

# The Livernois Streetscape Project is moving along!

Our next step is to pour concrete in front of your business.

Your driveway will be temporarily closed starting Wednesday, July 17th (weather permitting) as the project performs paving operations.

The driveway will be closed for approximately 8 days to allow for grading, paving and curing.

Pedestrian access will be maintained to all businesses throughout the construction process.

The City of Detroit understands this is not an easy process and we are sorry for any disturbance this will cause.

Street parking will be available on west side of Livernois.

Parking lot on Chesterfield will remain open to public.

Street closed

Street open
