To HDC Members,

I am reaching out as a neighbor in support of the proposed project taking place at 2108 Burns Ave. that will be discussed in the June 14th meeting.

Despite the plans being unanimously passed in 2021 project plans have been corrected and updated in order to accommodate requested changes. The update that requires approval adds a connector hallway to the two new buildings being built joining them together

As neighbors and friends of Gabby and Gary I can personally attest to the fact that they are happy to accommodate changes in order to uphold the standards set forth by the HDC as they are committed to ensuring historic standards remain in place for years to come.

Please consider this email my written show of faith that the proposed project tweaks should be approved so that no other variances will be needed and permitting can continue as planned.

Please do not hesitate to reach out if there is any other information I can provide in support of the project.

Thank you,
Jesse Gaver
