

A 1980s addition on the back of our house has a small, single, wood window with exterior vinyl trim. We would like to replace this window with two larger double hung Anderson 400 series windows in a size and style that matches the windows on the front of our house. These windows are wood windows with exterior vinyl trim. The vinyl will be brown to match the trim on the rest of our house. The two new windows will have colonial style grilles on the top pane with the grilles matching the trim color and will each be 32" x 57".

Front of House:

Window to be replaced:

New Window Exterior view (installing 2 side by side to match windows on upper front of house)
