**CERTIFICATE OF APPROPRIATENESS**

Kayla Crist  
Signs by Crannie  
4145 Marketplace  
Flint, MI 48507

**RE: Application Number 20-6827; 220 W. Congress Street, Financial District Historic District**

Dear Ms. Crist,

At the regularly scheduled meeting held virtually on September 9, 2020, the Detroit Historic District Commission (“Commission”) reviewed the above-referenced application for building permit. Pursuant to Section 5(10) of the Michigan Local Historic District Act, as amended, being MCL 399.205, MSA 5-3407(5)(10) and Section 21-2-73 of the 2019 Detroit City Code; the Commission has reviewed the above-referenced application for building permit and hereby issues a Certificate of Appropriateness, which is effective as of September 15, 2020.

The following proposed work meets the defined elements of design for the historic district and the Secretary of the Interior’s Standards for Rehabilitation and guidelines for rehabilitating historic buildings (36 CFR Part 67).

- **Install a new sign at the upper portion of the front façade including the following scope items:**
  - “Venture X” letters and logo to be 3.5” deep, internally illuminated channel letters with black aluminum returns/backers. The individual letters are to be flush mounted with 3/16” white acrylic sign faces with translucent vinyl overlays. The vinyl overlay of the “Venture X” letters is to be dark gray in color while the vinyl overlay of the logo is to be yellow in color.
  - Directly beneath the “Venture X” channel letters are to be non-illuminated, aluminum letters reading “the future of workspace.”

Please retain this COA for your files. You should now proceed to obtain a building permit from the City of Detroit Buildings, Safety, Engineering and Environmental Department. It is important to note that approval by the Detroit Historic District Commission does not waive the applicant's responsibility to comply with any other applicable ordinances or statutes.

For the Commission:

Ann Phillips

## PROJECT REVIEW REQUEST CHECKLIST

Please attach the following documentation to your request:

**\*PLEASE KEEP FILE SIZE OF ENTIRE SUBMISSION UNDER 30MB\***

- Completed Building Permit Application** (highlighted portions only)
- ePLANS Permit Number** (only applicable if you've already applied for permits through ePLANS)
- Photographs** of ALL sides of existing building or site
- Detailed photographs** of location of proposed work (photographs to show existing condition(s), design, color, & material)
- Description of existing conditions** (including materials and design)
- Description of project** (if replacing any existing material(s), include an explanation as to why replacement--rather than repair--of existing and/or construction of new is required)
- Detailed scope of work** (formatted as bulleted list)
- Brochure/cut sheets** for proposed replacement material(s) and/or product(s), as applicable

### NOTE:

Based on the scope of work, additional documentation may be required.

See [www.detroitmi.gov/hdc](http://www.detroitmi.gov/hdc) for scope-specific requirements.

Upon receipt of this documentation, staff will review and inform you of the next steps toward obtaining your building permit from the Buildings, Safety Engineering and Environmental Department (BSEED) to perform the work.

### **Venture X – 220 W. Congress, Detroit MI**

We are looking to install a channel Letter / non illuminated letter sign from Sign A Rama in Troy / Metro Detroit on the top of the fascia area of this large building on Congress in Detroit.

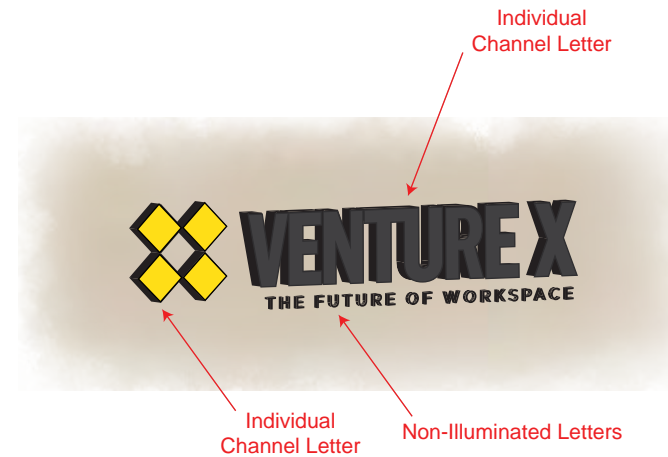

**Construction** – “Venture X letters and logo”. Aluminum fabricated face lit LED illuminated channel letters. The Logo will have translucent yellow vinyl graphics. The “Venture X” letters to have perforated dark gray vinyl graphics to illuminate white at night.

“The future of workspace” letters to be non illuminated routed aluminum letters.

**Existing building conditions** – The façade area where the sign installs is ACM panel over dens glass with steel studs.

### **Installation –**

- We have contacted Traffic Management Inc. for traffic control at the time of installation. This will include a traffic control plan from traffic engineering. This also includes a traffic controller / flagger, traffic control trucks, (1) FAS arrowboard and any other needed traffic control devices and / or cones, signs, and barricades to setup a standard single lane closure per MUTCD.
- Illuminated letters “Venture X” will be through bolted at securely at the time of installation. Electrical / power supplies will be located behind the wall per NEC Code.
- Non Illuminated letters will be installed using studs and silicone securely to the façade.

AN ARTIST REPRESENTATION - Image is for illustration purposes only. Objects in reality may be larger or smaller than depicted.

**DETAILS**

- 3.5" Deep Internally Illuminated Channel Letters with Custom Capsule
- Flush Mounted
- Black Aluminum Returns / Backers
- 1" Trimcap, Color: TBD
- 3/16" White Acrylic Sign Faces with Translucent Vinyl Overlay
- Color:  PANTONE 108 C  PANTONE Cool Gray 11 C

**Project: Venture X – Wall Sign  
220 W. Congress  
Detroit, MI**

**General Notes:**

- 1- Governing Building Code: Michigan Building Code 2015
- 2- Sign structure is not independently stable until all systems and components are completed assembled, connected, and detailed.
- 3- Design Loads: ASCE 7-10
  - Wind Loads based on:
    - i.  $V = 120$  mph
    - ii.  $I_w = 1.0$
    - iii. Exposure C
    - iv. Internal Pressure Coefficient = +/- 0.18
- 4- The structure has been designed to withstand a 120 mph (3-sec gust) design wind speed with a maximum design pressure of 25.7 psf per ASCE 7-05.

**Using Archon WinPost Program:**

Wind load Calculation

**OUTPUT DATA**

Actual Bending Stress = 361.18 psi  
Allowable Bending stress = 22049.00 psi  
Total Wind force on attachments = 3229.71 psi  
Attachments Wind pressure = 27.39 psf  
Wind pressure = 25.89 psf  
Ok, bending stress adequate  
End Pressure is OK!

**INPUT DATA**

Wind Velocity = 120 mph  
Height above ground to the center of the top sign = ~ 65 ft.  
Gross area attachment (signage) = 111.00 SqFt  
Quantity = 1 Sign  
See details/notes on drawings
