Hi Ben,

I am attaching photos of the inside and outside of the property as requested as well as the windows I would like to put in the front. The windows are actually quite expensive and I wanted to see if I could be approved to put in something more in keeping with the historical style of the home (aluminum clad wood) first photo would be of the windows that would go in the front (it would have square grids not rectangular on the outside of the window and they could be white or black which ever you thought was more appropriate and something more contemporary such as vinyl or a composite on the sides and in the back.

I will send a manufactures description of the window in a separate email.

Razel
