Greetings,

My name is Jessica Trevino, I'm a resident in Hubbard Richard and have lived in both Hubbard Farms and Hubbard Richard all my life.

I have attended public conversation/ presentation for the proposed project on WGB. I was very happy to see the plans and really like the idea of townhouses being built. I believe the more people that own and live in a community they become more invested in community participation and desire for an area to thrive and be safe. Multi unit apartments become transient places where there is no skin in the game. People come, people go. Without real personal investment in the property or the neighborhoods.

It's also my understanding that the property asking for development is technically in Hubbard Richard not in the historical district.

I personally support Inkwell in this venture.

I ask you support it as well.

Thank you for your time.

Sincerely,

Jessica Trevino
