

NOTE: Based on the scope of work, additional documentation may be required. See www.detroitmi.gov/hdc for scope-specific requirements.

PROJECT DETAILS – TELL US ABOUT YOUR PROJECT

Instructions: Add project details using the text box in each section. If your details exceed the space provided, attach the details via the attachment icon for that section.

ePLANS PERMIT NUMBER:

(only applicable if you've already applied for permits through ePLANS)

N/A

GENERAL

1. DESCRIPTION OF EXISTING CONDITION

Please tell us about the current appearance and conditions of the areas you want to change. You may use a few sentences or attach a separate prepared document on the right. (For example, "existing roof on my garage is covered in gray asphalt shingles in poor condition.")

Current windows are rotted wood windows.(Picture file was to large to upload... Please advise if needed)

2. PHOTOGRAPHS

Help us understand your project. Please attach photographs of all areas where work is proposed.

3. DESCRIPTION OF PROJECT

In this box, tell us about what you want to do at the areas described above in box #1. (For example, "Install new asphalt shingle roofing at garage.")

Install new vinyl windows.

4. DETAILED SCOPE OF WORK

In this box, please describe all steps necessary to complete the work described in box #3. (For example, "remove existing shingles, replace wood deck as necessary, replace wood eaves, install roof vents, replace rotted fascia boards, paint, clean worksite.")

Remove existing rotted wood windows, and replace with new vinyl windows, also replace any rotted fascia boards, clean work site.

5. BROCHURES/CUT SHEETS

Please provide information on the products or materials you are proposing to install. For example, a brochure on the brand and color of the shingles proposed.

ADDITIONAL DETAILS

6. WINDOWS/DOORS

Detailed photographs of window(s) and/or door(s) proposed for replacement showing the condition of the interior and exterior of the window(s) and/or door(s)

ABOUT OUR WINDOWS

Durable. Beautiful. Custom crafted, made to order, and professionally installed.

Energy-efficient replacement windows from Renewal by Andersen offer the elegance, strength, and stability of wood, with the low-maintenance features of vinyl.

Investigate window styles below, or browse our different color (/windows-doors/options/window-colors), frame (/signature-service/fibrex-composite-material), grille (/windows-doors/options/grille-options)

colors), frame (/signature-service/fibrex-composite-material), grille (/windows-doors/options/grille-options), and hardware options (/windows-doors/options/window-hardware) to find the right style for your home. Ready to get started right now? Set up a free appointment (/forms/schedule-a-consultation) to work with one of our design consultants.

Made from the Andersen-exclusive Fibrex® composite material (/signature-service/fibrex-composite-material), your new windows will stand the test of time... and look great doing it. What's more, you'll have peace of mind knowing they were installed by one of our own crews of master installers—true craftspeople who have experience replacing windows in homes of all shapes, sizes, and styles.

Learn more about our installation process and the dedicated individuals (/signature-service/professional-installation) who will be working in your home.

Pick a performance metric: efficiency, strength and durability, maintenance, beauty...whichever factor is most important to you (and we hope they all are!), your Renewal by Andersen replacement windows can make a difference.

Energy Efficiency

Superior thermal insulating properties helps your home stay warmer in winter and cooler in summer and can help you save money on your energy bills (/signature-service/energy-efficiency).

Plus, 40% of the raw material by weight used to make Fibrex® material is reclaimed wood fiber. Our windows are available with glass options (/windows-doors/options/glass) that make them ENERGY STAR® certified—so not only will your home stay more comfortable, you can help keep your corner of the world is just a little bit greener.

Strength and Durability

Twice as strong as vinyl, Fibrex® material means weathertight seals stay weathertight. Its durable nature (/signature-service/20-year-durability-study) means that it can stand up to even the most extreme temperature swings, maintaining its stability and rigidity in all climates.

Low Maintenance

Your Renewal by Andersen® windows are warranted (/homeowner-help/warranty) not to flake, rust, blister, peel, crack, pit or corrode. And years down the road, they will be as easy to operate as the day they are installed.*

Beauty

The strength of Fibrex® material means narrower frames; narrower frames mean more glass—and more view. Plus, the extrusion process allows us to craft your windows to any shape—meaning you can match the architectural style of your home...or define a new look (/windows-doors/replacement-windows/specialty).

The process also fuses the color into the material, offering you a wide palette of long-lasting colors+ (/windows-doors/options/window-colors) to choose from—including dark exterior colors not found with most other replacement windows.

With stainable wood interiors (/windows-doors/options/window-colors) including oak, maple, and engineered pine, 11 hardware finishes (/windows-doors/options/window-hardware), and a variety of grille patterns (/windows-doors/options/grille-options), including colonial, prairie, and custom-designed, you can match your new windows to your home's current architecture, change your look, or complete a historically accurate renovation.

Need help deciding? Looking for a quote? Schedule a free in-home window consultation (/forms/schedule-a-consultation) with our window design experts or visit one of our showrooms (/map).
