Subject: [EXTERNAL] Gary Brown's proposal

Dear HDC Detroit,

I am writing this letter to express my full support for the proposed home improvement project by my neighbor and friend, Gary Brownell, of 2108 Burns Ave.

As a long time resident of the Indian Village neighborhood, I strongly believe that the proposed home improvement project will benefit not only their home but the entire community as well. It is always gratifying to see people move in and make necessary and beautiful improvements to our historic homes

This project demonstrates the sincere commitment of Gary Brownell to the preservation and improvement of our community.
