Re; 269 Watson Street Detroit, MI 48201

Dear Dan & Ben,

In reference to the Doors; 4 new exterior doors will be installed all with same description below.

Unfortunately, 3 doors have been replaced. One on the East side elevation and two on the North-rear side elevation. They are all made by Jeld Wen windows and door Co; Inc. Doors are primed steel 4 panel Decorative camber top 4-9/16 jamb w/ brickmould 36X80. We will be painting them with Behr white steel exterior paint semi-gloss. The fourth door will be the one leading to the basement. The main south front 2 panel door will be restored and stained with a dark brown or black burnished polyurethane.

Windows will be address for the next hearing in October 2022, However the 4 front windows have been ordered with Aluminum Clad Wood material.

Install 2 North-Rear porches' approx. 10.8.X 9.4 with covered deck made out of treated pine.& Epdm rubber. Roofing material.

Porches' will be made out of treated Pine & skap stain boards or Deck tracks-rubbered whichever is allowed.

42-foot guard Railing resting on steel frame with treated pine wood.
