Subject: 708 Longfellow Garage Repair/Replace Options

Alanna,

Again my apologies for the delays in getting this information to you. As mentioned there are a few options:

1. Replace with tile. The **BUDGET** number to do a full replacement with tile would be \$ 55,000.00
2. Replace with Shingles. The **BUDGET** price to do a full garage roof replacement with shingles would be \$ 20,000.00. That is most likely higher than a residential asphalt roofing company as all of our crew members are tradesman and a large portion of the work is labor.

Please let me know which / if any of the above options you would like to proceed with.

Have a great day!

Thank you,

Stephanie Waymaster
