Schaap Center

The Schaap Center – the vision is for the center to become a prominent place of public fellowship and gathering for the appreciation of the arts – for the community and the region. New interior and exterior renderings reveal the building that include space for the world-class performing arts theater and a gallery for the exhibition of artwork.

A space like the Schaap Center is beneficial to the community for a number of reasons. The most important being recognition of the arts as well as bringing the community together to share this appreciation now and in the future. The Schaap Center will be a place to share, learn, appreciate and heal collectively.
