## PROPOSAL SUMMARY

In accordance with a Community Benefit Agreement negotiated under the recent Stellantis plant expansion project, The City of Detroit Planning and Development Department proposes to fulfil the City's commitment to conduct a neighborhood framework plan with the communities surrounding the Stellantis plant. The Framework Plan proposes to identify common goals for the future of plant-adjacent neighborhoods and direct resources toward the realization of those goals. The planning process could begin in Fall 2022. The cost of this proposal is not available at this time and will be determined upon finalization of the contract with a qualified vendor.
