Schedule B-Section II Exceptions

2006 ALTA COMMITMENT Commitment No.: TC13-68996

Schedule B of the policy or policies to be issued will contain exceptions to the following matters unless the same are disposed of to the satisfaction of the Company:

- Standard Exceptions:
- A. Rights or claims or claims of parties in possession not shown by the Public Records.
 - B. Any encroachment, violation, variation, or adverse circumstances affecting the Title that would be disclosed, by an accurate and complete survey of the Land.
 - C. Easements or claims of easements not shown by the Public Records and existing water, mineral, oil and exploration rights.
 - E. Any and all oil, gas, mineral, mining rights and/or reservations thereof.

Specific Exceptions:

1. The Company does not make any representation as to the value of the property.
2. Rights of tenants under any unrecorded leases, as to tenants only.
3. Terms, provisions and conditions of Ordinance 605-H, as to the establishment of the Corktown Historic District by the City of Detroit, as set forth in instrument recorded in Liber 22338, Page 688, Wayne County Records.
4. Terms, provisions and conditions of Petition No. 3096, for easements, by City of Detroit as set forth in instrument recorded in Liber 27326, Page 148, Wayne County Records.
5. Rights of the public and any governmental unit in any part of the land taken, dedicated or used for street, road or highway purposes.
6. Taxes which are a lien pursuant to Public Act 143 of 1995 and any other taxes and/or assessments which become a lien or become due and payable subsequent to the date of the commitment, including all assessments for weed cutting, grass cutting or any other matters for which City services were provided but not assessed against the tax rolls prior to the effective date of the Commitment.
7. This Policy does not insure against any delinquent or current water charges pertaining to the subject matter property as the parties failed to produce a final meter reading and/or final paid water bill prior to Closing.

Pella® Lifestyle Series

Aluminum-Clad Wood

#1 performing wood window and patio door¹

For the combination of energy, sound and value.

37 time-tested innovations

Create unique, room-by-room solutions to meet real-life needs.

83% more energy efficient²

On average compared to single-pane windows – with performance solutions for improved comfort.

All - windows & patio sliding doors

Pella Lifestyle Series

Exceptional performance and style.

Style flexibility. Whether a home is traditional, modern or somewhere in between, create beautiful windows and patio doors that fit your style.

Redefining performance. Get both unrivaled energy efficiency and sound performance at an incredible value. With the Ultimate Performance package, windows are on average 79% more energy efficient and reduce 52% more outside noise than single-pane windows.^{2,5}

Enhanced durability. Our windows are designed to stand the test of time with exterior wood parts treated with exclusive EnduraGuard® wood protection and an aluminum-clad exterior with EnduraClad® finish.

Room-by-room solutions.

Most desired features, options and innovations.

Complement your project with the most popular colors, finishes, grille patterns and more. Many innovative solutions also come standard.

Integrated blinds and shades. Intentionally designed to be accessible, blinds and shades are tucked between glass panes and are protected from dust, pets and little hands.

Added security and convenience. Add peace of mind with optional built-in window and door sensors and motorized between-the-glass blinds and shades that raise and lower with a touch of a button.

Create solutions that are perfect for real life. Covered by the best limited lifetime warranty for wood windows and patio doors, Pella Lifestyle Series offers everything you love about wood – including beauty, durability and style flexibility.³ Begin with dual- or triple-pane glass and then select from the most desired features and options.⁴

Pella Lifestyle Series is the #1 performing wood window and patio door for the combination of energy, sound and value.¹ Packed with purposeful innovations like Integrated Blinds, Shades and Security Sensors, we designed windows and patio doors to work for your project, room by room.

¹ Performance solutions require upgrades to triple-pane, AdvancedComfort Low-E and mixed glass thickness. Based on comparing product quotes and published STC/OITC and U-Factor ratings of leading national wood window and patio door brands.

² Window energy efficiency calculated in a computer simulation using RESFEN 6.0 default parameters for a 2000 sq. foot new construction single-story home when comparing Pella Lifestyle Series windows with Advanced Comfort Low-E triple-pane glass with argon and mixed glass thickness to a single pane wood or vinyl window. Double-hung windows are not available with triple-pane glass. The energy efficiency and actual savings will vary by location. The average window energy efficiency is based on a national average of 94 modeled cities across the country and weighting based on population. For more details see pella.com/methodology.

³ Based on comparing written limited warranties of leading national wood window and wood patio door brands. See Pella written Limited Warranty for details, including exceptions and limitations, at pella.com/warranty, or contact Pella Customer Service at 877-473-5527.

⁴ Double-hung window only available with dual-pane glass.

⁵ Reduction in sound based on OITC ratings of Pella Lifestyle Series windows with triple-pane glass with mixed glass thickness to a single-pane wood or vinyl window with an OITC of 19. Calculated by using the sound transmission loss values in the 80 to 4000 Hz range as measured in accordance with ASTM E-90(09). Actual results may vary.

Test Report**

OFFICIAL TEST REPORT

(FBC, IBC: 2012, 2015, 2018, ANSI Z97.1, ASTM E2353 – E2358)

February 22, 2020

Report Number: Viewrail-08-2020

Manufacturer: Viewrail

Test Location: 2436 Dierdorf Road
Goshen, IN 46526

Product Under Test: BR69 Base Channel

Test Witnessed By: Michael Hudson, P.E.
JJ. Johnson (Manufacturer)

The BR69 Base Channel system is an interior glass rail/ guard/balustrade assembly with full view glazing material that is supported on one side with a structural top rail.

Notes

This report does not purport to address all possible impact and load cases that could result in railing system or glazing failure. If additional load or impact case testing is required by the qualified licensed engineer, please contact the Manufacturer.

For external installations the wind loads and glass stress must be calculated and accounted for by a qualified licensed engineer in charge of the fixed work. Further, If the system will be installed in exterior locations, corrosion and deterioration testing is required.

The test results herein are intended to assist a qualified licensed engineer in developing a code compliant guard that meets the applicable requirements of 2012, 2015, and 2018 International Building Code and state codes adopted from the IBC codes. This report is not intended to demonstrate the code compliance of an installation but is only to be utilized by the qualified licensed engineer in charge in analyzing the glass stresses and anchorage.

Testing Preparation

Test Sequence (All tests performed on a single specimen in the order specified by ASTM E2353-16 and ASTM E935-13)

1. Infill Load Test
 - Vertical Edge of Center Lite
 - i. 4" x 4"
 - ii. 12" x 12"
2. Concentrated Load Test
 - i. Horizontal - Mid-Span of Handrail

Calculated Permissible Deflection

Permissible deflection under load per ASTM 2358-17 calculated under worst case conditions (minimize *h* or *l* value):

Maximum Permissible Deflection	$h/24 + l/96$
Horizontal Load Applied at Rail Mid-Span	(37"/24 + 164"/96) 1.5" + 1.7" 3.2"

Maximum Permissible Deflection	$h/12$
Load Applied at the Line of Vertical Support	37"/12 3"

Maximum Permissible Deflection	$l/96$
Vertical Load Applied at Rail Mid-Span	164"/96 1.7"

Installation Instructions

Before You Begin

Inspect area where the Spigots are being installed.
Ensure that your mounting surface has sufficient backing.
For most jobs, a minimum of 4" of backing material is recommended in order to securely mount your Base Rail.

Protect All Finished Surfaces

At each phase of installation, be sure to protect your base rail and glass panels from debris that can cause marring to their finished surfaces.

Appendix C: Manufacturer's Published Installation Instructions

Side Mount Talon Spigot Installation

Side Mount Talon Spigots must be mounted through a triple header, or threaded studs must mount 4" deep into concrete. Wood must be equal to or harder than Southern Yellow Pine.

1. Determine the mounting position for the spigots. Drill 2 holes for the threaded studs. Distance between holes is 75mm on center. Once holes are drilled and studs inserted, add a washer, lock washer, and nut to the back side of each of the studs. Adjust fasteners so that only 10mm of each stud protrudes from the front of the holes. (see fig. A)

2. Slide the spigot onto the studs.

3. Add the special nut to each stud, then hand-tighten or use a short allen wrench to tighten until the special nut is recessed far enough to allow room for the special socket. Use the special socket and an open end wrench to finish tightening the special nut on each stud.

4. Once the spigot is secure, install the press plate and plastic lining.
REPEAT STEPS 1-4 UNTIL ENOUGH SPIGOTS ARE IN PLACE TO HOLD A GLASS PANEL.

5. Carefully place glass panel onto plastic lining inside the spigots.

6. Use the allen screws on the front of the spigot to gently secure the glass panel. These screw adjustments also control the Tilt-Lock feature, allowing the glass panels to be tilted in or out for alignment purposes.

To tilt glass in,
turn the top nut
clockwise and
turn the bottom
nut counter-
clockwise.

To tilt glass out,
turn the top nut
counter-clock-
wise and turn
the bottom nut
clockwise.
