

Streetscape of west side of Hubbard – specifically the seven narrow lot, fenced-in properties.

Northern three lots. ★ 1225 Hubbard

✚ 1241 Hubbard - three-story apartment building; rehab reviewed by HDC at it 1/22/20 meeting

Looking southwest at the other four fenced-in lots. The house to immediate left of 1225 Hubbard, partially seen here, is shown in full in first photo.

The fenced-in lots end adjacent to this two-story attached housing. The rest of this end of the street has large, single-family houses on larger lots (similar to those on the east side of Hubbard).

Here you see the transition from the vinyl siding to the historic narrow clapboard siding.
