Audra,

I will drop off the metal soffit / fascia color sample to Jennifer in the morning 9-9:30.

I took a picture of both metal samples to see the contrast.

Darker is the soffit / fascia color "graphite"

Lighter is the vertical metal siding color " "charcoal"

Subject: Metal soffit and fascia

Good morning,

As I continue to review the application, I just realized it would be helpful if you could provide a sample of the colored metal proposed for the soffit and fascia. As this is a large component on the structure, its coloring in conjunction with the standing seam metal and CMU blocks is important to know.

Please let me know when this sample is dropped off. I need to work remotely through next week, so I have left the current samples with Jennifer Ross to bring to the meeting. Thank you.

Regards,

Audra
