W. Chicago (a/k/a Owen F. P. Hammerberg Memorial Playfield).

We, therefore, request that your Honorable Body transfer jurisdiction of 5020 Cadieux (George H. Cannon Playfield & Recreation Center); 6965 McGraw (a/k/a Dingeman Playfield); 10147 W. Chicago (a/k/a Owen F. P. Hammerberg Memorial Playfield) to the Planning and Development Department and declare the same surplus. For your convenience, we have provided three (3) separate proposed resolutions to accomplish this, one for each of the City-owned properties.

Respectfully submitted,  
MARJA M. WINTERS  
Deputy Director

By Council Member Jenkins:

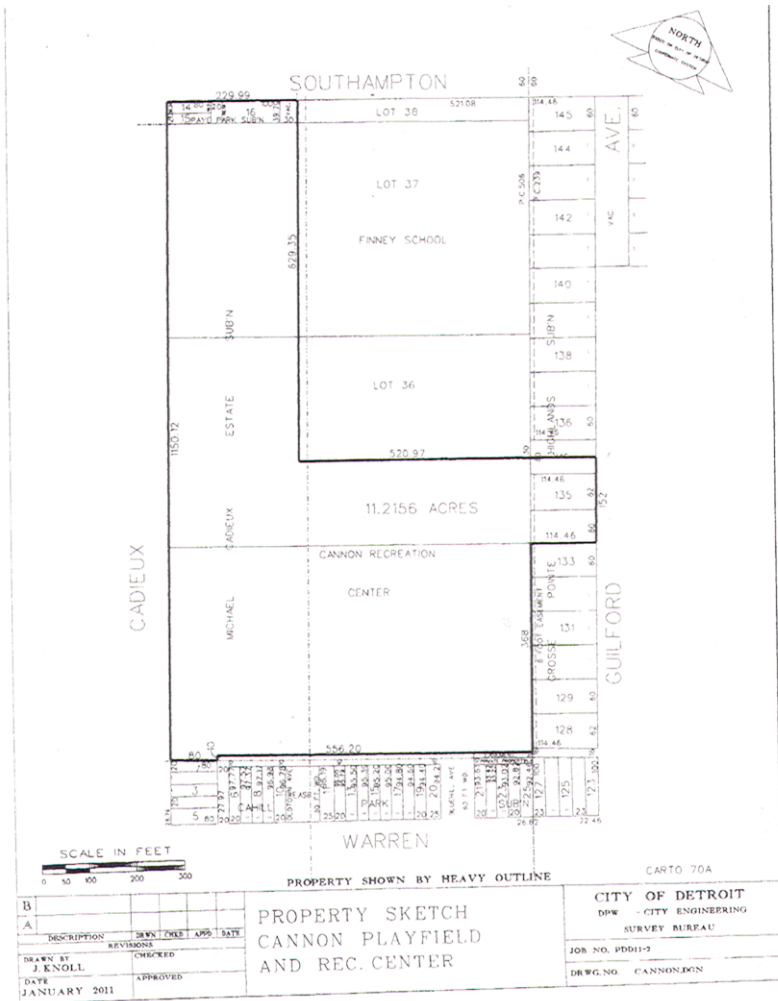

Resolved, That in accordance with the foregoing communication, the Recreation Department is authorized to transfer jurisdiction of 5020 Cadieux (a/k/a George H. Honorable City Council:

Re: Address: 4553 Bangor. Name: Tammy Lynn Boggs. Date ordered removed: July 20, 2010 (J.C.C. p. 1871).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on November 8, 2010 revealed the building is secured and appears to be sound and repairable.

The owner has paid current taxes due as of October 1, 2010.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow

occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

### Water and Sewerage Department

January 12, 2011

Honorable City Council:

Re: Proposed Inter-Governmental Agreement between Detroit, Westland and Wayne for the Glenwood Road Project.

The Detroit Water and Sewerage Department (DWSD) requests your approval of an Inter-Governmental Cost-Sharing Agreement with the Cities of Westland and Wayne for the Glenwood Road Project. The Agreement will provide for sharing the cost of installing a new DWSD water main in Glenwood Road, with the cost of paving the road covered by Federal Stimulus Funds. This Agreement was approved by the Board of Water Commissioners on December 15, 2010.

Glenwood Road runs east-west and forms the border between Wayne and Westland. Both cities are DWSD water customers. DWSD has a water main in Glenwood Road. It is old and has had a number of leaks in recent years. DWSD has decided to replace it with a new pipe.

Glenwood Road is also in need of repaving. Wayne and Westland have

received Federal Stimulus funds for the repaving. Wayne, Westland and DWSD have agreed to coordinate the water main installation with the paving project. This will result in significant cost savings to DWSD. Normally, DWSD would have to dig up the road, install the pipe and repave the road. In this case, the paving of Glenwood Road will be funded by the Federal Government, resulting in a significant cost saving to DWSD.

Your approval of the Agreement is requested.

Respectfully submitted,

DARRYL A. LATIMER

Deputy Director

### COST SHARING AGREEMENT FOR THE GLENWOOD ROAD REPAVING/WATER MAIN PROJECT

THIS AGREEMENT made and entered on the \_\_\_ day of \_\_\_\_\_, 2011, by and between the CITY OF WAYNE, a Michigan Municipal Corporation, whose address is 3355 S. Wayne Road, Wayne, Michigan 48184 (hereinafter referred to as "Wayne"); the CITY OF WESTLAND, a Michigan Municipal Corporation, whose address is 36601 Ford Road, Westland, Michigan 48185 (hereinafter referred to as "Westland"); and the CITY OF DETROIT, a Michigan Municipal Corporation, through its Detroit Water and Sewerage Department, whose address is 735 Randolph Street, Detroit, Michigan 48226 (hereinafter referred to a "Detroit").

### RECITALS

The following is a recital of facts underlying this Agreement:

1951 PA 35, MCL 124.1, *et seq.*, as amended (the "Act"), authorizes municipalities to contract among themselves for the performance of services. Westland and Wayne have entered into such an agreement to pave Glenwood Street extending approximately three and one-quarter (3-1/4) miles between Hannan Road and Venoy Street (the "Glenwood Paving Project"). The north side of Glenwood Street is located within the City of Westland and the south side of Glenwood Street is within the City of Wayne. Detroit is desirous of also installing a new water main in this roadway. The parties mutually deem it expedient to share the costs associated with the repaving of the Glenwood Paving Project in order to achieve economies of scale and mutual convenience.

The estimated cost associated with the construction of the Glenwood Project, not including the Detroit water main work or the cost of design engineering and geotechnical services, is estimated to be Two Million, One Hundred Fifty Seven Thousand Six Hundred and Ten Dollars and Sixty Eight Cents (\$2,157,610.68) ("Construction Cost"). Eighty one and 85/100 percent (81.85%) of the construction and construction engineering costs is

to be paid by the Wayne County Federal Aid Program and the remaining eighteen and 15/100 percent (18.15%) is to be paid as a local share. Detroit Water and Sewerage Department hereby agree to pay this 18.15% local share (\$391,606.34) for the Glenwood Project. Detroit Water and Sewerage Department also hereby agrees to pay all costs associated with it's installation of a water main in this roadway.

The cost of the design by Jarrett Mills Schron & Associates, Inc. ("JMS") of the Glenwood Project is One Hundred Fifty Three Thousand Seven Hundred Sixty Two and 00/100 Dollars (\$153,762.00) ("Engineering Costs"). The costs for geotechnical services by Engineering Services, Inc. ("ESI") are Three Thousand Sixty Five and 00/100 Dollars (\$3,065.00) ("Geotechnical Costs"). These costs have already been paid by the City of Westland and the City of Wayne.

Wayne requires "water main replacement" and sidewalk replacement related to the water main construction in the Wayne portion of the Glenwood Project that is not required in the Westland portion. Wayne shall fully bear all cost associated with its water main replacement ("Wayne Water Main Costs").

Wayne, Westland and Detroit have experience with large repaving programs and participate with the Wayne County Federal Aid Program. The parties agree that Westland shall direct and oversee the paving work on the Glenwood Project, jointly and/or hire an engineering consultant; and Westland will be the lead agency with the Michigan Department of Transportation ("MDOT"). However, Wayne shall be consulted by Westland on all material matters of the Glenwood Project.

NOW THEREFORE, in consideration of the mutual understandings of the parties and in conformity with the Act and other applicable laws, it is agreed as follows:

1. The total construction cost for the Glenwood Paving Project, the Detroit Water Main Work, and the Wayne Water Main Work, and the cost allocation to the three cities are contained in the attached Exhibit A, which is incorporated herein by reference.

2. Westland shall contract with JMS for the design engineering of the Glenwood Project and pay all costs associated with the contract directly to JMS. Wayne shall be responsible for fifty percent (50%) of all engineering costs and shall pay its portion directly to Westland. In addition, Wayne shall pay all costs associated with the Wayne Water Main Costs and Sidewalk Costs to Westland directly. All payments due under this agreement shall be paid within thirty (30) days of invoicing.

3. Detroit and the Detroit Water and Sewerage Department shall be responsi-

ble for all costs associated with it's installation of a water main in this roadway, and it shall also be responsible for payment of the 18.15% local share of construction and construction engineering costs for the Glenwood Project.

4. The parties acknowledge that all engineering costs, geotechnical costs and construction costs involving pavement for the Glenwood Project shall be, and have been, divided equally between Westland and Wayne; however, Wayne shall be responsible for its entire share of Wayne Water Main Costs and Sidewalk Costs.

5. The parties mutually agree that none of the parties hereto shall be held responsible for damages occasioned by delay or failure to perform where due to fire, strike, flood, acts of God, unavailability of labor, material, legal acts of public authorities or delays caused by public carriers or their persons (including contractors or subcontractors), which cannot be reasonably foreseen or prevented.

6. Each party to this agreement shall remain responsible for any claims arising out of their own acts and/or omissions during the performance of this agreement as provided by law.

7. This agreement is not intended to increase any parties' liability for or immunity from tort claims.

8. This agreement is not intended nor shall it be interpreted as giving any party a right of indemnification either by agreement or at law for claims arising out of the performance of this agreement.

9. This agreement has been approved and executed by the cities of Westland, Wayne and Detroit as evidenced by their respective Council Resolutions, which are attached hereto and incorporated herein.

10. No paragraph shall be considered a mere recital; but rather, each paragraph of this Agreement is intended to be contractual and bind the parties.

11. No agent of any City shall have power to revoke, alter enlarge or relax the stipulations or requirements of this agreement without the formal authorization to do so, by ordinance, resolution or official action by their respective City Council.

12. If any portion of this contract or the application thereof to any person or circumstance shall, to any extent judicially be determined to be invalid or unenforceable, the remainder of this agreement, or the application of such provision to persons or circumstances other than those as to which it is invalid or unenforceable, shall not be affected thereby, and each provision of this agreement shall be valid and enforceable to the fullest extent permitted by law.

IN WITNESS WHEREOF, parties have caused this amendment to be executed by the persons authorized to do so, as of the day and year first above written.

### **City Planning Commission**

January 20, 2011

Honorable City Council:

Re: Request to rezone 5628, 5636, 5640, 5654, 5658, 5666, and 5672 Toledo from an R2 (Two-Family District) to a P1 (Open Parking District) zoning classification (RECOMMEND APPROVAL).

### **REQUEST**

Mr. Ramzi Najor is petitioning the City to amend District Map No. 43 of the Article XVII, Chapter 61 of the 1984 Detroit City Code, the Detroit Zoning Ordinance, to show a P1 zoning classification where an R2 zoning classification is presently shown on the block located on the north side of Toledo Avenue between the north/south alley first west of Junction Avenue on the east and the north/south alley first east of Campbell Avenue on the west.

The request is being made to allow for a paved and landscaped parking lot. Mr. Najor is proposing to replace his existing building (which houses a party store and residential units) at the northwest corner of Junction and Toledo Avenues with a new commercial building; the proposed parking lot would serve the new store. Please see Attachment A for a map showing the location of the property.

### **BACKGROUND AND PROPOSAL**

The subject site, which is presently vacant, contains nine lots of record; Mr. Najor owns three of the lots and the City owns six of the lots. The Planning and Development Department (P&DD) has prepared a resolution for the sale of the six lots to Mr. Najor, but, to date, City Council has held approval of selling the six lots until the lots were rezoned to allow for the proposed parking.

Mr. Najor is proposing to develop the subject block with an eighty-six space, paved parking lot, including a 6-foot high wall, landscaping, and dumpster area. Please see Attachment B for a proposed site plan.

Presently, Mr. Najor owns a two-story building at 2305 Junction located at the northwest corner of Junction and Toledo Avenues which houses a small party store and some residential units. Mr. Najor is proposing to demolish this building and build a one-story 15,535 square foot grocery/party store. The proposed parking lot would provide parking for the proposed store.

In April, 2010, City Council approved a petition from Mr. Najor to vacate the north/south alley separating the existing store from the proposed parking lot. This vacation would allow Mr. Najor to develop a loading area behind the proposed new store.

In 2007, Mr. Najor petitioned the City to rezone the subject block to a B2 (Local Business and Residential) zoning district classification to allow for a new retail shopping center. The City Planning Commission and City Council denied this petition, because both favored new commercial development along Junction Avenue rather than along Toledo Avenue.

### **PUBLIC HEARING AND COMMUNITY FEEDBACK**

On September 16, 2010, the City Planning Commission held a public hearing on the subject rezoning request. No members of the public spoke in favor or against the proposed request. The Commissioners raised no major questions or comments about the proposed project with the exception of the need to screen and buffer the parking lot, which is dealt with later in this report.

CPC staff noted it had received one letter opposing the rezoning from a resident on the south side of Toledo Avenue whose house faces the subject block. The resident indicates he is totally against the rezoning for the following reasons: 1) the proposed parking lot will become a hang-out for gangs that are in the area (the existing trees on the lot hide gang graffiti that has been painted on the garages and fences to the north); 2) there is ample on-street parking available on Toledo and Junction Avenues; 3) there is plenty of property north of Mr. Najor's store to build a parking lot, and 4) the area cannot financially support any additional strip mall in the area.

### **ANALYSIS**

Section 61-3-80 of the Detroit Zoning Ordinance, which is attached for reference, lists criteria for consideration for zoning map amendment.

### **Master Plan Consistency**

The subject site is located within the Vernor/Junction area of Neighborhood Cluster 5 (Southwest Sector) of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Low-Medium Density Residential (RLM) for the subject block. P&DD submitted a memorandum regarding the proposed

project, noting in part that it does not alter the general characteristics of the RLM for the subject area and conforms to the intent of the Master Plan of Policies. P&DD concludes no amendment to the Master Plan will be necessary.

**Suitability of the Property**

One of the aforementioned criterion for rezoning states, "The suitability of the subject property for the existing zoning classification and proposed zoning classification." Zoning Map No. 43 generally shows R2 zoning on the north and south sides of Toledo Avenue for several blocks east and west of the subject property. This section of Toledo Avenue is primarily developed with one- and two-family homes with some vacant land, apartments, and commercial uses scattered about. A B4 (General Business District) zoning classification is generally located on the east and west sides of Junction Avenue, just south of Toledo Avenue and several blocks north of Toledo Avenue. This section of Junction is primarily developed with commercial uses with some residential and vacant land.

The intersection of Toledo and Junction Avenue, which is zoned B4, serves as a type of retail hub/intersection for the surrounding residential neighborhood. In general, the CPC hates to see the loss of the building at 2305 Junction which has a unique historic charm. However, the CPC understands this building is in need of repair, and the petitioner wants to build a new store. The CPC does support the development of new commercial buildings along Junction Avenue, which is more commercial in nature than Toledo Avenue. Significant parking would be required to support new commercial development, and the CPC thinks the long vacant subject block would be suitable for a parking lot. The P1 zoning classification would limit the use of the block for the off-street parking of private passenger vehicles.

**Significant Impact on Other Property**

In response to the letter in opposition from the resident south of the subject project, the CPC would be concerned if the subject lot became a hang-out for gangs; however, hopefully the proposed lot would be well maintained, well lit, and well monitored so as to not attract troublesome activity. Mr. Najor is proposing to expand the footprint of his building from about 2,750 square feet to 15,535 square feet which requires using part of the vacant land north of his existing store; additional vacant land to the north is privately owned. The new store would require 77 parking spaces, and street parking cannot be counted toward this requirement. The CPC agrees that there is vacant retail space in the surrounding area, but the petitioner is convinced the subject area would support an expanded store. In order to limit negative impacts on sur-

rounding property, the CPC recommends the petitioner install an improved buffer, such as a masonry knee wall, consistent with Sec. 61-14-221, in the parking lot along Toledo Avenue to help shield the residential property to the south from vehicle headlights.

**RECOMMENDATION**

On October 7, 2010, the City Planning Commission took action to recommend **APPROVAL** of Mr. Ramzi Najor's request to amend District Map No. 43 of the Detroit Zoning Ordinance (Chapter 61, Article XVII) to show a P1 zoning classification where an R2 zoning classification is presently shown at 5628, 5636, 5640, 5654, 5658, 5666, and 5672 Toledo Avenue.

Attached is an ordinance, approved as to form by the Law Department, for introduction and the setting of the required public hearing.

The Commission also recommended that the pending sale of City-owned land within the subject rezoning include the requirement that a wall, at least 30 inches in height, but not more than 36 inches in height, be placed along the south edge of the parking area facing Toledo Avenue not including areas of ingress and egress.

**MEMBER REPORTS:**

**Council Member Watson** invited colleagues to a march on Lansing to stand against any legislative action in the State of Michigan for an Authority over Detroit's water at 12:00 noon on Wednesday, February 23rd. She also invited everyone to a celebration in honor of black history month being held Saturday, February 26th at 2:00 p.m. in the Erma Henderson Auditorium.

**Council Member Tate** implored the administration to emphasize snow removal or the issuance of blight violations to those individuals who have snow at the side or rear of their homes along the service drives, because many children have to walk in the snow-covered, slick and hazardous streets on their way to school.

**Council Member Brown** distributed a brochure from the Institute of Progressive Leadership. He reported being approached recently by Mr. Ron Hall of Bridgewater who has volunteered to raise in excess of \$50,000 to pay for 2-1/2 days of seminar training for the City Council. He advised that the brochures were being passed out to afford council members the opportunity to do some research on the institute and that, initially, they were hoping to do the training at the end of March or the beginning of April.

**Council Member Jenkins** announced that the first public hearing for the Woodward Light Rail will be at the public library (main branch), located at 5201 Woodward Avenue, this Saturday from 11:00 a.m. to 1:00 p.m. and from 4:00 p.m. to 6:00 p.m. There will be formal presentations at 11:30 a.m. and 4:30 p.m. Also, the Detroit Department of Health and Wellness Promotion will hold its national HIV AIDS Awareness Day on Thursday, February 10th in the Health Department auditorium from 10:00 a.m. to 11:30 a.m. There will be a panel discussion from 12:00 noon until 3:30 p.m. In addition, they will be performing free HIV and syphilis testing.

Council Member Jenkins also announced that the Winter Blast will be held this weekend, February 11-13. The hours will be from 11:00 a.m. to 11:00 p.m., except on Sunday when it ends at 9:00 p.m.

Lastly, she reported that although there is no funding for Operation Get Down, Clemente Recreation Center at 2631 Bagley and Williams Community Center at 8431 Rosa Parks are offering relief from the cold. Council Member Jenkins believes that City Council should hold a discussion spotlighting how they can avoid finding out in the middle of the winter that there is no

funding for Operation Get Down or any other agency offering relief in cold temperatures.

**Council Member Cockrel, Jr.** reported receiving a complaint in his office regarding the lack of snow plowing in the area of 48217 (Southwest Detroit). He asked that it be referred to Alfred Jordan, Director of the Department of Public Works via the Public Health and Safety Standing Committee. Member Cockrel also raised the question of Jerome Warfield's (Chairperson, Board of Police Commissioners) residency. He was confronted yesterday by a reporter from Fox 2 who had shared some of Mr. Warfield's tax bills. In Member Cockrel's opinion it does raise questions, again, about where Mr. Warfield resides because allegedly one of the bills shows an address in Detroit, but there is another that shows an address in Macomb County. He requested that the matter be referred to the Internal Operations Standing Committee for further investigation.

[complaint regarding lack of snow plowing in the 48217 zip code was referred to the Public Health and Safety Standing Committee; matter regarding the residency of Jerome Warfield was referred to the Internal Operations Standing Committee]

**Council Member Jones** reported receiving a text message from Commissioner Warfield, who had indicated he wanted to come to the Council meeting, so she believed Mr. Warfield would be present. Member Jones indicated that Mr. Warfield had been informed that the Internal Operations Standing Committee met on Wednesdays and that he could come before that committee as well. She had just received a message from him indicating that he was at the Council of Baptist Ministers, but would try to make it to the Council session. She will be inviting him to the Internal Operations Committee meeting tomorrow and will be opening it up to any council members who have questions for him. In addition, she advised that Mr. Warfield has appeared before this body and has brought information showing that he voted in the City of Detroit, he has applied for a loan modification for his residence, bills that were sent to the address on Outer Drive in Detroit and a copy of his driver's license.

**Council Member Kenyatta** expressed his opposition to referring the Commissioner Warfield matter to committee for any further investigation. He was out sick during the time the issue was raised, but was informed that the council member who initially raised it had been provided adequate informa-

tion and had reported that they had had a "coming to Jesus meeting" with commissioner Warfield. Member Kenyatta reminded his colleagues that it is not illegal to pay taxes in more than one place and that there are some out-of-town landlords who may not pay taxes, but definitely own property in more than one place. He feels that Commissioner Warfield has provided all the relevant information.

**Council President Pugh** reminded colleagues about the 12:00 p.m. closed session scheduled for today in the Committee of the Whole.

**ADOPTION WITHOUT COMMITTEE REFERENCE**

NONE.

**TESTIMONIAL RESOLUTION FOR**

**2011 CITY OF DETROIT DONOR REGISTRATION CAMPAIGN FOR GIFT OF LIFE MINORITY ORGAN TISSUE TRANSPLANT EDUCATION PROGRAM**

By COUNCIL MEMBER BROWN:

WHEREAS, Mayor Dave Bing and Council Member Gary Brown will serve as Honorary Co-Chairs of the 2011 City of Detroit Donor Registration Campaign for the Gift of Life Minority Organ Tissue Transplant Education Program (MOTTEP) during the month of February. The goal of this campaign is to encourage City of Detroit employees and residents to sign up on the Michigan Organ Donor Registry; and

WHEREAS, MOTTEP, founded by Dr. Clive O. Callender, is the first national organization designed to educate minority communities on facts about organ/tissue donation and transplantation. Since June, 1993, National MOTTEP has been

actively working to solve the number one problem in transplantation — the shortage of organ/tissue donors. National MOTTEP expanded from 3 sites in 1993 to 15 sites across the country. MOTTEP of Detroit was launched in 1995 and has won awards locally and nationally for increasing organ donation rates in the African American Native American, Hispanic/Latino, and Asian/Pacific Islander populations; and

WHEREAS, In the United States there are 30 African American transplant surgeons. Detroit has the unique opportunity of having two of them: Dr. Jason Denny of Henry Ford Hospital and Dr. Miguel West, Director of Transplantation, Harper Hospital. The need for transplants is especially high among the African American population, primarily because some of the diseases that damage organs — diabetes, high blood pressure and kidney disease — occur more frequently in this population; and

WHEREAS, Nationally, there are approximately 103,000 patients on transplant waiting lists and 50% of patients waiting for transplants are of an ethnic minority. Seventeen transplant patients die each day while waiting for an organ. One name is added to the transplant waiting list every 16 minutes. Transplants save lives, but people must be willing to register to donate. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby offers its support to the 2011 City of Detroit Donor Registration Campaign for the Gift of Life Minority Organ Tissue Transplant Education Program. We encourage City of Detroit employees and residents to learn more about the gift of life and sign up on the Michigan Organ Donor Registry at [www.giftoflifemichigan.org](http://www.giftoflifemichigan.org). Furthermore, we applaud the efforts of MOTTEP and its programs to promote awareness about the critical need for organ and tissue donation, encourage healthy living, and eliminate ethnic health disparities.

### MEMORIAL RESOLUTION THE HONORABLE ERMA HENDERSON 1917-2009

WHEREAS, The Honorable Erma Henderson, lived a life characterized by an international commitment to community service, and upon her death in December, 2009, she bequeathed to the City of Detroit a rich legacy of inspiring people to embrace the power of political and social activism, and

WHEREAS, Mrs. Henderson served from 1968-1972 as executive director of the Equal Justice Council, a court monitoring organization, and

WHEREAS, This service resulted in Detroiters electing her in 1972 as the first African American woman to the Detroit City Council, where she served for 16 years, including 12 years as Council President; and

WHEREAS, During her years of service on the Detroit City Council, Mrs.

Henderson’s legislative attention was focused a wide range of issues including, but not limited to, increased citizen participation, urban renewal, youth development, crime prevention and equal justice, and

**PUBLIC COMMENTS**

**JACKSON, CASSANDRA** spoke regarding coalition to include Detroiters in public projects. She would like to have a hearing on a matter that is so important in putting Detroiters back to work.

**PRESIDENT PUGH:** We will refer this

matter to Internal Operations Standing Committee.

**SMITH-POLLARD, DEBORAH and her partner, MR. MIKE WATTS**

made a request for city’s support to produce Motor City PraiseFest and create other events in Detroit provided the city does not intend to charge for police, barricade rental or other foreseen levies and that all city assessments, consumer affairs, parking, health department, etc. be waive for our vendors, concessionaires and sponsors until the festival returns to profitability; as these charges can greatly affect the ability to raise funds. If the city can support with this, they will list as a sponsor for the event.

**PRESIDENT PUGH:** I will refer this matter to Neighborhood and Community Services Standing Committee.

**GAJENCKI SANDRA (Vehicle Painter and Letterer at Fire Apparatus and Steward)**

worked at Fire Apparatus for 22 years. Since 2005, we lost considerable manpower. The title of General Auto Mechanic went from 14 plus overtime to 6 without overtime and the implementation of a furlough day. The same goes for other important and needed four titles there. Sending work to Jorgensen Ford will only cost the city more money. Their labor cost is \$94.50 an hour as ours is under \$50 and with the furlough and other concessions, it is even now lower. Because Administration fails to fill the vacancies at our shop, we are put in a position of not being able to service our rigs; we need the manpower to achieve this. I do not understand how administration can continue to fill the bosses positions but not the people who actual perform the necessary repairs to keep these rigs running. Having four bosses and down to 13 total personnel does not make sense; more bosses do not fix rigs, more workers do.

**WATSON:** I agree with everything said. Is there a contract on today’s agenda that we should not approve?

**SPIVEY:** There is a contract that I plan on, in Internal Operations plan, asking questions and holding it if needed. They are asking for an increase and have not used but \$11,000 so far. If you want to join me, I will gladly hold it as well.

**WATSON:** I will like to hold it as well.

**McMILLON, PHYLLIS** spoke regarding DFD privatizing our members work out to Jorgensen Ford. The manpower is low. It is not the parts that we are concerned with because we have Nappa. They are not filling vacancies; our members are taking furlough days and members laid off. To rectify the problem, you need to bring our mechanics

back to work. They are getting ready to lay off more mechanics. They can take those mechanics and bring them to Fire Apparatus to resolve this issue; helping a private contractor is not going to resolve the issue.

**SEMMA, MIKE:** Did not speak. — Memorandum dated September 14, 2010 presented — Receive and File per President Charles Pugh.

**MEEKES, CHRIS:** Did not speak.

**LUCAS, DUANE:** General Auto Body Mechanic at Fire Apparatus stated that we are not scheduled to buy any more EMS trucks this year. Most of the trucks have over 100,000 miles and they will need many repairs. If we get Jorgensen Ford to do these repairs, it will cost a lot of money. We need new trucks to replace the ones we have. The only trucks less than 100,000 miles are the ones that the Ford Dealer have and kept them so long that they did not get much mileage.

**JONES:** I have a letter from AFSCME Local 542 indicating that they have two General Auto Body Mechanics that perform welding and fabrication body works to 270 pieces of fire EMS equipment and 7 General Auto Mechanics that maintain 200 pieces of fire EMS equipment; they are laid off.

**SPIVEY:** I would like to hear from Mr. Marable. We receive a list last week that 20 rigs are working and 22 are out. Sunday night I rode by Bob Maxey; those five EMS trucks are still in Bob Maxey garage, just sitting. I do not know if Jorgensen Ford has rigs or not. This is serious. We were told that Bob Maxey only has one mechanic that can handle a truck and one hoist that can lift that large truck. If they cannot do the work, why not bring back some of our workers and let them do the EMS work. Mr. Marable can you take this back to Mr. Saul Green, Deputy Mayor who is over EMS. This weekend I counted seven private EMS rigs going through the City of Detroit in front of people homes. We are not getting this money in Detroit.

**MS. MUHAMMAD** concern is the DMC project and compliance for it. There is a 30-day period, which the smaller trucking firms cannot make because of fuel cost and insurance; that is the purpose for certification so that we can actually participate as the minority small business enterprises.

The second concern is the pay. The pay quoted would not be sufficient for us to run from DMC to the landfill.

Thirdly, other trucking firms express a concern about the major player who

have trucking piece and his involvement and convictions with Bobby Ferguson.

**JONES:** I will contact you or you will contact me and perhaps we can talk with DMC to see if there is any conversation that can be given for the smaller businesses.

**PRESIDENT PUGH:** I will work with Member Jones to make sure that DMC Vanguard is responsive to this situation.

**MEEKES, CHRIS** representing Operation Get Down. There has been and it still is urgency for warming centers. I am a building facilitator and work directly with the homeless. When filled to capacity and I have to tell people we are full, they have nowhere to go. We have Operation Get Down as a facility; we are in need of funding to accommodate the homeless. Can we get assistance from City Council to further this along to provide for the homeless?

**WATSON:** I spoke with the Mayor's Office and with the Director of Human Services and they support this resolution and I am asking the Council to approve this emergency resolution today to address this because there was a law put on the books in 1989 that mandates that there be funds provided to open warming centers during the cold months. I spoke with the Budget Director last week, Mr. President, and asked if she would, through the Mayor's Office, seek to reprogram money that is allowable; some Block Grant Money unspent from previous years because Operation Get Down has been a Block Grant recipient. We cannot let any citizen be outdoors when they have the right to be in a warming center based on the law already adopted by City Council during the era of Henderson and Mahaffey.

**BROWN:** We need Administration to send us an appropriation that moves the money from one cost center to another in order to make this happen. If it happens today, it will go on "New Business" and we will approve. It is up to Administration to move the ball forward.

**WATSON:** I spoke with Pam Scales last week, Kirk Lewis and Shenetta; I spoke with everybody. It is \$150,000 until March 30.

**MARABLE:** I am seeking clarity to where we are in that process and I may be able to get back to you later in the meeting.

**PRESIDENT PUGH:** Mr. Marable, if you could get back to us by the end of the meeting because it would be nice to set an Adjourned Session for later this week to vote on that.

**SMITH, ROBERT** spoke on Detroit Water

System and Sewerage. After thirty years and all the sudden in 10 days, they have an agreement. What happen to the City Charter, what happen to the Michigan Constitution that guarantees that we as the people of Detroit are to regulate and pick prices not outside cities to come in and regulate. Are we going to give away everything in Detroit?

**WATSON:** The Charter specifically says that no asset, no utility can be disposed of without a vote of the people. Since the stipulation was signed by the Mayor and not brought before City Council — some might say it is a contract under agreement, which should have required Council approval prior to it being sign. I would request that there be a legal review of what has been agreed to making sure that the interest of the citizens and the Charter has not been compromised. The super majority vote does not call for 5 to 4. It takes it beyond the scope of the four appointed members from the City of Detroit residents. Since City of Detroit residents paid for the Water Department, own it and control it, I would like to see the legal validation for having the customers control something that is owned by the citizens of Detroit.

**ELZIE, MICHAEL** spoke in support of funding for the warming center at Operation Get Down.

**ALLEN, CATHERINE** a representative of Operation Get Down fully agrees with Council Member JoAnn Watson's resolution for the warming center at Operation Get Down.

**SMITH, LaMONICA** spoke on behalf of Operation Get Down to continue the warming center to service the homeless.

**MITCHELL OTTIS** spoke in support of funding for the warming center for Operation Get Down.

**FARMER, SAM a Case Manager at Operation Get Down,** spoke in support of the warming center for Operation Get Down and asked that we consider the funding for the warming center.

**McLAUGHLIN, GLENN** spoke in behalf of the homeless and in support of Operation Get Down. He was homeless from the out skirts of Detroit and the only place he could come was Detroit.

**TILLERY, BRIAN** thanked the Council for passing "Ban the Box" legislation. As a Board Member of Detroit Action Commonwealth, a community base group that works out of the Capuchin soup kitchen on Connors spoke in support for funding warming centers.

**HUNTER, JOSEPH A.** — Did not speak.

**HOLMES, RUEDELL** asked if she could submit five questions to Council and pray. **PUGH:** We will accept your questions. **MOTHER HOLMES** then prayed for Detroit.

Re: Petition No. 645 — Austin Billups, request for vacation of alley entrance south of Fenkell, adjacent to Lot 155 Dexter Park Subdivision.

Petition No. 645 of "Austin Billups", request for conversion of a portion of the east-west public alley, 18 feet wide, in the area south of Fenkell Avenue, 66 feet wide, and between Petoskey Avenue, 60 feet wide, and Quincy Avenue, 60 feet wide into a private easement for utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

\*WAIVER OF RECONSIDERATION (No. 6) per motions before adjournment.

**CONSENT AGENDA**

NONE.

**MEMBER REPORTS:**

**Council Member Spivey:** House Bill 42-14, Local Government and School District Fiscal Accountability Meeting today in Lansing.

On February 15, in our heritage month, this day in 1804 New Jersey abolished slavery; they were the last northern state to do this.

1965, the death of Nate King Cole.

1968, Henry Lewis became the first African American to lead a symphony orchestra in this country.

There will be an Evening Meeting tonight; I will be a little late. President Pugh and I are part of a "Returning Citizens Task Force" and I will be speaking to men at the Mound Correctional Facility for a heritage celebration.

**Council Member Cockrel, Jr.:** Announced the circulation of a memo

regarding some upcoming discussions and amendments to the calendar for the Budget, Finance and Audit Standing Committee and a memo directed to Council Member Jones in her capacity as the chair of the Internal Operation Committee, Krystal Crittendon, Head of the Law Department, and City Planning Commission relative to a request for us to amend the appropriate City Code to allow for the Launching of Kayaking and Canoes from various points along the Detroit River and from Belle Isle.

Member Cockrel, Jr. states that he has entered into a partnership with Professor Gary Sands of Wayne State University, Professor Mark Skidmore of Michigan State University as well as the Lincoln Institute of Land Policy data dormant Detroit to undertake a study of the Local Government Property Tax system that we have in the city of Detroit. The goals are to provide data for us to understand what is driving some of the problems we see in our property tax system as well as inform the dialogue of possible corrective actions. We will demonstrate whether some of the existing economic incentives we use to attract and retain businesses are truly working and look at some alternative systems of levying property tax assessments and collections to determine whether we can make this system more effective and efficient.

**Council Member Jenkins:** The next Youth Violence Prevention Task Force Meeting, co-chaired by myself and Member Tate will be Wednesday, February 23, at Don Bosco Hall located at 19321 W. Chicago in Detroit.

On February 23, a Youth Resource Exposition at "The Center", 13560 E. McNichols in Detroit from 11:00 a.m. to 4:00 p.m. Services and resources are free for youth ages 16 to 19. They will give away great prizes and a flat screen TV.

We were approached by the Ruth Ellis, which is a shelter for homeless LGB/PQ teens in the City of Detroit and Highland Park; one issue which has become a national issue is bullying. Detroit is one of only four States in the country that do not have statewide anti-bullying laws. The City of Detroit does not have a comprehensive anti-bullying law. Working with Ruth Ellis, our goal is to enact this ordinance to get DPS on board as well as Charter Schools and move to the State to get some State legislation pass that will cover this all of Michigan.

**Council President Pugh:** Reminder to colleagues and the public of the evening City Council Meeting tonight at

the Zion Congregational COGIC at Mack and St. Aubin on the eastside of Detroit at 7:00 p.m.

**Council Member Brown:** Our Governor will deliver a message in the next couple of days that surely will affect education, social programs, homeless and Detroit. We are already one hundred fifty nine million dollars (\$159,000,000.00) in deficit in the City of Detroit without the additional cuts that are coming. It is extremely important that we as a City prioritize the services that are important and make sure there are funds for them and at the same time identify the services that we can cut. For sure, the homeless is not luxury to ask for a warming center, not a shelter, just a warming center in freezing temperatures. We must fund those particular programs.

**Council Member Tate:** House Bill 42-14 is a major piece of legislation introduced in Lansing concerning financial emergency manager. An emergency manager in the schools would provide for academic control. I would ask everyone to go on line and get a copy of this bill. This is House Bill 42-14. Eighteen (18) threshold levels would indicate if a city would be within the zone that would invited an emergency manager. We have approximately nine in the City of Detroit. This is a major concern and we have to be very kin and congenial about our financial situation. There are pieces in the legislation that far over reach anything that we have seen before. One issue is that elective officials in this position, when the emergency manager comes in, cannot run for office for 10 years, afterward even if they had no hand in getting the municipality in this situation. I ask everyone to look at this and contact every legislator you are aware of and give your opinion about this.

One person that represents the City of Detroit on this Committee, the Local Inter-Governmental and Regional Affairs Committee, Representative Maureen L. Stapleton. She is fighting extremely hard on our behalf. If we do not make tough decisions, this is what we are facing. This is one legislation and there will be others coming. We have to make decisions that are not necessarily the most popular decisions but they have to be the right decisions and you have to give your elective officials that type of commitment and we have to give that commitment to the citizens that we will do what is right, not what is popular and not what will make us feel good. This is about making sure that our City is in a better position today than it is tomorrow.

**Member Kenyatta:** They just trained some new Financial Managers.

**Member Watson:** Yes they did, 140.

**Council Member Kenyatta:** Expressed condolences to the Cofield's Family, Marvis Cofield's father name as such is on the Board of Education and have been involve in Operation Get Down, Alkebu-lan Martial Arts and others. His family is grieving, they lost their father and we want to offer our condolences. We have a Spirit of Detroit and a memoriam that my office is preparing.

The great Revolutionary Muammar Al-Gaddafi of the Regime Revolution said that "Return to the source, nothing rises above the source."

I heard much miss information as it relates to stipulation issued by the Judge. I know we will meet on Thursday but I know more miss information will be out before that time. It is important to be very clear that this is not something that I hope this Body takes ownership of. I do not take ownership of the stipulation. They did not ask this Body to take ownership of it. The Mayor sign on to it and because our signatures appeared below, we hereby stipulate. In order for any representative of the City to stipulate or to agree to anything, all branches of the City has to have some compliance in that. I was called to a meeting on Wednesday at 10:00; the Mayor indicated that he was under a gag order to only talk to Council Members. He did not say that I was under a gag order because he could not have ministered one. It indicated that these measures that were in this stipulation was on the table and wanted our input and that they would come back but there was not a comeback. I was out on Thursday at a doctor's appointment and on Friday, I was told about a press conference that was to be held to announce the order and I could not receive copies until after the press conference. I made some comments and suggestions; i am opposed to the five members veto vote and it is only in three areas. Because of the miss information given by the press that it is an authority; I urge the people to read the ordinance for themselves. People call on the radio stations and say that we have lost the water. That is not totally clear. Is there more input, yes? Some of that input was already there. You already had members from the suburbs as part of the Board of Water. This Body did not create a Board of Water Commissioners that allowed three suburbanites to be on the Board. It is your charter; you voted. There was not Close Session called by the Law Department to indicate what our options were or are. There was no buy-

in, as a Council; there was no buy-in, no resolution and nothing approved by this Body that gave the Mayor the authority to stipulate anything. It is unilateral and though I may agree with some parts of it, I disagree with the main parts of it; that is a veto vote of five (5) members. In order to give taxpayers money, there should be a vote on what the compensation will be. It calls for compensation to members. Later the Board can decide what that compensation should be but it is allowing the judge to make that compensation. Should it be a professional board, probably so, I do not know. I would say again that you do not take my word for what I just said. Go read for yourself. Do not take a talk-show host's word; do not take a senator's word; a state representative's word; a Councilperson's word, read it for yourself or have someone read it to you. Do not accept what you see in the newspaper or on the sound vice from the newspapers and the radios.

**Council Member Watson:** House Bill Nos. 42-14 and 42-15 through 18 have been sent to Council Members, RAD and other Divisions by the City Lobbyist, Kenneth Cole, for our reading and review. It is critical that City Council Members and Citizens understand that this legislation does not just comport to the Detroit Public Schools, it absolutely speaks to municipalities; Andy Dillon, Former Speaker of the House for the Democrats and now the Treasurer for the republicans leading the state, is pushing this and wants it adopted March 1. There was a hearing and there is a hearing now and there is another tomorrow. I am going tomorrow to Lansing at 2:00 p.m. speaking in room 207 in the House Office building. We should all be there. This comport to do this is to immediately remove elective official, municipalities or school system who meet those certain criteria. Those once removed, removed immediately, and could not run for ten (10) years. It further states that you cannot sue. They claim legislative immunity over this bill. It is very, very dangerous and it needs to tie in with the same people who are attacking public education and who do not think we have the right to run and control our own water system. Research Analysis Division should have come to us today with something. This could not be more serious. Not only Anthony Adams, President of Detroit Public Schools, that should be having press conference on this, the Detroit City Council should be addressing this and going to Lansing tomorrow to speak in this hearing.

I am on a fast track and we know

what time it is in Michigan in the political climate. That State of Michigan owes \$220,000,000 in unpaid revenue sharing from the Engler/Archer era.

An invitation extended to everyone to attend a Black History Program on February 26 in Erma L. Henderson Auditorium in the Coleman A. Young Municipal Center at 2:00 p.m. It is a blessing to have Dick Gregory, the great L. Daniels, national columnist on behalf of our people and wonderful Emmy Award Winning Ted Talbert will be the Master of Ceremony who will honor Detroit Black Greats present and pass.

**Council President Pugh:** Motion approved to direct RAD to give an analysis on House Bill 42-14 through 18. You will forward that is writing.

**Council Member Jones:** Request for a Committee of the Whole to receive answers regarding the Mayor's presentation of Project 14. There are many unanswered questions in specific, why are there just two (2) communities, Boston Edison and East English Village. Why just the police officers and not all city employees if we want to move people back into Detroit.

**Member Cockrel:** I agree with having discussions about strategy relative to the House Bills discussed. It is my suggestion that we do not do that here. I also agree that we have a Committee of the Whole on Project 14. With respect to the stipulated order and Water and Sewerage issue, that plan was something that the Mayor rolled out. We were not consulted with it.

**Member Jenkins:** I look forward to a discussion about Project 14. I think it will be good for everyone if we will have a public discussion for future plans for Project 14. We should keep in mind that it is a pilot project. Not only has the State not kept their promises to Detroit, they have not kept their promises to most of the municipalities across the state. Ten years ago there were over \$900,000,000 in revenue sharing dollars that was distributed to cities all over this state; now cut by more than \$500,000,000 and the state has a \$7,000,000,000 deficit. If you want to tell the cities to get their house in order, you need to keep your commitment to the cities. Part of why we do not have funding is because the commitment that the state has made previously, have not be kept to us, Pontiac, Hamtramck, etc. and all other cities facing the same things we are facing.

**Member Watson:** One thing that has been codified by the revenue sharing process in the State of Michigan is that

cities like Detroit have agreed not to have local taxes. New York City and Chicago, the local municipality imposes taxes at will on its residences. New York it is 12%, Detroit, an exchange for equitable revenue sharing that we agreed to as a Body, the City of Detroit foregoes any imposition of local taxes; taxes that are enjoyed by every other major city in this nation. It is illegal for the State of Michigan to hold us for a level of accountability when the reason we are in deficit is because they fail to be accountable to what they owe us, particular because we are not imposing taxes on our citizens.

**Member Jones:** Other House bills are concentrating on Detroit in regards to the Pension System. Many of the House bills concentrated on Pension Systems and amended them to say they only wanted them to concentrate on cities that had over 500,000 citizens. They changes to say that they want to deal with Detroit, roughly; not everyone in the State. The focus is on Detroit and how they are going to hurt and take away Detroit. This is Project 14, what is Project 1 through 13.

We will invite Kenneth Cole to Tuesday's Formal Session to give us an oral update on the written update he gave us last week on these and other House Bills that will adversely affect the City; perhaps at the same time, Member Cockrel, or until then, we can have discussions on what strategies might be.

**Mr. Marable** spoke in regards of Project 1. At the press conference, chief Godbee indicated that code 14 has some sufficiency to the Police Department and that is where Project 14 comes from. There is no Projects 1 through 13.

The pilot project came out of the initial meetings for the Detroit Works Program. When the Administration was getting feedback from the community was that one of the things they wanted most was to see police officers in the neighborhood. It was Administration being responsive to that call and that is why prioritizing police officers came first. The Mayor indicated that it is applicable to all city employees and as the projects roll out into implementation, we will be making that available to all. This is a pilot project concentrating, for now, on DPD officers.

**President Pugh:** That point was as clear as mud. We did not get that piece that this was applicable to every city employee.

**Mr. Marable:** The Mayor did indicate that during the press conference but that is the case. As the project rolls out but for now, he is concentrating on DPD officers.

**President Pugh:** There was a specific question asked about those who had not left and how they could benefit from this.

**Mr. Marable:** Which is a different question in terms of city employees who do not live within city the program will be very similar but indicated that we believe funds will be available for rehad for those who stayed. That is the hope as the project rolls out to do for those city employees; in particular, officers who have stayed here. We are not neglecting that population.

**President Pugh:** We will work together within the next couple of weeks get a Committee of the Whole to be able to answer people questions and clear up about police officers who have not left, who remain here, but also general city employees who live outside the city. We will talk about those two groups and other questions we may have.

**Member Kenyatta:** Before Mr. Marable leaves maybe he can go down to the 11th floor, I understand the doors are lock and they will not let the people into the Mayor's office. We cannot lock our doors. We meet in the public and many of the concerns that people have are things that we do not handle. The Mayor said that he has transparency. I think you should go down to the 11th floor and take whatever complaint people have in the Mayor Office or the Mayor's Chief of Staff unless she in the New Orleans with the homeless people there. Someone should deal with the homeless people here and not lock them out in the hallway, Mr. Marable.

## RESOLUTION OPPOSING EMERGENCY FINANCIAL MANAGER LEGISLATION

By COUNCIL MEMBER JENKINS:

WHEREAS, House Bill 4214, along with several companion bills, has been introduced in the Michigan House of Representatives and is moving through the legislature with all deliberate speed; and

WHEREAS, The stated goal of this legislation is, "...to safeguard the continued financial viability of units of local government..." However, this legislation grants overreaching powers to a single individual as Emergency Financial Manager with no specific qualifications for the job and no real checks and balances; and

WHEREAS, House Bill 4214 ignores the Home Rule City's Act and threatens the core of our democracy by eliminating the right of municipalities to self-govern. It would also set the dangerous precedence of creating a new industry at the expense of local units of government by allowing private companies to act as Emergency Financial Managers. These companies would operate at the expense of municipalities, with no clear limitation on costs. In addition, neither the private company nor the State is responsible for any liabilities incurred as a result of the "takeover." Any liabilities will be the sole responsibility of the local unit of government.

WHEREAS, Based on the proposed

legislation approximately 40 other municipalities, could be defined as "financially distressed". And with Governor Snyder's newly proposed cuts in revenue sharing, that number would surely increase. It is important to note that municipalities are creatures of the State, and our financial viability is directly tied to the financial health and stability of the State; and

WHEREAS, The State of Michigan has not fully funded statutory revenue sharing since FY 2001. At that time \$912.7 million was distributed to municipalities across the State. In 2011 only \$307.5 was distributed in revenue sharing, denying all local units of government resources for basic services during that span. During this ten year span state lawmakers never allowed the last statutory revenue sharing distribution formula — written into law in 1998 — a legitimate chance to work, spawning instability and volatility in the program that has trickled down to locals.

WHEREAS, Based on the criteria for "financially distressed" in this State Legislation, the State of Michigan should also consider itself, "financially distressed." THEREFORE BE IT

RESOLVED, Detroit City Council adamantly opposes the vague nature of this legislation and broad powers that it grants to an Emergency Financial Manager. We urge the State Legislature to assist municipalities experiencing financial difficulties by working with local units of government, instead of "taking over" local units of government. BE IT FURTHER

RESOLVED, That copies of this resolution be sent to Governor Rick Snyder, Mayor Dave Bing, the Michigan House of Representatives and State Senate and the Michigan Municipal League.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Tate, Watson, and President Pugh — 6.

Nays — None.

\*WAIVER OF RECONSIDERATION (No. 1) per motions before adjournment.

**City of Rochester Hills**

February 11, 2011

Honorable City Council:

Enclosed is the Resolution of Support adopted by the Rochester Hills City Council at their meeting of January 31 2011 for the development of a Regional Authority to govern the Detroit Water and Sewerage Department.

**Administration: RES0020-2011**

**File Number: 2011-0047**

**Enactment Number: RES0020-2011**

Consideration of a Resolution of Support for a Regional Authority for the Detroit Water and Sewerage Department (DWSD).

Whereas, The City of Rochester Hills depends on the Detroit Water and Sewerage Department (DWSD) to provide water and sewage service to the citizens of our community; and

Whereas, The City of Rochester Hills has been subjected to significant annual rate increases for these services over the last ten years, with rates rising from \$10.90 per MCF in 2000 to \$26.60 per MCF in 2010 which is an increase of 144%; and

Whereas, The DWSD is currently governed by a seven-member board that is appointed by the Mayor of the City of Detroit and that governing board is charged with setting rates for Detroit and the 125 other communities in the surrounding Metro Detroit area who are customers of the DWSD; and

Whereas, Recently the DWSD and the City of Detroit have come under criticism

with the recent indictment charges of former Mayor Kilpatrick and officials within his administration, including the former DWSD director, for directing governmental contracts towards friends of Mayor Kilpatrick; and

Whereas, These indictments have called into question the workings of the DWSD and have caused suburban communities, including the City of Rochester Hills, to question the annual rate increases by the DWSD over the years; and

Whereas, It has been proposed for several years that the DWSD should be governed by a Regional Authority, similar to the boards that operate Cobo Hall and the Detroit Zoo, so that all communities who are served by and contribute financially to the system shall have a say in how the system operates; and

Whereas, This idea has recently been advocated by Oakland County Executive L. Brooks Patterson and Oakland County Water Resources Commissioner John McCulloch; and

Whereas, State Representative Kurt Heise of Plymouth has recently introduced House Bill 4112 in the State Legislature to create a nine member governing board for the DWSD that would include one seat for Detroit, one seat apiece for Oakland, Wayne and Macomb counties and five seats elected from the 125 communities who use the system.

Therefore, Be It Resolved, That the City of Rochester Hills formally endorses the concept of a Regional Authority to govern the DWSD and is supportive of Representative Heise's HB 4112 and other similar bills that may arise that will create such an authority that will provide all communities participation in the operation of the DWSD; and

Be It Further Resolved, That the City of Rochester Hills also requests a financial audit of the DWSD and a full, transparent review of their financial books so that communities can see whether and why the annual rate increases have been justified; and

Be It Further Resolved, That the City of Rochester Hills requests the DWSD to forego any further rate increases until a Regional Authority is created and a financial audit has been accomplished. After the financial audit has been completed, the DWSD should rebate those communities, if any, that have been overcharged; and

Be It further Resolved, That copies of this resolution be forwarded to the governor, the Senate Majority Leader, the Speaker of the State House, Senator Marleau, Representative McMillan, Mayor Bing, the Detroit City Council, the DWSD, Oakland County Executive Patterson, the Oakland County Commission and Oakland County Water Resources Commissioner McCulloch; and

Be It Further Resolved, that a copy of

this resolution be sent to the clerks of all municipalities in Oakland County, encouraging their communities to likewise support a Regional Authority to govern water and sewer rates in our communities.

I, Jane Leslie, City Clerk, certify that this is a true copy of RES0020-2011 passed at the Rochester Hills City Council Special Meeting held on 1/31/2011 by the following vote:

Aye: Brennan, Hooper, Klomp, Pixley, rosen and Weber.

Re: Petition Number 3767 — Report and Recommendation for the Disapproval of the Issuance of a New Dance and Entertainment Permit by the Michigan Liquor Control Commission to Rob Bayz, LLC, in Conjunction with a "Class C License" for a Group "A" Cabaret at 9933 Greenfield Road.

**BACKGROUND**

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that, prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, entertainment permit, or a combination dance and entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice, Request ID Number 521349, which has been designated by the City Clerk as Petition Number 3767. This Local Approval Notice requests City Council approval of the issuance of a new dance and entertainment permit to Rob Bayz, LLC, ("Permit Applicant") in conjunction with a "Class C License" for a Group "A" Cabaret at 9933 Greenfield Road.

The Buildings, Safety Engineering, and Environmental Department ("BSE&E") reports that the property is located in a B4 (General Business District) zoning district and the current legal, permitted uses of the property include bar, restaurant, and Group "A" Cabaret pursuant to Special Land Use Zoning Grant Number 142-09. Therefore, the use of the location for patron dancing and entertainment is permitted subject to compliance with all relevant state codes and City ordinances, including the issuance of the requested MLCC dance and entertainment permit to the Permit Applicant.

Pursuant to Sections 5-7-1 and 5-7-21 of the 1984 Detroit City Code, a Group "A" Cabaret business license is required for any establishment that sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or

without patron dancing. Accordingly, the Permit Applicant has applied for a Group "A" Cabaret business license for the location.

#### **APPROVAL CRITERIA**

The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits ("Procedures and Criteria") became effective upon publication on August 25, 2009. Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant's request for approval of the issuance of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Pursuant to Part V of the Procedures and Criteria, the designated MLCC Permit Coordinator ("Coordinator") has submitted a report to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria. A copy of the Coordinator's report, dated October 13, 2010, has been mailed to the Permit Applicant.

A review of the Coordinator's report indicates that the Permit Applicant has met the approval criteria contained in Part VI of the Procedures and Criteria, except for Approval Criteria No. 11. Approval Criterion No. 11 concerns unpaid fees or uncured violations under the purview of the Detroit Fire Department for the subject premises. Specifically, in its report to the Coordinator, the Detroit Fire Department Fire Marshal Division indicated that there were delinquent fees for the location.

Upon notification of the abovementioned deficiencies in the approval criteria, the Permit Applicant has contacted the Detroit Fire Department Fire Marshal Division in an effort to resolve the reported deficiency. However, a clearance or other verification that the delinquent fees have been paid has not been provided to the Law Department.

#### **RECOMMENDATION**

Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant's request for approval of the issuance of the requested MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Due to the fact that the Law Department has not been able to confirm that the delinquent fees due the Detroit Fire Department Fire Marshal Division have been paid, the Permit Applicant has not met all of the approval criteria contained in Part VI of the Procedures and Criteria.

Therefore, attached is a proposed resolution disapproving the issuance of a new dance and entertainment permit by the MLCC to the Permit Applicant, Rob Bayz, LLC, for a Group "A" Cabaret at

9933 Greenfield Road. The Law Department recommends that the Resolution be moved to the Committee of the Whole for its action.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,

By Council Member Jenkins:

Whereas, Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that, prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance and entertainment permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located;

Whereas, Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice, Request ID Number 521349, which has been designated by the City Clerk as Petition Number 3767;

Whereas, The Local Approval Notice requests City Council approval of the issuance of a new dance and entertainment permit to Rob Bayz, LLC, ("Permit Applicant") in conjunction with a "Class C License" for a Group "A" Cabaret at 9933 Greenfield Road;

Whereas, The Buildings, Safety Engineering, and Environmental Department ("BSE&E") reports that the property is located in a B4 (General Business District) zoning district and the current legal, permitted uses of the property include bar, restaurant, and Group "A" Cabaret, pursuant to Special Land Use Zoning Grant Number 142-09;

Whereas, The use of the location for patron dancing and entertainment is permitted subject to compliance with all relevant state codes and City ordinances, including the issuance of the requested MLCC dance and entertainment permit to the Permit Applicant;

Whereas, Pursuant to Sections 5-7-1 and 5-7-21 of the 1984 Detroit City Code, a Group "A" Cabaret business license is required for any establishment that sells or serves alcoholic beverages with or without food, and either allows with or without live entertainment, or provides three (3) or more live entertainers at one time with or without patron dancing;

Whereas, The Permit Applicant has applied for a Group "A" Cabaret business license for the location;

Whereas, The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits ("Procedures and Criteria") became effective upon publication on August 25, 2009;

Whereas, Part VI of the Procedures and Criteria states that City Council shall grant a Permit Applicant's request for approval of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant;

Whereas, Pursuant to Part V of the Procedures and Criteria, the designated MLCC Permit Coordinator ("Coordinator") has submitted a report to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria;

Whereas, A copy of the Coordinator's report, dated October 13, 2010, has been mailed to the Permit Applicant;

Whereas, The Coordinator's report indicates that the Permit Applicant has failed to meet one (1) of the approval criteria contained in Part VI of the Procedures and Criteria, specifically Approval Criterion No. 11;

Whereas, Approval Criterion No. 11 concerns unpaid fees or uncured violations under the purview of the Detroit Fire Department for the subject premises;

Whereas, In its report to the Coordinator, the Detroit Fire Department Fire Marshal Division indicated that there were delinquent fees for 9933 Greenfield;

Whereas, Upon notification of the abovementioned deficiencies in the approval criteria, the Permit Applicant contacted the Detroit Fire Department Fire Marshal Division in an effort to resolve the reported deficiency;

Whereas, The Law Department reports that a clearance or other verification, which confirms that the delinquent Detroit Fire Department Fire Marshal Division fees have been paid, has not been provided to the Law Department and, therefore, the Permit Applicant has failed to meet Approval No. 11 of the approved criteria contained in Part VI of the Procedures and Criteria; and

Whereas, The Law Department has submitted this proposed resolution to the City Council for the disapproval of the issuance of a new dance and entertainment permit by the MLCC to the Permit Applicant, Rob Bayz, LLC, for a Group "A" Cabaret at 9933 Greenfield Road.

Now Therefore It Is Resolved, Pursuant to Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), and in accordance with the Procedures and Criteria adopted by this Body effective August 25, 2009, the Detroit City Council disapproves the

issuance of a new dance and entertainment permit to Rob Bayz, LLC, for a Group "A" Cabaret at 9933 Greenfield Road; and

It Is Further Resolved, That a copy of this Resolution, and the City Clerk's certification of this disapproval of MLCC Request ID Number 521349, be forwarded to the Michigan Department of Labor and Economic Growth, Liquor Control Commission, 7150 Harris Drive, P.O. **AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-178 to**

**establish the King Solomon Baptist Church Historic District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 25, Article II, of the 1984 Detroit City Code is amended by adding Section 25-2-178 to read as follows: **Sec. 25-2-178. King Solomon Baptist Church Historic District.**

(A) A historic district to be known as the King Solomon Baptist Church Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the King Solomon Baptist Church Historic District are as shown on the map on file in the office of the City Clerk, and are as follows:

Beginning at a point, that point being the intersection of the centerline of the alley running approximately north-south between Lot 20 of Peter Hughes' Second Subdivision, Liber 26, Page 75, and Lots 34 through 38 of Peter Hughes' Second Subdivision, Liber 26, Page 75, with the northern boundary line of Lot 34 of Peter Hughes' Second Subdivision, Liber 26, Page 75, as extended east and west; thence east along said boundary line of Lot 34, as extended, to the centerline of 14th Street; thence south along said centerline of 14th Street to the northern boundary line of Lot 5 of William Y. Hamlin and Thomas N. Fordyce's Subdivision, Liber 11, Page 29, as extended east and west; thence east along said boundary line of Lot 5, as extended to the centerline of the alley running approximately north-south between 14th Street and Wabash Avenue; thence south along said centerline to the centerline of Marquette Avenue; thence west along said centerline of Marquette Avenue to the centerline of the alley running approximately north-south between Lot 19 of Peter Hughes' Second Subdivision, Liber 26, Page 85, through Lot 20 of Peter Hughes' Second Subdivision, Liber 26, Page 75, and Lots 34 through 38 of Peter Hughes' Second Subdivision, Liber 26, Page 75; thence north along said centerline to the point of beginning.

(Legal Description: Land in the City of Detroit, Wayne County, Michigan, being Lots 1 through 5 of "Wm. Y. Hamlin and Thos. N. Fordyce's Subdivision of Lot 7 of Leavitt's Subdivision of the Eastern Park of Frac. Sec. 36, T.1S., R.11E., and Eastern Part of Frac. (D) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* The building at 6125 14th Street consists of a tall, single story sanctuary with tower flanked by shorter wings of two and one-half (2-1/2) to three (3) stories. The building at 6102 14th Street is a tall, single story in height.

(2) *Proportion of Building's Front Façades.* Both buildings in the King Solomon Baptist Church Historic District are substantially wider than tall on all elevations. The building at 6125 14th Street bears an engaged tower that is significantly taller than wide, adding a vertical emphasis to the building façade.

(3) *Proportion of Openings Within the Façades.* The building at 6125 14th Street is composed of approximately thirty percent (30%) openings in its front façade (east elevation). Centered on its front façade is a large, Gothic-arched leaded glass window with wood mullions and tracery; the window is flanked by a pair of double wooden panel doors with glazing surmounted by trefoil decorations in relief. A tower above the southernmost of these double doors bears on its east and south elevations windows that are smaller than, but otherwise similar to, the window centered on the building façade. Flanking the central sanctuary is a southern wing that bears three (3) bays of three (3) windows on each floor on its front façade (east elevation), and a northern wing that bears on its front façade (east elevation) four (4) bays of three (3) windows on each floor, with the exception of its southernmost bay, which features a double steel door with wooden transom, surmounted by a tall window with wood muntins and mullions. The side (north and south) elevations and rear (west) elevation of the wings of the building at 6125 14th street are fenestrated in a manner similar to their front façades (east elevations), while the west elevation of the central sanctuary features a large leaded glass window similar to that on the front façade (east elevation). The windows on the southern wing of the building at 6125 14th Street consist of equally-sized, taller than wide, rectangular, multi-light steel windows on each of the building's three (3) levels, some of which have been closed in with concrete

block; windows on the northern wing being wooden six-over-six, taller than wide, sash windows on the first and second stories with smaller, triple-pane wood windows on the basement level. A cutaway corner at the southeast provides space for a single unglazed steel door. The building at 6102 14th Street is composed of approximately ten percent (10%) openings in its front façade (west elevation), with three (3) double steel doors divided by brick piers centered on the façade, creating an entranceway wider than tall, flanked by a pair of small, rectangular steel windows. The outermost bays of the façade each bear a series of four tall, narrow, slightly recessed window openings containing steel windows; similar tall, narrow windows on the building's cutaway corners face northwest and southwest. These windows cause the building façade to read as two (2) stories in height due to the presence of spandrels between upper and lower portions.

(4) *Rhythm of Solids to Voids in Front Façades.* A mostly regular rhythm of solids to voids exists on all elevations of the buildings in the district. Generally, openings are placed one over the other by floor on the northern and southern wings of the front façade (east elevation) of the building at 6125 14th Street, and a large leaded glass window is centered on both its front façade (east elevation) and rear elevation, with a pair of doorways flanking the central window on the front façade (east elevation). The regular rhythm of openings is varied only at the engaged tower of the building, where smaller leaded glass windows exist on the upper portion of the tower. Openings are evenly spaced and symmetrically arranged in rows by floor, one above the other, on all elevations of the building at 6102 14th Street. The main entrance consists of three (3) double doors at ground level, with no windows above these doors.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable due to the presence of only one (1) building on each side of 14th Street.

(6) *Rhythm of Entrance and/or Porch Projections.* A stairway projects forward from each of the two (2) primary front entrances of the building at 6125 14th Street, with the concrete front steps of the southernmost primary entrance descending evenly to the street, and the concrete front steps of the northernmost primary entrance interrupted by a landing connecting to a secondary entrance to the north as well as to a concrete wheelchair ramp extending to the southernmost primary entrance and to the street. The front entrances are located eight (8) steps above grade. Centered at grade on the primary façade (west elevation) of the building at 6102 14th Street is a entranceway consisting of three paired steel doors

situated beneath a cantilevered flat roof overhang.

(7) *Relationship of Materials.* The building materials are generally composed of common-bond brick with stone trim. The building at 6125 14th Street features, on its sanctuary, a stone sill course, wooden doors, vergeboards, decorative timbering, roof brackets, and tower louvers, stone window surrounds framing leaded glass windows with wooden tracery, and on its wings, metal doors and wood and metal windows. Its roof is composed of asphalt shingles with copper flashing. The building at 6102 14th Street features generous amounts of rough-cut stone, facing a random ashlar foundation, stone quoins, sill and sash courses, and highlighting window and door openings; steel is used for doors, spandrels punctuating window openings, and a projecting marquee.

(8) *Relationship of Textures.* The buildings in the district display considerable textural interest. The major textural relationship is that of brick with mortar joints juxtaposed with wood and stone detail focused on door and window surrounds as well as on projecting entrance pavilions on the building at 6125 14th Street. Slightly projecting brick piers divide building façades into bays and contribute a repetitive textural quality to the façades. Tall, narrow expanses of basketweave brickwork exist above the main entrances to the building at 6102 14th Street, contrasting with the common bond brickwork elsewhere on the building and the diamond-patterned masonry. Smooth metal finishes are found on the building's marquee and window spandrels. Roofing materials do not generally contribute to the textural interest of buildings in the district.

(9) *Relationship of Colors.* Generally, colors in the district consist of subdued earth tones. The brickwork on buildings is buff in color, and this contrasts subtly with gray stone and concrete, pale yellow painted woodwork and stucco, and leaded glass windows featuring pale yellow stained glass on the building at 6125 14th Street. Individual stones that comprise the trim of the building at 6102 14th Street vary significantly in color, featuring muted shades of reds, browns, and yellows.

(10) *Relationship of Architectural Details.* The building at 6125 14th Street is Tudor Revival in style, while the building at 6102 14th Street is Art Deco in style. Of the two buildings in the district, the building at 6125 14th Street contains a somewhat greater degree of applied architectural detail, with Gothic tracery and tabbed-stone surrounds highlighting its sanctuary and tower windows, prominent wooden brackets and vergeboards, with quatrefoil decoration in relief, highlighting its roofline, and bracketed wooden vergeboards, with trefoils in relief, surmounting its projecting entrance pavilions. The

building at 6102 14th Street has a somewhat greater degree of architectural detail in its central bays than in its outer bays, its three main entry doors separated by narrow, engaged, three-sided towers, and flanked by broader towers that rise to project slightly above the roofline, and are topped with small, triangular, prism-like projections. The building at 6102 14th Street features on its southwest corner a large cornerstone incised in relief, reading in three (3) lines: "Jesus Christ Himself/The Chief Corner Stone/ 1937", and above its marquee a series of individual stainless steel letters rising from the edge of its overhang reading "KING SOLOMON BAPTIST CHURCH".

(11) *Relationship of Roof Shapes.* On the façade of the building at 6102 14th Street, the roof is not visible from directly in front of the building due to a short parapet wall topped by a stone coping which projects upward along the roofline. The gable-front roof is visible from either side. A simple, brick slope chimney is flush with the building's rear wall. The building at 6125 14th Street features an irregular roof shape, with flat-roofed wings flanking the front-gabled roof of its central sanctuary, which is intersected by a south transept capped by a six-faceted, semi-pyramidal roof with projecting eaves, and interrupted by a course of clerestory windows. The building at 6102 14th Street features a flat roof with a tall parapet wall rising from the central bays of the front (west) elevation.

(12) *Walls of Continuity.* Not applicable due to the presence of only one (1) building on each side of 14th Street.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* The buildings occupy most of their sites; the sites do not contain any landscaping, street furniture, or other significant landscape features. Streets and alleys within the district are paved with asphalt and feature concrete curbs. Street lights and traffic signals do not contribute to the significance of the district, and are mounted on wooden poles.

(14) *Relationship of Open Space to Structures.* Immediately to the north of the building at 6102 14th Street is a grassy area that once contained a residential building.

(15) *Scale of Façades and Façade Elements.* The façades of both buildings are of a scale typical to other substantial religious structures in Detroit from the first half of the twentieth century. Elements on the façade of the building at 6125 14th Street, such as the building's leaded glass windows, wooden roof brackets, and wide vergeboards, are large in scale.

(16) *Directional Expression of Front Elevations.* The front elevations of the buildings in the district are primarily vertical in expression due to the presence of brick piers, engaged towers, and window openings that are significantly taller than

wide, although both buildings in the district are proportionally wider than tall. The central sanctuary of the building at 6125 14th Street is particularly vertical in expression due to the presence of a peaked roofline and vergeboards.

(17) *Rhythm of Building Setbacks.* All building elevations in the district feature minimal setbacks, coming within one (1) foot of public sidewalks or paved alleys.

(18) *Relationship of Lot Coverages.* The building at 6125 14th Street, including its front stairways, and wheelchair ramp, occupies approximately one hundred percent (100%) of its lot. The building at 6102 14th Street occupies approximately eighty percent (80%) of its lot.

(19) *Degree of Complexity within the Façades.* The front façade of the building at 6125 14th Street bears a somewhat higher degree of complexity on its central sanctuary than on its northern and southern wings. The front façade of the building at 6102 14th Street bears a somewhat higher degree of complexity on its central bays, with heavy use of stone trim, than on its outermost bays. Generally, both buildings in the district are complex in their façades.

(20) *Orientation, Vistas, Overviews.* The buildings at 6125 and 6102 14th Street are oriented to the east and west, respectively, toward 14th Street. The main entrances of both buildings open onto 14th Street.

(21) *Symmetric or Asymmetric Appearance.* The front façade of the building at 6125 14th Street is asymmetrical in appearance due to a difference in massing on its northern and southern bays, and due to the presence of an off-center engaged tower on its central sanctuary. The front façade of the building at 6102 14th Street is symmetrical in appearance.

(22) *General Environmental Character.* The district consists of two (2) buildings facing each other at the intersection of 14th Street and Marquette Avenue. The surrounding area is residential in nature. A majority of the surrounding lots contain single-family or multi-family detached houses, with a smaller number of vacant lots.

**Section 2.** All ordinances or parts of ordinances, or resolutions in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

WHEREAS, The Detroit City Council's Southwest Community Taskforce has met with community stakeholders in order to gain a greater perspective of what issues are germane to the southwest community, the reduction of truck traffic traveling through residential neighborhoods being an issue echoed through each of the community forums; and

WHEREAS, Three of Michigan's most polluted ZIP codes — 48217, 48210 and 48209 — are located in Southwest Detroit, according to a recent study by the University of Michigan, which also found that the 48217 ZIP code is the most polluted community in Michigan, and its neighboring ZIP codes rank in five of the other top 10 spots statewide; and

WHEREAS, State monitoring stations show that the highest amount of soot and other fine particulates in Michigan that can enter into the lungs were found in Detroit's Delray neighborhood in the 48209 ZIP code, according to a recent article in the Detroit Free Press. The study blamed the high levels of pollution on decades of industrial work in the area, rather than on one specific plant; and

WHEREAS, Pollution has had hazardous effects on the city's air quality and experts believe it can be a major factor in serious ailments among local residents, including various forms of cancer, and heart and respiratory ailments such as asthma; and

WHEREAS, Southwest Detroit is home to the largest rail yard in Michigan, a composting facility and one of the largest waste water treatment plants in the state; it also houses Michigan's only oil petroleum refinery, three major highways and heavy industries that cause increased truck traffic which contributes to the level of air pollutants. NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the Department of Public Works/Traffic Engineering Division to conduct a study of current posted truck routes, actual truck travel patterns, and obtain community input on problem areas where trucks are traveling through residential streets for the purpose of developing a comprehensive truck routing plan that improves the quality of life for residents by reducing truck traffic on residential streets, near schools and other sensitive populations and through commercial

shopping districts, along with a plan for posting the proposed new truck routes and enforcement.

**STATEMENT BY COUNCIL MEMBER  
KWAME KENYATTA REGARDING  
THE APPROVAL OF LAKESHORE  
ENGINEERING CONTRACTS  
WITH DWSD**

February 22, 2011

Today, City Council approved three contracts with Lakeshore Engineering, awarding them a grand total of \$18,445,125.00. I voted no on all three contracts. Lakeshore has been connected with an ongoing federal investigation into the misappropriation of contracts by the former Kilpatrick Administration through the Detroit Water and Sewerage Department.

Lakeshore's own lawyers eagerly assert that they are not entwined in any illegalities that may be alleged through the investigation. However, no audit of Lakeshore, or the other contractors that they have been linked to, including A&H and Ferguson Enterprises, has been conducted. Lakeshore has not been exonerated of profiting from illegal DWSD contract preferences and other unfair busi-

ness practices that may have come as a result of their campaign donations or other favors, such as their hiring of former DWSD director Anthony Adams in 2008 as president of Lakeshore Healthcare Investment Group.

I have requested, but have yet to obtain a full review of Lakeshore's participation in the contract acquisition process with DWSD. I think that the citizens deserve a better level of accountability as it concerns the use of dollars from DWSD. This is particularly so in light of the impending Stipulated Order and ongoing federal scrutiny from not only the FBI but the SEC.

It must be noted that other contractors who honorably refused to participate in the alleged financial mismanagement of DWSD contracting have suffered greatly and lost their businesses as a result of being intentionally blocked for contracts with DWSD.

I think that it is unfair to continue to reward those contractors who developed unprofessionally close relationships with decision makers and their advisers in order to line their own pockets. To do so only sends the message that in the City of Detroit change has not really come, the foul scent of water and sewerage contracts emanates from more than the City's steamy underbelly and cheaters *do* win.

There is much concern and discussion in Lansing regarding the passage of an Emergency Financial Manager bill that could affect cities like Detroit. With actions like the vote taken today, it may only serve to bolster the beliefs of those legislators in Lansing who maintain that the City of Detroit is incapable of self-governance.

STATEMENT BY COUNCIL MEMBER  
ANDRE L. SPIVEY REGARDING  
LAKEHORE ENGINEERING VOTE  
February 22, 2011

After careful consideration on this matter, today, I voted to approve contract No. 2828903 for the Detroit Water and Sewerage Department's repair of pavement, sidewalks, driveways and curb cuts for Lakeshore Engineering.

In light of the federal indictments leveled against former Mayor Kwame Kilpatrick alleging corruption stemming from DWSD contracts, it is prudent to be cautious and deliberative when examining all DWSD contracts.

The contract in question was awarded in an open, competitive bid process with five other bidders and subject to the scrutiny of the City Council. By contrast, the contracts that are the subject of the federal indictments arise from the former mayor's role as Special Administrator as designated by former U.S. District Judge Feikens. As such, the former mayor was able to authorize "red tag" contracts without City Council approval.

Assuming that Lakeshore Engineering is, indeed, "Company L" as described in the federal indictments, we are not yet privy to the full scope of the allegations involving "Company L" due to the confidential nature of the government's case. Therefore, it is premature, in my view, to take any action that could be interpreted as punitive against Lakeshore Engineering.

### Detroit Police Department

January 21, 2011

Honorable City Council:

Re: Request to Apply for the "Solving Cold Cases with DNA Program" from the United States Department of Justice (USDOJ).

The United States Department of Justice, Office of Justice Programs, National Institute of Justice, is seeking applications for funding under the Solving Cold Cases with DNA Program. Local governments are eligible to apply for an **amount to be determined, with no cash match**, for a program where the mission is to identify, review, and investigate Uniform Crime Report (UCR), Part 1 Violent Crime "cold cases" that have the potential to be solved through DNA analysis, and to locate and analyze biological evidence associated with these cases.

The Detroit Police Department's Homicide's Cold Case Unit has been provided with the application instructions and is currently developing a program to fit the guidelines of the grant. The majority of the funding requested, would be utilized to cover the expense of overtime for the officers assigned to the Homicide Cold Case. Re: Request to Accept a "2011 Electronic Crash & Submission Grant" from the Michigan Office of Highway Safety Planning (OHSP).

The Michigan Office of Highway Safety Planning (OHSP) has awarded the Detroit Police Department (DPD) "2011 Electronic Crash Capture & Submission Grant" in the amount of \$273,977.00, with no cash match. The grant period will run from December 17, 2010 through September 30, 2011 and the grant number is TR 11-14.

The Detroit Police Department will be working collaboratively with a contracted vendor, iyeTek, and Michigan State Police to improve DPD's electronic crash reporting system. Within the grant, training and equipment will be provided to DPD officers.

If permission is granted to accept this award, Lieutenant Tonya Golfin, of Technical Support, will serve as the Project Director for the grant. The appropriation number for this grant is 13343.

February 16, 2011

Honorable City Council:

Re: Proposed Resolution Extending the Time in the Settlement Agreement Dated February 4, 2010 Regarding Greektown Casino, L.L.C., to Propose a Replacement Manager. On February 4, 2010, the City of Detroit

and Greektown Casino, L.L.C., entered into a Settlement Agreement. Pursuant to the Agreement, Greektown has until February 28, 2011 to propose to the Mayor and the City Council a replacement manager to run the day-to-day operations of its casino.

It is our understanding that Greektown has been actively engaged in a search for a replacement manager for the last several months. Although we have been notified that Greektown has made significant progress with its search and is currently in negotiations with a potential candidate, Greektown cannot be assured that it will be in a position to propose a replacement manager to the Mayor and City Council by the February 28, 2011 deadline. As a result, Greektown has requested that your Honorable Body approve a resolution to grant an extension until May 31, 2011 to propose a replacement manager to the Mayor and City Council. Given the significance, and deliberative nature, of a search process, we are of the opinion that a three-month extension is reasonable.

Attached for your consideration and adoption is a proposed resolution. In order to ensure that the extension is approved prior to the expiration of the February 28, 2011 deadline, we request that the proposed resolution be considered and approved at your February 22, 2011 Formal Session. In the event that you decide to refer this matter to the Internal Operations Standing Committee for consideration and approval on February 23, 2011, we request that your Honorable Body hold an Adjourned Formal Session on Friday, February 25, 2011, for purposes of adopting the attached proposed resolution.

If you have any questions, we are available to respond. Thank you for your consideration.

Respectfully submitted,

KRYSTAL A. CRITTENDON

Corporation Counsel

Honorable City Council:  
 Re: Petition No. 2615 — JDJ Holdings, LLC request to vacate street and alley in the area of Riopelle, north of Milwaukee and south of curb line of E. Grand Blvd., and alley west of Riopelle between Milwaukee and E. Grand Blvd.

Petition No. 2615 of “JDJ Holdings, LLC”, request the conversion of Riopelle Avenue, 50 feet wide, between East Grand Boulevard, 150 feet wide and

Milwaukee Avenue, 60 feet wide; and a portion of the east-west public alley 20 feet wide, in the block bounded by East Grand Boulevard, 150 feet wide, Milwaukee Avenue, 60 feet wide, Russell Street, 60 feet wide, and Riopelle Avenue, 50 feet wide into private easements for utility companies. This request will provide the ability for JDJ Holdings LLC to renovate a vacant building to create office, warehouse and maintenance facilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of public

rights-of-way into a private easements for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

MANILAL PATEL

**Planning & Development Department**

February 22, 2011

Honorable City Council:

Re: Substantial Amendment to the 2010-11 Consolidated Annual Action Plan to authorize the Neighborhood Stabilization Program 3 ("NSP 3").

Thank you in advance for your prompt consideration of the proposed Substantial Amendment to the 2010-11 Consolidated Annual Action Plan to include funds allocated to the City of Detroit for Neighborhood Stabilization Program 3 ("NSP 3").

The City of Detroit, as authorized under the Wall Street Reform & Consumer Protection Act of 2010 ("Dodd-Frank Act of 2010"), has been allocated \$21,922,710 in NSP 3 funds to stabilize neighborhoods whose viability has been and continues to be, damaged by the economic effects of properties that have been foreclosed upon and abandoned.

As you are aware, the City of Detroit did receive \$47.1 million dollars in NSP 1 funds and was successful in meeting the obligation deadline, averting the risk of recapture. To date, we have expended approximately \$6.5 million of the NSP 1 funds and several rehabilitation and new construction projects are currently underway. We will provide your Honorable Body with a copy of our next quarterly report, which will further delineate our current spending and project activities.

Additionally, the City of Detroit participated in the Consortium, led by the Michigan State Housing Development Authority ("MSHDA") for NSP 2, of which approximately \$41 million was allocated for the City of Detroit. To date, none of the funds have been expended and current activities include \$18 million under contract with the Detroit Land Bank Authority to complete redevelopment, acquisition, rehabilitation and land banking activities. A Request for Proposals (RFP) for developers will be issued in March.

In designing the NSP 3 application, we have taken lessons learned from NSP 1 into consideration. We have also attempted to address market conditions that have significantly changed since our original NSP application. As such, the proposed budget, by eligible activity, is listed below:

Administration:	\$ 2,192,271 (10% cap)
Financing	
Mechanisms:	\$ 3,500,000
Acquisition/	
Rehabilitation:	\$13,538,168
Demolition:	\$ 1,192,271 (10% cap)
Redevelopment:	\$ 1,500,000
<b>Total:</b>	<b>\$21,922,710</b>

As with previous NSP applications, targeting is also required. More specifically, the U.S. Department of Housing & Urban Development ("HUD") requires that grantees target areas of greatest need. As such, HUD provided certain data and they also requested that the City use local

data, to determine areas of greatest need. Date that was used to identify the areas of greatest need include: need score (not less than 17), number of housing units, percent at or below Area Median Income ("AMI"), vacancy rate, rate of mortgage delinquency, rate of high cost mortgages, number of foreclosures, other investments, home-ownership rate, rental rate, REO sales, etc. As a result of the analysis of the data, ability to leverage additional dollars and greatest opportunity for impact, the following areas are proposed for the NSP 3 target areas:

**Grandmont**

- Rosedale:** Census Tract 5431, Block Groups 001, 002
- Census Tract 5429, Block Group 002

**Warrendale:**

- Census Tract 5463, Block Group 002
- Census Tract 5462, Block Group 007

**North Central:**

- Census Tract 5383, Block Group 001

**Northend:**

- Census Tract 5325, Block Groups 001-003

**East English**

- Village:** Census Tract 5018, Block Group 003

The public has also been provided the opportunity to review the draft plan and provide comment. The draft Action Plan has been posted on the City of Detroit website since February 10, 2011 which was the beginning of the public comment period. A public hearing was also held on Thursday, February 17, 2011 at Butzel Family Center. Comments can also be mailed to the Planning & Development Department or e-mailed to [NSP3Comments@detroitmi.gov](mailto:NSP3Comments@detroitmi.gov). The official public comment period ends on February 24, 2011.

The Substantial Amendment is due to HUD by March 1, 2011. Upon submission, HUD has 45 days to review the application. A resolution for consideration and approval by your Honorable Body is attached.

Should you have questions or need additional information, please do not hesitate to contact me. Thank you for your continued support and consideration.

Respectfully submitted,  
MARJA M. WINTERS  
Deputy Director

**RESOLUTION OPPOSING THE  
ELIMINATION OF STATUTORY  
REVENUE SHARING**

By COUNCIL MEMBER JENKINS:

WHEREAS, Michigan Governor Rick Snyder's proposed budget for state fiscal years 2012 and 2013 prescribes the elimination of \$307 million in statutory revenue sharing appropriations; and

WHEREAS, Said proposal would cost the City of Detroit \$178.5 million — an amount equal to 13.7 percent of its current \$1.3 billion budget for general city agencies — and cause great financial injury to Michigan largest municipality, its residents and the state as a whole; and

WHEREAS, Governor Snyder's proposal comes after the state already reneged on a 1998 agreement with the City of Detroit that called for the Michigan Treasury to appropriate the municipality \$333.9 million in total revenue sharing payments, each state fiscal year from FY 1999 through FY 2007, in exchange for the city reducing its individual income tax rate to 2 percent from 3 percent in increments of one-tenth (0.1) each year; and

WHEREAS, From FY 2003 through FY

2007, Michigan state lawmakers repeatedly amended the Revenue Sharing Act (*Public Act 140 of 1971*) to instruct Treasury to appropriate the City of Detroit amounts less than the aforementioned \$333.9 million each year, such that the municipality received **\$220.2 million less in statutory revenue sharing** during that span than what was prescribed in that 1998 agreement; and

WHEREAS, In a conspicuous display of duplicity, those same state lawmakers never amended the City Income Tax Act (*Public Act 284 of 1964*) to fully return to City of Detroit elected leaders the right to set the individual income tax rate up to the maximum 3 percent that voters approved in 1981 and have thereby denied the municipality the ability to even generate resources locally. Simply put: The state freed itself from its statutory obligation to Detroit residents under that 1998 agreement but left the city legally bound to its end of this failed deal; and

WHEREAS, Diminished support from the State of Michigan contributed to the City of Detroit's having to issue fiscal stabilization bonds last year in the amount of \$250 million — a sum nearly equal to the \$220.2 million in statutory revenue sharing denied the municipality. Unlike with revenue sharing resources, however, the City of Detroit must repay the bonds with interest; and

WHEREAS, The State of Michigan has not fully funded statutory revenue sharing since FY 2001, denying all local units of government \$4.25 billion in resources for basic services during that span. Nor have state lawmakers ever allowed the last statutory revenue sharing distribution formula — written into law in 1998 — a legitimate chance to work, spawning instability and volatility in the program that has trickled down to locals; and

WHEREAS, Governor Snyder's budget calls for replacing statutory revenue sharing with a smaller pot of \$200 million; distributing that money to locals pursuant a yet-to-be-unveiled incentive plan; and making some 1,200 smaller, rural communities that currently receive no statutory revenue sharing — many of them townships — eligible for a portion of this new money; and

WHEREAS, Said idea constitutes poor public policy because it disregards the considerable differences in responsibilities for service-delivery between urban and rural communities and also promotes urban sprawl; and

WHEREAS, Governor Snyder's budget proposal contradicts the collegial tone of his inaugural address, in which he stated: "We need to put party and geography behind and come together as Michiganders to reinvent our state." NOW THEREFORE BE IT

RESOLVED, The Detroit City Council

vehemently opposes Governor Snyder's proposal to eliminate statutory revenue sharing, which essentially seeks to balance Michigan's deficit-laden budget on the backs of Detroit residents. BE IT FURTHER

RESOLVED, The City of Detroit urges the Michigan Legislature to oppose Governor Snyder's budget, which prioritizes big business at the expense of services to the people. AND BE IT FINALLY

RESOLVED, The Detroit City Clerk is instructed to send a copy of this resolution to Mayor Dave Bing; Governor Rick Snyder; individual members of the Michigan Legislature; and City of Detroit Lansing Lobbyist Kenneth Cole.

February 8, 2011

Honorable City Council:

Re: Michael Christy vs. City of Detroit, et al. Wayne County Circuit Court Case No. 10-005246 CZ.

On January 31, 2011, this matter was mediated before a Wayne County Mediation Panel for Fifty Thousand Dollars (\$50,000.00) in favor of Plaintiff, Michael Christy against the City of Detroit. The parties have until February 28 2011 to either accept or reject the mediation award. The failure to file a written acceptance or rejection within this period constitutes a rejection. If all parties accept the mediation panel's evaluation, judgment will be entered in that amount, which includes all fees, costs, and interest to the date of judgment. If a party rejects the evaluation, the case proceeds to trial; however, the party rejecting evaluation must pay additional sanctions if the trial results are not favorable.

We have reviewed the above-captioned civil lawsuit, the facts and particulars of which are set forth in the memorandum submitted under separate cover. From this review, it is our considered opinion that

acceptance of the mediation evaluation in the amount of Fifty Thousand Dollars (\$50,000.00) is in the best interest of the City of Detroit. The acceptance of the mediation evaluation does not guarantee settlement of the matter in this amount since the plaintiff has the right to reject the award and proceed to trial. However, an eventual settlement of this matter in this amount is prudent.

We, therefore, request your Honorable Body to authorize the acceptance of the mediation evaluation and direct the Finance Director to issue a draft in the amount of Fifty Thousand Dollars (\$50,000.00) payable to Michael Christy and Howard Yale Lederman his attorney, to be delivered upon receipt of the notice of mediation settlement and Order of Dismissal.

Respectfully submitted,

*(Psalm 8)1 O Lord, our Lord, how excellent is Thy Name in all the earth! Who hast set Thy glory above the heavens.*

Father we give You thanks and praise for this is the day You have made and we rejoice and are exceedingly glad in it. We acknowledge Your faithfulness to us, and the new mercies that You have bestowed upon us. We thank You for Thy grace and Thy loving-kindness that over shadows our deficiencies. We ask today in a special way that You would bless our elected officials. We pray that as they continue You to serve and conduct the business of the City of Detroit, that You would crown them with wisdom and knowledge. We pray that You will increase their discernment that they might make quality decisions on behalf of the citizens of Detroit. And most of all Father, we pray that the spirit of unity will prevail among them as they embrace the power of agreement. We pray that humility will triumph over individualism as we seek to unite in a common cause that will ultimately glorify You! RFQ #35366 — Hired Truck Services in response to City Council's memorandum dated February 4, 2011 requesting a response to protest by Ms Carole Lapinta. **(DPW has funding available to award 16 Hired Trucks. The recommendation was made to award the three lowest bidders, who between them had the ability to provide all 16 trucks with no exception to the specifications. The department has found no basis to Ms. Lapinta's complaint and feels that the awards to the three lowest bidders should be approved. As an aside, be informed that Ms. Lapinta did not bid on the above-referenced contract.)**

**Finance Department  
Administration**

February 7, 2011

Honorable City Council:

Re: Charles H. Wright Museum of African American History. Grant of Electrical Utility Easement; and Amendment to the Operating Agreement.

The Finance Department is requesting this Honorable Body approve two distinct matters involving the Charles H Wright Museum of African American History: (1) the grant of an electrical utility easement to the Detroit Science Center over part of the property comprising the Charles H. Wright Museum of African American History; and (2) the adoption of a First Amendment to the Operating Agreement for the Charles H. Wright Museum of African American History.

**Background to the Requested Grant of an Electrical Utility Easement to the Detroit Science Center.**

In 2008, the Detroit Science Center ("DSC") commenced construction of a new building to house the University Prep Science & Math Charter School (the "School"). The School is located on DSC's property adjoining the Detroit Science

Center building (described in the attached document as "DSC's Property"). The City owns the adjacent property (described in the attached document as the "City's Property"). The building housing the Charles H. Wright Museum of African American History (the "Museum") is located on the City's Property. New underground utility lines were installed during construction of the School to provide electrical service to the School. After the new underground lines were in place, it was discovered that the electrical utility lines were inadvertently installed on the City's property. In order to avoid having to remove and relocate the utility lines, DSC has requested that the City grant it a fifteen-foot (15") wide easement solely for the electrical utility lines (described in the attached document at the "Easement Area"). The terms of the attached document granting the easement (the "Easement Agreement") have already been approved by DSC and by the Museum.

**Background to the Requested Amendment to the Operating Agreement for the Charles H. Wright Museum of African American History.**

In the course of preparing the Easement Agreement, we learned that the "Operating Agreement" between the City of Detroit and the Charles H. Wright Museum of African American History had lapsed. We also discovered an error in the legal description used in the Operating Agreement to describe the real property upon which the Museum is located (referred to in the Operating Agreement as the "Premises").

This Honorable Body approved a certain "Operating Agreement for Charles H. Wright Museum of African American History" (the "Operating Agreement") on October 20, 1999. In accordance with the terms of the Operating Agreement, the Museum of African American History, Inc., a Michigan nonprofit corporation doing business as the "Charles H. Wright Museum of African American History" has operated and managed the Museum since November 1, 1999. The initial term of the Operating Agreement was for ten (10) years. The term of the Operating Agreement thus expired on November 1, 2009.

Incorporated in the Operating Agreement are procedures for extending the agreement for two additional five (5) year periods; however, these procedures were not followed. In order to rectify this apparent oversight, the proposed "First Amendment to the Operating Agreement" extends the term of the Operating Agreement for an additional ten (10) years, effective November 1, 2009. The First Amendment to the Operating Agreement also replaces the legal description of the premises to accurately describe the Museum site.

A resolution consistent with the above is submitted for your consideration. We also respectfully request that your Honorable Body adopt the attached resolution with a waiver of reconsideration.

Respectfully submitted,

THOMAS J. LIJANA

Finance Director

By Council Member Kenyatta:

Resolved, That the grant to the Detroit Science Center, a Michigan nonprofit corporation, of an electrical utility easement in form and substance consistent with the attached Exhibit A, is hereby authorized and approved; and be it further

Resolved, That the Finance Director is authorized to execute and deliver an Easement Agreement in form and substance consistent with the attached Exhibit A; and be it further

Resolved, That the First Amendment to the Operating Agreement for the Charles H. Wright Museum of African American History, in form and substance consistent with the attached Exhibit B, is hereby authorized and approved; and be it finally

Resolved, That the Finance Director is authorized to execute a first amendment to the Operating Agreement for the Charles H. Wright Museum of African American History in form and substance consistent with the attached Exhibit B.

A waiver of reconsideration is requested.

**City Planning Commission**

February 16, 2011

Honorable City Council:

Re: Installation of awning on the Comerica Bank Building, located at 411 W. Lafayette Avenue (Recommend Approval).

The staff of the City Planning Commission (CPC) received a building permit application for the installation of an awning along a portion of the north façade of the Comerica Bank Building, located at 411 W. Lafayette Avenue, facing W. Lafayette. The PCA (Restricted Central Business District) zoning classification in which the building is located calls for City Council approval of the location and design of exterior modifications following the review and recommendation of CPC and the Planning and Development Department (P&DD) (Section 61-3-182 and 61-11-96 of the Zoning Ordinance). CPC and P&DD staff has reviewed the application and submit this report and recommendation.

**PROPOSED AWNING**

The proposed awning is to be located over the entrances along the central 80 feet of the northern façade along W. Lafayette Ave. It would be located approximately twelve feet above the sidewalk.

The supporting structure would be of stainless steel, with blue tinted glass forming the awning. The submitted rendering is attached. Please note that the signage and blue light band shown in the rendering are *not* being considered in this application, and will be considered at a future date.

**REVIEW**

In accordance with the Special District Review provision of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PCA provisions of Section 61-11-96, this review of the proposed awning is considered in light of the following criterion: "special attention should be given to amenity and comfort considerations such as . . . protection from harsh weather through such features as enclosed walkways and arcaded pedestrian areas" (Sec. 61-11-97 [16]). The proposed awning appears to meet the requirements of City Code.

**RECOMMENDATION**

CPC staff has completed its review of the proposed awning (again noting that the sign and lighting shown on the rendering are *not* being considered), as has the Planning and Development Department staff. We find that the awning would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed awning. Please find attached the appropriate resolution to effectuate your approval.

Respectfully submitted,

GREGORY F. MOOTS

By Council Member Kenyatta:

By Council Member Kenyatta:

Whereas, Community Living Entwined Around the Neighborhood (C.L.E.A.N.) has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on July 20, 2010, established by Resolution an Obsolete Property Rehabilitation District in the vicinity of 10313 Puritan Street, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 198 of 1974 exceeds 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obsolete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Obsolete Property Rehabilitation District; and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by Section 2(l) of the Act; and

Whereas, This City Council has granted until March of 2013 for the completion of the rehabilitation; and

Whereas, On February 24, 2011, in the

City Council Committee Room, 13th Floor, Coleman A. Young Municipal Center, Detroit, Michigan, a public hearing was held on aforesaid application, at which time the Applicant, the Assessor, the general public, and representatives of the affected taxing units had an opportunity to be heard; and

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax within the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of Community Living Entwined Around the Neighborhood (C.L.E.A.N.), for an Obsolete Property Rehabilitation Exemption Certificate, in the City of Detroit Obsolete Property Rehabilitation District is hereby approved for a period of five (5) years from completion of the facility in accordance with the provisions of the Act; and be it finally

**TESTIMONIAL RESOLUTION  
FOR**

**MONTFORD POINT MARINES**

By COUNCIL PRESIDENT PRO TEM  
BROWN:

WHEREAS, Since 1775, the United States Marine Corps has served our county in peace and war. Today, the Marine Corps still serves the nation as a force in readiness, prepared to serve whenever the nation calls. The Montford Point Marines are proud to be a thriving part of the "Marine Corps Family"; and

WHEREAS, On June 25, 1941, President Franklin D. Roosevelt issued Executive Order No. 8802 establishing the fair employment practice that began to erase discrimination in the Armed Forces. A board headed by Brigadier General Keller E. Rocher was organized to study the integration of African Americans being signed to the Composite Defense Battalion, which included coastal artillery, anti-aircraft, infantry and tanks; and

WHEREAS, In 1942, President Roosevelt established a presidential directive giving African Americans an opportunity to be recruited into the Marine Corps. However, these African Americans from all states were not sent to the traditional boot camps, but were segregated — experiencing basic training at Montford Point — to a facility at Camp Lejeune, North Carolina. Approximately 20,000 African-American Marines received basic training at Montford point between 1942 and 1949; and

WHEREAS, Ask any Marine and he will tell you that the Marine Corps was *born* in Tun Tavern on November 10, 1775 in Philadelphia, Pennsylvania. So it is very fitting that 20 years after World War II, an enterprising group of Marine veterans residing in Philadelphia held a national reunion for the Montford Point Marines in

the summer of 1965. Over 400 former and active duty Marines, representing 17 states attended the reunion; and

WHEREAS, On April 19 1974, Montford Point Camp was renamed Camp Johnson, in honor of the late Sergeant Major Gilbert H. "Hashmark" Johnson. Johnson was one of the first African American's to join the Corps. He went on to become a distinguished Montford Point Drill Instructor and a Veteran of World War II and Korea. The camp remains the only Marine Corps installation named in honor of an African American. NOW, THEREFORE BE IT

RESOLVED, That Council President Pro Tem Gary Brown and the Detroit City Council hereby honor the Montford Point Marines for their distinguished service. Once given a chance to prove themselves, these gentlemen changed perceptions and attitudes. This led President Harry S. Truman to issue Executive Order No 9981 — negating segregation. The Montford Point Marines showed that this new breed of Marine was just as capable as all other Marines and their legacy lives on today.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Kenyatta, Spivey, Tate, Watson, and President Pugh — 7.

Nays — None.

And the Council then adjourned.

Honorable City Council:  
Re: Renaissance Village — Payment in Lieu of Taxes (PILOT).

Evergreen Estates, a development located in the Evergreen Road and West Seven Mile area, was built in 1942 and underwent major rehabilitation in 1985, modest rehabilitation in 1997/1998. Michigan State Housing Development Authority (MSHDA) foreclosed on the property in 2007 and has agreed to sell the complex to an entity to be formed by Ginosko Development Company (GDC). GDC is proposing a gut-rehabilitation of all the residential units and a reduction in the number of dwelling units from 305 to 185: all 1-bedroom units will be demolished. The renovated units will be comprised of two and three bedroom apartments and town-homes.

Funding for the project will be provided Tax-Exempt Bond Financing; MSHDA NSP Funds; City of Detroit HOME Investment Partnership Act and Brownfield Michigan Business Tax.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Tenants will occupy the units whose income does not exceed 45% of the area median income adjusted for family size. Forty one point-one percent (41.1%) of the units will be occupied by families with incomes no greater than 40% of the area median income; fifty nine point nine percent (59.9%) of the units will be occupied by families with incomes no greater than 45% of the area median income.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of six percent (6%) of the net shelter rent.
