

2010

Attached on page 1 and 2 are images of how I purchased 2010 Chicago blvd in 2021. There was a vinyl covering going over the front fascia of the home as well as under the roof. On page 3 you can see that I actually restored these areas to how they should be by removing the vinyl siding and restoring all of the wood and having it painted . In 2018 there are images that were sent to me from historic (which I will attach to this application) of the previous owners cutting off the decorative end piece in order to wrap this in vinyl. Nobody did anything to the previous owners for this for 3 years. There is no way for me to recreate the decorative ends of the front fascia and with the money already spent on improvements to the home there is no way for me to pay for something like this.
