

Permanent Status for Outdoor Classrooms

May 10, 2022

To the Historic District Commission

This missive is to express my pure support for the permanent outdoor classrooms in the Historic Indian Village at Detroit Waldorf School. As a 48 year resident of the Pingree Park Community & decade member of the Burns, Seneca, Fischer Block Club, I can attest to valiant and creative learning environment Detroit Waldorf School has displayed.

The essential access of learning these outdoor classrooms provided during a shut-down season of life, and the munificent collaboration of professional designers and volunteer parent builders confirms the creative and tenacious resources Detroit Waldorf utilize to ensure student achievement.

Not only has this been a meaningful integration to the schools child-focused exterior learning landscape, but it has allotted for a larger student body, maintained the schools enrollment as well as grow community engagement & celebrations through art shows, plays, garden tours, day camps, scouting groups and festivals.

It is apposite to confirm the permanent outdoor classrooms for Detroit Waldorf School, the surrounding community, and continue to be a template for other learning institutions to adopt.

Respectfully,
