HDC Commission,

I am a homeowner at 2003 Brooklyn St Detroit MI 48226 and writing to express my support in the development at 1628 Bagley St.

As a long time resident of Detroit, I have seen immense benefit to our city and community with the addition of housing developments, such as this. Added density is the only way forward for the city and neighborhood.

I've also seen previous developments of the group proposing this Bagley project and am very impressed with the quality in construction and respect to the neighborhood.

Thank you,

Hass
