Honorable City Council:

Re: Petition No. 984 — Firewater II Bar & Grill for Outdoor Café Permit at 107 E. Milwaukee.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene from April 1 through November 30, 2011.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioner's compliance with applicable City ordi-

nance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the Planning and Development Department that the Petitioner's request be granted subject to terms and conditions provided in the attached Resolution.

Respectfully submitted,  
ROBERT ANDERSON

Director

By Council Member Jenkins:

Provided, That the filing of said indemnity agreement for this current year shall be construed as acceptance of this Resolution by the "permittee"; and

Provided, That the permit is revocable at the will, whim and caprice of the City Council; and hereby expressly waives any right to claim damages or compensation for removal of encroachment, and further, that "permittee" acquires no implied or other privileges hereunder not expressly stated herein; and

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum six (6) foot wide pedestrian clearance on the sidewalk, free of all obstacles such as existing planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

### TESTIMONIAL RESOLUTION FOR

#### MR. ALBERT & MRS. MYRTLE GREEN Celebration of 65 Years of Matrimonial Blessing

December 14, 1945 - December 14, 2010  
By COUNCIL MEMBER COCKREL, JR.:

WHEREAS, Albert and Myrtle Green have been enjoined in holy and blessed matrimony under the divine dispensation of God for more than sixty-five (65) years, a term that approaches the Biblical

proclamation of a long and prosperous life — "three score and ten." Albert and Myrtle Green met in the historic Delray district in Southwest Detroit at a time when Delray was a separate, incorporated area. During this period, Delray was a vibrant, blue-collar neighborhood and industrial district that formed the foundation of the City of Detroit's manufacturing and production base. Albert and Myrtle laid down roots in the Delray neighborhood, and have remained stalwart in their love for their neighborhood, the City of Detroit, and especially as each other; and

WHEREAS, Albert Green was born in the small, rural southern town of Jenkinsville, South Carolina, and growing up during an era of segregation and racial intolerance in the heart of the deep South. Like so many persons of African descent, he sought a better life in a place that promised more opportunity, respect and freedom. In finding that place, the City of Detroit and the Delray neighborhood, he also was blessed to find Myrtle, a native of the City of Ecorse, Michigan. Albert and Myrtle Green founded Green's Variety Store in the heart of Delray, located at 600 South Solvay Street near Cottrell-Erie Park; and

WHEREAS, Green's Variety Store is a landmark in Delray, being one of the few stores that was owned and operated by African Americans. It remains open after 50 years of providing groceries, beverages, and supplies to residents and factory workers. As a sign of commitment of Mr. and Mrs. Green to the City of Detroit, the couple opened a second location during the 1967 rebellion, trying to replace the vibrant commercial small business strips that had been lost; and

WHEREAS, The union of Albert and Myrtle Green has been fruitful, having been blessed by God with four wonderful children — Debra, Linda, Quentin and Alecia, as well as eight beautiful grandchildren and four precious great-grandchildren to carry forward their remarkable legacy. At the Whittier Manor (in the Wintergarten), Albert and Myrtle Green will celebrate their 65th wedding anniversary amongst many family, friends, and admirers on Saturday, July 30, 2011. NOW, THEREFORE BE IT

RESOLVED, That Honorable Members of the Detroit City Council hereby congratulate, acclaim, and celebrate the 65 years of matrimonial commitment between Albert and Myrtle Green, as well as express their admiration and gratitude for the couple's love for, and contributions to the City of Detroit and their beloved neighborhood of Delray.

Re: 1800 Brainard Apartments — Payment in Lieu of Taxes (PILOT).

Melvin Washington, the sponsor has formed 1800 Brainard LLC. The company will be rehabilitating a seventeen-unit complex in an area bounded by Magnolia, Brainard, Rosa Parks and Cochrane. All units will have 2-bedrooms and 1-bath.

The development will be financed by City of Detroit — NSP Neighborhood Stabilization Program with a total loan amount of \$1,117,000.00 for fifteen years at 0% interest and a \$200,000 loan from Capital Fund Services for fifteen years at 7% interest.

Seventy percent (70%) or (12) of the units will be occupied by households with incomes that do not exceed 50% of the area median income, adjusted for family size. The remaining thirty percent (30%) or 5 of the units will be occupied by households with incomes that do not exceed 40% of the area median income, adjusted for family size. These income restrictions will be in effect for the longer of the period the Affordable Housing Restrictions apply or the time required under the (NSP) Neighborhood Stabilization Program.

Re: Tonja Ellison vs. Officer Sova, in his individual capacity and the City of Detroit, jointly and severally. Case No.: 2:10-cv-12786. File No.: A37000.007073 (MRJ).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Thirty-Six Thousand Dollars and No Cents (\$36,000.00) is in the best interest of the City of Detroit.

This matter was originally submitted to this Honorable Body on July 26, 2011 and not approved because insufficient information was available to the body and no representative of the Law Department

was present to answer questions. Consistent with the Law Department's representation to U.S. District Court Judge Gerald E. Rosen on August 30, 2011 this matter is being resubmitted for review of the Honorable Body with the Law Department's recommendation for approval.

#### City Planning Commission

September 1, 2011

Honorable City Council:

Re: Proposed amendment of Chapter 61, Article XVII, Map No. 2 to rezone 550 Macomb Street from PD (Planned Development District) to SD5 (Special Development District — Casinos) for the construction of a valet parking garage for Greektown Casino LLC in the area bounded by Macomb, Beaubien and St. Antoine Streets and the east/west alley north of Monroe Street (RECOMMEND APPROVAL).

#### NATURE OF REQUEST

Greektown Casino-Hotel is proposing to build a new 850-space valet parking garage in the area bounded by Macomb, Beaubien, and St. Antoine Street and the east/west alley north of Monroe Street to replace its current valet operations that take place at the casino. The applicant indicates that the current valet parking function at the casino has too few arrival and departure spaces (18 total) and the size of the existing valet garage, located at the north-west corner of Beaubien Street and East Fort Street (620 spaces) is significantly smaller than the competitors' garages (more than 1,000 spaces).

An additional challenge of the current operation is the fact that valet drivers are required to drive customers' vehicles on public roads to access the current valet garage. This increases the risk of damage to patrons' vehicles and to pedestrians and vehicles on the roads. The location of the existing valet garage also adds to the time that patrons must wait to have their car retrieved. The proposed garage will have a direct link to the casino via a sky-

walk over Monroe Street. The casino estimates that the new garage will more than double the throughput capacity of the valet-parking operation of the casino through the increased queuing capacity.

### PROPOSED DEVELOPMENT

#### *The site*

The proposed garage would replace the Wayne County Sheriff's office, zoned PD (Planned Development District). The County is proposing to move the Sheriff's facility to the Casino-owned site at the southwest corner of Gratiot Avenue and I-375, the site of the proposed Wayne County Jail where the casino once was going to locate.

The Macomb Street site is quite shallow (105 feet wide by 450 feet long) and the casino is also requesting to cantilever the upper floors sixteen (16) feet over a portion of Macomb Street — the sidewalk and parking lane. This would allow a double-loaded parking configuration within the parking structure, which greatly increases efficiency and allows for a shorter, 7-level structure that still contains the desired number of spaces. The portion of the building east of the entrance/exit on Macomb will not be cantilevered to reduce the potential canyon effect of the cantilevering. The sidewalk on the south side of Macomb would continue under the structure as through a colonnade, and the on-street parking would be removed. The entrance location, necessary encroachments and right-of-way modification are being reviewed by the Department of Public Works (DPW). Limited ground-floor retail is proposed at the St. Antoine side of the structure.

#### *Features of the parking structure*

Two (2) customer **vehicular entrances** are proposed, one from Macomb Street, on the eastern end of the building, with two-lanes entering and exiting, and one from St. Antoine. The main I-375 freeway access to the site is from the existing Lafayette Street ramp, the same way that patrons access the existing valet operation. Patrons would turn from East Lafayette Avenue north onto St. Antoine Street and into the garage. The petitioner anticipates working in the future to modify the Lafayette Street exit from I-375 to allow a turn at the top of the ramp directly onto Macomb Street. This modification has not yet been reviewed by the Michigan Department of Transportation (MDOT) but has been studied by the petitioner's traffic consultant. Presently, this turn is technically not allowed, though the sign prohibiting it has been missing for quite some time. The Macomb Street entrance/egress will of course, have to be approved by the Department of Public Works' Traffic Engineering Division (TED) prior to City Council's approval of the plans.

The **materials** of the building are

masonry on the first two levels, in horizontal bands of traditional red brick veneer and beige precast panels. The upper floors on the east, west, and the ends of the north façades will have a modular semi-transparent screen system, similar to that of the casino hotel's parking garage. This will serve to screen the cars from view. The top of the building, forming a kind of cornice, will be of gray precast concrete with stone aggregate for color and texture. The first floors of the east and west façades will contain false storefronts of spandrel glass. Additionally, the eastern side will have an actual retail storefront with traditional glass. The stair tower on the east will be made of a tinted glass curtain wall, similar to the glass in the casino hotel. This will add color and visual interest to the building.

The columns of the building will be of gray precast concrete with stone aggregate for color and texture, with relief accents. On the first and second floors of the north façade, the **openings** between the columns will have a woven wire security mesh, very similar to that used on the MGM Casino self-park garage. This mesh will be painted black to reduce its visibility. Two metal accent mullions will be placed vertically between each column along the north façade to help to visually break up this long wall. The **canopy** over the customer entrance/exit will be metal-clad. The south façade of the building, facing the alley, will be of plain precast concrete, with the exception of the ends (at Beaubien and St. Antoine), which will have the tinted and textured masonry and screen system of the rest of the building.

**Sidewalk lighting** is proposed under the northern colonnade and street lighting would be mounted to the building for Macomb Street, replacing the existing PLD light poles. **Signage** is shown for illustrative purposes only, to show size, location, and character. The CPC requires final signage to come back for staff review, as was done with previous casino developments. Two blade signs are proposed, one at the corner of St. Antoine and Macomb, facing St. Antoine, and the other on the Macomb façade. Signage is also proposed on the awnings over the vehicular access points. Two future signage display areas are called out, one on the western end of the Macomb façade and one of the eastern side of the alley façade (signage is intended for a relationship to vehicular traffic on St. Antoine; other primary vantage points would be from the hotel, and hotel bridge.)

#### **Skywalk**

A skywalk connecting the proposed garage with the existing casino is proposed over the existing, to-be-demolished Laikon Café (569 Monroe). The skywalk materials palette will be similar to that of the existing hotel/casino skywalk (glass

and metal). The casino will purchase and demolish the Laikon property and rebuild new ground floor tenant space in conjunction with the skywalk, in order to maintain the continuous commercial frontage along Monroe Street. This skywalk will also require an encroachment permit over both the east-west alley between Macomb and Monroe and over Monroe Street. This block of Monroe Street is on the National Register of Historic Places and Trapper's Alley has a local façade easement.

#### **Parking dimensions**

Eight hundred fifty, nine (9)-foot by eighteen (18)-foot valet parking spaces are proposed in the new deck. This parking space size is two (2) feet shorter than the twenty feet required in Sec. 61-14-151(1). The petitioner is requesting these smaller spaces due to the narrowness of the site, even with the cantilevering over Macomb Street. On the first floor there will be 50 drop-off locations and approximately 23 pick-up locations, a large increase over the existing garage. Parking is also proposed on the top level/roof.

#### **SURROUNDING LAND USES AND ZONING**

To the north: Detroit Police Headquarters and Wayne County Juvenile Detention Center — B4 (General Commercial District) and PD

To the south: Commercial uses (B6 — General Services District)

To the east: Greektown Casino Hotel — SD5

To the west: Commercial uses — B6

#### **MASTER PLAN**

The Master Plan future general land use for this site is Special Commercial. The proposed use has been found to be consistent with this designation by the Planning and Development Department.

#### **PUBLIC HEARING RESULTS**

At the July 17, 2011 public hearing on this matter, no members of the public spoke. The Planning Commissioners questioned the necessity of the perpendicular parking and its resultant standard aisle or parking stall width and why the current garage or sharing other garages in the area are unable to address the petitioner's valet parking needs, stating that there appears to be a large number of parking garages in the area of the casino.

The petitioner addressed these matters, stating that substituting angled parking would reduce the parking capacity of the garage by approximately 300 spaces, necessitating adding several floors to the height of the garage to achieve the same number of parking spaces as are being requested. Regarding the large number of parking garages in the area, the petitioner stated that one area business, Blue Cross Blue Shield, is in discussions to use the casino's parking during the day, and that the majority of the area parking garages

are owned by businesses that use them exclusively for their patrons and employees. A commissioner also requested that staff contact the Detroit Fire Department to verify their comfort with the site plan. CPC staff has sent the site plans to that department and is awaiting their comments. Generally, they are concerned with access to the site, clearance under the proposed cantilever, etc. The site is still surrounded on all sides by public right-of-way and the distance to the bottom of the cantilever was approved in other locations, so no issues are anticipated.

#### **ANALYSIS AND FINDINGS**

Sec. 61-11-265 of the zoning ordinance contains the following criteria for rezonings to SD-5. The CPC's analysis of the proposal follows the criterion in italics.

(1) The proposed development shall be consistent with and promote the goals of the City's Master Plan of Policies; *It appears to be consistent with the Master Plan.*

(2) The proposed development shall promote pedestrian and transit linkages to other activity areas; *The sky bridge links the garage to the casino and the retail on the Beaubien side will attract pedestrians. The existing casino already incorporates the Greektown station of the Detroit People Mover.*

(3) The proposed development shall be appropriate to and compatible with surrounding development in terms of scale, form, massing, land use, general appearance, function, signage, and lighting recognizing the unique functional characteristics of a casino or casino complex; *The scale and massing seem to fit into the area, which contains many different scales and massings, from single-story stores to the Wayne County Jail and Casino Hotel. The use fits with the commercial character of the area and its appearance is a mix of the area's traditional masonry and the modern materials of the adjacent hotel.*

(4) The proposed development shall include adequate circulation, off-street parking, and loading facilities to meet expected parking and vehicular and pedestrian traffic demands; *The large amount of internal queuing space should avoid on-street congestion.*

(5) The proposed development shall provide amenities and public facilities to promote safety, comfort and convenience, including barrier-free access for visitors, employees, and the general public; *There is a waiting area in the garage and it is barrier-free.*

(6) The proposed development shall contain quality urban design elements and design features including those which promote public safety, facilitate maintenance and repair, and provide appropriate screening and buffers; *The lighting under the proposed colonnade will facilitate pub-*

lic safety. The materials chosen add quality urban design elements.

(7) The proposed development shall be sensitive to buildings in the immediate area which have architectural or historic value. *This appears to be true within an area of eclectic design.*

The proposed new garage would greatly increase the ability of Greektown Casino to conduct valet-parking operations. The proposed height of the building seems appropriate for the district, with some structures bring taller (the Police headquarters, Wayne County detention facilities) and some lower (the commercial area to the south). The appearance of the building combines traditional masonry materials from the area along with modern materials from the casino hotel. The cantilevering of the garage over Macomb Street certainly changes the nature of that historic street, though the street is not heavily used and the neighbors to the north are the Detroit Police Headquarters and Wayne County Juvenile Detention Center, neither of which is particularly sensitive to the appearance of neighbors. The removal of the on-street parking on Macomb would have to be enforced, as it is convenient for law enforcement personnel to park on that street. The proposed use is consistent with the Master Plan. The vehicular access issues still need to be approved by DPW/TED.

**CONCLUSIONS**

In general, the proposed Macomb Street parking structure is carefully designed and proposes high quality, attractive materials and treatment. However, the casino is requesting the city to authorize sub-standard dimensioned parking stalls and aisles in the proposed parking structure to offset the competitive advantage the other two Detroit casinos have from their more efficient and convenient valet/VIP parking operations. To its credit, Greektown casino has uniquely chosen to develop its complex within the existing urban fabric of a vibrant corner of the Central Business District. That choice, however, brings with it the challenge of satisfying the Zoning Ordinance is constricted surroundings.

The CPC notes that the casino refers to, and has designed the parking structure as, a “valet” structure. The Zoning Ordinance squarely addresses “valet parking”:

**Sec. 61-14-98. Valet parking.**

Valet parking shall not relieve a land use from providing the minimum number of off-street parking spaces with properly sized vehicle stalls and specified aisle widths as would apply to a “self-park” plan or layout.

- The CPC believes it makes good sense to have “properly sized vehicle stalls” and “specified aisle widths” especially with the number of SUV’s and large vehicles on the road.

- This Zoning Ordinance provision reflects the prospect that “valet parking” is not necessarily “forever.” Land use come and go; parking structure owners come and go.

- A parking structure operator could switch from valet parking to “self-park” unbeknownst to the City and the general public would then be subject to parking in a cramped structure that is more susceptible to mishaps and conflict.

- The city would be naïve to anticipate that a parking structure owner would voluntarily reconfigure and re-stripe a parking structure to reflect Code-mandated parking stalls and aisles in the event a valet structure were converted to self-park.

- The city would be naïve to anticipate that a new parking structure owner wouldn’t argue for a parking stall and aisle variance for an already built and approved substandard configuration that was designed for valet and subsequently switched to self-park.

The casino argues that providing parking stalls and aisles per Code would create a taller structure by adding ramps and levels to accommodate the casino’s desired number of parking spaces.

- The CPS notes that the casino can choose to provide fewer valet spaces; the casino is not deficient in the number of required off-street parking spaces.

- The casino already has a valet parking structure at Beaubien/East Fort that is part of the “casino complex” on land zoned SD5; unless the (Beaubien/Fort) land were to be rezoned, the principal use of that structure must be related to the casino. If a per-Code parking structure on Macomb cannot handle the volume, the casino is not without alternatives — including using the Beaubien/Fort parking structure for overflow valet.

- If the Macomb Street land were still zoned B6, the same as the Monroe restaurant block, the maximum permissible height would be 80 feet, only about 7 feet more than depicted on plans for the 7-level structure.

- The casino could consider the addition of one more parking level while making parking stalls and aisles per standard dimensions.

In its “specific use standards” the Zoning Ordinance provides some latitude, as provided in Sec. 61-12-220, even with the limitations of the aforementioned Sec. 61-14-98:

**Sec. 61-12-220. Parking structures.**

Parking structures shall be subject to the following provisions:

(1) The dimensions of parking spaces in a parking structure shall be nine (9) feet by twenty (20) feet as specified in Sec. 61-14-151 of this Code, except that not more than twenty percent (20%) of the total number of spaces may be striped to smaller dimensions, provided, that all

such spaces are located in those areas of the structure most remote from street-level ingress and egress and from direct access points to adjacent buildings. No other administrative adjustment of parking space dimensions may be granted.

- As many as 20% of the parking spaces on the uppermost levels could be striped to smaller dimensions and still satisfy the Zoning Ordinance; access to the skywalk connecting with the casino is on the 3rd level of the parking structure.
- Although Sec. 61-12-220 would prohibit any administrative adjustment to the 9' x 20' parking space dimension on 80% of the parking structure's parking spaces, it does not prohibit an administrative adjustment to the parking aisle.
- If 80% of the parking spaces on the lower levels were striped to 9' x 20', a not-more-than-10% adjustment to the 20' aisle width dimension could be considered.
- The north module is 58' overall: consider 9' x 20' stalls and 18' drive aisle.
- The south module is 59' overall: consider 9' x 20' stalls and 19' drive aisle.

#### RECOMMENDATION

The CPC took action at its July 21, 2011 meeting to recommend approval of the requested rezoning from PD to SD5 and that the related site plans and elevations be approved, provided that the plans prepared by Hamilton Anderson and dated June 8, 2011 are adjusted to reflect the following:

1. That parking spaces be dimensioned at 9' x 20' consistent with Sec. 61-14-151(1);
2. That, where the applicant determines it unfeasible to develop the parking structure with all parking spaces dimensioned at 9' x 20', not more than 20% of the structure's parking spaces may be striped to smaller dimensions on the uppermost levels, consistent with Sec. 61-12-220(1);
3. That, where the applicant determines it unfeasible to develop the parking structure with all aisles dimensioned at 20' in width, City Council authorize an administrative adjustment of not more than 10% for aisle width, consistent with Sec. 61-4-82(1);
4. That, where the applicant determines it is necessary to develop the parking structure at a greater height than proposed (73 feet) in order to meet all minimum dimensional standards for parking structures, one (1) level may be added to the parking structure, provided an appropriate treatment of the south façade is indicated for any portion of that façade visible at eye level from the sidewalk on the south side of Monroe Street;
5. That final site plans and elevations, including signage and lighting, be reviewed and approved by City Planning Commission staff prior to the issuance of building permits.

In addition, the CPC recommends approval of the pending encroachment petitions before City Council for the sky bridge over the east-west alley south of Macomb Street and over Monroe Street.

**RESOLUTION TO OPPOSE THE IMPLEMENTATION OF WELFARE REFORM BILLS 4409 & 4410 REMOVING MORE THAN 12,000 FAMILIES FROM GOVERNMENT ASSISTANCE**

By COUNCIL MEMBER WATSON, Joined by ALL COUNCIL MEMBERS:  
WHEREAS, Welfare Reform Bills 4409

and 4410 have passed both the Michigan House and Senate. The dual bills amend Michigan's Social Welfare Act and makes drastic revisions to the Family Independence Program (FIP), which targets cash assistance for low-income families with children; and

WHEREAS, This legislation will discontinue welfare assistance for over 12,000 Michigan families and potentially 25,000 children immediately. According to the Michigan League of Human Services during a recent county-by-county assessment revealed that over half of the recipients affected by Governor Snyder's welfare reform reside in Wayne County and specifically the City of Detroit; and

WHEREAS, The Department of Human Resources sent out on August 9, 2011, correspondence to an estimated 14,000 Michigan families stating, that "Your federal lifetime limit for cash assistance will likely be reached on October 1, 2011". The policy will be applied retroactively, meaning that any family reaching the allotted 60-months on or after the Oct. 1 deadline will be cutoff immediately; and

WHEREAS, While the nation's economic woes persist, state republican leaders are taking draconian measures in the name of saving money. While our children will suffer the most at a time when state unemployment is an estimated 10.5 percent and the City of Detroit has an estimated 64 percent unemployment rate; arguably the highest unemployment in the nation against the back drop of the State of Michigan reducing unemployment benefits (from 26 weeks to 16 weeks) to the lowest benefits in the nation; and

WHEREAS, The most recent *Kids County survey* found that child poverty has increased by 64 percent over the last decade in Michigan and a third of the kids here now live in homes where no one has a stable full-time job. THEREFORE BE IT

RESOLVED, That the Detroit City Council directs its Research and Analysis Division to investigate the dramatic impact and egregious harm that these bills could potentially cause to citizens of the City of Detroit, Michigan, and further that a hearing be held inviting citizens to provide testimony and social welfare agencies and advocates an opportunity to address the impact.

**RESOLUTION  
TO SUPPORT THE REFERENDUM  
AND REPEAL OF PUBLIC ACT 4**

By Council Member Watson:

Whereas, On March 16, 2011, the Governor of the State of Michigan signed into law, Public Act 4 of 2011, the "Local

Government and School District Fiscal Accountability Act", and

Whereas, This act vastly expands the powers granted to Emergency Managers, in a fashion that challenges to dismantle Democracy in Michigan cities, towns, villages, counties and school districts, and

Whereas, This act allows appointed managers to assume broad and complete authority in the designated local municipality, without transparency or accountability; this law gives expanded power to elite bureaucrats to sell public assets, shred public contracts and dissolve governments and remove elected officials, and

Whereas, The number of municipalities and school districts in Michigan under emergency management should not be increased but reduced; their expanded powers eliminate accountability to the citizens of Michigan in local government and fog the regular checks, balances and transparency found in Democracy, and

Whereas, Changes in Michigan's business tax system under the Snyder administration has created a \$1.7 billion deficit, this deficit is being leveraged on Michigan's core communities with reduced shared revenue, higher taxes on seniors and working families; diminishing local revenue flow, and

Whereas, The State of Michigan's \$220 million debt with the City of Detroit, prolongs the city's ability to emerge from deficit and achieve financial stability, and

Whereas, The drastic changes in revenue sharing places Detroit and many of Michigan's core communities and school districts at risk of receivership and under total control of elite bureaucrats; the people of the State of Michigan can repeal Public Act 4 through the election process, using the power of Democracy by initiating a ballot referendum on this legislation; and

Now, Therefore Be It

Resolved, The Detroit City Council supports the referendum and the repeal of Public Act 4 of 2011, and

Be It Finally

Resolved, The Detroit City Council urges local elected officials, elected State Representatives and Senators, and the people of the State of Michigan to support the repeal of the "Local Government and School District Fiscal Accountability Act."

(During August, DWSD notified eligible customers that their delinquent water bills were subject to referral to the City of Detroit Treasurer, etc. which resulted in the long customer lines. The center is the busiest of the three payment centers DWSD operates, as well as the smallest; and the City of Detroit Fire Marshal dictates the number of occupants allowed in the building at one time; and DWSD Security monitors the line and makes appropriate exceptions for seniors and the infirm, etc. The department has explored various options to expand the customer's ability to make water bill payments along with leveraging technology to enhance customer self service, etc.)

**RESOLUTIONS**

28. Council President Charles Pugh submitting Resolution to Establish a Regional Transit Authority. (Resolution calls on both Mayor Dave Bing and both the executive and legislative bodies of Wayne, Oakland and Macomb County to support the establishment of a Regional Transportation Authority; and calls the Governor and the Michigan legislature to take action to ensure passage of all necessary, related legislation in the Michigan House of Representatives and the Michigan Senate.)

Nays — None.

**PUBLIC COMMENT**

**ART PAPANOS** respectfully requested that the City Council bring back the resolution approving the Gateway Brownfield plan.

**KIM TANDY** stated that the community had an opportunity to meet with the developers of the Gateway project. She stated that they were by no means satisfied with the outcome and still disapprove of the project as it has been submitted to the City and the community. The developer stated that an upscale mall concept was too expensive and would never happen in Detroit.

**GLEN WASH** stated that the City does not have a Planning and Development Department. Mr. Wash feels that any time you have someone who wants to spend a few million dollars in the City and can't even get a return call, that's not a Planning and Development Department. There is an internal problem here that needs to be rectified. The City has got to get competent people promoting and perpetuating the growth and rebirth of this City and we don't have that currently.

**DEMPSEY ADDISON** stated that in October 1, 2011 about 6,000 families will be dropped by the welfare roll. Ninety percent of head-start children are on some form of public assistance. On October 1st people are going to be coming to the Department of Human Services on Grandy and we won't be there. Ms. Addison asked the Council to not approve the move of Grandy to the Health Department. Please intervene and stop this nonsense.

**ALBERT GARRETT** stated that he had to come to the Council table because there seems to be an attack taking

place on the privatization ordinance. The ordinance does not prohibit privatization but says to the City of Detroit, you have a responsibility to look at outsourcing and a methodology that makes sense.

**RICHARD MACK** stated that the City's proposed changes to the privatization order violate the Charter. Mr. Mack asked that item #62 of the agenda not even be considered or put forth for a public hearing.

**CRYSTAL CRITTENDON** stated that the record had been grossly misconstrued. The privatization ordinance and the collective bargaining agreement are two different creatures. The unions have negotiated for outsourcing in their collective bargaining agreements. The City of Detroit cannot change the contract through enactment of an ordinance.

**RUTH JOHNSON**, Transportation Riders United, stated that in all the conversations regarding transportation she did not hear that there was a plan in place to deal with discipline.

**PASTOR W.J. RIDEOUT, III** stated that there was an abandoned building at 5201 French Rd. across the street from a middle school.

**LAWRENCE DILWORTH** stated that from a disabled person perspective, he has an even bigger problem than regular bus riders. The buses only have two spots on the bus for handicapped persons and if those are full then the bus driver is supposed to call in a ride for him. The ride is supposed to be there within a half an hour, but never does.

**GREG MURRAY** stated he was against the move of Grandy to Herman Kiefer.

**JOE McLEMORE** stated that he did the contract for the summer lunch program and never got paid. Mr. McLemore asked that the Council please help him in getting paid.

**MICHAEL D. BARTOW** asked the Council how much longer they were going to ignore a 1.7 billion dollar investment into the City of Detroit.

**GINA THOMPSON-MITCHEL**, President of AFSCME Local 1642, stated that she was against the move from Grandy to Herman Kiefer.

**CLAUDE LYONS** spoke against privatization.

**MOTHER HOLMES** prayed for the Council and the City of Detroit.

#### **City Planning Commission**

September 7, 2011

Honorable City Council:

Re: Special District Review: Expansion of parking lot for the University of Detroit - Mercy at 651 East Jefferson Avenue (Recommend Approval).

The staff of the City Planning Commission (CPC) received a request to review the expansion of the parking lot for the University of Detroit - Mercy (UD-M) at 651 East Jefferson Avenue between St. Antoine Avenue and the Chrysler Freeway service drive. The PCA (Public Center Adjacent, Restricted Central Business District) zoning classification in which the building is located calls for City Council approval of the location and design of any exterior change following the review and recommendation of CPC and the Planning and Development Department (P&DD) (Sections 61-3-182 and 61-11-96 of the Zoning Ordinance). CPC and P&DD staffs have reviewed the

proposed expansion and submit this report and recommendation. The resolution approving the expansion is also attached.

#### PROPOSED DEVELOPMENT

UD-M has an existing parking lot to the east of their building on E. Jefferson Avenue, between the building and the gas station. The school is requesting to expand that parking lot by adding seven (7) parking spaces along the southern edge, perpendicular to E. Jefferson Ave. Also proposed is the required five (95) foot wide landscape buffer between the parking area and the right-of-way and the interior landscaping for the new part of the parking lot. The parking lot is screened from E. Jefferson Ave. by a hedge and street trees, as required by Sec. 61-14-221(1)(b).

#### REVIEW

In accordance with the Special District Review provisions of Sec. 61-3-185 of the Detroit Zoning Ordinance and the PCA provisions of Section 61-11-96, the criterion that "Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and parking areas should be provided" is relevant. The proposed expansion appears to meet the requirements of City Code and the criteria of the PCA provisions.

#### RECOMMENDATION

CPC staff has completed its review of the proposed parking lot expansion, as has the Planning and Development Department staff. We find the proposed expansion to be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed expansion as depicted on the attached plans dated 8/25/11, prepared by Spalding DeDecker Associates, Inc.

Please find attached the appropriate resolution to effectuate your approval.

Respectfully submitted,

By Council Member Jenkins:

Whereas, The University of Detroit - Mercy (UD-M), located at 651 East Jefferson Avenue, has requested to expand its parking lot to the east of the building; and

Whereas, The building is subject to the provisions of Sec. 61-3-185 (Special District Review) and Sec. 61-11-96, the PCA (Public Center Adjacent, Restricted Central Business District) zoning classification of the Detroit Zoning Ordinance; and

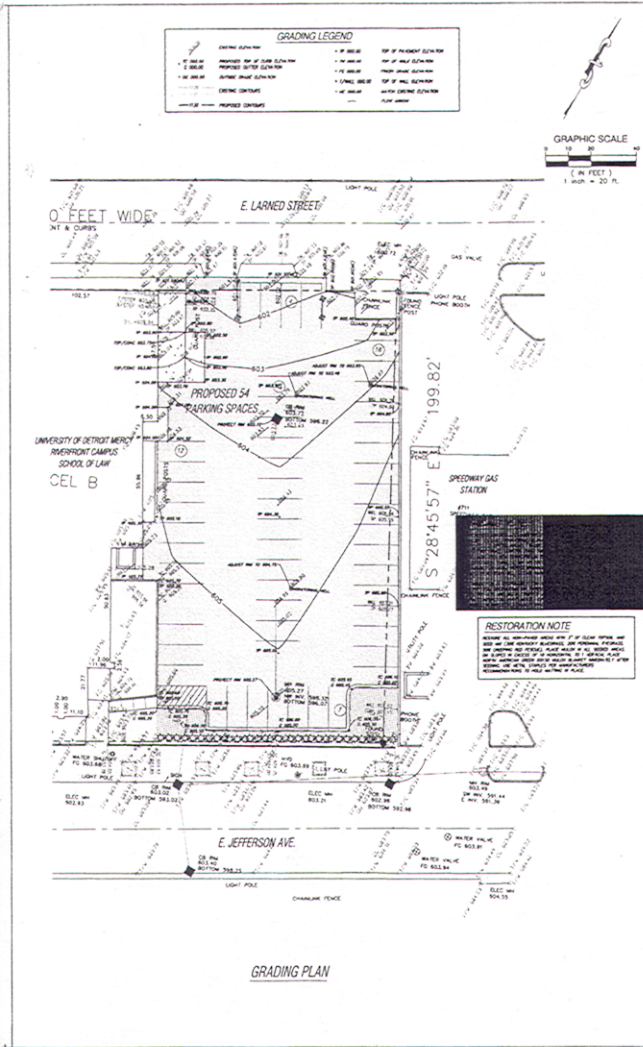

Whereas, The PCA zoning district classification requires that any exterior change within a PCA district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, Both the Planning and Development Department and the staff of the City Planning Commission have reviewed the proposal in order to ensure that the proposed expansion is in keeping with the spirit, purpose and intent of the PCA zoning district classification; and

Whereas, The proposed expansion meets the landscaping and buffering requirements specified in Sec. 61-14-221; Now, Therefore Be It

Resolved, That the Detroit City Council approves the location and design of the parking lot expansion for UD-M, located at 651 East Jefferson Avenue described in the foregoing communication from the City Planning Commission staff and shown in the drawing dated 8/25/2011 and prepared by Spalding DeDecker Associates, Inc.

**Brownfield Redevelopment Authority**  
September 8, 2011

Honorable City Council:  
Re: West District Brownfield Redevelopment.

The enclosed Brownfield Plan for the West District Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"), has been considered and

reviewed by the CAC and a public hearing was held by the DBRA on September 1, 2011 to solicit public comments. At its August 30, 2011 special meeting, the CAC considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA.

On September 7, 2011, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City

Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

#### Project Introduction

The development team for the combined properties includes Whitney Partners, LLC and the City of Detroit Downtown Development Authority (collectively the "Developer"). This Plan will redevelop seven separate Eligible Properties that includes significant historic buildings located in the West District of Detroit's Central Business District. The combined projects encompass the phased redevelopment of the properties into a mixed-use, mixed-income district of residential apartments, street-level retail, office, transit connections and a boutique hotel. In total the project will create up to 350 residential units, 130 hotel rooms, 12 retail units and 100,000 square feet of commercial space encompassing over 700,000 square feet of total development square footage. Total eligible investment is estimated at over \$150 Million with a potential credit of \$18,772,500.

#### Property Subject to the Plan

The properties comprising the Plan consist of seven parcels locate at 1413, 1520, 1528 and 1553 Woodward and 1145, 1212 and 1249 Griswold in Detroit's West District of the Central Business District.

#### Basis of Eligibility

The Properties are considered to be "eligible property" as defined by Act 381, Section 2 because (a) the Properties were previously utilized for a commercial purpose; (b) are located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Properties are determined to be functionally obsolete as defined by Act. 381.

#### Eligible Activities and Projected Costs

The "Eligible Activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec. 2 of Act 381, because they include demolition and site preparation. The eligible activities and budgeted costs are intended as part of the development of the Property and will be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt. It is currently anticipated that construction will begin in the spring of 2012 and will be completed within three (3) years.

#### Tax Increment Financing (TIF) Capture

The Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. Tax increment financing of the costs of eligible activities under this Plan will not take place and this Plan shall not have a negative impact

upon the tax revenues of any taxing jurisdiction in which the eligible property is located.

#### Other Development Incentives

The properties included in this Plan may seek additional project support through an Obsolete Property Rehabilitation Act (OPRA) abatement, Federal Historic Tax Credits, State Historic Tax Credits, New Markets Tax Credits and Neighborhood Stabilization Program funding.

#### Comments Received

The Committee's communication to the City Council and the Authority dated August 30, 2011 (Exhibit C), recommending approval of the Plan, including the minutes of the public hearing held by the Authority on September 1, 2011 are enclosed for the City Council's consideration.

#### Authority's Request

The Authority is respectfully requesting the following actions from the City Council:

- a) September 13, 2011  
Referral of the West District Brownfield Redevelopment Plan to Detroit City Council Planning and Economic Development Standing Committee on September 15, 2011.

Re: 4265 Woodward Brownfield Redevelopment.

The enclosed Brownfield Plan for the 4265 Woodward Redevelopment Project (the "Plan") (Exhibit A), submitted by the

Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"), has been considered and reviewed by the CAC and a public hearing was held by the DBRA on September 1, 2011 to solicit public comments. At its August 30, 2011 special meeting, the CAC considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA.

On September 7, 2011, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

4265 Woodward, LLC is the project developer ("Developer"). The Plan entails the rehabilitation of a vacant, two-story building into four units of rental housing and 3,650 square feet of first floor commercial restaurant space. Total investment is estimated at \$1,608,250.00. On June 28, 2011, the Developer received an invitation letter from the Michigan Economic Development Corporation for a 12.5% Michigan Business Tax (the "MBT") credit of \$102,031 on an eligible investment of \$816,250.00.

Property Subject to the Plan

This property comprising the Plan consists of one parcel located at 4255-4265 Woodward Avenue in Detroit's Midtown neighborhood, bounded by West Canfield Street to the north, Woodward Avenue to the east, West Willis Street to the south and a public alley to the east.

Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for a commercial purpose; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be functionally obsolete as defined by Act 381.

**City of Detroit  
Brownfield Redevelopment Authority**

Honorable City Council:

Re: Woodward Millennium Brownfield Redevelopment Amendment.

The enclosed Brownfield Plan for the

Woodward Millennium Redevelopment Project Amendment (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"), has been considered and reviewed by the CAC and a public hearing was held by the DBRA on September 1, 2011 to solicit public comments. At its August 30, 2011 special meeting, the CAC considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA.

On September 7, 2011, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan Amendment is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan Amendment. After the public hearing, the City Council shall determine whether the Plan Amendment constitutes a public purpose and, if so, may approve or reject the Plan Amendment or approve it with modifications.

The Plan includes an eligible property consisting of two (2) parcels, 3670 and 3680 Woodward (collectively, "3600 Woodward"), which have been determined to be "facilities" pursuant to Part 201 of the Natural Resources and Environmental Protection Act. The Plan originally called for 3600 Woodward to be an urban mixed-used development that would consist of 135 garden style apartment units, 45 loft style condominium units, approximately 20,000 square feet of street-level retail and a 810 space parking garage. The project description in the Plan was quite detailed and described the 20,000 square feet of retail as "neighborhood-oriented retail" being located on the street level of the loft building facing Woodward Avenue.

The proposed change to the project description of the Plan is the replacement of the 135 unit, garden-style apartment building with a Whole Foods grocery store on the back parcel of the development. The original project description calls for a mixed-use development that describes the retail portion of the project in such great detail that it limits the definition of retail. As such, the Staff of the DBRA recommends that the Plan be amended in order for the DBRA and the Detroit City Council to determine whether the development of a grocery store on the eligible property serves a public purpose.

#### Comments Received

The Committee's communication to the City Council and the Authority, dated August 30, 2011 (Exhibit C), recommending approval of the Plan including the minutes of the public hearing held by the Authority on September 1, 2011 are enclosed for the City Council's consideration.

#### Authority's Request

#### **Brownfield Redevelopment Authority**

September 8, 2011

Honorable City Council:

Re: Carpenter Road Brownfield Redevelopment Amendment.

The enclosed Brownfield Plan for the Carpenter Road Redevelopment Project Amendment (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"), has been considered and reviewed by the CAC and a public hearing was held by the DBRA on September 1, 2011 to solicit public comments. At its August 30, 2011 special meeting, the CAC considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA.

On September 7, 2011, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a

request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan Amendment is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan Amendment. After the public hearing, the City Council shall determine whether the Plan Amendment constitutes a public purpose and, if so, may approve or reject the Plan Amendment or approve it with modifications.

The Plan includes an eligible property located on the east side of Detroit, consisting of two (2) functionally obsolete parcels, Parcel A and Parcel B. The eligible property was formerly known as the Greater Detroit Hospital, which closed in 2000. The Plan originally called for Parcel A to be redeveloped into a modern medical office building in order to serve an underserved neighborhood that spans the Detroit-Hamtramck border. Additionally, the Plan calls for Parcel B, which was formerly used as an annex to the Greater Detroit Hospital, to be redeveloped into an assisted-living facility and an associated parking lot.

The proposed change to the project description of the Plan is that Parcel A will be redeveloped into a charter school instead of a modern medical office building. Given the current borrowing markets, the developer was not able to obtain sufficient financing to proceed with the planned medical office building and instead determined that it was prudent to revise the plan and renovate the 3105 Carpenter building into a charter school and then renovate and continue the existing use of the medical office building at 3120 Carpenter Road in Hamtramck. The new overall investment about is \$5 Million with an eligible investment amount of \$3,585,278.

This proposed change in the project description materially differs from the original project description that was considered by the City Council. As such, the Staff of the DBRA recommends that the Carpenter Plan be amended in order for the DBRA and the Detroit City Council to determine whether the development of a charter school on Parcel A serves a public purpose.

#### Comments Received

The Committee's communication to the City Council and the Authority dated August 30, 2011 (Exhibit C), recommending approval of the Plan, including the minutes of the public hearing held by the Authority on September 1, 2011 are enclosed for the City Council's consideration.

#### Authority's Request

The Authority is respectfully requesting the following actions from the City Council:

- a) September 13, 2011

Respectfully submitted,  
MARJA M. WINTERS

COMMERCIAL REHABILITATION  
EXEMPTION CERTIFICATE**

**Re: *Description of Facility***

The facility consists of two (2) rectangular shaped parcels totaling approximately 0.62 acres near the southeast corner of Cass and Warren Avenues in Detroit, Michigan. An approximate 0.18 acre located at 4846 Cass Avenue contains an approximate 1,650 square foot reading room constructed in 1939. The balance of the site, an approximate 0.44 acre parcel of land located at 4828 Cass Avenue, contains an approximate 8,250 square foot church building. Both buildings are one (1) story and were used by the First Church of Christ, Christian Scientist, for worship, reading room and office related activities until October of

2007. The Church vacated the buildings at that time and the buildings have been vacant since November of 2007.

**Re: *Proposed use***

The existing buildings are to be demolished and replaced by a four (4) story mixed-use commercial building. The first (1st) level of the new building will contain approximately 6,200 square feet of retail space and 7,400 square feet for residential use, management offices and common facilities, such as a fitness room. The first level will also have twenty (20) parking spaces for tenants and occupants of the building.

Levels 2 through 4 of the new building shall each contain approximately 21,000 square feet comprised of twenty-five (25) units of studio, one (1) bedroom and two (2) bedroom apartment units. Each of these floors has a total of forty-three (43) bedrooms.

The residential component of the project will have a total of eighty-one (81) separate apartment units containing one hundred forty (140) bedrooms.

**Re: *Nature and Extent of Rehabilitation***

All buildings and other improvements currently located at the property will be demolished and will be replaced by the new improvements described on the Proposed use Exhibit. It is anticipated that the total project cost, including land acquisition, construction and related development costs, will be approximately \$9,500,000.00.

**Re: *Time Schedule***

Once the district is established, the existing buildings will be expeditiously demolished. Promptly after completion of the demolition, construction of the new improvements will begin. It is anticipated that demolition and construction will take approximately thirteen (13) months. Financing has been obtained and the applicant is prepared to begin immediately after establishment.

**Re: *Economic Advantages***

The existing buildings have been vacant since November of 2007 and have begun to be victimized by vandalism. The existing parking areas located at the property are currently being operated as a parking lot, but this operation does not prevent nocturnal vandalism.

The contemplated demolition and construction activities will create employment for approximately 80-100 construction workers. Once construction is completed, it is anticipated that the employment staff of the residential component of the project and the retail tenants will provide new employment for approximately 25 people. It is anticipated that these new employees will earn, collectively, between \$500,000 and \$1,000,000 annually. The 140 residents of the facility will create 140 new consumers and potential employees for the University Cultural Center area. These

140 residents will spend \$1,500,000 to \$2,000,000 annually in the University Cultural Center area.

The facility is the first of its kind at or near the Wayne State University campus which incorporates state of the art residential standards and technological services. Based upon the WSU Master Plan, which contemplates the development of at least three thousand (3,000) new residential units by the private sector near campus, it is anticipated that the success of this development will confirm the demand for new and additional housing in the area for students of both WSU and the Center for Creative Studies, and for personnel employed by DMC, and at Tech Town and ancillary facilities. If additional housing is created for just 1,500 new residents, it would mean \$100,000,000 of additional real estate development in the area. As this demand begins to be satisfied, other retail and office opportunities in the area should also be created.

**COMMERCIAL REHABILITATION  
EXEMPTION CERTIFICATE  
AGREEMENT  
P.A. 210 of 2005**

THIS AGREEMENT, made this **11th** day of **August, 2011** by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and UrbCamCom/WSU I, LLC, ("Applicant").

WITNESSETH:

WHEREAS, The Applicant has submitted an Application ("Application"), a copy of which is attached hereto as Exhibit "A," to the City for adoption of a resolution giving the City's approval of a Commercial Rehabilitation Exemption Certificate pursuant to Public Act 210 of 2005, of the Michigan Compiled Laws for real property located in the area of **4830 Cass Avenue, Detroit, Michigan 48201**; and

WHEREAS, It is the policy of the

Detroit City Council to use tax abatements allowed by the Act to encourage rehabilitation of commercial property that will facilitate redevelopment, remove blighted conditions and expand the tax base for the City of Detroit; and

WHEREAS, This policy supports the City of Detroit's Economic Development strategy to identify and facilitate opportunities for clean up and redevelopment of commercial sites; and

WHEREAS, The Applicant is making real property improvements for the purpose of establishing a **Mixed-Use Commercial Building**; and

WHEREAS, As part of its application for the Commercial Rehabilitation Exemption Certificate, the Applicant represents that during the term of the Commercial Rehabilitation Exemption Certificate it shall not discriminate in its employment practices because of an indi-

vidual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take action to recruit and hire minority persons and women in accordance with Executive Order 2007-1; and

WHEREAS, To encourage approval of an Exemption Certificate and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. General.

The Applicant will make real property improvements, as forth in the Application.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. Annual Affirmative Action Report by Applicant.

On or before **October 4, 2013** and each year thereafter, throughout the term of the Commercial Rehabilitation Exemption Certificate, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report and a current Employer Information Report. If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

3. Review and Audit of Applicant Employment Information.

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for

all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

4. Revocation or Reduction of Term of Exemption Certificate for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of or revoke the Exemption Certificate if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project. Prior to taking any action to request reduction of the term or revocation, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this Agreement.

5.

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, an amount equal to the amount of ad valorem tax otherwise due on the Facility without the Commercial Rehabilitation Exemption, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

6. Reimbursement of City Costs upon Discontinuance of Operations.

a. To enable the Applicant to make the improvements as set forth in the Application, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the terms of the OPREC the Applicant shall discon-

tinue operations at the Facility, the Applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of this Agreement it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

#### 7. Applicant Representations.

In compliance with the Operating Procedure of the Commercial Rehabilitation Exemption Property Tax Abatements Under Public Act 210 of 2005 adopted by the Detroit City Council and intending to induce the City to grant the Commercial Rehabilitation Exemption Certificate to the Applicant, the applicant represents that:

a) The applicant is the owner of the property at the time of the application.

b) The facility to be rehabilitated will not include property to be used as a professional sports stadium.

c) The facility to be rehabilitated will not include property to be used, owned or operated by a casino or affiliated company as defined in the Commercial Property Rehabilitation Act.

d) The project would not have been considered without an exemption certificate.

e) The project is in compliance with the zoning ordinance and Master Plan.

f) If the investment to be made by the Applicant in the rehabilitation of the facility will be \$250,000 or greater, the Applicant will demonstrate a commitment to meet all requirements of Executive Order 2007-1, Executive Order No. 4 and Executive Order No. 14 during the rehabilitation of the Commercial facility by presenting an annual plan approved by the Human Rights Department.

g) The Applicant will submit to the Human Rights Department a Contract Compliance Report (Form EEO-1) and a current Employer Information Report (Form EEO-2). And if requested will also submit an Affirmative Action Plan, to set forth future affirmative action goals of the Applicant at the proposed Commercial property site and the means by which the applicant intends to effectuate those goals to demonstrate the Applicant's commitment to diversity in their employment.

h) If the rehabilitation of the Commercial facility will result in the provision of commercial housing, the Applicant must agree to Fair Housing Practices that meet

guidelines set forth by the U.S. Fair Housing Act (42 U.S.C. 3601 through 3619).

#### 8. Living Wage Ordinance.

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance, and the Applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this Agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

#### 9. Prevailing Wage Requirements.

The Applicant agrees that Detroit Ordinance ch 18, art 5, div 4 is made applicable to this Agreement by Section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which the Certificate is requested shall not be less than the rate prevailing in the City. See attached for a copy of the applicable Ordinance and the rates.

#### 10. Reservation of Remedies.

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgment, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

#### 11. Effective Date.

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of a Commercial Rehabilitation Exemption Certificate covering the facility, and shall be null and void and of no force or effect whatsoever unless the Michigan State Tax Commission issues a Certificate to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the Certificate is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. Transfer.

The Applicant agrees that this Agreement will be made a part of any transfer of the property, which is the subject of the Application (the property), in such a manner that the obligations of this agreement are made binding on the transferee. The Applicant agrees that any tax abatement applicable to the Property which is the subject of the application may only be transferred with the approval of the City and the Michigan State Tax Commission and that transfer of the obligations of this Agreement shall be a precondition to City approval of any transfer of the tax abatement. For purposes of this section a transfer of the property shall include any sale of the property or any lease of more than fifty percent of the total usable space for a period longer than five years.

13. Headings.

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this Agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

<b>Department of Public Works</b> July 20, 2011	
Honorable City Council: Re: Traffic Signal Removal at 14 locations. The following fourteen (14) signalized intersections are currently operating on full time "STOP control" mode for more than a year in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions. The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation. The traffic volumes have dropped significantly over the years at these locations and currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Traffic Engineering Division has installed necessary "STOP" signs. Traffic Engineering has not received any complaint in regard to the following flashing/STOP sign operated intersections.	

<b><u>No.</u></b>	<b><u>Street A</u></b>	<b><u>Street B</u></b>	<b><u>Flashing Date</u></b>	<b><u>Proposed Traffic Control</u></b>
1	Beaubien	Piquette	12/23/2003	All Direction "STOP"
2	Broadstreet	Kay	1/23/2004	2-Way "STOP"
3	Brush	Piquette	12/24/2003	All Direction "STOP"
4	Brush	Owen	12/23/2003	2-Way "STOP"
5	Canfield E	Chene	8/18/2009	2-Way "STOP"
6	Conner	Budd Co Dr (Conner Lane)	8/ 6/2009	"STOP" Not Required
7	Euclid W	Lawton	3/12/2007	All Direction "STOP"
8	Frederick	Van Dyke	12/12/2006	1-Way "STOP"
9	Frederick	Grand Blvd E	3/12/2007	2-Way "STOP"
10	Jefferson E	Kitchener	5/13/1998	1-Way "STOP"
11	Jefferson E	Eastlawn	5/21/2005	1-Way "STOP"
12	Lafayette E	E/O Chene	2/24/2009	"STOP" Not Required
13	McGraw	Rosa Parks Blvd	2/26/2004	2-Way "STOP"
14	Oakman Blvd	Woodrow Wilson	11/30/2004	2-Way "STOP"

The condition of the traffic signal equipment at all these locations is not up to the MMUTCD standards unless modernized. Since the signals are not warranted, modernization is not justified and federal funds will not be available to upgrade these traffic signals. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

As such, the Department of Public Works respectfully requests the adoption of the attached resolution for the removal of the traffic signals at the above mentioned fourteen (14) locations.

Respectfully submitted,  
**RON BRUNDIDGE**  
 Director

By Council Member Brown:

Honorable City Council:

Re: Easement for Water Mains and Sewers Granted to City of Detroit by Community Health and Social Service Center Inc. (CHASS) (EA 11-18).

We request that your Honorable Body authorize the Detroit Water and Sewerage Department to accept the grant of an easement for water mains, at no cost to the City, from Community Health and Social Service Center Inc. (CHASS). The Board of Water Commissioners approved this matter on June 22, 2011.

Community Health and Social Service Center Inc. (CHASS) is a non-profit corporation that operates a medical clinic and social service center for residents of Southwest Detroit. CHASS has provided services to Detroit residents for forty years. CHASS has recently begun construction of a new clinic building at West Fort St. and Junction St. in Southwest Detroit.

CHASS will be tapping a DWSD water main for the fire line in order to create a looped system which will allow the main building water supply to be shut off without interrupting service to the fire line. To accomplish that CHASS is granting DWSD's a 15' wide utility easement that can be used for the fire line, other water lines and sewers. A diagram of the area of the easement is included in the proposed agreement. CHASS will perform and pay for the work to be done.

**City of Detroit**  
**Brownfield Redevelopment Authority**  
July 13, 2011

Honorable City Council:

Re: Gateway Marketplace Brownfield Redevelopment.

The enclosed Brownfield Plan for the Gateway Marketplace Redevelopment Project (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority Board (the "DBRA") to the Community Advisory Committee (the "CAC"), has been considered and reviewed by the CAC and a public hearing was held by the DBRA on July 8, 2011 to solicit public comments. At its June 29, 2011 special meeting, the CAC considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the DBRA.

On July 13, 2011, the Authority adopted a resolution (Exhibit B) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

Project Introduction

Detroit Gateway Park Outlet Mall, LLC is the project developer ("Developer"). The Plan will consist of a service-oriented retail shopping center to be known as Gateway Marketplace. The project will consist of approximately 362,000 leasable square feet on 36 acres of land located at the southeast corner of Woodward

Avenue and Eight Mile Road in Detroit. The anchor tenants for the Plan are Meijer and Marshall's with Letters of Intent having been negotiated with a number of other national tenants. Total eligible investment is estimated at \$37,000,000 with an anticipated approximately \$5 Million Michigan Business Tax (MBT) Credit on the project.

#### Property Subject to the Plan

This property comprising the Plan consists of one parcel located at 20540 Woodward Avenue on Detroit's north side, bounded by Woodward Avenue to the west and Eight Mile Road to the north.

#### Basis of Eligibility

The Property is considered "eligible property" as defined by Act 381, Section 2 because (a) the Property was previously utilized for commercial and residential purposes; (b) it is located within the City of Detroit, a qualified local governmental unit under Act 381; and (c) the Property is determined to be a facility as defined by Act 381.

#### Eligible Activities and Projected Costs

The "eligible activities" that are intended to be carried out at the Property are considered "eligible activities" as defined by Sec 2 of Act 381, because they include due care activities. The eligible activities and budgeted costs are intended as part of the development of the Property and will be financed solely by the Developer. The Authority is not responsible for any costs of eligible activities and will incur no debt. It is currently anticipated that construction will begin in late 2011 and will be completed within three (3) years.

#### Tax Increment Financing (TIF) Capture

The Plan will not capture tax increment revenues for financing costs of eligible activities under this Plan. Tax increment financing of the costs of eligible activities under this Plan will not take place and this Plan shall not have a negative impact upon the tax revenues of any taxing jurisdiction in which the eligible property is located.

#### Other Development Incentives

The property included in this Plan is seeking additional project support through a New Markets Tax Credit.

#### Comments Received

The Committee's communication to the City Council and the Authority, dated June 29, 2011 (Exhibit C), recommending approval of the Plan including the minutes of the public hearing held by the Authority on July 8, 2011 are enclosed for the City Council's consideration.

#### Authority's Request

The Authority is respectfully requesting the following actions from the City Council:

##### a.) July 19, 2011

Referral of the Gateway Marketplace Brownfield Redevelopment Plan to Detroit City Council Planning and Economic

Development Standing Committee on July 21, 2011.

**TESTIMONIAL RESOLUTION  
FOR**

**THE 32ND LEE FAMILY REUNION**

By COUNCIL MEMBER WATSON:

WHEREAS, The Lee Family saga begins not unlike the story of many families of mixed heritage that have historical, cultural and genetic roots with peoples of the United States of America; and

WHEREAS, This story starts with the early 19th century kidnapping and enslavement of an adolescent, Native American girl called Klassic or Classic. She was probably of Algonquian and Powhatan heritage because the area where she lived was home to the Powhatan Confederacy that dominated much of Virginia before the British invasions of the 1600s. If so, Classic's distant relatives may have included the Powhatan Confederacy's founding Chief Wahunsunacock and his esteemed daughter, Pocahontas. Over thirty Algonquian tribal groups spoke the Powhatan language in Tidewater Virginia and comprised the powerful Powhatan

Confederacy. Classic's legacy has enriched the lives of countless family generations seeking to learn more about her life and her offspring; and

WHEREAS, Sometime in the early 1800s, Classic was near a roadside forest probably collecting berries for her family and was kidnapped. Classic's captor, plantation and slave owner, Tom Lee and his family hid her in a wooden crate as they traveled from Virginia through "Indian territory" to the Lee Plantation in Monroeville, Alabama. Classic became a house servant in the home of the Lee Family. Classic learned to sew, knit, crochet, embroider and make lace; and

WHEREAS, Over successive generations, Classic was referred to as Classic or Classy or Classey because the family is uncertain of her exact language origins or the spelling of her unique name; and

WHEREAS, Over time on the Lee Plantation, Classic and an enslaved man named Tait or Tate developed an intimate relationship and from this union had two sons, Sandy Tait (Tate) and John Tate (Tait) Lee. Later, the plantation owner's son developed an admiration for Classic. Eventually, the plantation owner gave permission to his son also named Tom Lee to marry and raise a family with Classic. This union gave birth to Classic's third son also named Tom Lee who was born in 1851 and died June 30, 1904. Other children of the Classic and Tom Lee union included Benjamin, Corine, Doshia, another daughter named Classey, Sarah, George Washington and David; and

WHEREAS, Family offspring from Classic are multitudinous and live in various parts of the United States and the world and since Ms. Frances Dailey founded the first Lee Family Reunion in Evergreen, Alabama in 1979 by calling together offspring from the marital union of Tom Lee and Harriet Crosby of Evergreen, Alabama and later Conecuh County, Alabama; and

WHEREAS, The Lee Family Reunion has convened on twenty-two occasions over the past 32 years with a prior family reunion that took place in Detroit, Michigan in 1985. During the 2011 Lee Family Reunion in Detroit, Michigan, offspring from Classic's third son, Tom Lee, met previously unknown offspring from the marital union of Classic's fourth son, Benjamin Lee and the Louisa Armstrong of Brewton and Monroeville, Alabama and also Classic's fourth daughter, Sarah Lee who married Frank Harligan of Monroeville and Evergreen, Alabama; and

WHEREAS, Classic Lee's offspring continue to gather, convene, research their history, and join together at the Lee Family Reunion welcoming new family additions and rejoicing with enduring relationships and established traditions; NOW, BE IT

RESOLVED, That the Detroit City Council expresses a heartfelt welcome to members of the 32nd Lee Family Reunion, "Footprints in America" convened in our illustrious city and hopes their visits Thursday, July 4 through Sunday, July 17, 2011 to the cultural and historical landmarks of our community prove enlightening and worthwhile ventures.

#### **PUBLIC COMMENT**

**REV. COOK** spoke on behalf of her grandchild who works at AT&T. She takes public transportation and it is hard for her to get to work. Last Friday, Rev. Cook was on the phone with her for an hour while was trying to get downtown before work to go to the bank, which is unacceptable. Rev. Cook respectively asks that Council continue to press the issue and put people first.

**ANITA CHRISTIAN** spoke concerning the Smart Meters stating that Electro magnetic frequencies and Electro Magnetic Fields are terms associated with the Smart Meters. She is asking City Council and all concern members to take materials to be distributed to give citizens an understanding of this technology. Her concern is the health issues. She ask that Council study this carefully and look at the funding and look at the effects of the radiation in terms of our bodies, brain cells and with an alternative to opt out. We should be able to choose the type of technological device that will affect our bodies and homes.

The capability of this device has the ability of being a surveillance device. We should run our planet. Technology should not run us. These microwaves

are admitting as we speak; it goes through walls.

**PAULINE HOLTON** spoke regarding Smart Meters and provided Council with information. She is appalled by the meters. She is a senior citizen and she is unable to do it. It was said that if I did not take this meter, they will shut off her utilities. She has CODT and she needs her machines hook up. There are health concerns about EMF radiation. There is no safe level with EMF. It causes cancer and you can get brain tumors and other things from this. She has an issue with the privacy issue stating that everything will have a chip in it. Her television has a chip in it and it is on all the time. This is our privacy in our homes and we have to stop this. We need a resolution, moratorium, ordinance, or something. These meters can catch on fire because they are high voltage and older homes cannot take it.

**JOHN HOLTON:** We have to protect and defend our constitution and rights at every opportunity we can. *The Smart Meters are invading our homes.* They have a waive frequency, two-way communication inside your homes. Shelby Township had a 45 minutes power point presentation and they lied, and lied. Mr. Snyder says Smart Meters will do no harm and is completely safe; that is a lie. Two thousand doctors say it is unsafe and has potential harm. Tons of information shows that you have to protect your senior, elders, poor and children. Smart Meters will steal their income. Smart Meters have the same technology and you hae to protect your family. This will affect everyone across the country and this is about profit. DTE says there is no mandate and will not let you opt out. Please do a resolution or moratorium on this.

**MAZUREK (Law Dept.):** The utilities of this State have authority through the different rules that affect what local government can do. We will have to do some research and get back to you.

**PRESIDENT PUGH:** I will refer this matter to Public Health and Safety for a discussion with the understanding that the discussion will be for a resolution to support the findings.

**JENINE B. WALKER** spoke regarding an abandoned house on her street (6561 Scotten) and regarding four (4) houses her grandmother sold on Hecker(sp) to Ms. Crooks. Ms. Crooks now wants to give the houses back to her grandmother. The houses are coming back to her grandmother and she is not getting any help. We need help in not allowing Ms. Crooks to give these houses back.

**SPIVEY:** We will help you with this issue

and if needed, we will bring it back to committee.

**ALLYSON LINDSEY:** Student at Eastern Michigan seeking hands-on training for credit in her academic field.

**CATHY RICHARDSON** spoke regarding unfinished business of City Planning Commission approval of sale site of *Morgan Waterfront Estates*. This was granted approval approximately four years ago and recently extended. There have been many concerns about this issue not going forward. This was the most amazing special property on the Detroit River and it was totally designated for the development of eighteen mansions. The whole neighborhood has been totally destroyed. She states that soil has been up to 15 feet above the flood plane, which they are concern with. (Ms. Richardson read from a letter sent to the new Director of the Planning and Development Department, Mr. Anderson). "I recently asked for help with the Jefferson-Chalmers Citizen District Council regards to the ongoing problems with the Lenox Waterfront Estates development and Mr. Jerome Morgan." At the last CDC meeting, Mr. Marcel Todd said that regarding the status, to the best of his knowledge, none of these things have incurred in the recommendations. It has been four (4) years and nothing has happen, is it bankrupt, what is going on. It is like a big hole and it is actually dangerous, it is hazardous and dumping waste. She states that she is not getting a response for anyone and Jefferson-Chalmers Citizen District has a right to know. Ms. Richardson is a thirty year resident of Detroit and she has a concern for the city. She is with Green Detroit and sees good things for Detroit.

**PRESIDENT PUGH:** I will refer this matter to Planning, Economic and Development Committee for a hearing.

**SHARON MEADOWS, President of the Jefferson-Chalmers District Council,** and has been on Council for nine years. Ms. Richardson and many other community residents brought their complaints to her attention and asked CDC to look into it. As of now there are many unanswered questions. She contacted the City Planning and Development to get answers about what is the status of this development and where they are regarding violations of city code. She has not received answers. She has learn enough to know that she needs Council's help in interceding again to take on this development issue and to see if this property can go back to the city and given to another developer that will honor the conditions, recommenda-

tions and the needs of the community. There needs to be a public hearing and she asks for City Council's assistance in investigating this further.

**PRESIDENT PUGH:** This matter is being referred to Planning and Economic Development. This is not your last time to speak.

**SUE STEINHAUER** is concern with Greyhaven and environmental issues. A study was conducted by the U.S. Geological Survey in 2002 indicating that parcel No. 4 was listed as 8 of 104 in a list of Detroit River shorelines to be protected. It was listed No. 1 most valuable parcel in the upper river. This should have alerted City Council before approving this development. Despite a huge neighborhood outcry, approval was given to allow this natural habitat to be desolated in the name of progress. It is a tragedy. Mr. Morgan has violated all 5 of CPC recommendations for approval for development. Two minutes is too short to list all of the violated City ordinances for Riverfront developments. What has been appropriated by Morgan harms our heritage liberal water and waste is detrimental to the physical and mental health of Detroit Citizens. Please do not extend continuous permits regarding this development.

**MR. MORGAN (Lenox Waterfront Estates Developer)** indicated in 2006 he purchased property from the City of Detroit to build up-scale million dollars plus homes. He put infrastructure in, water, sewer, roads, utilities and six foundation basements. In 2007-08, the market saturated. No banks in this country would loan money to build million dollars homes in the area they were building. We advance with six luxury foundations. We did all infrastructure requirements according to the CDC. We met their agreement and excavated down to 13 feet of depth below the water table and brought each one of those basements up to level with a solid foundation. The delay on this project was the engineer. It took us three and one half years to obtain a permit for treading water. We obtained our permit from DEQ on February 10. I sent a lette to John Saad to tell him we were ready to go ahead with development, City of Detroit, Economic Development, (*not sure of position*) who handles the capital improvements funds (Planning and Development). Mr. Saad informed me that the City misused the remaining money for this site. We need to execute and do what we have to do for DEQ. I sent the letter John Saad in December 7, 2010 and I have not heard from him on the

advancement of this improvement. DEQ permit only required us to tread and work in that area during a certain time. There is no work from March 15 to September 1 in the Canal due to summertime activity.

**PRESIDENT PUGH:** We will have a hearing on this matter and Chairperson Jenkins will contact you when you will have an opportunity to make your case before this body.

**TODD:** This matter is being dealt with by the Planning and Development Department and the Law Department; violation notices have been issued from the Buildings Safety and Engineering Department and various investigations are ongoing with respect to this property and some of Mr. Morgan developments. We are waiting to have a meeting to get our arms around the entire issue.

Citizens listed were present and yielded their 2 minutes regarding Lenox Waterfront Estates to Ms. Cathy Richardson:

Ms. Elizabeth Logue, Ms. Jocelyn Harris, Ms. Pat Eady, Mr. Eddie Lester, Tony DeMarco and Jeff Swinkin.

**MR. JOSEPH RIPPOLONE** gave remarks of his pleasure in donating his fire truck.

**MOTHER HOLMES** prayed for City Council.

August 11, 2011

Honorable City Council:

Re: Petition #524, Historic Designation Advisory Board submitting its final report recommending designation and proposed ordinance on the University Club Historic District (FOR INTRODUCTION OF ORDINANCE AND THE SETTING OF PUBLIC HEARING).

The Historic Designation Advisory Board (HDAB) at its meeting of July 28, 2011, directed staff to submit to your Honorable Body the Board's final report on the proposed University Club Historic District. The recommendation of the Advisory Board is for designation and, therefore, a draft ordinance of designation is attached. The ordinance has been approved as to form by the Law Department and is ready for your consideration.

This designation was requested by Mr. Dante A. Stella. Mr. Albert Ammori, JEFFRIV LLC, was appointed to an *ad hoc* membership with the Advisory Board representing the ownership interest. Mr. John Davis, Elmwood Park, was appointed as an *ad hoc* to the Advisory board representing the community interest. Your Honorable Body placed an interim designation on the property on Tuesday, October 5, 2010, in order to guard against efforts to demolish the structure and allow the study to proceed. That interim designation will expire October 5, 2011.

Please note that this property and the requested designation as alluded to above are not without controversy. The Law Department and Buildings, Safety Engineering and Environmental Department have both been involved with the enforcement of applicable regulations at this site. HDAB staff will provide additional information in a subsequent report.

Also attached is a copy of the minutes from the public hearing held by the Advisory Board on this matter.

**Final Report  
University Club of Detroit  
Historic District**

By a resolution dated October 5, 2010, the Detroit City Council charged the Historic Designation Advisory Board, a

study committee, with the official study of the proposed University Club of Detroit Historic District in accordance with Chapter 25 of the 1984 Detroit City Code and the Michigan Local Historic Districts Act.

The proposed University Club of Detroit Historic District consists of the single building located at 1411 East Jefferson Avenue less than one mile east of the central business district, south of the Lafayette Park Urban Renewal Area. The clubhouse building, built in 1931, is surrounded by open space in the form of parking on the west and the Greening of Detroit Park on the east.

**Boundaries:**

The boundaries of the proposed University Club of Detroit Historic District are outlined in heavy black on the attached map, and are as follows:

On the north, the centerline of East Larned Avenue;

On the east, a line running approximately north-south drawn 51.25 feet east of the south line of Lot 42 being 37.25 feet east of the north line of Lot 42, plat of Guoin Farm L11 P596 DEEDS, WCR (east line of Parcel 07000083);

On the south, the centerline of East Jefferson Avenue;

On the west, the centerline of the vacated Russell Street.

**Boundary Justification:**

The proposed district boundaries are the same as the original parcel of property upon which the building sits, extended to the centerlines of the public rights-of-way on the north, south and west.

**HISTORY:**

The Club

In the mid-to-late 1800s, with an expanding upper class, Detroit joined other major cities in the establishment of private social clubs centered on common interests and activities. The Detroit Boat Club (1839), the Detroit Yacht Club (1868), The Detroit Club (1882), the Detroit Athletic Club (1887), and the Detroit Golf Club (1899) joined the many hunt clubs and country clubs in the growing Detroit metropolitan area. These clubs provided their male membership with access to an upper class network of men. To satisfy the social and intellectual interests of the growing numbers of men with college backgrounds, the University Club of Detroit was established first in 1888.

University clubs sprang up in many of America's premier cities, some affiliated with Ivy League universities (Harvard Club, Yale Club, Cornell Club, to name a few). Others were open to all university men who met the requirements, like Detroit's University Club, incorporated in 1888, Richard Storrs Willis was the Club's first president. Its constitution was adopted on February 2, 1888, and it had 111 members in its first year. Among the familiar

surnames on the membership roster were Barbour, Duffield, McMillan, Lothrop, and Russel. The Club leased property on the corner of West Fort and Wayne Streets in downtown Detroit. With the depression of 1893, the Club all but disappeared, until a new Club was formed in 1899.

George Pierre Codd (b. Detroit, 1869), was elected the first president of the new Club. A University of Michigan graduate in the class of 1891, he was an attorney practicing in Detroit who served as Mayor of Detroit in 1905-06 at the age of thirty-six prior to his election as congressman in 1920. He went on to become a judge in the Circuit Court in Michigan.

At the turn of the 20th century, the "college man" was still then a rarity. As college-educated, second generation men returned to Detroit, they were welcomed in the University Club while they established themselves in their professional lives. Of those thirty-four charter members attending the first meeting of the new Club on January 24, 1899, most were in their 20s and early 30s. Twenty-eight members of the original Club joined the new Club. Located in leased third floor space over Swan's Chop House on the northwest corner of Woodward and Larned, candidates for membership were required to have earned four year degrees. A reference to the Club in the Detroit Free Press of 1900 referred to it as the University of Michigan Club, an erroneous assumption but an impression held by many because of the number of Michigan men. Dues were kept low, and on October 6, 1900, articles of incorporation were filed.

The opening of the Club was featured in a full page of the Detroit Free Press on November 8, 1900, describing its activities; among them were meetings held for those interested in eight study subjects, covering political economy and sociology, physics (abstract and implied), industrial arts, literature, arts, ethics and metaphysics. Its location was then in a leased space in the Walker Block on the corner of Griswold and West Fort.

New rules were promulgated in 1901, which prohibited undergraduates as members and gambling or dice in the clubhouse rooms, and in 1903 the Club began to operate its own bar. When Edwin Denby, an active member and later Secretary of the Navy, campaigned for Congress, the Club became his unofficial headquarters.

In 1905, there were 248 resident members (defined as those residing in Wayne County, Michigan and Essex County, Ontario), and 83 nonresident members; and by 1908 there was a waiting list. The growth of the Club paralleled the relentless growth of the City of Detroit. After yet another move, a committee was appointed to find permanent quarters for the

Club, and the McMillan homestead on the northeast corner of Russell Street and East Jefferson Avenue was purchased. After a brief stay in the Oliver Newberry House, the Club moved to the James McMillan House in 1913. H. J. Maxwell Grylls, an architect and member of the Club, remodeled the McMillan House, designed by Gordon W. Lloyd in 1880, to accommodate the facility. Charles Platt, landscape architect from New York, designed plans for the gardens, terrace and pergola, which the firm of Smith Hinchman and Grylls carried out.

In the tradition of English men's clubs, the facilities that housed the University Club of Detroit provided lodging and athletic facilities, in addition to dining, gathering and socializing spaces. Bowling and squash were popular activities during the first World War. The top two stories of the S. T. Douglas House, at 1337 East Jefferson Avenue, were leased to provide housing to men rooming at the University Club. Membership increased to 450 in 1916.

The February 16, 1926 meeting of the Club was a momentous one for its members. The first and second mortgages on the building were burned, and the debt-free Club began by planning for a permanent home of its own. By 1927, the limit on members was increased to 500. Building committee chairman James B. Angell considered eighty locations for the clubhouse and submitted a lengthy report. Downtown locations were ruled out, as was leasing. They decided to tear down their present building and build on the same site, necessitating a move to temporary quarters at 1511 East Jefferson while the McMillan House, its home for seventeen years, was demolished and the new clubhouse built.

Professional clubs provided professional networks and opportunities for its members. Theodore H. Hinchman was a member of the Engineering Club of Detroit (Rackham) as well as the University Club of Detroit, and his firm, Smith, Hinchman and Grylls, was chosen to design the permanent home for the Club in 1930. It was one of his firm's few commissions in that year because of the stock market crash of October 1929, leading the country into a deep depression.

The cornerstone for the new building was placed on January 24, 1931. Placed in a box behind the cornerstone were a copy of the Club's by-laws and constitution; membership list; list of past presidents; and a copy of the *Detroit Free Press* for that day. Dr. William D. Maxon, pastor of Christ Church, said the dedicatory prayer. On October 4, 1931, the clubhouse was formally opened with a tea for members and their families, and music by the Detroit Symphony Orchestra. On the following Friday, the first "club night" was

held, and the ladies department was closed to the ladies;<sup>1</sup> the membership at the time exceeded 500, and dues were \$100.00.

By February 1933, the effects of the Depression hit, and as membership decreased, operating losses mounted. Rules were changed so that only two years of college were required for membership. A letter from the Board of Governors of the Club to its members dated March 1, 1933 spoke of the possibility of the Club closing, and went on to say that it would do business with its members on a cash basis only. The ladies' dining room would be restricted to opening only on Thursday after 6:00 pm. for dinner.<sup>2</sup>

The outlook improved a bit with the repeal of Prohibition in 1934; a tap room opened in September of that year. As reported in the *Detroit News* the following Sunday, the formal presentation of the murals in the tap room by Hunter Griffith depicting the Club's previous homes was "the art event of the week in Detroit."<sup>3</sup> Still tight on financial resources, in 1936 with 440 members, power was given to the board to accept members with one year of college. In 1937, dues were raised to \$125.00, and were not increased until November 1948.

According to the Club's newsletter, "What's Going on at the University Club," the Club sponsored major squash teams with ranked players from the United States and Canada (Lapham Cup Tourney), hosted speakers for its members, such as Jack Manning, managing editor of the *Detroit Times*, whose topic was *Today and Tomorrow — 1930s*, and Admiral William Snowden, U.S. Navy, who spoke on his forty-five years in the Navy in a presentation entitled *My Life Afloat*.<sup>4</sup> Games, such as bridge, and vocal efforts, quartets, and dances were other activities of the club.<sup>5</sup>

During World War II, several members of the Club left in service of the war effort. At the end of 1948, the clubhouse mortgage was paid off in full, and the Club was once again debt-free. Men's clubs around the nation found themselves becoming obsolete after World War II when jobs moved out to the suburbs, men were expected to spend more time with their families, and the two martini lunch was frowned upon.

A strike on September 2, 1962 in support of the Hotel and Restaurant Employees and Bartenders international Union over wage and work rules resulted in the cancellation of food or bar service in the Club after twenty-five employees walked out. Twenty lawyers and business men had been living there at the time.<sup>6</sup>

The University Club began admitting women in 1978 (Susan Reck, stockbroker), following the lead of other clubs around the city and nation. In addition to the rise

in consciousness against discrimination women had been joining the work force in droves and could help with the financial stability of the clubs. Still, the club struggled, and, in 1992 with the declaration of bankruptcy, the University Club closed its doors for good. The Young Women's Christian Association (YWCA) purchased the former University Club of Detroit building soon after, and used it as its headquarters until 2008, when it, too, closed. It sold the building in 2009.

#### The Architect

Smith Hinchman & Grylls, architect of the University Club of Detroit, was founded by Detroit architect Sheldon Smith in 1853. In 1907, the firm partnered with engineers, becoming one of the first architectural firms in the United States to be multi-disciplinary. Now known as the Smith Group, it is the oldest architecture and engineering firm in the country. William E. Kapp headed Smith, Hinchman & Grylls' design department in the mid-1920s, and was responsible for the design of the University Club.

Kapp arrived in Detroit in 1914, after having been a student of the Beaux Arts method under the tutelage of Paul Cret at the University of Pennsylvania, and began working in the design department of Smith, Hinchman & Grylls in 1918. It was a time of great commercial building boom in Detroit, and provided Kapp with ample opportunities to hone his craft. Kapp became known as an eclectic architect who was in tune with his clients' needs.

He was no stranger to private club design, having been responsible for the designs of the Savoyard Club in the Buhl Building (1925), the Players Club (1925), a gentlemen's theatrical club of which he was a member, and the Country Club of Detroit (1926). He worked closely with the Dodges and later, the Wilsons (Matilda Dodge Wilson) to build Meadowbrook Hall in the English domestic tradition (completed in 1929) and the Wilson Theater (1928), now known as the Detroit Music Hall, in a Mission style. He was laid off in 1931 as the economy collapsed, rehired in the late 1930s, and put in charge of the design of the Horace H. Rackham School of Graduate Studies at the University of Michigan's Ann Arbor campus in 1938.

#### **ARCHITECTURE**

William E. Kapp chose the Collegiate Gothic style for the design of the University Club of Detroit, appropriate for its references to the great universities of England. In choosing the brick, he wanted its color to match that of Cambridge University of England. Pressed brick, leaded glass, pegged timber, hewed oak and variegated slate were employed to reinforce the sense of pre-industrialized craftsmanship the interior displays carved ceiling beams and wood paneling, as well as wood plank and slate floors.

The University Club of Detroit is situated on a flat piece of land on one of Detroit's busiest thoroughfares, East Jefferson Avenue, not far from downtown Detroit. The footprint of the building occupies most of its parcel, but is southernmost portion, housing its largest non-athletic spaces, is shaped like an upside-down "L," so that the setback of the leg and the architectural treatment of the foot of the "L" create a distance from the busy street. Its main entrance is oriented towards the now-vacated Russell Street on the west side of the property.

In exterior expression of the interior layout of the clubhouse, form followed function. The exterior is asymmetrical in massing and fenestration, and ranges from one and one-half stories to three and one-half stories tall, on a high basement. Its west elevation along the vacated Russell Street stretches almost the depth of the lot from East Jefferson Avenue to East Larned. Its slightly projecting, tower-like, buttressed main entrance is within a compound Gothic arch with label moldings capped by a shield. The two and one-half story bay to the south of the entrance by is capped by a transverse gable and fenestrated with a multi-storied bay window composed of groups of leaded glass windows that illuminate the library and great room inside.

In general, while still observing the same pressed brick, leaded glass groupings of windows, and stone coping, the northern half of the western elevation reflects the more utilitarian functions on the interior, such as the squash courts in the basement and first floor, the kitchen on the second floor, and the living chambers on the second and third floors. The roofline towards the East Larned, or north, end of this west elevation is punctured by dormers projecting from the roof, again reflecting the use of the upper floor for sleeping rooms. A prominent oriel window, also composed of leaded glass, is located towards the north end of this west elevation, breaking the otherwise flat massing. Clustered chimney stacks project upward of its multiple chimney walls.

The ladies' wing of the building is perpendicular to the clubhouse section and extends towards East Jefferson Avenue. Its prominent west elevation is brick on the first story and stucco with half-timbering above. Its greatly sloped slate roof is punctured by diamond-patterned, leaded glass-filled dormer windows, as its upper story served as additional residential chambers for male members. An entrance, identified as the women's entrance, is tucked between the more formal section of the clubhouse elevation facing south, and the more domestic-appearing, stucco and half-timbered, west elevation of the ladies' wing. Although facing the busy thoroughfare, the women's

entrance was suitably placed in an open court-like setting to be accessed through a garden. Entrance through this section allowed the women to bypass the antlered trophy heads of the great hall.

#### CRITERIA

The proposed historic district meets the first and third criteria contained in Section 25-2-2: (1) Sites, buildings, structures, or archeological sites where cultural, social, spiritual, economic, political or architectural history of the community, city, state or nation is particularly reflected or exemplified; (3) Buildings or structures which embody the distinguishing characteristics of an architectural specimen, inherently valuable as a representation of a period, style or method of construction.

#### COMPOSITION OF THE HISTORIC DESIGNATION ADVISORY BOARD

The Historic Designation Advisory Board has nine appointed members and three *ex-officio* members, all residents of Detroit. The appointed members are: Kwaku Atara, Melanie A. Bazil, Robert Cosgrove, Keith A Dye, Zené Frances Fogel-Gibson, Edward Francis, Calvin Jackson, Harriet Johnson and Doris Rhea. The *ex-officio* members, who may be represented by members of their staff, are: The Director of the Historical Department, the Director of the City Planning Commission, and the Director of the Planning and Development Department.

#### RECOMMENDATION

The Historic Designation Advisory board recommends that City Council adopt an ordinance of designation for the proposed historic district. A draft ordinance is attached for City Council's consideration.

Council Member Jenkins:

**AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-183 to establish the University Club of Detroit Historic District and to define the elements of design for the district.**

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

**Section 1.** Chapter 25, Article II, of the 1984 Detroit City Code is amended by adding Section 25-2-183 to read as follows: **Sec. 25-2-183. University Club of Detroit Historic District.**

(A) A historic district to be known as the University Club of Detroit Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the University Club of Detroit Historic District are as shown on the map on file in the office of the City Clerk, and are as follows:

On the north, the centerline of East Larned Avenue; on the east, a line run-

ning approximately north-south drawn from a point on the southerly line of Lot 42 being 51.25 feet easterly of the southwest corner of Lot 42 to a point on the northerly line of Lot 42 being 37.25 feet easterly of the northwest corner of Lot 42, plat of Guoin Farm L11 P596 Deeds, Wayne County Records; on the south, the centerline of East Jefferson Avenue; and on the west, the centerline of the vacated Russell Street.

(Legal description. Lots 40 and 41, and the west 51.25 feet on the south line being the west 37.25 feet on the north line of Lot 42, and the east 20 feet of vacated Russell adjacent; Plat of Guoin Farm (a/k/a Guoin Farm) as recorded in Liber 11, Page 596 of Deeds, Wayne County Records. Commonly known as 1401 E. Jefferson, Tax I.D. 07000083.)

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, are as follows:

(1) *Height.* The single building in the University Club of Detroit Historic District ranges from one and one-half (1-1/2) to three (3) stories tall on a high basement. Where there is a half-story, it is contained in a steep roof, as on the one and one-half (1-1/2) story section at the rear (north) of the property and the two and one-half (2-1/2) story ell extending to East Jefferson Avenue at the front (south) of the property.

(2) *Proportion of Building's Front Façades.* The Jefferson Avenue (south) façade and the vacated Russell Street (west) façade of the University Club of Detroit are wider than tall; their lengths are broken up by a variety of bays and fenestration arrangements relating to the style of the building and the function of interior spaces.

(3) *Proportion of Openings Within the Façades.* The University Club of Detroit is divided into sections relating to the functions of its interior spaces, resulting in openings that range widely in placement, size and shape. The windows on the primary façades — vacated Russell Street (west) and East Jefferson Avenue (south), are casement types subdivided by leaded glass, either diamond-patterned or rectangular grid-patterned. They are individually taller than wide, but when grouped together form rows wider than tall. Large banks and bay windows are created when several rows of windows are stacked horizontally, filling large openings. The largest doorway opening is the arched, double-door wide main entrance on the vacated Russell Street (west) façade. The only other entrance on a major façade is in a chimney wall on the three (3) story East Jefferson Avenue (south) façade before its intersection with the perpendicular ell section. Its single-door-width portal is framed simply in quoined stone beneath a pent roof, above which is a quatrefoil win-

dow. The vacated Russell Street (west) façade has approximately thirty-five percent (35%) openings, and the East Jefferson Avenue elevation has approximately twenty-five percent (25%) openings.

(4) *Rhythm of Solids to Voids in the Front Façades.* The two primary façades present a lively rhythm of solids to voids consistent with the function and style of the building. Window placement is generally consistent horizontally by story but its rhythm is often broken by placement of bay windows, multi-window groupings or multi-story banks of windows, particularly on the vacated Russell Street (west) façade. The entrance opening into the main hall on this west façade is located north of the monumental bay. Above this entrance is a grouping of four (4) leaded glass trefoil windows. To its south between it and the monumental bay is a faceted, engaged tower with horizontal window groupings and a narrow, blind opening in its upper stage. The monumental, three-story bay of leaded glass windows arranged in four (4) rows of four (4) windows taller than wide correspond with the library and game room inside. North of the main entrance on this west façade are openings with single, double, or triple groups of leaded glass casement windows. A row of four (4) windows punctures the wall section directly north of the main entrance; an oriel window projects farther north. Basement windows on this west façade display variety in their sizes and locations. The other primary façade, facing East Jefferson Avenue (south), has a more formal, regular appearance and somewhat greater regularity in its arrangement of openings extending from the southwest corner of the building eastward to the perpendicular ell. Each of two (2) tall, evenly spaced banks of three (3) rows of three (3) windows are separated by a single small window between them and a similar but projecting bay of three (3) rows of four (4) windows farther east. The ground level below this section is punctured by two (2) groupings of four (4) windows. The gabled East Jefferson Avenue (south) façade at the southeast corner of the building features a bay window composed of a row of two (2) windows on its front face and a single window on its side faces. Less formality is apparent on the ell section's west elevation. Regularly spaced dormers each containing a row of three (3) windows project beneath them on the half-timbered second story is a grouping of four (4) windows flanked by a grouping of two (2) windows, and irregularly spaced groupings on the first story.

(5) *Rhythm of Spacing of Buildings on Streets.* Rhythm of spacing on streets is generally determined by setbacks from the side lot lines. Since the University

Club of Detroit Historic District contains a single building with no adjacent buildings, no rhythm of spacing is created.

(6) *Rhythm of Entrances and/or Porch Projections.* No rhythm of entrance and/or porch projections is created. Entrances to the building are few and are de-emphasized by their placements and modest designs. The main entrance into the clubhouse is on the vacated Russell Street (west) façade. It is approached by five (5) low, masonry steps through an arched opening to a porch in the base of a buttressed tower-like section. Curved metal railings flank the entrance steps. The entrance into the East Jefferson Avenue (south) façade is tucked away on the base of a chimney wall in the southeast corner of the main clubhouse section near its intersection with the half-timbered ell section.

(7) *Relationship of Materials.* Pressed brick with mortar joints is the major building material, juxtaposed with stone trim accenting the windows and stories with quoins, belt courses, and coping. Stucco and timber materially distinguish the west elevation of the ell section running perpendicular to East Jefferson Avenue. Other materials, such as copper flashing, steel casements with leaded glass, and slate, contribute significantly to the English Revival character of the building.

(8) *Relationship of Textures.* The major textural effect is that of brick with mortar joints laid in English bond juxtaposed with stone trim, window mullions and surrounds, coping, and carved detail. Leaded glass in a variety of patterns, and window groupings in general also add considerably to textural interest, as does the variegated slate roofing. The half-timbered second floor of the west elevation of the ell distinguishes it from the rest of the building, and also adds considerable textural interest. In general, the University Club of Detroit is rich in textural relationships.

(9) *Relationship of Colors.* The natural red color of brick, gray of variegated slate, and beige of the stone provide strong color relationships, as do the light cream stucco and gray weathered wood of the half-timbering. Green is the color of the copper downspouts and flashing, and the casements are weathered metal brown. The original colors of any building, as determined by professional analysis, are always acceptable for that building and may provide guidance for similar buildings.

(10) *Relationship of Architectural Details.* Architectural details on the University Club of Detroit are related to its English Revival style. In its form, the building has castle-like battlements, wall buttresses, clustered chimneys and tower-like sections. Applied ornamental detail is minimal; carved in the relief panel of the keystone above the main entrance is a crest with a stylized "UC", ornamental spandrels are positioned in the arch of the

entrance, and a string course that lies between the top floor and the battlemented parapet, displaying an outstretched lion-like animal at each end, ornament of the west façade of the building. The carved cornerstone to the south of the doorway is carved in relief with the name "The University Club 1899 1931" in stylized calligraphy. The half-timber and stucco overhanging second story of the west elevation of its East Jefferson Avenue wing with its visible joist ends also relate to the English medieval theme, as does its steep gable, slate clad roof structure, and dormers. Quoined window surrounds, leaded windows, and trefoil and quatrefoil window forms also contribute significantly to the stylistic references of the building. In general, the University Club of Detroit is rich in its relationship of architectural details.

(11) *Relationship of Roof Shapes.* The majority of the roof over the University Club of Detroit is flat, but the gabled ell at its southeastern, East Jefferson Avenue (south) façade has a steeply sloped, slate-covered gable with shed dormers, and the one and one-half (1-1/2) story section at the rear of the property also has a steeply sloped, slate-covered roof. Sections of slate roofing have recently been removed.

(12) *Walls of Continuity.* Not applicable due to single-building district.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* The façades of the building are partially covered with ivy. A low, stacked fieldstone terrace wall along the southern part of the vacated Russell Street façade divides the front lawn of the property from the sidewalk. Landscaping features include a grass turf front lawn, a garden on the east side of the property enclosed by a brick garden wall, ivy growing on brick walls, and some overgrown perimeter bushes. Public sidewalk improvements consist of brick paved walk laid parallel to the concrete sidewalk and concrete curb-height tree planters at regular intervals along the streetscape. Modern steel light poles are placed regularly on the sidewalk.

(14) *Relationship of Open Space to Structures.* Open space in the district exists in the form of the front lawn and shallow western side yard. Extending eastward from the Jefferson Ave. façade of the ell is a brick garden wall ornamented with raised brick and a corner finial. Inside the garden court are brick columns likely used to support trellises and vines. This fenced grass courtyard can be accessed by an asphalt driveway leading onto the rear of the property from East Larned Avenue. The rear of the building is set about six inches from the East Larned Avenue public sidewalk. The area to its east is fenced with a chain-link gate and

wooden privacy fencing. Immediately outside of the district to its west is an asphalt parking lot and immediately to its east is a passive park.

(15) *Scale of Façades and Façade Elements.* Major elements of the two primary façades are generally large in scale, including the three-story bay window, window groupings, repeating battlements, engaged towers, clustered chimneys, and roof gables. Façade details are few and are moderate to small in scale, such as the decorative carved details.

(16) *Directional Expression of Front Elevations.* Each of the primary façades of the University Club of Detroit is horizontal in directional expression, with vertical architectural elements, such as multi-story bays, tall windows, chimneys, towers, and gables neutralizing its appearance somewhat.

(17) *Rhythm of Building Setbacks.* Not applicable due to single building district

(18) *Relationship of Lot Coverages.* The University Club of Detroit building occupies approximately seventy-five percent (75%) to eighty percent (80%) of its lot. Its major visible open space is the grass turf front lawn.

(19) *Degree of Complexity Within the Façades.* The two primary façades are complex in their massing, fenestration, roof shapes, and variety of architectural elements.

(20) *Orientation, Vistas, Overviews.* The University Club of Detroit is oriented towards the vacated Russell Street (west) and East Jefferson Avenue (south). The buildings between East Jefferson Avenue and East Larned Street are oriented towards East Jefferson Avenue due to shallow depth of the blocks. The L-shape of the East Jefferson Avenue (south) elevation of the building provides focus on the south and west elevations, and creates a front lawn. Loss of historic fabric on East Jefferson Avenue shows itself in the form of parking lots, newer commercial buildings, and a mix of uses along one of Detroit's oldest thoroughfares.

(21) *Symmetric or Asymmetric Appearance.* The appearances of the two primary façades of the University Club of Detroit are asymmetrical.

(22) *General Environmental Character.* The University Club of Detroit Historic District consists of a single building erected as a private clubhouse along one of Detroit's major corridors close to downtown Detroit. Once the location of large, nineteenth century houses, as evidenced by those still in existence (Parker House, Trowbridge House, Palms-Croul House), and early twentieth century apartment buildings, its surrounding part of East Jefferson Avenue is currently mixed use in character, with commercial, multi-unit residential, and recreational uses. Elizabeth Gordon Sachs Greening of Detroit Park is

located to the east, and Lafayette Park is to the north across East Larned Street, a boulevard, the results of urban renewal planning. The University Club of Detroit is located close to downtown and the Detroit River, two of Detroit's major assets.

**Section 2.** All ordinances or parts of ordinances, or resolutions, in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

#### Fire Department

September 8, 2011

Honorable City Council:

Re: Acceptance of Donation: 1983 Grumman La France-Fire Truck.

Joseph Rippolone — wishes to bestow upon the Detroit Fire Department a 1983 Grumman La France Fire Truck, with an estimated value of \$180,000.00 for only \$1.00.

On September 7, 2011, news reporter

Charlie LeDuff contacted Commissioner Austin with information about a fire truck that a citizen wanted to donate to the Detroit Fire Department. Commissioner Austin, Deputy Commissioner Fred Wheeler, and Barrett Petus, Shop Supervising Mechanic visited the apparatus, which was located at 16250 E. Mack in the City of Detroit. Joseph Rippolone is the owner of the truck, which he purchased in 2005 for approximately \$50,000. Subsequent to the purchase out of Pennsylvania, Mr. Rippolone began a restoration project. Below follows a conditions report on the apparatus and a non-conclusive list of his restoration to date.

- 1983 Grumman La France Quint fire truck with a 105' aerial ladder with bucket and 1500 GPM pumping capacity fire pump
- Six inch waterway for aerial operations
- Originally sold to the Getzville, NY Fire Department on or about 1983
- 23,000 original miles on the engine
- Complete with owner's and maintenance manuals
- Motor vehicle title
- Major suspension work professionally repaired
- New hydraulic system for aerial operations
- Air ride interior seats installed
- Onboard electrical generator with 100' retractable cord reel
- Stored inside Mr. Rippolone business

Mr. Rippolone purchased this fire truck for his hobby and family fun. During and subsequent the renovation work, the vehicle has been stored inside a bay he specifically built to store the vehicle.

Mr. Rippolone only wanted \$1.00 for the vehicle and he wants to donate it to the City of Detroit. Despite the fact that it is a 1983 vintage; it only has 23,000 miles on it. Our heavy equipment mechanic supervisor, Mr. Petus witnessed the operations of the aerial ladder and was driven around several residential streets adjacent to Mr. Rippolone's business.

There is not a vehicle in the Detroit Fire Department's inventory with only 23,000 miles. This equipment once placed into service will begin to save lives and property almost immediately. Your support is appreciated and approval is necessary for us to move forward.

I respectfully ask your approval to accept this donation in accordance with the attached resolution.

Respectfully submitted,  
DONALD R. AUSTIN

**RESOLUTION IN SUPPORT OF A REGIONAL TRANSIT AUTHORITY**

By COUNCIL MEMBER BROWN:

WHEREAS, Southeast Michigan is the largest region in the U.S. without high capacity rapid transit service in place or in development, which requires SMART and DDOT to run less cost-effective routes; and

WHEREAS, The Southeast Michigan region spends \$75 per capita annually on transit services, while the average of the top 25 metropolitan regions is \$184 per capita annually; and

WHEREAS, The American Public Transportation Association projects that every \$1 spent public transit projects generates an average of \$6 in economic activity; and

WHEREAS, By 2015, nearly a half-million people aged 65 or older in Metropolitan Detroit will live in communities where public transportation service is either poor or non-existent; and

WHEREAS, Working class families earning between \$20,000 and \$50,000 are estimated to almost 30 percent of their household income on transportation, which is more than housing. Michigan's difficult economic times call for investment in mass transit; and

WHEREAS, Establishing a Regional Transit Authority (RTA) allows for the capturing of federal and state funding, building projects and network expansion into other counties. The creation of an RTA is essential to following federal guidelines for developing regional transit systems; and

WHEREAS, Southeast Michigan must demonstrate a willingness and ability to cooperate across communities to create and implement regional transit plans as well as develop reliable funding systems; and

WHEREAS, Forming an RTA provides much-needed infrastructure funding along with cooperation among Michigan's most populous area; and

NOW, THEREFORE, BE IT RESOLVED, By the Detroit City Council speaking on behalf of the citizens of Detroit as follows:

BE IT RESOLVED, The Detroit City Council calls on both Mayor Dave Bing and both the executive and legislative bodies of Wayne, Oakland and Macomb County to support the establishment of a Regional Transportation Authority; and calls the Governor and the Michigan Legislative to take action to ensure passage of all necessary, related legislation in the Michigan House of Representatives and the Michigan Senate.

BE IT FURTHER RESOLVED, That a copy of this adopted resolution be transmitted to the Governor, and the Mayor of Detroit, Wayne, Oakland and Macomb County governing bodies and state delegations.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Spivey, Tate, and President Pugh — 6.

Nays — Council Members Jones, Kenyatta, and Watson — 3.

**STATEMENT BY COUNCIL MEMBER KWAME KENYATTA ON NO VOTE FOR RESOLUTION IN SUPPORT OF A REGIONAL TRANSIT AUTHORITY**

Today, the Detroit City Council voted to approve a *Resolution in Support of a Regional Transit Authority*. The vote was recorded as 6-3 wherein I voted with the opposing council members, which were Council Member Jones and Council Member Watson.

I wholeheartedly support the spirit of the resolution that was presented to Council to finally move decidedly toward the establishment of a regional transit system for the Metro Detroit region.

The need has never been more necessary to support the 33% of Detroit resident who must secure transportation without access to a vehicle of their own. Freedom of movement is a human and civil right, particularly in a region like Metro Detroit where employment opportunities are quite literally few and far between.

However, I could not ignore the gaping holes in the resolution's lack of attention to the essential elements covering governance and funding. I believe that it is shortsighted and woefully premature to officially endorse this regional transit authority resolution as currently written.

It is not prudent to encourage Mayor Bing, the Governor of the State of Michigan and the Michigan Legislature to "ensure passage of all necessary, related legislation in the Michigan House of Representatives and the Michigan Senate," prior to obtaining complete information on how the details of governance and funding will be decided and ultimately implemented.

Furthermore, the recent announcement of the transfer of management of the M-1, Woodward Light Rail system to the Detroit Economic Growth Corporation (DEGC) with no official notice to City Council only serves to muddy the waters so that transparency is threatened.

To this end, I will reserve my support for a regional transit authority until these matters are sufficiently clarified.

**RESOLUTION**

By Council Member Watson:

Whereas, The Detroit City Council is authorized by Section 4-121 of the Detroit City Charter to obtain, relative to "any matter pending before it," the services of "an outside attorney," meaning "an attorney who can act independently of the Corporation Counsel";

Whereas, The Detroit City Council has found it appropriate to exercise this authority particularly where there are serious irreconcilable differences between the Mayor and Corporation Counsel relative to matters vital to the interest of the citizens of Detroit and where there exist threats to the integrity of the City Charter that have not been protected by the Mayor; and

Whereas, The retention of outside legal counsel is necessary in order to protect these vital interests;

Now, Therefore Be It

Resolved, That the Detroit City Council, pursuant to Section 4-121 of the Detroit City Charter, designates Robert W. Palmer (Pitt McGee Palmer Rivers & Golden) as its Special Counsel to advise and take all appropriate legal action necessary to fully protect the rights and interests of City Council relative to the matter of *United States of America vs. City of Detroit (Case No. 77-71100)*.

Adopted as follows:

Yeas — Council Members Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 8.

Nays — Council Member Brown — 1.

There being a quorum present, the City Council was declared to be in session.

### Invocation

Our Eternal God, almighty and everlasting; we have gathered in Your name with thanksgiving in our hearts. To find ourselves here this morning with life, health and strength, and just another reason to give You the praise and humble ourselves in Your presence.

Without a doubt, we know blessings and honor and glory, they all belong to You. So we approach Your throne of grace to give You the glory, honor and praise.

It is our prayer as we come before You that we receive Your love, kindness and tender mercy.

We are here at this time as finite creatures, asking an infinite God to bless our minds, bodies and souls.

We are here in this place knowing that we can do some things, but You can do all things when it is the right thing to do.

It is our prayer before the City Council of Detroit to petition Your blessings in this session to bring about a fruitful harvest that is much needed. It is our prayer that it comes from faith, hope and love. It is our prayer that it comes from knowledge, wisdom and understanding. It is our prayer that it comes from strength, unity and a sense of community.

We need Your great power from on High, Your presence and patience to place in the hearts of this body of able-minded men and women on this council, to do that which is right in Your sight; and to do the works in this city where we all will benefit from righteous minds and righteous hearts. We know God can and God will if we ask it in His Name.

Amen.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Application for one housing unit within the U-SNAP-BAC Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our office an application from Habitat for Humanity for a Neighborhood Enterprise Zone (NEZ) certificate for one housing unit within the U-SNAP-BAC NEZ area approved by the Detroit City Council in July, 1997.

The address for the certificate is 4708 Lakepointe, which is located between East Warren and Voigt Avenues. Habitat for Humanity is proposing to construct a new single-family house.

The property involved is confirmed as being within the boundaries of the U-SNAP-BAC NEZ. Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate.

Please let us know if you have any questions.

Respectfully submitted,  
MARCELL R. TODD, JR.

The Law Department is authorized to agree to entry of an Order of Dismissal and to enter into an Agreement to Arbitrate in the case of Dashon Daniels vs. City of Detroit, a Michigan Municipal Corporation, d/b/a Detroit Police Department and Arthur Robinson, Wayne County Circuit Court Case No. 10-004444 NI., on the following terms and conditions:

A. 1. The parties shall submit to arbitration all matters in controversy raised in the above-named lawsuit.

2. The maximum amount of any award to Dashon Daniels shall not exceed the amount of One Hundred Ninety-Eight Thousand Dollars and No Cents (\$198,000.00).

3. Any award in excess of \$198,000.00 shall be interpreted to be in the amount of \$198,000.00.

There shall be no costs, fees, attorney fees or interest taxable with respect to the award rendered by the arbitrators.

The award of the arbitrators shall represent a full and final settlement of any amounts due and owing to Dashon Daniels for any and all claims arising out of the incident which occurred on or about August 9, 2009 at or near Fenkell at Southfield; however, limited judicial review may be obtained in a Michigan Federal District Court or Michigan Circuit Court of competent jurisdiction (a) in accordance with the standards for review of arbitration awards as established by law; or (b) on the ground that the arbitrators committed an error of law.

B. Promptly after the arbitrators

announce their decision, the Law Department shall inform City Council in writing of that decision.

C. Upon certification by the Law Department that the arbitrators have announced a decision requiring the City to pay part or all \$198,000.00 to Dashon Daniels, the Finance Director is authorized to issue a draft drawn upon the proper account in favor of Gursten, Koltonow, Gursten, Christensen & Raitt, P.C., his attorneys, and Dashon Daniels, in the amount of the arbitrators' award, but said draft shall not exceed One Hundred Ninety-Eight Thousand Dollars and No Cents (\$198,000.00).

**Planning & Development Department**

September 22, 2011

Honorable City Council:

Re: Surplus Property Transfer Detroit Land Bank Authority.

On July 29, 2008, your Honorable Body approved the adoption of the Intergovernmental Agreement between the Michigan Land Bank Fast Track Authority, a Michigan public body corporate and politic, and the City of Detroit, a Michigan Municipal Corporation, creating the Detroit Land Bank Authority.

One of the stated purposes of the Detroit Land Bank Authority is to focus on the reduction of blight by emphasizing the revitalization of neighborhoods through the rehabilitation of existing housing and the development of affordable and market rate housing. In addition, the Detroit Land Bank Authority also facilitates and assists in commercial development throughout the City of Detroit, as well as promotes recreational areas.

Section 6.01 of the Intergovernmental Agreement allows for the Detroit Land Bank Authority to accept real property from the City of Detroit subject to conditions as determined by City Council. The Planning and Development Department is in receipt of a request from the Detroit Land Bank Authority to transfer 174 City-owned properties, as detailed in the attached "Exhibit A." While the Detroit Land Bank Authority has made an offer of \$1,000 per parcel, P&DD proposes the transfer at no cost to the DLBA. Section 23(8) of the Land Bank Fast Tract Act specifically authorizes a city to convey property to a land bank for no consideration. MCL 124.773(8).

The Detroit Land Bank Authority proposes to utilize these properties to create greenspace, multi-family and single-family new residential construction, commercial opportunities and other such activities to eliminate blight, revitalize and assist in stabilizing the affected neighborhood relevant to the NSP 2 program. All projects would be subject to HUD's NSP guidelines, MSHDA's NSP 2 Policies and Procedures, the City of Detroit's Master

Plan, Zoning, Buildings, Safety Engineering & Environmental Department requirements, and all other such regulations and/or statutes governing development activity.

We, therefore, request that your Honorable Body adopt the attached resolution approving the transfer and authorize the Planning and Development Department's Director, or his authorized designee, to issue one or more quit claim deed(s) for the properties and other such documents as may be necessary to effectuate the transfer to the Detroit Land Bank Authority, a Michigan public body corporate. A waiver of reconsideration is requested.

Respectfully submitted,  
ROBERT ANDERSON  
Director

By Council Member Jenkins:

Resolved, That in accordance with the foregoing communication, the Planning and Development Department's Director, or his authorized designee, be and is hereby authorized to issue to the Detroit Land Bank Authority, a Michigan public body corporate, one or more quit claim deed(s) for the properties identified in the attached Exhibit A, at no cost, together with such other documents as may be necessary to effectuate the transfer, and be it further

Resolved, That the property to be conveyed by the City to the Detroit Land Bank Authority is identified in the attached "Exhibit A" by Tax ID Number and address and is subject to legal descriptions to be prepared or certified by the City's Engineer of Surveys.

Honorable City Council:

Re: Petition No. 1034: Two-Way thoroughfare on Third Avenue between Forest Avenue (North) and Ledyard (South).

In response to Petition No. 1034, from Midtown Detroit, Inc. to establish a Two-Way thoroughfare on Third Avenue between Forest (North) and Ledyard (South), the Traffic Engineering Division (TED) of the Department of Public Works (DPW) has evaluated the feasibility of the proposal and its impact to traffic flow in the area.

TED has considered vehicular traffic volumes, accident data, availability of safe crossing opportunities, existing traffic controls, and other physical conditions such as the number of lanes and roadway width over the entire corridor, for completing the evaluations. Based on the study and analysis, TED concluded that the requested conversion of one-way to two-way operation of this section of Third Avenue between Forest (North) and Ledyard (South) will not negatively impact safe traffic flow and it will be beneficial to business growth.

Currently, Third Avenue, between Forest (North) and Ledyard (South) is a one-way thoroughfare. Parking is permitted on both sides of the street along with two moving lanes.

DPW/TED conducted meetings with Midtown and other stakeholders. Upon the request of TED, Midtown Detroit, Inc., (formerly, New Center Council) hired a Traffic Engineering consultant to perform a traffic study to analyze the proposed operation. Midtown Detroit, Inc., also surveyed the abutting business/property owners and 83% of them are in agreement with for this requested conversion. TED reviewed the report submitted by the Consultant and is in agreement with their recommendation to establish a Two-Way on Third Avenue between Forest (North) and Ledyard (South).

DPW has provided the details of this project to the City Planning Commission (CPC) and they are in agreement with this project.

DPW respectfully submits to your Honorable Body the attached resolution to convert the entire section of Third Ave., from one way operation to two way operation, between Forest Avenue and Ledyard.

Respectfully submitted,  
RON BRUNDIDGE  
Director

Honorable City Council:

Re: Address: 16521 Woodingham. Name: Marcia Martin. Date ordered removed: July 27, 2010 (J.C.C. p. 1949).

In response to the request for a deferral

of the demolition order on the property noted above, we submit the following information:

A special inspection on August 25, 2011 revealed the building is secured and appears to be sound and repairable.

The owner has paid current taxes due as of January 15, 2012.

The proposed use of the property is rental property. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained securely barricaded until rehabilitation is complete. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits.
- Certificate of Approval as a result of a Housing Inspection.
- Certificate of Inspection, required for all residential rental properties.
- Certificate of Registration of Vacant Property.
- Certificate of Compliance (Exterior) as a result of an Exterior Inspection.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Re: Linda Hairston vs. City of Detroit, Keith McCloud, Lamarr Penn, David Wilkerson, Vannice Ward, Larry Barnett, Tommy Bell, Carlton Williams, Drake Malone and Robert Turner. Case No.: 10-11617. File No.: A37000.007188 (SH).

**STATEMENT BY COUNCIL MEMBER  
KWAME KENYATTA OF MY  
DISAPPROVAL REGARDING  
UNREGULATED TAILGATING AT  
EASTERN MARKET**

Today, City Council approved a resolution authorizing the vacation of several streets in Eastern Market. I voted no on this resolution along with Council Member Joann Watson. The resolution was approved 6-2.

My concerns with this resolution center on the ambiguous nature of the rationale for the streets' vacation. The Mayor's office contended that the sole purpose for blocking off Russell Street was public safety. However, research by my staff showed that the Eastern Market is sponsoring an all-inclusive Tailgating event complete with a hot tub and tickets that will be sold for parking and shuttle service.

City of Detroit lots will be used for the event with no information on how revenue will be recorded and accounted for by Eastern Market or the City. Furthermore, no discussion of how the City may be compensated for the use of City-owned lots has been discussed. Yet, a subsidy of Eastern Market operations is included in the City's annual budget.

No information on permits or a special event petition that details the coordination of this event have been provided to City Council. Yet, the Eastern Market advertisement cites the Fire Marshall in its rules and regulations, which calls into question whether the Administration has failed to share all necessary information with City Council regarding their participation in hosting this Tailgating event.

I support the holding of Tailgating events utilizing the proper city codes and ordinances in order to celebrate such special events as the winning performance of our Detroit Lions. But due to the shortage of complete and accurate information in a transparent manner regarding this particular event, I was left with no alternative but to vote no.

Heavenly Father, we come on this day, first and foremost, acknowledging that You are our God, and without You, we can do nothing.

I pray, Father, for each member of the Detroit City Council, their families and support staff. I pray that they would be ever mindful, that all authority comes from God, and aware of the tremendous responsibility of serving the citizens of this great city.

I pray that they, like Solomon, would seek Godly wisdom in the decisions that affect the lives of so many.

Guide them with Thy voice, keep them by Thy grace and preserve them with Thy mercy.

I also pray for every citizen and visitor, that a mutual love and concern for Detroit would be had by all.

Father, let that same love transform this nation into a righteous nation. Bless our President, his family, and all who are in authority. This is Your servant's prayer. Amen.

Honorable City Council:

Re: Proposed Intergovernmental Agreement between DWSD and Wayne County for the Joy Road Project.

We request your approval of an intergovernmental agreement in the amount of \$291,049.00 with Wayne County for the Joy Road Project. This agreement will provide for the reimbursement of Wayne County for services to be provided related

to installing a new DWSD water main in Joy Road between Southfield and Greenfield. This agreement was approved by the Board of Water Commissioners on April 27, 2011.

The Michigan Department of Transportation is providing funding to rebuild and repave Joy Road between the Southfield Freeway and Greenfield. The road reconstruction is funded with a federal grant to MDOT. MDOT will take bids for the construction work and award the contract. DWSD and MDOT have agreed that as part of the road reconstruction work, MDOT will have its contractor replace a 70-year old water main in Joy Road. There is a separate agreement between DWSD and MDOT for this work. The cost of the new water main installation is \$3,678,600. DWSD and MDOT

have coordinated water main installation work with road construction work many times in the past. It results in significant cost savings to DWSD, as the cost of digging up the old road and paving the new road are paid by MDOT from the federal grant funds, instead of being a DWSD cost.

Joy Road is a county road. Wayne County will administer this project for MDOT. The proposed contract with Wayne County provides for DWSD to reimburse Wayne County for the construction engineering, quality control testing, and traffic control related to the water main installation. The total cost of the construction engineering that Wayne County will perform for DWSD is \$291,049.

**RESOLUTION**

**Authorizing the Detroit City Council  
M.O.O.V.E. Detroit Taskforce**

By Council Member Spivey:

Whereas, Detroit is seeing an epidemic in childhood obesity, placing them in jeopardy of becoming obese if we do not solve this problem one third of all children born after the year 2000 will suffer from diabetes at some point in their lives; and

Whereas, A new generation of children are being raised addicted to fast food and not being exposed to physical activity. In order for us to be a strong community, we must be a healthy one first. Today, children are spending too much time indoors adversely affecting their health. Besides obesity, we are seeing increased Vitamin D deficiency, reduced attention spans increased aggressiveness, and sleep deprivation. Studies show that 70% of overweight youths have a least one risk factor for cardiovascular disease, high cholesterol, or high blood pressure; and

Whereas, Unfortunately, many elementary schools have discontinued recess and daily P.E. classes for all students guaranteeing daily exercise and fresh air. Experts recommend that kids should have at least one hour of what they call moderate-intensity physical activity such as walking the dog, riding a bike or dancing to a favorite song; and

Whereas, Detroit children are our leaders of tomorrow. However, if they do not adopt healthier lifestyles, they could be the first generation of kids that will not live as long as their parents. The foundation begins with our children who are the future, but there will be no future for them if we do not get this problem under control; and

Whereas, In an effort to curb these staggering statistics, *M.O.O.V.E. Detroit* (Minors Overcoming Obesity with Veggies and Exercise) will be a taskforce designed to tackle the challenge of eradicating childhood obesity and unhealthy behaviors with our youth. Our focus will be to help children develop healthy lifestyle habits and show them the benefits of staying fit. It is our goal that they will take these practices and tips into their adulthood lives. Now, Therefore Be It

Resolved, That the Detroit City Council hereby forms *M.O.O.V.E. Detroit*, a taskforce aimed at combating the issue of childhood obesity in the City of Detroit; Be It Further

Resolved, *M.O.O.V.E.* Detroit will be chaired by Councilman Andre L. Spivey and include key stakeholders who are health oriented members of the community with a vested interest in protecting the well-being of our youth; and Be It Further

Resolved, *M.O.O.V.E.* Detroit will present its findings and give an annual update to the Detroit City Council on an on-going basis. Now, Therefore Be It Finally

Resolved, That the Detroit City Council hereby support the efforts of combating childhood obesity. A copy of this resolution will be forwarded to each member of the Council, and be officially recorded as an official task force of this governing body.

By Council Member Jenkins:

Whereas, Beechwood Detroit, LLC, has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 (“the Act”) in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on Tuesday, July 12, 2011, established by Resolution an Obsolete Property Rehabilitation District in the vicinity of 487 Prentis, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 198 of 1974 exceeds 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obsolete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Obsolete Property Rehabilitation District; and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retaining employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by Section 2 (l) of the Act; and

Whereas, This City Council has granted until July of 2013 for the completion of the rehabilitation; and

Whereas, On October 13, 2011, in the City Council Committee Room, 13th Floor, Coleman A. Young Municipal Center, Detroit, Michigan, a formal hearing was held on aforesaid application, at which time the Applicant, the Assessor, the general public, and representatives of the affected taxing units had an opportunity to be heard; and

Whereas, Notice was given by certified mail to the Detroit Board of Education, the City of Detroit Board of Assessors, the Wayne County Board of Commissioners, Wayne County Community College, the Wayne County Intermediate School District, the Huron-Clinton Metropolitan Authority, the Applicant, and by publication to the general public, informing them of the receipt of the Application, the date and location of the Public Hearing, and the opportunity to be heard;

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemp-

tion Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax within the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of Brentwood Detroit, LLC, for an Obsolete Property Rehabilitation Exemption Certificate, in the City of Detroit Obsolete Property Rehabilitation District is hereby approved for a period of twelve (12) years from completion of the facility in accordance with the provisions of the Act; and be it further

Honorable City Council:

Re: Resolution Endorsing TIGER III Grant Application to USDOT for Link Detroit! Multi-Modal Enhancement Plan.

A recent announcement of the U.S. Department of Transportation (DOT) TIGER III Discretionary Grant Program provides an opportunity for the City of Detroit, in alliance with Eastern Market, Midtown Detroit, Michigan Trails and Greenway Alliance, and the Community Foundation of Southeast Michigan, to complete key improvement projects that can stimulate economic activity, improve the non-motorized transportation system

in the City and enhance Eastern Market and Midtown neighborhood's vibrancy and functionality. These projects can have a direct impact on increasing the quality of life of Detroit residents through increased access to key destinations, recreation facilities, jobs, neighborhood stabilization, local food, and visual quality improvements.

Project Description

"Link Detroit" will focus on critical infrastructure investments that align with the TIGER III grant program goals and objective. A series of multi-modal infrastructure improvements will be implemented to create a fully functional transportation system through the Midtown area to Eastern Market continuing on to the Detroit RiverWalk and extending into the heart of Downtown. The implementation of these improvements will generate opportunities for economic reinvestment, support the local and regional community, and provide convenient and cost effective transportation options to residents who live and work in the City. The project will infill, extend, and complete the substantial investments that the City has already made in the development of greenways, streetscapes, roadway and bridge reconstructions, bicycle paths, and associated infrastructure enhancements. The project components will allow the completion of secondary phases of ongoing projects in Detroit that currently have limited probability of being implemented in the near future. "Link Detroit" will satisfy the key desire for the TIGER III grant program to support investments in high priority ongoing projects.

Highlights

The Link Detroit project will include the following greenway, streetscape, roadway, and infrastructure improvements (see attached figure):

• **Eastern Market District Core Improvements:** New streetscape including sidewalk paving, site amenities, landscaping, and pedestrian lights on Russell Street (Fisher Freeway Service Drive to Wilkins Street), Wilkins Street (from Russell Street to Orleans Street) and the Fisher Freeway Service Drive (from Russell Street to Gratiot Avenue). This will improve the functionality, access, and experience for patrons and vendors at Eastern Market.

• **Wilkins, Adelaide and Division Street Bridge Reconstruction:** Replace three deteriorating vehicular bridges over the Grand Trunk Railroad east of the Eastern Market. This will maintain and enhance critical road linkages over the railroad, allowing adjacent neighborhoods to better access Eastern Market and facilitate more efficient truck traffic to local businesses.

• **Dequindre Cut Phase II Greenway/Hamtramck Connector:** Extend the Dequindre Cut Greenway 0.45 miles from

Gratiot Avenue to Mack Avenue and construct a new greenway from Mack Avenue 2 miles north to Hamtramck. This will connect Hamtramck to Eastern Market and complete a key connection from the RiverWalk north to Eastern Market and to future greenways planned in Detroit's East Riverfront District.

• **Midtown Loop Phase IV Greenway:**

Connect the Midtown Loop Greenway (Phases I, II and III) at John R Street and Mack Avenue 1.5 miles south on Brush Street and east along Wilkins Street, through Eastern Market to the Dequindre Cut. This will provide a key linkage from the Midtown area to key Detroit destinations and neighborhoods including Eastern Market, the Detroit RiverWalk, and the Downtown core.

Project Benefits

These proposed infrastructure improvements can advance the connections between and the vitality of Eastern Market, the Midtown area and surrounding neighborhoods for Detroit residents and visitors by:

- Improving multi-modal transportation options to major employment centers and providing increased access for surrounding neighborhood residents to strategic Detroit destinations.
- Improving non-motorized connections by linking the RiverWalk and Dequindre Cut with the Midtown Loop and the Hamtramck Trail creating a connected network for those who live, work, and play in the City.
- Strengthening the identity of the Eastern Market as a district by enhancing the operations and functionality of the existing public market.
- Taking advantage of the numerous economic development opportunities available throughout the Eastern Market District, Midtown, and along the greenway connections while maintaining authenticity of the neighborhoods and using its image to attract people to live, work, and visit Detroit.
- Incorporate sustainable strategies into the City, through the use of street tree plantings, landscaping, stormwater management and LED lighting, while at the same time creating an attractive and inviting pedestrian environment.
- Promoting mixed-use neighborhoods that improve the business climate and enliven streets and public spaces by careful blending a variety of uses that support the identity of the individual districts.
- Cultivating a unique sense of place by improving major corridors within vital city districts — streetscaping, signage, lighting, and landscaping will allow these districts to fulfill their potential.

Project Budget

It is estimated that implementation of the Link Detroit project will cost approximately \$25.7 million. The TIGER III grant requirements include a minimum 20%

match which will be provided by the Michigan Transportation Fund (Act 51), the Michigan Natural Resources Trust Fund, the Community Foundation for Southeast Michigan, Midtown Detroit, and the Eastern Market Corporation.

Summary

The TIGER III Discretionary Grant program provides an opportunity to implement significant improvements in the City of Detroit. The proposed streetscape and greenway projects will create a more dynamic and vital pedestrian environment. The proposed multi-modal connections will provide convenient access for all people, regardless of resources, to fresh and nutritious food, employment opportunities and cultural amenities. The greenway connections will provide non-motorized transportation options for residents who live and work in the City to access destinations that they may not currently have the means or opportunity to reach. If you have any questions regarding the details of the project of the TIGER III grant application process, please do not hesitate to contact me. I ask for your support of this project as we advance preparation of the grant application package.

Re: Revised Authorization of Amendment to Airport Department FY 2010-11 Budget and Explanation of Revenue Increase.

The Airport Department respectfully requests that your Honorable Body grant its approval to amend the Airport Department FY 2010-11 budget to add revenues of \$717,444. This revised Request for Authorization is to increase revenue from the previous Request for Authorization submitted by the department.

The revised Resolution corresponds to DRMS and the draft financial statements submitted to the city auditor this week. This additional revenue was added during the FY closing process and is the result of the department implementing Auditor General Report to City Council — Audit Findings and Recommendations #3 — Controls Over Cash Receipts, dated July 28, 2010. After the departure of the former director in September, 2010, the department began the phase-out of its internal

billing system thereby transferring the cash receiving function from the department to the Treasurer. During the year-end closing process revenue transactions that had been generated by the department for the period July, 2010 through October, 2010 were reconciled to DRMS, resulting in a revenue increase.

The Airport department respectfully requests that your Honorable Body approve amendment of the Airport budget to include the addition of revenues and corresponding expenditures. The Amendment is outlined in the attached spreadsheet.

The proposed Resolution is attached.

ture can be built over PLD installations. As per PLD requirements, any structure proposed to be built shall maintain a minimum of 10 feet horizontal clearance for the overhead PLD lines and installations and shall maintain a minimum of 3 feet vertical clearance and 12 inch vertical clearance from the PLD conduit bank and manholes. The contractor will be liable for any damages to any PLD underground or overhead facilities.

AT&T Telecommunication reports having underground conduits in Macomb Street (north of Center) and aerial cable in the alley (on the south side) that will be in conflict with the pedestrian bridge and demo/rebuild of 569 Monroe. Please contact AT&T Engineer to resolve.

Comcast Cablevision report an estimate cost of \$500.00 for the removing and/or rerouting such services.

Traffic Engineering Division — DPW reports no objections to the encroachments, provided that the petitioner/owner maintains an unobstructed minimum sidewalk width of 6.00 feet and vertical clearance of 17.00 feet.

The City Engineering Division — Survey Bureau — DPW received a letter from Greektown Casino dated September 29, 2011 and signed by Michael A. Puggi, President and CEO agreeing to be responsible for any and all cost for the relocation and rerouting of facilities that relate to the petition No. 1028, and the construction of the New Valet Parking structure.

All other city departments and privately-owned utility companies have requested that the petitioner make use of the “MISS DIG” facilities before any construction, backfill, or occupancy of the City rights-of-way to install non-standard materials in the public (street or alley) rights-of-way. Should damages to the utilities occur, the petitioner shall be liable for all claims and damages related to the encroachment installation.

An appropriate resolution, granting the encroachments, is attached for consideration by your Honorable Body.

Respectfully submitted,

**PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE**

**City Planning Commission**

September 13, 2011

Honorable City Council:

Re: Requested Administrative Adjustment for Proposed Greektown Casino Valet Parking Structure.

As you are aware, Greektown Casino LLC is requesting rezoning of the site bounded by Macomb, Beaubien, and St. Antoine Streets and the east/west alley north of Monroe Street, known as 500 Macomb Street, from PD (Planned Development District) to SD5 (Special Development District — Casinos) for the construction of a valet parking structure. Part of the rezoning process for to SD5 is approval of the site plan for the development. However, as the City Planning Commission September 1, 2011 report describes, the site plan cannot be approved as proposed because the parking spaces shown in the plans submitted are shorter than the twenty feet required by Sec. 61-14-151(1).

The zoning ordinance does allow City Council to issue administrative adjustments of up to ten percent of many required dimensional standards for developments in districts requiring City Council approval of the site plan (section 61-4-84(a)). While parking space sizes cannot be given administrative adjustments, aisle widths can be given an adjustment. This ten percent reduction in the required aisle width, if granted, meets the petitioner's needs for the desired parking structure layout.

Attached, please find a resolution that contains a series of findings that are required for an administrative adjustment to be granted. This resolution should be voted on **prior** to the passage of the rezoning ordinance that is the subject of a public hearing on September 29, 2011.

Further, the attached resolution should be voted on **after** Council has acted on a forthcoming resolution from the Department of Public Works (which would be presented before the Public Health and Safety Standing Committee authorizing aerial easements over Monroe Street and the east-west alley north of Monroe Street and the encroachment permit for the cantilevering of the proposed valet parking structure over Macomb Street.

Respectfully submitted,

By Council Member Jenkins:

Whereas, The proposed valet parking structure proposed on the site bounded by Macomb, Beaubien, and St. Antoine Streets and the east/west alley north of Monroe Street, known as 500 Macomb Street is an integral part of the Greektown Casino Complex as "casino complex" is defined at Sec. 61-16-51 of the Detroit Zoning Ordinance; and

Whereas, Pursuant to Sec. 61-11-265 of the Detroit Zoning Ordinance, the Planning and Development Department and the City Planning Commission have reviewed the proposed parking structure and recommend approval; and

Whereas, The required aerial easements over Monroe Street and the east-west alley north of Monroe Street and the encroachment permit for the cantilevering of the valet parking structure over Macomb Street have been approved by City Council; and

Whereas, The owner of the valet parking structure is requesting an administrative adjustment of ten percent (10%) to the twenty (20) foot wide aisle width required for 90 degree parking by Sec 61-14-152 of the Detroit Zoning Ordinance; and

Whereas, Sec. 61-4-84(a) of the Detroit Zoning Ordinance authorizes the City Council to grant administrative adjustments on the subject parcel;

Now Be It Resolved, That the Detroit City Council finds that the proposed valet parking structure is an integral part of the Greektown Casino Complex; and

Be It Further Resolved, That the Detroit City Council finds the requested administrative adjustment is consistent with the Master Plan and the spirit, purpose, and intent of the Detroit Zoning Ordinance; and

Be It Further Resolved, That the Detroit City Council finds that the shallowness of the subject parcel creates practical difficulties that prevent carrying out the strict letter of the Zoning Ordinance; and

Be It Further Resolved, That the Detroit City Council finds that the requested administrative adjustment eliminates a practical difficulty to the applicant; and

Be It Further Resolved, That the Detroit City Council finds that the requested administrative adjustment will have no significant adverse impact on the health, safety, or general welfare of surrounding property owners or the general public or upon the natural environment; and

Be It Further Resolved, That the Detroit City Council finds that any adverse impacts resulting from the administrative adjustment will be mitigated to the maximum extent practicable; and

Be It Further Resolved, That the Detroit City Council finds that the requested administrative adjustment on the shallow subject parcel is appropriate in light of the

unusual aspect of the parking structure development as a valet-only operation in which vehicles are maneuvered by designated valet staff with no component of customer parking; and

Be It Further Resolved, That the Detroit City Council finds that the special circumstances and conditions that account for the need for an administrative adjustment are not the result of the applicant's actions; and

Be It Further Resolved, That the Detroit City Council finds that the administrative adjustment does not permit the establishment of any use which is prohibited within the SD5 District; and

Be It Further Resolved, That the Detroit City Council finds that the administrative adjustment would do substantial justice to the applicant as well as to other property owners in the district, and that a lesser relaxation would not give substantial relief; and

Be It Finally Resolved, That, consistent with the preceding findings, as required by Sec. 61-4-87 of the Detroit Zoning Ordinance, and the approval criteria in Sec. 61-4-81 of the Detroit Zoning Ordinance, the administrative adjustment of up to ten (10) percent to the required twenty foot wide aisle width is hereby granted.

**Finance Department Board of Assessors**

October 7, 2011

Honorable City Council:

Re: East Jefferson Affordable Assisted Living — Payment in Lieu of Taxes (PILOT).

The East Jefferson Affordable Assisted Living (AAL), a development located at 3103 Wight St. on the City of Detroit's near east side will be an adaptive reuse of

an existing building, which was formerly the site of the Parke Davis Pharmaceutical Company. The building is currently vacant, and is being purchased from the UAW/GM Center for Human Resources, and will undergo major renovation to create 80 units of housing, of which 75 will be affordable assisted living for seniors. The Detroit Affordable Assisted Living Limited Dividend Housing Association-Limited Partnership, of which Presbyterian Villages of Michigan and the United Methodist Retirement Communities have affiliates that are general partners, will be the owner of the residential rental portion of the building. The building will be condominiumized to accommodate AAL on the second, third and fourth floors, and a portion of the lower level for a kitchen and resident storage. Seventy-six units will be one-bedroom and 4 studios units, and 75 will be affordable and 5 will be market rate. The program is designed to allow individuals of primarily very low-to-moderate incomes that would qualify for licensed nursing home to live in an apartment and receiving home health services through a Michigan Department of Community Health (MDCH) Medicaid Waiver program.

On the first floor and a portion of the lower level, the Program for All-Inclusive Elderly, Center for Senior Independence will lease space to provide a full range of health and wellness services in two adult day centers and a memory loss day center in a commercial condo unit. This portion is not part of the PILOT.

Capital funding for the AAL will be through the following sources: City of Detroit HOME Funds, MSHDA HOME Funds, Wayne County HOME Funds, Low Income Housing Tax Credits, Brownfield Tax Credits, Community Foundation of Southeast Michigan United Methodist Retirement Community, Inc. and Presbyterian Villages of Michigan capital contributions, and deferred development fees. Operating fund sources include project-based Section 8 Vouchers from MSHDA and the Detroit Housing Commission, and the Medicaid Waivers from the MDCH.

In order to make the AAL economically feasible, it is necessary for the AAL to receive the benefits of exemption under Section 15a of the State Housing Authority Act of 1986 (P.A. 346, as amended, MCLA § 125.1415a).

Tenants will occupy the affordable units whose income does not exceed 60% of the area median income adjusted for family size. It is likely that 75 of these units will be covered by Section 8 project-based vouchers or HAP vouchers for all tenants from Detroit Housing Commission and MSHDA, which require resident incomes at or below 50% AMI.

The Board of Assessors recommends

the adoption of a resolution by the Detroit City Council to approve a 6% PILOT for this development, and said resolution shall be subject to the formation of the condominium and a revised legal description for the PILOT portion of the building. This resolution shall comply with both Public Act 346 and City Ordinance 9-90, as amended by establishing the service charge of six percent (6%) of the Net Shelter Rents.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a service charge of six percent (6%) for this housing project.

Respectfully submitted,  
FREDERICK W. MORGAN  
Assessor

By Council Member Jones:

Resolved, Pursuant to the provisions of Act 346 of the Public Acts of 1996, as amended, a request for exemption from ad valorem property taxes by Presbyterian Villages of Michigan and the United Methodist Retirement Communities, Inc. as sponsors have formed affiliates which will be the general partners of the Detroit Affordable Assisted Living Limited Dividend Housing Association Limited Partnership; and

Whereas, Said sponsors are rehabilitating a building that will have 80 units of housing, of which 75 will be affordable assisted living for seniors. The development located at 3103 Wight St. on the City of Detroit's near east side is an adaptive reuse of an existing building, formerly the site of Parke-Davis Pharmaceutical Company; and

Whereas, The building will be condominiumized to provide residential rental units for the affordable assisted living for seniors in condo unit two on the second, third and fourth floors, along with a portion of the lower level for a kitchen and resident storage. The PILOT will apply only to condo unit two; and

Whereas, The project is being financed by several funding sources which include Low Income Housing Tax Credits, HOME funds from City of Detroit and Wayne County and the State through the Michigan State Housing Development Authority (MSHDA), Brownfield Tax Credits, Community Foundation of Southeastern Michigan, contributions from Presbyterian Villages of Michigan

and United Methodist Retirement Communities and deferred developer's fees; and

Whereas, In order to make the Affordable Assisted Living Project economically feasible, it is necessary for the Project to receive the benefits of exemption under Section 15a of the State Housing Authority Act of 1966 (P.A. as amended, MCLA § 125.1415a); and

Whereas, The purpose of this project is to serve low to moderate-income seniors, the description of the property is as Exhibit "A".

Now, Therefore, Be It

Resolved, That said described premises are henceforth entitled to be exempt from taxation but subject to the provisions of a service charge for payment in lieu of taxes as set forth in Act No. 346 of the Public Acts of 1996, as amended, being MCLA 125, 1401 et. Seq., MSA 16114(1) et. seq., and be it further

Resolved, That said described premises shall be allowed a payment in lieu of taxes (PILOT) or service charge of six percent (6%) of the annual net shelter rent obtained from the project per City Ordinance 9-90 as amended, having taken effect, and be it further

Further Resolved, That in accordance with MCLS § 125.1515a(6), that portion of the property, which shall be exempted pursuant to this resolution but will not be occupied by low income persons or families shall pay a service fee in lieu of taxes equal to the full amount of taxes that would be paid on that portion of the property were it not exempt from taxation; and

Resolved, That arrangements to have collections of a payment in lieu of taxes from Detroit Affordable Assisted Living Limited Dividend Housing Association Limited Partnership be established upon occupancy of the premises with exemption to begin the subsequent year and continue for fifty years with respect to the described property and that all necessary journal entries with respect to the same be prepared by the Chief Financial Officer and be it further

Resolved, That the City Clerk furnish the Finance Department — Assessments Division two certified copies of this resolution.

(j) **Miscellaneous.** The elevators, corridors, foyer, lobby, utility rooms, stairs, and stairwells, all as depicted as General Common Elements on the Condominium Subdivision Plan attached as Exhibit B.

(k) **Other.** Such other elements of the Project not herein designated as General or Limited Common Elements which are not enclosed within the boundaries of a Unit, and which are intended for common use or are necessary to the existence, upkeep and safety of the Project.

Some or all of the utility lines, systems (including mains and service leads) and equipment, described above may be owned by the local public authority or by the company that is providing the pertinent service. Accordingly, such utility lines, systems and equipment, shall be General Common Elements only to the extent of the Co-owners' interest therein, if any, and the Developer makes no warranty whatever with respect to the nature or extent of such interest, if any.

**Section 2. Limited Common Elements.** Limited Common Elements shall be subject to the exclusive use and enjoyment of the Owner of the Unit to which the Limited Common Elements are appurtenant. The Limited Common Elements are: **[CONFIRM WITH MIKE KOZAK AND NATHAN]**

**Section 3. Responsibilities.** The Association shall be solely responsible for maintaining and repairing all Common Elements. Each Co-owner shall be responsible for maintenance, repair and replacement of all equipment, fixtures, appliances, interior partition walls, cabinetry and the like located within its Unit. All costs incurred in connection with the maintenance, repair and replacement of any portions of the General Common Elements, shall be borne by the Developer and/or Association. All costs incurred in connection with the maintenance, repair and replacement of any Limited Common Elements shall be borne by the Co-Owner of the Unit to which such Limited Common Element is attached to or which is benefitted by such Limited Common Element.

No Co-owner shall use its Unit or the common Elements in any manner incon-

sistent with the purposes of the Project or in any manner which will interfere with or impair the rights of any other Co-owner in the use and enjoyment of its Unit or the Common Elements.

**ARTICLE V  
UNIT DESCRIPTION AND  
PERCENTAGE OF VALUE**

**Section 1. Description of Units.** The Condominium Project consists of four (4) Units, numbered one (1) through four (4). Each Unit in the Condominium Project is described in this paragraph with reference to the Condominium Subdivision Plan of

Condominium as prepared by Giffels-Webster Engineers, Inc. Each Unit shall include all that space contained within and including the interior finished unpainted walls and ceilings and from the finished subfloor and all Unit entry doors and interior windows and doors, all as shown on the floor plans and sections in the Condominium Subdivision Plan and delineated with heavy outlines. The dimensions shown on foundation plans in the Condominium Subdivision Plan have been or will be physically measured by Giffels-Webster Engineers, Inc.

**Section 2. Percentage of Value.** The percentage of value assigned to each Unit is set forth below. The percentages of value were computed on the basis of the relative square feet of the Units [DISCUSS WITH NATHAN] with the resulting percentages reasonably adjusted to total precisely 100%. The percentage of value assigned to each Unit shall be determinative of each Co-owner's respective share of the Common Elements of the Condominium Project, the proportionate share of each respective Co-owner in the proceeds and expenses of the administration and the value of such Co-owner's vote at meetings of the Association.

**Section 3. Percentage of Value Assignment.** Set forth below are:

- (a) Each Unit number as it appears on the Condominium Subdivision Plan.
- (b) The percentage of value assigned to each Unit.

<b>Unit Number</b>	<b>Percentage of Value Assigned</b>
1 (Affordable Assisted Living)	<b>[DISCUSS WITH NATHAN]</b>
2 (PACE Program)	
3 (Future Care)	
4 (Green Houses)	
Total:	One Hundred (100%)

**ARTICLE VI  
SUBDIVISION, CONSOLIDATION AND  
OTHER MODIFICATIONS OF UNITS**

Notwithstanding any other provision of the Master Deed or the Bylaws, Units in the Condominium may be subdivided, consolidated, modified and the boundaries relocated, in accordance with Sections 48 and 49 of the Act and this

Article. Such changes in the affected Unit or Units shall be promptly reflected in a duly recorded amendment or amendments to this Master Deed.

**Section 1. By Co-owners.** Subject to the terms of the preceding paragraph, one or more Co-owners may undertake:

**(a) Subdivision of Units.** The Co-owner of a Unit may subdivide its Unit upon request to and approval by the Association. Upon receipt of such request, the president of the Association shall present the matter to the board of directors for review and, if approved by the board, cause to be prepared an amendment to the Master Deed, duly subdividing the Unit, separately identifying the resulting Units by number or other designation, designating only the Limited or General Common Elements in connection therewith, and reallocating the percentages of value (if necessary) in accordance with the Co-owner's request. The Co-owner requesting such subdivision shall bear all costs of such amendment. Such subdivision shall not become effective, however, until the amendment to the Master Deed, duly executed by the Association, has been recorded in the office of the Wayne County Register of Deeds.

**(b) Consolidation of Units; Relocation of Boundaries.** Co-owners of adjoining Unit may relocate boundaries between their Units or eliminate boundaries between two or more Units upon written request to and approval by the Association. Upon receipt of such request, the president of the Association shall present the matter to the board of directors for review and, if approved by the board, cause to be prepared an amendment to the Master Deed duly relocating the boundaries, identifying the Units involved, reallocating percentages of value and providing for conveyancing between or among the Co-owners involved in relocation of boundaries. The Co-owners requesting relocation of boundaries shall bear all costs of such amendment. Such relocation or elimination of boundaries shall not become effective, however, until the amendment to the Master Deed has been recorded in the office of the Wayne County Register of Deeds.

**Section 2. Limited Common Elements.** Limited Common Elements shall be subject to assignment and reassignment in accordance with Section 39 of the Act and in furtherance of the rights to subdivide, consolidate or relocate boundaries described in this Article VI.

**ARTICLE VII  
CONVERTIBLE AREAS**

**Section 1. Designation of Convertible Areas.** All of the General Common Elements are hereby designated as Convertible Areas.

**Section 2. The Developer's Right to Modify Units and Common Elements.**

The Developer reserves the right, in its sole discretion, and subject to municipal approval, during a period ending no later than six (6) years from the date of recording this Master Deed, to modify the size, location, design or elevation of Units and/or General or Limited Common Elements appurtenant or geographically proximate to such Units within the Convertible Areas designated for such purpose on the Condominium Subdivision Plan, so long as such modifications do not unreasonably impact or diminish the appearance of the Project or the view, privacy or other significant attribute or amenity of any Unit which adjoins or is proximate to the modified Unit or Common element.

**ARTICLE VIII**

**CONTRACTION OF CONDOMINIUM**

**Section 1. Right to Contract.** As of the date this Master Deed is recorded, the Developer intends to establish a Condominium Project consisting of four (4) Units on the land described in Article II hereof all as shown on the Condominium Subdivision Plan and which Units must be built. In future recorded amendments to this Master Deed, however, Developer may elect to include additional Units which need not be built together with Units which must be built. In any such event, Developer reserves the right to withdraw from the Project any Units which are described and depicted as need not be built [DISCUSS WITH MIKE AND NATHAN: WHAT UNITS "MUST BE BUILT"?] together with the land area on which they are proposed to be located which area or areas shall be hereinafter known as "contractible area." Therefore, any other provisions of this Master Deed to the contrary notwithstanding, the number of additional Units hereinafter included in this Condominium Project may, at the option of the Developer, from time to time, within a period ending no later than six (6) years from the date of recording this Master Deed, be contracted to any number determined by the Developer in its sole judgment, but in no event shall the number of Units be less than \_\_\_\_\_. (\_\_\_\_).

**Section 2. Withdrawal of Land.** In connection with such contraction, the Developer unconditionally reserves the right to withdraw from the Condominium Project such portion or portions of the land as may be hereinafter described in any amendment to this Article as is not reasonably necessary to provide access to or otherwise serve the Units included in the Condominium Project as so contracted. Developer reserves the right to use the portion of the land so withdrawn to establish, in its sole discretion, a rental development, a separate condominium project (or projects) or any other form of

development. Developer further reserves the right, subsequent to such withdrawal but prior to six (6) years from the date of recording this Master Deed, to expand the Project as so reduced to include all or any portion of the land so withdrawn.

**ARTICLE IX**

**OPERATIVE PROVISIONS**

Any contraction or conversion in the Project pursuant to Article VII and VIII above shall be governed by the provisions as set forth below.

**Section 1. Amendment of Master Deed and Modification of Percentages of Value.**

Such contraction or conversion of this Condominium Project shall be given effect by appropriate amendments to this Master Deed in the manner provided by law, which amendments shall be prepared by and at the discretion of the Developer and in which the percentages of value set forth in Article V hereof shall be proportionately readjusted when applicable in order to preserve a total value of one hundred (100) percent for the entire Project resulting from such amendments to this Master Deed. The precise determination of the readjustments in percentages of value shall be made within the sole judgment of the Developer. Such readjustments, however, shall reflect a continuing reasonable relationship among percentages of value based upon the original method of determining percentages of value for the Project.

**Section 2. Redefinition of Common Elements.**

Such amendments to the Master Deed shall also contain such further definitions and redefinitions of General or Limited Common Elements as may necessary to adequately describe, serve and provide access to the additional parcel or parcels being added to (or withdrawn from) the Project by such amendments. In connection with any such amendments, the Developer shall have the right to change the nature of any Common Element previously included in the Project for any purpose reasonably necessary to achieve the purposes of this Article, including, but not limited to, the connection of roadways and sidewalks in the Project to any roadways and sidewalks that may be located in, or planned for the area of future development or the contractible areas, as the case may be, and to provide access to any Unit that is located on, or planned for the area of future development or the contractible area from the roadways and sidewalks located in the Project. Notwithstanding the foregoing, no Common Element shall be changed or modified if inconsistent with the terms of the Consent Judgment.

**Section 3. Consolidated Master Deed.**

A Consolidating Master Deed shall be recorded pursuant to the Act when the Project is finally concluded as determined by the Developer in order to incorporate into one set of instruments all successive

stages of development. The Consolidating Master Deed, when recorded, shall supersede the previously recorded Master Deed and all amendments thereto.

**Section 4. Consent of Interested Persons.** All of the Co-owners and mortgagees of Units and other persons interested or to become interested in the Project from time to time shall be deemed to have irrevocably and unambiguously consented to such amendments to this Master Deed as may be proposed by the Developer to effectuate the purpose of Articles VII and VIII above and to any proportionate reallocations of percentages of value of existing Units which the Developer may determine necessary in conjunction with such amendments. All such interested persons irrevocably appoint the Developer as agent and attorney for the purpose of execution of such amendments to the Master Deed and all other documents necessary to effectuate the foregoing. Such amendments may be affected without the necessity of rerecording the entire Master Deed or the Exhibits hereto and may incorporate by reference all or any pertinent portions of this Master Deed and the Exhibits hereto.

#### **ARTICLE X EASEMENTS**

##### **Section 1. Easement for Maintenance of Encroachments and Utilities.**

In the event any portion of a Unit or Common Element encroaches upon another Unit or Common Element due to shifting, settling or moving of a building, or due to survey errors, or construction deviations, reciprocal easements shall exist for the maintenance of such encroachment for so long as such encroachment exists, and for maintenance thereof after rebuilding in the event of any destruction. There shall be easements to, through and over those portions of the land, structures, buildings, improvements and walls (including interior Unit walls) contained therein for the continuing maintenance and repair of all utilities in the Condominium. There shall exist easements of support with respect to any Unit interior wall which supports a Common Element.

##### **Section 2. Easements Retained by Developer.**

**(a) Walkway Easements.** The Developer reserves for the benefit of itself, its successors and assigns, and all future Co-owners of the Condominium Premises or any portion or portions thereof, an easement for the unrestricted use of all driveways and walkways in the Condominium, if any, for the purpose of ingress or egress to and from all or any portion of the Condominium Premises.

**(b) Utility Easements.** The Developer also hereby reserves for the benefit of itself, its successors and assigns, and all future Co-owners of the Condominium Premises or any portion or portions thereof, perpetual easements to utilize, tap, tie

into, extend and enlarge all utility mains located in the Condominium, including, but not limited to, water, gas, storm and sanitary sewer mains. In the event Developer, its successors or assigns, utilizes, taps, ties into, extends or enlarges any utilities located in the Condominium, it shall be obligated to pay all of the expenses reasonably necessary to restore the Condominium Premises to their state immediately prior to such utilization, tapping, tying-in, extension or enlargement. All expenses of maintenance, repair and replacement of any utility mains referred to in this Section shall be shared by this Condominium and any developed portions of the Condominium Premises which are served by such mains, pursuant to assessments to be imposed by the Association as provided for in Article II of the Bylaws.

**(c) Party Wall Easements.** The Developer reserves for the benefit of itself, its successors and assigns, and all future owners of the Condominium Premises or any portion or portions thereof, an easement over and upon any party or common walls which are located within the Condominium Premises.

##### **Section 3. Grant of Easements by Association.**

The Association, acting through its lawfully constituted Board of Directors shall be empowered and obligated to grant such easements, licenses, rights-of-entry over, under and across the Condominium Premises for utility purposes, or other lawful purposes as may be necessary for the benefit of the Condominium.

##### **Section 4. Easements for Maintenance, Repair and Replacement.**

The Developer, the Association and all public or private utility companies shall have such easements over, under, across and through the Condominium Premises, including all Units and Common Elements as may be necessary to develop, construct, market and operate any Units, and also to fulfill any responsibilities of maintenance, repair, decoration or replacement which they or any of them are required or permitted to perform under the Condominium Documents or by law. These easements include, without any implication of limitation, the right of the Association to obtain access during reasonable hours and upon reasonable notice to water meters, sprinkler controls and valves and other Common Elements located within any Units or its appurtenant Limited Common Elements.

##### **Section 5. Telecommunications**

**Agreements.** The Association, acting through its duly constituted Board of Directors and shall have the power to grant such easements, licenses and other rights of entry, use and access and to enter into any contract or agreement, including wiring agreements, right-of-way agreements, access agreements and

multi-unit agreements and, to the extent allowed by law, contracts for sharing of any installation or periodic subscriber service fees as may be necessary, convenient or desirable to provide for telecommunications, videotext, broad band cable, satellite dish, earth antenna and similar services (collectively "Telecommunications") to the Project or any Unit therein. Notwithstanding the foregoing, in no event shall the board of directors enter into any contract or agreement or grant any easement, license or right of entry or do any other act or thing which will violate any provision of any federal, state or local law or ordinance. Any and all sums paid by any telecommunications or other company or entity in connection with such service, including fees, if any, for the privilege of installing same or sharing periodic subscriber service fees, shall be receipts affecting the administration of the Condominium Project within the meaning of the Act and shall be paid over to and shall be the property of the Association.

**ARTICLE XI  
AMENDMENT**

This Master Deed and the Condominium Subdivision Plan may be amended with the consent of sixty-six and two-thirds (66-2/3) percent of the Co-owners, except as hereinafter set forth:

**Section 1. Modification of Units or Common Elements.** No Unit dimension may be modified in any material way without the consent of the Co-owner and mortgagee of such Unit or may the nature or extent of Limited Common Elements or the responsibility for maintenance, repair or replacement thereof be modified in any material way without the written consent of the Co-owner and mortgagee of any Unit to which the same are appurtenant, except as otherwise expressly provided in this Master Deed or in the Bylaws to the contrary.

**Section 2. Mortgagee Consent.** Amendments shall require the approval of first mortgagees in accordance with Section 90(a) of the Act.

**Section 3. By the Developer.** Pursuant to Section 90(l) of the Act, the Developer hereby reserves the right, on behalf of itself and on behalf of the Association, to amend this Master Deed and the other Condominium Documents without approval of any Co-owner or mortgagee for the purposes of correcting survey or other errors and for any other purpose unless the amendment would materially alter or change the rights of a Co-owner or mortgagee, in which event Co-owner and mortgagee consent shall be required as provided above.

**Section 4. Change in Percentage of Value.** The method or formula used to determine the percentage of value of Units in the Project for other than voting

purposes shall not be modified without the consent of each affected Co-owner and mortgagee. A Co-owner's Condominium Unit dimensions or appurtenant limited common elements may not be modified without the Co-owner's consent.

**Section 5. Termination, Vacation, Revocation or Abandonment.** The Condominium Project may not be terminated, vacated, revoked or abandoned without the written consent of the Developer, eighty (80) percent of non-developer Co-owners and eighty (80) percent of first mortgagees.

**Section 6. Amendment Procedure.** The procedure for amending the Master Deed shall be consistent with the applicable provisions of the Act, including M.C.L. 559.190, 559.190(a) and 559.191.

**ARTICLE XII  
ASSIGNMENT**

Any or all of the rights and powers granted or reserved to the Developer in the Condominium Documents or by law, including the power to approve or disapprove any act, use or proposed action or any other matter or thing, shall be assigned to the Association immediately upon conveyance by the Developer of both Units. Any such assignment or transfer shall be made by appropriate instrument in writing duly recorded in the office of the Wayne County Register of Deeds.

Honorable City Council:

Re: Neighborhood Enterprise Zone Certificate Applications for three housing units within the Morningside Neighborhood Enterprise Zone (Recommend Approval).

The City Clerk's Office forwarded to our office applications from Habitat for Humanity for Neighborhood Enterprise Zone (NEZ) certificates for three housing units within the Morningside NEZ area approved by the Detroit City Council in March, 2008.

The addresses for the certificates are as follows: 3590 Lakepointe, 3604 Lakepointe, and 3649 Lakepointe. Habitat for Humanity is proposing to construct three new single-family homes.

All three houses would be built on Lakepointe Avenue between Lozier and Mack Avenues. The properties involved are confirmed as being within the boundaries of the Morningside NEZ. Based on the above analysis, CPC staff recommends approval of the subject NEZ certificate.

Please let us know if you have any questions.

Re: Martel Hadden vs. City of Detroit, City of Detroit Police Officer Keith Dean, Jointly and Severally. Case No.: 10-cv-14961. File No.: A37000.007220 (RJB).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We, therefore, request authorization to settle this matter in the amount of Seventy-Five Thousand Dollars and No Cents (\$75,000.00) and that your Honorable Body direct the Finance Director to issue a draft in that amount payable to Matthew S. Kolodziejski, his attorney, and Martel Hadden, to be delivered upon receipt of properly executed

Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 10-cv-14961, approved by the Law Department.
