

Dear Historic Commission, We are seeking the approval of the historic commission for replacement of multiple windows at this home. At the time of purchase this home had some newly installed windows, we would like to have the new windows match the existing windows.

All existing newer windows are in great condition and add historic character to the home with its colonial style.

General Scope of work:

All existing new white windows to remain.

All glass block windows to be replaced unless specifically mention otherwise.

All new windows to match existing in color and style.

Altogether we would like to replace 10 windows.

Front.

East Side

Window to remain

Window to be replaced with a stationary window due to large opening.

Window to be replaced with double hung window matching existing one above it.

West Side.

Window to be replaced with double hung window matching existing windows.

Window to be replaced with double hung window matching existing windows.

Window to be replaced with double hung window matching existing windows.

First Choice
WINDOWS AND DOORS

Fusion Welded Vinyl Windows

BEAUTIFULLY PROTECTIVE AND ENERGY SMART.

Fusion Windows are expertly crafted to provide year-round comfort, energy efficiency, and lasting value. Featuring fusion-welded sashes and mainframe, multi-chambered extrusions, composite-reinforced interlocking meeting rails and an insulating glass unit, Encore Windows will deliver years of smooth operation and thermal protection for your home.

ENDURING, STYLE, EASY UPKEEP.

You'll appreciate the quality craftsmanship and carefree maintenance of Encore Windows. The premium vinyl maintenance and sashes won't rot, split, corrode, or pit like painted wood windows and won't swell or warp from exposure to moisture. Your windows will maintain their appearance inside and out with minimal upkeep.

DOUBLE HUNG

ENDURING STYLE, EASY UPKEEP.

Our double-hung windows combine classic good looks with superior functionality. Both sashes tilt in to offer convenient cleaning from inside your home.

- Fully-welded mainframe and sashes for added strength
- Interlock at sash meeting rails creates a tight seal against air infiltration.
- Sloped sill forces water to drain to the exterior of the window
- Constant force balance system ensures smooth sash operation.

SLIDING WINDOWS

The generous glass area of sliding windows offers an infusion of natural light and an unobstructed outdoor view. Sleek sashes glide horizontally and lift out for easy cleaning.

- Fully Welded mainframe and sashes for added strength
- Multi-wall extrusions enhance structural integrity, strength and thermal efficiency.
- Interlock at sash meeting rails creates a tight seal against air infiltration
- Nylon-encased dual brass rollers ensure smooth sash operation.
- Extruded aluminum frame for screen sash with built-in handle tote.

Designed and Printed by Media Goals 313.284.4300

Above Top: Encore Double-Hung Windows feature a constant force balance system to ensure smooth operation; both sashes tilt for convenient cleaning from inside your home.
Above: Encore Sliding Windows glide horizontally on a nylon-encased dual brass roller system, and the sashes lift out for easy cleaning.

Beautifully
built for the
way you live.

QUALITY CRAFTED FOR
SUPERIOR PERFORMANCE

- 1 Vinyl mainframe and sashes won't chip, crack, or warp, the premium vinyl color is formulated throughout so the beautiful luster lasts.
- 2 Multi-chambered sash and mainframe create insulating air spaces for increased thermal efficiency.
- 3 Insulated glass unit* with the PPG Intercept Warm-Edge Spacer System helps achieve year-round energy conservation.
- 4 Interlock at sash meeting rails provides increased strength, insulation, and comfort.
- 5 Protective bulb seal helps prevent air infiltration at the meeting rails.
- 6 Drop-in glazing for extra protection from dust, dirt, and air infiltration.
- 7 Fully extruded lift rails provide strength and stability for easy operation.
- 8 Sloped sill forces water to drain to the exterior of the window.
- 9 Hidden screen track for clean lines and added beauty.
- 10 Bulb seal at the sill creates extra protection from dust, dirt, and air infiltration.

INSULATING CLIMAGUARD
GLASS PACKAGES

Reducing energy loss is often the number one reason for purchasing replacement windows. When you consider that windows are roughly 80% glass, you see why upgrading your windows with an insulating glass system can significantly improve the overall energy efficiency. Our optional ClimaGuard glass package combines insulating Low-E (low emissivity) glass, argon gas and the Intercept Warm-Edge Spacer System that features a unique, one-piece metal alloy, U-channel design that creates an effective thermal barrier. ClimaGuard insulated glass packages have proven to be far more effective than ordinary insulated glass units. Low-E glass also helps minimize UV rays that can cause furnishings to fade.

Summer Energy Savings: Low-E helps block unwanted solar heat penetration to help reduce air conditioning usage.

Winter Energy Savings: Low-E insulating glass reduces heat loss by reflecting warm air back into your home.

PLUS THESE ADDITIONAL FEATURES:

- Fully-welded frame and sashes add strength and rigidity.
- Dual vent stops provide a limited and convenient opening of the window for ventilation.
- Constant force balance system eliminates sash cords, weights, and pulleys and provides easy raising and lowering of the sashes (double hung window).
- Protective double-barrier fin seal weatherstripping at sash sides help block dirt, noise, and air infiltration.
- Beveled exterior profile gives windows a clean, elegant look.

Encore offers a variety of ENERGY STAR[®] qualified products. Consult your window professional for the optimal glass package required for your home and climate zone.
