

**NOTE: Based on the scope of work, additional documentation may be required. See [www.detroitmi.gov/hdc](http://www.detroitmi.gov/hdc) for scope-specific requirements.**

**PROJECT DETAILS – TELL US ABOUT YOUR PROJECT**

**Instructions: Add project details using the text box in each section. If your details exceed the space provided, attach the details via the attachment icon for that section.**

<b>ePLANS PERMIT NUMBER:</b> (only applicable if you've already applied for permits through ePLANS)	N/A
--	-----

**GENERAL**

<p><b>1. DESCRIPTION OF EXISTING CONDITION</b>  <i>Please tell us about the current appearance and conditions of the areas you want to change. You may use a few sentences or attach a separate prepared document on the right. (For example, "existing roof on my garage is covered in gray asphalt shingles in poor condition.")</i></p> <p>Current windows are wood with aluminum storms over them.</p>	
<p><b>2. PHOTOGRAPHS</b>  <i>Help us understand your project. Please attach photographs of all areas where work is proposed.</i></p>	
<p><b>3. DESCRIPTION OF PROJECT</b>  <i>In this box, tell us about what you want to do at the areas described above in box #1. (For example, Install new asphalt shingle roofing at garage.)</i></p> <p>Install 17 same size vinyl replacement windows to home</p>	
<p><b>4. DETAILED SCOPE OF WORK</b>  <i>In this box, please describe all steps necessary to complete the work described in box #3. (For example, "remove existing shingles, replace wood deck as necessary, replace wood eaves, install roof vents, replace rotted fascia boards, paint, clean worksite.")</i></p> <p>Install 17 same size vinyl replacement windows to home and trim exterior in aluminum.</p>	
<p><b>5. BROCHURES/CUT SHEETS</b>  <i>Please provide information on the products or materials you are proposing to install. For example, a brochure on the brand and color of the shingles proposed.</i></p>	

**ADDITIONAL DETAILS**

<p><b>6. WINDOWS/DOORS</b> <i>Detailed photographs of window(s) and/or door(s) proposed for replacement showing the condition of the interior and exterior of the window(s) and/or door(s)</i></p>	

## COMMERCIAL GRADE FRAMES & SASHES

Buildings flex and shift in response to seasonal changes in temperature. These movements create pressure which destroys residential and builder grade windows. That's why we build far stronger commercial grade windows—they bear the load created by structural shift, decade after decade.

Theirs

Ours

Heavier frames hold up better. Our windows weigh roughly double what our competitors' do. That's because we use twice as much vinyl in the frames and sashes, as well as thicker glass panes to achieve optimal strength and longevity.

Many residential grade replacement windows including those made with wood, aluminum, and fiberglass are built with mechanically fastened corner joints, which inevitably leak air and moisture, allowing heat and humidity to infiltrate during the summer and to escape during the winter. We fusion weld each joint to ensure maximum strength, airtightness, and watertightness for the life of the window.

WeatherGard windows are **GUARANTEED FOR LIFE.** See [weathergard.com/warranty-and-service/](http://weathergard.com/warranty-and-service/) for more information.

## ENERGY EFFICIENCY

Ordinary residential replacement windows are known to crack and warp in as little as 7 or 8 years. The result is a severe decline in the windows' efficiency. WeatherGard windows are built to resist the deterioration, to maintain peak energy performance for life. Our average customer saves 35% on energy costs when they replace their aging windows with WeatherGard windows.

## SOLID CONSTRUCTION

Every WeatherGard window is approved for use in homes as well as in high-rise apartment buildings. You can have total confidence in our product if you're shopping for replacement windows for your home. Our window won't buckle under the pressure. Ever.

## ENGINEERED GLASS

The best windows in the world come with glass made by Cardinal®. It's the best insulated, longest lasting glass pack available, combining state of the art energy coatings with a warm edge stainless steel spacer.

## COLORS & STAINS

WeatherGard offers custom solar reflective paint options color matched to any color and back with an industry best 10-year finish warranty. We also offer our patented interior stains, which come in six finishes. Windows to your design without the maintenance.

# SHAPE, STYLE & CONFIGURATIONS

We offer every shape and style, including circle tops and trapezoids. Basically, if your architect can draw it, we can build it.

## SLIDING PATIO DOORS ENGINEERED FOR DURABILITY AND EASE OF USE

Our secure, customizable, sliding patio doors bring in a flood of room-brightening sunlight, and our multi-chamber design provides durability and energy efficiency for the life of your home. Our patio doors slide open smoothly and quietly thanks to patented dual-landem nylon rollers. All locking mechanisms are encased in galvanized steel reinforcement and our 2 point mortise locking system provides added security. All patio doors come with extruded aluminum screens with patented spring-loaded rollers for easy operation. WeatherGard patio doors are available in 2-panel, 3-panel and 4-panel configurations.
