Subject: Support for Proposed Project at 2108 Burns

Dear Commissioners,

I am writing to you in full support of the proposed project at 2108 Burns as submitted by Gary Brownell. Gary has shared with me the renderings and vision for the contemplated project, and I am impressed at the thoroughness and thoughtful consideration that went into the design. I firmly believe this project will not only preserve the architectural heritage and integrity of the existing home, it will enhance and be in keeping with the historic character of Indian Village.

As a former President of the Indian Village Association, I can attest that the association has provided support for several Indian Village projects of varying scopes and scales during my time while serving on the Board. While Gary's project is one that is larger in scale, it is consistent with other projects for which the association has provided support. The project at 2108 Burns is one that I would firmly stand behind if I were serving on the Board and is certainly one that I support as a current resident.

I am confident that this project will meet the required historical standards as outlined by the HDC and be a positive reflection on Indian Village. I kindly request that you consider the value and historic appreciation in this project and sincerely hope that you approve the submitted design. Please do not hesitate to contact me at the number below with any questions, comments or concerns.

Respectfully,

Peter McGreevy
