**RESOLUTION IN SUPPORT OF A MORATORIUM REGARDING THE CITY'S PAYMENT OF DEBT SERVICE TO MAJOR BANKS**

By COUNCIL MEMBER WATSON:  
WHEREAS, A major cause of Detroit's loss of population as reported in the last Census was mass foreclosures throughout Detroit as the result of racist, predatory loans by the major banks; and

WHEREAS, A report in January, 2009 prepared by the City's Planning and Development Department noted that of 330,000 new mortgages in Detroit from 2004 to 2006, 73 percent were sub-prime mortgages or mortgages 3 percent above the standard interest rate; and

WHEREAS, The report from Planning and Development noted that from 2005 to 2009, the city experienced 67,000 bank foreclosures, more than 20 percent of all household mortgages. The study noted that two-thirds of foreclosed properties were then vacant. The foreclosures have continued in the years since this report was published; and

WHEREAS, The banks knew these subprime loans would fail when they made them, but they didn't care because of the massive profits they made — until the bubble burst, at which time the banks were bailed out by the taxpayers and continue to be bailed out to this day; the Federal government pays the bank the inflated value of the mortgage and then evicts the homeowner; and

WHEREAS, The same banks who caused these foreclosures and loss of property values to the City's tax base continue to receive debt payments from the City of Detroit while there are large cut-backs in City services and jobs in order to pay the debt service on loans made to the City of Detroit; and

WHEREAS, The banks exercise direct control over large sections of the City budget, with casino tax dollars and state revenue sharing paid to trustees, so the funds go directly to banks;

WHEREAS, Detroit can be rebuilt and repopulated through a massive jobs program where youth can be trained as carpenters, plumbers and electricians to rebuild the housing stock so that vacant houses can be returned to their rightful owners or turned over to the homeless and unemployed; THEREFORE BE IT

RESOLVED, That the City of Detroit declare a moratorium on debt service to the banks as well as demand reparations from the major banks for their role in destroying this once-great city.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

Nays — None.

## Invocation

Father, in the name of Jesus, we come boldly before Your throne of grace lifting up the City of Detroit, each leader, each constituent and each community.

We pray for those that are in authority in this city. We lift up our Mayor, Dave Bing, his staff and administration, Council President, Charles Pugh and each member of the Detroit City Council. We pray for those that are here today. Let us be on one accord, with one mind and one vision for the betterment of this city and surrounding populations.

Father, we apply the blood of Jesus to every department that is responsible for leading and directing our city into a position of greatness. Cover and protect each one. Give them wisdom in every decision.

Father, in Jesus' Name, bless our city with economic prosperity. May Your spirit draw in and attract to Detroit: thriving industries, successful businesses and flourishing corporations that will produce jobs and revenue to help Detroit progress and grow.

Now Father, through the power of the blood of Jesus, we commit the City of Detroit to You and regardless of how things look in the natural, we release our faith in You Lord and in the power of Your word and unfailing ability to bring it to pass. We believe that there is more than one righteous in the city and Your word declares that You would spare a city with one righteous and not destroy it.

In the mighty name of Jesus, through His blood, we thank You now and declare that the City of Detroit is fixed, full and whole and call these things done, Amen.

Honorable City Council:

Re: FY 2011-12 Budget Amendment — Schedule B Amended.

After further review of City Council's FY 2011-12 adopted budget, it is clear that additional funding is required to prevent significant negative impacts on our community.

The budget adopted by this Honorable Body reflects a reduction of \$50 million to what was recommended by Mayor Dave Bing. Firm revenue commitments made over the last month mitigate the need for such a drastic cut. Additionally, after a full analysis of the budget reductions submitted, the impact of these cuts does not best serve the interests of our residents and businesses.

This amendment contains an additional \$30 million of revenue to reflect the commitment of the DTE Escrow settlement of \$20 million and an additional \$10 million from the additional funding for State Revenue Sharing in FY 2010-11 and FY 2011-12. In addition, the City of Detroit was successful in amending state law to continue collecting income tax and utility user tax at its current rate, protecting more than \$90 million in revenue.

The additional \$30 million in funding will restore essential appropriations to Police, Fire, Recreation and the People Mover. These increases will not only allow continued operations in accordance with the Mayor's priorities but also avoid returning Federal grant dollars. The \$8 million cut to Police will severely diminish our ability to provide public safety. It will eliminate the City's ability to replace approximately 200 officers lost to attrition over the past year, which would include the forty (40) individuals currently ready for the academy. It would also result in removal of Community Relations Officers in the precincts and districts. The elimination of these functions will definitely have an affect on the working relationships that have been developed between DPD and the various community groups and neighborhood block clubs citywide. The restoration of \$6.3 million will allow for these services to continue.

The reduction of \$4 million for Fire will result in increased response times for EMS and Firefighting. Your Honorable Body and this Administration agree that this service must be improved, not further limited. The restoration of \$3 million will allow the department and its new leadership the opportunity to move forward on realizing efficiencies and improving the level of services.

This amendment will restore the General Fund subsidy to DTC. The adopted budget contained no funding for the People Mover. By restoring this subsidy, it avoids jeopardizing federal investments to the system. The cut proposed by your Honorable Body could result in the reimbursement of approximately \$100 million of FTA grant awards from the inception and construction of the People Mover to potential awards for FY 2011-12. Additionally, the \$7.4 million reduction to DDOT would also force the elimination of Sunday and Holiday bus service. Residents, particularly our seniors and youth would be adversely affected by this reduction.

This amendment restores \$3.2 million to Recreation to prevent closure of our Recreation centers and/or elimination of summer programming. This restoration will ensure that these programs are available to the public. The July 1 forced closure of Hart Plaza and all summer events can also be avoided through the additional funding proposed for the General Services Department (GSD) in this amendment. Increasing appropriations for GSD for cutting vacant lots and maintaining parks is also necessary to keep these areas safe.

This amendment also increases appropriations for central agencies as well as operational subsidies for cultural institutions. Approval by this Honorable Body will allow departments like Finance to implement monthly closing procedures and submit the CAFR for Fiscal 2010-11 in a timely manner. In addition, the cuts proposed to Finance threaten several key revenue generating initiatives that are critical to the City's financial stability.

This budget amendment is proposing to restore essential services based on known revenues sources. \$20 million in cuts still remain in the budget that will require modification to service levels. This administration is committed to reducing our deficit and has laid out a five-year plan to do so. Attacking the structural issues of pension and medical costs, not reducing our services, must be our first and most immediate priority. Working together toward adoption of this amendment ensures that we will have a fiscally responsible budget that reflects the priorities and service requirements of our residents.

Respectfully submitted,  
 FLOYD STANLEY  
 Deputy Budget Director

Now Be It Further, Resolved, That the 2011-12 Budget be and is hereby amended as outlined in the foregoing communication,

Now Be It Resolved, That the Budget Director be and is hereby authorized to amend the 2011-12 Budget in accordance with this resolution.

Not adopted as follows:

Yeas — Council Members Tate, and Watson — 2.

Nays — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, and President Pugh — 7.

**Statement by Council Member  
Kenneth V. Cockrel, Jr. on  
Mayor Bing's Fiscal Year 2011-12  
Budget Amendment Vote**

At today's Formal Session of the Detroit City Council, I voted against the \$30 million budget amendment presented by the Mayor. While I respect the Mayor for attempting to bridge the gap between City Council and the Administration, I believe that the desire to restore \$30 million to the Fiscal Year 2011-12 budget was both fiscally imprudent and undisciplined.

While I am pleased that the Mayor was finally able to facilitate a \$20 million payment from the Greater Detroit Resource and Recovery Authority's (GDDRA) escrow account, it should be noted this payment was part of \$85.5 million in "Restructuring Revenues" that Mayor Bing included in last year's budget and Deficit Elimination Plan. On the basis of those anticipated revenues, City Council restored \$17.8 million to the City of Detroit's 2010-2011 budget. The GDDRA payment should be utilized to fill the gap in Mayor Bing's 2010-2011 Deficit Elimination Plan, especially since only \$25 million of the \$85 million in "restructuring revenues" from that plan have materialized this fiscal year. Furthermore, in an environment where the State Legislature has greatly expanded the conditions under which a municipality or school district can trigger a formal financial review, our foremost priority should be to use discretionary funds to address the City of Detroit's structural and accumulated deficit. Decisions about the future of the City of Detroit must remain in the hands of those who are elected by its residents.

I remain committed to working with the Mayor and his Administration in finding a modest amount of amendments that would target restoration of core services for our most vulnerable residents, or can be factually demonstrated to substantially impact matching grant dollars. I must take issue however, with the propensity of the Administration to respond to City Council's budget reductions by making administrative "**choices**" designed to incite Detroiters' fear and despair. This is not leadership but political gamesmanship. We cannot afford to be fighting each other, when the true enemies of our progress are a decimated property tax base, a depressed local economy, loss of population, and reductions in our inter-governmental influence.

As I noted during Formal Session today, Fitch's Rating Service downgraded the City of Detroit's bond and pension obligation certificate debt because of failure to meaningfully reduce the accumulated deficit except through borrowing, local "economic fragility," and a history of annual operating deficits based in part on "optimistic revenue projections." City Council cannot make sound budget decisions without due consideration of our

past mistakes. those who do not heed the lessons of history are doomed to repeat them, and will suffer the consequences.

Honorable City Council:

Re: Petition No. 941 — Hotel D'Mongo's Dining Room by Claudio for Outdoor Café Permit at 1538-1540 Washington Blvd. (a/k/a 1545 Woodward).

The above named petitioner has requested permission for Outdoor Café Service. This service will convene from April 1st through November 30, 2011.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution.

Respectfully submitted,

Honorable City Council:

Re: Petition No. 949 — Angelina Italian Bistro for Outdoor Café Permit at 1585 Broadway.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene from April 1st through November 30, 2011.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and

Wellness Promotion (DHWP) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution.

Respectfully submitted,

ROBERT ANDERSON

Director

By Council Member Jenkins:

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum six (6) foot wide pedestrian clearance on the sidewalk, free of all obstacles such as existing planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

Provided, That the designated outdoor seating area shall be properly identified through the use of railings in order to regulate and control the serving of liquor within the perimeter of the café; and

Provided, That if any tent or other enclosure is to be utilized on the subject site, the applicant shall secure prior approval from Buildings and Safety Engineering Department and the Department of Public Works/City Engineering Division; and

Provided, That this use permit shall be for a period not to exceed one year after receiving the approval of the City Council and may be renewable on an annual basis; and

Provided, That all railing equipment and fixtures shall be removed from the public right-of-way during the months of non-operation and placed in storage; and

## City Planning Commission

June 23, 2011

Honorable City Council:

Re: Technical Corrections to the 2011-12 CDBG Budget as amended by City Council (Schedule A).

In the process of summarizing the City Council action on the Community Development Block Grant/Neighborhood Opportunity Fund (CDBG/NOF) with the Budget Department, we have discovered the need for some corrections to appropriation numbers, data entry, and the Revenue portions of the CDBG budget (Schedule A).

These corrections address Council's allocations for the following eight organizations (Arcadia Park Community Development Corporation, Cass Community Social Services, Coleman A. Young Foundation, Effective Alternative Community Housing, Forgotten Harvest Inc., Schulze Community & Economic Development, Inc, The Muslim Center, and University Commons).

#### **APPROPRIATION NUMBER CHANGES**

First, there are several organizations that have old appropriation numbers that now correspond to City Departments other than the Planning and Development Department. All CDBG/NOF recipients should be reflected under the Planning and Development Department Budget. Therefore, the following organizations' appropriation numbers have been changed from various departments to an appropriation number within Planning and Development.

- **Arcadia Park Community Development Corporation** and **Forgotten Harvest** have been changed from the Department of Health and Wellness Promotion to the Planning and Development Department.
- **Effective Alternative Community Housing** has been changed from the Department Human Services, to the Planning and Development Department.
- **Coleman A. Young Foundation, Schulze Community & Economic Development, Inc, The Muslim Center, and University Commons** have been changed from the Workforce Development Department, to the Planning and Development Department.

#### **DATA ENTRY ADJUSTMENTS**

**Cass Community Social Services** has applied in previous years under their project name of Oasis Detroit, The Oasis Detroit name was given a budget appropriation number. However, Cass Community Social Services applied this year under their organizational name, but the appropriation number is still under Oasis Detroit. Therefore, Schedule A needs to be corrected to show Cass Community Social Service name as Oasis Detroit.

#### **REVENUE CORRECTIONS**

The Budget Department has informed CPC staff that the revenue and expenditures reflected in the Schedule A were not balanced and need to be corrected. CPC staff has worked with Budget Department staff to balance the revenue and expenditures and the corrected number is reflected in the attached technical correction resolution.

#### **CONCLUSION**

The incorrect appropriation numbers for the above organizations were published in the Detroit Legal News. Attached is a resolution containing Technical Corrections to Schedule A. We are requesting Council action on this resolution so that the corrected information will be reflected in the Budget Department Red Book.

These changes in appropriation numbers, data entry and the revenue correction do not in any way change the amounts allocated to the listed organizations. We can respond to any questions you may have relating to these corrections.

Attachment — Resolution on Technical Corrections to Schedule A.

### **City Council Division of Research & Analysis**

June 27, 2011

Honorable City Council:

Re: Changes Approved by the Rules Committee.

At the June 24, 2011 meeting of the Rules Committee, the Members approved the following changes to the current City Council rules for consideration by the Body. According to Section 2-111, Rule Making, of the Charter changes in the rules must have a Public Hearing. The notice for the Public Hearing has to be posted in a daily newspaper at least four (4) weeks in advance of the hearing. Attached are the appropriate resolutions for each of the suggested changes to the Rules requesting a public hearing.

#### **Budget, Finance, and Audit Standing Committee**

Section 9.2.1 Budget, Finance, and Audit Committee needs revisions to more accurately reflect Council actions. First, the other four Standing Committees have a sub-section entitled *Committee Jurisdiction*. Budget, Finance, and Audit does not. Second, Section 9.2.1.3 Committee Expansion provides for the expansion of the Budget, Finance, and Audit Standing Committee to all nine Council members during Budget. There is no rule, however, that allows for the Budget, Finance, and Audit Standing Committee to meet during this time as its regular three-member committee. Finally, clarification needs to be made in Sections 9.2.1.2 and 9.2.1.3.

The following changes will clarify this section to more accurately reflect the actions that take place during the annual Budget process and to clarify this section of the Council Rules.

A new Section 9.2.1.2 Committee Jurisdiction needs to be added as follows:

**Section 9.2.1.2 Committee Jurisdiction:**  
The following departments, boards and commissions shall be under the jurisdiction of this committee: **Budget, Finance, and Auditor General.**

Current Section 9.2.1.2 needs to be **combined** with Section 9.2.1.3 with new language as follows:

#### **Section 9.2.1.3 Committee Expansion:**

The Budget, Finance and Audit Committee shall be comprised of three members except on or before April 12th, the day set by the City Code, Section 18-2-19, for the Mayor to deliver his annual budget message to City Council. After the Mayor delivers his annual budget message, the Budget, Finance, and Audit Committee shall expand and be comprised of all nine members of the City Council. During the Budget Review period, the expanded Budget, Finance and Audit

**Committee may meet daily to review and conduct departmental budget hearings and to hold Executive Sessions to finalize City Council's changes to the proposed Budget. The President shall chair these expanded Committee meetings.**

A new section needs to be added to allow for the Budget, Finance, and Audit Standing Committee to continue to meet as a three member committee to deal with regular items of business that are referred during Budget time.

**Section 9.2.1.4 Regular Meetings During Budget Review Period:** During the Budget Review period, the Budget, Finance and Audit Committee may continue to meet as the regular three-member committee in order to deal with items that are referred to the Committee during this time.

Current Section 9.2.1.4 will be renumbered to 9.2.1.5.

**Planning and Economic Development Standing Committee:**

*Section 9.2.3 Planning and Economic Development* also needs revisions to reflect the actions that take place during the annual Budget process.

**Section 9.2.3.2 Committee Expansion:**

The Planning and Economic Development Standing Committee shall be comprised of three members except during the Budget Review process. During the Budget period, while the annual Block Grant and Neighborhood Opportunity Fund hearings are under consideration, the Planning and Economic Development Standing Committee shall expand to include all nine City Council members for the purpose of these Budget deliberations. The Council President shall chair these meetings

**Section 9.2.3.3 Regular Meetings During Budget Review Period:** During the Budget Review period, the Planning and Economic Development Standing Committee may continue to meet as the regular three-member committee in order to deal with items that are referred to the Committee during this time.

Section 9.2.3.2 will be numbered to 9.2.3.4.

**Waiver of Reconsideration:**

**10.14.2 Motion Of Reconsideration:**

Any Council Member may move that a vote be reconsidered. The vote on any main motion, whether carried or lost, can be reconsidered at the same meeting except when an action was taken, as a result of the vote, which cannot be undone. If the meeting has already adjourned, the member wishing to reconsider shall adhere to the following procedure: Prior to 4:00 P.M. of the fourth business day after the vote was taken, the

member wishing to reconsider shall file a notice of intention with the City Clerk. A motion to reconsider a vote on any question shall not be in order after one Formal Session has intervened between the vote and the motion for reconsideration.

**10.14.2.1 Motion to Waive Reconsideration:** A motion to waive reconsideration of a vote may be applied to any main motion that passes with a vote of two-thirds of the members serving. If any member objects to placing a waiver of reconsideration on a vote, the waiver shall not be attached. If adopted, no member may reconsider a vote on the motion to which it is attached.

**Corrections and Clarifications:**

The following represents Scriveners errors or points that need to be clarified or corrected.

In *Section 5.3 Rescheduling of Meetings*, there is inconsistent notice period. Line 3 should read "posted at least **eighteen (18)** hours before the meeting". The next sentence is unnecessary and should be deleted.

*Section 6.8 Annual Request to Corporation Council* should be in *Section 10.0 Formal Session* not in *Section 6.0 Duties of the President*. *Section 6.8* should be **deleted** and the subsequent sections renumbered. The language for *Section 10.2* should incorporate some phrases from deleted *Section 6.2*.

**10.2 Corporation Counsel Requested to Attend:**

The City Clerk shall annually request the Corporation Counsel, or his or her designee who shall be an Assistant Corporation Counsel, to attend all Formal Sessions.

*Section 9.18 Rights of Members to Attend Standing Committee Meetings.* Change Member to Members.

*Section 23.3 Speaker Cards* should be corrected as follows:

**23.3 Speaker Cards:** Speakers are required to get a ~~numbered~~ speaker card from the ~~Sergeant At Arms~~ **designated staff member of the Chair. The Chair shall determine the order in which they will appear before Council** of speakers. Speakers must identify themselves by name on the ~~numbered~~ speaker card. Any additional information requested on the speaker card is voluntary. No speaker shall be denied the right to speak if they do not complete all the information on the speaker card.

Honorable City Council:

Re: Proposed Resolution Authorizing Continued Reduction of Hours for Non-Union Legislative Branch Appointees and Employees in Order to Partially Address City of Detroit's Revenue Shortfall and Fiscal Challenge.

In accordance with Section 13-2-18(a) of the 1984 Detroit City Code, on August 19, 2009, Mayor Dave Bing issued Executive Order No. 2009-3, which ordered a reduction in hours for non-union Executive Branch appointees and employees. Likewise, in accordance with Section 13-2-18(a) of the 1984 Detroit City Code, on September 8, 2009, the Detroit City Council adopted "Resolution Authorizing Continued Reduction of Hours for Non-Union Legislative Branch Appointees and Employees In Order to Partially Address the City of Detroit's Revenue Shortfall and Fiscal Challenge."

Executive Order No. 2009-3 and "Resolution Authorizing Continued Reduction of Hours for Non-Union Legislative Branch Appointees and Employees In Order to Partially Address the City of Detroit's Revenue Shortfall and Fiscal Challenge" have been in effect since September 15, 2009 and remains in effect until June 30, 2011. Section 13-2-18(a)(7) of the 1984 Detroit City Code provides that, although any reduction in hours implemented pursuant to the section shall terminate not later than June 30, 2011, at 11:59 p.m., where fiscal difficulties occasioned by a shortfall in revenue continue to exist, the termination date of this section may be extended until December 31, 2011, at 11:59 p.m., by executive order of the Mayor with respect to non-union Executive Branch

appointees and employees and by resolution of City Council with respect to non-union Legislative Branch appointees and employees.

Due to the ongoing economic crisis facing the City of Detroit, Mayor Dave Bing is issuing Executive Order No. 2011-2, which will order continue the reduction of hours and resulting pay for non-union Executive Branch appointees and employees that was ordered under Executive Order No. 2009-3. In the meanwhile, your Honorable Body is considering a proposed ordinance to amend Section 13-2-18 of the 1984 Detroit City Code, which will authorize both the Mayor to extend the reduction in hours for non-union Executive Branch appointees and employees, and the City Council to extend the reduction in hours and for non-union Legislative Branch appointees and employees, until June 30, 2012.

It is requested that your Honorable Body consider and adopt the attached proposed Resolution prior to June 30, 2011 with a waiver of reconsideration. We are available to answer any questions that you may have concerning this matter.

Thank you for your consideration.

Respectfully submitted,

KRYSTAL A. CRITTENDON

**RESOLUTION AUTHORIZING  
CONTINUED REDUCTION OF HOURS  
FOR NON-UNION LEGISLATIVE  
BRANCH APPOINTEES AND  
EMPLOYEES IN ORDER TO  
PARTIALLY ADDRESS THE CITY OF  
DETROIT'S REVENUE SHORTFALL  
AND FISCAL CHALLENGE**

By Council Member Jones:

Whereas, Due to fiscal difficulties incurred by an actual or a projected shortfall in revenue, on July 28, 2009, the Detroit City Council passed Ordinance No. 12-09, which, under Section 13-2-18(a) of the 1984 Detroit City Code, authorized the Mayor of the City of Detroit, through issuance of an Executive Order, for non-union Executive Branch appointees and employees, and the Detroit City Council, through adoption of a resolution, for non-union Legislative Branch appointees and employees, to take a reduction in hours, through budget-required furlough by establishing a commensurate pay period to commence reduction in hours, the percentage in reduction of hours, and the pay period to terminate reduction in hours;

Whereas, In accordance with Section 13-2-18(a) of the 1984 Detroit City Code, on August 19, 2009, Mayor Dave Bing issued Executive Order No. 2009-3, which ordered a reduction in hours for non-union Executive Branch appointees and employees;

Whereas, In accordance with Section 13-2-18(a) of the 1984 Detroit City Code,

on September 8, 2009, the Detroit City Council adopted "Resolution Authorizing Continued Reduction of Hours for Non-Union Legislative Branch Appointees and Employees In Order to Partially Address the City of Detroit's Revenue Shortfall and Fiscal Challenge;"

Whereas, Said Executive Order No. 2009-3 and "Resolution Authorizing Continued Reduction of Hours for Non-Union Legislative Branch Appointees and Employees In Order to Partially Address the City of Detroit's Revenue Shortfall and Fiscal Challenge" have been in effect since September 15, 2009 and remains in effect until June 30, 2011;

Whereas, Section 13-2-18(a)(7) of the 1984 Detroit City Code provides that, although any reduction in hours implemented pursuant to the section shall terminate not later than June 30, 2011, at 11:59 p.m., where fiscal difficulties occasioned by a shortfall in revenue continue to exist, the termination date of this section may be extended until December 31, 2011, at 11:59 p.m., by executive order of the Mayor with respect to non-union Executive Branch appointees and employees and by resolution of City Council with respect to non-union Legislative Branch appointees and employees; and

Whereas, Due to the ongoing economic crisis facing the City of Detroit, it has become necessary to continue the reduction in hours and resulting pay both for: 1) non-union Executive Branch appointees and employees; and 2) non-union Legislative Branch appointees and employees;

Whereas, Mayor Dave Bing is issuing Executive Order No. 2011-2, which will order a continued reduction of hours and resulting pay for non-union Executive Branch appointees and employees that was ordered under Executive Order No. 2009-3;

Now, Therefore, Be It Resolved, That, pursuant to Section 13-2-18 of the 1984 Detroit City Code, the Detroit City Council authorizes that, in accordance with the same reduction in hours and resulting pay for non-union Executive Branch appointees and employees that will be effective in accordance with Executive Order No. 2011-2, all Legislative Branch, appointees, employees, and contractual staff shall have their hours and resulting pay reduced by ten percent (10%) through September 30, 2011 by the implementation of seven (7) furlough days.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

Nays — None.

The Council then recessed to reconvene at the Call of the Chair.

Present — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

There being a quorum present, the City Council was declared to be in session.

Honorable City Council:

Re: FY 2011-12 Budget Amendment — Schedule B Amended (Revised).

After further review of City Council's FY 2011-12 adopted budget, it is clear that additional funding is required to prevent significant negative impacts on our community.

The budget adopted by this Honorable Body reflects a reduction of \$50 million to what was recommended by Mayor Dave Bing. Firm revenue commitments made over the last month mitigate the need for such a drastic cut. Additionally, after a full analysis of the budget reductions submitted, the impact of these cuts does not best serve the interests of our residents and businesses.

This amendment contains an additional \$25 million of revenue to reflect the commitment of the DTE Escrow settlement of \$20 million and an additional \$5 million from the additional funding for State Revenue Sharing in FY 2010-11 and FY 2011-12. In addition, the City of Detroit was successful in amending state law to continue collecting income tax and utility user tax at its current rate, protecting more than \$90 million in revenue.

The additional \$25 million in funding will restore essential appropriations to Police, Fire, Recreation and DDOT. These increases will not only allow continued operations in accordance with the Mayor's priorities but also avoid returning Federal grant dollars. The \$8 million cut to Police will severely diminish our ability to provide public safety. It will eliminate the City's ability to replace approximately 200 officers lost to attrition over the past year, which would include the forty (40) individuals currently ready for the academy. It would also result in removal of Community Relations Officers in the precincts and districts. The elimination of these functions will definitely have an affect on the working relationships that have been developed between DPD and the various community groups and neighborhood block clubs citywide. The restoration of \$6.3 million will allow for these services to continue.

The reduction of \$4 million for Fire will result in increased response times for EMS and Firefighting. Your Honorable Body and this Administration agree that this service must be improved, not further limited. The restoration of \$3 million will allow the department and its new leadership the opportunity to move forward on realizing efficiencies and improving the level of services.

Additionally, the \$7.4 million reduction to DDOT would also force the elimination of Sunday and Holiday bus service. Residents, particularly our seniors and youth would be adversely affected by this reduction.

This amendment restores \$2.2 million to Recreation to prevent closure of our Recreation centers and/or elimination of summer programming. This restoration will ensure that these programs are available to the public. The July 1 forced closure of Hart Plaza and all summer events can also be avoided through the additional funding proposed for the General Services Department (GSD) in this amendment. Increasing appropriations for GSD for cutting vacant lots and maintaining parks is also necessary to keep these areas safe.

This amendment also increases appropriations for central agencies as well as operational subsidies for cultural institutions. Approval by this Honorable Body will allow departments like Finance to implement monthly closing procedures and submit the CAFR for Fiscal 2010-11 in a timely manner. In addition, the cuts proposed to Finance threaten several key revenue generating initiatives that are critical to the City's financial stability.

This budget amendment is proposing to restore essential services based on known revenues sources. \$25 million in cuts still remain in the budget that will require modification to service levels. This administration is committed to reducing our deficit and has laid out a five-year plan to do so. Attacking the structural issues of pension and medical costs, not reducing our services, must be our first and most immediate priority. Working together toward adoption of this amendment ensures that we will have a fiscally responsible budget that reflects the priorities and service requirements of our residents.

Respectfully submitted,

Deputy Budget Director

Re: Neighborhood Enterprise Zone Certificate Applications for three housing units within the U-SNAP-BACK Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our office applications from Habitat for Humanity for Neighborhood Enterprise Zone (NEZ) certificates for three (3) housing units at 4185 Lakepointe, 4373 Maryland, and 4407 Maryland.

City Planning Commission staff's research indicates that the above property is within the boundaries of the U-SNAP-BACK NEZ, which was approved by City Council in July 1997.

Habitat for Humanity is proposing to construct three new single-family homes that would each cost \$90,000 to build.

Based on the above analysis, City Planning Commission staff recommends approval of the subject NEZ certificates. Please let us know if you have any questions.

**OBSELETE PROPERTY  
REHABILITATION EXEMPTION  
CERTIFICATE AGREEMENT**

THIS AGREEMENT, made this 15th day of March, 2011 by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and the 609 East Kirby Lofts, LLC. ("Applicant").

WITNESSETH:

WHEREAS, The Applicant has submitted an Application ("Application"), a copy of which is attached hereto Exhibit "A", to the City for adoption of a resolution giving the City's approval of an Obsolete Property Rehabilitation Exemption Certificate ("OPREC") pursuant to Public Act 146 of 2000, as amended, being Section 125.2781 et seq. of the Michigan Compiled Laws (the "Act") for real property located or to be located at 609 East Kirby, Detroit, MI 48202; and

WHEREAS, It is the policy of the Detroit City Council to use tax abatements allowed by the Act to encourage rehabilitation of obsolete property that will facilitate redevelopment, remove blighted conditions and expand the tax base for the City of Detroit; and

WHEREAS, This policy supports the City of Detroit's Economic Development strategy to identify and facilitate opportunities for clean up and redevelopment of

residential, commercial and industrial sites; and

WHEREAS, The Applicant is making real property improvements for the purpose of renovating a vacant building for residential use at the site; and

WHEREAS, As part of its applications for OPREC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department (a copy of the employment plan is attached hereto as Exhibit "B") wherein it has represented that during the term of the OPREC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

WHEREAS, To encourage approval of an OPREC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. General.

a. The Applicant will make real property improvements, as set forth in the Application.

b. The Applicant will be required to hire or retain zero (0) full time employees within two years of the date that the Application receives approval by the Michigan State Tax Commission.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. Annual Affirmative Action Report by Applicant.

On or before October 4, 2012 and each year thereafter, throughout the term of the OPREC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1) and a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Action Plan which sets forth the future actions and goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The Director of the City Human Rights Department must approve the provisions of the plan.

3. Annual Status Report by the Applicant.

On or before February 1, 2012, and each year thereafter, throughout the term of the OPREC, the Applicant shall submit

to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purpose of this Agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

4. Review and Audit of Applicant Employment Information.

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the Applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. Revocations or Reduction of Term of OPREC for Shortfalls, or Non-Compliance with Prevailing Wage Requirements.

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the OPREC or revoke the OPREC if: 1) the Applicant fails to provide the City with the information or Action Plan required to be provided to the City under Section 2 above; 2) the hiring plan's accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction

work on the project for which it is seeking an OPREC. Prior to taking any action to request reduction of the term of the OPREC or revocation of the OPREC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this Agreement.

6. If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set for in Section 1 above, the Applicant agrees to pay the City, in addition to the Obsolete Properties Tax due under the OPREC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the OPREC, and the amount of Obsolete Property Tax due on the Facility under the OPREC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

7. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements as set forth in the Application, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the terms of the OPREC the Applicant shall discontinue operations at the Facility, the Applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the OPREC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

8. Applicant Representations.

In compliance with the Operating Procedure for Obsolete Property Tax

Abatements Under Public Act 146 of 2000 adopted by the City Council on November 6, 2002 and intending to induce the City to grant an OPREC to the Applicant, the Applicant represents that:

a) The applicant is the owner of the obsolete property at the time of the application.

b) The obsolete facility to be rehabilitated will not include property to be used as a professional sports stadium.

c) The obsolete facility to be rehabilitated will not include property to be used, owned or operated by a casino or affiliated company as defined in the Obsolete Property Rehabilitation Act.

d) The project would not have been considered without an exemption certificate.

e) The rehabilitation project was not started prior to establishment of the district by the City of Detroit.

f) There are no delinquent taxes on the facility or the structure being renovated.

g) The project is in compliance with the zoning ordinance and Master Plan.

h) If the investment to be made by the Applicant in the rehabilitation of the obsolete facility will be \$250,000 or greater, the Applicant will demonstrate a commitment to meet all requirements of all the prevailing Executive Orders during the rehabilitation of the obsolete facility by presenting an annual plan approved by the Human Rights Department.

i) The Applicant will submit to the Human Rights Department a Contract Compliance Report (Form EEO-1) and a current Employer Information Report (Form EEO-2). And if requested will also submit an hiring Action Plan, to set forth future goals of the applicant at the proposed obsolete property site and the means by which the applicant intends to effectuate those goals to demonstrate the Applicant commitment to diversity in their employment.

j) The Applicant will make a concerted effort to partner or form a joint venture with small business enterprises, minority business enterprises, woman-owned business enterprises that are located in Detroit, or with community-based groups that if the Applicant is unsuccessful in partnering or forming a joint venture the Applicant, upon request, will explain in writing to the City Council efforts undertaken or why partnering or forming a joint venture has not been feasible for the project.

k) If the rehabilitation of the obsolete facility will result in the provision of commercial housing, the Applicant must agree to Fair Housing Practices that meet guidelines set forth by the U.S. Fair Housing Act (42 U.S.C. 3601 through 3619).

#### 9. Living Wage Ordinance.

The Applicant acknowledges receipt of a copy of the Detroit Living Wage

Ordinance, which copy is attached as Exhibit A and made a part hereof, and the Applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues.

Willful or repeated violation of the Ordinance shall constitute a material breach of this Agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

#### 10. Prevailing Wage Requirements.

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an OPREC is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

#### 11. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgment, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

#### 12. Effective Date.

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an OPREC covering the facility, and shall be null and void and of no force or effect whatsoever unless the Michigan State Tax Commission issues an OPREC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the OPREC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

#### 13. Transfer.

The Applicant agrees that this Agreement will be made a part of any transfer of the property, which is in the subject of the Application (the property), in such a man-

ner that the obligations of this Agreement are made binding on the transferee. The Applicant agrees that any tax abatement applicable to the Property which is the subject of the application may only be transferred with the approval of the City and the Michigan State Tax Commission and that transfer of the obligations of this Agreement shall be a precondition to City approval of any transfer of the tax abatement. For purposes of this section a transfer of the property shall include any sale of the property or any lease of more than fifty per cent of the total usable space for a period longer than five years.

14. Headings.

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this Agreement.

IN WITNESS WHEREOF, The City and the Applicant, by and through their authorized officers and representatives, have executed this Agreement as of the date first above written.

It is anticipated that construction will begin on June 1, 2011 and be complete by June 1, 2012.

(f) A statement of the economic advantages expected from the expiration.

The following economic advantages will be brought about through the award of the exemption certificate:

- Once redeveloped, 609 E. Kirby will

add to the income tax base of the City of Detroit, and increase the area's economic base, as recent experience has shown that thirty percent of new residential projects in the area are occupied by persons moving in from outside of the city.

- The construction will create a long-term economic investment in the area.

- This project will continue the economic investment being made by other projects in the Midtown area.

- This development will act as a catalyst for further development, will spur other potential development investments in the area, and will increase the taxable value on surrounding properties.

- This project will increase the number of residents in the area and thereby increase the level of demand for retail, restaurants, and other commercial amenities.

- Though no permanent full-time jobs will be directly associated with this development, the project will create about 45 temporary construction jobs and will create lasting secondary economic growth due to a projected increase in neighborhood population that the development will create.

Honorable City Council:

Re: Request permission to apply for an Evidence-Based Efficiency Project Byrne Justice Assistance Grant (BYRNE JAG) for the Fiscal Year 2012 from the Michigan State Police Department.

The Michigan State Police Department is accepting applications for Evidence-Based Efficiency Projects Byrne Justice Assistance Grants (BYRNE JAG) for Fiscal Year 2012. The Detroit Police Department (DPD) is eligible to apply for \$75,000.00 with a 10% cash match. The match will be met in the form of DPD manpower hours (salary) devoted to administration and coordination of grant activities.

The intent of this project is to assist local communities to improve local criminal justice efforts to efficiently and effectively address crime via an evidence-based solution. Programs that are developed must demonstrate increased efficiency, safety and cost effectiveness, or show a positive impact on community members using evidence-based methods. Innovative projects which focus on reducing personnel costs will receive priority over other projects. If awarded, grant period would be October 1, 2011 through September 30, 2012.

In the event that approval is granted to apply and the award is received, Commander Robert Ennis, of the Criminal Investigations Bureau (CIB), would serve as the project director. The deadline for this application is June 17, 2011.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution. The Board of Police Commissioners has been notified of the funding and approved participation.

If you have any questions or concerns, regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Re: Petition No. 802 — Giffels-Webster Engineers, request for vacation of public alley in the East Jefferson Neighborhood Project; bounded by lots 22-29 of Willis Subdivision of McDougall Farm and 30-37 of Walkers Tract, Walker Street to east.

Petition No. 802 of "Giffels-Webster Engineers" on behalf of Presbyterian Village of Michigan requests for the outright vacation of the public alley, 20 feet wide, in the block bounded by Franklin Street, 50 feet wide, Wight Street, 50 feet wide, McDougall Avenue, 60 feet wide, and Walker Street, 50 feet wide. This request will facilitate the construction of new state of the art Senior Citizens Apartment and Assistance Living Building.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

DTE Energy Electric Division reports that the estimated cost of removing and/or rerouting the electric service is \$30,500.00.

The Petitioner "Giffels-Webster Engineers" on behalf of their client Presbyterian Village of Michigan has provided to the City Engineering Division of DPW a letter of commitment from the Presbyterian Village of Michigan signed by Nathan Keup, Director of Real Estate Development agreeing to pay all cost of relocation and removal of all utilities listed above or any others lying within the existing public alley located within the project area. The letter is dated June 6, 2011 addressed to Mr. Noel Perry, Supervisor of Maps and Records, City Engineering Division, DPW, 65 Cadillac Square, Detroit, Michigan 48226.

All other city departments and private utility companies have reported no objections to the changes of the public rights-of-way. Provisions protecting utility installations are part of this resolution (if necessary).

I am recommending adoption of the attached resolution.

**City Planning Commission**

June 30, 2011

Honorable City Council:

Re: Request of the City Planning Commission (CPC) to consider re-establishment of the B4 (General Business District) and R5 (Medium Density Residential District) zoning classifications on District Map No. 5 of the Detroit Zoning Ordinance (Chapter 61, Article XVII) from a PD (Planned Development District) zoning classification on four lots at the northwest corner of Second Boulevard and West Alexandrine Avenue (4111 and 4125 Second Boulevard) and 614 and 624 West Alexandrine Avenue) (Recommend Approval).

**LAPSED PLANNED DEVELOPMENT**

In 2006, a petitioner planned to renovate the currently vacant, four-story El Moore apartment building on West Alexandrine Avenue for occupancy as eight (8) residential condominium units and to construct a new, four-story mixed-use building on currently vacant land on Second Boulevard for 3,519 square feet

of commercial office space and parking on the ground floor for eighteen (18) residential condominium units on the second, third, and fourth floors. Parking for the proposed Second Boulevard building was expected to consist of eighteen (18) spaces for residence, sized for vehicle lifts, and five spaces for commercial tenants.

After three years without effectuating the proposed planned development, the petitioner has, in effect, abandoned the PD rezoning. The City Council can rezone the property to another zoning district classification as deemed appropriate. In this instance, the lapsed Planned Development (PD) will be reverted to the previous zoning classifications of B4 and R5, respectively.

**SURROUNDING LAND USES AND ZONING**

Land to the north of the rezoning site is zoned B4 (General Business District) and is currently vacant. To the south, the land is zoned B4 on Second and R5 (Medium Density Residential District) on West Alexandrine with residential usage on Alexandrine where Wayne State University's former mortuary science building has been converted and expanded into lofts. To the east, across Second, the land is zoned B4 and is developed as retail — Tomboy Market. Immediately to the west, the vacant land is zoned R5.

**MASTER PLAN**

The subject area is located in the Lower Woodward Subarea of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The future general land use designation for this subject property is "High Density Residential."

**PUBLIC HEARING**

On November 4, 2010, the statutory public hearing was held by the City Planning Commission (CPC), the petitioner, to consider re-establishment of the B4 (General Business District) and R5 (Medium Density Residential District) zoning classifications. There was no comment from the public. At the end of the CPC deliberation, the Commission unanimously approved the zoning change from PD to B4 and R5, respectively.

**ANALYSIS AND CONCLUSIONS**

More than three years have elapsed since the City Council approved the rezoning of the property located at 4111 and 4125 Second Boulevard and 614 and 624 West Alexandrine from B4 and R5 to a PD (Ord. No. 39-06, effective 12/6/2006). As mandated by the Zoning Ordinance Section 61-3-98, the current zoning should be reversed to the original zoning. The petitioner has abandoned its City Council-approved development for the subject property by failing to develop its property within the time limit stipulated by the Zoning Ordinance. The CPC believes that the reversal of the zoning for

the aforementioned properties to B4 and R5 is the simplest solution for potential reuse.

The proposed rezoning of the area discussed above is consistent with the approval criteria set forth in Sec. 61-3-80 of the Zoning Ordinance. Such criteria include, but are not limited to, consistency with the Master Plan, whether the proposed amendment will protect the health, safety and general welfare of the public, and the suitability of the subject property for the existing zoning classification and the proposed zoning classification.

In conclusion, effort have been made to guarantee that the proposed rezoning will not negatively affect the health, peace and social welfare of the citizens in the area under consideration. We, therefore, recommend that your Honorable Body approve the rezoning as indicated in the attached ordinance approved as to form by the Law Department.

#### City Planning Commission

June 29, 2011

Honorable City Council:

Re: Special District Review for Labor Monument Signage in Hart Plaza, located at 2 East Jefferson Avenue (Recommend Approval).

The staff of the City Planning Commission (CPC) received a sign permit application from Merz Associates, on behalf of the Recreation Department, for the placement of two (2) stainless steel monument signs on concrete bases on either side of the labor monument in Hart Plaza (2 East Jefferson Avenue) on land zoned Public Center (PC).

The PC (Public Center District) zoning classification, in which Hart Plaza is located, calls for City Council approval of the location and design of external modifications following the review and recommendation of CPC and the Planning and Development Department (P&DD) (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance). CPC and P&DD staff have reviewed the application and submit this report and recommendation.

#### PROPOSED SIGNAGE

The proposed signage is small in scale (26 square feet total) and is designed for pedestrian appreciation and not for passing vehicular traffic. Each sign reads: "Labor's Legacy / Transcending / Honoring the men and women whose work builds and serves the City of Detroit / Labor's Gift to Detroit on the City's 300th Anniversary — 2001." (See attached drawing.)

#### REVIEW

In accordance with the Special District Review provision of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PC provisions of Section 61-11-77, the proposed monument signage appears to meet the requirements of City Code.

#### RECOMMENDATION

CPC and P&DD staff have completed our reviews of the proposed monument signage. We find that the modification would be in keeping with the spirit and intent of the PC zoning district. Therefore, staff recommends approval of the location and design of the proposed signage. Please find attached the appropriate resolution to effectuate your approval.

On or before October 4, 2012 and each year thereafter, throughout the term of the OPREC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1) and a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

**3. Annual Status Report by the Applicant.**

On or before February 1, 2012, and each year thereafter, throughout the term of the OPREC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of

this Agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

**4. Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the Applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

**5. Revocation of Reduction of Term of OPREC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the OPREC or revoke the OPREC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an OPREC. Prior to taking any action to request reduction of the term of the OPREC or revocation of the OPREC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this Agreement.

### **6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in section 1 above, the Applicant agrees to pay the City, in addition to the Obsolete Properties Tax due under the OPREC on the Facility, an amount equal to the difference between the amount of *ad valorem* tax otherwise due on the Facility without the OPREC, and the amount of Obsolete Property Tax due on the Facility under the OPREC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

### **7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements as set forth in the Application, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the OPREC the Applicant shall discontinue operations at the Facility, the Applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the OPREC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of the decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

### **8. Applicant Representations.**

In compliance with the Operating Procedure for Obsolete Property Tax Abatements Under Public Act 146 of 2000 adopted by the City Council on November 6, 2002 and intending to induce the City to grant an OPREC to the applicant, the applicant represents that:

a) The applicant is the owner of the obsolete property at the time of the application.

b) The obsolete facility to be rehabilitated will not include property to be used as a professional sports stadium.

c) The obsolete facility to be rehabilitated will not include property to be used, owned or operated by a casino or affiliated company as defined in the Obsolete Property Rehabilitation Act.

d) The project would not have been considered without an exemption certificate.

e) The rehabilitation project was not started prior to establishment of the district by the City of Detroit.

f) There are no delinquent taxes on the facility or the structure being renovated.

g) The project is in compliance with the zoning ordinance and Master Plan.

h) If the investment to be made by the Applicant in the rehabilitation of the obsolete facility will be \$250,000 or greater, the Applicant will demonstrate a commitment to meet all requirements of Executive Order 22, Executive Order No. 4 and Executive Order No. 14 during the rehabilitation of the obsolete facility by presenting an annual plan approved by the Human Rights Department.

i) The Applicant will submit to the Human Rights Department a Contract Compliance Report (Form EEO-1) and a current Employer Information Report (Form EEO-2). And if requested will also submit an Affirmative Action Plan, to set forth future affirmative action goals of the applicant at the proposed obsolete property site and the means by which the Applicant intends to effectuate those goals to demonstrate the Applicant's commitment to diversity in their employment.

j) The Applicant will make a concerted effort to partner or form a joint venture with small business enterprises, minority business enterprises, woman-owned business enterprises that are located in Detroit, or with community-based groups that if the Applicant is unsuccessful in partnering or forming a joint venture the applicant, upon request, will explain in writing to the City Council efforts undertaken or why partnering or forming a joint venture has not been feasible for the project.

k) If the rehabilitation of the obsolete facility will result in the provision of commercial housing, the Applicant must agree to Fair Housing Practices that meet guidelines set forth by the U.S. Fair Housing Act (42 U.S.C. 3601 through 3619).

### **9. Living Wage Ordinance.**

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance which copy is attached as Exhibit "D" and made a part hereof, and the Applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the

violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

**10. Prevailing Wage Requirements.**

The Applicant agrees that Detroit Ordinance ch 18, art 5, div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an OPREC is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

**11. Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of the Agreement.

**12. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an OPREC covering the facility, and shall be null and void and of no force or effect whatsoever unless the Michigan State Tax Commission issues an OPREC to the Applicant covering the Facility. The Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the OPREC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

**13. Transfer.**

The Applicant agrees that this agreement will be made a part of any transfer of the property, which is the subject of the Application (the "Property"), in such a manner that the obligations of this agreement are made binding on the transferee. The Applicant agrees that any tax abatement applicable to the Property which is the subject of the application may only be transferred with the approval of the City and the Michigan State Tax Commission and that transfer of the obligations of this Agreement shall be a precondition to City approval of any transfer of the tax abate-

ment. For purposes of this section a transfer of the property shall include any sale of the property or any lease of more than fifty per cent of the total usable space for a period longer than five years.

**14. Headings.**

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this Agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this Agreement as of the date first above written.

June 23, 2011

Honorable City Council:

Re: Petition No. 995 — 1701 Executive Cigar Bar, Inc., to Establish an Outdoor Café, Located at 140 Cadillac Square.

The above referenced business has requested permission to operate an outdoor café at the location indicated. This service is expected to convene April 1 through November 30, 2011.

It is our understanding that the outdoor café service to be provided is identical to that approved in previous years. The Planning and Development Department supported this request for last year and is not aware of any objections to the above-referenced request.

It is therefore the recommendation of the Planning and Development Department that this request be granted subject to petitioner's strict adherence to the following:

- Compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

- Adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from Department of Health and Wellness Promotion (DHWP) Food Sanitation Section.

- The approval from the Central District Precinct of the Police Department does not cover serving liquor in the outdoor café area until the Detroit Police Department Liquor License Bureau has given approval.

Respectfully submitted,

ROBERT ANDERSON

Director

By Council Member Jenkins:

Resolved, That the Department of Public Works — City Engineering Division (DPW/CED) is hereby authorized and

directed to issue a Use-permit to 1701 Executive Cigar Bar, Inc., Detroit "permittee", whose address is at 140 Cadillac Square, Detroit, Michigan 48226, to install and maintain an outdoor café, which will convene April 1, 2011 through November 30, 2011, contingent upon licensee of such premises obtaining approval of the Michigan Liquor Control Commission, if necessary, and compliance with applicable City Ordinance in connection with outdoor café activities, prior to the issuance of said use permit; and

Provided, That the café meets the regulations set by the "Outdoor Café Guidelines" as adapted by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code; and

Provided, That the petitioner obtains all necessary licenses and permits; and

Provided, That said activities are conducted under the rules and regulations of the Department of Transportation, Department of Public Works and the supervision of the Police Department; and

Provided, That the sale of food and soft drinks is held under the direction and inspection of the Detroit City Health Department; and

Provided, That the "permittee" remit the required annual fee(s) to DPW/CED for issuance of a use-permit and confirm license of the establishment in compliance with the City Code; and

Provided, That the "permittee", prior to obtaining said permit, file an indemnity agreement (on file in Law Department) in a form approved by the Law Department, saving and protecting the City of Detroit harmless from any or all claims, damages or expenses that may arise by reason of the issuance of said permit and the faithful performance by the "permittee" of the terms thereof; and in addition, to pay all claims, damages or expenses that may arise out of the maintenance of said encroachments; and

Provided, That the filing of said indemnity agreement for this current year shall be construed as acceptance of this Resolution by the "permittee"; and

Provided, That the permit is revocable

at the will, whim and caprice of the City Council; and hereby expressly waives any right to claim damages or compensation for removal of encroachment, and further, that "permittee" acquires no implied or other privileges hereunder not expressly stated herein; and

Provided, That no other rights in the public streets, alley or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachment shall be removed at the expense of the "permittee" at any time when so directed by City Council, and that public property so affected shall be restored to a condition satisfactory to the DPW/CED by said "permittee" at its expense; and

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum six (6) foot wide pedestrian clearance on the sidewalk, free of all obstacles such as existing planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

Provided, That the designated outdoor seating area shall be properly identified through the use of railings in order to regulate and control the serving of liquor within the perimeter of the café; and

Provided, That if any tent or other enclosure is to be utilized on the subject site, the applicant shall secure prior approval from Buildings and Safety Engineering Department and the Department of Public Works/City Engineering Division; and

Provided, That this use permit shall be for a period not to exceed one year after receiving the approval of the City Council and may be renewable on an annual basis; and

Provided, That all railing equipment and fixtures shall be removed from the public right-of-way during the months of non-operation and placed in storage; and

Provided, That a certified copy of this Resolution shall be recorded with the Office of the Register of Deeds for Wayne County at the "permittees" expense;

 July 1, 2011

Honorable City Council:  
 Re: Amendment to Sales Resolution. Wholesale Distribution Center Rehabilitation Project No. 3. Development: Parcel 500-A; bounded by Erskine, Dequindre, Scott and St. Aubin.  
 On November 16, 2010 (Detroit Legal

News, January 26, 2011, Page 12), your Honorable Body authorized the sale of the above-captioned property on an interim basis to Millennium Development Holdings, LLC, an Indiana Limited Liability Company (or other such entity as may be determined by Detroit Edison Public School Academy) and then to Detroit Edison Public School Academy upon completion of the project. The Developer, Detroit Edison Public School Academy, proposes to develop a charter public school.

Additionally, on same date, your Honorable Body also authorized Petition No. 474 of "Detroit Edison Public School Academy", requesting the outright vacation of certain public rights-of-way in the

block bounded by Hale Street, 50 feet wide, Erskine Street, 40 feet wide, Dequindre Avenue, 70 feet wide and St. Aubin Avenue, 50 feet wide. The Planning and Development Department's director was hereby authorized to issue quit claim deeds for the vacated (outright) public rights of way to Detroit Edison Public School Academy, for fair market value and/or other valuable consideration.

It has recently come to our attention that the proposed financing structure requires that the property (Exhibit A) and vacated (outright) public rights of way (Exhibit A-1) be conveyed directly to DEPSA Real Estate Foundation, a Michigan Non-Profit Corporation. The Planning and Development Department has received this request by Detroit Edison Public School Academy and determined it to be reasonable and appropriate. Accordingly, the authorization for a sale to Detroit Edison Public School Academy, along with the issuance of quit claim deeds for the vacated (outright) public rights of way, needs to be amended to name DEPSA Real Estate Foundation, a Michigan Non-Profit Corporation, as the buyer.

We, therefore, request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution, to reflect a change from permitting the property to be initially transferred to Millennium Development Holdings, LLC, an Indiana Limited Liability Company (or other such entity as may be determined by Detroit Edison Public School Academy) and then to Detroit Edison Public School Academy upon completion of the project, to show DEPSA Real Estate Foundation, a Michigan Non-Profit Corporation, as the sole purchaser.

We, further request, that your Honorable Body also adopt the attached resolution, amending your approval of Petition 474 of "Detroit Edison Public School Academy", to reflect a name change from Detroit Edison Public School Academy, a Michigan Non-Profit Corporation to DEPSA Real Estate Foundation, a Michigan Non-Profit Corporation, as the grantee of the vacated (outright) public rights of way.

Respectfully submitted,  
**ROBERT ANDERSON**  
 Director

By Council Member Jenkins:

Whereas, By resolution adopted November 16, 2010, City Council approved the sale of Parcel 500-A, as more particularly described in the attached Exhibit A (the "Property"), allowing the property to be initially transferred to Millennium Development Holdings, LLC, an Indiana Limited Liability Company (or other such entity as may be determined by Detroit Edison Public School Academy) and then to Detroit

Edison Public School Academy upon completion of the project.

Be It Resolved, That in accordance with the preambles and the foregoing communication, City Council hereby amends the aforementioned resolution as follows:

1) The authorization for the Director of the Planning and Development Department, or his authorized designee, to execute an agreement to purchase and develop the property with such parties as determined by the Director of the Planning and Development Department, or his authorized designee, together with a deed to the Property and such other documents as may be necessary to effectuate the sale of the Property on an interim basis to Millennium Development Holdings, LLC, an Indiana Limited Liability Company (or such other entity determined by Detroit Edison Public School Academy) and then to Detroit Edison Public School Academy upon completion of the project is rescinded, to be replaced by the following:

2) The Director of the Planning and Development Department, or his authorized designee, is authorized to execute an agreement to purchase and develop the Property, together with a deed to the property and such other documents as may be necessary to effectuate the sale of the Property to DEPSA Real Estate Foundation, a Michigan Non-Profit Corporation, provided that all conditions precedent to such sale have been satisfied.

And Be It Further,

Resolved, That in accordance with the foregoing communication, the authorization for the Planning and Development Department's Director to issue quit-claim deeds for the vacated (outright) public rights of way, more particularly described in the attached Exhibit A-1, for fair market value and/or other valuable consideration, be amended to reflect a name change from Detroit Edison Public School Academy to DEPSA Real Estate Foundation, a Michigan Non-Profit Corporation.

Honorable City Council:

Re: Request for Cancellation of OPRA Certificate No. 3-10-0011 Amended.

Pursuant to the provisions of Public Act 146 of 2000, as amended, on June 10, 2010 the State Tax Commission issued Obsolete Property Rehabilitation Exemption Certificate No. 3-10-0011 Amended for a period of twelve (12) years beginning December 31, 2010 for commercial real property owned by Grand Tributary, LLC ("Grand Tributary") and located at 17411, 17431, 17435 and 17455 Grand River, City of Detroit, County of Wayne, Michigan.

On September 10, 2010 the certificate holder Grand Tributary sold the subject property to CFP Michigan II, LLC ("CFP II"), a not-for-profit charitable limited liability company. The Detroit Board of Assessors has determined that as of December 31, 2010, the subject property was exempt from property taxation under various provisions of the General Property Tax Act ("GPTA"), MCL 211.70.

Because the subject property is exempt from property taxes under the GPTA, CFP II did not request a transfer of Certificate No. 3-10-0011 Amended and has advised the Board of Assessors that it does not intend to do so. Moreover, the certificate holder Grand Tributary no longer occupies the subject property and does not wish to maintain the certificate past December 31, 2010. Accordingly, the Detroit Board of Assessors respectfully requests that the Detroit City Council pass a resolution canceling or revoking Certificate No. 3-10-0011 Amended effective December 31, 2010 pursuant to the certificate holder's request. (See attached letter.)

Thank you for your consideration and prompt attention to this matter.

Respectfully submitted,

Looking at the broader scope of what has been laid out by the Federal Government, it is a way to more carefully shepherd all the federal dollars in a much better way. It is the beginning of a marshal plan and it is not just the Executive Branch. If the Legislative Branch has not submitted a plan with a vision which talked about rapid transit, the greening of Detroit, repopulating Detroit and putting something in the hand of Barack Obama, we would not be in that group of six cities. This is movement as a direct result of Legislative and Executive Branch pushing for greater resources to this area. Council President Pro Tem Gary Brown asked for more information and details about the plan to be able to put out accurate information to the community.

## Invocation

O God, Creator of heaven and earth, the God of whom our help comes, the God who never fails, we bow our heads and hearts before You today. Thank You for Your grace and mercies. Thank You Lord for this great city — Detroit; thank You that despite the many challenges that we face as a city, we are still standing. Not only are we standing in Your power but we are also moving ahead.

Remember our leaders in particular, remember each member of the City Council. Give them courage as we labor night and day for this City. And Lord, when they have done their best and men misunderstand, I pray that You God, who never lost a battle, will stand by them and bless the many workers who work in supportive roles.

I pray that the spirit of Detroit will continue to spring up in them like a well of water. I pray for today's session that You guide all deliberations that will make Detroit a social, political and economic model for the cities all over this nation.

And Lord, the many things I failed to ask of you today, I pray that you will make them up and grant them to us in abundance. In your name we pray.

Amen.

**VOTING ACTION MATTERS COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL OFFICIALS AND AGENCIES**

NONE.

**PUBLIC COMMENT**

**Robert Johns:** A resident of Detroit and a Wayne State Law Student spoke in support of banning fracking in the City of Detroit. We have a right to clean safe drinking water and fracking puts unacceptable risk on public health and the environment.

**Christopher Corrigan:** He believes in a future that is healthy and safe. He opposes hydraulic fracking. As a resident of Detroit (504 E. Kirby), he states that we have an opportunity to set a precedence for the rest of the state to put clean water and the health of the public above the process of hydraulic fracking.

**Sarah Harley:** Residence of Eastpointe — Hydraulic fracking puts our pure Michigan lifestyle at risk. Hydraulic fracking contaminates water and kill the life stock and other wild life. She asks Council to support the ban on fracking and keep Pure Michigan.

**Lynna Kauchek:** Representing Food and Water Watch, a National Public Interest organization working locally in Detroit and dedicate to assure that all people have access to safe and affordable water. She states that Shell gas fracking imposes unacceptable risk to public health and the environment. As stewards of the Great Lakes, we have a responsibility to protect our Great Lakes water, which provides 20% of the world's available fresh drinking water. Fracking has been around for decades, new techniques and chemicals use to access gas in unconventional sources particular Shell gas purpose a greater risk than conventional gasoline. She urges Council to lead Michigan by supporting the ban on fracking.

**Sarai Richter:** We sit in the middle the world's fresh water and we must act as stewards of this greatest resource. Fracking puts us at an unreasonable risk and she urges us to support the ban on fracking. The southeast Michigan area has most of its clean fresh water coming from the Detroit area and puts all other areas at risk from Canton, Livonia and Dearborn.

**Ayodeji Akinpelu:** Hydraulic fracking is not the way to get natural gas. We are an economy looking for alternative resources and reusable resources; energy such as hydraulic fracking is not the best way. He is attending school for environmental science and he believes we can find other measures than hydraulic fracking.

**Craig Hamilton:** A recent resident in Detroit, Boston Edison District, states that this is the only city that he has live in where he does not have to boil the water to drink. Hydraulic fracking and the risk that it poses with the growing population, it would be travesties to say do not drink the water in your house. I support the ban on hydraulic fracking for safety purposes.

**Ayodele Ancinpoly:** A Cass Technical graduate and Wayne State Undergraduate Student. Thank you for supporting the ban on hydraulic fracking. A despicable energy source pollutes the underground water resources and our environment, geological as well as our human beings.

**Al Williams:** A long time resident born and raised in Detroit in support of the resolution against fracking and urges Council to think before they act. This is not about profits this about our children and tapping our natural water sources, which is approximately 20% of the freshest water in the world To drill oil for profit is not the way to go for city Council. It is time to be proactive and not reactive; proactive by passing this resolution to show our children that we believe in their future.

**Greg Murray:** Presents a petition, copy to all Councilpersons with original on top, signed by the accountants of Human Services who are concern that their transfer will interrupt the flow of the process of grant funds through the city system, which will have a negative impact on the delivery of services. No one has spoken to the accountants who move the money. There was a presentation from management; someone needs to speak to the people who actually move this money. Mr. Murray asked Council to think about management, not workers decision which has a negative impact on the City of Detroit. Do not penalize the worker for a lack of management responsibility in spending the city's money.

**Willy Moore:** Indicate that her car was tow and given an address to a vacant lot She is requesting that Council assist her in getting her car back.

**Parnell Willis:** A member of made man volunteer group, to make a better city we need to volunteer in the school. He urges everyone to be involved.

**Joy Turner:** Spoke regarding the house she moved into on Mark Twain; as of June 28, her lights and gas transferred. She has been trying to get DTE to put up a wire. DTE state it is Public Lighting. She is requesting help from Council in solving this issue.

**Debova Chambers:** Residing at 2064 Riopelle spoke regarding a ticket she received from Environmental for \$1000. She cleans up her property where others have dump debris. She states she does not have \$1000 and she completed the cleanup. She is requesting help from Council.

**Patrick Burton:** A Detroit resident, a Detroit Public School Teacher and a graduate of Detroit Public School, resides at 2900 E. Jefferson, asked for help in his neighborhood where the bars are causing much terror with noise; particular the River Place Bar and Grill on Jos. Campau near Atwater that has a outdoor roof that plays loud music with a DJ until 2:00 a.m. neighbors have tried to meet with them but they seem to ignore the neighbors. Mr. Burton represents the Garden Court.

**Celeste Smith:** A resident in the 2900 E. Jefferson area, states that the noise is unbearable and with the high rent she is paying she should not have to deal with this noise and traffic.

**Emogene More:** President Concern Citizen for Noise Control, living at 500 River Place and pay high rent but is unable to use her balcony because of the noise.

**Diane McCausty:** Editor of Voice of Detroit, (*voiceofdetroit.net*) speaking as a resident and concern citizen regarding prisoners and police brutality. She is objecting strongly of prosecutor Kim Worthy investigation of the Crime lab. It is a conflict of interest for the prosecutor to be involved with investigating cases that her prosecutor prosecuted. Why is the time limit 2003 when many prisoners were wrongly incarcerated before that date because of the crime lab. The lawsuit regarding M. Green and Harold McKinney against Bootie Boys, two police officers (Michael Parish and Michael Osman) who committed numerous acts of rape against black males in this city in 2006 and never been held accountable, charged, disciplined, fired or sent to prison for this a capital offense. Why has not Council taken action on the settlement in this case as judge Zatkoff ordered you to do or appear before him in Port Huron?

**Tiah McKinney:** Representing the McKinney Foundation, a 501 C3 Public Charity spoke concerning their upcoming event, The Second Annual Celebrate Healthy Detroit, on August 27 at Belle Isle on the Athletic Field. She understands that our greatest asset in Detroit is our people and recognizes that our leaders want to bring about a healthier Detroit. This event provides education, awareness and access to programs that are free or low cost. The event focuses on prevention of diabetes and obesity. She thanked Councilman Kenyatta for accepting and confirming to speak at the event. Wayne County Community College and Wayne State are providing programs. They have reach all professional sport teams and one is interested in entertaining a proposal to refurbish the basketball court on Belle Isle and she asks that in light of the event in 38 days how can they facilitate that happening.

**Sandra Hines:** Objects to Prosecutor Worthy getting more money to do what

she not done with the money she has already receive. Mr. Roberts, DPS, hired a man that is a Charter School owner. It is negligence for Mr. Roberts to hire someone who is in direct competition with DPS. She asks that Council listen to the people.

**Mr. Stanford:** (Principal Planner for DHS), spoke for Ms. S. McCellan stating that the Accounting Division should remain at DHS. Human Services has a multimillion-dollar budget for multi-funding sources. It maintains and monitors fiscal operations for program services for head start, weatherization on a constant basis. It generates contracts for purchase order numbers and standard purchase order numbers. Those numbers are use for tracking all personal and professional service contracts through the system and are consider a starting point for the work he does as a planner. Accountants provide one final review before contracts leave for the Purchasing Department. Onsite presence of Accounting at DHS facilitates the ability of auditors, program monitors to asset program staff and fiscal information. The availability of free parking for the auditors and monitors is a benefit they would appreciate. Moving the Accounting Division will cause another layer of bureaucracy and cause DHS to operate lest efficiently for staff, vendors and it customers.

**G. Murray:** States that Head start renewal contracts are in development and that is another reason why it would be disadvantages for the city to relocate them somewhere else.

Wayne County and Mayor Bing are instrumental in dismantling of the head start program by not bidding on head start slot. There were 600 slots that Detroit could have bid on but Wayne County did bid. The director of head start was forbidden to bid on the 600 slots.

**Dempsey Addison,** (President of Association Professional and Technical Employees) states that our current Head start programs are not in jeopardy. We are in good standing. The newspaper was a lie. She stated that Council reduced the budget to cut the deficit; therefore, she is requesting that Council stop the hiring of personal services contractors; line item No. 8, 90, 91, 92, 104, 130, 196, 197, 198, 199 and 200, approximately 14. She is asking the Council vote down these line items because there are city worker laid off and who could qualify for those jobs if posted. These jobs should be open and competitive and here is a violation of the EEOC by not allowing other people the opportunity. It is discrimination when you select who you want for these job. She want to stop the relocation of DHS to Herman Kiefer. The Community Services Block Grant does not allow for repairs at Herman Kiefer. Head start cannot make repairs for Community Services Block

Grant; those are two separate funding sources and programs. If you will let us spend our money, we can build the facility here in Detroit for our head start children and we will not have to allow those 600 slots to go to someone else. The Finance Department hold us our funds.

**Bennett Elementary School students** spoke in support and the benefits of their school. They thanked the Council for allowing them to learn more about their city. They suggested that immigrants be allow to repair abandon buildings and given permission to live there; they believe the house would be repair within one year if given the opportunity.

**Mother Holmes** leads Council in prayer. Mother Holmes thanks the President for giving the Mayor a huge amount of money. Lord please be merciful to us and I thank you for all that you have done. Let people believe and pray. Pray for us, Detroit and all the people who are fighting hard for us. Pray for the Council. Father be with this Council and give them strength they need to fight this journey. Lord you are good and merciful and I thank you Lord. Keep this Council because they are doing your work. Lord I thank you for taking care of our Council and keeping them. Jesus I praise you and thank you. Thank you, Thank you. Please keep us in your care and make the right thing happen, I know the Council is tried but Jesus keep them in you care. In the name of the Father, Son and Holy Ghost. Amen.

By Council Member Cockrel, Jr.:

Whereas, The City of Detroit, Michigan (the **City**), pursuant to Ordinance No. 18-01 adopted by its City Council on October 18, 2001 (the **Council**), which amended and restated certain prior Ordinances (the **Ordinance**) has heretofore issued several series of its Sewage Disposal System Revenue Bonds and Sewage Disposal System Revenue Refunding Bonds (collectively, the **Prior Securities**); and

Whereas, It is deemed necessary for

the public health, benefit and welfare of the City to acquire and construct certain repairs, extensions and improvements to the Sewage Disposal System of the City (the **System**) as described in the Capital Improvement Program of the Detroit Water and Sewerage Department (the **Department**), dated as of July, 2010, and as it may be modified by the Department from time to time (the **Project**); and

Whereas, To finance the Project Costs, the Finance Director has recommended that the Sewage Disposal System Revenue Bonds be issued as "Senior Lien Bonds" as defined in the Ordinance (the **New Senior Lien Project Bonds**), or as "Second Lien Bonds" as defined in the Ordinance (the **New Second Lien Project Bonds**), or as a combination of New Senior Lien Project Bonds and New Second Lien Project Bonds (collectively, the **New Project Securities**), all as the Finance Director shall determine in the Sale Order (hereinafter defined); and

Whereas, It is deemed appropriate under the existing interest rate climate to refund or purchase all or such portion of the outstanding Prior Securities as is feasible under prevailing market conditions, as determined by the Finance Director (the **Securities to be Refunded**); and

Whereas, Act 34 requires as a precondition for the City to enter into any Interest Rate Agreement that the Council by resolution or ordinance expressly approve the Interest Rate Agreement and acknowledge the potential risks associated with the Interest Rate Agreement, which risks are specified in the Swap Management Plan; and

Whereas, The New Securities shall be issued in accordance with Act No. 94, Public Acts of Michigan, 1933, as amended (**Act 94**) and applicable provisions of Act No. 34, and the applicable provisions of the Ordinance; and

Whereas, The Council desires to authorize the public distribution of the Preliminary Official Statement and the Official Statement by the Underwriters; and

Whereas, The Representative on behalf of the Underwriters will require, as a condition to purchasing the New Securities, that the City agree to provide continuing disclosure as required by Section (b)(5) of Rule 15c2-12, as amended, promulgated by the Securities and Exchange Commission under the Securities and Exchange Act of 1934, as amended (the **Rule**), unless an exemp-

tion from such requirement is available; and

(b) Moneys in the Construction Fund Series 2011 shall be applied solely to payment of Project Costs.

(1) Payments for Project Costs for construction, either on account or otherwise, shall not be made unless the registered engineer in charge of such work shall file with the Commissioners a signed statement to the effect that the work has been completed in accordance with the plans and specifications therefor, that it was done pursuant to and in accordance with the contract therefor, that such work is satisfactory and that such work has not been previously paid for.

(2) Payment for Project Costs consisting of the costs of engineering, legal, financial (including unpaid Issuance Costs) shall be made upon submission of appropriate documentation to the Finance Director.

(2) further improvements, replacements, enlargements and extensions to the System not constituting part of the Project if, at or prior to the time of such expenditure, such use is approved by the Michigan Department of Treasury, if such permission is then required by law, and if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on Tax-Exempt New Securities from gross income for federal income tax purposes.

(d) Any remaining balance after all expenditures made pursuant to subsection (c), above, if any, have been made, shall be paid into the Senior Lien Bond and Interest Redemption Fund or the Second Lien Bond Interest and Redemption Fund, as the Commissioners shall determine, for the purpose of redemption or purchase at not more than

**Section 13. Escrow Fund; Escrow Agreement; Payment in Lieu of Escrow Fund.**

(a) Establishment of Escrow Fund

The Escrow Deposit shall be held in or credited to an account designated as the "City of Detroit Water Supply System Revenue Bonds Series 2011 Senior Lien Refunding Bonds Escrow Fund" or the "City of Detroit Sewage Disposal System Revenue Bonds Series 2011 Second Lien Refunding Bonds Escrow Fund" pursuant to one or more escrow agreements (the Escrow Agreement).

(b) Escrow Agreement

(1) The Finance Director is authorized to enter into the Escrow Agreement on behalf of the City with U.S. Bank National Association as "Escrow Trustee."

(2) The Escrow Agreement:

(i) shall be in the form and substance customary for refunding escrow agreements;

(ii) may permit any balance after paying the principal (and premium, if any) and interest on the Securities to be Refunded to be applied to any lawful purpose of the System if such use will not, in the opinion of nationally recognized bond counsel, impair the exclusion of interest on the New Refunding Bonds from gross income for federal income tax purposes; and

(iii) shall otherwise be in the best interests of the City.

(c) Payment in Lieu of Establishing Escrow Fund

(1) If all Securities to be Refunded will be paid or redeemed within 90 days of the date of issuance of the New Refunding Bonds, then in lieu of the establishment of an Escrow Fund and the execution of an Escrow Agreement as provided in subsection (b), above, then the Finance Director is authorized to transfer the Escrow Deposit (or cash sufficient to acquire the securities making up all or a portion of the Escrow Deposit) to the paying agent for the Securities to be Refunded together with irrevocable instructions to:

(i) call or acquire the Securities to be Refunded and

(ii) use the Escrow Deposit to pay principal of and interest and premiums, if any, on the Securities to be Refunded to and including the scheduled acquisition date.

(2) This subsection (c) is applicable only if, in the opinion of Bond Counsel, after use of such procedures described in this subsection (c), the Securities to be Refunded shall no longer be Outstanding under the Ordinance.

**Section 14. Tax Covenant.**

(a) The City hereby covenants and represents with the registered owners of the Tax-Exempt New Securities that so long as any of the Tax-Exempt New

Securities remain outstanding and unpaid as to either principal or interest, the City shall, to the extent permitted by law, take all actions within its control to maintain and will refrain from taking any action which would impair the exclusion of the interest on the Tax-Exempt New Securities from gross income for federal income tax purposes under the Code, as currently amended.

(b) The actions referred to in subsection (a), above include, but are not limited to, actions relating to any required rebate of arbitrage earnings and the expenditure and investment of proceeds of Tax-Exempt New Securities and moneys deemed to be proceeds of Tax-Exempt New Securities, and to prevent the Tax-Exempt New Securities from being or becoming "private activity bonds" as that term is used in the Code, as currently amended.

**Section 15. Preliminary and Final Official Statements.**

(a) The Finance Director shall cause the preparation of a preliminary official statement and other offering materials in a form satisfactory to him to be used in conjunction with the offering of the New Securities and is authorized to deem the preliminary official statement "final" for purposes of the Rule.

(b) The preliminary official statement with such changes and additions as the Finance Director shall approve shall constitute the final Official Statement, and the Finance Director is authorized to execute the final Official Statement on behalf of the City approved by him with such changes as the Finance Director may authorize.

(c) Such final preliminary official statement and final Official Statement and other offering materials satisfactory to the Finance Director are authorized to be distributed by the Underwriters in conjunction with the offering and sale of the New Securities.

**Section 16. Continuing Disclosure.**

Unless otherwise set forth in the Sale Order because of an exemption from the Rule, the New Securities are hereby made subject to the Continuing Disclosure Agreement, and if so subject the City hereby agrees to abide by the provisions thereof so long as any New Securities are outstanding.

**Section 17. Sale of New Securities; Purchase Agreement.**

(a) The New Securities shall be sold by negotiated sale to the Underwriters pursuant to a Purchase Agreement in customary form with such changes thereto as the Finance Director shall determine are in the best interests of the City, within the parameters established hereby. Such determination shall be conclusively established by the Finance Director's execution and delivery of the Purchase Agreement to the Representative.

(b) The reasons for choosing a negotiated sale instead of a competitive sale include the belief of the Council, based upon the recommendation of the Finance Director and the City's Financial Advisor, that a negotiated sale will allow the New Securities to be offered to investors in the most efficient manner possible while also allowing sufficient flexibility to adjust to market structuring and timing demands in order to result in the lowest possible borrowing costs to the City.

(c) The Finance Director is authorized to accept, on behalf of the City, an offer from the Representative, on behalf of the Underwriters, to purchase the New Securities subject to the following limitations.

(1) The maximum annual interest rate borne by any Tax-Exempt New Security is not in excess of 14% or borne by any Taxable New Security is not in excess of 16%.

(2) The premium or aggregate net discount (distinct from any compensation to be paid to the Representative and the other Underwriters in the form of a discount or any other Issuance Costs of the New Securities) shall not exceed:

(i) 14% with respect to Tax-Exempt New Securities and

(ii) 16% with respect to Taxable New Securities, subject in each case to the limitation on true interest cost set forth in paragraph (3), below.

(3) The true interest cost (TIC) of New Securities (including those sold at a premium or aggregate net discount pursuant to paragraph (2), above) shall not exceed:

(i) 12% with respect to Tax-Exempt New Securities and

(ii) 14% with respect to Taxable New Securities.

(4) The aggregate compensation (including all expenses) to be paid to the Representative and the other Underwriters in such capacity shall not exceed 1% of the original principal amount of the New Securities.

(d) The Finance Director is authorized to determine if the Purchase Agreement shall provide for liquidated damages and if so, the amount thereof, and if the Representative shall be required to provide a good faith check and if so, the amount thereof.

**Section 18. Delegation of Authority to, and Authorizations of Actions of, Finance Director.**

(a) The Finance Director shall make all determinations herein provided to be made in the Sale Order and shall make all such determinations in accordance with the best interests of the City and within the parameters of this Resolution.

(b) In addition to determinations authorized elsewhere in this Resolution, the Finance Director shall determine the aggregate principal amount of New

Securities to be issued, but not in excess of the aggregate principal amount authorized by this Resolution, on the basis of his evaluation of the maximum amount of New Securities which can be sold, given anticipated interest rates and the revenue coverage requirements with respect to the New Securities and for any other reasons the Finance Director deems appropriate.

(1) Such determination shall also include the type or types of New Securities to be issued and if in one or more series and whether to issue New Securities as Senior Lien Bonds or Second Lien Bonds or a combination thereof and the redemption provisions for New Securities.

(2) The Finance Director shall also determine and establish, in accordance with this Resolution, the maturities of New Securities, whether such maturities shall be serial or term maturities and the Mandatory Redemption Requirements for any term maturities.

(3) The Finance Director shall also determine whether to issue the New Refunding Bonds and, if so, the Securities to be Refunded.

(c) The Finance Director is authorized to enter into such Bond Insurance, Credit Facility, Liquidity Facility and/or Interest Rate Agreement as provided in Section 8 on behalf of the City as the Finance Director determines to be cost effective, make such ancillary agreements and do such other things and take such other actions in connection therewith as may be necessary or appropriate and not otherwise inconsistent with the Ordinance or the parameters hereof.

(d) The Mayor or, if permitted by law, the Finance Director, is authorized to file applications and to pay the related fees, if any, to the Michigan Department of Treasury at his discretion under Act 34 for one or more orders of approval to issue all or a portion of the New Securities, and such waivers or other Treasury approvals as necessary to implement the sale, delivery and security for the New Securities as authorized herein, and as required by the Michigan Department of Treasury or Act 34.

The Finance Director is hereby authorized and directed to do and perform any and all other acts and things with respect to the New Securities which are necessary or appropriate to carry into effect, consistent with the Ordinance and this Resolution, the authorizations therein and herein contained including without limitation the securing of ratings by bond rating agencies, and the incurring of reasonable fees costs and expenses incidental to the foregoing, for and on behalf of the City.

All determinations and decisions of the Finance Director with respect to the issuance and sale of the New Securities as permitted or required by this Resolu-

tion shall be confirmed and approved by the Finance Director in the Sale Order.

During the Finance Director's absence or disability, or while the Finance Director's position is vacant, the Deputy Finance Director shall exercise all the powers, perform all the duties and make all the determinations herein required or permitted by the Finance Director.

#### **Section 19. Advancement of Costs of the Project.**

(c) The maximum principal amount of debt expected to be issued for the Project, including issuance costs, is set forth in Section 4(a)(1)(i).

(d) A reimbursement allocation of the expenditures described in subsection (b) above with the proceeds of the borrowing described herein will occur not later than 18 months after the later of (i) the date on which the expenditure is paid, or (ii) the date the Project is placed in service or abandoned, but in no event more than three years after the original expenditure is paid. A reimbursement allocation is an allocation in writing that evidences the City's use of the proceeds of the debt to be issued for the project to reimburse the City for a capital expenditure made pursuant to this Resolution.

(e) The expenditures in subsection (b), above are "capital expenditures" as defined in Treas. Reg. §1.150-1(b), i.e., any costs of a type which are properly chargeable to a capital account (or would be so chargeable with a proper election or with the application of the definition of placed in service under Treas. Reg. §1.150(2)(c)) under general Federal income tax principles (as determined at the time the expenditure is paid).

(f) No proceeds of the borrowing paid

to the City in reimbursement pursuant to this Resolution will be used in a manner described in Treas. Reg. §1.150-2(h) with respect to abusive use of such proceeds, including but not limited to using funds corresponding to the proceeds of the borrowing in a manner that results in the creation of replacement proceeds (within Treas. Reg. §1.148-1(c)) within one year of the reimbursement allocation described in subsection (d), above.

(g) Project Costs to be reimbursed from the proceeds of the borrowing that are subject to the limitations set forth in this Resolution do not include:

**Section 22. 2011 Notice of Intent**

(a) The Finance Director is hereby authorized and directed to publish the 2011 Notice of Intent to issue bonds in an aggregate principal amount not to exceed \$500,000,000 or such lesser amount as shall be determined by the Finance Director, with respect to the Sewage Disposal System Revenue Bonds in the Detroit Legal News or other newspaper of general circulation in the City of Detroit as determined by the Finance Director.

Re: NSO Bell Housing. Payment in Lieu of Taxes (PILOT) — Revised.

NSO Bell Housing Inc., General Partner, Neighborhood Service Organization, Limited Partner has formed NSO Bell Housing Limited Dividend Housing Association Limited Partnership. The partnership will be rehabilitating the former Michigan Bell building, the first floor and part of the second floor will be used for commercial purpose to house NSO Administrative and Service Headquarters. The developers created a 2-unit condominium in order to separate the residential from the commercial space in the project. Unit 2 will be used to provide 155 one-bedroom units of permanent supportive housing for the homeless and chronically homeless. Each of these units will have federal project-based Section 8 voucher provided through MSHDA.

Funding for this project will be provided by several sources some of which are: Michigan Brownfield Tax Credits, Federal and State Historic Credit Equity, City of Detroit and Wayne County HOME Funds and Low Income Housing Tax Credit.

MSHDA has indicated that such development receiving low income tax credits, but no financing from the authority, are eligible to receive tax abatements pursuant to Section 15a of Act 346 of the Public Acts of 1996 as amended.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA125.1415A).

Units will be targeted to individuals whose income is below 50% of the area median income (AMI), however MSHDA will be providing a project-base Section 8 contract that will allow NSO to target individuals whose income is below 30% AMI.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of nine percent (9%) for this housing project.

June 17, 2011

Honorable City Council:  
Re: Downtown Development Authority  
FY 2011-2012 Budget.

Pursuant to Article 28, Act 197, as amended, we have prepared the attached FY 2011-2012 Downtown Development Authority's General Fund Budget for your approval prior to its adoption by DDA.

The amount of funds available from the one mill tax for FY 2011-2012 has been estimated at \$850,000.00, net of collection delinquencies and reserves for tax settlements, reflecting a \$18,734.00 increase from the actual receipts for Fiscal Year 2010-2011. Transfer from the DDA's Tax Increment Fund of an amount of \$500,000.00 will remain level at the 2010-2011 allocation. The FY 2011-2012 budget reflects revenues of \$800,000.00 to be generated from the parking operations, representing a \$50,000.00 increase from FY 2010-2011 attributable to an anticipated increased utilization of DDA's parking facilities. Transfer from Fund Balance has been estimated at \$347,000.00, which is needed to offset the anticipated shortfall in revenue for FY 2011-2012.

On the appropriations side, contractual services of \$1,500,000.00, reflects no increase from last year. The budgeted amount of \$516,000.00 for professional services and fees, inclusive of a \$10,000.00 expense for Computer Support, reflects a \$100,000.00 increase from the 2010-2011 Fiscal Year attributable to anticipated increase in legal services. The FY 2011-2012 budgeted expenses of \$25,000.00 related to parking operations shows a minor decrease from last year's expenses. Finally, \$500,000.00 of allocated funds for Special Projects and Contingencies for FY 2011-2012 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its July 5, 2011 formal meeting. A waiver of reconsideration is requested.

**PLANNING AND ECONOMIC  
DEVELOPMENT STANDING  
COMMITTEE**

**City Planning Commission**

July 11, 2011

Honorable City Council:

Re: Special District review of the request of SDG, Inc., on behalf of the Detroit Regional Convention Facility Authority (Cobo Center) to approve the major modification of Cobo Arena and the southern and eastern façades of Cobo Center (Recommend approval).

The City Planning Commission (CPC) is in receipt of a request from SDG Inc., on behalf of the Detroit Regional Convention Facility Authority, to approve the major renovation of Cobo Center and Arena. The major exterior changes are:

- The creation of windows on the north and south side of Cobo Arena for the to-be-created ballroom;
- Installation of a curtain wall on the south side of Cobo Center for the new pre-function spaces and atrium;
- Improvements to the Civic Center Drive entrance to Cobo Center;
- A decorative glass curtain wall/media mesh along the eastern façade;
- Changed curtain wall at West Larned Street/John C. Lodge exit lanes;
- A terrace over West Larned Street/John C. Lodge exit lanes at Washington Blvd. and the covering of the terrace at the northeast (West Congress Street/Washington Blvd.) corner; and
- The creation of a terrace to the east of the Arena with truck access and storage underneath.

As you know, the PC (Public Center District) and PCA (Restricted Central Business District) zoning districts, in which Cobo Center and Arena are located, call for City Council approval of the location and design of any exterior changes following the review and recommendation of CPC and the Planning and Development Department (Sections 61-3-

182, 61-11-76, and 61-11-96 of the Zoning Ordinance). In addition, the Site Plan Review process, as described in Sec. 61-3-113 and following, is triggered by the fact that the development site is greater than one (1) acre in size, per Sec. 61-3-113(3), and that process dictates that the CPC shall conduct site plan review and that City Council has the jurisdiction to approve the site plan. Both of these reviews have been taken up by the CPC.

**PROPOSED DEVELOPMENT**

As the attached drawings, on file in Clerk's Office, show, the majority of the exterior of both the Cobo Center and Arena is being substantially renovated. Some of these alterations are in response to extensive interior renovations that are not subject to review in the relevant zoning districts and some are purely aesthetic. The sign/video screen shown on the eastern façade above the entrance is not under review at this time, and will come back before the CPC at a future date, as this will require considerable review.

There are several major interior changes that trigger exterior changes. The first one is the creation of a two-level atrium on the river side of the hall that will allow patrons to view and access the river from the long longitudinal (north/south) hallway in the Center. This will also allow patrons easier access to the lower-level exhibit spaces and new meeting rooms. Next is the conversion of the arena into a large ballroom at the main level with meeting rooms on the lower level. This will replace the current Riverfront Ballroom that will be modified for the creation of the atrium. Pre-function spaces will be created along the river side of the building to allow better circulation and offer attractive views. A food court will be created on the north side of the arena.

Starting on the river side of the building, the existing Civic Center Drive (Atwater) entrance will be renovated and will allow access to both the lower and upper levels of the center and arena. A wall of windows will be constructed into the south wall of the arena to allow views from the new ballroom onto the river. Additionally, a new glass curtain wall will be added to the river side of the center to allow views out from the new atrium and pre-function spaces. A terrace will be built with steps down to the Riverwalk.

On the eastern wall of the center along Washington Boulevard, a new, decorative glass/mesh façade will be added. This will be attached to the building but will not replace the existing wall. Again, the large graphics display area, known as "Media Mesh," above the main entrance is not being reviewed at this time. Windows will be added to the northernmost meeting rooms facing Washington Boulevard. A revised curtain wall will be built over the

proposed terrace over West Larned Street where the John C. Lodge Freeway exit lanes emerge from under the center. A canopy is proposed over the existing terrace at the northeast corner (West Congress at Washington Boulevard). No changes are taking place on the northern or western façades at this time.

A large plaza will be created on the east side of the arena, covering truck docks, the entrance to the existing parking garage, and truck access to storage under the plaza. Access drives will be added from the north/south portion of Civic Center Drive on the eastern edge of the arena to allow pedestrian access to and from the lower level meeting rooms of the Arena. A second truck ramp to the west will be added in the future to improve efficiency.

#### REVIEW

In accordance with the PC/PCA provisions of the Zoning Ordinance (Sections 61-11-7 and 61-11-77, respectively), reviews of proposed changes should be conducted in light of the following relevant approval criteria, with staff's analysis following in italics:

(1) The proposed development should reflect applicable policies stated in the Detroit Master Plan; *Reinforcing Downtown Detroit as the primary location for convention attractions is one of the goals.*

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development; *The scale, massing and density are relatively unchanged, and the form adds excitement to a building that draws hundreds of thousands of visitors annually.*

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties; *The proposed improvements are generally compatible with the surroundings and should not negatively impact property values.*

(4) Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands; disruption of traffic flow in surrounding areas should be minimized; truck traffic should be carefully planned and controlled; *The new truck entrances under the terrace adjacent to the arena blend well with the area.*

(6) Adequate public and private open space should be provided for light and air, landscaping, and, where appropriate, for passive and active recreation; *The new terrace to the east of the arena adds considerable public space. A small terrace is proposed at West Larned Street/John C. Lodge exit lanes and Washington Blvd.*

(10) Careful consideration should be given to orientation for solar access to

both the proposed project and surrounding development; *The addition of many windows and glass curtain walls provides significant solar access and will not affect surrounding buildings.*

(15) Urban design elements of form and character should be carefully considered; such elements include, but are not limited to; richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features; preservation/enhancement of important views and vistas; *The addition of windows around much of the arena and along much of the river side of the center allows the public to see in and greatly improves visual interest. Allowing patrons of the improved facilities to see out to the river and the city skyline lets them enjoy these vistas. The addition of the terrace over West Larned Street/John C. Lodge exit lane serves to break up a very long wall.*

The proposed modifications appear to meet these criteria.

Also before City Council, due to the scale of the project, is the site plan review (SPR) of the proposed plans. The criteria for SPR (Sec. 61-3-152 and following) are below, with the description included, as needed, and the analysis following in italics:

- Compliance with master plan. *See above.*

- Conformance with Zoning Ordinance.

The proposed uses and structures shall conform to the use regulations, dimensional requirement, general development standards, and any other applicable requirements of this Zoning Ordinance, except as provided for in accordance with the Variance or Administrative Adjustment procedures in Article IV, Division 6 of the Zoning Ordinance. *Review being conducted under zoning ordinance procedures and per its criteria.*

- Conformance with design guidelines. *Meets PC/PCA guidelines.*

- Traffic. *See above.*

- Pedestrian circulation. *See above.*

- Surroundings. *See above.*

- Open spaces, landscaping, screening, and buffering. *See above. The incorporation of best environmental practices for landscaping, such as porous pavement and run-off controls, are being finalized.*

- Lighting. *The exterior lighting is adequate, and the decorative lighting will enhance the building's appearance from both the adjacent area and from across the Detroit River.*

- Aesthetics. To the extent practicable,

the type, dimensions, and character of open spaces, landscaping, earth berms, fencing, screening, buffering, signs, walls, and other site features shall be designed and located on the site so that the proposed development is aesthetically pleasing and harmonious with nearby existing or future developments. Such site features shall not impede the normal and orderly operation, development or improvement of surrounding lots for uses permitted on the lots. *The open spaces and landscaping, the majority of which are anticipated to be hardscapes to minimize maintenance, appear to be designed and located so as to fit with the surroundings. The portion adjacent to the arena will be designed in conjunction with the soon-to-begin Civic Center planning effort.*

- Exterior color. The use of high intensity colors, metallic colors, black or fluorescent colors shall be avoided, except as accent treatment. *These colors are not used.*
- Utilities. *Staff is told that the utilities are adequate.*
- Equipment and fixtures. *No equipment in the right-of-way is planned.*
- Natural features. *Natural features are unaffected.*
- Hazards. *No hazards are identified on the to-be-modified portion of the site.*
- Soil. *The Authority will take all reasonable steps to minimize erosion.*

The proposed modifications appear to meet these criteria.

The Planning and Development Department (PDD) has submitted its review and recommendation of the project (see attached). While the Commission seemed satisfied with PDD's recommendations, it did not choose to incorporate them in the recommendation. CPC staff can address those in the development of the resolution if City Council chooses. The parts of that review that seem to directly tie to the Special District Review or Site Plan Review criteria are:

- Incorporating vegetative roof surface (green roof system) as part of the Cobo Center improvement.
- Give special attention to barrier-free access alternatives to and from the Center to the riverfront promenade and other areas.
- Design the site layout to make the Cobo Center approach from the south accessible and safe for pedestrians including the handicapped and disabled, by providing road features to slow traffic and make pedestrian crossing an easy and comfortable experience.
- Develop sustainable sites and landscapes by incorporating low-impact development practices for site development. For example, use porous materials and native and drought-resistant plants and vegetation.

- Integrating low-impact development (LID) strategies and best practices in stormwater management to reduce runoffs. For example, use porous pavement and open grid pavement to increase the ground infiltration.

In addition to those things that directly relate to the above criteria, PDD also encourages or recommends that the Authority undertake various efforts or consider design alternatives that reduce the environmental impact of the project, such as a recycling program and the provision of energy efficient glass wall without compromising aesthetics and transparency. CPC concurs with PDD's encouragement of the Authority to incorporate sustainable design and green building features to achieve energy and water efficiency. The Authority also submitted the executive summary of the Alternative Energy Source Evaluation prepared for the Authority, listing the options being considered by the Authority for energy efficiency. The Authority is still evaluating these options for feasibility and economic payback.

**PUBLIC DISCUSSION RESULTS**

At the June 16, 2011 CPC public discussion on the above matter, two (2) persons spoke. One requested that local and minority contractors be included in the project and the other spoke about a matter of litigation between a former tenant and the Authority.

At that discussion, the Commissioners requested that CPC staff and PDD synchronize their recommendations and that the CPC have the opportunity to review the formal written PDD review.

**RECOMMENDATION**

The City Planning Commission took action at its July 7, 2011 meeting to recommend the approval of the special district exterior alternations and the submitted site plans and elevations, with the exception of the proposed media mesh, with the condition that all final plans for the exterior of the building, including landscaping and signage, be submitted to, and reviewed by, CPC and PDD staffs for consistency with the plans approved by City Council. The CPC further recommended approval of the installation of either a green roof system or a solar panel array on the southern portion of the roof.

**City of Detroit**  
**Brownfield Redevelopment Authority**  
June 14, 2011

Honorable City Council:

Re: Redford High School Brownfield Redevelopment.

The enclosed Brownfield Plan for the Redford High School Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"), has been considered and reviewed by the CAC and a public hearing was held by the DBRA on October 11, 2010 to solicit public comments. At its September 29, 2010 meeting, the CAC considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA.

On October 13, 2010, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**Project Introduction**

Lormax Stern Detroit Development, LLC is the project developer (the "Developer"). The Plan includes the complete demolition of the existing one million square building and preparation of the site for the construction of one or two retail buildings containing a total of approximately 225,000 square feet and three potential out lots to serve area residents. Total investment is estimated to exceed \$25,000,000. The Developer anticipates Michigan Economic Development Corporation (the "MEDC") support for a 15% Michigan Business Tax (the "MBT") credit. The Developer is also requesting Tax Increment Financing ("TIF") reimbursement of \$6,592,500.

**Property Subject to the Plan**

The property comprising the Plan consists of an approximately 24 acre site that contains several parcels within its boundaries located at 21431 W. Grand River Avenue, on Detroit's west side, bounded by W. Grand River Avenue and W. McNichols Road to the north, Westbrook Street to the east, Verne Avenue to the south and Burgess Street to the west.

**Basis of Eligibility**

The Property is considered to "eligible

property” as defined by Act 381, Section 2 because (a) the Property was previously utilized for a public purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be a functionally obsolete as defined by Act 381.

**Eligible Activities and Projected Costs**

The “eligible activities” that are intended to be carried out at the Property are considered “eligible activities” as defined by Sec. 2 of Act 381, because they include Baseline Environmental Assessment activities, due care activities, lead and asbestos abatement, preparation of a brownfield plan and work plan and work plan review, demolition, site preparation, and infrastructure improvements. The eligible activities and budgeted costs are intended as part of the development of the Property and will be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt. It is currently anticipated that construction will begin in the summer of 2011 and eligible activities will be completed within five (5) years.

**Tax Increment Financing (TIF) Capture**

The Developer desires to be reimbursed for the costs of eligible activities. Tax increment revenue generated by the Property will be captured by the DBRA and used to reimburse the cost of the eligible activities completed on the Property after approval of this Plan pursuant to the terms of a Reimbursement Agreement with the DBRA.

**ESTIMATED COST OF ELIGIBLE ACTIVITIES**

Re: Amendment to Memorandum of Understanding between the City of Detroit and the Wayne County Prosecutor's office.

On September 25, 2008 the City of Detroit closed the Detroit Police Department Forensic Services Laboratory ("Crime Lab") after the review of a September 23, 2008 Michigan State Police preliminary report that audited the Crime Lab's firearms unit and found an error rate of approximately ten percent. The results of the preliminary audit were confirmed by an October 22, 2008 final audit.

The Wayne County Prosecutor's Office ("WCPO") has established a Forensic Evidence Review Unit ("FERU") for the purpose of reviewing adjudicated cases involving the Crime Lab. The WCPO has devoted a significant amount of resources to the review of matters where evidence from the DPD Crime Lab was used in the criminal proceeding. This Honorable Body approved the Memorandum of Understanding on March 16, 2010 to provide funding for services performed by the FERU.

The term of the MOU has expired and there is work by the FERU that remains to be completed. The City of Detroit is requesting to enter into Amendment Agreement No. 1 to the Memorandum of Understanding between the City and the Wayne County Prosecutor's Office that increases the time for performance and the amount of compensation for the complete and proper performance of services under the MOU.

This Memorandum of Understanding has been reviewed by the Law Department and approved.

If you have any questions or concerns regarding this matter, please feel free to contact me at (313) 224-3752.

Honorable City Council:

Re: Petition No. 779 — Plymouth Educational Center, requesting vacation of the northerly 4 feet of Orleans Street and the Northerly 4 feet of the alley bounded by Canfield, Orleans, Superior and Dequindre be vacated.

Petition No. 779 of "The Plymouth Educational Center" requests the conversion to easement the remaining portion (4.00 feet) of Orleans Street, 50 feet wide, between Canfield Avenue, 60 feet wide, and (vacated) Willis Avenue, 50 feet wide, and outright vacate the remaining portion (4.00 feet) of the north-south public alley, 20 feet wide, in the block bounded by Canfield Avenue, 60 feet wide, (vacated) Willis Avenue, 50 feet wide, Dequindre Avenue, 78 feet wide, and (vacated) Orleans Street, 50 feet wide. These clo-

tures will correct a problem/issue and facilitate the land sale, for the Planning and Development Department (P&DD).

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports an existing sewer within Orleans Street, however, DWSD has no objection to a conversion to easement of that portion of Orleans Street provided DWSD's provision is strictly followed.

All other city departments and private utility companies have reported no objections to the changes of the public rights-of-way. Provisions protecting utility installations are part of this resolution (if necessary).

I am recommending adoption of the attached resolution.

Respectfully submitted,

Honorable City Council:

Re: Address: 13703 Buffalo. Name: Christopher McGrane. Date ordered removed: March 2, 2010 (J.C.C. p. 580-585).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 16, 2011 revealed the building is secured and appears to be sound and repairable.

The owner has paid current taxes through December 14, 2011.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if condi-

tions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

**CONSENT AGENDA**

#### MEMBER REPORTS:

**Council Member Spivey** stated that businesses and residents have a major concern regarding the changes in parking meter enforcement. Many meters have the old time and have not change. How much does the city anticipate receiving by adding four hours, changing shifts and enforcing the payment of those tickets if they are issue? He stated that we want to bring people to Detroit and not make it impossible for them to come.

**Council Member Kenyatta** requested information from the Mayor's office concerning the parking rules and if this was an Executive Order or a department rule; nothing concerning this has come before Council. Council will like to have information on the parking issue.

**Council Member Cockrel, Jr.** stated that he has received an overwhelming amount of criticism regarding the changes in parking meters. One issue is that you do not get enough time and it is unrealistic for someone to continue to run and feed a meter if you are parked a distance from your restaurant or place of entertainment. In some neighboring cities, you can park two hours free and then you start paying. People will start taking their money other places if we do not resolve this issue. Administration might consider electronic meters all over the areas in question and after hours extend the amount of time you can receive. He is

supportive of the concept; we are behind times in not doing this sooner but the execution needs to be desire. He will put in writing issues received from citizens and his suggestions on the issues.

**Council Member Jones** concern was with Adams Street and people who have tried to negotiate a contract for the parking garage with the city. Businesses on Adams (between Woodward and Park) and residences are complaining about one-hour parking. She asked when did they start issuing tickets.

**Denise Gardner** stated Mr. King of Transportation indicated that they would start enforcing the meters today.

**Council Member Jones** stated that enforcers were out prior to July 18, 2011.

**Council President Pro Tem Brown** requested that Parking Enforcement meet with Committee at today 2:00 p.m.

**Council Member Jones** announces Skill Trades Task Force meeting next Tuesday from 4:00 p.m. to 6:00 p.m. in the auditorium and states that last Friday, Council Member Tate and she attended the Willie Green Basketball camp where over 300 children were playing basketball very orderly and the overflow was move to Mumford High School. The children from 8 years to 18 years of age were playing basketball and receiving mentoring as well as educational training.

**Council Member Jenkins** distributed a memo on Woodward Light Rail Authority suggesting that the Board consist of two members by Council, two appointed by the Mayor and one joint appointee. She is asking for feedback from Council and Mayor's Office before recess.

Detroit Association of Black Organizations and Detroit Black Leadership Commission on AIDS are having a summit on HIV Prevention July 21, 2011, at Detroit Care Alternative High School, 8100 W. Davison at Roselawn from 9:00 a.m. to 4:00 p.m.

Wednesday, July 27, 2011, at 5:30 p.m. Council Member Tate and Council Member Jenkins will hold their Youth Violence Prevention Task Force meeting at Third New Hope Baptist Church, 12850 Plymouth Road near Steel.

A "thank you" from Council Member Jenkins to supporters and to Council Member Tate and Council Member Jones for their support in the first JoVan Foundation in honor of her late brother. The first event was a golf outing and it was phenomenal with approximately 140 golfers and the money raised will go to help reduce youth violence in Detroit.

**Council Member Tate** spoke regarding issues with Urban Gardening in the Brightmore area with the new rule not allowing residents to add new soil on property and preventing them from setting up rain barrels. He will refer this matter to Neighborhood and Community Standing Committee.

**Denise Gardner** stated that the matter is under the jurisdiction of Planning and Development Department and she believe that the matter would be best suited for Planning and Economic Development but she will forward the matter to Planning and Development and ask for a response.

**Council Member Kenyatta** stated that in Neighborhood Services he asked for an evaluation from Research and Analysis on the role Council has in the Parking Wars. He asked Fiscal if this was included in this year's budget in terms of revenue and how will this work regarding workers working pass 6:00 p.m. He is not against the parking but against the format as it is present and the burden put on other people by driving them into lots not owned by the City of Detroit.

He also expressed concerns regarding the proposed Authority and agreement and indicates that he will join Member Jenkins in the composition of the Woodward Light Rail Authority. He asked if secondary employment for police officers is in operation.

**Council President Pro Tem Brown** states that it is in operation.

**Council Member Watson** invites all to a historical review this Saturday commemorating the anniversary of the July 23 rebellion at 11:00 a.m. in the Erma Henderson Auditorium. Honorary chairs, Willie Horton, the Detroit Tiger star and the Honorable John Conyers. The review will lift up the legacy of many who played a role in bringing peace during the rebellion like the Honorable Erma L. Henderson, Honorable Coleman A. Young, late Nadine Brown, Martha Jean the Queen and many others. This will be a wonderful opportunity to tell our story from the prospective of those who were there with young people building on where we need to go from the activist among the 1960's, 1970's and 1980's. Members of her staff have donated refreshments and an Emmy Award winning video produced by Ted Talbert covering the 1967 rebellion will highlight the event.

Those sparkles were because of his little princess and the love of his life, his daughter Kennedy. They spent as much time together as possible and their favorite game was a simple one where Charles would ask Kennedy, "Where do you kiss daddy?" her response was always "On the forehead". She would then lovingly plant a kiss on his bald head; and

WHEREAS, Charles was a patient, compassionate and lively person who took great pride in his job, but also knew the importance of relaxing and having fun. Affectionately called "Chuck" by family, friends and co-workers, he enjoyed roller skating, rap music and telling jokes. He would also let it be known that life's simple pleasures would not be complete without his mother's oatmeal or homemade biscuits. No matter how challenging life became, Chuck would always face those challenges head-on, often with a smile; and

WHEREAS, On the morning of Sunday, June 12, 2011 the Lord sent his Angels down and called Charles Edward Armour home to rest. "Well done thou good and faithful servant; thou hast been faithful over a few things, I will make thee ruler over many things; enter thou into the joy of thy Lord" (Matthew 25:23); NOW, THEREFORE BE IT

### RESOLUTION TO OPPOSE HYDRAULIC FRACTURING

By COUNCIL MEMBER WATSON:

WHEREAS, The hydraulic fracturing (fracking) for natural gas involves the use of chemicals and hazardous materials during construction, drilling, hydraulic fracturing, gas production and delivery, well maintenance, and workover operations; and

WHEREAS, Hydraulic fracturing of underground geologic formations is often accomplished by injecting a complex mix of fluids and chemicals, including large volumes of water, on average 4.5 million gallons per well, under very high pressure to create fractures in gas bearing geologic formations; and

WHEREAS, Many of the chemical constituents injected during hydraulic fracturing have documented adverse health effects and/or adverse environmental impacts; and

WHEREAS, There have been more than a 1,000 documented cases of water contamination near fracking sites; some people who live near these sites can now light their drinking water on fire; and

WHEREAS, Wastewater from fracking can contain radioactive elements and has been discharged into rivers that supply drinking water for millions, according to the *New York Times*.

WHEREAS, Use of these hydraulic fracturing mixes exposed adjacent land and surface waters to the risk of contamination through open pit storage, truck transport on roadways, and activities during well development; and

WHEREAS, The pollution of water caused by fracking threatens the long term economic well being of communities, as businesses and consumers depend on clean drinking water; and

WHEREAS, In 2005, as part of the federal Energy Policy Act and over objections of health care, scientific, environmental, and conservation communities, regulation of hydraulic fracturing fluids under the Safe Drinking Water Act by the Environmental Protection Agency was

exempted, thereby allowing oil and gas companies to use these substances without federal oversight or standards; and

WHEREAS, The oil and gas industry is not required by federal laws to publicly disclose chemical formulas of hydraulic fracturing fluids so that this information is publicly available for health and safety purposes; and

WHEREAS, Former President George W. Bush's EPA point person on water now admits fracking should never have been exempted from regulation; and

WHEREAS, The Fracturing Responsibility and Awareness of Chemicals Act ("FRAC Act"), which is currently pending in Congress, would repeal the fracking exemption to the Safe Drinking Water Act and require disclosure of chemicals used in fracking; and

WHEREAS, The Bringing Reductions to Energy's Airborne Toxic Health Effects Act ("BREATHE Act"), which is currently pending in Congress would repeal the exception to the Clean Air Act for aggregation of emissions from oil and gas development sources;

WHEREAS, The wise stewardship of our natural resources involves protection of Detroit's water supplies and water resources for generations to come; and

WHEREAS, Protection of Detroit's water supplies and resources is better accomplished by prevention of contamination and environmental degradation, rather than attempting to clean up contamination and restoring degraded environments after the fact; NOW, THEREFORE, BE IT

RESOLVED, That Detroit City Council supports a statewide and national ban on hydraulic fracturing for natural gas; and BE IT FURTHER

RESOLVED, That the Detroit City Council supports the FRAC Act and BREATHE Act; and BE IT FURTHER

RESOLVED, That the Detroit City Council will send a letter to our State Representatives and Senators, Congressional Representatives and U.S. Senators calling for a ban on fracking and for them to co-sponsor the FRAC Act, H.R. 1084/S. 587, and BREATHE Act, H.R. 1204.

**CITY COUNCIL**

(REGULAR SESSION)

(All Action of the City Council appearing herein is subject to reconsideration and/or approval of the Mayor.)

Detroit, Tuesday, July 26, 2011

Pursuant to adjournment, the City Council met at 10:00 A.M., and was called to order by the President Pro Tem Gary Brown.

Present — Council Members Cockrel, Jr., Watson, and President Pro Tem Brown — 3.

There being no quorum present, the City Council was declared not to be in session.

**Invocation**

Council President Charles Pugh and honored City Council Members, thank you for the opportunity to pray with you as you begin this session of city business. Three hundred ten years and two days ago the City of Detroit was founded, strategically situated on a land strait between Canada and the United States. Located in an ideal place for trade to occur and cultures to meet; our history as a city in this region is rich. I am confident that the innovation, creativity, direction and ingenuity needed to steer this city into the path of success is in this room. However, I don't trust simply in my own confidence — but in the God who causes us to move and breathe, to meet adversity and overcome it, to organize, plan and envision a future we cannot yet see, but know is within our reach.

Let us bow our heads and pray:

Good Shepherd,

Place within this City Council Your goodness and mercy, so that the deliberations, discussions and debates result in programs, policies and procedures that respect, promote and safeguard the dignity of each of our citizens. Enlighten each members' mind as they seek to address the difficult challenges that face this municipality. Give them courage, steadfastness,

integrity, prophetic vision and a double portion of your unflinching hope — so that those who have been broken, forgotten or damaged by unemployment, homelessness, life and health challenges and the lack of a quality education — will have a reason to walk with heads unbent and hearts unbroken. Touch the citizens of Detroit too, Loving God, to act with compassion toward one another, may the elders mentor the children, the strong protect the vulnerable and disparate groups work together for the common good. May our commitment to work diligently to refocus and redirect our efforts recreate this city — and by your grace allow us to bear fruit, *first* in spiritual gifts which gives way to restored relationships, meaningful cooperation and an end to profit over people. Three hundred ten years and two days ago Detroit was founded — we have a history to be proud of; God, give us Your grace which will propel us into a future full of faith, light, peace and prosperity as we build on a strong foundation of competence, compassion and commitment for, with and by the people of Detroit. With trust and in confidence we pray.

Amen.

Whereas, The Council sees the need for establishing a Revenue Consensus Sub-Committee within the context of the Budget, Finance, and Audit Standing Committee — comprised of the representatives of the Administrative and Legislative branches — in order to examine the revenue collections through the year to verify the success of the DEP, and

Whereas, The Council sees the need for improvement in the format and content of the Budget Department's Quarterly Financial Report to include a minimum of 80% of the General Fund's revenues and expenditures, as well as a minimum of quarterly submission of budget amendments if appropriations deficits are verified in budget accounts so that uncontrolled department spending will not add to the accumulated deficit at year's end, and

Whereas, The Council sees as essential to the success of the Deficit Elimination Plan (DEP), a strategy of review and monitoring that includes scheduled written Quarterly Review to Council on the progress of the DEP from the Administration, and hearings in the Budget, Finance, and Audit Standing Committee on the report along with the necessary budget amendments if the DEP Quarterly Review of Progress indicate that the plan is not progressing as intended, and

Whereas, The Council also sees the necessity of the Administration providing a monthly cash flow report to the Fiscal Analysis Director in a mutually negotiated and agreed to transparent format to the Fiscal Analysis Director, Auditor General, and the City Council, and

Whereas, The Council sees the need for an annual reconciliation of the DEP against the actual activity of expenditures and revenue collections — This reconciliation should include narrative that explains what caused the outcomes, and

Whereas, The Council has approved the DEP in concept, but will need a much higher level of detail before specific proposed cost saving initiatives can be approved, and if an insufficient case is made for the Council to authorize these initiatives, the Administration may have to develop alternative initiatives, and

Whereas, When the Council is presented with a cost savings initiative, the Council expects that the Administration will provide specifics as to the affected department/agencies, how the savings will be quantified, timelines for implementation and assurances of updates; and

Whereas, When the Council has authorized a cost savings initiative, the Council expects that the Administration will provide monthly updates as to the progress of the initiative with quantifiable facts and details.

Whereas, The deficit elimination plan of July, 2011 includes many initiatives in

concept the approval of the deficit elimination plan does not grant approval of any individual initiatives. Each initiative when specific detail are presented to this Council must be approved on the initiatives own merit. Inclusion of an initiative in the deficit elimination plan is not a basis to justify implementation of the initiative in the future.

Be It Further Resolved, That the Finance Director submits the Deficit Elimination Plan to the Michigan Department of Treasury for certification.

STATEMENT BY COUNCIL PRESIDENT  
PRO TEM GARY BROWN REGARDING  
VOTE IN OPPOSITION OF  
MAYOR'S PROPOSED DEFICIT  
ELIMINATION PLAN

July 26, 2011

On July 26, 2011, the Detroit City Council passed a resolution approving the Mayor's proposed Deficit Elimination Plan (DEP). While I appreciate the efforts the Administration undertook to modify the resolution supporting the DEP, I could not vote in support of the plan itself for reasons that I have continuously outlined including but not limited to the following:

I believe strongly that in order to be successful, the DEP should include certain types of requirements for regular tracking and monitoring of the City's progress toward the Plan's goals and objectives through real time lines, corresponding financial data and proposed alternative plans to be implemented if the goals and objectives are not realized.

I have for months tried to have the Administration incorporate such monitoring and tracking methods beginning with the inclusion of a revenue consensus committee. The Revenue Consensus Committee would track actual revenues received in accordance with the projections set forth in the DEP. The Revenue Consensus Committee should meet on an on-going basis and should be part of the annual budget process. If the revenues are not realized, the proposed alternative plan would be placed in effect to keep the deficit reduction projections on course.

The DEP should be subject to reporting time lines. For example, the Administration should perform and present to Council a quarterly review of revenues and expenditures comparing actual revenues and expenditures to budgeted revenues and expenditures. The projected budget

should then be adjusted accordingly. This data should be clearly detailed and presented to Council on a quarterly basis with appropriate budget amendments. Council should then have the opportunity to vote to approve or disapprove the budget amendments.

In addition, because of DEP covers a five year period, a comprehensive annual adjustment should be made to the plan and presented to both Council and the State. This adjustment should include an explanatory narrative under each category, and should reflect the City's actual revenues and expenditures for the given year. The adjustment should change the Deficit Elimination Plan for the remaining years to reflect that year's adjustment.

Certain areas of the DEP should be tracked with particular attention, including projected revenues from sources such as tax receipts, revenue sharing, and receivables that may or may not be collected. Because there is a high likelihood that some categories of revenue itemized in the DEP may not materialize, the DEP should also include alternative measures that could be taken in the event that revenue comes in short.

Finally, a significant portion of the DEP involves different unspecified "initiatives," especially "expenditure initiatives." The DEP needs more detail regarding those initiatives, including a description of the departments within which the initiatives will occur, facts about exactly what the initiative will involve and how savings will be captured, and real timelines and corresponding financial data.

The DEP proposed by the Administration and approved by City Council does not yet contain the provisions outlined above. For this reason, I was unable to vote in favor of the resolution of approval. I am still and will remain vigilant in working with the Administration, the State and my colleagues in creating a fiscally strong City of Detroit and look forward to receiving your assistance in making this possible.

**City Council  
 Budget Department**

May 19, 2011

Honorable City Council:

Re: Amendment to FY 2010-11 Budget for 2010 General Obligation Bond Sale.

The Budget Department is requesting authorization to appropriate the remaining balance of the \$100 million in general obligation bonds sold on December 16, 2010. On January 25, 2011, this Honorable Body approved a budget amendment to appropriate \$65.7 million in proceeds from this bond sale with the remaining amount to be appropriated at a later date.

Today, the Budget Department is requesting authorization to appropriate the remaining balance of \$34,254,310.74 for capital improvements for the Charles Wright Museum of African-American History, Detroit Institute of Arts, Detroit Transportation Corporation, the Eastern Market, Fire Department, Health, Historical Museum, Public Lighting, Recreation, Zoological Institute and the Public Safety Headquarters project. These bond proceeds will, in some cases, restore funding for projects previously budgeted in Fiscal years 2008 and 2009, but the bonds were never sold due to a lack of approval from the State Treasurer and credit downgrades. This amendment also provides for the recording of the purchase of the former MGM Temporary Casino property in the appropriation established for the new Detroit Public Safety Headquarters project.

The amount of bond funds appropriated to date from the \$100 million bond sale is as follows:

Detroit Public Safety Project	\$ 60,000,000.00
Bond Sale Expenses and Issuance Costs	5,745,689.26
Total Appropriated to Date	<u>\$ 65,745,689.26</u>
Remaining Balance of the \$100 Million	<u>\$ 34,254,310.74</u>
Total Bond Sale	<u>\$100,000,000.00</u>

The Budget Department request authorization to decrease the Non-Departmental GO Bond 2010 Series, appropriation 13339 by \$34,254,310.74; and increase appropriations for the following:

Increase Appropriation No. 12618, C. H. Wright Museum of African-American History	\$ 297,003.74
Increase Appropriation No. 12619, DIA Capital Improvements	3,500,000.00
Increase Appropriation No. 13369, DTC-People Mover Capital Improvements	1,500,000.00
Increase Appropriation No. 12622, Eastern Market Capital Improvements	1,500,000.00
Increase Appropriation No. 13370, Fire Department Capital Improvements	2,000,000.00
Increase Appropriation No. 13371, Health Animal Control Center	4,000,000.00
Increase Appropriation No. 12621, Historical Capital Improvements	1,850,000.00
Increase Appropriation No. 13372, Public Lighting Capital Improvements	6,500,000.00
Increase Appropriation No. 13373, Recreation Capital Improvements	5,500,000.00
Increase Appropriation No. 12620, Zoo Capital Improvements	1,000,000.00
Increase Appropriation No. 13320, Detroit Public Safety Headquarters	6,607,307.00
Total	<u>\$ 34,254,310.74</u>

The attached resolution authorizes the transfer of bond funds from the Non-Department Appropriation No. 13339, Non-Departmental Go Bond 2010 Series and increases specific departmental capital appropriations, along with a related increase in revenues for the receipt of the bond sale proceeds.

A waiver of reconsideration is requested.

Respectfully submitted,  
FLOYD L. STANLEY, JR.  
Deputy Budget Director

By Council Member Cockrel, Jr.:

Honorable City Council:

Re: Operating Agreement to Augment Services Already in Place with Blue Cross Blue Shield of Michigan.

The Labor Relations Division has recently reached an agreement with Blue Cross Blue Shield of Michigan to augment services already provided in the current operating agreement with the City of Detroit.

Herewith, we are recommending that your Honorable Body authorize action to implement the services as set forth in the attached City of Detroit Purchasing Department Sole Source Designation, effective upon City Council approval.

We further respectfully request that your Honorable Body adopt the following resolution with a Waiver of Reconsideration.

Respectfully submitted,

JOSEPH P. MARTINICO  
Labor Relations Division

By Council Member Jones:

Resolved, That Blue Cross Blue Shield of Michigan is authorized to expand its current operating agreement to include the Early Retiree Reinsurance Program for the City of Detroit, acting by and through its Human Resources Department — Labor Relations Division, as the plan sponsor and health care plan (collectively “Sponsor”), for the purpose of delineating the terms and conditions under which Blue Cross Blue Shield of Michigan will provide services related to Sponsor’s participation in the Early Retiree Reinsurance Program (the “Program”) as contained in the Patient Protection and Affordable Care Act, administered by the US Department of Health and Human Services.

**AGREEMENT TO PROVIDE  
ADMINISTRATIVE SERVICES  
FOR THE EARLY RETIREE  
REINSURANCE PROGRAM**

**1. Purpose**

This Agreement (the “Agreement”) is made as of March 1, 2011 (the “Effective Date”) by and between Blue Cross Blue Shield of Michigan, a Michigan health care corporation, and Blue Care Network of Michigan (collectively as “BCBSM”) and the City of Detroit, acting by and through its Human Resources Department — Labor Relations Div., as the plan sponsor and health care plan (collectively “Sponsor”), for the purpose of delineating the terms and conditions under which BCBSM will provide services related to Sponsor’s participation in the early retiree reinsurance program (the “Program”) administered by the U.S. Department of Health and Human Services.

**2. Definitions**

A. The terms “Certified,” “Claim,” “Employment-Based Plan,” and “Health Benefits” shall have the same meanings as in 45 C.F.R. §149.2.

B. The term “Chronic and High-Cost Condition” means any condition for which \$15,000 or more in Health Benefits claims are likely to be incurred during a plan year by one Employment-Based Plan participant.

C. The term “HHS” means the United States Department of Health and Human Services, and references to HHS include the Secretary of HHS or the Secretary’s designee.

D. The term “HIPAA” means the Health Insurance Portability and Accountability Act of 1996, as amended.

E. The term “Program” means the Early Retiree Reinsurance Program established in Section 1102 of the Patient Protection and Affordable Care Act and implementing HHS interim final rule at 45 C.F.R. Part 149.

F. The term “Program-Eligible Individual” means an individual who is age 55 or older, enrolled for Health Benefits in a Certified Employment-Based Plan, not eligible for coverage under

Medicare (Title XVIII of the Social Security Act), and not an active employee of Sponsor, as well as such individual’s enrolled spouse, surviving spouse, and dependents (if applicable).

G. The term “Program Requirements” means the requirements of 45 C.F.R. Part 149, and any administrative guidance there issued.

H. The term “Negotiated Price Concession” means any direct or indirect remuneration (including discounts, direct or indirect subsidies, charge backs or rebates, cash discounts, free goods contingent on a purchase agreement, up-front payments, coupons, goods in kind, free or reduced-price services, grants, or other price concessions or similar benefits), received by the Sponsor in the case of a self-insured plan; or BCBSM or Sponsor in the case of a fully-insured plan, that would serve to decrease the costs incurred under the Employment-Based Plan.

**3. Term and termination**

A. Term. The term of this Agreement will commence on the Effective Date and will be renewed automatically for successive one (1) year terms, unless earlier terminated as set forth below. Renewals or extensions of this agreement must be approved by the Detroit City Council on the behalf of the Sponsor.

B. Termination of Agreement. The Agreement may be terminated under any of the following circumstances:

1. Program Termination by HHS. This Agreement shall automatically terminate if HHS eliminates or terminates the Program or denies Sponsor’s Program application.

2. Termination with notice. Either party may terminate this Agreement in its entirety at any time upon thirty (30) days prior written notice to the other party.

3. Termination for material breach. In the event that either party fails to cure a material breach of this Agreement within seven (7) days of receipt of written notice to cure from the other (which notice will state the material breach with specificity and attach any then-available documentation of the material breach), the non-defaulting party may terminate this Agreement upon seven (7) days prior written notice. If the breach is cured within such seven-day period, or if the breach is one that cannot reasonably be cured within seven (7) days, and the non-defaulting party determines that the defaulting party is making substantial and diligent progress toward correction during such seven-day period, this Agreement will remain in full force and effect.

4. Termination based on failure to reach agreement following regulatory change. Either party may terminate this Agreement effective seven (7) days after either party provides written notice that it

is unable to agree on any amendment required under this Agreement.

C. Transition requirements. If this Agreement is terminated by BCBSM under Section 3(B)(2) or by either party under Section 3(B)(4), then the parties agree to take the following specific actions to minimize disruption:

1. Transition plan. The parties will develop and implement a detailed plan for transitioning the services, and both parties will cooperate fully to arrange for the transfer of services to Sponsor's designee.

2. Transition period. BCBSM will continue to provide services in accordance with this Agreement for a reasonable transition period. Unless the parties mutually agree otherwise, the transition period will not exceed sixty (60) days from the date of notice of termination. Except as otherwise provided in this Agreement, the terms and conditions of this Agreement will apply during the transition period.

3. Prompt payment. The parties will take reasonable steps to ensure that any payments due under this Agreement will be made promptly following termination of this Agreement, including without limitation any amount due to BCBSM for services performed during the Transition Period which will be paid at the rates set forth in this Agreement. Termination of this Agreement will not terminate the rights or liabilities of either party arising out of the period prior to the effective date of the termination.

#### 4. Scope of services

##### A. Program application.

1. Responsibility for preparing and submitting Program application. Sponsor will be responsible for the preparation and submission of the Program application. BCBSM or its subcontractor shall assist Sponsor in the preparation of the Program application and provide necessary data as requested by Sponsor. Sponsor shall designate one of its employees as the authorized representative for the Program application. BCBSM or its subcontractor and Sponsor will work cooperatively to provide the data needed to complete Sponsor's Program application on a timely basis.

##### 2. Projection of claims.

(a) Responsibility for preparing projection. BCBSM or its subcontractor shall prepare and submit to Sponsor a projection of amount to be received by Sponsor under the Program for the first two plan year cycles, as described in 45 C.F.R. §149.40.

(b) Data for projection. Sponsor shall provide all information BCBSM or its subcontractor request for the projection including, without limitation, information regarding retiree contributions, demographic data, and benefit options related to Sponsor's coverage of Program-Eligible Individuals under the Employment-Based

Plan. Sponsor shall also provide BCBSM or its subcontractor with a list of all Plan members and Program-Eligible Individuals or, at the option of BCBSM or its subcontractor, another suitable method of identifying all Program-Eligible Individuals.

3. Fraud, waste, and abuse policies. BCBSM has implemented policies and procedures to detect and reduce fraud, waste, and abuse in connection with the Employment-Based Plan, in accordance with 45 C.F.R. §149.40. Upon request by HHS for Sponsor or BCBSM to substantiate the existence of such policies and procedures, pursuant to 45 C.F.R. §149.40(f)(4)(iii), BCBSM shall provide such substantiation information directly to HHS. BCBSM will include a summary of its policies and procedures as part of such substantiation information to the extent required by HHS.

4. Programs that generate savings for Chronic and High-Cost Conditions. BCBSM shall provide Sponsor with a summary explanation describing the procedures or programs it has in place that have generated or have the potential to generate cost savings with respect to Employment-Based Plan participants with Chronic and High-Cost Conditions. Such summary shall be provided not later than thirty (30) days after the Effective Date. Sponsor agrees to hold the information in confidence, in accordance with Section 5.

5. Confidentiality requirements. Sponsor agrees that any documents, materials, or other information provided to Sponsor by BCBSM or its Subcontractor pursuant to this Agreement ("Confidential Information"), are the sole property of BCBSM and are private and confidential in nature. Sponsor further agrees that BCBSM would suffer competitive or other harm in the event the Confidential Information, or any portion thereof, was disclosed. Sponsor further agrees that it will hold the Confidential Information in the strictest confidence and will not use or disclose it, or any part thereof, unless: (a) the use or disclosure is necessary for Sponsor to comply with the Program Requirements; (b) the disclosure is made with the prior written consent of BCBSM; (c) the disclosure is requested by and made to a local, state, or federal law enforcement official, provided Sponsor gives BCBSM written notice at least seven (7) days before making such disclosure; (d) the disclosure is made in response to a lawful subpoena or other compulsory process, provided that prior to making the disclosure, Sponsor promptly gives notice thereof to BCBSM and furnishes BCBSM with a copy of the subpoena or other process so as to afford BCBSM a reasonable opportunity to seek a protective order; or (e) the Confidential Information to be disclosed is already in the public domain through no act or failure on the part of Sponsor.

In the event this Agreement is terminated, Sponsor agrees that it will continue to treat the Confidential Information as private and confidential, will return all such Confidential Information to BCBSM, and will not use or disclose such Confidential Information, or any part thereof, except as permitted in this Section. Sponsor agrees that BCBSM shall, in addition to any other available legal relief, be entitled to an injunction by any competent court to enjoin and restrain the unauthorized use of disclosure of the Confidential Information, or any part thereof.

**B. Claims submission.**

1. Responsibility for compiling and submitting data. BCBSM or its subcontractor shall compile and submit Claims data to HHS which can be on a quarterly or monthly basis, in accordance with Program Requirements, but in no event more frequently than permitted by HHS. At least 3 days in advance of the date that BCBSM or its subcontractor will submit the Claims data to HHS, Sponsor shall provide to BCBSM or its subcontractor Sponsor's current list of Program-Eligible Individuals or, at the election of BCBSM or its subcontractor, another suitable method of identifying such Program-Eligible Individuals;

Sponsor shall be solely responsible for identifying, obtaining, and providing to BCBSM or its subcontractor any Claims data that originates with Sponsor or with any third party that is not subcontracted by BCBSM in a format acceptable to BCBSM or its subcontractor.

If BCBSM receives any post-point-of-sale price concessions with respect to Health Benefits for which Claims data has previously been submitted to HHS, BCBSM or its subcontractor shall disclose the amount of such post-point-of-sale price concessions to HHS in accordance with 45 C.F.R. §149.110(b).

If Sponsor receives any post-point-of-sale price concessions with respect to Health Benefits for which Claims data has previously been provided to BCBSM or its subcontractor, Sponsor shall, in a time frame consistent with 45 C.F.R. §149.110(b), notify BCBSM or its subcontractor of such post-point-of-sale price concession. BCBSM or its subcontractor shall disclose the amount of such post-point-of-sale price concessions to HHS in accordance with 45 C.F.R. §149.110(b).

2. Duty to monitor. BCBSM shall have no obligation to Sponsor to monitor or report on these corrections. With regard to any re-adjudicated claims, BCBSM will submit updated cost data to HHS with its next Claims submission, or at such other time as may be required pursuant to 45 CFR 149.110(b).

3. Receipt of Program payments. Sponsor shall receive all Program payments from the United States directly, and

BCBSM shall have no responsibility for receiving or handling such payments.

C. No obligation to submit inaccurate or incomplete data. BCBSM or its subcontractor shall have no obligation to provide or submit data in support of Sponsor's Program application or a submission to obtain payment under the Program when, in its sole discretion, BCBSM or its Subcontractor believes that the data is or may be inaccurate or incomplete, or would otherwise not be in compliance with Program Requirements.

D. Corrections and modifications. Should BCBSM learn that any data provided by either party to this Agreement or by any third party is or was inaccurate, that Sponsor is or has received Program overpayments, or that Sponsor's Program application, reimbursement data, or any submissions to HHS fail to comply with Program Requirements, then except as specifically provided in Section 4(B)(2), BCBSM shall notify Sponsor and Sponsor shall have the sole responsibility for making necessary corrections and communications to HHS.

**5. Compensation**

Sponsor shall notify BCBSM of all Program payments immediately after receipt. Sponsor shall pay BCBSM the applicable fees as set forth in the following table for all Program payments recovered per Plan year by Sponsor:

<b>Program Payments Recovered \$ Per Plan Year</b>		<b>Fee</b>
\$ 1 To \$ 50,000		Actual Amount Recovered
\$ 50,001 To \$ 200,000		\$ 50,000

\$4,000,001 To \$5,000,000		\$425,000
\$5,000,001 Plus		\$500,000

Sponsor agrees to pay BCBSM its fees as part of Sponsor's monthly payment to BCBSM (Payment Development) after receipt of any Program payments.

Upon final reconciliation, HHS may determine an overpayment for the relevant Plan Year was made to the Sponsor and demand return of such overpayment. The Sponsor shall be financially responsible for the return of any and all overpayments made by HHS.

**6. Acknowledgement of purpose of data**

Pursuant to 45 C.F.R. §149.40(f)(4)(ii), BCBSM acknowledges that information it provides to Sponsor pursuant to this Agreement may be used by Sponsor for the purpose of obtaining federal funds.

**7. Appeals**

In the event that HHS makes an

adverse reimbursement determination, BCBSM shall not be responsible for any procedural or substantive activities associated with Sponsor's appeal rights described in 45 C.F.R. Part 149, Subpart F. BCBSM will provide Sponsor, at Sponsor's request, reasonable access to information that Sponsor may need to exercise its appeal rights, but Sponsor shall be solely responsible for submitting any request for appeal under 45 C.F.R. §149.500(e).

#### 8. Indemnification

If permitted by law, Sponsor agrees to indemnify, defend (at BCBSM's request), and hold harmless BCBSM and its agents, officers, employees, directors, and subcontractors, against any loss, cost, suit, claim, damage, liability or expense, including reasonable attorneys' fees, arising (a) out of any audit, investigation, subpoena, investigative demand, action, proceeding, liability, judgment, settlement, or inquiry by HHS or any other government agency or entity or any other person or entity relating to Sponsor's participation in the Program or (b) from any inaccurate or incomplete data provided by BCBSM, or any non-compliance with the Program's requirements by Sponsor or any third party contracted by Sponsor in connection with the Program, except in the case of (a) or (b) above to the extent such loss, cost, suit, claim, damage, liability or expense, including reasonable attorneys' fees is due to BCBSM's or its subcontractor's negligence.

#### 9. Limitation of liability

BCBSM and its agents, officers, employees, directors, and subcontractors, shall not be liable to Sponsor or Plan if HHS terminates or denies Sponsor's Program application for any reason, and BCBSM shall not be liable to Sponsor for any amounts that are not paid or reimbursed by HHS under the program or that HHS recoups or withholds for any reason. Any information provided by BCBSM should not be considered advice, legal or otherwise, regarding Sponsor's compliance with any or all Program Requirements, and BCBSM shall not be liable, in whole or in part, for Sponsor's reliance on such information. In all events, BCBSM's liability to Sponsor under this Agreement is limited to the amount of compensation paid by Sponsor under Section 5 of this Agreement. Under no circumstances shall BCBSM be liable for indirect, consequential, special, or punitive damages.

#### 10. No guarantee of Program Participation or Reimbursement

BCBSM does not represent, warrant or guarantee that Sponsor is eligible to participate in the Program, that Sponsor's application for the Program will be accepted and Certified, that Sponsor will receive any funds in connection with the Program,

or, if Sponsor does receive funds in connection with the Program, the amount of such funds.

#### 11. Standard of care, cooperation, and regulatory changes

A. Standard of care. The parties recognize that because the Program is new, the Program Requirements and procedures are not fully defined and developed, and subsequent administrative guidance or requirements from HHS may materially alter the scope of services or manner in which the services contemplated by this Agreement are to be provided. In light of these factors, BCBSM will make a good faith effort to compile and provide information in accordance with its best understanding and interpretation of the Program Requirements. Sponsor agrees that BCBSM is not acting as a fiduciary under the Employee Retirement Income Security Act ("ERISA"), common law, or otherwise with respect to its actions under the Program. BCBSM does not undertake to act, and shall not act, as a fiduciary. Any fiduciary obligations under ERISA or otherwise with respect to the Program shall be the duties of Sponsor.

In satisfying its obligations under this Agreement, BCBSM may utilize and/or obtain and/or provide data that is developed and maintained by third parties and BCBSM does not warrant or assume responsibility for the accuracy of such data.

The parties recognize that BCBSM's existing data sources, and those of its subcontractors, were not designed for purposes of the Program. Thus, BCBSM cannot and does not guarantee the accuracy of such information and data.

B. Cooperation. The parties recognize that they must mutually cooperate to perform the services required under this Agreement, and that BCBSM shall not be responsible if it is unable to complete any tasks because Sponsor, or any third party contracted by Sponsor, fails to meet its obligations, including providing required data.

C. Regulatory changes. If either party believes that subsequent guidance or requirements from HHS have materially altered the scope of services or manner in which the services contemplated by this Agreement are to be provided, or that any provision of this Agreement is inconsistent with Program Requirement, that party shall promptly notify the other party in writing, and the parties shall negotiate to amend this Agreement, or either party may elect to terminate this Agreement as provided in Section 3(B)(4) above.

#### 12. Retention of records

BCBSM and Sponsor shall maintain all records required by 45 C.F.R. §149.350(b) for a period not less than six years after the expiration of the Employment-Based Plan's plan year in which Program-reim-

bursable costs were incurred (without regard to the date the Agreement terminates), or as otherwise required by law.

**13. HIPAA compliance**

The parties acknowledge and agree that this Agreement involves the use and disclosure of HIPAA protected health information. The parties therefore agree that all uses and disclosures of HIPAA protected health information pursuant to this Agreement will be undertaken in compliance with all applicable HIPAA requirements. BCBSM shall disclose HIPAA protected health information to a third party, other than HHS or other federal government agency in connection with the Program, only upon Sponsor's written certification that such disclosure is permitted under HIPAA. BCBSM and Sponsor agree that this Agreement satisfies the requirements of 45 C.F.R. §149.35(b)(2).

BCBSM shall provide HIPAA protected health information directly to Sponsor or Sponsor's designee under Section 4 only if Sponsor certifies in writing that: (A) appropriate HIPAA business associate agreements are in effect between BCBSM, Sponsor, Sponsor's designee, and the Employment-Based Plan; (B) the plan documentation for the Employment-Based Plan permits such disclosure; and (C) the Sponsor has taken all other steps required by HIPAA in order to legally receive such protected health information.

**14. Miscellaneous provisions**

**A. Amendments.** All amendments to this Agreement must be agreed to in writing by the parties and approved by the Detroit City Council on behalf of the Sponsor.

**B. Assignment.** This Agreement may not be assigned by either party to an unrelated third party without the prior written consent of the other party. Sponsor, not BCBSM, is responsible for giving advance notice of any change in ownership to HHS pursuant to 45 C.F.R. §149.700.

**C. Subcontracting.** The parties acknowledge and agree that BCBSM may use subcontractors to perform some or all of the services described in Section 4. BCBSM will use reasonable efforts to adopt new subcontracts or modify existing subcontracts to require such subcontractors to comply with all applicable local, state, and federal laws, and to perform services consistent with the terms and conditions of this Agreement. Sponsor shall not be liable for acts of BCBSM or its subcontractors outside the scope of this Agreement. This Agreement shall not impose upon the Sponsor any obligation, liability or duty directly to any BCBSM subcontractor.

**D. Entire agreement.** This Agreement

supersedes any and all other agreements, either oral or written, between the parties with respect to the subject matter hereof, and no other agreement, statement or promise relating to the subject matter of this Agreement will be valid or binding.

**E. Governing law.** The laws of the State of Michigan will govern the validity of this Agreement, the construction of its terms, and the interpretation of the rights and duties of the parties hereunder, without giving effect to principles of conflicts of law.

**F. No Third-Party beneficiary.** Nothing in this Agreement is intended to create, or will be deemed or construed to create, any rights or remedies in any third party including, without limitation, Sponsor's active and retired employees (and their dependents).

**G. Notice.** Any notice required or desired to be given relating to this Agreement will be in writing and will be either hand delivered, or sent by U.S. mail, postage prepaid and return-receipt requested (receipt will be deemed to be five days after postmark by the U.S. Postal Service), or overnight courier addressed as follows:

**H. Severability.** If any provision of this Agreement is rendered invalid or unenforceable by any local, state, or federal law, rule, or regulation, or declared null and void by any court of competent jurisdiction, the remainder of this Agreement will remain in full force and effect.

**I. Status as independent entities.** Nothing in this Agreement is intended to create, or will be deemed or construed to create, any relationship between BCBSM and Sponsor other than that of independent entities contracting with each other

solely for the purpose of effecting the provisions of this Agreement. Neither BCBSM nor Sponsor, not any of their respective agents, employees, subcontractors, or representatives will be construed to be the agent, employee, subcontractor, or representative of the other.

J. Appendices. Each Appendix to this Agreement is made a part of this Agreement as though set forth fully herein. Unless otherwise specifically set forth in an Appendix, any provision of this Agreement that is in conflict with any provision set forth in an Appendix will take precedence and supersede the conflicting provision of the Appendix with respect to the subject matter covered by that provision of this Agreement.

K. Calculation of time. Unless otherwise specifically stated in this Agreement, the parties agree that for purposes of calculating time under this Agreement, any time period of less than ten days will be deemed to refer to business days and any time period of ten days or more will be deemed to refer to calendar days.

L. Force majeure. Neither BCBSM nor Sponsor will be liable for its failure to perform any obligation under this Agreement because of contingencies beyond its reasonable control, including but not limited to strikes (other than strikes within such party's own labor force), riots, war, fire, acts of God, disruption or failure of electronic or mechanical equipment or communication lines, telephone or other interconnections, unauthorized access, theft, or acts in compliance with any law or government regulation. If a party's failure to perform continues for more than twenty business days, the other party will have the right to terminate this Agreement immediately.

M. Headings. The headings in this Agreement have been included solely for reference and are to have no force or effect in interpreting its provisions.

N. Counterparts. This Agreement may be executed in counterparts, any of which need not contain the signature of more than one party, but all of which taken together, will be one and the same agreement.

O. Survival. the provisions of the term and termination, indemnification, limitation of liability, retention of records, HIPAA compliance, and miscellaneous provisions will survive the expiration or termination of the Agreement for any reason.

P. Validity. This Agreement is not valid or binding upon Sponsor until approved by resolution of the Detroit City Council.

**Law Department**

April 6, 2011

Honorable City Council:

Re: Petition Number 615 — Report and Recommendation for Disapproval of the Issuance of a New Entertainment Permit By the Michigan Liquor Control Commission for the Detroit Institute of Arts in Conjunction with a "Class C License" with Dance Permit at 5200 Woodward.

**BACKGROUND**

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that, prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, entertainment permit, or a combination dance and entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice, Request ID Number

535557, which has been designated by the City Clerk as Petition Number 615. This Local Approval Notice requests City Council approval of the issuance of a new entertainment permit for the Detroit Institute of Arts ("Permit Applicant") to be held in conjunction with a "Class C License" with Dance Permit at 5200 Woodward. Section 916(1) of the Michigan Liquor Control Code, being MCL 436.1916(1), provides that an on-premises licensee shall not allow monologues, dialogues, motion pictures, still slides, closed circuit television, contests, or other performances for public viewing on the licensed premises unless the licensee has an entertainment permit issued by the MLCC.

The Buildings, Safety Engineering, and Environmental Department ("BSE&E") reports that 5200 Woodward Avenue is zoned B4 (General Business District) and that current legal, permitted uses of the property include 'Cabaret A with a Class C License.' A Certificate of Compliance was issued on October 7, 2010. Therefore, the use of the location for entertainment is permitted subject to compliance with all relevant state codes and City ordinances.

Pursuant to Section 5-7-21 of the 1984 Detroit City Code, a Group "A" Cabaret business license is required for any establishment that sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without patron dancing.

#### **APPROVAL CRITERIA**

The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits ("Procedures and Criteria") became effective upon publication on August 25, 2009. Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant's request for approval of the issuance of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Pursuant to Part V of the Procedures and Criteria, the designated MLCC Permit Coordinator ("Coordinator") has submitted a report to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria. A copy of the Coordinator's report has been mailed to the Permit Applicant.

A review of the Coordinator's report indicates that the Permit Applicant has met the approval criteria contained in Part VI of the Procedures and Criteria, except for Approval Criteria Nos. 9 and 11. Specifically, Approval Criterion No. 9 of the Procedures and Criteria pertains to unpaid fees or uncured violations under

the purview of BSE&E. The Coordinator's report includes a report from BSE&E that indicates that there are unpaid inspection fees and uncured violations of the Michigan Electrical Code concerning the licensed premises. An updated report from BSE&E, dated March 23, 2011, indicates that there are unpaid license fees and that there are uncured violations of the Michigan Electrical Code for the licensed premises.

Further, Approval Criterion No. 11 of the Procedures and Criteria pertains to unpaid fees or uncured violations under the purview of the Detroit Fire Department. The Coordinator's report states that there are delinquent inspection fees for the location.

#### **RECOMMENDATION**

Due to the fact that the Coordinator's report submitted for this request for approval indicates that the Permit Applicant has failed to meet two (2) of the approved criteria of the Procedures and Criteria, attached is a proposed resolution disapproving the issuance of a new entertainment permit by the MLCC for the Detroit Institute of Arts for 5200 Woodward Avenue. Further, the Law Department recommends that the Resolution be moved to the Committee of the Whole for its action.

If there are any questions or concerns, please do not hesitate to contact our office.

#### **Resolution for the Disapproval of the Issuance of a New Michigan Liquor Control Commission Entertainment Permit for the Detroit Institute of Arts for 5200 Woodward Avenue**

By Council Member Jenkins:

Whereas, Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires, that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance and entertainment permit, a location licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises are located;

Whereas, Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice, Request ID Number 535557, which has been designated by the City Clerk as Petition No. 615;

Whereas, This Local Approval Notice requests City Council approval of the issuance of a new entertainment permit for the Detroit Institute of Arts ("Permit Applicant") to be held in conjunction with a "Class C License" with Dance Permit at 5200 Woodward;

Whereas, Section 916(1) of the Michigan Liquor Control Code, being MCL 436.1916(1), provides that an on-premises licensee shall not allow monologues, dialogues, motion pictures, still slides, closed circuit television, contests, or other performances for public viewing on the licensed premises unless the licensee has an entertainment permit issued by the MLCC;

Whereas, The Buildings, Safety Engineering, and Environmental Department ("BSE&E") reports that 5200 Woodward Avenue is zoned B4 (General Business District) and that current legal, permitted uses of the property include 'Cabaret A with a Class C License';

Whereas, A Certificate of Compliance was issued on October 7, 2010 and, therefore, the use of the location for entertainment is permitted subject to compliance with all relevant state codes and City ordinances;

Whereas, Pursuant to Section 5-7-21 of the 1984 Detroit City Code, a Group "A" Cabaret business license is required for any establishment that sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without patron dancing;

Whereas, The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits ("Procedures and Criteria") became effective upon publication on August 25, 2009;

Whereas, Part VI of the Procedures and Criteria states that City Council shall grant a Permit Applicant's request for approval of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant;

Whereas, Pursuant to Part V of the Procedures and Criteria, the designated MLCC Permit Coordinator ("Coordinator") has submitted a report to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria;

Whereas, A copy of the Coordinator's report has been provided to the Permit Applicant;

Whereas, The Coordinator's report indicates that the Permit Applicant has failed to meet two (2) of the approval criteria contained in Part VI of the Procedures and Criteria, as follows:

(1) Approval Criterion No. 9 of the Procedures and Criteria pertains to unpaid fees or uncured violations under the purview of BSE&E. The Coordinator's report includes a report from BSE&E that indicates that there are unpaid inspection fees and uncured violations of the Michigan Electrical Code at the licensed location. Further, an updated report from BSE&E, dated March 23, 2011, indicates

that there are unpaid license fees and that there are uncured violations of the Michigan Electrical Code for the licensed premises; and

(2) Approval Criterion No. 11 of the Procedures and Criteria pertains to unpaid fees or uncured violations under the purview of the Detroit Fire Department. The Coordinator's report indicates states that there are delinquent inspection fees related to the licensed premises; and

Whereas, The Law Department has submitted this proposed resolution to the City Council for the disapproval of the issuance of a new entertainment permit by the MLCC for the Detroit Institute of Arts for 5200 Woodward Avenue.

Now Therefore It is Resolved, Pursuant to Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), and in accordance with the Procedures and Criteria adopted by this Body effective August 25, 2009, the Detroit City Council disapproves the issuance of a new entertainment permit for the Detroit Institute of Arts at 5200 Woodward Avenue; and

It Is Further Resolved, That a copy of this Resolution, and the City Clerk's certification of this disapproval of MLCC Request ID Number 535557, be forwarded to the Michigan Department of Labor and Economic Growth, Liquor Control Commission, 7150 Harris Drive, P.O. Box 30005, Lansing, MI 48909-7575, the Detroit Police Department, Liquor License Unit, 7310 Woodward, Detroit, MI 48202, and the Buildings, Safety Engineering, and Environmental Department Business License Center, 105 Coleman A. Young Municipal Center, Detroit, MI 48226.

Honorable City Council:

Re: An ordinance to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-181 to establish the Willis-Selden Local Historic District and to define the elements of design for the district.

Attached hereto is an ordinance, approved as to form by the Corporation Counsel, for the establishment of the Willis-Selden Local Historic District.

We request that the ordinance be referred to the Planning and Economic Development standing committee for consideration. It is our hope that the ordinance would be introduced prior to Council's recess so that a public hearing can be scheduled for early September. We understand from the State Historic Preservation Office that any requests for the remaining state historic credits need

to be requested by September 30, approval of the ordinance would be needed prior to application for those credits.

Respectfully submitted,  
MARCELL R. TODD, JR.

Director

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* Single-family or small multi-unit residential structures range in height from one and one-half (1-1/2) to two and one-half (2-1/2) stories in height. Apartment buildings typically range in height from two (2) stories to four (4) stories, often on high basements; a majority of these buildings are three (3) stories in height with high basements. The apartment building at 70 West Alexandrine Avenue is eight stories in height. Commercial and other building types typically range from one (1) to two (2) stories in height. The building at 444 West Willis Avenue, commonly known as the Willys-Overland Building, is historically four (4) stories in height and features a modern, set back, fifth (5th) story addition. The building at 3933 Woodward Avenue, commonly known as the Garden Theater, is three (3) stories in height. The building at 3901 Cass Avenue, commonly known as Cass Avenue Methodist Church, features a sanctuary that is a tall, single story in height, a tower that is approximately one and one-half (1-1/2) times as tall as the sanctuary, and a two (2) story addition.

(2) *Proportion of Buildings' Front Façades.* Front façades of single-family or small multi-unit residential structures are typically as tall as wide or slightly taller

than wide. Front façades of apartment buildings are commonly as tall as wide or slightly taller than wide, with the exception of broader buildings at 3761 Second Avenue, commonly known as the Coronado Apartments, 711 West Alexandrine Avenue, 495-497 West Willis Avenue, and 477 West Alexandrine Avenue, which are significantly wider than tall. Front façades of single-story commercial buildings are significantly wider than tall, while multi-story commercial buildings and other non-residential buildings tend to be slightly wider than tall. Buildings often occupy most or all of deep lots, resulting in side elevations of buildings that are often substantially wider than tall.

(3) *Proportion of Openings Within the Façades.* Openings typically amount to between twenty percent (20%) and thirty-five percent (35%) of the front façade. Commercial buildings often feature expansive storefront windows on their first (1st) floors, though in many cases these windows have been covered with boards or closed in with brick or concrete block. Sash windows, taller than wide, predominate on all building types. On apartment buildings, sash windows are sometimes arranged in groupings which, together, are square or wider than tall. A significant minority of buildings feature arched, mulioned, semicircular, casement, or dormer windows appropriate to their respective architectural styles. Upper sashes and transoms are occasionally subdivided into smaller panes. Casement windows are usually subdivided into smaller panes. Door openings are typically slightly larger in scale than window openings. Primary entrance openings are usually centered on the façades of commercial and apartment buildings, but usually off-center on the façades of smaller residential buildings.

(4) *Rhythm of Solids to Voids in Front Façades.* Despite a variety of building types, the overall impression is one of regular, repetitive openings arranged horizontally within façades. A repetitive flow of storefront openings, where they exist, creates a rhythm along commercial frontage. Smaller residential buildings as well as the building at 3901 Cass Avenue, commonly known as Cass Avenue Methodist Church, display more varied, often asymmetrical, arrangements of openings, but the overall impression is still one of regular, repetitive openings.

(5) *Rhythm of Spacing of Buildings on Streets.* Rhythm of spacing on streets is generally determined by setbacks from side lot lines. The overall character of the district is one of densely clustered, yet visually distinct, structures separated by narrow setbacks. Commercial buildings frequently abut adjacent buildings, typically featured no setbacks from side lot lines,

especially on Woodward Avenue where evenly spaced storefronts create a regular spacing of buildings. There is a general regularity in the widths of subdivision lots from one block to another, contributing to a regular rhythm of spacing of buildings on streets.

(6) *Rhythm of Entrance and/or Porch Projections.* Porches on smaller residential buildings typically project while those on other types of buildings usually do not. On residential buildings only, entrances are often located several steps above grade to accommodate high basements. Doorways on smaller residential buildings are often set beneath gable-roofed or arched openings, while doorways on other buildings are typically centered on their façades. A regular rhythm of entrances is created by a row of similar commercial buildings along Woodward Avenue.

(7) *Relationship of Materials.* A majority of buildings are faced with brick and feature stone or cast stone trim. Single-family residential buildings are generally faced with brick and feature wooden brackets, bay windows, vergeboards, timbering, porch supports, dentils, entablature, or other classically inspired elements, and other details depending on style. A small number of single-family residential buildings feature wood clapboard siding. Stone or stone facing defines the foundations of buildings at 643-647 and 748 West Alexandrine Avenue, 481 Brainard Avenue, 3957 and 4107 Cass Avenue, and 500 West Willis Avenue, the lower levels of buildings at 4120 Cass Avenue, 3761 Second Avenue, 495-497 West Willis Avenue, and the entire primary façade of buildings at 624 and 627 West Alexandrine Avenue and 3977 Cass Avenue. The buildings at 3901 Cass Avenue, commonly known as Cass Avenue Methodist Church, 3900 and 3977 Second Avenue, and 4100 Third Avenue are composed primarily of stone. Sash windows are historically wood but have, in many cases, been replaced with windows of more modern materials. Stone is used for window sills on a majority of buildings within the district. While roofs within the district are generally flat and not visible, pitched roofs typically feature visible slate or asphalt shingles. Buildings at 686 Selden and 711 West Alexandrine Avenue feature clay tile roofs. The building at 3901 Cass Avenue, commonly known as Cass Avenue Methodist Church, features a copper roof on its tower.

(8) *Relationship of Textures.* On a majority of buildings within the district, the major textural effect is that of brick with mortar joints juxtaposed with cast stone or limestone trim. Patterned brickwork is used to create subtle detail on commercial and apartment buildings, such as

spandrels and rectangular panels, and more pronounced textural interest where it exists on the upper stories of buildings, such as at 461 West Alexandrine Avenue, and in an arcaded cornice on the building at 711 West Alexandrine Avenue. Where they exist, detailed wooden vergeboards, gables, brackets, and dormers create considerable textural interest on all single-family residential buildings in the district. Rough-cut stone with thick mortar joints creates considerable textural interest on buildings where it exists, while other buildings feature smooth stone with thin mortar joints. In general, asphalt shingle roofs do not contribute to textural interest.

(9) *Relationship of Colors.* Natural brick colors in shades of brown, red, and buff predominate on wall surfaces, while natural stone colors in shades of gray, red, and brown also exist. Although most roofs are flat and therefore not visible, sloped roofs typically feature gray asphalt, while some feature red or green clay tile or slate in contrasting colors of gray, red, or green. Wooden architectural details are frequently painted in bold colors, appropriate to the architectural style of the buildings, which contrast markedly with brick facing. Brick apartment buildings are generally unpainted, with gray stone trim contrasting with brown or buff brickwork. Brick on commercial buildings is frequently painted in shades of yellow or orange. The original colors of any building, as determined by professional analysis, are always acceptable for that building and may provide guidance for similar buildings.

(10) *Relationship of Architectural Details.* Buildings in the district exemplify a broad range of architectural styles, and their architectural details relate to their style. Pre-1880 residential buildings, as well as commercial buildings on Woodward Avenue, are Italianate in style. Single-family residential buildings are often Queen Anne or Stick/Eastlake in style. Romanesque Revival structures include the building at 3977 Second Avenue, commonly known as the Campbell-Symington House, and the building at 3901 Cass Avenue, commonly known as the Cass Avenue Methodist Church. Larger apartment buildings include the Spanish Medieval building at 624 West Alexandrine Avenue, commonly known as the El Moore Flats, and several buildings in Beaux Arts and Colonial Revival styles. Also represented are the Jacobethan Revival, Craftsman, Spanish Colonial, Late Gothic, and Neo-Georgian styles. Buildings range from vernacular to high style in appearance, with the level of architectural detail varying greatly from one building to the next.

(11) *Relationship of Roof Shapes.* Most apartment buildings and all nonresidential buildings have flat roofs that can-

not be seen from the ground, with the exception of the building at 3901 Cass Avenue, commonly known as Cass Avenue Methodist Church, with prominent cross gables defining its nave and transept and a hip roof defining a two-story addition. Single-family residential buildings feature multiple roof shapes, with steps, intersecting gables, dormers, towers, and tall chimneys creating dramatic silhouettes. Flat-roofed apartment buildings often feature stepped or triangular parapet walls, occasionally with crenellation or balustrades, which add interest to the building's roofline.

(12) *Walls of Continuity.* Setbacks of residential buildings tend to vary slightly from one buildings to the next, but generally create a wall of continuity on all streets in the district, except where building demolition has created vacant lots. The continuous façades of commercial buildings, where they exist in rows, create significant walls of continuity in the district. Fencing, often modern steel units that resemble historic cast or wrought iron fencing, exists at the front lot line of many properties and suggests an additional wall of continuity. Mature trees and public lighting fixtures generally do not contribute to a wall of continuity due to their irregular placement throughout the district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* The overall impression is that east-west streetscapes are abundantly planted whereas north-south streetscapes are not. Typical treatment of individual residential properties is a shallow, flat front lawn in grass turf, subdivided by a straight concrete walk leading to the front entrance. Alleys provide access to the rear of a majority of lots in the district; a small number of these lots contain garages in the rear accessed via the alley. Trees, hedges, and other landscaping features are irregularly spaced. Trees in the front yards of buildings vary in size, age, and species. Most commercial buildings, and a smaller number of apartment buildings, are built up to the front lot line. Public sidewalks run alongside all streets in the district. Curbs, while historically stone, have been replaced with concrete in a majority of the district. Public lighting is generally of the modern, steel, pole-mounted variety, though wrought iron-style light fixtures exist on Woodward Avenue.

(14) *Relationship of Open Space to Structures.* Front and side yards range from shallow to nonexistent, while most smaller residential buildings feature rear yards. Other than public rights-of-way, large areas of open space exist only where they have been created by building demolition; sometimes these spaces serve as parking lots or are maintained as open lawns.

(15) *Scale of Façades and Façade Elements.* Single-family residential buildings are moderate to large in scale relative to typical buildings from the period in which they were constructed. Apartment buildings range from small to large in scale, with a small number of buildings, such as the building at 70 West Alexandrine and the building at 3751-73 Second Avenue, commonly known as the Coronado Apartments, being significantly larger in scale than the others. The building at 444 West Willis Avenue, commonly known as the Willys-Overland building, is also large in scale. Elements within the façades are generally small to medium in scale.

(16) *Directional Expression of Front Elevations.* Façades of single-family residential structures are generally vertical in directional expression due to tall window and door openings and peaked rooflines. Apartment buildings generally range from neutral to slightly vertical in directional expression, though a smaller number are horizontal in directional expression. Commercial buildings, especially single-story ones, are generally horizontal in directional expression due to broad storefront windows and, where they exist, horizontal cornices.

(17) *Rhythm of Building Setbacks.* A degree of irregularity is introduced by varying setbacks of front façades; smaller residential buildings tend to be set several feet back from the public sidewalk, while larger apartment buildings and other buildings often occupy their entire lots. While setbacks may vary slightly from one building to the next the overall impression is one of a consistent rhythm of building setbacks. Where building demolition has occurred, the original rhythmic progression of buildings has been disrupted.

(18) *Relationship of Lot Coverages.* Lot coverage within the district are generally high, but vary based on building type. Single-family residential buildings and smaller apartment buildings often occupy between twenty percent (20%) and forty percent (40%) of their lots, with much of the remaining space being devoted to rear yards. Other building types range from fifty percent (50%) to one hundred percent (100%) lot coverage. Large buildings may have light courts or central courtyard spaces. Commercial buildings, in particular, often occupy a large percentage of their lots.

(19) *Degree of Complexity within the Façades.* The façades within the district range from simple to complex, depending on style. Overall, front façades tend to be simple in their massing and mostly regular in their fenestration, though a variety of window and door shapes, materials, architectural elements, and details of individual buildings increase the overall level of complexity of the district.

(20) Orientation, Vistas, Overviews. Buildings generally face the streets and are entered from the front façades by a single or double doorway. The tallest buildings within the district, such as the building at 70 West Alexandrine Avenue, the building at 3901 Cass Avenue, commonly known as Cass Avenue Methodist Church, the building at 3761 Second Avenue, commonly known as the Coronado Apartments, and the building at 444 West Willis Avenue, commonly known as the Willys-Overland Building, constitute landmarks that are clearly visible from several blocks away. The buildings on Woodward Avenue, visible from a considerable distance up and down the street, are a significant component of a broader streetscape.

(21) Symmetric or Asymmetric Appearance. The appearance of front façades in the district is, for the most part, symmetrical. Single-family residential buildings tend to display a modest degree of asymmetry in massing and architectural detail.

(22) General Environmental Character. The general character of the district is that of a medium-density, mixed-use, urban neighborhood of small to large apartment buildings interspersed with other building types. The district maintains a sense of vitality as a result of its mixture of uses and the correspondingly diverse physical appearance of its buildings.

**Section 2.** All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of City Council Members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

Re: An ordinance to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-182 to establish the Historic Detroit Financial District and to define the elements of design for the district.

Attached hereto is an ordinance, approved as to form by the Corporation Counsel, for the establishment of the Historic Detroit Financial District.

We request that the ordinance be referred to the Planning and Economic Development standing committee for consideration. It is our hope that the ordinance would be introduced prior to Council's recess so that a public hearing can be scheduled for early September. The State has informed the petitioner that any requests for the remaining state historic credits need to be requested by September 30th; approval of the ordinance would be needed prior to application for those credits.

Respectfully submitted,  
 MARCELL R. TODD, JR.

By Council Member Jenkins:

**AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-182 to establish the Historic Detroit Financial District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 25, Article II, of the 1984 Detroit City Code be amended by adding Section 25-2-182 to read as follows:

**Sec. 25-2-182. Historic Detroit Financial District.**

(A) A historic district to be known as the Historic Detroit Financial District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Historic Detroit Financial District are as shown on the map on file in the office of the City Clerk, and are as follows:

Beginning at the intersection of the centerline of Woodward Avenue and the centerline of Jefferson Avenue to the centerline of Congress Street to the center-

line of Bates Street to the centerline of Cadillac Square to the centerline of Woodward Avenue to Fort Street to the centerline of Griswold Street to the centerline of Lafayette Boulevard to the westerly line of Lot 17 (extended) of "Re-subdivision of Lot 14." Subdivision to the centerline of the alley south of and parallel to Lafayette Boulevard to the centerline of Shelby Street to the centerline of Lafayette Boulevard to the centerline of Cass Avenue to the centerline of the alley south of and parallel to Lafayette Boulevard to the centerline of Washington Boulevard to the centerline of Larned Street to the centerline of Shelby Street to the centerline of the alley south of and parallel to Congress Street to the centerline of Griswold Street to a line (extended) 50 feet N of the N line of Jefferson Avenue to a line 108 feet W of the W line of Griswold Street to the centerline of Jefferson Avenue to the point of beginning.

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* The thirty-six buildings in the district range in height from two (2) to forty seven (47) stories tall; the average being twelve (12) stories tall. The row of four (4) to five (5) story Victorian buildings on the east side of Woodward Avenue is sandwiched between single, taller buildings on each of its two corners. The prominent skyline-defining buildings on Griswold Street range in height from eighteen (18) to forty-seven (47) stories tall; buildings in the blocks between Shelby Street and Washington Boulevard are ten (10) or fewer stories, with the exception of the Detroit Bank and Trust Tower at 211 West Fort Street, which is twenty-eight (28) stories. In general, there is little uniformity of building heights within the district.

(2) *Proportion of Building's Front Façade.* The proportions of individual front façades vary greatly within the district. Buildings over ten (10) stories tall are significantly taller than wide, and are usually located on corners of blocks or occupy their entire block. Most other buildings in the district are also taller than wide, with notable exceptions of several buildings facing Fort Street, the Detroit Fire Department Headquarters at 250 East Larned Avenue, and a few smaller buildings on Shelby Street, which are wider than tall or proportionally neutral. The non-contributing building at 501 Woodward Avenue and the building at 611 Woodward Avenue are significantly wider than tall. Buildings with front-facing light courts, such as the Dime Building at 719 Griswold Street, appear to have two tall towers projecting upward from a single, multi-story base. The façades of the neoclassical style First National Building at 660 Woodward Avenue follow the irregular footprint of its site, and because of its

substantial height, provide a backdrop to the small-scaled buildings adjacent to it on Woodward Avenue. Skyscraper buildings of the Art Deco style have multiple setbacks in their wall surfaces as the buildings rise, with faceted and decorative results. The Detroit Free Press Building at 321 West Lafayette Boulevard is composed of a center tower with two lower wings, neutralizing its proportions. Tall buildings of the International style tend to rise as a single slab. Where buildings that are individually taller than wide either share a party wall or abut each other, they may collectively form a row that is wider than tall, particularly on the east side of Woodward Avenue.

(3) *Proportion of Openings Within the Façades.* The buildings within the Historic Detroit Financial District are each composed of approximately thirty-five percent (35%) to sixty percent (60%) openings in their front façades. Shapes and sizes of openings generally depend on the style and age of the buildings. Entrances are often centered prominently on the front façades, with revolving doors set back in an arched, covered area of portico. Large openings above the entrance openings, ground floors, and mezzanine levels in the base of the buildings frequently contain subdivided windows rising up through multiple stories. Plate glass storefront and display windows on the ground floors of commercial buildings are commonplace. Above the ornate bases of Neoclassical and Art Deco buildings and simpler Victorian buildings are rows of double-hung sash windows that are twice as tall as wide and are often arranged in pairs or triples, sometimes divided vertically by spandrels. Subdivided glazing is often situated within large, ornate arched, square or rectangular openings in the attic stories. Replacement windows that are fitted to existing openings are common in the district. Some International style buildings with curtain wall construction feature undivided faces of fixed pane glass, or individualized treatments, such as hexagonal shaped window glass in precast concrete frames of One Woodward Avenue.

(4) *Rhythm of Solids to Voids in the Front Façades.* Most buildings in the district are of steel-frame construction, which creates a structure for which windows are inserted in a regular arrangement of columns and rows between the base floor and the attic. The regular rhythm of windows arranged one over the other in a grid pattern prevails throughout the district. The base and attic stories of buildings are varied in architectural treatment, but may feature regular rhythms of arched, square or rectangular openings on first and attic stories. The Detroit Fire Department Headquarters at 250 West Larned Street features double firehouse doors within arcaded openings on its

Washington Boulevard and West Larned Street Façades. The International style building at 611 Woodward Avenue features a checkerboard pattern of window placement, while the Federal Reserve Bank Annex at 160 West Fort Street features alternating horizontal bands of glass and marble panels supported by a stainless steel grid above its all-glass tall first story. In general, the district displays a variety of regularly arranged fenestration patterns.

(5) *Rhythm of Spacing of Buildings on Streets.* Rhythm of spacing on streets is generally determined by setbacks from the side lot lines. Buildings consistently about each other throughout the district; public rights-of-ways separates stretches of adjacent buildings when they occupy partial or entire blocks. Where there are parking lots as a result of building demolition, the original rhythm is broken.

(6) *Rhythm of Entrances and/or Porch Projections.* Most primary entrances are prominently centered on their front façades, especially on the classically derived buildings, and are commonly recessed within single or multiple ornamental openings. Some buildings have colonnades or monumental porticos, with their entrances set behind. International style buildings often have entire base stories recessed behind a colonnade of piers. The Guardian Building at 500 Griswold Street has its main entrance at its northwest corner, and Victorian commercial buildings along Woodward tend to have entrances to the sides of storefronts. Some corner buildings have corner entrances. Most entrances are at grade, with the exceptions of the buildings at 611 Woodward Avenue and the west elevation of 211 West Fort Street, which each feature a set of steps that rise with the slope of their sites, and United States District Court at 231 West Lafayette Boulevard, which sits on a high basement and has steps leading to its main entrance.

(7) *Relationship of Materials.* A great variety of building materials exist throughout the district, with concentrations of finished, pressed or glazed brick, limestone, Mankato stone, terra cotta, marble; cast and porcelain enamel and glass facing primary façades. Base stories are commonly faced or partially faced in granite. Materials utilized for window surrounds and frames are cast concrete, steel, aluminum, bronze and wood. Architectural embellishments tend to be in cast and carved stone, glazed terra cotta, Pewabic tile, and red sandstone. Common brick appears on side elevations that were not intended to be visible. Bronze grills, metal fire escapes, and aluminum and steel framing elements are also visible. In general, the district is rich in its varieties and relationships of materials.

(8) *Relationship of Textures.* The

smooth surfaces of glazed or painted brick, glazed terra cotta, polished marble, polished granite, and large expanses of glass contrast with the matte finishes of limestone and unpainted brick with mortar joints. Where the basis of buildings are rusticated, they contrast with the smoother wall surfaces above. Repetitive pilasters and ornamental detail in masonry, terra cotta or metal, primarily on belt courses and cornices, and the fluting of columns, contribute significantly to textural interest. Subdivided window sashes and treatments also contribute to textural interest, as do receding windows and wall planes, resulting in textural effects created by light and shade. Where those International style buildings have glass basis, a smooth, transparent textural effect results. In general, the district is extremely rich in textural relationships.

(9) *Relationship of Colors.* Major materials or light colors, such as beige, white, and cream, dominate the district. The natural brick colors of red, orange, and buff are also contrasted with beige or light gray trim elements and details. Painted brick, where it exists on the east side of Woodward Avenue, is in dark red and cream. Granite bases, where they exist, are black, red or gray. Window surrounds and sashes are shades of green, black, cream or white. Window and curtain wall glass is either colorless or tinted in shades of light green, black or gray. Stainless steel and aluminum are silver in tone; grills and grates are green or black. The Guardian Building at 501 Griswold Street is a historic landmark featuring orange brick and colored tile. Light poles tend to be deep green, black or gray. Fire escapes, where they exist, are generally painted black. The original colors of any building, as determined by professional analysis, are always acceptable for that building and may provide guidance for similar buildings.

(10) *Relationship of Architectural Details.* The styles of the buildings comprising the Historic Detroit Financial District range from Victorian commercial to International style; their architectural elements and details relate to their styles. Entrance bays, architraves, base stories, window frames, spandrels and cornices or attics are areas of the façades where architectural detail is concentrated. The small scale Victorian commercial buildings, concentrated on the east side of Woodward, have modified storefronts on their first floors and have lost their cornices and window hoods, greatly simplifying their original appearance. Approximately half of the buildings in the district are derived from classical styles, with an abundance of Neoclassical style buildings, a style well suited to judicial and financial institutions. Those classically inspired buildings are articulated as a

base (bottom), shaft (mid-section) and attic (top). The base, often multi-storied, is heavily ornamented around the main entrance with columns, arches, and architectural sculpture. Several buildings have rusticated stone bases, and some display colossal porticos. The shafts contain regular fenestration with ornamented spandrels, and their attics, including their cornices, are heavily ornamented. Art Deco commercial buildings are concentrated on Griswold Street, and in addition to their embellished entrances, feature setbacks at upper floor levels that are embellished, resulting in dramatic silhouettes that are part of their design. These Art Deco buildings also exhibit decorative tile work, mosaics, and large-scale architectural sculpture. International style buildings of the 1950s and early 1960s are concentrated on the east side of Woodward Avenue through to Griswold Street, and intermingled with classically inspired buildings on West Fort Street. They feature transparent first stories of glass that are visible to the interior, and are set in back of piers supporting the upper stories. Flagpole basis, lighting, and street names integrated with the larger buildings are treated decoratively. In general, the architectural detail on buildings in the district is very rich.

(11) *Relationship of Roof Shapes.* All of the buildings have flat roofs that cannot be seen from the ground. Utility penthouses and/or equipment enclosures are sometimes visible above the roofline, and are sometimes ornamentally treated.

(12) *Walls of Continuity.* Walls of continuity within the district are primarily created by the adjacent buildings with uniform elements, such as setbacks, materials, and styles. Except where broken by vacant lots, the district has a very high degree of continuity. Secondary wall of continuity are created by evenly spaced lighting fixtures, sidewalks and rows of trees along the sidewalks.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Throughout the district, sidewalks are concrete and roadbeds are asphalt, with the primary exception of brick-paved areas around Campus Martius at the northeast corner of the district. Street furniture is abundant throughout the district; planter boxes for trees are positioned along the public sidewalk on the west side of Woodward Avenue and the north side of West Fort Street, and in-ground trees line the east side of Griswold Street within stylized metal grates reflecting the geometric designs of the Guardian Building at 500 Griswold Street. Wall-mounted lighting fixtures are often integrated with the designs of the buildings and are situated at the tops of first story pilasters to illuminate the pedestrian way. Also sometimes integrated with the taller

buildings is lighting at the upper extremities that identify the buildings from afar, such as the flashing red globe of the Penobscot Building at 645 Griswold Street, the reproduction street lighting along Woodward Avenue consists of a tall steel ornamental, fluted pole carrying a double pendent and lanterns. On Griswold Street, the lighting consists of old metal fluted poles with more recent lanterns. Old ornamental poles exist along Washington Boulevard south of Michigan Avenue; the modern steel pole mounted variety is seen elsewhere. Some buildings have modern spotlights attached to light posts directed at their façade. Slender black, metal kiosks with directional information and a map are strategically placed at some prominent corners. Surface parking lots are few and provide intrusions to the otherwise dense concentration of buildings where they exist. Concrete columns supporting the Detroit People Mover are situated in the public rights-of-way on West Larned Street as well as Cass Avenue. A bronze sculpture is positioned at the plaza in front of 1 Woodward Avenue; another is positioned at the extreme southeast boundary of the district at Woodward Avenue and Jefferson Avenue; another is positioned in the space between 211 and 201 West Fort Street. A plaza with raised planting beds exists in front of the Annex of the Federal Reserve Bank at 160 West Fort Street. The curbed, landscaped median on Woodward Avenue identifies the roadway as Detroit's major thoroughfare.

(14) *Relationship of Open Space to Structures.* In general, the financial district is densely built-up; open space results from interruptions by public streets and alleys, and by a few intrusive surface parking lots. Awnings and canopies commonly extend into the public rights of way throughout the district. Signage bearing the name of the businesses of the Victorian buildings on the east side of Woodward Avenue is situated in a frieze above the first story. Elsewhere in the district the historic name of the building is commonly integrated with its original design while the names of current occupants are displayed on vertically oriented signs hanging at the corners of the buildings above the first story. The building at 611 Woodward Avenue bears its name of the roof penthouse screen. Skywalks connect buildings when their ownership is or was related, connecting One Woodward Avenue with 500 Woodward Avenue, commonly known as the Guardian Building; 151 West Fort Street, commonly known as the State Savings Bank Building, with 607 West Shelby Street; and 201 West Fort Street with 211 West Fort Street. Wheelchair ramps provide access to an entrance on the Larned Street elevation of the Detroit Fire

Department Headquarters at 250 West Larned Street and to an entrance on the Lafayette Boulevard elevation of the Federal Courthouse at 231 West Lafayette Boulevard.

(15) *Scale of Façades and Façade Elements.* The façades range from small in scale to monumental. Small-and-medium scaled buildings that contribute to the continuous streetscapes contrast with the large scale of skyscrapers that define Detroit's skyline. Elements and details are often monumental, such as porticos, colonnades, architectural sculpture, and large openings, and are meant to provide a grand presence when seen from up front and afar.

(16) *Directional Expression of Front Elevation.* The directional expression of individual front façades varies throughout the district, but generally, the expression of buildings on Woodward Avenue tends to be horizontal, with the exception of One Woodward Avenue and the First National Bank Building at 660 Woodward Avenue, which are vertical. On Griswold Street, where several prominent Art Deco skyscrapers exist, the overall directional expression is vertical. However, where buildings share party walls or one another, or are separated by narrow alleyways, the horizontal, or pedestrian, nature of the streetscapes is emphasized.

(17) *Rhythm of Building Setbacks.* Most buildings occupy their entire building parcels, resulting in uniformity of building setbacks. On the west side of Woodward Avenue, the buildings are set back, allowing for a generous public sidewalk with amenities. The Detroit Fire Department Headquarters at 250 West Larned Street is set back slightly on its two visible elevations to allow the fire trucks space to exit. Wherever a newer building is connected to an older building, particularly on West Fort Street, the newer International style buildings are set back and landscaped plazas are created.

(18) *Relationship of Lot Coverages.* Lot coverage by the buildings in the district is generally one hundred percent (100%), as the vast majority of buildings occupy their entire lots. In the cases where a public outdoor amenity exists, its features are integrated with the design of the building.

(19) *Degree of Complexity Within the Façades.* The district contains façades with various degrees of complexity, depending on style. The Victorian commercial and Neoclassical buildings are straightforward in their massing, fenestration, and architectural detail. The Art Deco skyscrapers appear more complex in their details and ornamentation, but especially in their massing as the setbacks of the upper stories display different massing and heightened detail. Modern buildings may appear straightforward in their design

but are complex in their geometric forms, use of materials, and subtle detail.

(20) *Orientation, Vistas, Overviews.* The Historic Detroit Financial District is a densely built up district of commercial and governmental buildings in Detroit's Central Business District on lower Woodward Avenue and west of Woodward Avenue. Its proximity to Detroit's Civic Center, the Detroit River, the Washington Boulevard and Capitol Park Historic Districts, Cadillac Square, and Campus Martius provide dramatic views and vistas. Detroit's skyline is composed of the silhouettes of the tallest buildings in the district, while West Congress Street provides a cavernous quality to a relatively narrow street.

(21) *Symmetric or Asymmetric Appearance.* While individual buildings display a high degree of symmetry in their major façades, the district on the whole is diverse in its array of quality building designs.

(22) *General Environmental Character.* The Historic Detroit Financial District consists of a dense cluster of major, architect-designed commercial buildings in an eight-block, grid-plan section of downtown Detroit just north of Hart Plaza and the Detroit River. Its historical importance is emphasized by its number of iconic buildings that make up Detroit's skyline, and its smaller buildings that result in a walkable downtown. The Detroit Department of Transportation-operated bus system and the People Mover provide transportation in and around the district providing ease of access to major sporting events, conventions, and restaurants, in addition to the historic buildings that are destination in and of themselves.

**Section 2.** All ordinances or parts of ordinances, or resolutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of City Council members serving, it shall be given immediate effect and shall become effective upon publication in accordance with Section 4-116 of the 1997 Detroit City Charter; otherwise, it shall become effective in accordance with Section 4-115 of the 1997 Detroit City Charter.

Honorable City Council:

Re: Special District Review for Modification of Antennas Mounted on a Monopole on Cobo Hall Roof, Located at One Washington Blvd. (RECOMMEND APPROVAL).

The staff of the City Planning Commission (CPC) received a building permit application for the modification of AT&T's antennas mounted on a monopole on Cobo Hall Roof, located at One Washington Blvd. The PC (Public Center District) zoning classification, in which the relevant part of the building is located, calls for City Council approval of the location and design of external modifications following the review and recommendation of CPC and the Planning and Development Department (P&DD) (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance). CPC and P&DD staff have reviewed the application and submit this report and recommendation.

**Proposed Improvements**

The 80 foot tall monopole which supports the subject cellular antenna is mounted along the eastern side of the roof. The proposed antenna panels are 96 inches by 12 inches by 6 inches (eight [8] square feet), an increase over the existing panels of five (5) square feet. One panel on each of the three sectors would be replaced.

**Review**

In accordance with the Special District Review provision of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PC provisions of Section 61-11-77, the proposed antenna modification appears to meet the requirements of City Code. The Wireless Telecommunications Site Review Committee has reviewed the proposed modification and recommends approval.

**Recommendation**

CPC staff has completed its review of the proposed antenna modification. We find that the modification would be in keeping with the spirit and intent of the PC zoning district. Therefore, staff recommends approval of the location and

design of the proposed improvements. Please find attached the appropriate resolution to effectuate your approval.

Honorable City Council:

Re: PCA (Restricted Central Business District) review of the request of SDG, Inc., on behalf of the Detroit Regional Convention Facility Authority (Cobo Hall) to approve the creation of parking under the Detroit Hall. (RECOMMEND APPROVAL).

The City Planning Commission (CPC) is in receipt of a request from SDG, Inc., on behalf of the Detroit Regional Convention Facility Authority, to approve the creation of parking under the Detroit Hall section of the complex, as was proposed many years ago. The relevant exterior change is

the creation of an entrance into the new garage from West Congress Street. As you know, the PCA (Restricted Central Business District) zoning classification, in which the relevant portion of Cobo Hall is located, calls for City Council approval of the location and design of any exterior changes following the review and recommendation of CPC and the Planning and Development Department (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance).

#### **Proposed Development**

The proposed 475-space parking area would be under the Detroit Hall. Provision for this was made during the time of the last Cobo Hall expansion in 1988. The area is presently unpaved. The existing chain-link fencing would be removed and replaced with a wrought iron-style fence, as shown on the attached sheets A4-5, A4-6 and catalog page. A new curb cut is also proposed as part of the new entrance. When the garage is closed, a roll-down gate would close the entrance. The proposed plans are attached.

#### **Review**

In accordance with the PCA provisions of the Zoning Ordinance (Section 61-11-97), reviews of proposed uses should be conducted in light of the following criteria,

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties;

(4) Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands; disruption of traffic flow in surrounding areas should be minimized; truck traffic should be carefully planned and controlled;

The proposed underground parking and its proposed access appear to meet these criteria. The Traffic Engineering Division of the Department of Public Works is in the process of reviewing the proposed entrance/exit location.

#### **Recommendation**

CPC staff has completed its review of the proposed signs, as has the Planning

and Development Department staff. We find that the parking would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed garage. Please find attached the appropriate resolution to effectuate your approval.

Whereas, Both the Planning and Development Department and the staff of the City Planning Commission have reviewed the proposal in order to ensure that the proposed expansion is in keeping with the spirit, purpose and intent of the PCA zoning district classification; and

Whereas, City Planning Commission staff finds the proposed expansion is consistent with the review criteria listed for the PCA District;

Now, Therefore Be It

Resolved, That the Detroit City Council approves the location and design of the proposed parking under the Detroit Hall of Cobo Hall, located at One Washington Boulevard, described in the foregoing communication from the City Planning Commission staff, dated May 25, 2011, and as depicted in the renderings prepared by SDG dated June 5, 2011.

By Council Member Jenkins:

Whereas, Historic Book House, LLC, has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on Tuesday, February 8, 2011, established by Resolution an Obsolete Property Rehabilitation District in the vicinity of 8469 E. Jefferson Street, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 198 of 1974 exceeds 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obsolete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Obsolete Property Rehabilitation District; and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by Section 2 (l) of the Act; and

Whereas, This City Council has granted until July of 2013 for the completion of the rehabilitation; and

Whereas, On July 21, 2011, in the City Council Committee Room, 13th Floor, Coleman A. Young Municipal Center, Detroit, Michigan, a formal hearing was held on aforesaid application, at which time the Applicant, the Assessor, the general public, and representatives of the affected taxing units had an opportunity to be heard; and

Whereas, Notice was given by certified mail to the Detroit Board of Education, the City of Detroit Board of Assessors, the Wayne County Board of Commissioners, Wayne County Community College, the Wayne County Intermediate School District, the Huron-Clinton Metropolitan Authority, the Applicant, and by publication to the general public, informing them of the receipt of the Application, the date and location of the Public Hearing, and the opportunity to be heard;

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax within the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of the Historic Book House, LLC, for an Obsolete Property Rehabilitation Exemption Certificate, in the City of Detroit Obsolete Property Rehabilitation District is hereby approved for a period of twelve (12) years from completion of the facility in accordance with the provisions of the Act; and be it further

Resolved, That the City Clerk shall forward said Application to the Michigan State Tax Commission as provided by the Act, and be it further

Resolved, That the rehabilitation of the facility shall be completed no later than July 2013. Unless an extension of that time period is granted by this City Council, which extension shall be granted if this City Council determines that the rehabilitation of the facility is proceeding in good faith and the proposed extension is reasonable; and be it finally

 Re: Correction of Sales Resolution Development: Parcel 529; located on Lakepointe & Barham Between Mack & Lozier.

On February 1, 2011, your Honorable Body approved the sale of the above-captioned property to Habitat For Humanity Detroit, a Michigan Non-Profit Corporation, for the purpose of constructing approximately twenty (20) single-family homes.

Habitat For Humanity Detroit, a Michigan Non-Profit Corporation, has informed the Planning and Development

Department that due to circumstances beyond their control, they will only be able to complete the single-family units to be constructed on the Lakepointe City-owned property (22 total). Habitat now wishes to modify their proposed development to include the construction of only nine (9) single-family homes in Parcel 529 and rescind the sale of the Barham City-owned properties (22 total lots).

Accordingly, the size of Parcel 529, has been adjusted from 153,138 square feet to 76,569 square feet and the sales price has been adjusted from \$21,400 to \$10,700.

We, therefore, request that your Honorable Body authorize an amendment to the sales resolution to adjust the sale of Parcel 529 to Habitat For Humanity Detroit, a Michigan Non-Profit Corporation.

We, also, request that your Honorable Body adopt the attached resolution and

authorize an amendment to the sales resolution to reflect an adjustment in the size of Parcel 529 from 153,138 square feet to 76,569 square feet and the sales price from \$21,400 to \$10,700.

Honorable City Council:

Re: Amendment and Extension of Development Agreement Development: Parcel 245; generally bounded by Trumbull, Canfield, Gibson & Calumet).

On July 22, 2008, your Honorable Body authorized the sale of the above-captioned property to Scripps Park Associates, LLC, a Michigan Limited Liability Company, for the purpose of constructing eleven (11) one and two story single-family houses with attached or detached two-car garages.

It has come to our attention that the Offeror now desires to modify their original development from the construction of single-family houses to the construction of eleven (11) duplex buildings with attached garages.

Due to this design change, Scripps Park Associates, LLC, will not be able to complete the project within the time allotted in the present Development Agreement. All design changes have been

approved by the appropriate parties and the Offeror is ready to begin construction. Consequently Scripps Park Associates, LLC, is requesting a thirty-six (36) month extension.

The Planning & Development Department has reviewed the request of Scripps Park Associates, LLC, a Michigan Limited Liability Company, and has determined it to be reasonable and consistent with the terms and conditions set forth in the Development Agreement.

We, therefore, request that your Honorable Body adopt the attached resolution, authorizing an amendment to the Development Agreement with Scripps Park Associates, LLC, a Michigan Limited Liability Company, to construct approximately eleven (11) duplex buildings with attached garages and to extend the completion period of the Development Agreement.

Honorable City Council:

Re: Address: 829 W. Grand Blvd., 101 & 102. Name: LaShawnda Mahone. Date ordered removed: March 30, 2010 (J.C.C. page 919).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on June 28, 2011 revealed the building is secured and appears to be sound and repairable.

The owner has paid current taxes due as of December 22, 2011.

The proposed use of the property is owner occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four

must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,

MICHAEL TAYLOR

Deputy Director

By Council Member Brown:

**STATEMENT BY COUNCIL MEMBER  
SAUNTEEL JENKINS REGARDING  
VOTE IN OPPOSITION OF A \$3.4  
MILLION PEOPLE MOVER SUBSIDY**

On Tuesday, July 26, 2011, I voted in opposition of a resolution for a \$3.4 million subsidy to the Detroit People Mover. I did this because I support the efficacious use of city funds to grant more residents access to dependable transportation. I believe the better part of that money could be more effectively used to improve city bus service.

While the People Mover is a cherished Detroit institution, it is mostly used as an optional form of public transportation. City bus service, however, is the only source of reliable transportation, public or otherwise, for many residents. Using some of these funds to improve bus service would make a greater impact on a larger number of residents than if Detroit People Mover service were to receive all or the bulk of the \$3.4 million subsidy.

Though I agree that Detroit People Mover service is important, it is also important that this independently operated system employ more creative strategies to generate revenue, such as increasing fares or selling marketing rights to People Mover stations. Until I believe the Detroit People Mover has exhausted all other options to increase revenue and residents who use city bus service are no longer subjected to more severe cuts in service, I cannot support such a large subsidy.

Honorable City Council:

Re: Petition Number 1051 — Request for City Council Approval for the Issuance of a New Michigan Liquor Control Commission Dance and Entertainment Permit to Seafood of Detroit, LLC, Tower 400 — Level 1, Renaissance Center, Store 1404 & 1406.

**BACKGROUND**

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that, prior to the issuance of a Michigan Liquor Control Commission (“MLCC”) dance permit, entertainment permit, or a combination dance and entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located.

Pursuant to this requirement, the MLCC has forwarded to this Body a Local Approval Notice, Request ID Number 612990, which has been designated by the City Clerk as Petition Number 1051. This Local Approval Notice requests City Council approval of a request by Seafood of Detroit, LLC (“Permit Applicant”), for the issuance of a new dance and entertainment permit in conjunction with a request to transfer ownership of a ‘Class C license,’ in escrow at 3118 Fairlane, Allen Park, to Tower 400 — Level 1, Renaissance Center, Store 1404 & 1406.

The Buildings, Safety Engineering, and Environmental Department (“BSE&E”) report to the designated MLCC Permit Coordinator (“Coordinator”) indicates that the current legal, conforming, land use of the location is “Standard Restaurant/Night Club and Class ‘C’ Bar plus an accessory SDM License” according to Building Permit Number 73862, dated May 3, 2004.

Pursuant to Section 5-7-21 of the 1984 Detroit City Code, a Group “A” Cabaret business license is required for any establishment that sells or serves alcoholic beverages with or without food, and either allows dancing with or without live entertainment, or provides three (3) or more live entertainers at one time with or without patron dancing. Accordingly, the Permit Applicant has applied for a Group “A” Cabaret business license for the location.

**APPROVAL CRITERIA**

The City Council Procedures and Criteria for Michigan Liquor Control

Commission Permits (“Procedures and Criteria”) became effective upon publication on August 25, 2009. Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant’s request for approval of the issuance of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Pursuant to Part V of the Procedures and Criteria, the Coordinator has submitted a report, dated July 25, 2011, to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria in Part VI of the Procedures and Criteria. A review of the Coordinator’s report indicates that the Permit Applicant has met the approval criteria contained in Part VI of the Procedures and Criteria.

**RECOMMENDATION**

Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant’s request for approval of the issuance of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Therefore, attached is a proposed resolution approving the issuance of a new dance and entertainment permit by the MLCC to the Permit Applicant, Seafood of Detroit, LLC, for a Group “A” Cabaret at Tower 400 — Level 1, Renaissance Center, Store 1401 & 1406.

The Law Department recommends that the Resolution be moved to the Committee of the Whole for its action. If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,

Re: Petition No. 661 — New Cadillac Square Apartments Inc., to vacate and convert to an easement the alley running east of Bates, west of Randolph, south of Cadillac Square and north of Farmer.

Petition No. 661 “New Cadillac Square

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

**Water and Sewerage Department**

June 27, 2011

Honorable City Council:

Re: Easement for Water Mains and Sewers Granted to City of Detroit by Community Health and Social Service Center Inc. (CHASS).

We request that your Honorable Body authorize the Detroit Water and Sewerage Department (DWSD) to accept the grant of an easement for water mains, at no cost to the City, from Community Health and Social Service Center Inc. (CHASS). The Board of Water Commissioners approved this matter on June 22, 2011.

Community Health and Social Service Center Inc. (CHASS) is a non-profit corporation that operates a medical clinic and social service center for residents of Southwest Detroit. CHASS has provided services to Detroit residents for forty years. CHASS has recently begun construction of a new clinic building at West Fort St. and Junction St. in Southwest Detroit.

CHASS will be tapping a DWSD water main for a fire line in order to create a looped system which will allow the main building water supply to be shut off without interrupting service to the fire line. To accomplish that, CHASS is granting DWSD a 15' wide utility easement that can be used for the fire line, other water lines and sewers. A diagram of the area of the easement is included in the proposed agreement. CHASS will perform and pay for the work to be done.

**RESOLUTION TO SUPPORT A  
COMMUNITY BENEFITS AGREEMENT  
FOR THE NEW INTERNATIONAL  
TRADE CROSSING (NITC)**

By COUNCIL MEMBER JONES:

WHEREAS, The City of Detroit strives to provide for the health and welfare of its residents and the creation of economic opportunity; and

WHEREAS, On May 24, 2010, City Council previously adopted a resolution in support of proposed legislation requiring inclusion of a community benefits agreement in connection with the development of the Detroit River International Crossing (DRIC); and

WHEREAS, The Government of the State of Michigan and an overwhelming majority of elected officials and residents of Southeastern Michigan favor the construction of a publicly-owned bridge, now known as the New International Trade Crossing (NITC), between the United States and Canada, with a customs plaza proposed to be located in the Delray neighborhood of southwest Detroit; and

WHEREAS, The Canadian federal and provincial governments also support construction of the NITC at the same preferred location; and

WHEREAS, Residents and neighborhood stakeholders formed the Community Benefits Coalition with an elected board to advocate for guaranteed mitigations and quality-of-life benefits for the City and affected communities of southwest Detroit, primarily Delray, in exchange for hosting this project; and

WHEREAS, Development projects across the country including a Los Angeles airport and international shipping ports, have implemented Community Benefits Agreements to ensure that the local municipality and its residents are guaranteed that negative project impacts are addressed and that positive gains are made for the hosting community; and

WHEREAS, The NITC projects offers significant opportunities for the City and its residents to benefit from community improvements being sought through the NITC project; and

WHEREAS, The land required to develop the NITC project is largely City-owned, perhaps as much as seventy percent (70%), and a development agreement is advisable; and

WHEREAS, The NITC project would have significant environmental impacts, according to the Michigan Department of Transportation's (MDOT) Final Environmental Impact Statement (FEIS), for a population that is 69% minority and low-income, with the bridge and plaza occupying an area of 160-acres and displacing 693 residents, 685 jobs/employees, 43 businesses, 9 churches and government facilities; and

WHEREAS, The Community Benefits Coalition has met many times with representatives of the Governor, the State Legislature, MDOT and others regarding necessary mitigations beyond the minimum federally required, and has begun to identify partnerships to implement mitigations; and

WHEREAS, Mitigations necessary for the health and welfare of the City's residents, and acceptable to the community for hosting the project, have not been fully addressed; and these proposed mitigations and benefits are in the primary areas of air quality and health, housing, infrastructure improvements, economic development and jobs, and greening and green alternatives.

WHEREAS, The increase in truck traffic in southwest Detroit and across our border with Canada is a result of the 1994 Federal NAFTA trade policy which has led to 10,000 trucks daily crossing the Ambassador Bridge and the necessary infrastructure to accommodate that policy is only now being addressed; and

WHEREAS, The need for increased bridge capacity has been identified in order to keep the free flow of commerce across the busiest U.S.-Canada border, and under current circumstances, capacity is expected to be exceeded by 2035; and

WHEREAS, City Council supports a publicly-owned crossing as the option allowing appropriate public oversight, and the ability to address current and future impacts to the City and the neighborhood, as well as oversight of land-use planning for the host community; and

WHEREAS, Bridges are built for a 100-year lifespan, and the best available technologies should be fully evaluated and incorporated into the project, including LEED-certified green building designs, and alternative energy for a self-sustaining bridge; and

WHEREAS, Such future-oriented technologies have been the expressed interest of U.S. President Obama and Michigan's Governor Snyder, and would make this a high-profile project that would attract future technology jobs to the area; and

WHEREAS, The City of Detroit and specifically the affected southwest Detroit community, primarily Delray, are seeking a legally binding Community Benefits Agreement as part of a Development Agreement with the development entity that will include a long-term funding mechanism to address negative or disproportionately adverse local impacts of the project into the future. NOW THEREFORE BE IT

RESOLVED, That the Detroit's City Council, recognizing the need for increased bridge capacity to keep the free flow of commerce across the busiest U.S.-

Canada border, supports a publicly owned crossing; and BE IT FURTHER

RESOLVED, That the Detroit City Council supports a Community Benefits Agreement as embodied in HB 4635 and SB 379, to achieve legally-enforceable mitigations and benefits for the community in conjunction with the development of a public-owned NITC bridge, ensuring that the impacted community is the beneficiary and not the victim of the proposed NITC development; and BE IT FURTHER

RESOLVED, That in recognition of the fact that approximately seventy percent (70%) of the necessary land for the NITC project is City-owned, the Detroit City Council urges the City of Detroit to enter into a Development Agreement with the developers of the NITC project, and that the Development Agreement require that the project's workforce consist of Detroit residents directly proportional in number to the percentage of City-owned land utilized, i.e., seventy percent (70%) Detroit residents; and BE IT FURTHER

- *An adequate Community Benefits Agreement as part of any State legislation effectuating the NITC project — proposed HB 4635 and SB 379;*
  - *Sale of City land pursuant to a Development Agreement subject to a Community Benefits Agreement, for the benefit of the City and its affected neighborhoods;*
  - *Designation of alternate truck routes to remove trucks from residential streets;*
- and BE IT FINALLY

**Mayor's Office**

July 12, 2011

Honorable City Council:

Re: Request to apply to the State of Michigan for the issuance of \$9,468,817 in Qualified Energy Conservation Bonds (QECBs).

The amount of \$9,468,817 has been allocated by the State of Michigan to the City of Detroit for issuance of Qualified Energy Conservation Bonds (QECBs). This allocation by the State follows a formula established by the United States Energy Improvement and Extension Act of 2008 and the United States American Recovery and Reinvestment Act of 2009 authorizing a total of \$3.2 billion in QECB bond issue nationwide. QECBs are tax credit bonds that can be used to finance initiatives that lead to reductions in greenhouse gas emissions and otherwise reduce energy consumption.

QECBs are bonds under which the Issuer is responsible for paying back the entire principal, and a small portion of the bond interest, whereas the United States

Treasury Department provides Federal tax credits to bondholders for the remaining (majority portion) of the interest. Per our financial calculations, the proposed issuance of QECBs will cost city only \$667,457 in total net expense over a 17-year time period.

QECBs are very well suited for funding D'Light — a multi-phase project to upgrade all of the streetlights in the City of Detroit. Our financial analysis indicates that, using the full amount allocated to the city, 6,850 streetlights can be upgrade in the neighborhood portions of the city, and in the principal surface streets that connect these neighborhoods. Care will be taken to coordinate the streetlight upgrade with results of Detroit Works, so that upgrades overlap with concentrated investments.

The upgrades will utilize state-of-the-art energy saving LED street lighting technology, and will save the city \$803,277 per year in operating costs. In other words, over the course of the 17-year bond issue, the ROI for the city is 2000%!

Summary of the proposed QECB issue (details attached):

- The City would issue a 17-year bond for \$9,468,817; at an anticipated interest rate of 6% (exact rate depends on the market).
- The bondholder will receive the entire principal (\$9,468,817) at the end of the 17-year period.
- This principal payout will occur from a sinking fund into which the City will make annual payments. The first year payment will be \$556,989, which will gradually reduce each year proportional to the sinking fund yield (anticipated to be 4%) — in year-17 the city's payment will reduce to \$200,516.
- In addition to the principal payment at the end of year-17, the bondholder will also receive semi-annual interest income per the set coupon rate of 6%. Of this 6%, only 2.3% comes in the form of direct interest payment from the City; the remaining 3.7% comes in the form of federal tax credits. The City's annual interest payment is anticipated to be \$217,499.
- The net expense for the City as a result of this bond issue is only \$667,457 — calculated as the bond principal (\$9,468,817) plus sinking fund yield (\$3,030,021) minus sinking fund payments (\$6,438,796) and interest payments to the bondholder (\$3,697,478).
- Operating cost savings to the City as a result of upgrading 6,850 streetlights with the proceeds from this bond issue is \$803,277, over 17 years for a net ROI of \$12,988,252.

The proposed bond issue is only a portion of the funding required to upgrade the City's streetlights. The D'Light project funding strategy mixes a variety of sources:

1. State and Federal grants — target \$5 Million. Approximately \$800,000 secured so far

2. Foundation grants — target \$5 Million

3. Stakeholder contributions — target \$5 Million. Approximately \$100,000 secured so far

Additionally, your Honorable Body recently approved a G.O. Bond issue in the amount of \$6.5 Million to facilitate more reliable power transmission facilities. The aggregate of all funding initiatives provides the foundation for a more reliable and sustainable street lighting service that has value to the City in both the short- and long-term.

The City's Public Lighting Department has been provided with the application instructions, and is currently developing an application to conform to the guidelines. The City will submit an application that authorizes the issue QECBs for the entire amount of \$9,468,817.

I am requesting your Honorable Body approve the City's application to the State of Michigan for the issuance of a QECB for the entire allocated amount \$9,468,817 to fund the D'Light project. The application is to be made to the Michigan Department of Labor & Economic Growth (DELEG) — Bureau of Energy Systems, and the deadline is July 31, 2011.

If there is any questions or concerns regarding this matter please feel free contact me.

#### TESTIMONIAL RESOLUTION

By COUNCIL MEMBER WATSON:

WHEREAS, The Lee Family saga begins not unlike the story of many families of mixed heritage that have historical, cultural and genetic roots with peoples of the United States of America; and

WHEREAS, This story starts with the early 19th century kidnapping and enslavement of an adolescent, Native American girl called Klassic or Classic. She was probably of Algonquian and Powhatan heritage because the area where she lived was home to the Powhatan Confederacy that dominated much of Virginia before the British invasions of the 1600s. If so, Classic's distant relatives may have included the Powhatan Confederacy's founding Chief Wahunsunacock and his esteemed daughter, Pocahontas. Over thirty Algonquian tribal groups spoke the Powhatan language in Tidewater Virginia and comprised the powerful Powhatan Confederacy. Classic's legacy has enriched the lives of countless family generations seeking to learn more about her life and her offspring; and

WHEREAS, Sometime in the early 1800s, Classic was near a roadside forest probably collecting berries for her family and was kidnapped. Classic's captor, plantation and slave owner, Tom Lee and his family hid her in a wooden crate as they traveled from Virginia through "Indian territory" to the Lee Plantation in Monroeville, Alabama. Classic became a house servant in the home of the Lee Family. Classic learned to sew, knit, crochet, embroider and make lace; and

WHEREAS, Over successive generations, Klassic was referred to as Classic or Classy or Classey because the family is uncertain of her exact language origins or the spelling of her unique name; and

WHEREAS, Over time on the Lee Plantation, Classic and an enslaved man named Tait or Tate developed an intimate relationship and from this union had two sons, Sandy Tait (Tate) and John Tate (Tait) Lee. Later, the plantation owner's son developed an admiration for Classic. Eventually, the plantation owner gave permission to his son also named Tom Lee to marry and raise a family with Classic. This union gave birth to Classic's third son also named Tom Lee who was born in 1851 and died June 30, 1904. Other children of the Classic and Tom Lee union included Benjamin, Corine, Dasha, another daughter named Classey, Sarah, George Washington and David; and

WHEREAS, Family offspring from Classic are multitudinous and live in various parts of the United States and the world and since Ms. Frances Dailey founded the first Lee Family Reunion in Evergreen, Alabama in 1979 by calling together offspring from the marital union of Tom Lee and Harriet Crosby of Evergreen, Alabama and later Conecuh County, Alabama; and

WHEREAS, The Lee Family Reunion has convened on twenty-two occasions over the past 32 years with a prior family reunion that took place in Detroit, Michigan in 1985. During the 2011 Lee Family Reunion in Detroit, Michigan, offspring from Classic's third son, Tom Lee, met previously unknown offspring from the marital union of Classic's fourth son, Benjamin Lee and the Louisa Armstrong of Brewton and Monroeville, Alabama and also Classic's fourth daughter, Sarah Lee who married Frank Harligan of Monroeville and Evergreen, Alabama; and

WHEREAS, Classic Lee's offspring continue to gather, convene, research their history, and join together at the Lee Family Reunion welcoming new family additions and rejoicing with enduring relationships and established traditions; NOW, BE IT

RESOLVED, That the Detroit City Council expresses a heartfelt welcome to members of the 32nd Lee Family Reunion, "Footprints in America" convened in our illustrious city and hopes their visits Thursday, July 14 through Sunday, July 17, 2011 to the cultural and historical landmarks of our community prove enlightening and worthwhile ventures.

**PUBLIC COMMENT**

**MR. GREG MURRAY** — I would like to know where did the state of Detroit get 1.2 million dollars to move the Department of Human Services onto the 5th and 6th floor of the city's Health Department. Allegedly, the Head Start Program budget is to be reduced by \$315,000.00 to pay for their portion of the construction of offices on the 6th floor of the City of Detroit's Health and Wellness Promotion Office at Herman Keifer. That money has not been approved by the federal government. This past Monday, the Policy Council for the Head Start Program was cor-

ralled on Grandy and motivated to approve it from a Policy Council standpoint. The federal government wants to know whether or not City Council approved the elimination of nine positions in the Head Start budget to equal the \$315,000.00 that they are suppose to utilize for the move of this department. Allegedly, \$315,000.00 is to come from Head Start, \$300,000.00 is supposed to come from the Community Development Block Grant Fund from the Health Department. The balance is supposed to come from our money, the Weatherization Program. The construction is going on right now. There are no RFP's. There has been no bidding process. This is going on right now, we believe so that it will be done by the time you get back from recess because of the power you have given to the Purchasing Department. We ask that somebody look into this. This is going to end up being disallowed cost and the general fund is going to have to eat the cost because they are not approved yet. You cannot approve something retroactive with federal funds.

**Watson** — *I would urge asking Research and Analysis Division and Fiscal to look into the allegations that have been made.* You cannot do this without a budget amendment and without approval by Council. I've asked the question before July, whether or not there was any dismantling of that department which we funded. The Health Department was told that nothing was going on. *I would move that we have someone look into the allegations that have been made.*

**Pugh** — Are there any objections? *Hearing none, RAD and Fiscal are directed to get back to us with some preliminary findings sometime on Monday.*

**MR. ROGER CHEEK** — I am a retiree of the City of Detroit. I am here today as past President of the Detroit Retired City Employee Association. I am representing our president who was unable to come today. We ask that you would not approve the plan that is being put before you by the Bing Administration. We have three principle reasons why we take that position. The first principle is the plan was developed unilaterally. There was no discussion with the DRCEA. We had asked for a chance to talk about this budgetary matter in accordance with the City Charter Article 9, Section 601, Retirees Representation. We've always had an opportunity to talk to the administration on budgetary matters such as this in the past. The second principle is we feel that the plan is definitely improper in that it is trying to separate non-union

retirees from unionized retirees. We believe the City Charter does not allow that. They only talk about retirees. They recognize no distinction between the two. Therefore, this administration does not have the right to do that. If they do it, the people who get separated will be discriminatorily harmed in a substantial way because of the reduction in benefits. And finally, even if somebody concludes they can do what they are trying to do, don't approve this. It is too harsh. Anybody who has a small pension and who may be unfortunate enough to be sick is going to be devastated.

**Brown** — Mr. Cheeks, how many members are in the DRCEA?

**Mr. Roger Cheek** — We have 11,000 civilian retirees. In our organization, 7,300 people have paid to be members. The harmful part would apply to about 2,700 people.

**Pugh** — Thank you Mr. Cheek, we will have Mr. Martinico to respond after Ms. Slappey.

**MS. MARCELLIS SLAPPEY** — I am a district representative for SAAA, Senior Accountant Analyst Association. I am also employed with the Department of Human Services. I work in the Accounting Department. I am representing the whole Department of Human Service employees. They've come to me with their problems about the move. I went over there with the AFSCME president and our vice president to evaluate the Herman Keifer building. Gina Thomas and I both got sick yesterday. Greg got woozy. We want you to know that they are moving. The director sent out a memo yesterday letting us know that they are beginning to move. They came with a moving truck this past Wednesday. What we are trying to find out is how are they moving us when it has not been approved. Who is paying for this cost when it has not been approved? We also want an independent agency to look into the hazardousness. When we went on the 6th floor, there was mold and rust underneath the drop ceiling. We lifted it up. It was lead paint covering it. I want City Council to look into this. They are spending \$815,000.00 for this move. The problem we have on Grandy is mold in the carpeting on the 5th floor. It is a quick fix. It shouldn't cost no more than \$100,000.00.

**CHARLES PUGH** — Mr. Martinico, if you could respond to Mr. Cheek who represents folk at the DRCEA who says that the 2,700 retirees who are now designated as non-union retirees will be adversely effected by this change.

**Mr. Martinico** — As far as the number of people who will be affected by

this who are members of this organization, I have no reason to argue with the number that Mr. Cheek uses. I really don't know first hand what the number is, but certainly there are people who will be impacted.

**Pugh** — How will it be impacted?

**Mr. Martinico** — The city approached its entire union workforce to negotiate changes that are contained in the resolution that we've proposed. To state that this is singling out a particular group, that is not correct. The city approached the unions in an environment where the unions had no obligation to negotiate. As I have stated before to their credit, they did come in to talk with us and entertain this proposal. None of them agreed to it in that environment. We have a problem that we are trying to deal with. This Council is well aware of the cost of medical insurance. We are not the only city who is dealing with this problem. It is a problem that runs through the public sector and the private sector. The cost of insurance is rising at an alarming rapid rate. We have to do something about it. You all know what the city is budgeted for the cost of medical care for our employees and retirees this year. That number went up about 12% from last year. It went up the year before and it is going to go up next year. We are attempting to address it on multiple fronts. We've committed to this Council and we have begun the process of preparing a RFP to put our medical plans out for bid in particularly our self funded medical plan with the hope that there will be savings that will result from that. In order to address this issue, it is also necessary to make real world changes in our medical plan benefits to bring them into line with what other municipalities and what other private and public sector employees are providing to their employees. That is what this is. We're attempting to move forward with a plan that will make these changes for every City of Detroit employee. They are at risk of making this more complex than what it is. There are groups of retirees, particularly those who retired before 1984, from who the increase in cost will not be passed along. The city in the past has committed to providing medical benefits for plans other than the Blue Cross Blue Shield traditional plan at no cost to those retirees. We are seeking to pass along a cost to those retirees in this change. However, for those retirees who have always contributed, there will be a change. The change will not be as drastic. The benefit levels are being revised. The net effect of it is it brings down the cost. The monthly premium will be reduced. When people use the

plan, there will be an increase to their out-of-pocket expenses when they use it. The net effect on people will depend on everybody's individual circumstances. If you are a heavy user of the plan, then there's probably going to be an increase in your out-of-pocket expense. If you are a modest or small user, you probably are going to save money. The bottom line is the city needs to do something about the amount of money they are spending on medical care for its employees and retirees. This is a step in that direction. We're asking the non-union workforce both active and retirees to lead the way.

**Pugh** — Colleagues, any further questions for Mr. Martinico?

**Jones** — I have two questions. One, to Mr. Cheek through the Chair, you have named retirees whose pension level is extremely low; maybe \$300/\$400. Do you know how many retirees there are?

**Mr. Cheek** — No, I am sorry I do not.

**Mr. Martinico** — I agree. The city does have to do something. I don't think this is the answer. I've had several meetings with the administration and I have talked to them about doing the cost level on a tier whereas we have many city employees who are basically making minimum wages. You have some people who are actually working living in shelters and they are taking a 10% deduction. Taking the 10% deduction and increasing the amount that they are paying for insurance is going to basically hurt them. It may not hurt someone who is making \$100,000.00 as much as it's going to hurt someone that makes \$30,000.00. Do you know roughly how many non-union employees we have that's on the level of \$30,000?

**Mr. Martinico** — No. As I stated earlier, some of those people will actually be paying less for their insurance as a result of these changes. The changes we are making will reduce the cost for everybody. When I say everybody, in this instance I'm referring to the non-union active and retiree workforce. The point of making these changes is to reduce the cost. It reduces the city's cost and it reduces the employees cost. In many situations, people will actually pay less. There will be some who will pay more because there is one plan for which the contribution will be increased from 10% to 20%. Those people will pay more. Even that increase will be less than the 10% increase because by changing the plan and reducing the cost, 20% of a lower number is less than 20% if we did nothing and didn't change the plan. That 20% is coming anyway. We're expecting there will be state legislation that will mandate this. The changing of the benefits will have

the additional impact of reducing the cost for everybody.

**Jones** — Were there any other plans that went to the benefit committee that were addressed that we don't know anything about?

**Mr. Martinico** — I'm not certain I know what you are referring to. When you say any other plans...medical plans?

**Jones** — Yes.

**Mr. Martinico** — Not that I've presented.

**Jones** — Are there any other medical plans that you are aware of whether or not they went to the benefit committee that the administration looked at that was not addressed with the benefit committee or either this body?

**Mr. Martinico** — No. The only plan that has been addressed is the one we are presenting to you today. It's identical to the one that was presented to all of our union leaders back in May and early June of this year.

**Jones** — Have you had any conversation with the retirees?

**Mr. Martinico** — I've never received any communication from the retirees.

**Jones** — You have not had any conversations with the retirees?

**Mr. Martinico** — On this subject? I did have several meetings with the retirees on other subjects, but not on this.

Honorable City Council:

Re: 2011-2012 Medical, Dental and Optical Plan Rate Schedules for City of Detroit Employees and Retirees.

Labor Relations has completed negotiations with the City's health care plan vendors and has compiled these rate submissions, to be applicable for the 2011-2012 plan year, for your approval. We respectfully request the Honorable City Council's approval of these rates. We are enclosing the rates herewith, for your review and consideration, as well as the rates in effect for the prior year, for comparison purposes.

We have also summarized below several plan enhancements and structural revisions. The structural revisions are applicable to the City's exempt and non-union employees and retirees, and are planned to be effective as of October 1, 2011. The revisions are estimated to reduce the City's costs for health care benefits by approximately **\$2 million in fiscal year 2011-2012**. We respectfully request the Honorable City Council's approval of these structural revisions:

**Health Care Plan Changes**

**A. Enhancements:** The following vision and dental plan benefit enhancements will be applicable effective October 1, 2011.

- **Heritage Optical** — increase the eye glass frame allowance from \$75 to \$100
- **US Health Optical** — allow the retail-based allowance of \$130 to be applied toward the purchase price of eye glass frames at **both** private practice and retail locations.

- **Golden Dental** — (1) increase the Out-of-Area Emergency coverage from \$50 to \$100; (2) increase the age limit for fluoride treatment from 15 to 19 years of age; (3) add a 25% discount for cosmetic dentistry i.e. veneers and implants; and (4) offer a 10% discount on Dental Hygiene supplies at participating Golden Dental suppliers.

**B. Non-Union Plan Changes:** The following benefit level revisions will be applied to the City's exempt and non-union workforce and non-union retirees, effective October 1, 2011.

- Urgent Care Copay increased from \$10 to \$25 per visit

- Deductible increased from \$175 individual/\$300 family to \$250 individual/\$500 family

**RESOLUTION NO. SEVENTEEN  
OFFICIAL RESOLUTION OF THE  
BOARD OF COMMISSIONERS  
MACOMB COUNTY, MICHIGAN**

**A RESOLUTION IN SUPPORT OF THE  
CREATION OF A REGIONAL TRANSIT  
AUTHORITY**

**Commissioners Toni Moceri and David J. Flynn, On Behalf of the Board of Commissioners, Offers the Following Resolution:**

WHEREAS, Southeast Michigan is the largest region in the U.S. without high capacity rapid transit service in place or in development, which requires SMART and DDOT to run less cost-effective bus routes; and

WHEREAS, The Southeast Michigan region spends \$75 per capita annually on transit services, while the average of the top 25 metropolitan regions is \$184 per capita annually; and

WHEREAS, The American Public Transportation Association projects that every \$1 spent on public transit projects generates an average of \$6 in local economic activity; and

WHEREAS, By 2015, nearly a half-million people aged 65 and older in Metropolitan Detroit will live in communities where public transportation service is either poor or non-existent; and

WHEREAS, Working families earning between \$20,000 and \$50,000 are estimated to spend almost 30 percent of their

household income on transportation, which is more than housing. Michigan's difficult economic times call for investment in mass transit; and

WHEREAS, Establishing a Regional Transit Authority (RTA) allows for the capturing of federal and state funding, building projects and network expansion into other counties. The creation of an RTA is essential to following federal guidelines for developing regional transit systems; and

WHEREAS, Southeast Michigan must demonstrate a willingness and ability to cooperate across communities to create and implement regional transit plans as well as develop reliable funding systems; and

WHEREAS, Forming an RTA provides much-needed infrastructure funding along with cooperation among Michigan's most populous area; and

NOW, THEREFORE, BE IT RESOLVED, By the Board of Commissioners, speaking for and on behalf of all county citizens as follows:
